(g) Limitations on Obligations.—The total amount of payments made during fiscal year 1989 as the result of agreements entered into under this section may not exceed $4,000,000.

(h) Report.—(1) Not later than September 1, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing a description of the manner in which the pilot test program provided for in this section is to be structured, including the minimum periods of service to be required for various levels of special pay under this section.

(2) Not later than February 1, 1990, the Secretary also shall submit to such committees an evaluation of the effectiveness of the program and recommendations for its continuation or modification.

(i) Effective Date.—The authority to enter into agreements under this section shall take effect 30 days after the date on which the committees referred to in subsection (h)(1) receive the report required by such subsection.

Part C—Other Personnel Benefits

SEC. 621. HOUSING LEASE INDEMNITY PROGRAM

(a) In General.—(1) Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§1055. Waiver of security deposits for members renting private housing; authority to indemnify landlord

"(a) The Secretary of Defense may carry out a program under which the Secretary of a military department agrees to indemnify a landlord who leases a rental unit to a member of the armed forces against a breach of the lease by the member or for damage to the rental unit caused by the member. In exchange for agreement for such indemnification by the Secretary, the landlord shall be required to waive any requirement for payment by the member of a security deposit that the landlord would otherwise require.

"(b)(1) For purposes of carrying out a program authorized by subsection (a), the Secretary of a military department, to the extent funds are provided in advance in appropriation Acts, may enter into an agreement with any landlord who agrees to waive the requirement for a security deposit in connection with the lease of a rental unit to a member of the armed forces under the jurisdiction of the Secretary. An agreement under this paragraph shall provide that—

"(A) the term of the agreement shall remain in effect during the term of the member's lease and during any lease renewal periods with the lessor;

"(B) the member shall not pay a security deposit;

"(C) the Secretary (except as provided in subparagraphs (D) and (E)) shall compensate the landlord for breach of the lease by the member and for damage to the rental unit caused by the member or by a guest or dependent of the member;

"(D) the total liability of the Secretary for a breach of the lease or for damage described in subparagraph (C) may not exceed an amount equal to the amount that the Secretary determines would have been required by the landlord as a security deposit in the absence of an agreement authorized in this paragraph;

"(E) the Secretary may not compensate the landlord for any claim for breach of the lease or for damage described in subparagraph (C) until the landlord exhausts any remedies available to the landlord (including submission to binding arbitration by a panel composed of military personnel and persons from the private sector) against the member for the breach or damage; and

"(F) the Secretary shall be subrogated to the rights of the landlord in any case in which the Secretary compensates the landlord for breach of the lease or for damage described in subparagraph (C).

"(2) Any authority of the Secretary of a military department under this section shall be exercised under regulations prescribed by the Secretary of Defense.

"(c)(1) The Secretary of a military department who compensates a landlord under subsection (b) for a breach of a lease or for damage described in subsection (b)(1)(C) may issue a special order under section 1007 of title 37 to authorize the withholding from the pay of the member of an amount equal to the amount paid by the Secretary to the landlord as compensation for the breach or damage.

"(2) Before the Secretary of a military department issues a special order under section 1007 of title 37 to authorize the withholding of any amount from the pay of a member for a breach or damage referred to in paragraph (1), the Secretary concerned shall provide the member with the same notice and opportunity for hearing and record inspection as provided an individual under section 5514(a)(2) of title 5. The Secretary concerned shall prescribe regulations, subject to the approval of the President, to carry out this paragraph. Such regulations shall be as uniform for the military departments as practicable.

"(d) In this section, the term 'landlord' means a person who leases a rental unit to a member of the armed forces.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1055. Waiver of security deposits for members renting private housing; authority to indemnify landlord.".

(b) Effective Date.—Section 1055 of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1988.

SEC. 622. RETIRED PAY INVERSIONS RESULTING FROM COURT-MARTIAL PUNISHMENT

(a) In General.—Section 1401a(f) of title 10, United States Code, is amended by inserting after the second sentence the following: "However, in the case of a member who, after initially becoming eligible for retired pay, is reduced in grade pursuant to a sentence of a court-martial, such computation may not be based on a grade higher than the grade in which the member is retired.".

(b) Effective Date.—The amendment made by subsection (a) shall take effect on the first day of the first month that begins after the date of the enactment of this Act and shall apply to the computation of the retired or retainer pay of members who initially become entitled to such pay on or after such effective date.

SEC. 623. TRAVEL AND TRANSPORTATION ALLOWANCES FOR EMERGENCY TRAVEL

(a) In General.—Section 411e(a) of title 37, United States Code, is amended by striking out "incident to the serious illness or injury or the death of a dependent of the member" and inserting in lieu thereof "incident to a personal emergency of the member".

(b) Effective Date.—The amendment made by subsection (a) shall apply with respect to travel performed after September 30, 1988.

SEC. 624. TRAVEL AND TRANSPORTATION ALLOWANCES INCIDENT TO VOLUNTARY EXTENSION OF OVERSEAS TOURS OF DUTY

(a) Change From Mandatory to Permissive.—Section 411g(a) of title 37, United States Code, is amended by striking out "is entitled" and inserting in lieu thereof "may be paid".

(b) Effective Date.—The amendment made by subsection (a) shall apply with respect to agreements to extend overseas tours *of duty made on and after the date of the enactment of this Act.*

SEC. 625. CIVILIAN CLOTHING ALLOWANCE

Section 419 of title 37, United States Code, is amended—

(1) by striking out "member" each place it appears and inserting in lieu thereof "officer";

(2) by striking out "is entitled" and inserting in lieu thereof "may be paid"; and

(3) by striking out "member's" and inserting in lieu thereof "officer's".

PART D—BENEFITS RELATING TO INCAPACITATION OF CERTAIN RESERVE MEMBERS IN LINE OF DUTY

SEC. 631. COMPENSATION FOR CERTAIN RESERVE MEMBERS

(a) AUTHORIZATION OF COMPENSATION.—Subsections (g) and (h) of section 204 of title 37, United States Code, are amended to read as follows:

"(g)(1) A member of a reserve component of a uniformed service is entitled to the pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service whenever such member is physically disabled as the result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from such duty or training.

"(2) In the case of a member who receives earned income from nonmilitary employment or self-employment performed in any month in which the member is otherwise entitled to pay and allowances under paragraph (1), the total pay and allowances shall be reduced by the amount of such income. In calculating earned income for the purpose of the preceding sentence, income from an income protection plan, vacation pay, or sick leave which the member elects to receive shall be considered.

"(h)(1) A member of a reserve component of a uniformed service who is physically able to perform his military duties, is entitled, upon request, to a portion of the monthly pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for each month for which the member demonstrates a loss of earned income from nonmilitary employment or self-employment as a result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from such duty or training.

"(2) The monthly entitlement may not exceed the member's demonstrated loss of earned income from nonmilitary or self-employment. In calculating such loss of income, income from an income protection plan, vacation pay, or sick leave which the member elects to receive shall be considered.".

(b) LIMIT ON TOTAL COMPENSATION.—Such section is further amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection (i):

"(i)(1) The total amount of pay and allowances paid under subsections (g) and (h) and compensation paid under section 206(a) of this title for any period may not exceed the amount of pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for that period.

"(2) Pay and allowances may not be paid under subsection (g) or (h) for a period of more than six months. The Secretary concerned may extend such period in any case if the Secretary determines that it is in the interests of fairness and equity to do so.

"(3) A member is not entitled to benefits under subsection (g) or (h) if the injury, illness, disease, or aggravation of an injury, illness, or disease is the result of the gross negligence or misconduct of the member.

"(4) Regulations with respect to procedures for paying pay and allowances under subsections (g) and (h) shall be prescribed—

"(A) by the Secretary of Defense for the armed forces under the jurisdiction of the Secretary; and

"(B) by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(c) CONFORMING AMENDMENT FOR INACTIVE-DUTY TRAINING.—Section 206(a) of such title is amended by striking out "for a period of 30 days or less" in paragraph (3)(A)(i).

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to persons who, after the date of enactment of this Act, incur or aggravate an injury, illness, or disease, or who die as the result of incurring or aggravating an injury, illness, or disease.

SEC. 632. TRAVEL FOR DEPENDENTS OF CERTAIN MEMBERS

(a) TRAVEL AUTHORIZED.—Paragraph (2) of section 411h(a) of title 37, United States Code, is amended to read as follows:

"(2) A member referred to in paragraph (1) is a member of the uniformed services who—

"(A) is serving on active duty or is entitled to pay and allowances under section 204(g) of this title (or would be so entitled were it not for offsetting earned income described in that section);

"(B) is seriously ill or seriously injured; and

"(C) is hospitalized in a medical facility in or outside the United States.".

(b) TRAVEL TO BURIAL CEREMONIES.—Section 411f(a) of such title is amended by striking out "for a period of 30 days or more in order to" and inserting in lieu thereof "or inactive duty in order that such dependents may".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1988.

SEC. 633. INJURY, DISABILITY, AND DEATH COMPENSATION COVERAGE FOR ROTC CADETS DURING MILITARY TRAINING ACTIVITIES

(a) AUTHORITY TO PRESCRIBE TRAINING.—(1) Subsection (a) of section 2109 of title 10, United States Code, is amended to read as follows:

"(a) For the further practical instruction of members of, and designated applicants for membership in, the program, the Secretary of the military department concerned may prescribe and conduct practical military training, in addition to field training and practice cruises prescribed under section 2104(b)(6) of this title. The Secretary concerned may require that some or all of the training prescribed under this subsection must be completed by a member before the member is commissioned.".

(2) Subsection (b) of such section is amended—

(A) by striking out "may—" and inserting in lieu thereof ", with respect to practical military training prescribed under this section and field training and practice cruises prescribed under section 2104(b)(6) of this title, may—"; and

(B) by striking out "field training" each place it appears and inserting in lieu thereof "such training".

(3)(A) The heading of such section is amended to read as follows:

"§2109. Practical military training".

(B) The item relating to such section in the table of sections at the beginning of chapter 103 of such title is amended to read as follows:

"2109. Practical military training.".

(b) COVERAGE FOR INJURY, DISABILITY, AND DEATH.—Section 8140 of title 5, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "disability or death from an injury" and inserting in lieu thereof "an injury, disability, or death"; and

(B) by striking out "field" before "training";

(2) in subsection (f), by striking out "while attending field training or a practice cruise under chapter 103 of title 10" and inserting in lieu thereof "by a military department in a facility of a military department"; and

(3) by adding at the end thereof the following new subsection:

"(g) For purposes of this section, the term 'applicant for membership' includes a student enrolled, during a semester or other enrollment term, in a course which is part of Reserve Officers' Training Corps instruction at an educational institution.".

(c) TRAINING INCLUDED WITHIN CERTAIN DEFINITIONS.—(1) Paragraph (22)(D) of section 101 of title 38, United States Code, is amended—

(A) by striking out "field"; and

(B) by inserting "for a period of not less than four weeks and which must be completed by the member before the member is commissioned" after "title 10".

(2) Paragraph (23) of such section is amended—

(A) by striking out "and" at the end of clause (A);

(B) by striking out the period at the end of clause (B) and inserting in lieu thereof "; and"; and

(C) by inserting after clause (B) the following new clause:

"(C) training (other than active duty for training) by a member of, or applicant for membership (as defined in section 8140(g) of title 5) in, the Senior Reserve Officers' Training Corps prescribed under chapter 103 of title 10.".

(d) PAY STATUS WHILE IN CERTAIN TRAINING.—Section 209(c) of title 37, United States Code, is amended by striking out "field training or practice cruises under section 2109 of title 10" and inserting in lieu thereof "training or practice cruises under chapter 103 of title 10 if the training or cruise is of at least four weeks duration and must be completed before the cadet or midshipman is commissioned.".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply only with respect to training performed after September 30, 1988.

PART E—HEALTH CARE MANAGEMENT PROVISIONS

SEC. 641. REQUIREMENT TO SUBMIT END STRENGTHS AND MANPOWER REPORT FOR MEDICAL PERSONNEL

(a) END STRENGTH REQUIREMENT.—Section 115(b)(1) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

"(D) At the same time the President submits the budget for any fiscal year to Congress pursuant to section 1105 of title 31, the Secretary of Defense shall submit to Congress recommendations for the end strength levels for medical personnel for each component of the armed forces as of the end of that fiscal year. For purposes of this subparagraph, the term 'medical personnel' includes—

"(i) in the Army, members of the Medical Corps, Dental Corps, Nurse Corps, Medical Service Corps, Veterinary Corps, and Army Medical Specialist Corps;

"(ii) in the Air Force, members designated as medical officers, dental officers, Air Force nurses, medical service officers, and biomedical science officers;

"(iii) in the Navy, members of the Medical Corps, Dental Corps, Nurse Corps, and Medical Service Corps;

"(iv) enlisted personnel engaged in or supporting medically-related activities; and

"(v) such other personnel as the Secretary considers appropriate.".

(b) MANPOWER REPORT REQUIREMENT.—Section 115(b)(3)(B) of such title is amended—

(1) by striking out "and" at the end of clause (ii);

(2) by striking out the period at the end of clause (iii) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new clause:

"(iv) the manpower required to perform the medical missions of the armed forces and the Department of Defense.".

SEC. 642. REQUIREMENTS WITH RESPECT TO CERTAIN NAVY MEDICAL PERSONNEL

Of the amount appropriated for operation and maintenance for the Navy for fiscal year 1989, $15,000,000 shall be available only for the pay and allowances of those civilian employees of the Navy—

(1) hired after September 30, 1988, to perform duties in support of Navy medical treatment facilities; and

(2) only to the extent that the number of such employees hired after that date results in a greater number of such employees performing those duties for the Navy than were performing those duties for the Navy on September 30, 1988.

SEC. 643. PROVISIONS RELATING TO NAVY HEALTH PROFESSION PERSONNEL

(a) REPEAL.—Section 723 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1116) is repealed.

(b) MINIMUM REQUIREMENTS.—(1) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1989, under section 401(2), 11,940 shall be available only for assignment to duties in health profession specialties.

(2) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1990, 12,240 shall be available only for assignment to duties in health profession specialties.

(3) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1991, 12,510 shall be available only for assignment to duties in health profession specialties.

SEC. 644. SHARING OF HEALTH-CARE RESOURCES BETWEEN THE DEPARTMENT OF DEFENSE AND THE VETERANS' ADMINISTRATION

Of the total amount appropriated for operation and maintenance for the Department of Defense for fiscal year 1989, $20,000,000 shall be available only for sharing health-care resources between the Department of Defense and the Veterans' Administration under section 5011 of title 38, United States Code, or under section 1535 of title 31, United States Code.

SEC. 645. EXTENSION OF TERMINATION DATE FOR FORMER PUBLIC HEALTH SERVICE HOSPITALS AND REQUIREMENT THAT SUCH HOSPITALS BE COST EFFECTIVE

Section 1252(e) of the Department of Defense Authorization Act, 1984 (42 U.S.C. 248d(e)), is amended—

(1) by striking out "1988" in the first sentence and inserting in lieu thereof "1990";

(2) by striking out "which identifies" in the second sentence and all that follows through the end of that sentence and inserting in lieu thereof the following: "which (1) identifies the facility whose status is being terminated, (2) specifies the date on which such status is being terminated, and (3) certifies that more cost-effective medical and dental care for members and former members of the uniformed services or their dependents is available elsewhere in the same geographic area."; and

(3) by inserting after the third sentence the following: "Each such copy of the order shall include a copy of the certification required in clause (3) of the second sentence of this subsection and shall contain cost data substantiating the termination decision and identifying how more cost-effective care could be provided to the affected individuals.".

SEC. 646. ELIGIBILITY OF CERTAIN INSTITUTIONS TO RECEIVE REIMBURSEMENT UNDER CHAMPUS

(a) ACTIVE-DUTY DEPENDENTS.—(1) Section 1079(b) of title 10, United States Code, is amended by adding at the end of paragraph (1) the following: "The Secretary of Defense may exempt a patient from paying such amount if the hospital to which the patient is admitted does not impose a legal obligation on any of its patients to pay for inpatient care.".

(2) Section 1079 of such title is further amended by adding at the end the following new subsection:

"(m)(1) Subject to paragraph (2), the Secretary of Defense may, upon request, make payments under this section for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) to a hospital that does not impose a legal obligation on any of its patients to pay for such services.

"(2) A payment under paragraph (1) may not exceed the average amount paid for comparable services in the geographic area in which the hospital is located or, if no comparable services are available in that area, in an area similar to the area in which the hospital is located.

"(3) The Secretary of Defense shall periodically review the billing practices of each hospital the Secretary approves for payment under this subsection to ensure that the hospital's practices of not billing patients for payment are not resulting in increased costs to the Government.

"(4) The Secretary of Defense may require each hospital the Secretary approves for payment under this subsection to provide evidence that it has sources of revenue to cover unbilled costs.".

(b) RETIREES AND THEIR DEPENDENTS.—(1) Section 1086(b) of title 10, United States Code, is amended in paragraph (3) by adding at the end the following: "The Secretary of Defense may exempt a patient from paying such charges if the hospital to which the patient is admitted does not impose a legal obligation on any of its patients to pay for inpatient care.".

(2) Section 1086 of such title is further amended by adding at the end the following new subsection:

"(h)(1) Subject to paragraph (2), the Secretary of Defense may, upon request, make payments under this section for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) to a hospital that does not impose a legal obligation on any of its patients to pay for such services.

"(2) A payment under paragraph (1) may not exceed the average amount paid for comparable services in the geographic area in which the hospital is located or, if no comparable services are available in that area, in an area similar to the area in which the hospital is located.

"(3) The Secretary of Defense shall periodically review the billing practices of each hospital the Secretary approves for payment under this subsection to ensure that the hospital's practices of not billing patients for payment are not resulting in increased costs to the Government.

"(4) The Secretary of Defense may require each hospital the Secretary approves for payment under this subsection to provide evidence that it has sources of revenue to cover unbilled costs.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to medical care received after September 30, 1988.

PART F—MISCELLANEOUS

SEC. 651. LIMITED EXTENSION OF CERTAIN MEDICAL BENEFITS FOR FORMER SPOUSES

(a) MEDICAL COVERAGE.—Section 1076 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(f)(1) A person described in paragraph (2) shall be considered a dependent for purposes of this section for a period of one year after the date of the person's final decree of divorce, dissolution, or annulment. In addition, if such a person purchases a conversion health policy within the one-year period referred to in the preceding sentence, such person shall be entitled, upon request, to medical and dental care prescribed by section 1077 of this title for a period of one year after the purchase of the policy for any condition of the person that existed on the date on which coverage under the policy begins and for which care is not provided under that policy.

"(2) A person referred to in paragraph (1) is a person who would qualify as a dependent under section 1072(2)(G) but for the fact that the person's final decree of divorce, dissolution, or annulment is dated on or after April 1, 1985.

"(3) In this subsection, the term 'conversion health policy' means a health insurance plan with a private insurer, developed through negotiations between the Secretary of Defense and a private insurer, that is available for purchase by or for the use of persons described in paragraph (2).".

(b) CONFORMING AMENDMENT.—Section 645(c) of the Department of Defense Authorization Act, 1985 (10 U.S.C. 1072 note) is repealed effective as of the effective date of section 1076(f) of title 10, United States Code (as added by subsection (a)).

(c) TRANSITION.—Any person who qualified as a dependent under section 645(c) of the Department of Defense Authorization Act, 1985, as in effect before its repeal by subsection (b), shall remain qualified as a dependent as specified in that section and shall become eligible for benefits in accordance with section 1076(f) of title 10, United States Code (as added by subsection (a)), when no longer qualified as a dependent pursuant to such section 645(c).

(d) EFFECTIVE DATE.—Section 1076(f) of title 10, United States Code, as added by subsection (a), shall take effect on the date of enactment of this Act or 30 days after the Secretary of Defense first makes available a conversion health policy (as defined in such section), whichever is later. Such section shall apply to persons whose decree of divorce, dissolution, or annulment becomes final after the date of the enactment of this Act.

SEC. 652. TECHNICAL CORRECTION TO SURVIVOR BENEFIT PLAN COVERAGE OF FORMER SPOUSES

(a) INCLUSION OF FORMER SPOUSES IN SAVINGS PROVISION.—Section 1451(e)(1) of title 10, United States Code, is amended—

(1) by striking out "widow or widower" in subparagraph (A) and inserting in lieu thereof "widow, widower, or former spouse"; and

(2) by inserting "or former spouse" in subparagraph (B) after "A spouse".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to payments under the Survivor Benefit Plan established under subchapter II of chapter 73 of title 10, United States Code, for periods after February 28, 1986.

SEC. 653. ANNUITY FOR CERTAIN SURVIVING SPOUSES

(a) ANNUITY.—(1) The Secretary concerned shall pay an annuity to the qualified surviving spouse of each member of the uniformed services who—

(A) died before November 1, 1953; and

(B) was entitled to retired or retainer pay on the date of death.

(2) A qualified surviving spouse for purposes of this section is a surviving spouse who has not remarried and who is eligible for an annuity under section 4 of Public Law 92-425 (10 U.S.C. 1448 note).

(b) AMOUNT OF ANNUITY.—(1) An annuity payable under this section shall be paid at the rate of $165 per month, as adjusted from time to time under subsection (c).

(2) An annuity paid to a surviving spouse under this section shall be reduced by the amount of dependency and indemnity compensation (DIC) to which the surviving spouse is entitled under section 411(a) of title 38, United States Code.

(c) COST-OF-LIVING INCREASES.—Whenever retired or retainer pay is increased under section 1401a(b)(2) of title 10, United States Code, each annuity that is payable under this section shall be increased at the same time and by the same total percent. The amount of the increase shall be based on the monthly annuity payable before any reduction under this section.

(d) RELATIONSHIP TO OTHER PROGRAMS.—An annuity paid to a surviving spouse under this section is in addition to any pension to which the surviving spouse is entitled under subchapter III of chapter 15 of title 38, United States Code, or section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978 (38 U.S.C. 521 note), and any payment made under the provisions of section 4 of Public Law 92-425. An annuity paid under this section shall not be considered as income for the purposes of eligibility for any such pension.

(e) DEFINITIONS.—For purposes of this section:

(1) The terms "uniformed services" and "Secretary concerned" have the meanings given those terms in section 101 of title 37, United States Code.

(2) The term "surviving spouse" has the meaning given the terms "widow" and "widower" in paragraphs (3) and (4), respectively, of section 1447 of title 10, United States Code.

(f) EFFECTIVE DATE.—Annuities under this section shall be paid for months beginning after the month in which this Act is enacted. No benefit shall accrue to any person by reason of the enactment of this section for any period before the first month referred to in the preceding sentence. No benefit shall be paid to any person under this section unless an application for such benefit has been filed with the Secretary concerned by or on behalf of such person.

SEC. 654. REPORT ON DEFINITION OF DEPENDENT FOR CERTAIN PURPOSES

(a) REPORT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the desirability of providing in law a more uniform and consistent definition of the term "dependent" for the purpose of determining the eligibility of a person, based upon the relationship of such person to a member or former member of the uniformed services, for various rights and benefits provided by law, including the following:

(1) Pay and allowances under title 37, United States Code.

(2) Rights and benefits (including eligibility for travel and commissary store privileges) under chapters 53 and 54 of title 10, United States Code.

(3) Medical and dental care under chapter 55 of title 10, United States Code.

(b) DEADLINE FOR REPORT.—The Secretary shall submit the report required by subsection (a) not later than March 15, 1989, together with such comments and recommendations for legislation as he considers appropriate.

TITLE VII—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

PART A—ORGANIZATION

SEC. 701. AUTHORITY TO ESTABLISH POSITION OF ASSISTANT SECRETARY OF DEFENSE FOR INTELLIGENCE

Paragraph (3) of section 136(b) of title 10, United States Code, is amended to read as follows:

"(3)(A) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence. He shall have as his principal duty the overall supervision of command, control, communications, and intelligence affairs of the Department of Defense.

"(B) Notwithstanding subparagraph (A), one of the Assistant Secretaries established by the Secretary of Defense may be an Assistant Secretary of Defense for Intelligence, who shall have as his principal duty the overall supervision of intelligence affairs of the Department of Defense.

"(C) If the Secretary of Defense establishes an Assistant Secretary of Defense for Intelligence, the Assistant Secretary provided for under subparagraph (A) shall be the Assistant Secretary of Defense for Command, Control, and Communications and shall have as his principal duty the overall supervision of command, control, and communications affairs of the Department of Defense.".

SEC. 702. DESIGNATION IN EACH MILITARY DEPARTMENT OF ASSISTANT SECRETARY WITH RESPONSIBILITY FOR FINANCIAL MANAGEMENT

(a) DEPARTMENT OF THE ARMY.—(1) Section 3016(b) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(4) One of the Assistant Secretaries shall be the Assistant Secretary of the Army for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Army, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Army and shall advise the Secretary of the Army on financial management.".

(2) Chapter 303 of such title is amended by adding at the end the following new section:

"§3022. Financial management

"(a) The Secretary of the Army shall provide that the Assistant Secretary of the Army for Financial Management shall direct and manage financial management activities and operations of the Department of the Army, including ensuring that financial management systems of the Department of the Army comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Army and otherwise carry out, with respect to the Department of the Army, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Army; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Army, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Army (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Army proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Army for Financial Management shall transmit to the Secretary of the Army a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Army financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"3022. Financial management.".

(b) Department of the Navy.—Section 5016(b) of such title is amended by adding at the end the following new paragraph:

"(3) One of the Assistant Secretaries shall be the Assistant Secretary of the Navy for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Navy, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Navy and shall advise the Secretary of the Navy on financial management.".

(2) Chapter 503 of such title is amended by adding at the end the following new section:

"§5025. Financial management

"(a) The Secretary of the Navy shall provide that the Assistant Secretary of the Navy for Financial Management shall direct and manage financial management activities and operations of the Department of the Navy, including ensuring that financial management systems of the Department of the Navy comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Navy and otherwise carry out, with respect to the Department of the Navy, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Navy; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Navy, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Navy (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Navy proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Navy for Financial Management shall transmit to the Secretary of the Navy a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Navy financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"5025. Financial management.".

(c) Department of the Air Force.—Section 8016(b) of such title is amended by adding at the end the following new paragraph:

"(3) One of the Assistant Secretaries shall be the Assistant Secretary of the Air Force for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Air Force, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Air Force and shall advise the Secretary of the Air Force on financial management.".

(2) Chapter 803 of such title is amended by adding at the end the following new section:

"§8022. Financial management

"(a) The Secretary of the Air Force shall provide that the Assistant Secretary of the Air Force for Financial Management shall direct and manage financial management activities and operations of the Department of the Air Force, including ensuring that financial management systems of the Department of the Air Force comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Air Force and otherwise carry out, with respect to the Department of the Air Force, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Air Force; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Air Force, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Air Force (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Air Force proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Air Force for Financial Management shall transmit to the Secretary of the Air Force a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Air Force financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"8022. Financial management.".

(d) Number of Assistant Secretaries in the Department of the Air Force.—Section 8016(a) of such title is amended by striking out "three" and inserting in lieu thereof "four".

(e) Effective Dates.—(1) The amendments made by subsections (a) and (b) shall take effect on January 20, 1989.

(2) The amendments made by subsections (c) and (d) shall take effect on July 1, 1989, except that such amendments shall take effect on such earlier date, but not before January 21, 1989, as may be prescribed by the President in advance by Executive Order.

SEC. 703. GENERAL COUNSELS OF MILITARY DEPARTMENTS

(a) Requirement for Advice and Consent of Senate.—Sections 3019, 5019, and 8019 of title 10, United States Code, are each amended by inserting ", by and with the advice and consent of the Senate" after "President".

(b) Applicability.—The amendments made by this section shall apply to appointments made under sections 3019, 5019, and 8019, respectively, of title 10, United States Code, on and after the date of the enactment of this Act.

SEC. 704. DEFERRAL OF RETIREMENT DATE FOR CHAIRMAN OF THE JOINT CHIEFS OF STAFF

Notwithstanding the limitation contained in the first sentence of subsection (b) of section 1251 of title 10, United States Code, the President may defer until October 1, 1989, the retirement of the officer serving as Chairman of the Joint Chiefs of Staff for the term which began on October 1, 1987.

Part B—Force Structure

SEC. 711. ASSIGNMENT OF COMBATANT FORCES

Section 162(a) of title 10, United States Code, is amended—

(1) in paragraph (1), by inserting "or to the United States element of the North American Air Defense Command" in the first sentence after "combatant commands";

(2) in paragraph (2), by inserting "or to the United States element of the North American Air Defense Command" after "combatant commands"; and

(3) in paragraph (3), by inserting "or to the United States element of the North American Air Defense Command" after "combatant command".

SEC. 712. RESPONSIBILITY AND AUTHORITY OF COMMANDER OF SPECIAL OPERATIONS COMMAND

Section 167(e) of title 10, United States Code, is amended—

(1) by striking out "activities, including the following functions:" and inserting in lieu thereof "activities.

"(2) The commander of such command shall be responsible for, and shall have the authority to conduct, the following functions relating to special operations activities (whether or not relating to the special operations command):";

(2) by striking out subparagraphs (F) and (G);

(3) by redesignating subparagraphs (B) through (E) as subparagraphs (D) through (G), respectively,;

(4) by inserting after subparagraph (A) the following new subparagraphs:

"(B) Preparing and submitting to the Secretary of Defense program recommendations and budget proposals for special operations forces and for other forces assigned to the special operations command.

"(C) Exercising authority, direction, and control over the expenditure of funds—

"(i) for forces assigned to the special operations command; and

"(ii) for speical operations forces assigned to unified combatant commands other than the special operations command, with respect to all matters covered by paragraph (4) and, with respect to a matter not covered by paragraph (4), to the extent directed by the Secretary of Defense.".

(5) by striking out paragraph (2) (as in effect immediately before the enactment of this Act) and inserting in lieu thereof the following:

"(3) The commander of the special operations command shall be responsible for—

"(A) ensuring the combat readiness of forces assigned to the special operations command; and

"(B) monitoring the preparedness to carry out assigned missions of special operations forces assigned to unified combatant commands other than the special operations command.

"(4)(A) The commander of the special operations command shall be responsible for, and shall have the authority to conduct, the following:

"(i) Development and acquisition of special operations-peculiar equipment.

"(ii) Acquisition of special operations-peculiar material, supplies, and services.";

(6) by striking out "(3) Subject to" and inserting in lieu thereof "(B) Subject to";

(7) by striking out "paragraph (1)(G)" and inserting in lieu thereof "subparagraph (A)"; and

(8) by designating the sentence beginning "The staff of the commander" as subparagraph (C).

SEC. 713. STRATEGIC AIR DEFENSE ALERT MISSION

(a) LIMITATION.—Except as provided in subsection (b)(2), the Secretary of the Air Force may not make any change in the alert status of any Air National Guard unit in the strategic air defense mission in the northern portion of the United States, or in the deployment of units assigned to that mission, from that status and deployment as in effect on April 10, 1988.

(b) REPORT.—(1) After the North Warning System and the Over-the-Horizon Backscatter Radar System are deployed and in operation as replacements for the Distant Early Warning (DEW line) system, the Secretary of Defense, acting through the Chairman of the Joint Chiefs of Staff, shall submit to Congress a report on those systems. The report shall—

(A) describe the implementation of those systems and their operational capability and effectiveness as demonstrated up to the time of the report;

(B) describe plans, in light of those new systems, for the forward deployment of the interceptor aircraft from United States bases during periods of heightened international tension; and

(C) clarify the alert status in the strategic air defense mission, under those new systems, of elements of the Air Force (including elements of the reserve components) at Air Force bases in the northern portions of the United States.

(2) The limitation in subsection (a) shall cease to apply 180 days after the date on which Congress receives the report required by paragraph (1).

(c) INTERIM REPORT.—Not later than February 1, 1989, the Secretary of Defense, acting through the Chairman of the Joint Chiefs of Staff, shall submit to Congress a report setting forth in detail each of the following:

(1) A description of the radar surveillance system and the alert and non-alert interceptor aircraft which will be available during each of fiscal years 1989, 1990, and 1991 along the northern border of the United States to carry out the strategic air defense mission.

(2) A description of the specific contributions to the strategic air defense mission expected to be made by the units identified in subsection (a) during each of those fiscal years.

(3) A specific recommendation as to whether the limitation in subsection (b) should be renewed and made permanent after fiscal year 1989.

SEC. 714. REPORTS ON BUDGETS FOR UNIFIED AND SPECIFIED COMMANDS

(a) REPORTS BY COMMANDERS OF COMBATANT COMMANDS.—(1) The commander of each of the unified and specified commands shall, not later than April 1, 1989, prepare an independent report on the implementation of the resource allocation provisions of title 10, United States Code, enacted by the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433) that are specified in paragraph (2) and any other resource allocation provision enacted by that Act which the commander concerned considers appropriate.

(2) The sections of title 10, United States Code, referred to in paragraph (1) are the following:

(A) Section 153(a)(4) (A), (B), (C), and (D), relating to advice on requirements, program, and budget.

(B) Section 163(b)(2), relating to the role of the Chairman as spokesman for the commanders of the unified and specified combatant commands.

(C) Section 166, relating to budget proposals for such commands.

(b) MATTERS TO BE INCLUDED.—Each report required by subsection (a) shall address the following matters:

(1) The status of implementation of each of the provisions referred to in subsection (a)(2) and any other related resource allocation provisions.

(2) For any provision referred to in subsection (a)(2) that is not fully implemented and for which the commander is responsible or shares responsibility, the date estimated by the commander concerned for final implementation of such provisions.

(3) An evaluation of the effect that each provision referred to in subsection (a)(2) has had or will have on (A) improving decisions within the Department of Defense with respect to the allocation of resources, and (B) improving the implementation of such decisions.

(4) With respect to section 166 of title 10, United States Code, the assessment by the commander, supported by actual examples, of what the effect would be of a small budget (in an annual amount of not more than $50,000,000) that would be managed by the Chairman of the Joint Chiefs of Staff but which would be controlled for execution by the commander and that would be available for activities to which the commander assigns a high priority, such as—

(A) JCS/non-JCS exercises (including foreign country participation);

(B) on-going contingencies;

(C) command and control;

(D) training; and

(E) selected operations.

(5) The views of the commander on the optimum role of the unified and specified commands in resource allocation decisionmaking and execution within the Department of Defense.

(6) The assessment of the commander concerning the degree to which that optimum role is played, as of the time of the preparation of the report, by his command.

(7) The assessment of the commander of whether current law, regulations, policies, and procedures provide the latitude for his command to play that optimum role.

(c) REPORT BY CHAIRMAN OF JOINT CHIEFS OF STAFF.—(1) The Chairman of the Joint Chiefs of Staff shall, not later than April 1, 1989, prepare a report on the implementation of the resource allocation provisions of title 10, United States Code, enacted by the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433) that are specified in paragraph (2) and any other resource allocation provision enacted by that Act which the Chairman considers appropriate.

(2) The sections of title 10, United States Code, referred to in paragraph (1) are the following:

(A) Section 113(g), relating to annual guidance by the Secretary of Defense to the heads of Department of Defense components.

(B) Section 153(a)(2)(A), relating to the preparation of strategic plans.

(C) Section 153(a)(3)(C), relating to the preparation and review of contingency plans.

(D) Section 153(a)(4), relating to advice by the Chairman to the Secretary of Defense concerning the requirements, programs, and budget of the Department of Defense.

(E) Section 163(b)(2), relating to the role of the Chairman as spokesman for the commanders of the unified and specified combatant commands.

(F) Section 166, relating to budget proposals for such commands.

(d) MATTERS TO BE INCLUDED.—The report required by subsection (c) shall address the following matters:

(1) The status of implementation of each of the provisions referred to in subsection (c)(2) and any other related resource allocation provisions.

(2) For any provision referred to in subsection (c)(2) that is not fully implemented, the

date estimated by the Chairman for final implementation of such provisions.

(3) An evaluation of the effect that each provision referred to in subsection (c)(2) has had or will have on (A) improving decisions within the Department of Defense with respect to the allocation of resources, and (B) improving the implementation of such decisions.

(4) The views of the Chairman on the optimum role of the unified and specified commands, the Joint Staff, and the Chairman in resource allocation decisionmaking and execution within the Department of Defense.

(5) The assessment of the Chairman concerning the degree to which those optimum roles are played, as of the time of the preparation of the report, by the unified and specified commands, the Joint Staff, and the Chairman.

(6) The assessment of the Chairman of whether current law, regulations, policies, and procedures provide the latitude for the unified and specified commands, the Joint Staff, and the Chairman to play those optimum roles.

(e) Submission of Reports.—The commanders of the unified and specified commands shall each submit the report required by subsection (a) to the Secretary of Defense. The Chairman of the Joint Chiefs of Staff shall submit the report required by subsection (c) to the Secretary. The Secretary shall transmit those reports, without change, to the Committees on Armed Services of the Senate and House of Representatives not later than April 1, 1989, together with such comments on the reports and such recommendations as the Secretary considers appropriate.

SEC. 715. REPORT ON INITIAL REVIEW OF UNIFIED COMMAND PLAN AND INITIAL REVIEW OF SERVICE ROLES AND MISSIONS

(a) Report Requirement.—Not later than April 1, 1989, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of sections 153(b) and 161(b) of title 10, United States Code.

(b) Initial Review of Service Roles and Missions.—With respect to the initial report of the Chairman of the Joint Chiefs of Staff to the Secretary of Defense under such section 153(b) (relating to the assignment of functions (or roles and missions) to the Armed Forces), the report under subsection (a) shall particularly describe how such report addressed each of the matters that the Chairman was required (under the second sentence of such section) to consider in preparing the report.

(c) Initial Review of the Unified Command Plan.—With respect to the initial review of the Chairman under such section 161(b) (relating to the missions, responsibilities, and force structures of the unified and specified combatant commands), the report under subsection (a) shall particularly describe how such review took into consideration each of the matters specified in paragraphs (1) through (10) of section 212(a) of the Goldwater-Nickles Department of Defense Reorganization Act of 1986 (Public Law 99-433; 100 Stat. 1017).

(d) Matters To Be Included.—The report under subsection (a) shall describe, with respect to the reports referred to in subsections (b) and (c)—

(1) the Secretary's evaluation of each of the findings and conclusions of the Chairman in each such report;

(2) how the Secretary has implemented (or proposes to implement) each of the recommendations in each such report; and

(3) such recommendations for further legislative and administrative action as the Secretary considers appropriate based on his review of the reports.

PART C—PERSONNEL-RELATED PROVISIONS

SEC. 721. REGULATIONS FOR DELIVERY OF MILITARY PERSONNEL TO CIVIL AUTHORITIES WHEN CHARGED WITH CERTAIN OFFENSES

(a) Not later than 90 days after the date of enactment of this Act, the Secretary of Defense shall ensure that the Secretaries of the military departments have issued uniform regulations pursuant to section 814 of title 10, United States Code, to provide for the delivery of members of the Armed Forces to civilian authority when such members have been accused of offenses against civil authority. Such regulations shall specifically provide for the delivery of such members to civilian authority, in appropriate cases, when such members are accused of parental kidnapping and other similar offenses, including criminal contempt arising from such offenses and from child custody matters, and shall specifically address the special needs for the exercise of the authority contained in section 814 of title 10, United States Code, when members of the Armed Forces assigned overseas are accused of offenses by civilian authorities.

(b) Not later than 120 days after the enactment of this Act, the Secretary of Defense shall transmit to the Committees on Armed Services of the Senate and House of Representatives a copy of all regulations promulgated under section 814 of title 10, United States Code, as a result of this section and any recommendations that the Secretary may have concerning the need for additional legislation related to the amenability of members of the Armed Forces to civil authority.

SEC. 722. ANNUITIES FOR JUDGES OF UNITED STATES COURT OF MILITARY APPEALS

(a) In General.—Section 867 of title 10, United States Code (article 67 of the Uniform Code of Military Justice), is amended by adding at the end the following new subsection:

"(i)(1) A judge of the United States Court of Military Appeals who is separated from civilian service in the Federal Government after completing the term of service for which he was appointed as a judge of the court is eligible for an annuity under this subsection. An individual who is a former judge of the court who is separated from civilian service in the Federal Government and who completed the term of service on the court for which he was appointed is eligible for an annuity under this subsection. A judge or former judge who is eligible for an annuity under this subsection shall be paid that annuity if he elects, at the time he becomes eligible to receive that annuity, in lieu of any other annuity for which he may be eligible at the time of such election (whether an immediate or a deferred annuity) under subchapter III of chapter 83 or chapter 84 of title 5 or any other retirement system for civilian employees of the Federal Government. Such an election may not be revoked.

"(2) The annuity of a judge or former judge under this subsection is 80 percent of the rate of pay for a judge in active service on the United States Court of Military Appeals as of the date on which the judge or former judge is separated from civilian service.

"(3) Nothing in this subsection affects any right of a judge or former judge to participate in the thrift savings plan under subchapter III of chapter 84 of title 5.

"(4) The Secretary of Defense shall prescribe by regulation a program to provide annuities for survivors and former spouses of judges and former judges who receive an annuity under this subsection. That program shall, to the maximum extent practicable, provide benefits and establish terms and conditions that are similar to those provided under survivor and former spouse annuity programs under retirement systems for civilian employees of the Federal Government. The program may include provisions for the reduction in the annuity paid the judge or former judge as a condition for the annuity. An election by a judge or former judge to receive an annuity under this subsection terminates any right or interest which any individual may have to an annuity under any other retirement system for civilian employees of the Federal Government based on the service of the judge or former judge.

"(5) The Secretary of Defense shall periodically increase annuities and survivor annuities paid under this subsection in order to take account of changes in the cost of living. The Secretary shall prescribe by regulation procedures for increases in annuities under this subsection. Such system shall, to the maximum extent appropriate, provide cost-of-living adjustments that are similar to those that are provided under other retirement systems for civilian employees of the Federal Government.

"(6) A retired judge or former judge of the court who is receiving an annuity under this subsection and who is appointed to a position in the Federal Government shall, during the period of such retired judge's or former judge's service in such position, be entitled to receive only the annuity under this subsection or the pay for that position, whichever is paid at the higher rate.

"(7) A retired judge or former judge who is entitled to an annuity under this subsection and who later is appointed as a justice or judge of the United States to hold office during good behavior and who retires from that office, or from regular active service in that office, shall be paid either (A) the annuity under this subsection, or (B) the annuity or salary to which he is entitled by reason of his service as such a justice or judge of the United States, as determined by an election by the judge or former judge at the time of such retirement from the office, or from regular active service in the office, of justice or judge of the United States. Such an election may not be revoked.

"(8) Annuities and survivor annuities paid under this subsection shall be paid out of the Department of Defense Military Retirement Fund.".

(b) Deadline for Establishment of Survivor Program.—The Secretary of Defense shall establish the program required by paragraph (4) of section 867(i) of title 10, United States Code, as added by subsection (a), not later than one year after the date of the enactment of this Act.

(c) Technical Amendment.—Section 867(a)(4) of title 10, United States Code, is amended by inserting "or an annuity under subsection (i) or subchapter III of chapter 83 or chapter 84 of title 5" after "retired pay" both places it appears.

(d) Effective Date.—Subsection (i) of section 867 of title 10, United States Code, as added by subsection (a), shall apply with respect to judges of the United States Court of Military Appeals whose term of service on such court ends on or after the date of the enactment of this Act and to the survivors of such judges.

PART D—OTHER

SEC. 731. ANNUAL NET ASSESSMENTS

Section 113(j) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(j)";

(2) by striking out the second sentence; and

(3) by adding at the end the following:

"(2) Each such report shall—

"(A) include a comparison of the defense capabilities and programs of the armed forces of the United States and its allies with the armed forces of potential adversaries of the United States and allies of the United States;

"(B) include an examination of the trends experienced in those capabilities and programs during the five years immediately preceding the year in which the report is transmitted and an examination of the expected trends in those capabilities and programs during the five years covered by the Five-Year Defense Program submitted to Congress during that year pursuant to section 114(g) of this title;

"(C) reflect, in the overall assessment and in the strategic and regional assessments, the defense capabilities and programs of the armed forces of the United States specified in the budget submitted to Congress under section 1105 of title 31 in the year in which the report is submitted and in the five-year defense program submitted in such year; and

"(D) identify the deficiencies in the defense capabilities of the armed forces of the United States in such budget and such five-year defense program.

"(3) The Secretary shall transmit to Congress the report required for each year under paragraph (1) at the same time that the President submits the budget to Congress under section 1105 of title 31 in that year. Such report shall be transmitted in both classified and unclassified form.".

SEC. 732. LINKAGE OF NATIONAL MILITARY STRATEGY AND WEAPON ACQUISITION PROGRAMS

(a) FINDINGS.—Congress makes the following findings:

(1) The Final Report to the President by the President's Blue Ribbon Commission on Defense Management (the "Packard Commission"), the Defense Acquisition Study of the Center for Strategic and International Studies, and the Report of the Commission on Integrated Long-term Strategy (referred to as "Discriminate Deterrence") have separately identified significant deficiencies in the integration of weapon acquisition programs of the Department of Defense with national military strategy.

(2) There is no established process involving the Office of the Secretary of Defense and the Joint Staff in which strategy, policy, operational concepts, and resource constraints are fully debated, coordinated, and translated into weapon acquisition programs. The dominant role of setting requirements for new weapon systems remains with the headquarters staffs of the military departments, and the requirements developed by those departments often do not appear to have been rigorously evaluated in terms of their overall contribution to national military strategy.

(3) The requirements and planning process of the Department of Defense is not constrained by realistic projections of future defense budgets. Consequently, the process is fiscally unrealistic and, therefore, largely ignored in the subsequent planning and budgeting process. This process often results in disparate plans that do not optimize the potential contribution of the acquisition programs of each military department to the objectives of national military strategy.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that—

(1) to ensure that the United States develops and acquires the proper mix of weapon systems to support national military strategy most effectively and efficiently, the Office of the Secretary of Defense and the Joint Staff should better define the links between national military strategy and specific acquisition programs;

(2) the Office of the Secretary of Defense, the Joint Staff, and the headquarters of the unified and specified combatant commands should more clearly define the necessary operational capabilities and concepts of operations as part of the requirements process and should explicitly consider alternative acquisition programs based on probable levels of resources likely to be approved by Congress and trade-offs among the acquisition programs of the military departments;

(3) the Secretary of Defense should ensure that resulting acquisition programs clearly reflect the objectives of national military strategy; and

(4) the Secretary of Defense should commission an independent study to assess the degree to which the development and acquisition of weapon systems is currently linked to and determined by the national military strategy and to recommend improvements where necessary or desirable.

SEC. 733. REPORT ON FUNDING FOR THE AMMUNITION PRODUCTION BASE

(a) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the maintenance of the inactive portion of the Government-owned ammunition production base is critical to the defense of the United States; and

(2) that sufficient funding should be provided to maintain this base to meet surge requirements and mobilization requirements of the military departments.

(b) STUDY OF ALTERNATIVES.—The Secretary of Defense shall study alternatives to the current method of providing funds for maintenance of the ammunition production base in order to determine if there are methods other than the current one which would better ensure that appropriate levels of funds are used for the maintenance of that production base.

(c) REPORT.—The Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the alternative methods considered by the Secretary under subsection (b) for providing funds for the ammunition production base. The Secretary shall include in the report such comments and recommendations with respect to such methods, including recommendations for legislation, as the Secretary considers appropriate. The report shall be submitted not later than December 1, 1988.

SEC. 734. SENSE OF CONGRESS CONCERNING DECLASSIFICATION OF CLASSIFIED INFORMATION

It is the sense of Congress that the Secretary of Defense should take all reasonable measures to declassify classified material under the control of the Department of Defense that the Secretary determines to be no longer required in the interest of national security to be protected from unauthorized disclosure.

SEC. 735. ADVANCE PAYMENTS OF ADMINISTRATIVE CLAIMS

(a) INCREASE IN MAXIMUM PAYMENT.—Subsection (a) of section 2736 of title 10, United States Code, is amended to read as follows:

"(a)(1) In the case of a person who is injured or killed, or whose property is damaged or lost, under circumstances for which the Secretary of a military department is authorized by law to allow a claim, the Secretary of the military department concerned may make a payment to or for the person, or the legal representatives of the person, in advance of the submission of such a claim or, if such a claim is submitted, in advance of the final settlement of the claim. The amount of such a payment may not exceed $100,000.

"(2) Payments under this subsection are limited to payments which would otherwise be payable under section 2733 or 2734 of this title or section 715 of title 32.

"(3) The Secretary of a military department may delegate the authority to make payments under this subsection to the Judge Advocate General of an armed force under the jurisdiction of the Secretary. The Secretary may delegate such authority to any other officer or employee under the jurisdiction of the Secretary, but only with respect to the payment of amounts of $25,000 or less.

"(4) Payments under this subsection shall be made under regulations prescribed by the Secretary of the military department concerned.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to any claim which would otherwise be payable under section 2733 or 2734 of title 10, United States Code, or under section 715 of title 32, United States Code, and which has not been finally settled on or before the date of the enactment of this Act.

SEC. 736. ENERGY EFFICIENCY INCENTIVE

(a) ENERGY CONSERVATION INCENTIVE.—In order to provide additional incentive for the Secretary of a military department to enter into contracts under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), the Secretary may use the first-year energy cost savings (as defined in subsection (d)) realized under any such contract in the manner provided in subsection (b). The amount of savings available for use under subsection (b) shall be determined as provided in subsection (c) and shall remain available for obligation until expended.

(b) AUTHORIZED USES OF SAVINGS—First-year energy cost savings may be used as follows:

(1) One-half of the amount of such savings may be used for the acquisition of energy conserving measures at a military installation in addition to any such energy conserving measures provided for that installation under a contract entered into under title VIII of the National Conservation Energy Policy Act.

(2) One-half of the amount of such savings may be used for any morale, welfare, or recreation facility or service that is normally provided with appropriated funds, or for any minor military construction project (as defined in section 2805(a) of title 10, United States Code), that will enhance the quality of life of members of the Armed Forces at the military installation at which the energy cost savings were realized.

(c) DETERMINATION OF AMOUNT OF SAVINGS.—Not more than 90 days after the end of the first year during which energy savings measures have been in operation under a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act, the Secretary of the military department concerned shall determine the amount of first-year energy cost savings realized under the terms of the contract during that year by the military department concerned by reason of the energy savings measures acquired and installed at that installation pursuant to that contract.

(d) DEFINITION.—For purposes of this section, the term "first-year energy cost savings" means the savings realized by the United States during the first year of a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act.

TITLE VIII—ACQUISITION POLICY AND MANAGEMENT

PART A—ACQUISITION MANAGEMENT

SEC. 801. INTEGRATED FINANCING POLICY

(a) IN GENERAL.—(1) Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§2330. Integrated contract financing, return on investment, and risk-sharing policy

"(a) PLAN.—The Secretary of Defense shall develop and keep current a plan that ensures that Department of Defense policies referred to in subsection (d) are structured to meet the long-term needs of the Department of Defense for industrial resources and technology innovation. In developing the plan and keeping such plan current, the Secretary shall take into consideration the following:

"(1) The five-year defense program submitted to Congress under section 114(g) of this title each year.

"(2) Department of Defense mobilization plans.

"(3) The different characteristics of separate segments and tiers of private industry.

"(4) The profitability of contracts negotiated by the Department of Defense in each fiscal year.

"(b) REVIEW.—Each year the Secretary of Defense shall review the plan developed under subsection (a) and shall report the results of such review to the Committees on Armed Services of the Senate and the House of Representatives in conjunction with the submission of the five-year defense program in such year.

"(c) USE OF INFORMATION ON PROFITABILITY.—The Secretary of Defense, in negotiating any contract, shall use the most current information on profitability developed or obtained by the Secretary of Defense. The Secretary shall submit a report to Congress each year in conjunction with the submission of the five-year defense program on the extent to which current negotiated contracts have prevented excessive contractor profits, determined on the basis of information obtained by the Secretary of Defense.

"(d) APPLICABILITY.—Subsection (a) applies to the following policies applicable to Department of Defense contractors:

"(1) Policies relating to progress payments or other financing of contractors by the Department of Defense.

"(2) Policies relating to the return on contractor investment under Department of Defense contracts.

"(3) Policies relating to the allocation of contract risk between the Department of Defense and a contractor.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following:

"2330. Integrated contract financing, return on investment, and risk-sharing policy.".

(b) ADVISORY COMMITTEE ON STUDY METHODOLOGY.—(1) The Secretary of Defense shall appoint, in accordance with paragraph (3), an advisory committee consisting of five members for the purpose of recommending to the Secretary a financial analysis methodology for any return on investment study conducted by the Secretary.

(2) In recommending a financial analysis methodology under paragraph (1), the advisory committee shall provide recommendations on the desirability of using separate calculations for—

(A) the return on assets;

(B) the return on sales;

(C) capital-to-labor ratios;

(D) asset turnover;

(E) total investment in research and development; and

(F) such other measures of rate of return on investment as the Secretary determines to be appropriate.

(3) Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall appoint the members of the committee, with representation from both the public and private sectors.

(4) The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the advisory committee appointed under this subsection.

(5) Not later than November 1, 1989, the advisory committee shall submit to the Secretary of Defense a report containing the financial analysis methodology recommended for use in the conduct of the study referred to in paragraph (1). The committee shall cease to exist 90 days after submission of its report.

(6) Not later than 90 days after receipt of the report from the advisory committee, the Secretary of Defense shall transmit the report to Congress, together with the Secretary's views on the committee's report.

SEC. 802. COMPETITIVE PROTOTYPE STRATEGIES

Section 2365 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e) TERMINATION.—This section shall cease to be effective on September 30, 1991.".

SEC. 803. DELEGATION OF AUTHORITY TO APPROVE CERTAIN CONTRACT JUSTIFICATIONS

Section 2304(f) of title 10, United States Code, is amended—

(1) in paragraph (1)(B)(ii), by striking out "or a delegate" and all that follows through the semicolon and inserting in lieu thereof "(or the head of the procuring activity's delegate designated pursuant to paragraph (6)(A));";

(2) in paragraph (1)(B)(iii), by striking out "(without further delegation)" and inserting in lieu thereof "or that senior procurement executive's delegate designated pursuant to paragraph (6)(B)"; and

(3) by adding at the end the following:

"(6)(A) The authority of the head of a procuring activity under paragraph (1)(B)(ii) may be delegated only to an officer or employee who—

"(i) if a member of the armed forces, is a general or flag officer; or

"(ii) if a civilian, is serving in a position with a grade under the General Schedule (or any other schedule for civilian officers or employees) that is comparable to or higher than the grade of brigadier general or rear admiral (lower half).

"(B) The authority of the senior procurement executive of an agency under paragraph (1)(B)(iii) may be delegated only to—

"(i) an Assistant Secretary of Defense; or

"(ii) with respect to the element of the Department of Defense (as specified in section 111(b) of this title) carrying out the procurement action concerned, an officer or employee serving in or assigned or detailed to that element who—

"(I) if a member of the armed forces, is serving in a grade above brigadier general or rear admiral (lower half); or

"(II) if a civilian, is serving in a position with a grade under the General Schedule (or any other schedule for civilian officers or employees) that is comparable to or higher than the grade of major general or rear admiral.".

SEC. 804. EVALUATION OF CONTRACTS FOR PROFESSIONAL AND TECHNICAL SERVICES

(a) ESTABLISHMENT OF CRITERIA.—Within 120 days after the date of the enactment of this Act, the Secretary of Defense shall establish criteria to ensure that proposals for contracts for professional and technical services are evaluated on a basis which does not encourage contractors to propose mandatory uncompensated overtime for professional and technical employees. In establishing such criteria, the Secretary shall consider the recommendations of the advisory committee established under subsection (b). The Secretary shall, before implementing such criteria, transmit to the Committees on Armed Services of the Senate and House of Representatives a report containing such criteria and the recommendations made by the advisory committee.

(b) ADVISORY COMMITTEE.—(1) Within 30 days after the date of the enactment of this Act, the Secretary of Defense shall establish an advisory committee to make recommendations on the criteria to be adopted by the Secretary. The advisory committee shall be composed, at a minimum, of such representatives as the Secretary considers appropriate from the Office of the Under Secretary of Defense for Acquisition, the Office of the Comptroller of the Department of Defense, the Acquisition Executives of the military departments, the Defense Contract Audit Agency, the Office of the Inspector General of the Department of Defense, and professional and technical services industries.

(2) In developing the recommendations, the advisory committee shall address the following issues:

(A) How the Department of Defense can best be assured that it receives the best quality services for the amounts expended and that the contractors supplying such services follow sound personnel management practices and observe established labor-management policies and regulations.

(B) Whether contract competitions should be structured in a manner that requires offerors to compete on the basis of factors other than the number of hours per week its professional and technical employees of similar annual salaries work.

(C) Whether the Department of Defense can allow contractors to maintain different accounting systems (for example, 40-hour work week, full time accounting) and still allow the Department to evaluate proposals on the basis of a work rate of 40 hours per week and 2,080 hours per year.

SEC. 805. PROCUREMENT OF CRITICAL AIRCRAFT AND SHIP SPARE PARTS

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by inserting after section 2382 the following:

"§2383. Procurement of critical aircraft and ship spare parts: quality control

"(a) In procuring any spare or repair part that is critical to the operation of an aircraft or ship, the Secretary of Defense shall require the contractor supplying such part to provide a part that meets all appropriate *qualification and contractual quality requirements as may be specified and made available to prospective offerors. In establishing the appropriate qualification requirements, the Secretary of Defense shall utilize those requirements, if available, which were used to qualify the original production part, unless the Secretary of Defense determines in writing that any or all such requirements are unnecessary.*

"(b) In this section, the term 'spare or repair part' has the meaning given such term by section 2323(f) of this title.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2382 the following new item:

"2383. Procurement of critical aircraft and ship spare parts: quality control on second sources.".

(b) EFFECTIVE DATE.—Section 2383 of title 10, United States Code, as added by subsection (a), shall apply with respect to contracts entered into after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 806. INCENTIVES FOR INNOVATION

(a) IN GENERAL.—(1) Section 2305(d) of title 10, United States Code, is amended by adding at the end the following:

"(4)(A) Whenever the head of an agency requires that proposals described in paragraph (1)(B) or (2)(B) be submitted by an offeror in its offer, the offeror shall not be required to provide a proposal that enables the United States to acquire competitively in the future an identical item if the item was developed exclusively at private expense unless the head of the agency determines that—

"(i) the original supplier of such item will be unable to satisfy program schedule or delivery requirements; or

"(ii) proposals by the original supplier of such item to meet the mobilization requirements are insufficient to meet the agency's mobilization needs.

"(B) In considering the responses to solicitations requiring proposals described in paragraph (1)(B) or (2)(B), the head of an agency shall base any evaluation of items developed exclusively at private expense on an analysis of the total value, in terms of innovative design, life cycle costs, and other pertinent factors, of incorporating such items in the system.".

(2) Section 2305(d)(3) of such title is amended by adding at the end the following: "Such objectives may not impair the rights of prospective contractors or subcontractors otherwise provided by law.".

(b) CLARIFYING AMENDMENT.—Paragraphs (1)(B) and (2)(B) of such section are each amended by inserting "response to" before "a solicitation".

SEC. 807. REGULATIONS ON USE OF FIXED-PRICE DEVELOPMENT CONTRACTS

(a) IN GENERAL.—(1) Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall revise the Department of Defense regulations that provide for the use of fixed-price type contracts in a development program. The regulations shall provide that a fixed-price contract may be awarded in such a program only if—

(A) the level of program risk permits realistic pricing; and

(B) the use of a fixed-price contract permits an equitable and sensible allocation of program risk between the United States and the contractor.

(2)(A) The regulations also shall provide that a firm fixed-price contract in excess of $10,000,000 may not be awarded for the development of a major system.

(B) A waiver of the requirement prescribed in regulations under subparagraph (A) may be granted by the Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, but only if the Secretary determines and states in writing that the award is consistent with the criteria specified in clauses (A) and (B) of paragraph (1) and the regulations prescribed under such paragraph. The Secretary may delegate the authority in the preceding sentence only to a person who holds a position in the Office of the Secretary of Defense at or above the level of Assistant Secretary of Defense.

(b) DEFINITIONS.—In this section, the term "major system" has the meaning given such term by section 2302(5) of such title.

(c) EXPIRATION.—Paragraph (2) of subsection (a) shall cease to be effective two years after the date of the enactment of this Act.

SEC. 808. DEPARTMENT OF DEFENSE ADVISORY PANEL ON GOVERNMENT-INDUSTRY RELATIONS

(a) ESTABLISHMENT OF ADVISORY PANEL.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall establish an advisory panel to study and make recommendations to the Secretary on ways to enhance cooperation between the Department of Defense and industry regarding matters of mutual interest, including—

(1) procedures governing the debarment and suspension of contractors from doing business with the Department of Defense;

(2) the role of self-governing oversight programs established by defense contractors;

(3) expanded use of alternative dispute resolution procedures; and

(4) the desirability of establishing a permanent advisory panel on government-industry relations.

(b) MEMBERSHIP OF ADVISORY PANEL.—The Secretary of Defense shall appoint persons to the advisory panel who are especially qualified to serve on such panel by virtue of their education, training, and experience in defense acquisition matters. The Secretary shall include on the membership of such panel an appropriate balance of persons from government, private industry, and academia.

(c) REPORT DEADLINE.—(1) The Secretary shall require the advisory panel to submit its findings and recommendations to him not later than 180 days after the date on which the panel is appointed.

(2) The Secretary shall transmit a copy of the report of the advisory panel to Congress, together with such comments and recommendations thereon as the Secretary determines appropriate, within 30 days after the date on which the report is submitted to the Secretary.

SEC. 809. REPORT ON SIMPLIFICATION AND STREAMLINING OF ACQUISITION PROCEDURES

(a) REPORT ON ACQUISITION SIMPLIFICATION PROGRAMS.—The Under Secretary of Defense for Acquisition shall submit to Congress a report on the current programs of the Under Secretary regarding simplification of procedures governing the acquisition process of the Department of Defense. The report shall include an assessment of the results of those programs.

(b) MATTERS TO BE INCLUDED.—The report under subsection (a) shall include the following:

(1) A timetable to effectuate regulation reform measures based on the lessons learned from the conduct of the programs referred to in subsection (a).

(2) In the case of a program referred to in subsection (a) which has not been completed—

(A) the methodology to be used in evaluating such program; and

(B) a timetable for completing an assessment of the results of the program.

(3) A comprehensive analysis of the effects that existing laws, regulations, and guidelines applicable to procurement by the Department of Defense have on the capability of the Department of Defense efficiently and effectively to meet the national defense needs of the United States, including any recommendations for legislation that the Under Secretary considers appropriate to improve that capability.

(4) A description of the results of the studies undertaken by the Under Secretary in conjunction with the Inspector General of the Department of Defense and the Comptroller of the Department of Defense regarding the responsibilities of the Under Secretary under section 133(d) of title 10, United States Code, to prescribe policies for the prevention of duplicative audit and oversight of contractor activities by different elements of the Department of Defense.

(5) A discussion of the feasibility and desirability of each of the following:

(A) Structuring the audit and oversight of a contractor by the Department of Defense in a manner that reasonably relates to the extent of the risk assumed by the contractor in the type of of contract that is subject to the audit and oversight.

(B) Granting authority to a senior official of the Department of Defense to receive and promptly resolve complaints of acquisition officials and contractors of the Department of Defense regarding allegations of duplicative oversight activities.

(C) Establishing a formal independent means within the Department of Defense to ensure quality, integrity, and professionalism in the performance of audit and oversight activities.

(D) Establishing and implementing a policy that prohibits an organization within the Department of Defense with responsibility for oversight of contractor activities from conducting an audit or review of an activity in the Department of Defense if another such oversight organization of the Department of Defense has conducted an audit or review of that activity within a fixed period of time preceding the proposed audit or review, unless the audit or review proposed to be conducted is substantially different in type and scope from the prior audit or review and there is a compelling reason not to rely on the prior audit or review.

(c) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than December 1, 1988.

(d) COORDINATION OF ANNUAL AUDIT PLANS BY AUDIT AND OVERSIGHT ELEMENTS OF DOD.—Section 133(d)(1) of title 10, United States Code, is amended by adding at the end the following new sentence: "Such policies shall provide for coordination of the annual plans developed by each such element for the conduct of audit and oversight functions within each contracting activity.".

PART B—DEFENSE INDUSTRIAL BASE

SEC. 821. MAINTENANCE AND IMPROVEMENT OF THE DEFENSE INDUSTRIAL BASE

(a) FINDINGS.—Congress finds the following:

(1) A strong defense industrial base in the United States is essential to the national se-

curity and significantly enhances the capability of United States manufacturers and producers—

(A) to develop technologically superior defense material rapidly and to produce such material efficiently in cost-effective quantities during peacetime; and

(B) to expand productive capacity rapidly to meet the demands of a national emergency.

(2) A strong and responsive defense industrial base is a basic deterrent to aggression and, thus, helps to preserve peace.

(3) Studies conducted over a 10-year period by Congress, the General Accounting Office, the Department of Defense, and others have consistently shown a steady, unchecked erosion of the defense industrial base in the United States.

(4) Despite the uniformly adverse findings contained in the reports on such studies, the United States still lacks a coherent industrial base policy that is directly linked to national security strategy.

(5) Reliable methods for assessing the weaknesses and strengths of the defense industrial base have not been utilized.

(6) The development and implementation of an effective program for the restoration and maintenance of the defense industrial base is unlikely to occur without improved centralized policy direction and management.

(7) Existing programs and authorities designed to restore and maintain the defense industrial base have received inconsistent and, frequently, inadequate allocations of resources and management attention from the military departments and the Defense Agencies because the Office of the Secretary of Defense has not exercised strong leadership in defense industrial base management.

(8) Procurement policies, regulations, and practices of the Department of Defense do not sufficiently encourage—

(A) investment in advanced manufacturing technology and modernization of manufacturing facilities and equipment;

(B) the entry of efficient commercial producers into the defense procurement market; and

(C) continued participation of efficient producers in defense procurement competitions.

(b) AMENDMENTS TO TITLE 10.—(1) Chapter 148 of title 10, United States Code, is amended—

(A) by redesignating sections 2501 and 2502 as sections 2506 and 2507, respectively; and

(B) by striking out the chapter heading and the table of sections and inserting in lieu thereof the following:

"CHAPTER 148—DEFENSE INDUSTRIAL BASE

"Sec.

"2501. Centralized guidance, analysis, and planning.

"2502. Policies relating to defense industrial base.

"2503. Defense industrial base office.

"§2501. Centralized guidance, analysis, and planning

"The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall—

"(1) provide overall policy guidance and direction to the military departments and the Defense Agencies on matters relating to the maintenance, expansion, and readiness of the defense industrial base of the United States;

"(2) analyze the capabilities of the defense industrial base of the United States to fulfill the requirements of national defense strategy in time of peace and the expanded requirements of national defense strategy in time of war or national emergency;

"(3) develop clear standards for assessing military mobilization requirements and the manner in which those requirements will be met;

"(4) develop and direct the implementation of plans, programs, and policies that promote the ability of the defense industrial base of the United States to fulfill the requirements of the Department of Defense; and

"(5) identify and plan for the procurement of items of supply that—

"(A) are suitable substitutes for military standard items of supply, or suitable substitutes for subsystems or components of military standard items of supply, that are anticipated to be unavailable from existing sources in quantities that are sufficient to meet planned requirements in time of war or national emergency; and

"(B) are commercially available from domestic sources.

"§2502. Policies relating to defense industrial base

"(a) ACQUISITION POLICIES.—The Under Secretary of Defense for Acquisition shall establish and implement policies requiring—

"(1) for each major defense acquisition program an analysis of the capabilities of the defense industrial base to develop, produce, maintain, and support such program;

"(2) the consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the major defense acquisition program;

"(3) the use of advanced manufacturing technology, processes, and systems during the research and development and production phases of the acquisition of a weapon system under a major defense acquisition program;

"(4) to the maximum extent practicable for each major defense acquisition program, the development of an acquisition plan that provides for contract solicitations which encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce life cycle costs;

"(5) the encouragement of domestic source investment in advanced manufacturing technology production equipment and processes through—

"(A) recognition of the contractor's investment in advanced manufacturing technology production equipment and processes in the development of the contract objective; and

"(B) increased emphasis in source selections to the efficiency of production;

"(6) the expanded use of commercial manufacturing processes rather than processes specified by the Department of Defense;

"(7) elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under defense contracts; and

"(8) the expanded use of commercial products as set forth in section 2325 of this title.

"(b) ANALYSIS.—(1) In the conduct of any analysis required under subsection (a)(1), the following factors, as appropriate, may be considered:

"(A) The availability of essential raw materials, special alloys, and composite materials.

"(B) The availability of components, subsystems, production equipment, and facilities that are essential for—

"(i) the sustained production of a system that is fully capable of performing its purpose;

"(ii) the uninterrupted maintenance and repair of such system; and

"(iii) the sustained operation of such system.

"(C) The availability of required special tooling and production test equipment.

"(D) The identification of components or subsystems that are available solely from sources outside the United States.

"(E) Planned alternatives, if appropriate, for fulfilling requirements that during peacetime are fulfilled by sources outside the United States.

"(2) In the conduct of the analysis required under subsection (a)(1), the Under Secretary shall minimize the paperwork burden on the contractor, its subcontractors, and suppliers.

"(c) ASSESSMENTS.—(1) The Under Secretary of Defense for Acquisition shall ensure that, for each major defense acquisition program—

"(A) the capability of the domestic defense industrial base to meet program requirements has been assessed by the military department or Defense Agency carrying out such program; and

"(B) the capability of the domestic defense industrial base to meet the aggregate requirements for all such programs has been assessed in the Office of the Secretary of Defense.

"(2) For purposes of this subsection, the term 'domestic defense industrial base' means industries producing in the United States and Canada.

"§2503. Defense industrial base office

"The Under Secretary of Defense for Acquisition may establish within the Office of the Under Secretary of Defense for Acquisition a defense industrial base office to be the principal office in the Department of Defense for the development of policies and plans regarding the conduct of programs for the improvement of the defense industrial base of the United States. The defense industrial base office shall, at a minimum—

"(1) develop and propose plans and programs for the maintenance and fostering of defense industrial readiness in the United States;

"(2) develop and propose plans and programs to encourage the utilization by the defense industries of the United States of advanced manufacturing technology and processes and investment in improved productivity;

"(3) propose, consistent with existing law, the repeal or amendment of such Defense Acquisition Regulations and other regulations and policies as may be necessary to eliminate any adverse effect that the regulations and policies may have on investment in improved productivity; and

"(4) evaluate and propose for testing innovative ideas for improving defense industrial readiness in the United States, including ideas for improving—

"(A) manufacturing processes; and

"(B) the acquisition procedures of the Department of Defense.".

(2) The items relating to chapter 148 in the tables of chapters at the beginning of part IV of subtitle A of title 10, United States Code, and at the beginning of such subtitle, are each amended to read as follows:

"148. Defense Industrial Base .... 2501".

(c) Analysis of Defense Industrial Base Capability.—(1) The Under Secretary of Defense for Acquisition shall require each military department to provide to the Under Secretary at least one analysis of the type described in section 2502(a)(1) of title 10, United States Code (as added by subsection (b)) for an acquisition program carried out by such department. The Under Secretary shall compile and analyze the data obtained from such analysis in order to ascertain whether the industrial base is capable of supporting these programs.

(2) A program may not be selected for an analysis under this subsection if production of the system to be acquired under such program has begun.

(3) All analyses required under this subsection shall be completed not later than September 30, 1990.

(4) Not later than February 1, 1991, the Under Secretary of Defense for Acquisition shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the analyses required under this subsection.

SEC. 822. SOURCE FOR PROCUREMENT OF CERTAIN VALVES AND MACHINE TOOLS

(a) In General.—Section 2507 of title 10, United States Code, as redesignated by section 821, is amended by adding at the end the following new subsection:

"(d) Valves and Machine Tools.—(1) During fiscal years 1989, 1990, and 1991, funds appropriated or otherwise made available to the Department of Defense may not be used to enter into a contract for the procurement of items described in paragraph (2) that are not manufactured in the United States or Canada.

"(2) Items covered by paragraph (1) are the following:

"(A) Powered and non-powered valves in Federal Supply Classes 4810 and 4820 used in piping for naval surface ships and submarines.

"(B) Machine tools in the Federal Supply Classes for metal-working machinery numbered 3405, 3408, 3410 through 3419, 3426, 3433, 3438, 3441 through 3443, 3445, 3446, 3448, 3449, 3460, and 3461.

"(3) The Secretary of Defense may waive the requirement of paragraph (1) with respect to the procurement of an item if the Secretary determines that—

"(A) the restriction would cause unreasonable costs or delays to be incurred;

"(B) United States producers of the item would not be jeopardized by competition from a foreign country and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country;

"(C) satisfactory quality items manufactured in the United States or Canada are not available;

"(D) the restriction would impede cooperative programs entered into between the Department of Defense and a foreign country and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country;

"(E) the procurement is for an amount less than $25,000 and simplified small purchase procedures are being used; or

"(F) the restriction would result in the existence of only one United States or Canadian source for the item.".

(b) Termination.—The restriction in section 2507(d) of title 10, United States Code, as added by subsection (a), may be renewed with respect to any item by the Secretary of Defense at the end of fiscal year 1991 for an additional two fiscal years if the Secretary determines that a continued restriction on that item is in the national security interest.

SEC. 823. CRITICAL TECHNOLOGIES PLAN

(a) In General.—(1) Chapter 139 of title 10, United States Code, is amended by adding at the end the following new section:

"§2368. Critical technologies plan

"(a) Annual Plan.—(1) Not later than March 15 of each year, the Under Secretary of Defense for Acquisition, in consultation with the Assistant Secretary of Energy for Defense Programs, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a plan for developing the 20 technologies considered by the Secretary of Defense and the Secretary of Energy to be the technologies most essential to develop in order to ensure the long-term qualitative superiority of United States weapon systems.

"(2) In selecting the technologies to be included in the plan, the Secretary of Defense and the Secretary of Energy shall consider both product technologies and process technologies.

"(3) Such plan shall be submitted in both classified and unclassified form.

"(b) Content of Plan.—Each plan submitted under subsection (a) shall include, with respect to each technology included in the plan, the following matters:

"(1) The reasons for selecting such technology.

"(2) The milestone goals for the development of such technology.

"(3) The amounts contained in the budgets of the Department of Defense, the Department of Energy, and other departments and agencies for the support of the development of such technology for the fiscal year in which the plan is submitted.

"(4) A comparison of the relative positions of the United States and the Soviet Union in the development of such technology.

"(5) The potential contributions that the allies of the United States can make to meet the needs of the alliance for such technology.

"(6) With respect to the development of such technology, a comparison of the relative positions of the United States and other industrialized countries that are prominent in the development of such technology and the extent to which the United States should depend on other countries for the development of such technology.

"(7) The potential contributions that the private sector can be expected to make from its own resources in connection with development of civilian applications for such technology.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2368. Critical technologies plan.".

(b) First Report.—The first report under section 2368 of title 10, United States Code (as added by subsection (a)), shall be submitted in 1989.

SEC. 824. DEFENSE MEMORANDA OF UNDERSTANDING

(a) In General.—Chapter 148 of title 10, United States Code, as amended by section 821, is further amended by adding after section 2503 the following new section:

"§2504. Defense memoranda of understanding

"In the negotiation and renegotiation of each memorandum of understanding between the Department of Defense and one or more foreign countries (or any instrumentality of a foreign country) relating to research, development, or production of defense equipment, the Secretary of Defense shall—

"(1) consider the effect of such proposed memorandum of understanding on the defense industrial base of the United States; and

"(2) regularly solicit and consider information or recommendations from the Secretary of Commerce with respect to the effect on the United States industrial base of such memorandum of understanding.".

(b) Clerical Amendment.—The table of sections at the beginning of such chapter, as amended by section 821, is further amended by adding at the end the following new item:

"2504. Defense memoranda of understanding.".

SEC. 825. DEPARTMENT OF DEFENSE OFFSET POLICY

(a) Findings.—Congress makes the following findings:

(1) Many contracts entered into by United States firms for the supply of weapon systems or defense-related items to foreign countries and foreign firms are subject to contractual arrangements under which United States firms must agree—

(A) to have a specified percentage of work under, or monetary amount of, the contract performed by one or more foreign firms;

(B) to purchase a specified amount or quantity of unrelated goods or services from domestic sources of such foreign countries; or

(C) to invest a specified amount in domestic businesses of such foreign countries.

Such contractual arrangements, known as "offsets", are a component of international trade and could have an impact on United States defense industry opportunities in domestic and foreign markets.

(2) Some United States contractors and subcontractors may be adversely affected by such contractual arrangements.

(3) Many contracts which provide for or are subject to offset arrangements require, in connection with such arrangements, the transfer of United States technology to foreign firms.

(4) The use of such transferred technology by foreign firms in conjunction with foreign trade practices permitted under the trade policies of the countries of such firms can give foreign firms a competitive advantage against United States firms in world markets for products utilizing such technology.

(5) A purchase of defense equipment pursuant to an offset arrangement may increase the cost of the defense equipment to the purchasing country and may reduce the amount of defense equipment that a country may purchase.

(6) The exporting of defense equipment produced in the United States is important to maintain the defense industrial base of the United States, lower the unit cost of such equipment to the Department of Defense, and encourage the standardized utilization of United States equipment by the allies of the United States.

(b) Amendment to Title 10.—(1) Chapter 148 of title 10, United States Code, as amended by sections 821 and 824, is further amended by adding after section 2504 the following new section:

"§2505. Offset policy; notification

"(a) Establishment of Offset Policy.—The President shall establish, consistent with the requirements of this section, a comprehensive policy with respect to contractual offset arrangements in connection with

the purchase of defense equipment or supplies which addresses the following:

"(1) Transfer of technology in connection with offset arrangements.

"(2) Application of offset arrangements, including cases in which United States funds are used to finance the purchase by a foreign government.

"(3) Effects of offset arrangements on specific subsectors of the industrial base of the United States and for preventing or ameliorating any serious adverse effects on such subsectors.

"(b) TECHNOLOGY TRANSFER.—(1) No official of the United States may enter into a memorandum of understanding or other agreement with a foreign government that would require the transfer of United States defense technology to a foreign country or a foreign firm in connection with a contract that is subject to an offset arrangement if the implementation of such memorandum or agreement would significantly and adversely affect the defense industrial base of the United States and would result in a substantial financial loss to a United States firm.

"(2) Paragraph (1) shall not apply in the case of a memorandum of understanding or agreement described in paragraph (1) if the Secretary of Defense, in consultation with the Secretary of Commerce and the Secretary of State, determines that a transfer of United States defense technology pursuant to such understanding or agreement will result in strengthening the national security of the United States and so certifies to Congress.

"(3) If a United States firm is required under the terms of a memorandum of understanding, or other agreement entered into by the United States with a foreign country, to transfer defense technology to a foreign country, the United States firm may protest the determination to the Secretary of Defense on the grounds that the transfer of such technology would adversely affect the defense industrial base of the United States and would result in substantial financial loss to the protesting firm. The Secretary of Defense, in consultation with the Secretary of Commerce and the Secretary of State, shall make the final determination of the validity of the protesting firm's claim.

"(c) NOTIFICATION REGARDING OFFSETS.—If at any time a United States firm enters into a contract for the sale of a weapon system or defense-related item to a foreign country or foreign firm and such contract is subject to an offset arrangement exceeding $50,000,000 in value, such firm shall notify the Secretary of Defense of the proposed sale. Notification shall be made under this subsection in accordance with regulations prescribed by the Secretary of Defense in consultation with the Secretary of Commerce.

"(d) DEFINITIONS.—In this section:

"(1) The term 'United States firm' means a business entity that performs substantially all of its manufacturing, production, and research and development activities in the United States.

"(2) The term 'foreign firm' means a business entity other than a United States firm.".

(2) The table of sections at the beginning of chapter 148 of such title, as amended by sections 821 and 824, is further amended by adding at the end the following new items:

"2505. Offset policy; notification.
"2506. Limitation on use of funds: procurement of goods which are other than American goods.
"2507. Miscellaneous procurement limitations.".

(c) NEGOTIATIONS.—(1) The President shall enter into negotiations with foreign countries that have a policy of requiring an offset arrangement in connection with the purchase of defense equipment or supplies from the United States. The negotiations should be conducted with a view to achieving an agreement with the countries concerned that would limit the adverse effects that such arrangements have on the defense industrial base of each such country.

(2) Every effort shall be made to achieve such agreements within two years after the date of the enactment of this Act.

(d) REPORTS.—(1) Not later than November 15, 1988, the President shall submit to Congress a comprehensive report on contractual offset arrangements required of United States firms for the supply of weapon systems or defense-related items to foreign countries or foreign firms. Such report shall include, at a minimum, the following:

(A) An analysis of the amount and type of contractual offsets required of United States firms by the governments of foreign countries or by foreign firms.

(B) An assessment of the benefits for and costs to United States manufacturers of defense products at all tiers that result from requirements of foreign governments for contractual offset arrangements in the case of products procured from United States firms.

(C) An assessment of the benefits for and the costs to United States manufacturers of defense products at all tiers that would result from restriction of the ability of foreign governments or foreign firms to require contractual offsets in the case of defense products procured from United States firms.

(D) An assessment of the benefits and costs of a United States policy that requires reciprocal offsets in the procurement of defense products from those countries whose governments have a policy of requiring contractual offsets in the case of defense products procured from United States firms.

(E) An assessment of the impact that elimination of contractual offset requirements in international sales of defense products would have on the national security of the United States.

(F) Recommendations for a national policy with respect to contractual offset arrangements.

(G) A preliminary discussion of the actions referred to in paragraph (2).

(2) Not later than March 15, 1990, the President shall transmit to Congress a report containing a discussion of appropriate actions to be taken by the United States with respect to purchases from United States firms by a foreign country (or a firm of that country) when that country or firm requires an offset arrangement in connection with the purchase of defense equipment or supplies in favor of such country. The report shall include a discussion of the following possible actions:

(A) A requirement for an offset in favor of the United States or United States firms in any case in which the Department of Defense or any other department or agency of the United States purchases goods from such foreign country or a firm of such country.

(B) A demand for offset credits from such foreign country to be used, to the extent practicable, to meet offset obligations of United States firms to such foreign country or to a firm of such country.

(C) A reduction in assistance furnished such foreign country by the United States.

(D) A requirement for alternative equivalent advantages in the case of any such foreign country or a firm of such country if the United States does not purchase a sufficient volume of goods from such country or firm for a requirement described in subparagraph (A) to be effective.

(3) The President shall report to Congress at least once each year, for a period of 4 years, on the progress of the negotiations referred to in subsection (c). The first such report shall be submitted not later than one year after the date of the enactment of this Act.

(4) In this subsection, the terms "foreign firm" and "United States firm" have the same meanings as are provided in section 2505(d) of title 10, United States Code, as added by subsection (b).

SEC. 826. ALLOWABILITY OF COSTS TO PROMOTE THE EXPORT OF DEFENSE PRODUCTS

(a) IN GENERAL.—Section 2324(f) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5) The regulations shall provide that costs to promote the export of products of the United States defense industry, including costs of exhibiting or demonstrating products, shall be allowable to the extent that such costs—

"(A) are allocable, reasonable, and not otherwise unallowable;

"(B) with respect to the activities of the business segment to which such costs are being allocated, are determined by the Secretary of Defense to be likely to result in future cost advantages to the United States; and

"(C) with respect to a business segment which allocates to Department of Defense contracts $2,500,000 or more of such costs in any fiscal year of such business segment, are not in excess of the amount equal to 110 percent of such costs incurred by such business segment in the previous fiscal year.".

(b) REGULATIONS.—The Secretary of Defense shall prescribe final regulations under paragraph (5) of section 2324(f) of title 10, United States Code (as added by subsection (a)), not later than 90 days after the date of the enactment of this Act. Such regulations shall apply with respect to costs referred to in such paragraph that are incurred by a Department of Defense contractor (or a subcontractor of such a contractor) on or after the first day of the contractor's (or subcontractor's) first fiscal year that begins on or after the date on which such final regulations are prescribed.

(c) REPORT.—Not later than two years after the date of the enactment of this Act, the Comptroller General of the United States and the Inspector General of the Department of Defense shall each submit to the Committees on Armed Services of the Senate and House of Representatives a report that includes the following:

(1) An assessment of whether the regulations required by section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), provide the appropriate incentives to stimulate exports by the United States defense industry and provide cost savings to the United States.

(2) An assessment of whether such regulations provide appropriate criteria to ensure that costs allowed are reasonably likely to provide future cost savings to the United States.

(d) TERMINATION.—Section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), shall cease to be effective three years after the date of the enactment of this Act.

PART C—POLICIES RELATING TO DEFENSE CONTRACTORS

SEC. 831. ADDITIONAL PROHIBITIONS ON PERSONS CONVICTED OF FELONIES RELATED TO DEFENSE CONTRACTS

(a) IN GENERAL.—Section 2408(a) of title 10, United States Code, is amended to read as follows:

"(a) PROHIBITION.—(1) An individual who is convicted of fraud or any other felony arising out of a contract with the Department of Defense shall be prohibited from each of the following:

"(A) Working in a management or supervisory capacity on any defense contract.

"(B) Serving on the board of directors of any defense contractor.

"(C) Serving as a consultant to any defense contractor.

"(D) Being involved in any other way, as determined under regulations prescribed by the Secretary of Defense, with a defense contract.

"(2) Except as provided in paragraph (3), the prohibition in paragraph (1) shall apply for a period, as determined by the Secretary of Defense, of not less than five years after the date of the conviction.

"(3) The prohibition in paragraph (1) may apply with respect to an individual for a period of less than five years if the Secretary determines that the five-year period should be waived in the interests of national security. If the five-year period is waived, the Secretary shall submit to Congress a report stating the reasons for the waiver.".

(b) EFFECTIVE DATE.—Section 2408(a) of title 10, United States Code, as amended by subsection (a), shall apply with respect to individuals convicted after the date of the enactment of this Act.

SEC. 832. LIMITATION ON ALLOWABILITY OF COSTS OF CONTRACTORS INCURRED IN CERTAIN PROCEEDINGS

(a) LIMIT ON COSTS.—Section 2324(e) of title 10, United States Code, is amended—

(1) by adding at the end of paragraph (1) the following:

"(N) Except as provided in paragraph (2), costs incurred in connection with any civil, criminal, or administrative action brought by the United States that results in a determination that a contractor has violated or failed to comply with any Federal law or regulation if the action results in any of the following:

"(i) In the case of a criminal action, a conviction (including a conviction pursuant to a plea of nolo contendere).

"(ii) In the case of a civil or administrative action, (I) a determination by the Secretary of Defense that the violation or failure to comply was knowing or willful, and (II) the imposition of a monetary penalty.

"(iii) A final decision by an appropriate official of the Department of Defense to debar or suspend the contractor or to rescind, void, or terminate a contract awarded to such contractor if such decision is based on a determination by the Secretary of Defense that the violation or failure to comply was knowing or willful.";

(2) by redesignating paragraph (2) as paragraph (3); and

(3) by inserting after paragraph (1) (as amended by paragraph (1)) the following:

"(2) If a civil, criminal, or administrative action referred to in paragraph (1)(N) is resolved by consent or compromise pursuant to an agreement entered into by a contractor and the United States, the contractor's costs that are otherwise not allowable under paragraph (1)(N) may be allowed to the extent provided in such agreement.".

(b) REGULATIONS.—The Secretary of Defense shall prescribe regulations to implement section 2324(e)(1)(N) of title 10, United States Code, as added by subsection (a), not later than 90 days after the date of the enactment of this Act.

SEC. 833. AIR TRAVEL EXPENSES OF DEFENSE CONTRACTOR PERSONNEL

(a) AIR FARE DISCOUNT AGREEMENTS.—The Administrator of General Services shall enter into negotiations with commercial air carriers with a view to achieving agreements that permit personnel of contractors who are traveling solely in the performance of covered contracts to be transported by such carriers at the same discount air passenger transportation rates as such carriers charge for travel by Federal Government employees traveling at Government expense.

(b) ALLOWABLE COSTS.—Not later than 120 days after the first agreement goes into effect between the Administrator of General Services and a commercial air carrier under subsection (a), the Secretary of Defense shall prescribe regulations that provide that costs for travel by commercial air carrier by an employee of a defense contractor that exceed the air passenger transportation rates established under the agreement are not allowable costs under section 2324 of title 10, United States Code, under a covered contract if—

(1) the rate was available; and

(2) travel could have reasonably been performed under the conditions required by the air carrier to qualify for such rate.

(c) COVERED CONTRACT.—In this section, the term "covered contract" has the meaning given such term by section 2324(k) of title 10, United States Code.

(d) EXPIRATION.—This section shall cease to be effective three years after the date of the enactment of this Act.

SEC. 834. STANDARDS FOR CONTRACTOR INVENTORY ACCOUNTING SYSTEMS

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§2410b. Contractor inventory accounting systems: standards

"The Secretary of Defense shall prescribe in regulations—

"(1) standards for inventory accounting systems used by contractors under contract with the Department of Defense; and

(2) appropriate certification and enforcement requirements with respect to such standards.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2410b. Contractor inventory accounting systems: standards.".

(b) REGULATIONS.—(1) The Secretary of Defense shall prescribe the regulations required by paragraph (1) of section 2410b of title 10, United States Code, as added by subsection (a), not later than 30 days after the date of the enactment of this Act.

(2) The Secretary of Defense shall prescribe the regulations required by paragraph (2) of section 2410b of title 10, United States Code, as added by subsection (a), not later than 180 days after the date of the enactment of this Act.

SEC. 835. EQUAL EMPLOYMENT OPPORTUNITIES RELATING TO AN ARMY CONTRACT

No funds appropriated pursuant to any authorization in this Act or in any previous Act may be expended or obligated for the performance of contract number DA AJ09-88-C-A093 by a contractor outside the United States unless the Secretary of the Army secures a commitment from the contractor that it will support equal employment opportunities for all individuals irrespective of race, color, religion, sex, or national origin in its employment practices.

PART D—MISCELLANEOUS

SEC. 841. PROCUREMENT TECHNICAL ASSISTANCE COOPERATIVE AGREEMENT PROGRAM

(a) LIMITATION.—Section 2414 of title 10, United States Code, is amended to read as follows:

"§2414. Limitation

"(a) IN GENERAL.—The value of the assistance furnished by the Secretary to any eligible entity to carry out a procurement technical assistance program under a cooperative agreement under this chapter during any fiscal year may not exceed—

"(1) in the case of a program operating on a Statewide basis, $300,000; or

"(2) in the case of a program operating on less than a Statewide basis, $150,000.

"(b) DETERMINATIONS ON SCOPE OF OPERATIONS.—A determination of whether a procurement technical assistance program is operating on a Statewide basis or on less than a Statewide basis shall be made in accordance with regulations prescribed by the Secretary of Defense.".

(b) PROCUREMENT TECHNICAL ASSISTANCE FOR INDIAN TRIBAL ORGANIZATIONS.—Section 807(a)(2) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1128) is amended by striking out "for fiscal year 1988," and inserting in lieu thereof "for fiscal years 1988 and 1989,".

SEC. 842. PRODUCT EVALUATION

(a) IN GENERAL.—Chapter 139 of title 10, United States Code, as amended by section 823, is further amended by adding at the end the following new section:

"§2369. Product evaluation activity

"(a) ESTABLISHMENT.—The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall establish a program for the supervision and coordination of product evaluation activities within the Department of Defense.

"(b) CONDUCT OF PRODUCT EVALUATION.—(1) The Secretary of each military department and the head of each Defense Agency may, subject to supervision and coordination by the Under Secretary of Defense for Acquisition, establish and conduct appropriate product evaluation activities.

"(2) The purpose of each product evaluation activity established under paragraph (1) is to evaluate products developed by private industry independent of any contract or other arrangement with the United States in order to determine the utility of such products to the Department of Defense.

"(c) COST SHARING.—As a condition to conducting an evaluation of any product under this section, the producer of the product shall be required to pay one half of the cost of conducting such evaluation. For product development proposed by a small business concern (within the meaning of section 3 of the Small Business Act (15 U.S.C. 632)), the Secretary of Defense may pay up to 85 percent of the cost of product evaluation if the small business concern agrees to a not-for-profit contract.".

(b) TECHNICAL AMENDMENT.—The table of sections at the beginning of such chapter, as amended by section 823, is further amended by adding at the end the following new item:

"2369. Product evaluation activity.".

SEC. 843. CONTRACT GOAL FOR MINORITIES IN PRINTING-RELATED SERVICES

(a) Test Program.—The Public Printer shall establish and, during fiscal years 1989 and 1990, carry out a test program for increasing its award of contracts to small and disadvantaged businesses for the printing, binding, and related services needed by the Department of Defense. The program shall have a goal of procuring in each such fiscal year from such businesses printing, binding, and related services equivalent to not more than 5 percent of the value of the printing, binding, and related services which were procured in the preceding fiscal year by the Government Printing Office from non-Government sources for the Department of Defense. The Public Printer may use such procurement procedures as he considers necessary to facilitate achievement of such goal.

(b) Covered Entities.—In this section, the term "small and disadvantaged businesses" means the small business concerns, historically Black colleges and universities, and minority institutions described in section 1207(a) of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973).

(c) Enforcement.—Any person who, for the purpose of securing a contract under subsection (a), misrepresents the status of any concern or person as a small business concern referred to in subsection (b), is subject to the penalties set forth in section 1207(f) of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3974).

(d) Section 1207 Goals.—For the purpose of determining whether the Department of Defense has attained the goals set forth in section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973), the Secretary of Defense may count any procurements by the Public Printer in the program established under subsection (a).

SEC. 844. EXTENSION OF CONTRACT GOAL FOR SMALL AND DISADVANTAGED BUSINESSES

Section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973) is amended in subsections (a) and (h) by striking out "and 1989" and inserting in lieu thereof "1989, and 1990".

SEC. 845. DEADLINE FOR CERTAIN SMALL BUSINESS REGULATIONS

Section 3(a)(4)(C) of the Small Business Act (15 U.S.C. 632) is amended by inserting at the end the following: "Such regulations shall apply with respect to contracts entered into on or after October 1, 1988.".

SEC. 846. SAFEGUARDING OF MILITARY WHISTLEBLOWERS

(a) Military Whistleblower Protection.—(1) Section 1034 of title 10, United States Code, is amended to read as follows:

"§1034. Communicating with a Member of Congress or Inspector General; prohibition of retaliatory personnel actions

"(a) Restricting Communications With Members of Congress and Inspector General Prohibited.—(1) No person may restrict a member of the armed force in communicating with a Member of Congress or an Inspector General.

"(2) Paragraph (1) does not apply to a communication that is unlawful.

"(b) Prohibition of Retaliatory Personnel Actions.—No person may take (or threaten to take) an unfavorable personnel action, or withhold (or threaten to withhold) a favorable personnel action, as a reprisal against a member of the armed forces for making or preparing a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted. Any action prohibited by the preceding sentence (including the threat to take any action and the withholding or threat to withhold any favorable action) shall be considered for the purposes of this section to be a personnel action prohibited by this subsection.

"(c) Inspector General Investigation of Certain Allegations.—(1) If a member of the armed forces submits to the Inspector General of the Department of Defense (or the Inspector General of the Department of Transportation, in the case of a member of the Coast Guard) an allegation that a personnel action prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication described in paragraph (2), the Inspector General shall expeditiously investigate the allegation.

"(2) A communication described in this paragraph is a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted in which the member of the armed forces makes a complaint or discloses information that the member reasonably believes constitutes evidence of—

"(A) a violation of a law or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(3) The Inspector General is not required to make an investigation under paragraph (1) in the case of an allegation made more than 60 days after the date on which the member becomes aware of the personnel action that is the subject of the allegation.

"(4) If the Inspector General has not already done so, the Inspector General shall commence a separate investigation of the information that the member believes evidences wrongdoing as described in subparagraph (A) or (B) of paragraph (2). The Inspector General is not required to make such an investigation if the information that the member believes evidences wrongdoing relates to actions which took place during combat.

"(5) Not later than 30 days after completion of an investigation under this subsection, the Inspector General shall submit a report on the results of the investigation to the Secretary of Defense and the member of the armed forces concerned. In the copy of the report submitted to the member, the Inspector General may exclude any information that would not otherwise be available to the member under section 552 of title 5.

"(6) If, in the course of an investigation of an allegation under this section, the Inspector General determines that it is not possible to submit the report required by paragraph (5) within 90 days after the date of receipt of the allegation being investigated, the Inspector General shall provide to the Secretary of Defense and to the member making the allegation a notice—

"(A) of that determination (including the reasons why the report may not be submitted within that time); and

"(B) of the time when the report will be submitted.

"(7) The report on the results of the investigation shall contain a thorough review of the facts and circumstances relevant to the allegation and the complaint or disclosure and shall include documents acquired during the course of the investigation, including summaries of interviews conducted. The report may include a recommendation as to the disposition of the complaint.

"(d) Correction of Records When Prohibited Action Taken.—(1) A board for the correction of military records acting under section 1552 of this title, in resolving an application for the correction of records made by a member or former member of the armed forces who has alleged a personnel action prohibited by subsection (b), on the request of the member or former member or otherwise, may review the matter.

"(2) In resolving an application described in paragraph (1), a correction board—

"(A) shall review the report of the Inspector General submitted under subsection (c)(5);

"(B) may request the Inspector General to gather further evidence; and

"(C) may receive oral argument, examine and cross-examine witnesses, take depositions, and, if appropriate, conduct an evidentiary hearing.

"(3) If the board elects to hold an administrative hearing, the member or former member who filed the application described in paragraph (1)—

"(A) may be provided with representation by a judge advocate if—

"(i) the Inspector General, in the report under subsection (c)(5), finds that there is probable cause to believe that a personnel action prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication described in subsection (c)(2);

"(ii) the Judge Advocate General concerned determines that the case is unusually complex or otherwise requires judge advocate assistance to ensure proper presentation of the legal issues in the case; and

"(iii) the member is not represented by outside counsel chosen by the member; and

"(B) may examine witnesses through deposition, serve interrogatories, and request the production of evidence, including evidence contained in the investigatory record of the Inspector General but not included in the report submitted under subsection (c)(5).

"(4) The Secretary concerned shall issue a final decision with respect to an application described in paragraph (1) within 180 days after the application is filed. If the Secretary fails to issue such a final decision within that time, the member or former member shall be deemed to have exhausted the member's or former member's administrative remedies under section 1552 of this title.

"(5) The Secretary concerned shall order such action, consistent with the limitations contained in sections 1552 and 1553 of this title, as is necessary to correct the record of a personnel action prohibited by subsection (b).

"(6) If the Board determines that a personnel action prohibited by subsection (b) has occurred, the Board may recommend to the Secretary concerned that the Secretary take appropriate disciplinary action against the individual who committed such personnel action.

"(e) Review by Secretary of Defense.—Upon the completion of all administrative review under subsection (d), the member or former member of the armed forces who made the allegation referred to in subsection (c)(1), if not satisfied with the disposition of the matter, may submit the matter to the Secretary of Defense. The Secretary shall make a decision to reverse or uphold the decision of the Secretary of the military department concerned in the matter within 90 days after receipt of such a submittal.

"(f) Post-Disposition Interviews.—After disposition of any case under this section, the Inspector General shall, whenever possible, conduct an interview with the person making the allegation to determine the views of that person on the disposition of the matter.

"(g) Regulations.—The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, shall prescribe regulations to carry out this section.

"(h) Definitions.—In this section:

"(1) The term 'Member of Congress' includes any Delegate or Resident Commissioner to Congress.

"(2) The term 'Inspector General' means—

"(A) an Inspector General appointed under the Inspector General Act of 1978; and

"(B) an officer of the armed forces assigned or detailed under regulations of the Secretary concerned to serve as an Inspector General at any command level in one of the armed forces.".

(2) The item relating to such section in the table of sections at the beginning of chapter 53 of such title is amended to read as follows:

"1034. Communicating with a Member of Congress or Inspector General; prohibition of retaliatory personnel actions.".

(b) Deadline for Regulations.—The Secretary of Defense and the Secretary of Transportation shall prescribe the regulations required by subsection (g) of section 1034 of title 10, United States Code, as amended by subsection (a), not later than 180 days after the date of the enactment of this Act.

(c) Report.—(1) The Inspector General of the Department of Defense (and the Inspector General of the Department of Transportation with respect to the Coast Guard) shall submit to Congress a report on the activities of the Inspector General under section 1034 of title 10, United States Code, as amended by subsection (a). The report shall include, in the case of each case handled by the Inspector General under that section, a description of—

(A) the nature of the allegation described in subsection (c) of that section;

(B) the evaluation and recommendation of the Inspector General with respect to the allegation;

(C) any action of the appropriate board for the correction of military records with respect to the allegation;

(D) if the allegation is determined to be meritorious, any corrective action taken; and

(E) the views of the member or former member of the armed forces making the allegation (determined on the basis of the interview under subsection (f) of that section) on the disposition of the case.

(2) The Inspector General shall include with the report under this subsection copies of the individual case reports for each such allegation.

(3) The report under this subsection shall be submitted not later than February 1, 1990.

(d) Effective Date.—The amendment to section 1034 of title 10, United States Code, made by subsection (a)(1), shall apply with respect to any personnel action taken (or threatened to be taken) on or after the date of the enactment of this Act as a reprisal prohibited by subsection (b) of that section.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

SEC. 901. SENSE OF CONGRESS ON EXPANDING CONFIDENCE-BUILDING MEASURES

(a) Findings.—Congress makes the following findings:

(1) Approximately two years have passed since the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) adjourned in Stockholm following the adoption of measures designed to increase openness and predictability of military activities in Europe.

(2) To date, there have been seven formal observations and challenge inspections which have been conducted in accordance with the Stockholm agreements.

(3) The military leaders of the North Atlantic Treaty Organization have concluded that the Stockholm observations and inspections have positively contributed to an improved understanding of Warsaw Pact forces and capabilities.

(4) The Conventional Stability Talks (CST), which may begin before the end of 1988, will likely require careful and potentially prolonged negotiation.

(5) New negotiations will also begin under the auspices of the Conference on Security and Cooperation in Europe (CSCE) as a follow-on to the Stockholm conference.

(6) The confidence-building measures established at Stockholm could, if expanded, contribute significantly to the success of the CDE follow-on conference and also to the establishment of a procedural framework for verifying a future CST agreement.

(b) Sense of Congress.—It is the sense of Congress that the President should give high priority to developing, in coordination with the North Atlantic Treaty Organization allies of the United States, stabilizing and verifiable proposals for expanding the regime of confidence-building measures in conjunction with the follow-on to the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) and the new Conventional Stability Talks (CST).

SEC. 902. SENSE OF CONGRESS ON START TALKS

It is the sense of Congress that any agreement negotiated by the President to achieve a reduction and limitation on strategic arms (through the strategic arms reduction talks in Geneva or otherwise)—

(1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the United States ballistic-missile carrying submarine force, and

(2) should not prohibit or limit the deployment of non-nuclear cruise missiles.

SEC. 903. SENSE OF CONGRESS CONCERNING ROLE OF CONGRESS IN ARMS CONTROL AND DEFENSE POLICIES

It is the sense of Congress—

(1) that Congress, in exercising its authority under the Constitution "to raise and support Armies" and "provide and maintain Navies" and, in the case of the Senate, to advise and consent to the ratification of treaties, has a role to play in formulating arms control and defense policies of the United States, but

(2) that Congress, in exercising that authority, should not usurp, undermine, or interfere with the authority of the President under the Constitution to negotiate and implement treaties, especially in the case of treaties which affect arms control and defense policies of the United States.

SEC. 904. SENSE OF CONGRESS ON THE FIVE-YEAR ABM TREATY REVIEW

(a) Findings.—Congress makes the following findings:

(1) The Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, With Associated Protocol (hereinafter in this section referred to as the "ABM Treaty" or the "Treaty") in Article XIV, Paragraph 2, reads as follows: "Five years after entry into force of this Treaty, and at five-year intervals thereafter, the Parties shall together conduct a review of this Treaty.".

(2) Such Treaty entered into force on October 3, 1972, and the third five-year anniversary date specified for the conduct of the review contemplated in the Treaty, therefore, was October 3, 1987.

(3) As a fundamental principle of the canons of legal construction, a specified number of years after a specific and determinable date means the specified anniversary of such date and therefore the third five-year review of the ABM Treaty should have begun on or about October 3, 1987.

(4) The Parties to the Treaty have not met as required by the Treaty because the United States refused to meet on the date specified in the Treaty for such meeting (October 3, 1987) and has refused since such date to propose a date for the meeting.

(b) Sense of Congress.—In light of the findings in subsection (a), it is the sense of Congress that the President should, without any further delay, propose an early date to conduct the overdue five-year review of the ABM Treaty. The President shall inform Congress of the results of that review immediately after it takes place.

SEC. 905. REVISION OF ANNUAL REPORT ON SOVIET COMPLIANCE WITH ARMS CONTROL COMMITMENTS

(a) Amendment to Public Law 99-145.—The text of section 1002 of the Department of Defense Authorization Act, 1986 (22 U.S.C. 2592a), is amended to read as follows:

"(a) Annual Report.—Not later than December 1 of each year, the President shall submit to Congress a report containing the findings of the President with respect to the compliance of the Soviet Union with its arms control commitments and any additional information necessary to keep Congress currently informed.

"(b) Matters To Be Included.—The President shall specifically include in each such report the following:

"(1) A summary of the current status of all arms control agreements in effect between the United States and the Soviet Union.

"(2) An assessment of all violations by the Soviet Union of such agreements and the risks such violations pose to the national security of the United States and its allies.

"(3) A net assessment of the aggregate military significance of all such violations.

"(4) A statement of the compliance policy of the United States with respect to violations by the Soviet Union of those agreements.

"(5) What actions, if any, the President has taken or proposes to take to bring the Soviet Union into compliance with its commitments under those agreements.

"(c) Contingent Additional Information.—If the President in any second consecutive report submitted to Congress under this section reports that the Soviet Union is not in full compliance with all arms control agreements between the United States and the Soviet Union, the President shall include in such report an assessment of what ac-

tions are necessary to compensate for such violations.

"(d) Classification of Reports. Each report under this section shall be submitted in both classified and unclassified versions.".

(b) Effective Date.—The amendment made by subsection (a) shall take effect beginning with the report to be submitted under section 1002 of the Department of Defense Authorization Act, 1986, in 1990.

SEC. 906. ANNUAL REPORT ON ARMS CONTROL STRATEGY

(a) In General.—The President shall submit to Congress each year, not later than December 1, a report containing a comprehensive discussion and analysis of the arms control strategy of the United States. The President shall include in each such report the following:

(1) A description of the nature and sequence of the future arms control efforts of the United States.

(2) A net assessment of the current effects of arms control agreements on the status of, and trends in, the military balance between the United States and the Soviet Union and between the North Atlantic Treaty Organization (NATO) and the Warsaw Pact.

(3) A comprehensive data base on the military balance of forces of the United States and the Soviet Union, and the balance of forces of NATO and the Warsaw Pact countries, that are affected by arms control agreements in existence as of the time of the report between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an explanation of the methodology used to analyze the effects on such forces.

(4) A net assessment of the effect that proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact would likely have on United States force plans and contingency plans, including an assessment of the effect that such proposed agreements would have on the risks and costs to the United States.

(5) An assessment of the effect that proposed treaty sub-ceilings, asymmetries, and other factors or qualifications affecting a treaty or arms control proposal would have on the military balance between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an assessment of how such factors increase deterrence and reduce the risk and cost of war.

(6) A statement of the strategy the United States and NATO will use to verify and deter noncompliance with proposed arms control treaties between the United States and the Soviet Union and between NATO and the Warsaw Pact.

(7) A discussion of the extent to which and the manner in which the United States intends to consult with its allies regarding proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact.

(8) A discussion of how the United States proposes to tailor its defense structure in order to ensure that the national security can be preserved with or without arms control agreements.

(b) Explanation of Methodology.—In reporting on the current effect of arms control agreements on the status of, and trends in, the military balance of power between the United States and the Soviet Union and between NATO and the Warsaw Pact (required under paragraphs (2) and (3) of subsection (a)), the President shall—

(1) specify the methodology used in analyzing the military balance between the United States and the Soviet Union and express the results of such analyses in terms of (A) static comparisons, and (B) comparisons that include dynamic factors; and

(2) discuss all major scenarios, assumptions, and contingencies, including political confrontation, full-scale war, and serious confrontations not involving full-scale war.

(c) Form of Report.—The President shall submit such report in both classified and unclassified form.

SEC. 907. REPORT ON ANTIBALLISTIC MISSILE CAPABILITIES AND ACTIVITIES OF THE SOVIET UNION

(a) Study.—The President shall conduct a study regarding the antiballistic missile capability and activities of the Soviet Union. In conducting the study, the President shall assess each of the following:

(1) The military capabilities and significance of the extensive network of large-phased array radars of the Soviet Union.

(2) Whether the Soviet Union is developing or producing mobile or transportable engagement radars in violation of the 1972 Antiballistic Missile Treaty.

(3) The ability of the Soviet Union to develop an effective exoatmospheric antiballistic missile defense without using widespread deployments of traditional engagement radars.

(4) The ability of air defense interceptor missiles of the Soviet Union, now and in the future, to destroy warheads of ballistic missiles in flight.

(5) Whether silos or other hardened facilities of the Soviet Union located outside of the existing antiballistic missile site permitted near Moscow under the terms of the 1972 Antiballistic Missile Treaty are or could be associated with antiballistic missile defenses not permitted under that Treaty.

(6) Whether the Soviet Union is developing terminal antiballistic missile defenses.

(7) Whether the existing antiballistic missile site near Moscow that is permitted under the terms of that Treaty conceals or could conceal development, testing, or deployment by the Soviet Union of a widespread antiballistic missile system.

(8) Activities of the Soviet Union regarding boost-phase intercepts of ballistic missiles.

(9) The status of laser programs, particle-beam programs, and other advanced technology programs of the Soviet Union comparable to programs conducted by the United States under the Strategic Defense Initiative.

(10) The consequences for the United States of a successful effort by the Soviet Union to deploy an effective nationwise or limited antiballistic missile system.

(b) Assessment of Ability of United States to Counter a Soviet ABM System.—In conducting the study required by subsection (a), the President shall also assess the ability of the United States to counter effectively an effective antiballistic missile system deployed by the Soviet Union. Such assessment shall consider both the deployment by the Soviet Union of a nationwide, and of a limited, antiballistic missile system. In assessing the ability of the United States to counter effectively such a system, the President—

(1) shall consider the ability of the United States to modify (A) existing strategic offensive forces (including modifications involving the development of additional penetration aids), and (B) current strategic doctrine and tactics; and

(2) shall consider whether the actions of the United States described in paragraph (1) could be accomplished over the same period of time that the Soviet Union would require to deploy such an antiballistic missile system.

(c) Report.—Not later than January 1, 1989, the President shall submit to Congress a report, in both a classified and an unclassified version, specifying the results of the study conducted pursuant to this section. The report shall include such recommendations as the President considers appropriate, including recommendations with regard to maintaining the deterrent value of the strategic forces of the United States in light of the antiballistic missile capability and activities of the Soviet Union described in the report.

SEC. 908. ANALYSIS OF ALTERNATIVE STRATEGIC NUCLEAR FORCE POSTURES FOR THE UNITED STATES UNDER A POTENTIAL START TREATY

(a) Findings.—Congress makes the following findings:

(1) The United States and the Soviet Union are currently engaged in talks regarding the reduction of strategic nuclear arms.

(2) Such talks could result in a treaty requiring deep reductions in the strategic forces of the United States.

(3) Any such Strategic Arms Reduction Treaty (START) cannot be ratified without the advice and consent of the Senate.

(4) Any such START Treaty should result in a stable balance of strategic forces between the United States and the Soviet Union which enhances the security of the United States.

(5) Congress should provide funds for the forces permitted under such a treaty that are required to ensure the stability of the force balance under such a treaty.

(6) Congress faces critical resource choices for fiscal year 1989 and subsequent fiscal years, and the resource choices made by Congress for those years could substantially influence the strategic force posture of the United States in the period after such a treaty goes into effect.

(b) Presidential Report.—Before entering into any Strategic Arms Reduction Treaty or other agreement with the Soviet Union for the reduction of strategic arms, but not later than September 15, 1988, the President shall submit to Congress a comprehensive report on the implications such a treaty or agreement might have on the strategic force postures of the United States during the 1990s. The report shall include the following:

(1) A description of alternative force postures that might be permitted for the United States under such an arms reduction agreement, including the posture recommended by the President.

(2) The estimated costs, over at least a seven-year period, associated with each alternative force posture.

(3) The damage limitation capability, the survivability, and the retaliatory potential of such force posture, and the implications for strategic stability, assessed with regard to the likely force postures of the Soviet Union under such an agreement and the first-strike potential of such force postures.

(4) The likely effect of a breakout by the Soviet Union from such an arms control agreement on the survivability and of the force posture of the United States under such an agreement recommended by the President under paragraph (1).

(c) Form of Report.—The President shall submit the report under subsection (b) in both classified and unclassified form.

SEC. 909. ON-SITE INSPECTION AGENCY

(a) REPORT REQUIREMENTS.—(1) Not later than six months after the date of the enactment of this Act, the officers named in paragraph (2) shall each submit to the Committee on Armed Services, the Committee on Foreign Affairs, and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Armed Services, the Committee on Foreign Relations, and the Select Committee on Intelligence of the Senate an unclassified report, with classified annexes as necessary, on the responsibility of each such officer for the monitoring and verification of arms control agreements. Each such report—

(A) shall address specifically any responsibility the officer submitting the report has with respect to on-site inspections (whether inspections of facilities of the United States or inspections of facilities of another party to the agreement); and

(B) shall set forth the organizational elements of each department or agency over which the officer submitting the report has jurisdiction which have functions related to the monitoring or verification of arms control agreements.

(2) Officers referred to in paragraph (1) are the following:

(A) The Secretary of Defense.

(B) The Secretary of State.

(C) The Director of Central Intelligence.

(D) The Director of the United States Arms Control and Disarmament Agency.

(b) MATTERS TO BE INCLUDED.—Each report under subsection (a) shall—

(1) describe in detail the monitoring and verification activities carried out with respect to the INF Treaty,

(2) evaluate the effectiveness with which these functions have been implemented, and

(3) include recommendations for any future organizational or policy changes that may be necessary in view of the experience of implementing the INF Treaty.

(c) INF TREATY DEFINED.—For purposes of subsection (b), the term "INF Treaty" means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles (signed at Washington on December 9, 1987).

(d) BUDGET REQUESTS.—Any request submitted to Congress by the Executive Branch for authorization of appropriations for the On-Site Inspection Agency for any fiscal year shall, as a separate activity, provide details of all funding and of all military and civilian personnel requested for that Agency for that fiscal year, including the number of such personnel of the Department of Defense and other agencies that will be assigned to on-site inspection activities and to support such activities during that fiscal year.

SEC. 910. COORDINATION OF VERIFICATION POLICY AND RESEARCH AND DEVELOPMENT ACTIVITIES

(a) REPORT.—Not later than June 30, 1989, the President shall submit to Congress a report reviewing the relationship of arms control objectives of the United States with research and development of improved monitoring systems for arms control verification. The review shall include the participation of the Secretaries of Defense, State, and Energy, the Director of Central Intelligence, and the Director of the United States Arms Control and Disarmament Agency.

(b) FINDINGS AND RECOMMENDATIONS.—The report shall include the findings of the President, and such recommendations for improvements as the President considers appropriate, with respect to the following:

(1) The status of coordination among the officers named in subsection (a) in the formulation of the policy of the United States regarding arms control verification.

(2) The status of efforts to ensure that such policy is formulated in a manner which takes into account available monitoring technology.

(3) The status of efforts to ensure that research and development on monitoring technology evolves concurrently with such policy.

TITLE X—MATTERS RELATING TO NATO COUNTRIES AND OTHER ALLIES

SEC. 1001. INCREASE IN ANNUAL DOLLAR LIMITATION ON ACQUISITION AND CROSS-SERVICING AGREEMENTS WITH ALLIED COUNTRIES

Section 2347(a)(1) of title 10, United States Code, is amended by striking out "$100,000,000" and inserting in lieu thereof "$150,000,000".

SEC. 1002. AUTHORITY TO WAIVE SURCHARGES ON CERTAIN SALES TO NORTH ATLANTIC TREATY ORGANIZATION

Section 21(e) of the Arms Export Control Act (22 U.S.C. 2761(e)) is amended by adding at the end the following:

"(3)(A) The President may waive the charges for administrative services that would otherwise be required by paragraph (1)(A) in connection with any sale to the Maintenance and Supply Agency of the North Atlantic Treaty Organization in support of—

"(i) a weapon system partnership agreement; or

"(ii) a NATO/SHAPE project.

"(B) The Secretary of Defense may reimburse the fund established to carry out section 43(b) of this Act in the amount of the charges waived under subparagraph (A) of this paragraph. Any such reimbursement may be made from any funds available to the Department of Defense.

"(C) As used in this paragraph—

"(i) the term 'weapon system partnership agreement' means an agreement between two or more member countries of the Maintenance and Supply Agency of the North Atlantic Treaty Organization that—

"(I) is entered into pursuant to the terms of the charter of that organization; and

"(II) is for the common logistic support of a specific weapon system common to the participating countries; and

"(ii) the term 'NATO/SHAPE project' means a common-funded project supported by allocated credits from North Atlantic Treaty Organization bodies or by host nations with NATO Infrastructure funds.".

SEC. 1003. AUTHORITY OF MILITARY DEPARTMENTS TO LOAN AND BORROW FROM CERTAIN ALLIES MATERIALS, SUPPLIES, AND EQUIPMENT FOR RESEARCH AND DEVELOPMENT PURPOSES

(a) IN GENERAL.—Chapter 6 of the Arms Export Control Act (22 U.S.C. 2796c) is amended by adding at the end the following new section:

"SEC. 65. LOAN OF MATERIALS, SUPPLIES, AND EQUIPMENT FOR RESEARCH AND DEVELOPMENT PURPOSES.—(a)(1) Except as provided in subsection (c), the Secretary of Defense may loan to a country that is a NATO or major non-NATO ally materials, supplies, or equipment for the purpose of carrying out a program of cooperative research, development, testing, or evaluation. The Secretary may accept as a loan or a gift from a country that is a NATO or major non-NATO ally materials, supplies, or equipment for such purpose.

"(2) Each loan or gift transaction entered into by the Secretary under this section shall be provided for under the terms of a written agreement between the Secretary and the country concerned.

"(3) A program of testing or evaluation for which the Secretary may loan materials, supplies, or equipment under this section includes a program of testing or evaluation conducted solely for the purpose of standardization, interchangeability, or technical evaluation if the country to which the materials, supplies, or equipment are loaned agrees to provide the results of the testing or evaluation to the United States without charge.

"(b) The materials, supplies, or equipment loaned to a country under this section may be expended or otherwise consumed in connection with any testing or evaluation program without a requirement for reimbursement of the United States if the Secretary—

"(1) determines that the success of the research, development, test, or evaluation depends upon expending or otherwise consuming the materials, supplies, or equipment loaned to the country; and

"(2) approves of the expenditure or consumption of such materials, supplies, or equipment.

"(c) The Secretary of Defense may not loan to a country under this section any material if the material is a strategic and critical material and if, at the time the loan is to be made, the quantity of the material in the National Defense Stockpile (provided for under section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b)) is less than the quantity of such material to be stockpiled, as determined by the President under section 3(a) of such Act.

"(d) For purposes of this section, the term 'NATO or major non-NATO ally' means a member country of the North Atlantic Treaty Organization (other than the United States) or a foreign country other than a member nation of NATO designated as a major non-NATO ally under section 1105 of the National Defense Authorization Act for Fiscal Year 1987 (22 U.S.C. 2767a).".

(b) CLERICAL AMENDMENT.—The heading for such chapter is amended to read as follows:

"CHAPTER 6—LEASES OF DEFENSE ARTICLES AND LOAN AUTHORITY FOR COOPERATIVE RESEARCH AND DEVELOPMENT PURPOSES".

SEC. 1004. SENSE OF CONGRESS ON NEED FOR MODERNIZATION OF THEATER NUCLEAR CAPABILITIES OF NATO

(a) FINDINGS.—Congress makes the following findings:

(1) The security of the North Atlantic Treaty Organization (NATO) alliance will continue for the foreseeable future to rely on a modern and credible nuclear deterrent.

(2) NATO should make every effort to achieve the goal of raising the threshold for the use of nuclear weapons in the event of a conflict in Europe.

(3) While recognizing that there is a critical need for improvements in conventional forces, Congress also recognizes that the United States will have to devote defense resources in the future to the continuing modernization of the theater nuclear capabilities of NATO.

(4) The modernization of the theater nuclear capabilities of NATO is a continuing process and stems from the 1983 Montebello decision by NATO to reduce the stockpile of nuclear weapons in Europe while taking steps to ensure that the remaining nuclear weapons of the alliance are responsive, survivable, and effective.

(5) Programs to modernize theater nuclear forces, which had a high priority for NATO before the ratification of the Intermediate-range Nuclear Forces (INF) Treaty, are at least as important following the ratification of that treaty in May 1988.

(6) The NATO Nuclear Planning Group recently reaffirmed its endorsement of development by the United States of a new missile for delivery of theater nuclear weapons as a follow-on to the current Lance missile, with a view toward an eventual decision on deployment of such a follow-on missile.

(b) Sense of Congress.—In light of the findings in subsection (a), it is the sense of Congress that—

(1) modernization of the theater nuclear capabilities of the North Atlantic Treaty Organization is essential to the deterrence strategy of the NATO alliance, particularly in light of the requirements of the Intermediate-range Nuclear Forces (INF) Treaty for the destruction of intermediate-range nuclear weapons;

(2) continued modernization by the United States of theater nuclear capabilities should be undertaken in close consultation with other NATO member nations; and

(3) the United States should proceed with ongoing activities to meet the identified requirement of the NATO alliance for development of a new missile for delivery of theater nuclear weapons as a follow-on to the Lance missile.

SEC. 1005. REPORT ON NATO DEFENSE PROGRAM FOR FISCAL YEAR 1990

(a) Report.—The Secretary of Defense shall submit to Congress a report setting forth in detail the programs of the Department of Defense in support of the North Atlantic Treaty Organization (referred to as the "NATO Defense Program") for fiscal year 1990. The report shall include—

(1) an identification of each such program by program element; and

(2) a description of each such program and the level of funding requested by the President for each such program in the budget for fiscal year 1990.

(b) Submission of Report.—The report under subsection (a) shall be submitted in conjunction with the submission to Congress of the President's budget for fiscal year 1990 pursuant to section 1105 of title 31, United States Code.

SEC. 1006. IMPROVEMENT IN DEFENSE RESEARCH AND PROCUREMENT LIAISON WITH ISRAEL

The Secretary of Defense, in consultation with the Under Secretary of Defense for Acquisition, shall designate for duty in Israel an individual or individuals to serve as the primary liaison between the procurement and research and development activities of the United States Armed Forces and those of the State of Israel.

SEC. 1007. MODIFICATION OF REQUIREMENT CONCERNING DESIGNATION OF MAJOR NON-NATO ALLIES

Section 1105(f) of the National Defense Authorization Act for Fiscal Year 1987 (22 U.S.C. 2767a) is amended—

(1) by striking out "Not later than January 1 of each year, the Secretary" and inserting in lieu thereof "The Secretary";

(2) by inserting ", whenever they consider such action to be warranted," after "Secretary of State"; and

(3) by inserting "to be added to or deleted from the existing designation of countries" in paragraph (1) after "countries".

SEC. 1008. CALL FOR CONTINUED DEFENSE BURDEN-SHARING DISCUSSIONS WITH ALLIES

It is the sense of Congress that the President should continue the discussions (called for by Congress in section 1254(b)(1) of Public Law 100-204) with countries which participate in mutual defense alliances with the United States, especially the member nations of the North Atlantic Treaty Organization and Japan, for the purpose of reaching an agreement for a more equitable distribution of the burden of financial support for the alliances.

SEC. 1009. CONTRIBUTIONS BY JAPAN TO GLOBAL STABILITY

(a) Findings.—The Congress makes the following findings:

(1) As noted by Congress in section 1012(a)(1) of Public Law 100-180 and in section 812(a)(1) of Public Law 99-93, the alliance of the United States and Japan is the foundation for the security of Japan and peace in the Far East and is a major contributing factor to the democratic freedoms and the economic prosperity enjoyed by both the United States and Japan.

(2) In keeping with the declaration made at the 1983 meeting in Williamsburg, Virginia, of the leaders of the leading industrialized democracies that "the security of our countries is indivisible and must be approached on a global basis", the Government of Japan, in actions welcomed by the United States—

(A) continues to fulfill the pledge made by the Prime Minister of Japan in May 1981 to develop the capabilities to defend the territory of Japan and the airspace and sealanes around Japan to a distance of 1,000 nautical miles by 1990,

(B) has increased the amount of assistance provided to other countries during fiscal year 1988 by 6.5 percent over the amount of such assistance provided during fiscal year 1987, and

(C) is, according to recent reports, actively involved in increasing its contributions to the stability of the Republic of the Philippines.

(3) Japan could, because of its recent history and economic status, best fulfill a politically acceptable and significant role in maintaining the security of the leading industrialized democracies by increasing spending for its Official Development Assistance program in the manner described by Congress in section 1012(b) of Public Law 100-180.

(4) The failure of the United States and Japan to agree on the appropriate level of the contribution by Japan to maintaining the security of the leading industrialized democracies could weaken the long-term vitality, effectiveness, and cohesion of the alliance between the United States and Japan.

(b) Annual Report.—The Secretary of Defense shall include with the annual report submitted pursuant to section 1003 of Public Law 98-525 (22 U.S.C. 1928 note) a report on the Official Development Assistance program of the Government of Japan. Such report shall be prepared each year in coordination with the Secretary of State and the Administrator of the Agency for International Development and shall include a description of the amount and nature of spending under such program by recipient, including distinguishing between grant aid, loans, and credits.

(c) Policy on Discussions With Japan.—It is the sense of Congress that in the discussions with Japan referred to in section 1008 for the purpose of reaching a more equitable distribution of the burden of financial support for the security of the leading industrialized democracies, the objective of such discussions should include the establishment of a schedule for increases in spending under Japan's Official Development Assistance program and its defense programs so that, by 1992, the level of spending on those programs (stated as a percentage of gross national product) will approximate the average of the levels of spending by the member nations of the North Atlantic Treaty Organization on official development assistance and defense programs (stated as a percentage of their respective gross national products).

(d) Report.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to Congress a report on the progress of the discussions described in subsection (c) with respect to Japan.

(e) Further Congressional Action.—It is the sense of Congress that if, in the judgment of Congress, the report of the President under subsection (d) does not reflect substantial progress toward a more equitable distribution of the burden of maintaining the security of the leading industrialized democracies, Congress should review the extent of the distribution of the mutual security burden between the United States and Japan and should consider whether additional legislation is appropriate.

TITLE XI—DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT

SEC. 1101. ANNUAL GUIDELINES TO THE MILITARY DEPARTMENTS

Section 113 of title 10, United States Code, is amended by adding to the end the following new subsection:

"(l) The Secretary of Defense, with the advice and assistance of the Chairman of the Joint Chiefs of Staff, shall provide annually to the Secretaries of the military departments and to the commanders of the combatant commands written guidelines to direct the effective detection and monitoring of all potential aerial and maritime threats to the national security of the United States. Those guidelines shall include guidance on the specific force levels and specific supporting resources to be made available for the period of time for which the guidelines are to be in effect.".

SEC. 1102. LEAD AGENCY FOR DETECTION

(a) Department of Defense To Serve as Lead Agency.—(1) The Department of Defense shall serve as the single lead agency of the Federal Government for the detection and monitoring of aerial and maritime transit of illegal drugs into the United States.

(b) Presidential Determination.—Not later than 15 days after the date of the enactment of this Act, the President may designate an agency other than the Department of Defense as the single lead agency for the purpose stated in subsection (a). Before making such a designation, the President shall notify the Committees on Armed Services of the Senate and House of Representatives of the proposed designation and shall submit to those committees a detailed report setting forth the reasons for such designation.

SEC. 1103. COMMUNICATIONS NETWORK

(a) Integration of C3I Assets.—(1) The President shall direct that command, control, communications, and technical intelligence assets of the United States that are dedicated to the interdiction of illegal drugs be integrated by the Secretary of Defense into an effective communications network.

(2) Not later than 90 days after the date of the enactment of this Act, the President shall submit to Congress a report setting forth the plan of the President for the integration of

assets by the Secretary of Defense under paragraph (1).

(b) PLAN FOR RESPONSIBILITY FOR OPERATING C3I NETWORK.—Not later than 120 days after submission of the report required by subsection (a)(2), the President shall develop a plan for the assignment of responsibility for operating the communications network described in subsection (a)(1) and shall submit to Congress a report on such plan. The plan shall ensure that assignment of the responsibility for operating the communications network referred to in subsection (a)(1) is made not later than 60 days after the date on which the report required by this subsection is submitted to Congress.

SEC. 1104. ENHANCED DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT BY THE DEPARTMENT OF DEFENSE

(a) REVISION OF SUPPORT FOR CIVILIAN LAW ENFORCEMENT AGENCIES.—Chapter 18 of title 10, United States Code, is amended to read as follows:

"CHAPTER 18—MILITARY SUPPORT FOR CIVILIAN LAW ENFORCEMENT AGENCIES

"Sec.

"371. Use of information collected during military operations.
"372. Use of military equipment and facilities.
"373. Training and advising civilian law enforcement officials.
"374. Maintenance and operation of equipment.
"375. Restriction on direct participation by military personnel.
"376. Support not to affect adversely military preparedness.
"377. Reimbursement.
"378. Nonpreemption of other law.
"379. Assignment of Coast Guard personnel to naval vessels for law enforcement purposes.
"380. Enhancement of cooperation with civilian law enforcement officials.

"§371. Use of information collected during military operations

"(a) The Secretary of Defense may, in accordance with other applicable law, provide to Federal, State, or local civilian law enforcement officials any information collected during the normal course of military training or operations that may be relevant to a violation of any Federal or State law within the jurisdiction of such officials.

"(b) The needs of civilian law enforcement officials for information shall, to the maximum extent practicable, be taken into account in the planning and execution of military training or operations.

"(c) The Secretary of Defense shall ensure, to the extent consistent with national security, that intelligence information held by the Department of Defense and relevant to drug interdiction or other civilian law enforcement matters is provided promptly to appropriate civilian law enforcement officials.

"§372. Use of military equipment and facilities

"The Secretary of Defense may, in accordance with other applicable law, make available any equipment (including associated supplies or spare parts), base facility, or research facility of the Department of Defense to any Federal, State, or local civilian law enforcement official for law enforcement purposes.

"§373. Training and advising civilian law enforcement officials

"The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available—

"(1) to train Federal, State, and local civilian law enforcement officials in the operation and maintenance of equipment, including equipment made available under section 372 of this title; and

"(2) to provide such law enforcement officials with expert advice relevant to the purposes of this chapter.

"§374. Maintenance and operation of equipment

"(a) The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available for the maintenance of equipment for Federal, State, and local civilian law enforcement officials, including equipment made available under section 372 of this title.

"(b)(1) Subject to paragraph (2) and in accordance with other applicable law, the Secretary of Defense may, upon request from the head of a Federal law enforcement agency, make Department of Defense personnel available to operate equipment (including equipment made available under section 372 of this title) with respect to—

"(A) a criminal violation of a provision of law specified in paragraph (4)(A); or

"(B) assistance that such agency is authorized to furnish to a State, local, or foreign government which is involved in the enforcement of similar laws.

"(2) Department of Defense personnel made available to a civilian law enforcement agency under this subsection may operate equipment for the following purposes:

"(A) Detection, monitoring, and communication of the movement of air and sea traffic.

"(B) Aerial reconnaissance.

"(C) Interception of vessels or aircraft detected outside the land area of the United States for the purposes of communicating with such vessels and aircraft to direct such vessels and aircraft to go to a location designated by appropriate civilian officials.

"(D) Operation of equipment to facilitate communications in connection with law enforcement activities specified in paragraph (4)(A).

"(E) Subject to joint approval by the Secretary of Defense, the Attorney General, and the Secretary of State, in connection with a law enforcement operation outside the land area of the United States—

"(i) the transportation of civilian law enforcement personnel; and

"(ii) the operation of a base of operations for civilian law enforcement personnel.

"(3) Department of Defense personnel made available to operate equipment for the purpose stated in paragraph (2)(C) may continue to operate such equipment into the land area of the United States in cases involving the pursuit of vessels or aircraft where the detection began outside such land area.

"(4) In this subsection:

"(A) The term 'Federal law enforcement agency' means an agency with jurisdiction to enforce any of the following:

"(i) The Controlled Substances Act (21 U.S.C. 801 et seq.) or the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.).

"(ii) Any of sections 274 through 278 of the Immigration and Nationality Act (8 U.S.C. 1324-1328).

"(iii) A law relating to the arrival or departure of merchandise (as defined in section 401 of the Tariff Act of 1930 (19 U.S.C. 1401) into or out of the customs territory of the United States (as defined in general headnote 2 of the Tariff Schedules of the United States) or any other territory or possession of the United States.

"(iv) The Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.).

"(B) The term 'land area of the United States' includes the land area of any territory, commonwealth, or possession of the United States.

"(c) The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available to any Federal, State, or local civilian law enforcement agency to operate equipment for purposes other than described in paragraph (2) only to the extent that such support does not involve direct participation by such personnel in a civilian law enforcement operation unless such direct participation is otherwise authorized by law.

"§375. Restriction on direct participation by military personnel

"The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that the provision of any support (including the provision of any equipment or facility or the assignment or detail of any personnel) to any civilian law enforcement official under this chapter does not include or permit direct participation by a member of the Army, Navy, Air Force, or Marine Corps in a search and seizure, an arrest, or other similar activity unless participation in such activity by such member is otherwise authorized by law.

"§376. Support not to affect adversely military preparedness

"Support (including the provision of any equipment or facility or the assignment or detail of any personnel) may not be provided to any civilian law enforcement official under this chapter if the provision of such support will adversely affect the military preparedness of the United States. The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that the provision of any such support does not adversely affect the military preparedness of the United States.

"§377. Reimbursement

"(a) To the extent otherwise required by section 1535 of title 31 (popularly known as the 'Economy Act') or other applicable law, the Secretary of Defense shall require a civilian law enforcement agency to which support is provided under this chapter to reimburse the Department of Defense for that support.

"(b) An agency to which support is provided under this chapter is not required to reimburse the Department of Defense for such support if such support—

"(1) is provided in the normal course of military training or operations; or

"(2) results in a benefit to the element of the Department of Defense providing the support that is substantially equivalent to that which would otherwise be obtained from military operations or training.

"§378. Nonpreemption of other law

"Nothing in this chapter shall be construed to limit the authority of the executive branch in the use of military personnel or equipment for civilian law enforcement purposes beyond that provided by law before December 1, 1981.

"§379. Assignment of Coast Guard personnel to naval vessels for law enforcement purposes

"(a) The Secretary of Defense and the Secretary of Transportation shall provide that there be assigned on board every appropriate surface naval vessels at sea in a drug-interdiction area members of the Coast Guard who are trained in law enforcement and have powers of the Coast Guard under title 14, including the power to make arrests and to carry out searches and seizures.

"(b) Members of the Coast Guard assigned to duty on board naval vessels under this section shall perform such law enforcement functions (including drug-interdiction functions)—

"(1) as may be agreed upon by the Secretary of Defense and the Secretary of Transportation; and

"(2) as are otherwise within the jurisdiction of the Coast Guard.

"(c) No fewer than 500 active duty personnel of the Coast Guard shall be assigned each fiscal year to duty under this section. However, if at any time the Secretary of Transportation, after consultation with the Secretary of Defense, determines that there are insufficient naval vessels available for purposes of this section, such personnel may be asigned other duty involving enforcement of laws listed in section 374(b)(4)(A) of this title.

"(d) In this section, the term 'drug-interdiction area' means an area outside the land area of the United States (as defined in section 374(b)(4)(B) of this title) in which the Secretary of Defense (in consultation with the Attorney General) determines that activities involving smuggling of drugs into the United States are ongoing.

"§380. Enhancement of cooperation with civilian law enforcement officials

"(a) The Secretary of Defense, in cooperation with the Attorney General, shall conduct an annual briefing of law enforcement personnel of each State (including law enforcement personnel of the political subdivisions of each State) regarding information, training, technical support, and equipment and facilities available to civilian law enforcement personnel from the Department of Defense.

"(b) Each briefing conducted under subsection (a) shall include the following:

"(1) An explanation of the procedures for civilian law enforcement officials—

"(A) to obtain information, equipment, training, expert advice, and other personnel support under this chapter; and

"(B) to obtain surplus military equipment.

"(2) A description of the types of information, equipment and facilities, and training and advice available to civilian law enforcement officials from the Department of Defense.

"(3) A current, comprehensive list of military equipment which is suitable for law enforcement officials from the Department of Defense or available as surplus property from the Administrator of General Services.

"(c) The Attorney General and the Administrator of General Services shall—

"(1) establish or designate an appropriate office or offices to maintain the list described in subsection (b)(3) and to furnish information to civilian law enforcement officials on the availability of surplus military equipment; and

"(2) make available to civilian law enforcement personnel nationwide, tollfree telephone communication with such office or offices.".

(b) CLERICAL AMENDMENT.—The item relating to such chapter in the tables of chapters at the beginning of subtitle A, and at the beginning of part I of subtitle A, of title 10, United States Code, is amended to read as follows:

"18. Military Support for Civilian Law Enforcement Agencies............................. 371".

SEC. 1105. ENHANCED DRUG INTERDICTION AND ENFORCEMENT ROLE FOR THE NATIONAL GUARD

(a) FUNDING ASSISTANCE.—(1) The Secretary of Defense may provide to the Governor of a State who submits a plan to the Secretary under paragraph (2) sufficient funds for the pay, allowances, clothing, subsistence, gratuities, travel, and related expenses of personnel of the National Guard of such State used—

(A) for the purpose of drug interdiction and enforcement operations; and

(B) for the operation and maintenance of the equipment and facilities of the National Guard of such State used for such purposes.

(2) The Secretary may provide funds under paragraph (1) to the Governor of a State who submits to the Secretary a plan specifying how personnel of the National Guard of that State are to be used in drug enforcement and interdiction operation by a National Guard of a State if—

(A) such operations are conducted at a time when personnel of the National Guard of the State are under the command and control of State authority and are not in Federal service; and

(B) participation by a National Guard personnel in such operations is service in addition to annual training required under section 502 of title 32, United States Code.

(3) Before funds are provided to the Governor of a State under this section, the Secretary of Defense shall consult with the Attorney General of the United States regarding the adequacy of the plan submitted by the Governor to the Secretary.

(4) Of the amounts appropriated pursuant to section 1106, the Secretary shall, for the purposes of paragraph (1), make available—

(A) not more than $30,000,000 for operations and maintenance for the National Guard, and

(B) not more than $30,000,000 for National Guard personnel.

(5) Nothing in this subsection shall be construed as a limitation on the authority of any unit of the National Guard of a State, when such unit is not in Federal service, to perform law enforcement functions authorized to be performed by the National Guard by the laws of the State concerned.

(b) TRAINING CRITERIA.—The Secretary of Defense shall prescribe and enforce training criteria for the National Guard to enhance the capability of the National Guard to assist in drug abuse control activities.

(c) PRESIDENTIAL REPORT.—Not later than 120 days after the date of the enactment of this Act, the President shall submit to Congress a report on the past effectiveness of using members of the National Guard for drug interdiction efforts, consistent with applicable law, along the borders and at the ports of entry of the United States and on the potential for the effective use of such members for such purpose in the future.

SEC. 1106. FUNDING OF ACTIVITIES RELATED TO DRUG INTERDICTION

(a) AUTHORIZATION OF APPROPRIATIONS.—(1) In addition to the amounts otherwise authorized to be appropriated by this Act, there is hereby authorized to be appropriated to the Department of Defense for fiscal year 1989 the sum of $210,000,000. Amounts appropriated pursuant to the preceding sentence shall be available only for transfer to other appropriations available to the Department of Defense and may be used only for the purposes stated in paragraph (2).

(2) Funds transferred under paragraph (1) may be used only for the mission of the Department of Defense set forth in section 113(l) of title 10, United States Code, as added by section 1101, for the activities of the Department of Defense under section 1103, and for National Guard drug interdiction activities described in section 1105. Such funds shall be available for obligation for the same period, and for the same purpose, as the appropriation to which transferred.

(b) TRANSFER OF FY87 FUNDS.—Of the amounts appropriated for the Navy for procurement of aircraft for fiscal year 1987, and which remain unobligated on the date of the enactment of this Act, the sum of $90,000,000 shall be available only for the purposes set forth in subsection (a)(2). Such amount may be transferred to any appropriation made for the Department of Defense for fiscal year 1989 and shall be merged with, and be available for the same purpose as, the appropriation to which transferred. The period of the availability for obligation of any amount so transferred shall not be extended as a result of such transfer.

(c) NOTICE TO CONGRESS.—(1) The Secretary of Defense may not transfer any funds appropriated pursuant to subsection (a) to another appropriation for obligation pursuant to this section and may not transfer or obligate any funds made available under subsection (b) until—

(A) the Secretary submits to the Committees on Armed Services of the Senate and the House of Representatives a report with respect to that transfer described in paragraph (2); and

(B) a period of 60 days elapses after the report is received by those committees.

(2) A report under paragraph (1) with respect to a transfer of funds shall set forth in detail the Secretary's proposal for the obligation of such funds, including a statement of the following:

(A) The appropriation account or accounts to which the funds are proposed to be transferred.

(B) The activities proposed to be undertaken using those funds.

(C) The relationship between those activities and the drug interdiction strategy of the United States.

SEC. 1107. REPORTS

(a) PROPOSALS.—Not later than December 1, 1988, the President shall submit to Congress a report containing—

(1) legislative proposals to enhance the capability of the Department of Defense to perform the functions provided for in this title and in the amendments made by this title; and

(2) estimates of the amounts necessary to carry out such proposals.

(b) RADAR COVERAGE AND SOUTHERN BORDER.—(1) The President shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report assessing the potential effect on drug interdiction and on the drug abuse problem in the United States of—

(A) carrying out radar coverage along the southern border of the United States; and

(B) pursuing drug smugglers detected by such radar coverage with rotor-wing and fixed-wing aircraft of the Department of Defense and of civilian law enforcement agencies.

(2) The President shall include in such report an assessment of the relative effectiveness—

(A) of carrying out the operations described in clauses (A) and (B) of paragraph (1) on a full-time basis;

(B) of carrying out such operations only during the hours of darkness; and

(C) the feasibility and cost of carrying out such operations under each of the conditions specified in clauses (A) and (B).

(3) The report under paragraph (1) shall be submitted not later than July 20, 1988.

(c) PURSUIT BY AIRCRAFT.—(1) Not later than 15 days after the date of the enactment of this act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing the following information:

(A) The total number of times suspected drug smugglers flying aircraft into the United States have been pursued by aircraft operated by or with the support of personnel of the Department of Defense under the authority of section 374(c)(2)(B) of title 10, United States Code, as in effect on the day before the date of the enactment of this Act.

(B) The number of times civilian law enforcement officials were present at the location and at the time the suspected drug smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(C) The number of times such officials were not present at the location and at the time such suspected smugglers were forced to land their aircraft in the United States.

(2) Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to such committees a report containing the following information:

(A) The total number of times suspected drug smugglers described in paragraph (1) have been pursued into the United States by aircraft operated by or with the support of Department of Defense personnel under the authority of section 374(b)(2)(C) of title 10, as amended by section 1104.

(B) The number of times civilian law enforcement officials were present at the location and at the time the suspected drug smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(C) The number of times such officials were not present at the location and at the time such suspected smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(D) Such other information and such recommendations as the Secretary considers appropriate regarding the use of Department of Defense personnel for purposes authorized in section 374(b) of title 10, United States Code, as amended by section 1104.

TITLE XII—GENERAL PROVISIONS

PART A—FINANCIAL AND BUDGET MATTERS

SEC. 1201. TRANSFER AUTHORITY

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in title I, II, or III for any fiscal year between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations for any fiscal year that the Secretary of Defense may transfer under the authority of this section may not exceed $3,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) NOTICE TO CONGRESS.—The Secretary of Defense shall promptly notify Congress of transfers made under the authority of this section.

SEC. 1202. INCREASE IN FISCAL YEAR 1988 DEFENSE FUNDS TRANSFER AUTHORIZATION

Section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1153) is amended—

(1) in subsection (a)—

(A) by inserting "of this Act or any prior defense authorization Act" in paragraph (1) before "for any fiscal year";

(B) by striking out "$2,000,000,000" in paragraph (2) and inserting in lieu thereof "$4,000,000,000"; and

(2) by striking out subsection (d) and inserting in lieu thereof the following:

"(d) SPECIFIED PURPOSES.—In determining the purposes for which the authority provided by subsection (a) will be used, the Secretary of Defense shall ensure that to the extent that the total dollar amount of transfers under such authority exceeds $2,000,000,000, an appropriate portion of that authority is used to transfer to military personnel accounts and operation and maintenance accounts of the Department of Defense for fiscal year 1988 (1) funds for depot maintenance activities in amounts sufficient to reduce service backlogs which would otherwise occur, (2) funds for pay of civilian personnel in amounts sufficient to reduce furloughs, reductions-in-force, or release of on-call employees into a nonpay status which would otherwise be required due to insufficient funding for civilian personnel of the Department of Defense for fiscal year 1988, and (3) funds for pay of military personnel.

"(e) NOTICE TO CONGRESS.—The Secretary of Defense shall submit to Congress notice of each transfer made under the authority of this section. After the total dollar amount of such transfers equals or exceeds $2,000,000,000, the notice required by the preceding sentence with respect to any transfer shall be submitted not less than 15 days before the transfer is made, and any such notice shall then include identification of specific actions that the Secretary is taking in order to ensure that the transfer is made in compliance with subsection (f).

"(f) CONTROL OF OUTLAYS.—In the case of any transfer under the authority of this section after the total dollar amount of such transfers equals or exceeds $2,000,000,000, the Secretary of Defense may carry out such transfer only to the extent that such transfer, and the expenditure of funds so transferred, do not result in an increase in outlays by the Department of Defense during fiscal year 1988.".

PART B—FISCAL YEAR 1988 UNAUTHORIZED APPROPRIATIONS

SEC. 1211. AUTHORITY FOR OBLIGATION OF CERTAIN UNAUTHORIZED FISCAL YEAR 1988 DEFENSE APPROPRIATIONS

(a) AUTHORITY.—The amounts described in subsection (b), totaling $10,624,600,000, may be obligated and expended for programs, projects, and activities of the Department of Defense in accordance with fiscal year 1988 defense appropriations except as otherwise provided in section 1212.

(b) COVERED AMOUNTS.—The amounts referred to in subsection (a) are the amounts provided for programs, projects, and activities of the Department of Defense in fiscal year 1988 defense appropriations that are in excess of the amounts provided for such programs, projects, and activities in fiscal year 1988 defense authorizations.

(c) DEFINITIONS.—For the purposes of this part:

(1) FISCAL YEAR 1988 DEFENSE APPROPRIATIONS.—The term "fiscal year 1988 defense appropriations" means amounts appropriated or otherwise made available to the Department of Defense for fiscal year 1988 in the Department of Defense Appropriations Act, 1988 (as contained in section 101(b) of Public Law 100-202).

(2) FISCAL YEAR 1988 DEFENSE AUTHORIZATIONS.—The term "fiscal year 1988 defense authorizations" means amounts authorized to be appropriated for the Department of Defense for fiscal year 1988 in the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180).

SEC. 1212. LIMITATION ON OBLIGATION FOR CERTAIN UNAUTHORIZED APPROPRIATIONS

(a) PROGRAMS NOT AVAILABLE FOR OBLIGATION.—Amounts described in section 1211(b) may not be obligated or expended for the following programs, projects, and activities of the Department of Defense (for which amounts were provided in fiscal year 1988 defense appropriations):

(1) Satellite Systems Survivability program under research, development, test, and evaluation for the Air Force in the amount of $5,300,000.

(2) Maxicube Cargo System under research, development, test, and evaluation for the Army in the amount of $10,000,000.

(3) Coastal Defense Augmentation in the amount of $20,000,000.

(4) Defense Meteorological Satellite program under research, development, test, and evaluation for the Navy in the amount of $40,000,000.

(5) P-3C aircraft under procurement of National Guard and Reserve equipment in the amount of $193,800,000.

(6) AN/SQR-17 Acoustic Processors for the Mobile In-shore Undersea Warfare group under procurement of National Guard and Reserve equipment in the amount of $10,000,000.

(b) LIMITATION ON CERTAIN PROGRAMS.—

(1) FORWARD AREA AIR DEFENSE HEAVY SYSTEM.—Funds appropriated or otherwise made available for the Army for procurement of missiles for fiscal year 1988 may not be obligated for advance procurement for the Forward Area Air Defense Line-of-Sight Forward-Heavy (LOS-F-H) system until—

(A) the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that it is responsible to obligate funds for such purpose before operational testing of such system; and

(B) the Director of Operational Test and Evaluation of the Department of Defense

certifies to those committees that he has approved the issues and criteria associated with the operational testing of such system.

(2) A-6 AIRCRAFT CONFIGURATION.—None of the funds appropriated for the procurement of aircraft for the Navy for fiscal year 1988 or 1989 may be obligated or expended for procurement of any A-6 aircraft configured in the F model configuration (as described in connection with the A-6E/A-6F aircraft program in the Selected Acquisition report submitted to Congress for the quarter ending December 31, 1986).

(3) TANK PROCUREMENT.—Funds appropriated for procurement of weapons and tracked combat vehicles for the Army for modification of M60 tanks in the amount of $90,000,000 may be used only for procurement or modification of M1 Abrams tanks, of which $30,000,000 shall be used for facilitization of Annison Army Depot and initiation of the retrograde and modification programs for M1 tanks.

(c) PROGRAM LIMITATIONS.—All limitations and requirements set forth in division A of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180) shall apply to the obligation of funds authorized by section 1211(a) in the same manner as if the funds made available for obligation by such section had been authorized in that Act.

(d) TRANSFER AUTHORITY.—For the purposes of section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989, authorizations in section 1211(a) shall be deemed to have been made available to the Department of Defense in such Act.

(e) For purposes of section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1153), the amount of $279,100,000 (the sum of the amounts described in subsection (a) of this section) shall be deemed to have been authorized by such Act in equal amounts for the Army, Navy, and Air Force for the following purposes:

(1) Depot maintenance activities in amounts sufficient to reduce service backlogs which would otherwise occur.

(2) Pay of civilian personnel in amounts sufficient to reduce furloughs, reductions-in-force, or release of on-call employees into a nonpay status which would otherwise be required due to insufficient funding for civilian personnel of the Department of Defense for fiscal year 1988.

(3) Pay of military personnel in amounts sufficient to provide necessary costs of maintaining authorized end strengths.

SEC. 1213. REPEAL OF CERTAIN APPROPRIATIONS GENERAL PROVISIONS

Sections 8040, 8098, and 8122 of the Department of Defense Appropriations Act, 1988 (as contained in section 101(b) of Public Law 100-202), are repealed.

PART C—NAVAL VESSELS AND SHIPYARDS

SEC. 1221. NAMING OF TRIDENT SUBMARINE THE U.S.S. MELVIN PRICE

(a) FINDINGS.—The Congress finds that—

(1) the late Honorable Melvin Price served the people of the United States and the 21st Congressional District of Illinois as a Member of the House of Representatives for 44 consecutive years with loyalty, dedication, and warm personal friendship until his death on April 22, 1988;

(2) Melvin Price served as a member of the Committee on Armed Services of the House of Representatives for 40 years and did so with total dedication to the goal of maintaining a strong national defense.

(3) In 1964, Melvin Price became the first chairman of the Research and Development Subcommittee of the Committee on Armed Services of the House of Representatives, and in 1975 became the first military veteran to serve as chairman of that committee, a position he held for 10 years.

(4) Melvin Price was a member of the Joint Committee on Atomic Energy from its establishment in 1946 until 1977 and served as the first chairman of that committee.

(5) Melvin Price played a major role in successfully advocating the peaceful use of nuclear energy and the military application of nuclear power for Navy ships and submarines.

(6) Melvin Price has left an indelible mark on the history of the Nation as a result of his 44 years of unselfish efforts to maintain the strength and readiness of the Armed Forces.

(b) SENSE OF CONGRESS.—In light of the findings expressed in subsection (a), it is the sense of Congress that the Secretary of the Navy should name the next Trident ballistic missile submarine to be named after the enactment of this Act the U.S.S. Melvin Price.

SEC. 1222. NAMING A NAVY SHIP THE U.S.S. BOB HOPE

(a) FINDINGS.—The Congress finds that—

(1) Bob Hope has unselfishly dedicated his time and efforts for over 50 years to the morale and welfare of the men and women of the Armed Forces;

(2) Bob Hope has served his nation in three wars by entertaining members of the Armed Forces aboard ships at sea and in combat zones ashore;

(3) Bob Hope has during peacetime entertained the men and women of the Armed Forces in all regions of the world and at every season of the year;

(4) Bob Hope has placed his own safety and convenience second to that of improving the morale of the members of the Armed Forces; and

(5) Bob Hope has earned the undying respect and fond esteem of all of his countrymen for his dedicated and patriotic endeavors.

(b) SENSE OF CONGRESS.—In light of the findings expressed in subsection (a), it is the sense of Congress that the Secretary of the Navy should name an appropriate ship of the United States Navy the U.S.S. Bob Hope.

SEC. 1223. RATE OF PROGRESS PAYMENTS ON NAVAL SHIP REPAIR CONTRACTS

Section 7312(a) of title 10, United States Code, is amended by inserting "not less than" after "shall be".

SEC. 1224. LIMITATION ON REPAIR OF NAVAL VESSELS IN FOREIGN SHIPYARDS

(a) IN GENERAL.—Section 7309 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c)(1) A naval vessel (or any other vessel under the jurisdiction of the Secretary of the Navy) the homeport of which is in the United States may not be overhauled, repaired, or maintained in a shipyard outside the United States.

"(2) Paragraph (1) does not apply in the case of voyage repairs.".

(b) CLERICAL AMENDMENTS.—(1) The heading of that section is amended to read as follows:

"§7309. Restrictions on construction or repair of vessels in foreign shipyards".

(2) The item relating to such section in the table of sections at the beginning of chapter 633 of such title is amended to read as follows:

"7309. Restrictions on construction or repair of vessels in foreign shipyards.".

(c) EFFECTIVE DATE.—Subsection (c) of section 7309 of title 10, United States Code, as added by subsection (a), shall apply with respect to any contract for overhaul, repair, or maintenance of a vessel that is entered into after the end of the 30-day period beginning on the date of the enactment of this Act.

SEC. 1225. COMPETITION BETWEEN PUBLIC AND PRIVATE SHIPYARDS FOR OVERHAUL OF NAVAL VESSELS

(a) IN GENERAL.—(1) Chapter 633 of title 10, United States Code, is amended by adding at the end the following new section:

"§7313. Overhaul of naval vessels: competition between public and private shipyards

"The Secretary of the Navy should ensure, in any case in which the Secretary awards a project for repair, alteration, overhaul, or conversion of a naval vessel following competition between public and private shipyards, that each of the following criteria is met:

"(1) The bid of any public shipyard for the award includes—

"(A) the full costs to the United States associated with future retirement benefits of civilian employees of that shipyard consistent with computation methodology established by Office of Management and Budget Circular A-76; and

"(B) in a case in which equal access to the Navy supply system is not allowed to public and private shipyards, a pro rata share of the costs of the Navy supply system.

"(2) Costs applicable to oversight of the contract by the appropriate Navy supervisor of shipbuilding, conversion, and repair are added to the bid of any private shipyard for the purpose of comparability analysis.

"(3) The award is made using the results of the comparability analysis.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"7313. Overhaul of naval vessels: competition between public and private shipyards.".

(b) EFFECTIVE DATE.—Section 7313 of title 10, United States Code, as added by subsection (a), applies to any award by the Secretary of the Navy after September 30, 1988, for repair, alteration, overhaul, or conversion of a naval vessel following competition between public and private shipyards.

SEC. 1226. DEPOT-LEVEL MAINTENANCE OF SHIPS

(a) REQUIREMENT THAT CERTAIN WORK BE CARRIED OUT IN THE UNITED STATES.—The Secretary of the Navy shall require that, to the extent feasible and consistent with policies of the Navy regarding family separations, not less than one-half of the depot-level maintenance work described in subsection (b) (measured in cost) shall be carried out in the United States.

(b) WORK COVERED.—Depot-level maintenance work referred to in subsection (a) is depot-level maintenance work for naval vessels that is scheduled as of October 1, 1988, to be carried out in Japan during fiscal years 1989, 1990, and 1991.

SEC. 1227. REPORTS ON EFFECTS OF NAVAL SHIPBUILDING PLANS ON MARITIME INDUSTRIES

(a) ANNUAL REPORT.—The Secretary of Defense shall submit to Congress in 1989, 1990, and 1991 a report on how, under the current Five-Year Defense Plan of the Department of Defense, programs for naval shipbuilding and conversion, for naval vessel repair, and for procurement of support equipment for naval vessels could be expected to affect the private-sector shipbuilding and ship repair *industries of the United States in terms of the effectiveness and preparedness of those industries for mobilization in their role in the sealift component of the conventional deterrent of the United States.*

(b) Time for Submission.—The report under subsection (a) for any year shall be submitted to Congress at the same time that the Secretary submits his annual report to Congress for that year under section 113(c) of title 10, United States Code.

SEC. 1228. REPORT ON ENCOURAGEMENT OF CONSTRUCTION IN UNITED STATES SHIPYARDS OF COMBATANT VESSELS FOR ALLIES

(a) Report Requirement.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on—

(1) the manner in which the Secretary has complied, as of the date of the report, with the provisions of section 1455 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 761); and

(2) plans of the Secretary for such compliance in the future.

(b) Matters To Be Included.—The report shall include information regarding the following:

(1) Instances in which the Secretary has encouraged United States shipyards to construct combatant vessels for nations friendly to the United States.

(2) Steps taken by the Secretary to ensure that no effort has been made by any element of the Department of the Navy to inhibit, delay, or halt the provision of any United States naval system which has been approved for export to an allied nation.

(3) Instances in which the Secretary has encouraged United States firms to participate in construction programs outside of the United States in shipyards of allied nations.

(4) Future plans of the Secretary for complying with the requirements of each of subsections (a)(1) through (a)(3) of that section.

(c) Submission of Report.—The report required by subsection (a) shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 1229. REPORT ON SMALL PATROL BOATS OF NAVY

(a) Report Requirement.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report regarding the capability of the Navy to carry out missions requiring the use of small patrol boats. The Secretary shall include in the report—

(1) a discussion of the contingencies that would require the use of small patrol boats rather than larger warships;

(2) an evaluation of the existing capability of the Navy to carry out missions requiring the use of small patrol boats;

(3) a discussion of any plans the Navy has for eliminating the Navy's shortage of such boats; and

(4) such recommendations as the Secretary considers appropriate to strengthen the capabilities of the Navy to carry out effectively missions that would require the use of such boats.

(b) Small Patrol Boat Defined.—For purposes of this section, a small patrol boat is a patrol boat that is less than 150 feet in length.

(c) Deadline for Submission of Report.—The report required by subsection (a) shall be submitted not later than 90 days after the date of the enactment of this Act.

Part D—Miscellaneous

SEC. 1231. REPORT ON SUSCEPTIBILITY OF DEFENSE COMPUTER ASSETS TO COMPUTER VIRUSES

The Secretary of Defense shall submit to Congress a report on the susceptibility of vital Department of Defense computer systems to so-called computer viruses and shall describe the steps which have been taken and are planned to be taken to protect the Department of Defense computer systems and records against computer viruses. Such report shall be submitted not later than March 1, 1989, in classified and unclassified form.

SEC. 1232. REASSESSMENT OF SOVIET ELECTRONIC ESPIONAGE CAPABILITY FROM MOUNT ALTO EMBASSY SITE

(a) Finding.—The Congress finds that the report submitted by the Secretary of Defense pursuant to section 1122 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180)—

(1) contains insufficient detail (even in the classified portion) for a review and assessment of the present and potential capabilities of the Government of the Soviet Union to intercept United States communications involving diplomatic, military, and intelligence matters from facilities on Mount Alto in the District of Columbia, as required by subsection (a) of that section; and

(2) does not contain a determination of the Secretary of Defense as to whether or not the present and proposed occupation of facilities on Mount Alto by the Soviet Union is consistent with the national security of the United States, as required by subsection (b) of that section.

(b) Submission of New Report.—Not later than 60 days after the date of the enactment of this Act, the President shall submit a report to Congress which meets the requirements of section 1122 of the National Defense Authorization Act for Fiscal Years 1988 and 1989.

SEC. 1233. TECHNICAL AMENDMENTS

(a) Amendment to Title 10.—Section 2343(b) of title 10, United States Code, is amended by striking out "section" before "2306a".

(b) Amendment to Title 37.—Section 101(5) of title 37, United States Code, is amended by striking out "secretary" and inserting in lieu thereof "Secretary".

(c) Amendments to Public Law 100-180.—(1) Paragraph (1) of section 802(a) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1123) is amended by inserting end quotation marks and a period after "section." at the end of such paragraph.

(2) Section 803(a) of such Act (101 Stat. 1125) is amended by inserting "the first place it appears" after "paragraph (1),".

(3) The amendments made by this section shall apply as if included in the enactment of Public Law 100-180.

TITLE XIII—FOREIGN RELATIONS MATTERS

SEC. 1301. SENSE OF CONGRESS CONCERNING THE PANAMA CANAL AND THE UNITED STATES SOUTHERN COMMAND

(a) Findings.—The Congress finds that—

(1) the security of, and the free flow of shipping through, the Panama Canal are vital interests of the United States; and

(2) the continued ability of the United States Southern Command (which currently has its headquarters in the Republic of Panama) to carry out assigned missions, especially the mission of defense of the Panama Canal, is essential to protecting and promoting the interests of the United States.

(b) Sense of Congress.—In light of the findings in subsection (a), it is the sense of Congress that the President should take all steps necessary to ensure the continued ability of the United States Southern Command (or any successor command) to carry out assigned missions, especially the mission of defense of the Panama Canal.

SEC. 1302. LIMITATION ON ASSISTANCE TO PANAMANIAN DEFENSE FORCE

(a) Limitation.—The President may not use any funds appropriated to or for the use of any department, agency, or other entity of the United States for the purpose of providing assistance to the Panamanian Defense Force. The limitation in the preceding sentence shall cease to apply upon the submission by the President to Congress of a certification by the President—

(1) that no armed forces of the Soviet Union, the Republic of Cuba, or the Republic of Nicaragua are present in the Republic of Panama (other than military attachés accredited to the Republic of Panama); and

(2) that General Manuel Noriega has relinquished command of the Panamanian Defense Force and no longer holds any official position of leadership (either military or civilian) in the Republic of Panama.

(b) Clarification.—Subsection (a) does not prohibit the President from obligating or expending any funds necessary for—

(1) the defense of the Panama Canal,

(2) the collection of intelligence,

(3) the maintenance of United States Armed Forces in the Republic of Panama, or

(4) the protection of United States interests in the Republic of Panama.

(c) Report.—Not later than 30 days after the date of the enactment of this Act, the President shall submit to Congress a detailed report, in both classified and unclassified form, indicating—

(1) whether (and to what extent) military, paramilitary, or intelligence personnel of the Soviet Union, Cuba, or Nicaragua are present in the Republic of Panama; and

(2) whether (and to what extent) the Panamanian Defense Force has coordinated with, cooperated with, supported, or received support from, any such personnel.

SEC. 1303. SENSE OF CONGRESS CONCERNING INDICTMENT OF GENERAL NORIEGA OF PANAMA ON DRUG-RELATED CHARGES

(a) Findings.—The Congress finds that—

(1) General Manuel Noriega, the commander of the Panamanian Defense Force, was indicted on February 5, 1988, in the United States District Courts for the Southern District and for the Middle District of Florida on a number of serious drug-related charges against the laws of the United States, including charges involving trafficking in illegal drugs, protecting and supporting drug traffickers, and laundering of drug-related money; and

(2) there have been reports in the news media and from other sources that discussions between officials of the United States and General Noriega may have occurred concerning arrangements under which General Noriega would give up political power and leave the Republic of Panama in exchange for which the United States would file a motion to dismiss the indictments referred to in paragraph (1).

(b) Sense of Congress.—It is the sense of Congress—

(1) that the United States should not conduct or authorize any negotiations or discussions, and should not make any arrange-

ments, with General Manuel Noriega which would involve any effort by the United States to dismiss the indictments referred to in subsection (a)(1); and

(2) that any such negotiation, discussion, or arrangement—

(A) would be incompatible with the high priority that the United States places on the war on drugs;

(B) would not further the prospects for restoring noncorrupt, democratic government to the Republic of Panama; and

(C) would not serve the interests of the United States.

SEC. 1304. SENSE OF CONGRESS ON INTRODUCTION OF ARMED FORCES INTO NICARAGUA FOR COMBAT

Congress hereby reaffirms the sense of Congress expressed in the first session of the 99th Congress (in section 1451 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 760)), that United States Armed Forces should not be introduced into or over Nicaragua for combat. However, nothing in this section shall be construed as affecting the authority and responsibility of the President or Congress under the Constitution, statutes, or treaties of the United States in force.

SEC. 1305. HUMAN RIGHTS VIOLATIONS BY THE GOVERNMENT OF POLAND

(a) Findings.—Congress makes the following findings:

(1) The government of Poland, headed by General Wojciech Jaruzelski, has violated internationally recognized human rights of the people of Poland, including the right to peaceably assemble, the right to strike, the right to freely associate, and the right to due process.

(2) The Jaruzelski government has retaliated against the justified, peaceful protests of workers at Nowa Huta, Poland, through the use of violence and force.

(3) The Jaruzelski government has prosecuted and imprisoned a number of persons for politically related offenses.

(4) The Jaruzelski government has to date refused to take steps which would guarantee the right of the people of Poland to participate in the management of the economy of Poland and has refused to accept the principle of pluralism in the national life of Poland.

(b) Sense of Congress.—It is, therefore, the sense of Congress—

(1) that the use of force against the workers of Nowa Huta and intimidation against other strikers in Poland should be condemned; and

(2) that improvement in relations between the United States and Poland must be predicated on an improvement in internationally recognized human rights in Poland, including the release of political prisoners, steps toward trade union pluralism and the rights of independent trade unions to organize, and steps toward genuine national reconciliation and dialogue.

SEC. 1306. CONDITIONS FOR SALE OR OTHER TRANSFER OF F-15 AIRCRAFT TO SAUDI ARABIA

(a) Notwithstanding any other provision of law, any sale or other transfer to Saudi Arabia by the United States of F-15 aircraft shall be subject to the following conditions:

(1) Any such F-15 aircraft sold or otherwise transferred to Saudi Arabia shall be limited to models A, B, C, and D.

(2) The United States shall not sell or otherwise transfer to Saudi Arabia the F-15-E with a ground attack capability and shall not upgrade existing Saudi aircraft to that capability.

(3) Saudi Arabia shall not possess more than 60 F-15 aircraft at any time, except that additional replacement F-15 aircraft may be held in the United States, at the expense of Saudi Arabia, for shipment to Saudi Arabia only after the President notifies Congress that the existing inventory of F-15 aircraft held by Saudi Arabia is less than 60 and, then, only on a one-for-one replacement basis as each F-15 aircraft is totally removed from the inventory of Saudi Arabia.

(b) The President may waive subsection (a) if the President certifies to Congress that such action is in the national interest.

SEC. 1307. RESTRICTION ON SALE OF DEFENSE ARTICLES TO CERTAIN NATIONS

(a) Restriction.—During fiscal year 1989, the United States may not make any sale of defense articles subject to section 36(b) of the Arms Export Control Act (22 U.S.C. 2776(b)) to any nation which has acquired intermediate-range ballistic missiles made by the People's Republic of China.

(b) Presidential Certification.—(1) The restriction in subsection (a) shall cease to apply with respect to any nation which has acquired such missiles upon certification by the President to Congress that that nation does not have chemical, biological, or nuclear warheads for those missiles.

(2) If the President makes a certification under paragraph (1) in the case of any nation, the President shall notify Congress promptly of any evidence that, after the date of such certification, such nation has acquired chemical, biological, or nuclear warheads for those missiles.

SEC. 1308. UNITED STATES BASES IN THE REPUBLIC OF THE PHILIPPINES

(a) Congressional Findings.—Congress makes the following findings:

(1) The United States has maintained military bases in the Philippines since 1947 pursuant to the United States-Philippine Military Bases Agreement and maintained military bases in the Philippines for many years before that under other arrangements.

(2) Clark Air Force Base, Subic Bay Naval Base, and the other United States military installations in the Philippines significantly promote the mutual interests of the United States and the Philippines and contribute to regional and global security.

(3) These installations are also important to the development of democratic institutions and to economic progress in the Western Pacific and Southeast Asia.

(4) The United States military installations in the Philippines employ a loyal and highly skilled cadre of Filipinos and make a substantial contribution to the Philippine economy.

(5) The Military Bases Agreement as currently in effect has a fixed term lasting until September 16, 1991, after which it continues in effect subject to termination by either party on one year's notice.

(6) Pursuant to a 1979 amendment to that agreement, the President of the United States pledged to the Government of the Republic of the Philippines to undertake "best efforts" to obtain security assistance for the Philippines, and such pledge was reiterated by the President of the United States in 1983 as part of a five-year review of the agreement.

(7) The United States and the Republic of the Philippines are currently engaged in a second five-year review of the Military Bases Agreement.

(8) Officials of the Government of the Republic of the Philippines have indicated to officials of the United States that the United States should significantly increase compensation for the use by the United States of military bases in the Philippines.

(9) The provision of multilateral economic assistance to the Republic of the Philippines should be considered separately from the provision of security assistance by the United States to the Republic of the Philippines in return for United States basing rights in the Philippines.

(b) Report on Facilities.—(1) The Secretary of Defense shall submit to Congress a report on the existing United States military facilities in the Republic of the Philippines. The report shall include analysis of the following:

(A) The costs and benefits of maintaining those facilities, including the costs to the United States of the operation and maintenance of those facilities and any other costs associated with those facilities and the economic and social benefits and other benefits of those facilities to the Republic of the Philippines.

(B) Potential alternative locations for those facilities.

(C) The strategic value to the United States of having military facilities located in the Philippines and of having such facilities at the potential alternative locations considered.

(D) The costs and benefits of relocating those facilities to the potential alternative locations, including—

(i) the cost to the United States of operation and maintenance and other costs,

(ii) the economic, social, and other costs to the Philippines, and

(iii) the economic, social, and other benefits to the government and community at each alternative location.

(E) The availability of skilled indigenous personnel at the potential alternative locations and the cost of training such personnel to work at such installations.

(2) The report shall be prepared in consultation with the Secretary of State and shall be submitted to Congress not later than six months after the date of the enactment of this Act.

SEC. 1309. ANNUAL ASSESSMENT OF SECURITY AT UNITED STATES BASES IN THE PHILIPPINES

The Secretary of Defense shall submit to Congress an annual report assessing security at United States military facilities in the Republic of the Philippines. Each such report shall include an assessment of the cooperation provided by the Philippine Government, at both the national and local level, in improving such security. The report required by this subsection shall be submitted to Congress not later than May 1 each year.

SEC. 1310. ECONOMIC SANCTIONS AGAINST ETHIOPIA

(a) Statements of Policy.—The Congress—

(1) condemns the Government of Ethiopia for its blatant disregard for human life as demonstrated by its use of food as a weapon, its forced resettlement program, and its human rights record;

(2) in the strongest terms possible, urges the Government of Ethiopia to allow foreign relief personnel to return to the north and to allow the international relief campaign to resume operations at its own risk, while retaining full control over its assets and having access to adequate aircraft and fuel;

(3) in the strongest terms possible, urges rebel groups to cease attacks upon relief vehicles and relief distribution points and to respect the impartiality of the international relief campaign;

(4) urges the President and the Secretary of State (through direct representations to the Government of Ethiopia and certain rebel groups and through sustained multilateral initiatives involving other Western donors, the United Nations, and the Organization of African Unity) to focus world pressure and opinion upon the combatants in northern Ethiopia, to press for an "open roads/own risk" policy that will facilitate the resumption of international relief efforts in the north, to press the Government of Ethiopia and the rebel groups to reach a pragmatic, enduring political settlement, and to press the Government of Ethiopia to implement genuine and effective reform of its failed agricultural policies; and

(5) urges the President and the Secretary of State to engage in direct discussion with the Soviet Union in order that the peaceful resolution of the crisis in northern Ethiopia becomes a high priority of the Soviet Union and that the approach of the Soviet Union is consistent with that of the West.

(b) SANCTIONS.—(1) Notwithstanding any other provision of law, the President is authorized to, and is hereby strongly urged to, impose such economic sanctions upon Ethiopia as the President determines to be appropriate (subject to paragraphs (2) and (3)) if, at any time after the date of the enactment of this Act, the Government of Ethiopia engages in any of the following outrages:

(A) Forced resettlement.

(B) Forced confinement in any resettlement camp.

(C) Diversion of international relief to the military.

(D) Denial of international relief to any persons at risk because of famine.

(E) Seizure of international relief assets provided by the United States.

(F) Prohibition of end-use monitoring of food distribution by international relief personnel.

(2) In imposing sanctions pursuant to paragraph (1) on imports from Ethiopia, the President shall give priority consideration to those products which constitute major imports from Ethiopia, unless the President determines that sanctions against such products would have an adverse effect on economic interests of the United States.

(3) If a sanction imposed pursuant to paragraph (1) involves the prohibition or curtailment of exports to Ethiopia, that sanction may only be imposed under the authority and subject to the requirements of section 6 of the Export Administration Act of 1979.

(c) REPORTS TO CONGRESS.—Not more than 15 days after the date of the enactment of this Act and at the end of each 90-day period thereafter, the President shall submit to Congress a report stating whether or not, during the 90-day period preceding the date of the report, the Government of Ethiopia engaged in any conduct described in subsection (b). Each such report shall describe the response of the United States to any such conduct.

(d) REGULATION AUTHORITY.—The President shall issue such regulations, licenses, and orders as are necessary to implement any sanction imposed under this section.

(e) EXPIRATION.—The authority provided by subsection (b) shall expire on June 1, 1990.

TITLE XIV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

SEC. 1401. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1989 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,567,629,000, to be allocated as follows:

(A) For research and development, $1,052,546,000.

(B) For weapons testing, $524,238,000.

(C) For production and surveillance, $1,909,445,000.

(D) For program direction, $81,400,000.

(2) For defense nuclear materials production, $1,556,772,000 to be allocated as follows:

(A) For uranium enrichment for naval reactors, $169,000,000.

(B) For production reactor operations, $587,976,000.

(C) For processing of defense nuclear materials, including naval reactors fuel, $511,717,000, of which $72,300,000 shall be used for special isotope separation.

(D) For supporting services, $259,679,000.

(E) For program direction, $28,400,000.

(3) For environmental restoration and management of defense waste and transportation, $739,624,000, to be allocated as follows:

(A) For environmental restoration, $170,925,000. Such funds may also be used for plant and capital equipment.

(B) For waste operation and projects, $532,042,000.

(C) For waste research and development, $58,460,000.

(D) For hazardous waste process planning, $8,377,000.

(E) For transportation management, $9,720,000.

(F) For program direction, $3,100,000.

(4) For verification and control technology, $146,200,000.

(5) For nuclear materials safeguards and security technology development program, $75,400,000.

(6) For security investigations, $40,000,000.

(7) For naval reactors development, $555,400,000.

SEC. 1402. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1989 for plant and capital equipment (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 89-D-101, general plant projects, various locations, $26,500,000.

Project 89-D-121, general plant projects, various locations, $29,194,000.

Project 89-D-122, production waste storage facilities, Y-12 Plant, Oak Ridge, Tennessee, $2,000,000.

Project 89-D-125, plutonium recovery modification project, Rocky Flats Plant, Golden, Colorado, $4,000,000.

Project 89-D-126, environmental, safety, and health upgrade, Phase II, Mound Plant, Miamisburg, Ohio, $800,000.

Project 88-D-102, sanitary wastewater systems consolidation, Los Alamos National Laboratory, Los Alamos, New Mexico, $7,600,000.

Project 88-D-103, seismic upgrade, Building 111, Lawrence Livermore National Laboratory, Livermore, California, $5,400,000.

Project 88-D-104, safeguards and security upgrade, Phase II, Los Alamos National Laboratory, Los Alamos, New Mexico, $7,300,000.

Project 88-D-105, special nuclear materials research and development laboratory replacement, Los Alamos National Laboratory, Los Alamos, New Mexico, $22,000,000.

Project 88-D-106, nuclear weapons research, development, and testing facilities revitalization, Phase II, various locations, $72,352,000

Project 88-D-122, facilities capability assurance program, various locations, $79,341,000.

Project 88-D-123, security enhancements, Pantex Plant, Amarillo, Texas, $7,500,000.

Project 88-D-124, fire protection upgrade, various locations, $6,500,000.

Project 88-D-125, high explosive machining facility, Pantex Plant, Amarillo, Texas, $13,000,000.

Project 88-D-126, personnel radiological monitoring laboratories, various locations, $5,000,000.

Project 87-D-104, safeguards and security enhancement, Phase II, Lawrence Livermore National Laboratory, Livermore, California, $8,500,000.

Project 87-D-122, short-range attack missile II (SRAM II) warhead production facilities, various locations, $26,000,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $12,000,000.

Project 86-D-104, strategic defenses facility, Sandia National Laboratories, Albuquerque, New Mexico, $3,237,000.

Project 86-D-123, environmental hazards elimination, various locations, $5,203,000.

Project 86-D-130, tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $31,800,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, Phase I, various locations, $6,800,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Nevada, $12,200,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $1,281,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $4,775,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $2,775,000.

(2) For materials production:

Project 89-D-140, additional separations safeguards, Savannah River, South Carolina, $5,300,000.

Project 89-D-141, M-area waste disposal, Savannah River, South Carolina, $3,600,000.

Project 89-D-142, reactor effluent cooling water thermal mitigation, Savannah River, South Carolina, $1,000,000.

Project 89-D-146, general plant projects, various locations, $35,260,000.

Project 89-D-148, improved reactor confinement system, design only, Savannah River, South Carolina, $2,000,000.

Project 88-D-153, additional reactor safeguards, Savannah River, South Carolina, $5,700,000.

Project 88-D-154, new production reactor, design only, site to be determined, $35,000,000.

Project 87-D-152, environmental protection plantwide, Savannah River, South Carolina, $2,224,000.

Project 87-D-159, environmental, health, and safety improvements, Phases I, II, and III, Feed Materials Production Center, Fernald, Ohio, $50,000,000.

Project 86-D-148, special isotope separation project, Idaho Falls, Idaho, $28,000,000.

Project 86-D-149, productivity retention program, Phases I, II, III, and IV, various locations, $72,140,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $6,000,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $12,800,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory, Idaho, $65,000,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $11,584,000.

Project 82-D-124, restoration of production capabilities, Phases II, III, IV, and V, various locations, $5,879,000.

(3) For defense waste and environmental restoration:

Project 89-D-170, general plant projects, waste operations and projects, and waste research and development, various locations, $28,000,000.

Project 89-D-171, Idaho National Engineering Laboratory road renovation, Idaho, $4,000,000.

Project 89-D-172, Hanford environmental compliance, Richland, Washington, $12,000,000.

Project 89-D-173, tank farm ventilation upgrade, Richland, Washington, $1,800,000.

Project 89-D-174, replacement high level waste evaporator, Savannah River, South Carolina, $3,520,000.

Project 89-D-175, hazardous waste/mixed waste disposal facility, Savannah River, South Carolina, $3,500,000.

Project 88-D-173, Hanford waste vitrification plant, Richland, Washington, $22,500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $1,944,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, Phase III, Idaho National Engineering Laboratory, Idaho, $911,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $2,068,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $6,371,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho, $2,084,000.

Project 83-D-148, nonradioactive hazardous waste management, Savannah River, South Carolina, $13,000,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $92,462,000.

(4) For naval reactors development:

Project 89-N-101, general plant projects, various locations, $7,000,000.

Project 89-N-102, heat transfer test facility, Knolls Atomic Power Laboratory, Niskayuna, New York, $2,800,000.

Project 89-N-103, advanced test reactor modifications, Test Reactor Area, Idaho National Engineering Laboratory, Idaho, $1,600,000.

Project 89-N-104, power system upgrade, Naval Reactors Facility, Idaho, $600,000.

Project 88-N-102, expended core facility receiving station, Naval Reactors Facility, Idaho, $5,900,000.

Project 88-N-103, material handling and storage modifications, Knolls Atomic Power Laboratory, Niskayuna, New York, $2,700,000.

Project 88-N-104, prototype availability facilities, Knolls Atomic Power Laboratory, Kesselring Site, West Milton, New York, $6,000,000.

(5) For capital equipment not related to construction:

(A) For weapons activities, $272,254,000, including $8,240,000 for the defense inertial confinement fusion program.

(B) For materials production, $102,500,000.

(C) For defense waste and environmental restoration, $52,716,000.

(D) For verification and control technology, $8,400,000.

(E) For nuclear safeguards and security, $4,800,000.

(F) For naval reactors development, $48,000,000.

SEC. 1403. FUNDING LIMITATIONS

(a) Programs, Projects, and Activities of the Department of Energy Relating to the Strategic Defense Initiative.—Of the funds appropriated to the Department of Energy for fiscal year 1989 for operating expenses and plant and capital equipment, not more than $262,000,000 may be obligated or expended for programs, projects, and activities of the Department of Energy relating to the Strategic Defense Initiative.

(b) Inertial Confinement Fusion.—Of the funds appropriated to the Department of Energy for fiscal year 1989 for operating expenses and plant and capital equipment, $163,770,000 shall be obligated or expended for the defense inertial confinement fusion program.

(c) SRAM II.—Funds appropriated to the Department of Energy for fiscal year 1989 for facilities for production of the warhead for the short-range attack missile II (SRAM II) (project 87-D-122) may be obligated only—

(1) for facilities which are suitable for production of a warhead compatible with both the SRAM-A and the SRAM II; and

(2) after the Nuclear Weapons Council certifies that the design of the warhead is compatible with both the SRAM-A and the SRAM II.

(d) Special Isotope Separation Project.—Funds appropriated or otherwise made available to the Department of Energy for the special isotope separation project, Idaho Falls, Idaho, may not be obligated or expended for site preparation for such project before March 1, 1989.

(e) Plutonium Recovery Modification Project—Funds appropriated or otherwise made available for the plutonium recovery modification project (project 89-D-125), Rocky Flats Plant, Golden, Colorado, may not be obligated or expended until the later of—

(1) 60 days after the President submits the report (relating to modernization of the nuclear weapons complex) required by section 3132 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1988 (Public Law 100-180; 101 Stat. 1239); or

(2) February 15, 1989.

Part B—Recurring General Provisions

SEC. 1421. REPROGRAMMING

(a) Notice to Congress.—(1) Except as otherwise provided in this title—

(A) no amount appropriated pursuant to this title may be used for any program in excess of the lesser of—

(i) 105 percent of the amount authorized for that program by this title; or

(ii) $10,000,000 more than the amount authorized for that program by this title; and

(B) no amount appropriated pursuant to this title may be used for any program which has not been presented to, or requested of, the Congress.

(2) An action described in paragraph (1) may be taken after a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and on Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy (in this title referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

(b) Limitation on Amount Obligated.—In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

SEC. 1422. LIMITS ON GENERAL PLANT PROJECTS

(a) In General.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this title if the total estimated cost of the construction project does not exceed $1,200,000.

(b) Report to Congress.—If at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives explaining the reasons for the cost variation.

SEC. 1423. LIMITS ON CONSTRUCTION PROJECTS

(a) In General.—(1) Except as provided in paragraph (2), construction on a construction project may not be started or additional obligations incurred in connection with the project above the total estimated cost, whenever the current estimated cost of the construction project, which is authorized by section 1402 of this title, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(A) the amount authorized for the project; or

(B) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress.

(2) An action described in paragraph (1) may be taken after a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and on Appropriations of the Senate and House of Representatives of notice from the

Secretary of Energy (in this title referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

(b) Exception.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 1424. FUND TRANSFER AUTHORITY

(a) In General.—Funds appropriated pursuant to this title may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

(b) Specific Transfer.—The Secretary of Defense may transfer to the Secretary of Energy not more than $100,000,000 of the funds appropriated for fiscal year 1989 to the Department of Defense for research, development, test, and evaluation for the Defense Agencies for the performance of work on the Strategic Defense Initiative. Funds so transferred—

(1) may be used only for research, development, and testing for nuclear directed energy weapons, including plant and capital equipment related thereto;

(2) shall be merged with the appropriations of the Department of Energy; and

(3) may not be included in calculating the amount of funds obligated or expended for purposes of the funding limitation in section 1403(a).

SEC. 1425. AUTHORITY FOR CONSTRUCTION DESIGN

(a) In General.—(1) Within the amounts authorized by this title for plant engineering and design, the Secretary may carry out advance planning and construction designs (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such planning and design does not exceed $2,000,000.

(2) In any case in which the total estimated cost for such planning and design exceeds $300,000, the Secretary shall notify the Committees on Armed Services and on Appropriations of the Senate and House of Representatives in writing of the details of such project at least 30 days before any funds are obligated for design services for such project.

(b) Specific Authority Required.—In any case in which the total estimated cost for advance planning and construction design in connection with any construction project exceeds $2,000,000, funds for such design must be specifically authorized by law.

SEC. 1426. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 1402, the Secretary may perform planning and design utilizing available funds for any Department of Energy defense activity construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 1427. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts and section 1421, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 1428. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for operating expenses or for plant and capital equipment may remain available until expended.

Part C—Miscellaneous Provisions

SEC. 1431. REVIEW OF THE INERTIAL CONFINEMENT FUSION PROGRAM

(a) Establishment.—(1) Within 30 days after the date of the enactment of this Act, the Secretary of Energy shall establish a review body to be known as the Program Review Group on Inertial Confinement Fusion (hereafter in this section referred to as the "Review Group").

(2) It shall be the function of the Review Group to review thoroughly the accomplishments, management, goals, and anticipated contributions of the defense inertial confinement fusion program, for both the civilian and military sectors. Such review shall include—

(A) an assessment of the most promising technologies for continuation of the program; and

(B) an assessment of the potential contributions of the program under a prohibition of underground nuclear testing and under a limitation of underground nuclear testing to levels of 1 kiloton, 5 kilotons, and 10 kilotons.

(3) The Secretary of Energy shall appoint to serve on the Review Group only persons who, because of experience in the scientific disciplines associated with the development and testing of nuclear weapons, are most qualified to make findings of fact and recommendations to Congress and the Secretary concerning that program.

(b) Reports.—The Review Group shall submit to the Secretary and the Committees on Armed Services and on Appropriations of the Senate and House of Representatives an interim report and a final report containing the results of its review, together with such recommendations regarding priorities for future work in the inertial confinement fusion program as it determines appropriate. The interim report shall be submitted before January 15, 1990, and the final report shall be submitted before September 15, 1990.

(c) Review and Comment by the Secretary.—(1) The Secretary of Energy shall review both the interim and final reports of the Review Group and submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives the following:

(A) An assessment of the budgetary priority, under current and anticipated budget restraints, that should be given to the inertial confinement fusion program of the Department of Energy in relation to the budgetary priority that should be given to core defense research and development programs of the Department to carry out the defense missions of the Department.

(B) Such additional comments regarding such reports as the Secretary considers appropriate.

(2) The Secretary shall submit his assessment and comments on each report referred to in subsection (b) not later than 30 days after receiving such report.

(d) Termination.—Upon the submission of its final report, the Review Group shall cease to exist.

SEC. 1432. ASSISTANCE TO COMMUNITIES AFFECTED BY CLOSING OF N REACTOR

The Secretary of Defense may make grants, conclude cooperative agreements, and supplement funds made available under Federal programs administered by agencies other than the Department of Defense in order to assist the State of Washington and local communities near Hanford Reservation, Washington, in planning community adjustments required by the closure of the N Reactor.

SEC. 1433. REVIEW OF WASTE ISOLATION PILOT PLANT IN NEW MEXICO

(a) Contract Requirement.—The Secretary of Energy shall enter into a contract with the New Mexico Institute of Mining and Technology (hereafter in this section referred to as the "Institute") to conduct independent reviews and evaluations of the design, construction, and operations of the Waste Isolation Pilot Plant in New Mexico (hereafter in this section referred to as the "WIPP") as they relate to the protection of the public health and safety and the environment. The contract shall be for a period of one year, beginning on March 31, 1989, and shall be renewable for four additional one-year periods with the consent of the Institute and subject to the authorization and appropriation of funds for such purpose.

(b) Content of Contract.—A contract entered into under subsection (a) shall require the following:

(1) The President of the Institute shall appoint a Director and Deputy Director, who shall be scientists of national eminence in the field of nuclear waste disposal, shall be free from any biases related to the activities of the WIPP, and shall be widely known for their integrity and scientific expertise. The Director shall carry out the work under the contract through a group known as the Environmental Evaluation Group and shall report directly to the President of the Institute.

(2) The Director shall appoint staff. The professional staff shall consist of scientists and engineers of recognized integrity and scientific expertise who represent scientific and engineering disciplines needed for a thorough review of the WIPP, including such disciplines as geology, hydrology, health physics, environmental engineering, probability risk analysis, mining engineering, and radiation chemistry. The disciplines represented in the staff shall change as may be necessary to meet changed needs in carrying out the contract for expertise in any certain scientific or engineering discipline. Scientists employed under the contract shall have qualifications and experience equivalent to the qualifications and experience required for scientists employed by the Federal Government in grades GS-13 through GS-16.

(3) Scientists employed under the contract shall have an appropriate support staff.

(4) The Director and Deputy Director shall each be appointed for a term of 5 years, subject to contract renewal, and may be removed only for misconduct or incompetence. The staff shall be appointed for such terms as the Director considers appropriate.

(5) The rates of pay of professional staff and the procedures for increasing the rates of pay of professional staff shall be equivalent to those rates and procedures provided for the General Schedule pay system under chapter 53 of title 5, United States Code. The fringe benefits available to the professional staff of the Institute shall also be available to professional staff under the contract.

(6) To the maximum extent practicable, preference in the hiring of staff for the Environmental Evaluation Group shall be given to persons involved in the scientific evalua-

tion group for WIPP immediately before the date of the enactment of this Act.

(7) Offices of the Environmental Evaluation Group shall be established in Carlsbad, New Mexico, and in Albuquerque, New Mexico, for carrying out the contract. The Director shall designate one of the offices as the administrative headquarters for carrying out the contract.

(8) The results of reviews and evaluations carried out under the contract shall be published.

(c) ADMINISTRATION.—The contract entered into under subsection (a) shall be administered under the direction of the President of the Institute. Such President shall establish general policies and guidelines to be used by the Director in carrying out the work under the contract. The Director shall be solely responsible for determining reviews and evaluations to be conducted by the Environmental Evaluation Group.

(d) FUNDING.—Funding for the contract shall be from amounts appropriated under section 1401. The amount of the initial one-year contract shall be not less than $1,060,000.

(e) CONSTRUCTION.—Nothing in this section shall be construed as affecting actions undertaken before the date of the enactment of this Act in furtherance of the requirements of this section.

SEC. 1434. AUTHORITY TO LOAN PERSONNEL AND FACILITIES TO COMMUNITY DEVELOPMENT ORGANIZATIONS NEAR HANFORD RESERVATION

(a) AUTHORITY TO LOAN PERSONNEL.—(1) The Secretary of Energy shall allow each contractor and subcontractor of the Department of Energy carrying out operating, engineering, research and development, or construction management at the Hanford Reservation, Washington, to loan personnel in accordance with this section to the community development organization known as the Tri City Industrial Development Council serving Benton and Franklin Counties, Washington. Any such loan shall be for the purpose of assisting in the diversification of the local economy by reducing reliance by local communities on national security programs at Hanford Reservation.

(2) A contractor shall continue to compensate any personnel loaned by the contractor under paragraph (1). Any such compensation shall be allowed as a cost for which the Department of Energy may reimburse the contractor under the contract.

(3) The Secretary of Energy may not obligate or expend more than $500,000 in each of fiscal years 1989 and 1990 for loans of personnel under this section. The amount of such obligations or expenditures shall be measured by the cost of compensation paid to such personnel by the contractor and reimbursed by the Department of Energy.

(b) AUTHORITY TO LOAN FACILITIES.—The Secretary of Energy may loan facilities of the Federal Government being used by contractors of the Department of Energy at Hanford Reservation, Washington, to any community-based organization. However, any loan of a facility under this subsection may be made only if use of the facility by such an organization would not adversely affect Department of Energy programs, as determined by the Secretary.

(c) DURATION OF PROGRAM.—The authority to loan personnel and facilities under this section, and the loan of any personnel or facilities pursuant to such authority, shall terminate on September 30, 1990.

SEC. 1435. NEW PRODUCTION REACTOR

(a) RECOMMENDATIONS REGARDING NEW PRODUCTION REACTOR.—Not later than July 31, 1988, the Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report containing the Secretary's recommendation for the site for construction of a new production reactor and the Secretary's recommendation for the preferred technology for a new production reactor.

(b) REPORT CONTAINING INFORMATION PERTAINING TO NEW PRODUCTION REACTOR.—At the same time the budget for fiscal year 1990 is submitted to Congress pursuant to section 1105 of title 31, United States Code, the Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report containing—

(1) a discussion of the administrative and legislative changes that would be necessary to shorten the time period necessary to attain the initial operational date of a new production reactor; and

(2) any recommendations for such additional action that the Secretary considers appropriate.

SEC. 1436. NUCLEAR TEST BAN READINESS PROGRAM

(a) FINDINGS.—The Congress makes the following findings:

(1) On September 17, 1987, the United States and the Soviet Union announced that they would resume full-scale, stage-by-stage negotiations on issues relating to nuclear testing, including further intermediate limitations on nuclear testing leading to the ultimate objective of a comprehensive nuclear test ban.

(2) It was agreed that the first step in these negotiations would be to reach agreement on verification measures that will make possible the ratification of the Threshold Test Ban Treaty of 1974 and the Peaceful Nuclear Explosions Treaty of 1976.

(3) To achieve the agreement on verification measures, the United States and the Soviet Union have agreed to design and conduct a Joint Verification Experiment at the test sites of each country during the summer of 1988.

(4) At the Moscow summit in May 1988, President Reagan and General Secretary Gorbachev reaffirmed their commitment to negotiations on "effective verification measures which will make it possible to ratify the Threshold Test Ban Treaty of 1974 and Peaceful Nuclear Explosions Treaty of 1976, and proceed to negotiating further intermediate limitations on nuclear testing leading to the ultimate objective of the complete cessation of nuclear testing as part of an effective disarmament process".

(b) ESTABLISHMENT OF PROGRAM.—The Secretary of Energy shall establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive ban on nuclear explosives testing is negotiated and ratified within the framework agreed to by the United States and the Soviet Union.

(c) PURPOSES OF PROGRAM.—The purposes of the program under subsection (b) shall be the following:

(1) To assure that the United States maintains a vigorous program of stockpile inspection and non-explosive testing so that, if a low-threshold or comprehensive test ban is entered into, the United States remains able to detect and identify potential problems in stockpile reliability and safety in existing designs of nuclear weapons.

(2) To assure that the specific materials, components, processes, and personnel needed for the remanufacture of existing nuclear weapons or the substitution of alternative nuclear warheads are available to support such remanufacture or substitution if such action becomes necessary in order to satisfy reliability and safety requirements under a low-threshold or comprehensive test ban agreement.

(3) To assure that a vigorous program of research in areas related to nuclear weapons science and engineering is supported so that, if a low-threshold or comprehensive test ban agreement is entered into, the United States is able to maintain a base of technical knowledge about nuclear weapons design and nuclear weapons effects.

(d) CONDUCT OF PROGRAM.—The Secretary of Energy shall carry out the program provided for in subsection (b). The program shall be carried out with the participation of representatives of the Department of Defense, the nuclear weapons production facilities, and the national nuclear weapons laboratories.

(e) ANNUAL REPORT.—The Secretary of Energy shall submit to Congress each year an unclassified report (with a classified annex as necessary) that describes the progress made to the date of the report in achieving the purposes of the program required to be established under subsection (b).

PART D—DOE DEFENSE NUCLEAR FACILITIES SAFETY OVERSIGHT BOARD

SEC. 1441. ESTABLISHMENT OF DEFENSE NUCLEAR FACILITIES SAFETY BOARD

(a) ESTABLISHMENT.—(1) The Atomic Energy Act of 1954 (68 Stat. 919; 42 U.S.C. 2011 and following) is amended by adding at the end the following new chapter:

"CHAPTER 21. DEFENSE NUCLEAR FACILITIES SAFETY BOARD

"SEC. 311. ESTABLISHMENT.

"(a) ESTABLISHMENT.—There is hereby established an independent establishment in the executive branch, to be known as the 'Defense Nuclear Facilities Safety Board' (hereafter in this chapter referred to as the 'Board').

"(b) MEMBERSHIP.—(1) The Board shall be composed of five members appointed from civilian life by the President, by and with the advice and consent of the Senate, from among United States citizens who are respected experts in the field of nuclear safety with a demonstrated competence and knowledge relevant to the independent investigative and oversight functions of the Board. Not more than three members of the Board shall be of the same political party.

"(2) Any vacancy in the membership of the Board shall be filled in the same manner in which the original appointment was made.

"(3) No member of the Board may be an employee of, or have any significant financial relationship with, the Department of Energy or any contractor of the Department of Energy.

"(4) Not later than 180 days after the date of the enactment of this chapter, the President shall submit to the Senate nominations for appointment to the Board. In the event that the President is unable to submit the nominations within such 180-day period, the President shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a report describing the reasons for such inability and a plan for submitting the nominations within the next 90 days. If the President is unable to submit the nominations within that 90-day period,

the President shall again submit to such committees and the Speaker such a report and plan. The President shall continue to submit to such committees and the Speaker such a report and plan every 90 days until the nominations are submitted.

"(c) Chairman and Vice Chairman.—(1) The President shall designate a Chairman and Vice Chairman of the Board from among members of the Board. The Chairman and Vice Chairman and other Board members may be reappointed to such offices.

"(2) The Chairman shall be the chief executive officer of the Board and, subject to such policies as the Board may establish, shall exercise the functions of the Board with respect to—

"(A) the appointment and supervision of employees of the Board;

"(B) the organization of any administrative units established by the Board; and

"(C) the use and expenditure of funds.

"(3) The Chairman may delegate any of the functions under this paragraph to any other member or to any appropriate officer of the Board.

"(4) The Vice Chairman shall act as Chairman in the event of the absence or incapacity of the Chairman or in case of a vacancy in the office of Chairman.

"(d) Terms.—(1) Except as provided under paragraph (2), the members of the Board shall serve for terms of five years. Members of the Board may be reappointed.

"(2) Of the members first appointed—

"(A) One shall be appointed for a term of one year;

"(B) One shall be appointed for a term of two years;

"(C) One shall be appointed for a term of three years;

"(D) One shall be appointed for a term of four years; and

"(E) One shall be appointed for a term of five years,

as designated by the President at the time of appointment.

"(3) Any member appointed to fill a vacancy occurring before the expiration of the term of office for which such member's predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of that member's term until a successor has taken office.

"(e) Quorum.—Three members of the Board shall constitute a quorum, but a lesser number may hold hearings.

"SEC. 312. FUNCTIONS OF THE BOARD.

"The Board shall perform the following functions:

"(1) Review and evaluation of standards.—The Board shall review and evaluate the content and implementation of the standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at each Department of Energy defense nuclear facility. The Board shall recommend to the Secretary of Energy those specific measures that should be adopted to ensure that public health and safety are adequately protected. The Board shall include in its recommendations necessary changes in the content and implementation of such standards, as well as matters on which additional data or additional research is needed.

"(2) Investigations.—(A) The Board shall investigate any event or practice at a Department of Energy defense nuclear facility which the Board determines has adversely affected, or may adversely affect, public health and safety.

"(B) The purpose of any Board investigation under subparagraph (A) shall be—

"(i) to determine whether the Secretary of Energy is adequately implementing the standards described in paragraph (1) of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at the facility;

"(ii) to ascertain information concerning the circumstances of such event or practice and its implications for such standards;

"(iii) to determine whether such event or practice is related to other events or practices at other Department of Energy defense nuclear facilities; and

"(iv) to provide to the Secretary of Energy such recommendations for changes in such standards or the implementation of such standards (including Department of Energy orders, regulations, and requirements) and such recommendations relating to data or research needs as may be prudent or necessary.

"(3) Analysis of design and operational data.—The Board shall have access to and may systematically analyze design and operational data, including safety analysis reports, from any Department of Energy defense nuclear facility.

"(4) Review of facility design and construction.—The Board shall review the design of a new Department of Energy defense nuclear facility before construction of such facility begins and shall recommend to the Secretary, within a reasonable time, such modifications of the design as the Board considers necessary to ensure adequate protection of public health and safety. During the construction of any such facility, the Board shall periodically review and monitor the construction and shall submit to the Secretary, within a reasonable time, such recommendations relating to the construction of that facility as the Board considers necessary to ensure adequate protection of public health and safety. An action of the Board, or a failure to act, under this paragraph may not delay or prevent the Secretary of Energy from carrying out the construction of such a facility.

"(5) Recommendations.—The Board shall make such recommendations to the Secretary of Energy with respect to Department of Energy defense nuclear facilities, including operations of such facilities, standards, and research needs, as the Board determines are necessary to ensure adequate protection of public health and safety. In making its recommendations the Board shall consider the technical and economic feasibility of implementing the recommended measures.

"SEC. 313. POWERS OF BOARD.

"(a) Hearings.—(1) The Board or a member authorized by the Board may, for the purpose of carrying out this chapter, hold such hearings and sit and act at such times and places, and require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such evidence as the Board or an authorized member may find advisable.

"(2)(A) Subpoenas may be issued only under the signature of the Chairman or any member of the Board designated by him and shall be served by any person designated by the Chairman, any member, or any person as otherwise provided by law. The attendance of witnesses and the production of evidence may be required from any place in the United States at any designated place of hearing in the United States.

"(B) Any member of the Board may administer oaths or affirmations to witnesses appearing before the Board.

"(C) If a person issued a subpoena under paragraph (1) refuses to obey such subpoena or is guilty of contumacy, any court of the United States within the judicial district within which the hearing is conducted or within the judicial district within which such person is found or resides or transacts business may (upon application by the Board) order such person to appear before the Board to produce evidence or to give testimony relating to the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt of the court.

"(D) The subpoenas of the Board shall be served in the manner provided for subpoenas issued by a United States district court under the Federal Rules of Civil Procedure for the United States district courts.

"(E) All process of any court to which application may be made under this section may be served in the judicial district in which the person required to be served resides or may be found.

"(b) Staff.—The Board may, for the purpose of performing its responsibilities under this chapter—

"(1) hire such staff as it considers necessary to perform the functions of the Board, but not more than the equivalent of 100 full-time employees; and

"(2) procure the temporary and intermittent services of experts and consultants to the extent authorized by section 3109(b) of title 5, United States Code, at rates the Board determines to be reasonable.

"(c) Regulations.—The Board may prescribe regulations to carry out the responsibilities of the Board under this chapter.

"(d) Reporting Requirements.—The Board may establish reporting requirements for the Secretary of Energy which shall be binding upon the Secretary. The information which the Board may require the Secretary of Energy to report under this subsection may include any information designated as classified information, or any information designated as safeguards information and protected from disclosure under section 147 or 148 of this Act.

"(e) Use of Government Facilities, Etc.—The Board may, for the purpose of carrying out its responsibilities under this chapter, use any facility, contractor, or employee of any other department or agency of the Federal Government with the consent of and under appropriate support arrangements with the head of such department or agency and, in the case of a contractor, with the consent of the contractor.

"(f) Assistance From Certain Agencies of the Federal Government.—With the consent of and under appropriate support arrangements with the Nuclear Regulatory Commission, the Board may obtain the advice and recommendations of the staff of the Commission on matters relating to the Board's responsibilities and may obtain the advice and recommendations of the Advisory Committee on Reactor Safeguards on such matters.

"(g) Assistance From Organizations Outside the Federal Government.—The Board may enter into an agreement with the National Research Council of the National Academy of Sciences or any other appropriate group or organization of experts outside the Federal Government chosen by the Board to assist the Board in carrying out its responsibilities under this chapter.

"(h) Resident Inspectors.—The Board may assign staff to be stationed at any Department of Energy defense nuclear facility to carry out the functions of the Board.

"(i) SPECIAL STUDIES.—The Board may conduct special studies pertaining to adequate protection of public health and safety at any Department of Energy defense nuclear facility.

"(j) EVALUATION OF INFORMATION.—The Board may evaluate information received from the scientific and industrial communities, and from the interested public, with respect to—

"(1) events or practices at any Department of Energy defense nuclear facility; or

"(2) suggestions for specific measures to improve the content of standards described in section 312(1), the implementation of such standards, or research relating to such standards at Department of Energy defense nuclear facilities.

"SEC. 314. RESPONSIBILITIES OF THE SECRETARY OF ENERGY.

"(a) COOPERATION.—The Secretary of Energy shall fully cooperate with the Board and provide the Board with ready access to such facilities, personnel, and information as the Board considers necessary to carry out its responsibilities under this chapter. Each contractor operating a Department of Energy defense nuclear facility under a contract awarded by the Secretary shall, to the extent provided in such contract or otherwise with the contractor's consent, fully cooperate with the Board and provide the Board with ready access to such facilities, personnel, and information of the contractor as the Board considers necessary to carry out its responsibilities under this chapter.

"(b) ACCESS TO INFORMATION.—The Secretary of Energy may deny access to information provided to the Board to any person who—

"(1) has not been granted an appropriate security clearance or access authorization by the Secretary of Energy; or

"(2) does not need such access in connection with the duties of such person.

"SEC. 315. BOARD RECOMMENDATIONS.

"(a) PUBLIC AVAILABILITY AND COMMENT.—Subject to subsections (g) and (h) and after receipt by the Secretary of Energy of any recommendations from the Board under section 312, the Board promptly shall make such recommendations available to the public in the Department of Energy's regional public reading rooms and shall publish in the Federal Register such recommendations and a request for the submission to the Board of public comments on such recommendations. Interested persons shall have 30 days after the date of the publication of such notice in which to submit comments, data, views, or arguments to the Board concerning the recommendations.

"(b) RESPONSE BY SECRETARY.—(1) The Secretary of Energy shall transmit to the Board, in writing, a statement on whether the Secretary accepts or rejects, in whole or in part, the recommendations submitted to him by the Board under section 312, a description of the actions to be taken in response to the recommendations, and his views on such recommendations. The Secretary of Energy shall transmit his response to the Board within 45 days after the date of the publication, under subsection (a), of the notice with respect to such recommendations or within such additional period, not to exceed 45 days, as the Board may grant.

"(2) At the same time as the Secretary of Energy transmits his response to the Board under paragraph (1), the Secretary, subject to subsection (h), shall publish such response, together with a request for public comment on his response, in the Federal Register.

"(3) Interested persons shall have 30 days after the date of the publication of the Secretary of Energy's response in which to submit comments, data, views, or arguments to the Board concerning the Secretary's response.

"(4) The Board may hold hearings for the purpose of obtaining public comments on its recommendations and the Secretary of Energy's response.

"(c) PROVISION OF INFORMATION TO SECRETARY.—The Board shall furnish the Secretary of Energy with copies of all comments, data, views, and arguments submitted to it under subsection (a) or (b).

"(d) FINAL DECISION.—If the Secretary of Energy, in a response under subsection (b)(1), rejects (in whole or part) any recommendation made by the Board under section 312, the Board shall either reaffirm its original recommendation or make a revised recommendation and shall notify the Secretary of its action. Within 30 days after receiving the notice of the Board's action under this subsection, the Secretary shall consider the Board's action and make a final decision on whether to implement all or part of the Board's recommendations. Subject to subsection (h), the Secretary shall publish the final decision and the reasoning for such decision in the Federal Register and shall transmit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a written report containing that decision and reasoning.

"(e) IMPLEMENTATION PLAN.—The Secretary of Energy shall prepare a plan for the implementation of each Board recommendation, or part of a recommendation, that is accepted by the Secretary in his final decision. The Secretary shall transmit the implementation plan to the Board within 90 days after the date of the publication of the Secretary's final decision on such recommendation in the Federal Register. The Secretary may have an additional 45 days to transmit the plan if the Secretary submits to the Board and to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a notification setting forth the reasons for the delay and describing the actions the Secretary is taking to prepare an implementation plan under this subsection. The Secretary may implement any such recommendation (or part of any such recommendation) before, on, or after the date on which the Secretary transmits the implementation plan to the Board under this subsection.

"(f) IMPLEMENTATION.—(1) Subject to paragraph (2), not later than one year after the date on which the Secretary of Energy transmits an implementation plan with respect to a recommendation (or part thereof) under subsection (e), the Secretary shall carry out and complete the implementation plan. If complete implementation of the plan takes more than 1 year, the Secretary of Energy shall submit a report to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives setting forth the reasons for the delay and when implementation will be completed.

"(2) If the Secretary of Energy determines that the implementation of a Board recommendation (or part thereof) is impracticable because of budgetary considerations, or that the implementation would affect the Secretary's ability to meet the annual nuclear weapons stockpile requirements established pursuant to section 91 of this Act, the Secretary shall submit to the President, to the Committees on Armed Services and on Appropriations of the Senate, and to the Speaker of the House of Representatives a report containing the recommendation and the Secretary's determination.

"(g) IMMINENT OR SEVERE THREAT.—(1) In any case in which the Board determines that a recommendation submitted to the Secretary of Energy under section 312 relates to an imminent or severe threat to public health and safety, the Board and the Secretary of Energy shall proceed under this subsection in lieu of subsections (a) through (d).

"(2) At the same time that the Board transmits a recommendation relating to an imminent or severe threat to the Secretary of Energy, the Board shall also transmit the recommendation to the President and for information purposes to the Secretary of Defense. The Secretary of Energy shall submit his recommendation to the President. The President shall review the Secretary of Energy's recommendation and shall make the decision concerning acceptance or rejection of the Board's recommendation.

"(3) After receipt by the President of the recommendation from the Board under this subsection, the Board promptly shall make such recommendation available to the public and shall transmit such recommendation to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives. The President shall promptly notify such committees and the Speaker of his decision and the reasons for that decision.

"(h) LIMITATION.—Notwithstanding any other provision of this section, the requirements to make information available to the public under this section—

"(1) shall not apply in the case of information that is classified; and

"(2) shall be subject to the orders and regulations issued by the Secretary of Energy under sections 147 and 148 of this Act to prohibit dissemination of certain information.

"SEC. 316. REPORTS.

"(a) BOARD REPORT.—(1) The Board shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives each year, at the same time that the President submits the budget to Congress pursuant to section 1105(a) of title 31, United States Code, a written report concerning its activities under this chapter, including all recommendations made by the Board, during the year preceding the year in which the report is submitted. The Board may also issue periodic unclassified reports on matters within the Board's responsibilities.

"(2) The annual report under paragraph (1) shall include an assessment of—

"(A) the improvements in the safety of Department of Energy defense nuclear facilities during the period covered by the report;

"(B) the improvements in the safety of Department of Energy defense nuclear facilities resulting from actions taken by the Board or taken on the basis of the activities of the Board; and

"(C) the outstanding safety problems, if any, of Department of Energy defense nuclear facilities.

"(b) DOE REPORT.—The Secretary of Energy shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives each year, at the same time that the President submits the budget to Congress pursuant to section 1105(a) of title 31, United States Code, a written report concerning the activities of the Department of Energy under this chapter during the year preceding the year in which the report is submitted.

"SEC. 317. JUDICIAL REVIEW.

"Chapter 7 of title 5, United States Code, shall apply to the activities of the Board under this chapter.

"SEC. 318. DEFINITION.

"As used in this chapter, the term 'Department of Energy defense nuclear facility' means any of the following:

"(1) A production facility or utilization facility (as defined in section 11 of this Act) that is under the control or jurisdiction of the Secretary of Energy and that is operated for national security purposes, but the term does not include—

"(A) any facility or activity covered by Executive Order No. 12344, dated February 1, 1982, pertaining to the Naval nuclear propulsion program;

"(B) any facility or activity involved with the assembly or testing of nuclear explosives or with the transportation of nuclear explosives or nuclear material; or

"(C) any facility that does not conduct atomic energy defense activities.

"(2) A nuclear waste storage facility under the control or jurisdiction of the Secretary of Energy, but the term does not include a facility developed pursuant to the Nuclear Waste Policy Act of 1982 (96 Stat. 2201; 42 U.S.C. 10101 et seq.) and licensed by the Nuclear Regulatory Commission.

"SEC. 319. CONTRACT AUTHORITY SUBJECT TO APPROPRIATIONS.

"The authority of the Board to enter into contracts under this chapter is effective only to the extent that appropriations (including transfers of appropriations) are provided in advance for such purpose.

"SEC. 320. ANNUAL AUTHORIZATION OF APPROPRIATIONS.

"Authorizations of appropriations for the Board for fiscal years beginning after fiscal year 1989 shall be provided annually in authorization Acts.".

(2) The table of contents at the beginning of the Atomic Energy Act of 1954 is amended by adding at the end the following:

"CHAPTER 21. DEFENSE NUCLEAR FACILITIES SAFETY BOARD

"Sec. 311. Establishment.
"Sec. 312. Functions of the Board.
"Sec. 313. Powers of Board.
"Sec. 314. Responsibilities of the Secretary of Energy.
"Sec. 315. Board recommendations.
"Sec. 316. Reports.
"Sec. 317. Judicial review.
"Sec. 318. Definition.
"Sec. 319. Contract authority subject to appropriations.
"Sec. 320. Annual authorization of appropriations.".

(b) SALARY FOR BOARD MEMBERS AT EXECUTIVE SCHEDULE LEVEL III.—Section 5314 of title 5, United States Code, is amended by inserting after "Members, Nuclear Regulatory Commission." the following:

"Members, Defense Nuclear Facilities Safety Board.".

(c) REQUIREMENTS FOR FIRST ANNUAL REPORT.—(1) Before submission of the first annual report by the Defense Nuclear Facility Safety Board under section 316(a) of the Atomic Energy Act of 1954 (as added by subsection (a)), the Board shall conduct a study on whether nuclear facilities of the Department of Energy that are excluded from the definition of "Department of Energy defense nuclear facility" in section 318(1)(C) of such Act (hereafter referred to as "non-defense nuclear facilities") should be subject to independent external oversight. The Board shall include in such first annual report the results of such study and the recommendation of the Board on whether non-defense nuclear facilities should be subject to independent external oversight.

(2) If the Board recommends in the report that non-defense nuclear facilities should be subject to such oversight, the report shall include a discussion of alternative mechanisms for implementing such oversight, including mechanisms such as a separate executive agency and oversight as a part of the Board's responsibilities. The discussion of alternative mechanisms of oversight also shall include considerations of budgetary costs, protection of the security of sensitive nuclear weapons information, and the similarities and differences in the design, construction, operation, and decommissioning of defense and non-defense nuclear facilities of the Department of Energy.

(d) REQUIREMENTS FOR FIFTH ANNUAL REPORT.—The fifth annual report submitted by the Defense Nuclear Facilities Safety Board under section 316(a) of the Atomic Energy Act of 1954 (as added by subsection (a)) shall include—

(1) an assessment of the degree to which the overall administration of the Board's activities are believed to meet the objectives of Congress in establishing the Board;

(2) recommendations for continuation, termination, or modification of the Board's functions and programs, including recommendations for transition to some other independent oversight arrangement if it is advisable; and

(3) recommendations for appropriate transition requirements in the event that modifications are recommended.

SEC. 1442. TRANSFER

The Secretary of Energy, to the extent provided in appropriations Acts, shall transfer to the Defense Nuclear Facilities Safety Board established by section 311 of the Atomic Energy Act of 1954 (as added by section 1441) from sums available for obligation for national security programs such sums as may be necessary, as determined by such Board, for the operation of the Board during fiscal year 1989, but in no case may more than $7,000,000 be transferred for such purpose. Sums transferred shall be available to such Board to carry out its responsibilities under chapter 21 of the Atomic Energy Act of 1954 (as added by section 1441) and shall remain available until expended.

TITLE XV—NATIONAL DEFENSE STOCKPILE

SEC. 1501. AUTHORIZED DISPOSALS

(a) AUTHORITY.—Notwithstanding section 5(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)) but subject to subsection (c), the President may during fiscal year 1989 dispose of materials in the National Defense Stockpile in accordance with this section. The value of the materials disposed of may not exceed $180,000,000 and may only be made as specified in subsection (b).

(b) MATERIALS AUTHORIZED TO BE DISPOSED.—Any disposal pursuant to the authority in subsection (a) shall be made from materials in the National Defense Stockpile previously authorized for disposal by law and from the following materials in the National Defense Stockpile, such materials having been determined to be excess to stockpile requirements:

Material	Quantities
Asbestos, chrysotile	2,100 short tons
Asbestos, crocidolite	36 short tons
Celestite	13,500 short dry tons
Iodine	772,000 pounds
Kyanite	1,200 short dry tons
Manganese dioxide, battery grade, natural ore.	65,000 short dry tons
Mercury	7,500 flasks
Mica, muscovite block (S&L)	181,000 pounds
Mica, muscovite splittings	750,000 pounds
Mica, phlogopite splittings	589,000 pounds
Quartz	1,249,000 pounds
Silicon Carbide	44,000 short tons
Talc, block and lump	990 short tons
Talc, ground	1,100 short tons
Thorium nitrate	6,520,000 pounds
Tin	5,000 metric tons
Tungsten ores and concentrates.	1,000,000 pounds
Vegetable tannin chestnut	3,500 long tons
Vegetable tannin quebracho	77,000 long tons.

(c) DISPOSALS DURING FISCAL YEAR 1989.—The President may dispose of materials under this section during fiscal year 1989 only to the extent that the total amount received (or to be received) from such disposals does not exceed the amount expended from the National Defense Stockpile Transaction Fund during fiscal year 1989 for purposes authorized under section 9(b)(2) of such Act.

SEC. 1502. AUTHORIZATION OF ACQUISITIONS

(a) ACQUISITIONS.—During fiscal year 1989, the President shall obligate $180,000,000 out of the funds of the National Defense Stockpile Transaction Fund (subject to such limitations as may be provided in appropriations Acts) for the following purposes:

(1) The acquisition of strategic and critical materials under section 6(a)(1) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(a)(1)).

(2) Transportation, storage, and other incidental expenses related to such acquisition.

(3) The upgrading of stockpile materials under section 6(a)(3) of such Act (50 U.S.C. 98e(a)(3)) and evaluations, tests, and other incidental expenses related to such upgrades.

(4) Other authorized uses of such funds under section 9(b)(2) of such Act (50 U.S.C. 98h(b)(2)).

(b) NEW UPGRADE PROGRAMS.—Of the amount specified in subsection (a), at least $20,000,000 shall be obligated to initiate new programs for upgrading stockpile materials. The Stockpile Manager shall submit to Congress by October 1, 1988, a report containing a plan for the use of such $20,000,000 for upgrading stockpile materials.

SEC. 1503. TECHNICAL AND CLARIFYING AMENDMENTS

(a) SEMI-ANNUAL REPORT.—Section 11(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-2(a)) is amended—

(1) by redesignating paragraphs (3) and (4) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (2) the following new paragraphs:

"(3) information with respect to the activities by the Stockpile Manager to encourage the conservation, substitution, and development of strategic and critical materials within the United States;

"(4) information with respect to the research and development activities conducted under sections 2 and 8;".

(b) ANNUAL MATERIALS PLAN.—Section 11(b) of such Act (50 U.S.C. 98h-2(b)) is amended—

(1) in the first sentence, by striking out "such fiscal year" and inserting in lieu thereof "the next fiscal year";

(2) in the second sentence, by striking out "planned" and all that follows through "critical materials" and inserting in lieu thereof "all planned expenditures from the National Defense Stockpile Transaction Fund"; and

(3) by adding at the end the following new sentence: "Any proposed expenditure or disposal detailed in the annual materials plan for any such fiscal year, and any expenditure or disposal proposed in connection with any transaction submitted for such fiscal year to the appropriate committees of Congress pursuant to section 5(a)(2), that is not obligated or executed in that fiscal year may not be obligated or executed until such proposed expenditure or disposal is resubmitted in a subsequent annual materials plan or is resubmitted to the appropriate committees of Congress in accordance with section 5(a)(2), as appropriate.".

TITLE XVI—CIVIL DEFENSE

SEC. 1601. AUTHORIZATION OF APPROPRIATION

There is hereby authorized to be appropriated $147,893,000 for fiscal year 1989 for the purpose of carrying out the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.).

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

SEC. 2001. SHORT TITLE

This division may be cited as the "Military Construction Authorization Act, 1989".

TITLE XXI—ARMY

SEC. 2101. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

ALABAMA

Anniston Army Depot, $6,000,000.
Fort McClellan, $7,900,000.
Redstone Arsenal, $14,800,000.
Fort Rucker, $2,110,000.

ALASKA

Fort Wainwright, $29,740,000.
Fort Richardson, $6,250,000.

ARIZONA

Fort Huachuca, $1,200,000.

ARKANSAS

Pine Bluff Arsenal, $7,500,000.

CALIFORNIA

Fort Ord, $13,050,000.
Sierra Army Depot, $380,000.

COLORADO

Pueblo Army Depot, $3,200,000.

DISTRICT OF COLUMBIA

Walter Reed Army Medical Center, $1,600,000.

GEORGIA

Fort Benning, $24,350,000.

HAWAII

Fort Shafter, $15,700,000.

ILLINOIS

Rock Island Arsenal, $10,980,000.
Savanna Army Depot, $2,270,000.
Fort Sheridan, $3,280,000.

KENTUCKY

Fort Campbell, $20,500,000.
Lexington-Bluegrass Depot, $770,000.

MARYLAND

Aberdeen Proving Ground, $17,000,000.
Fort Detrick, $6,500,000.
Fort Ritchie, $9,100,000.

NEW JERSEY

Fort Dix, $6,200,000.

NEW YORK

United States Military Academy, West Point, $11,150,000.

NORTH CAROLINA

Fort Bragg, $36,602,000.

OKLAHOMA

Fort Sill, $3,700,000.

OREGON

Umatilla Army Depot, $3,600,000.

PENNSYLVANIA

Letterkenny Army Depot, $1,900,000.

TEXAS

Fort Bliss, $3,800,000.
Corpus Christi Army Depot, $7,400,000.
Fort Hood, $15,900,000.
Red River Army Depot, $88,400,000.
Fort Sam Houston, $3,250,000.

UTAH

Dugway Proving Ground, $12,800,000.
Tooele Army Depot, $92,300,000.

VIRGINIA

Fort A.P. Hill, $9,900,000.
Fort Eustis, $5,000,000.
Fort Lee, $4,800,000.
Fort Pickett, $4,000,000.
Vint Hill Farms Station, $800,000.

WASHINGTON

Fort Lewis, $19,800,000.

WISCONSIN

Fort McCoy, $2,100,000.

VARIOUS LOCATIONS

Classified Locations, $3,600,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

GERMANY

Ansbach, $15,000,000.
Friedberg, $1,300,000.
Giessen, $6,300,000.
Grafenwoehr Training Area, $7,000,000.
Hohenfels Training Area, $36,960,000.
Karlsruhe, $2,550,000.
Mainz, $19,550,000.
Mannheim, $14,400,000.
Rheinberg, $12,400,000.
Schweinfurt, $9,700,000.
Stuttgart, $3,350,000.
Vilseck, $44,600,000.
Wiesbaden, $13,900,000.
Worms, $1,300,000.
Wuerzburg, $33,650,000.
Various Locations, $18,000,000.

HONDURAS

SITE 5, $3,050,000.

ITALY

Various Locations, $1,250,000.

JAPAN

Various Locations, $7,900,000.
Various Locations, $5,300,000.

KOREA

Camp Casey, $3,700,000.
Camp Gary Owen, $1,150,000.
Camp Greaves, $1,540,000.
Camp Hovey, $3,200,000.
Camp Kittyhawk, $1,350,000.
Camp Libby, $1,150,000.
Camp Page, $670,000.
Camp Sears, $1,100,000.
Camp Stanley, $1,200,000.
Camp Stanton, $1,400,000.
K-16 Army Airfield, $670,000.
Taegu, $990,000.
Yongsan, $1,400,000.
Various Locations, $6,200,000.
Various Locations, $9,200,000.

KWAJALEIN

Kwajalein, $15,490,000.

VARIOUS LOCATIONS

Various Locations, $9,750,000.

SEC. 2102. FAMILY HOUSING

(a) CONSTRUCTION AND ACQUISITION.—The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Wainwright, Alaska, one hundred and fifty units, $27,000,000.

Fort Irwin, California, two hundred and sixty-three units, $24,000,000.

Helemano, Hawaii, one hundred units, $11,400,000.

Schofield Barracks, Hawaii, forty units, $4,450,000.

Fort Leavenworth, Kansas, two hundred and seventy-two units, $20,000,000.

Fort Drum, New York, one hundred units, $10,000,000.

Fort Bliss, Texas, one hundred and eight units, $9,100,000.

Augsburg, Germany, thirty-four units, as described in section 2103(b).

Hohenfels, Germany, eighty-eight units, $8,400,000.

(b) PLANNING AND DESIGN.—The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), carry out architectural and engineering services and construction design activities with respect to the construction or improvement of family housing units in an amount not to exceed $10,628,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) IN GENERAL.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), improve existing military family housing units in an amount not to exceed $72,300,000.

(b) WAIVER OF MAXIMUM PER COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown for each installation:

Pearl Harbor, Hawaii, eight units, $550,000.

Augsburg, Germany, convert unused attic space and upgrade fourteen units into forty-eight adequate units, as authorized in section 2102(a), $3,360,000.

Taegu, Korea, ninety-six units, $4,450,000.

SEC. 2104. DEFENSE ACCESS ROADS

The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(4), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at Fort Belvoir, Virginia, in the amount of $1,000,000.

SEC. 2105. AUTHORIZATION OF APPROPRIATIONS, ARMY

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $2,417,701,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $463,182,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $299,620,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,200,000.

(4) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $1,000,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $98,328,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing facilities, $197,278,000;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,340,093,000, of which not more than $52,190,000 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $175,510,000 may be obligated or expended for the leasing of military family housing units in foreign countries; and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $2,000,000, to remain in effect until expended.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2101 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $78,000,000 (the balance of the amount authorized for the construction of the Central Distribution Center, Red River Army Depot, Texas).

SEC. 2106. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in section 101 of that Act, as extended by section 2107(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661) and section 2105(a) of the Military Construction Authorization Act, 1988 (division B of Public Law 100-180) shall remain in effect until October 1, 1989, or the date of enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(2) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1986 PROJECTS.—Notwithstanding the provisions of section 603(a) of the Military Construction Authorization Act, 1986 (Public Law 99-167), authorizations for the following projects authorized in sections 101 and 102 of that Act as extended by section 2105(b) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 99-180), shall remain in effect until October 1, 1989, or the date of enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Child care center in the amount of $470,000 at Karlsruhe, Germany.

(2) Modified record fire range in the amount of $2,850,000 at Nuernberg, Germany.

(3) Flight simulator building in the amount of $2,900,000 at Wiesbaden, Germany.

(4) Multi-purpose training ranges in the amount of $20,000,000 at Wildflecken, Germany.

(5) Air conditioning upgrade in the amount of $5,900,000 at Schofield Barracks, Hawaii.

(6) Child care center in the amount of $1,350,000 at Camp Darby, Italy.

(7) Dining facility modernization in the amount of $4,350,000 at Fort Leavenworth, Kansas.

(8) Family housing, new construction, 6 units, in the amount of $596,000 at Fort Myer, Virginia.

(c) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1987 PROJECTS.—Notwithstanding the provisions of section 2701(a) of the Military Construction Authorization Act, 1987, (division B of Public Law 99-661), authorizations for the following projects authorized in sections 2101, 2102, and 2103 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Child development center/religious education facility in the amount of $820,000 at Yuma Proving Ground, Arizona.

(2) Primary water supply connection in the amount of $2,150,000 at Fort Riley, Kansas.

(3) Material test facility in the amount of $9,700,000 at Dugway Proving Ground, Utah.

(4) Barracks modernization in the amount of $3,700,000 at foreign various location 276.

(5) Dining facility in the amount of $2,100,000 at Giessen, Germany.

(6) Aircraft maintenance hangar in the amount of $7,100,000 at Hanau, Germany.

(7) Contingency facility in the amount of $4,300,000 at Palmerola Air Base, Honduras.

(8) Seventy manufactured home spaces in the amount of $1,100,000 at Aberdeen Proving Ground, Maryland.

TITLE XXII—NAVY

SEC. 2201. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

ALABAMA

Naval Station, Mobile, $19,700,000.

ALASKA

David Taylor Research Center Detachment, Ketchikan, $12,000,000.

Naval Air Station, Adak, $29,000,000.

ARIZONA

Marine Corps Air Station, Yuma, $11,770,000.

CALIFORNIA

Marine Corps Air-Ground Combat Center, Twentynine Palms, $26,630,000.

Marine Corps Air Station, Camp Pendleton, $9,450,000.

Marine Corps Air Station, El Toro, $3,970,000.

Marine Corps Air Station, Tustin, $10,990,000.

Marine Corps Base, Camp Pendleton, $64,460,000.

Marine Corps Logistics Base, Barstow, $1,190,000.

Mountain Warfare Training Center, Bridgeport, $3,200,000.

Naval Air Station, Moffett Field, $650,000.

Naval Air Station, North Island, $6,150,000.

Naval Amphibious Base, Coronado, $870,000.

Naval Amphibious School, San Diego, $10,100,000.

Naval Aviation Depot, Alameda, $8,290,000.

Naval Aviation Depot, North Island, $2,110,000.

Naval Construction Battalion Center, Port Hueneme, $7,000,000.

Naval Construction Training Center, Port Hueneme, $10,080,000.

Naval Hospital, Lemoore, $2,160,000.

Naval Ocean Systems Center, San Diego, $8,660,000.

Naval Post Graduate School, Monterey, $3,140,000.

Naval Civil Engineer Corps Officers School, Port Hueneme, $7,420,000.

Naval Security Group Detachment, San Diego, $1,950,000.

Naval Shipyard, Mare Island, $6,450,000.

Naval Space Surveillance Field Station, San Diego, $3,760,000.

Marine Corps Base, Camp Butler, Okinawa, $2,840,000.

PHILIPPINES

Navy Public Works Center, Subic Bay, $28,340,000.

SPAIN

Naval Communication Station, Rota, $400,000.

VARIOUS LOCATIONS

Classified Location, $4,990,000.

Host Nation Infrastructure Support, $500,000.

SEC. 2202. FAMILY HOUSING

(a) CONSTRUCTION AND ACQUISITION.—The Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(6)(A), construct or acquire family housing units (including land acquisition), at the following installations in the number of units shown, and in the amount shown for each installation:

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, one hundred units, $9,470,000.

Marine Corps Air Station, El Toro, California, one hundred units and eighty mobile home spaces, $10,120,000.

Marine Corps Base, Camp Pendleton, California, three hundred and thirty-two units and access roads, $28,510,000.

Naval Station, Long Beach, California, three hundred units, $26,110,000.

Naval Public Works Center, San Diego, California, three hundred and fifty-six units, $31,830,000.

Navy Public Works Center, San Francisco, California, three hundred units, $35,736,000.

Naval Submarine Base, Kings Bay, Georgia, two hundred and fifty units, $19,860,000.

Naval Air Station, Glenview, two hundred and sixty units, $23,000,000.

Naval Station, New York, New York, one hundred and fifty units, $14,900,000.

Naval District Washington, District of Columbia, two units at 2,100 square feet each, $330,000.

(b) PLANNING AND DESIGN.—The Secretary of the Navy may carry out architectural and engineering services and construction design activities, using amounts appropriated pursuant to section 2205(a)(6)(A), with

respect to the construction or improvement of military family housing units in an amount not to exceed $2,315,000.

SEC. 2203. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) In General.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(6)(A), improve existing military family housing units in an amount not to exceed $61,589,000.

(b) Waiver of Maximum Per Unit Cost for Certain Improvement Projects.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown and in the amount shown for each installation:

Navy Public Works Center, San Diego, California, six units, $284,400.

Navy Public Works Center, Pensacola, Florida, one unit, $34,900.

Navy Public Works Center, Great Lakes, Illinois, three hundred and fifty-six units, $17,214,000.

Navy Public Works Center, Great Lakes, Illinois, one hundred and two units, $6,181,200.

Naval Security Group Activity, Winter Harbor, Maine, thirty units, $2,920,600.

Naval Security Group Activity, Winter Harbor, Maine, twenty units, $920,000.

Naval Air Station, Fallon, Nevada, one hundred and six units, $8,129,300.

Marine Corps Air Station, Cherry Point, North Carolina, two units, $94,300.

Marine Corps Air Station, Cherry Point, North Carolina, two hundred and eighty-two units, $11,957,200.

Navy Ships Parts Control Center, Mechanicsburg, Pennsylvania, seventy-five units, $5,415,500.

Naval Air Station, Whidbey Island, Washington, eleven units, $632,600.

Navy Public Works Center, Guam, two hundred and twelve units, $18,473,800.

SEC. 2204. DEFENSE ACCESS ROADS

The Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(5), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at the following locations and in the following amounts:

Marine Corps Air Ground Center, Twentynine Palms, California, $2,900,000.

Navy Public Works Center, San Diego, California, $719,000.

Navy Public Works Center, San Francisco, California, $800,000.

Naval Station, Everett, Washington, $4,400,000.

Naval Submarine Base, Kings Bay, Georgia, $3,000,000.

SEC. 2205. AUTHORIZATION OF APPROPRIATIONS, NAVY

(a) In General.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,369,875,000 as follows:

(1) For military construction projects inside the United States authorized by section 2201(a), $1,296,450,000.

(2) For military construction projects outside the United States authorized by section 2201(b), $101,272,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,300,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $138,276,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $11,819,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $250,770,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $554,988,000 of which not more than $18,434,000 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $23,982,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) Limitation on Total Cost of Construction Projects.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2201 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $55,048,000 (the balance of the amount authorized for the construction of the Headquarters Building, Naval Intelligence Command Headquarters, Suitland, Maryland).

(c) Restriction on Certain Funding.—None of the funds appropriated pursuant to subsection (a)(1) may be obligated for use or expended at Hunters Point Annex, Naval Station, Treasure Island, San Francisco, California, until the Secretary of the Navy has transmitted to the Committees on Armed Services of the Senate and the House of Representatives a report containing (1) a description of the activities planned by the Department of the Navy at such location during fiscal years 1989 through 1993, and (2) a statement explaining the environmental impact of such activities, especially with respect to the planned porting of ships and the development of the land at such location during such fiscal years.

SEC. 2206. ACQUISITION OF HOUSING AT CERTAIN NAVAL AIR STATIONS

(a) Authority to Acquire.—(1) The Secretary of the Navy may, using funds appropriated pursuant to section 2205(a)(6)(A), acquire all right, title, and interest in and to 264 family housing units situated on the Naval Air Station at Glenview, Illinois, and constructed in 1956 with financing provided under title VIII of the National Housing Act.

(2) The Secretary of the Navy may, using funds that remain available from savings realized in carrying out military family housing projects of the Department of the Navy during any fiscal year before fiscal year 1990, acquire all right, title, and interest in and to 72 family housing units at Sunnyvale, California, near the Naval Air Station, Moffett Field, which were constructed in 1952 with financing provided under title VIII of the National Housing Act, except that no such funds may be obligated for such purpose until the expiration of 30 days after the date on which the Secretary transmits to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the proposed obligation of such funds.

(3) The Secretary may also acquire the leasehold interests in the housing units referred to in paragraphs (1) and (2) which are held in private ownership.

(4) The amount paid by the Secretary for such units and leasehold interests may not exceed an amount equal to the fair market value of such units and interests.

(5) The authority to acquire the housing units referred to in paragraphs (1) and (2) shall include the authority to acquire other real property improvements related to such units.

(b) Occupancy Charges.—(1) Notwithstanding any other provision of law and except as provided in paragraph (2), a charge may be made against the basic allowances for quarters of any member of the Armed Forces to whom a housing unit referred to in subsection (a) is leased after the acquisition of the privately held leasehold interest in such unit by the Secretary. Such a charge may not exceed an amount equal to 75 percent of the amount of the basic allowances for quarters to which the member is entitled.

(2) A member of the Armed Forces who, on the date on which the privately held leasehold interest referred to in subsection (a) is acquired by the Secretary, has in effect an unexpired lease on one of the housing units described in subsection (a) shall be charged rent on such unit (after such acquisition) in accordance with the terms of the lease until the lease expires.

(c) Expiration of Acquisition Authority.—The authority under this section for the Secretary to acquire the leasehold interests referred to in subsection (a) shall expire on October 1, 1994.

TITLE XXIII—AIR FORCE

SEC. 2301. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) Inside the United States.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the installations and locations inside the United States:

ALABAMA

Gunter Air Force Base, $8,150,000.
Maxwell Air Force Base, $17,800,000.

ALASKA

Eielson Air Force Base, $7,650,000.
Elmendorf Air Force Base, $20,540,000.
King Salmon Airport, $2,850,000.
Shemya Air Force Base, $14,860,000.

ARIZONA

Davis-Monthan Air Force Base, $980,000.
Luke Air Force Base, $4,550,000.
Williams Air Force Base, $11,130,000.

ARKANSAS

Blytheville Air Force Base, $2,150,000.
Little Rock Air Force Base, $4,550,000.

CALIFORNIA

Beale Air Force Base, $8,900,000.
Castle Air Force Base, $20,400,000.
Edwards Air Force Base, $5,200,000.
George Air Force Base, $23,550,000.
March Air Force Base, $4,900,000.
Mather Air Force Base, $2,740,000.
McClellan Air Force Base, $3,080,000.
Onizuka Air Force Base, $4,300,000.
Travis Air Force Base, $10,400,000.
Vandenberg Air Force Base, $8,550,000.

COLORADO

Buckley Air National Guard Base, $25,800,000.
Cheyenne Mountain Complex, $6,500,000.
Lowry Air Force Base, $12,000,000.
Peterson Air Force Base, $13,300,000.
United States Air Force Academy, $10,240,000.

DELAWARE

Dover Air Force Base, $1,000,000.

FLORIDA

Avon Park, $3,700,000.

Cape Canaveral Air Force Station, $19,380,000.

Eglin Air Force Base, $11,020,000.

Eglin Air Force Base, Auxiliary Field 9, $27,400,000.

Homestead Air Force Base, $6,200,000.

MacDill Air Force Base, $4,580,000.

Patrick Air Force Base, $1,126,000.

Tyndall Air Force Base, $6,000,000.

GEORGIA

Moody Air Force Base, $800,000.

Robins Air Force Base, $31,500,000.

HAWAII

Hickam Air Force Base, $4,250,000.

IDAHO

Mountain Home Air Force Base, $1,400,000.

ILLINOIS

Chanute Air Force Base, $6,500,000.

Scott Air Force Base, $14,500,000.

INDIANA

Grissom Air Force Base, $1,850,000.

KANSAS

McConnell Air Force Base, $680,000.

LOUISIANA

Barksdale Air Force Base, $7,300,000.

England Air Force Base, $3,100,000.

MAINE

Loring Air Force Base, $3,000,000.

MARYLAND

Andrews Air Force Base, $2,550,000.

MASSACHUSETTS

Hanscom Air Force Base, $12,400,000.

MICHIGAN

Wurtsmith Air Force Base, $10,690,000.

MISSISSIPPI

Columbus Air Force Base, $2,950,000.

Keesler Air Force Base, $4,550,000.

MISSOURI

Whiteman Air Force Base, $64,300,000.

MONTANA

Malmstrom Air Force Base, $19,470,000.

NEBRASKA

Offutt Air Force Base, $2,450,000.

NEVADA

Indian Springs, $3,150,000.

Nellis Air Force Base, $6,700,000.

NEW HAMPSHIRE

New Boston Air Force Station, $4,500,000.

Pease Air Force Base, $10,950,000.

NEW JERSEY

McGuire Air Force Base, $3,550,000.

NEW MEXICO

Cannon Air Force Base, $4,100,000.

Holloman Air Force Base, $2,900,000.

Kirtland Air Force Base, $13,000,000.

NEW YORK

Griffiss Air Force Base, $700,000.

NORTH CAROLINA

Seymour Johnson Air Force Base, $3,050,000.

NORTH DAKOTA

Grand Forks Air Force Base, $13,290,000.

Minot Air Force Base, $6,250,000.

OHIO

Wright-Patterson Air Force Base, $11,455,000.

OKLAHOMA

Altus Air Force Base, $2,300,000.

Tinker Air Force Base, $12,650,000.

SOUTH CAROLINA

Charleston Air Force Base, $5,000,000.

SOUTH DAKOTA

Ellsworth Air Force Base, $8,650,000.

TENNESSEE

Arnold Engineering Development Center, $213,800,000.

TEXAS

Bergstrom Air Force Base, $2,800,000.

Brooks Air Force Base, $2,750,000.

Carswell Air Force Base, $3,500,000.

Dyess Air Force Base, $3,470,000.

Goodfellow Air Force Base, $2,350,000.

Kelly Air Force Base, $29,300,000.

Lackland Air Force Base, $14,039,000.

Laughlin Air Force Base, $1,910,000.

Randolph Air Force Base, $6,150,000.

Reese Air Force Base, $990,000.

Sheppard Air Force Base, $10,700,000.

UTAH

Hill Air Force Base, $10,740,000.

WASHINGTON

Fairchild Air Force Base, $17,580,000.

McChord Air Force Base, $13,100,000.

WYOMING

F.E. Warren Air Force Base, $6,000,000.

VARIOUS LOCATIONS

Base 80, $987,000.

Base 81, $2,800,000.

Classified, $4,000,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

BELGIUM

Kleine Brogel, $1,900,000.

CANADA

Forward Operation Locations, $600,000.

GERMANY

Bitburg Air Base, $1,060,000.

Einsiedlerhof Air Base, $1,500,000.

Hahn Air Base, $16,650,000.

Hessich-Oldendorf Air Station, $740,000.

Norvenich Air Base, $2,300,000.

Pruem Air Station, $620,000.

Ramstein Air Base, $6,000,000.

Rhein-Main Air Base, $5,000,000.

Sembach Air Base, $3,550,000.

Spangdahlem Air Base, $10,270,000.

Wenigerath Air Base, $1,700,000.

Zweibrucken Air Base, $1,300,000.

GREENLAND

Sondrestrom Air Base, $5,950,000.

Thule Air Base, $1,830,000.

GUAM

Anderson Air Force Base, $900,000.

ICELAND

Naval Air Station, Keflavik, $1,100,000.

ITALY

Aviano Air Base, $7,600,000.

SEC. 2302. FAMILY HOUSING

(a) CONSTRUCTION AND ACQUISITION.—The Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), construct or acquire two hundred sixty family housing units (including land acquisition) at Clark Air Base, Philippines, in the amount of $19,920,000.

(b) PLANNING AND DESIGN.—The Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), carry out architectural and engineering services and construction design activities with respect to the construction or improvement of military family housing units in an amount not to exceed $7,000,000.

SEC. 2303. IMPROVEMENT TO MILITARY FAMILY HOUSING UNITS

(a) IN GENERAL.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), improve existing military family housing units in an amount not to exceed $153,765,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under Section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown and in the amount shown for each installation:

Gunter Air Force Station, Alabama, twenty-three units, $1,136,000.

Maxwell Air Force Base, Alabama, fifty units, $2,722,000.

Eielson Air Force Base, Alaska, ninety-six units, $7,943,000.

Elmendorf Air Force Base, Alaska, forty-eight units, $3,818,000.

Davis-Monthan Air Force Base, Arizona, one unit, $60,000.

Luke Air Force Base, Arizona, one hundred fifty-two units, $5,975,000.

McClellan Air Force Base, California, thirty units, $3,207,000.

Peterson Air Force Base, Colorado, one unit, $74,000; eighty units, $3,527,000.

Bolling Air Force Base, District of Columbia, one hundred and ten units, $4,018,000.

Eglin Air Force Base, Florida, fifty units, $2,138,000.

MacDill Air Force Base, Florida, four units, $279,000.

Robins Air Force Base, Georgia, one hundred and sixty units, $6,861,000.

Scott Air Force Base, Illinois, four units, $184,000.

Grissom Air Force Base, Indiana, one hundred and eighty-six units, $6,788,000.

Barksdale Air Force Base, Louisiana, two units, $185,000; one hundred and fourteen units, $6,200,000.

England Air Force Base, Louisiana, one hundred and six units, $5,830,000.

Andrews Air Force Base, Maryland, five units, $338,000.

Pease Air Force Base, New Hampshire, one unit, $121,000.

McGuire Air Force Base, New Jersey, one hundred units, $4,921,000.

Kirtland Air Force Base, New Mexico, four units, $240,000; one hundred and fifteen units, $4,894,000.

Plattsburgh Air Force Base, New York, one hundred and seventy-four units, $10,600,000.

Minot Air Force Base, North Dakota, one unit, $65,000.

Shaw Air Force Base, South Carolina, one hundred and thirty units, $4,703,000.

Carswell Air Force Base, Texas, one hundred and eighty-one units, $7,869,000; sixteen units, $600,000.

Dyess Air Force Base, Texas, one unit, $64,000.

Kelly Air Force Base, Texas, one hundred and one units, $3,381,000.

Randolph Air Force Base, Texas, two units, $199,000.

Reese Air Force Base, Texas, one hundred and eighty-eight units, $6,816,000.

Ramstein Air Base, Germany, two hundred and forty units, $16,000,000; eight units, $706,000; nine units, $1,039,000.

Andersen Air Force Base, Guam, one unit, $167,000; one hundred and twenty units, $8,000,000.

Misawa Air Base, Japan, one hundred and eighty units, $8,707,000.

Yokota Air Base, Japan, eighty-one units, $5,629,000.

Osan Air Base, Korea, ten units, $447,000.

Clark Air Base, Philippines, eighty-two units, $4,203,000.

RAF Alconbury, United Kingdom, twenty-five units, $1,119,000.

RAF Greenham Common, United Kingdom, one hundred nineteen units, $5,588,000.

SEC. 2304. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE

(a) In General.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,143,981,000, as follows:

(1) For military construction projects inside the United States authorized by section 2301(a), $855,877,000.

(2) For military construction projects outside the United States authorized by section 2301(b), $229,353,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,500,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $119,800,000.

(5) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $180,685,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $741,766,000 of which not more than $16,612,500 may be obligated or expended for leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and not more than $74,268,500 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) Limitation on Total Cost of Construction Projects.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2301 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $133,000,000 (the balance of the amount authorized for the construction of the J-6 facility, Arnold Engineering Development Center, Tennessee).

(c) Restriction on Certain Funding.—None of the funds appropriated pursuant to subsection (a)(2) may be obligated for use or expended in Panama until the Secretary of Defense transmits to the Committees on Armed Services of the Senate and the House of Representatives a copy of the plans of the activities to be carried out by the Department of Defense in Panama during the five-year period beginning on the date of the enactment of this Act.

SEC. 2305. EXTENSION OF CERTAIN PREVIOUS AUTHORIZATIONS

Notwithstanding the provisions of section 2301(a) of the Military Construction Authorization Act, 1987, (division B of Public Law 99-661), authorizations for the following projects authorized in sections 2301 and 2302 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) KC-135 CPT Simulator Facility, in the amount of $890,000 at Minot Air Force Base, North Dakota.

(2) Add to and alter Avionics Maintenance Shop, in the amount of $1,150,000 at Pease Air Force Base, New Hampshire.

(3) KC-135 CPT Simulator facilities in the amount of $660,000 at Robins Air Force Base, Georgia.

(4) Land acquisition in the amount of $230,000 at the United States Air Force Academy, Colorado Springs, Colorado.

(5) Land acquisition Auxiliary Field in the amount of $3,700,000, at Laughlin Air Force Base, Texas.

(6) KC-135 CPT Simulator facility in the amount of $3,500,000, at Beale Air Force Base, California.

(7) KC-135 CPT Simulator facility in the amount of $3,000,000 at Plattsburgh Air Force Base, New York.

(8) Bitburg, Germany, three hundred and thirty-two units of family housing, $26,414,000.

(9) La Junta, Colorado, forty units of family housing $4,000,000.

TITLE XXIV—DEFENSE AGENCIES

SEC. 2401. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) Inside the United States.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Arlington Service Center, Virginia, $742,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Adak, Alaska, $19,000,000.

Defense Depot, Tracy, California, $590,000.

Defense Fuel Support, Pearl City, Hawaii, $1,900,000.

Defense Reutilization and Marketing Office, Fort Campbell, Kentucky, $1,600,000.

Defense Reutilization and Marketing Office, Offutt Air Force Base, Nebraska, $430,000.

Defense Depot, Mechanicsburg, Pennsylvania, $460,000.

Defense Reutilization and Marketing Office, Carswell Air Force Base, Texas, $350,000.

Defense Depot, Ogden, Utah, $6,000,000

Cheatham Annex, Virginia, $450,000.

DEFENSE MAPPING AGENCY

Hydrographic/Topographic Center, Brookmont, Maryland, $5,209,000.

DEFENSE MEDICAL FACILITIES OFFICE

Marine Corps Base, Camp Pendleton, California, $5,000,000.

March Air Force Base, California, $3,000,000.

Naval Station, North Island, California, $7,200,000.

Naval Station, Treasure Island, California, $11,000,000.

Tyndall Air Force Base, Florida, $800,000.

Fort Benning, Georgia, $700,000.

Robins Air Force Base, Georgia, $3,600,000.

Fort Leonard Wood, Missouri, $1,450,000.

Kirtland Air Force Base, New Mexico, $2,550,000.

Seymour Johnson Air Force Base, North Carolina, $3,700,000.

Fort Sill, Oklahoma, $54,000,000.

Marine Corps Recruit Depot, Parris Island, South Carolina, $4,100,000.

Corpus Christi, Texas, $6,100,000.

Dyess Air Force Base, Texas, $950,000.

NATIONAL DEFENSE UNIVERSITY

Fort McNair, District of Columbia, $28,000,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $2,230,000.

Classified Locations, $20,000,000.

OFFICE OF THE SECRETARY OF DEFENSE

Fort Belvoir, Virginia, $3,000,000.

Classified Location, $4,200,000.

STRATEGIC DEFENSE INITIATIVE ORGANIZATION

Falcon Air Force Station, Colorado, $65,000,000.

(b) Outside the United States.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE COMMUNICATIONS AGENCY

Yokota Air Base, Japan, $785,000.

DEFENSE LOGISTICS AGENCY

Defense Reutilization and Marketing Office, Bitburg, Germany, $800,000.

Defense Reutilization and Marketing Office, Kaiserslautern, Germany, $500,000.

DEFENSE MEDICAL FACILITIES OFFICE

Downs Barracks, Germany, $4,200,000.

Geilenkirchen Air Base, Germany, $450,000.

Hahn Air Base, Germany, $18,500,000.

Patch Barracks, Germany, $4,700,000.

Rhein-Main Air Base, Germany, $14,200,000.

Smith Barracks, Germany, $5,100,000.

Spangdahlem Air Base, Germany, $1,250,000.

Wildflecken, Germany, $4,800,000.

Camp Howze 2nd Infantry Division, Korea, $780,000.

Seoul, Korea, $55,000,000.

Taegu Air Base, Korea, $4,400,000.

Royal Air Force, High Wycombe, United Kingdom, $720,000.

Royal Air Force, Lakenheath, United Kingdom, $41,000,000.

Base 54, $12,800,000.

Classified Locations, $19,500,000.

DEFENSE NUCLEAR AGENCY

Headquarters, Field Command, Johnston Island, $2,644,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Aschaffenburg, Germany, $8,151,000.
Bad Kissingen, Germany, $1,620,000.
Baumholder, Germany, $1,940,000.
Erlangen, Germany, $3,890,000.
Gelnhausen, Germany, $1,482,000.
Giessen, Germany, $7,627,000.
Wildflecken, Germany, $2,752,000.
Keflavik, Iceland, $5,434,000.
Aviano, Italy, $9,450,000.
Pusan, Korea, $1,980,000.
Seoul, Korea, $7,332,000.
Brunssum, Netherlands, $8,863,000.

DEPARTMENT OF DEFENSE SECTION VI SCHOOLS

Fort Buchanan, Puerto Rico, $9,110,000.

NATIONAL SECURITY AGENCY

Classified Locations, $11,250,000.

STRATEGIC DEFENSE INITIATIVE ORGANIZATION

Pacific Missile Range, Kwajalein, $16,000,000.

SEC. 2402. FAMILY HOUSING

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(10)(A), construct or acquire three family housing units (including land acquisition) at classified locations in the total amount not to exceed $400,000.

SEC. 2403. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

Subject to Section 2825 of title 10, United States Code, the Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(10)(A), improve existing military family housing units in an amount not to exceed $113,000.

SEC. 2404. AFCENT SCHOOL

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(2), contribute funds in the amount of $8,863,000 to the Government of the Netherlands (in its capacity as construction agent) for the United States' share of the cost of the International Elementary and High School project in Brunssum, the Netherlands.

SEC. 2405. CONFORMING STORAGE FACILITIES

Section 2404(a) of the Military Construction Authorization Act, 1987 (Public Law 99-661), is amended to read as follows:

"(a) AUTHORITY TO CONSTRUCT.—The Secretary of Defense may, using not more than $10,000,000 appropriated for fiscal year 1987, not more than $5,000,000 appropriated for fiscal year 1988, and not more than $9,300,000 appropriated for fiscal year 1989, carry out military construction projects not otherwise authorized by law for conforming storage facilities.".

SEC. 2406. DEFENSE ACCESS ROADS

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(5), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at Fort Meade, Maryland, in the amount of $12,000,000.

SEC. 2407. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $711,550,000, as follows:

(1) For military construction projects inside the United States authorized by section 2401(a), $236,311,000.

(2) For military construction projects outside the United States authorized by section 2401(b), $262,010,000.

(3) For military construction projects at Fort Sam Houston, Texas, authorized by section 2401(a) of the Military Construction Authorization Act, 1987, $23,000,000.

(4) For military construction projects at Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,000,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $12,000,000.

(6) For unspecified minor construction projects under section 2805 of title 10, United States Code, $6,000,000.

(7) For contingency construction projects of the Secretary of Defense under section 2804 of title 10, United States Code, $8,000,000.

(8) For architectural and engineering services and for construction design under section 2807 of title 10, United States Code, $62,229,000.

(9) For conforming storage facilities constructed under the authority of section 2404 of the Military Construction Authorization Act, 1987, $9,300,000.

(10) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $513,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $20,187,000, of which not more than $17,179,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION OF TOTAL COST OF CONSTRUCTION PROJECTS.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2401 may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a);

(2) $27,000,000 (the balance of the amount authorized under section 2401(a) for the construction of a medical facility at Fort Sill, Oklahoma); and

(3) $27,500,000 (the balance of the amount authorized under section 2401(b) for the construction of a medical facility at Seoul, Korea).

(c) RESTRICTION ON CERTAIN FUNDING.—Of the amounts appropriated pursuant to this section or otherwise made available to the Department of Defense for fiscal year 1989, not more than $65,000,000 may be obligated or expended for use in planning and construction of a National Test Facility for the Strategic Defense Initiative at Falcon Air Force Base, Colorado.

SEC. 2408. RESITING OF OVERSEAS CONTINGENCY MEDICAL FACILITY

Section 2141(b) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 100-180; 101 Stat. 1201) is amended by striking out "RAF Wethersfield, United Kingdom, $740,000." under the heading "DEFENSE MEDICAL FACILITIES OFFICE" and inserting in lieu thereof "Boscombe Downs, United Kingdom, $740,000.".

SEC. 2409. EXTENSION OF CERTAIN PREVIOUS AUTHORIZATIONS

Notwithstanding the provisions of section 2401(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661), authorizations for the following project authorized in section 2401 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing appropriations for military construction for fiscal year 1990, whichever is later:

DECCO Computer Center and Administrative Facility in the amount of $7,600,000 at Scott Air Force Base, Illinois.

SEC. 2410. REYNOLDS ARMY COMMUNITY HOSPITAL, FORT SILL, OKLAHOMA, AND SEOUL ARMY COMMUNITY HOSPITAL, SEOUL, KOREA

Subject to section 2401, the Secretary of Defense may enter into one or more contracts, in advance of appropriations therefor, for the construction of the military construction projects authorized by section 2401 at Reynolds Army Community Hospital, Fort Sill, Oklahoma, and the Seoul Army Community Hospital, Seoul, Korea, if each such contract limits the amount of payments that the Federal Government is obligated to make under such contracts to the amount of appropriations available, at the time such contract is entered into, for obligation under such contract.

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

SEC. 2501. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

The Secretary of Defense may make contributions for the North Atlantic Treaty Organization Infrastructure Program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2502 and the amount collected from the North Atlantic Treaty Organization as a result of construction previously financed by the United States.

SEC. 2502. AUTHORIZATION OF APPROPRIATIONS, NATO

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program, as authorized by section 2501, in the amount of $492,000,000.

TITLE XXVI—GUARD AND RESERVE FACILITIES

SEC. 2601. AUTHORIZED GUARD AND RESERVE CONSTRUCTION AND LAND ACQUISITION PROJECTS

There are authorized to be appropriated for fiscal years beginning after September 30, 1988, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $203,859,000; and

(B) for the Army Reserve, $84,411,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $54,900,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $154,758,000, and

(B) for the Air Force Reserve, $63,600,000.

SEC. 2602. AIRCRAFT PARKING RAMP/HOLDING PAD AT YEAGER AIRPORT, CHARLESTON, WEST VIRGINIA

There is authorized to be constructed, with funds remaining available as the result of savings on construction projects of the Air National Guard of the United States for which funds were appropriated for fiscal year 1987, an aircraft parking ramp/holding pad for the Air National Guard of the United States at Yeager Airport at Charleston, West Virginia, in the amount of $3,300,000, except that no such funds may be obligated for such purpose until the expiration of 30 days after the date on which the Secretary of the Air Force transmits to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the proposed obligation of such funds.

SEC. 2603. CONSTRUCTION OF REPLACEMENT FACILITIES AT O'HARE AIR RESERVE FORCES FACILITY, ILLINOIS

(a) In General.—(1) The Secretary of the Air Force may use the proceeds received from the sale of four parcels of land under the jurisdiction of the Secretary at O'Hare International Airport (known as parcels 1, 2, 3, and 4a) for the construction of Air Force Reserve facilities on other land at such airport under the jurisdiction of the Secretary.

(2) The Secretary may provide for the construction of such Air Force Reserve facilities with funds received from the sale of the parcels referred to in paragraph (1) or may permit the City of Chicago to construct such facilities and, upon completion of the construction, have the ownership of such facilities transferred to the Secretary.

(b) Additional Use of Funds.—The Secretary may also use the funds from the sale of the parcels referred to in subsection (a)(1) to meet expenses other than construction expenses incurred by the Secretary in connection with the construction of the facilities referred to in such subsection.

(c) Excess Funds.—Funds not expended for purposes specified in this section shall be paid into the miscellaneous receipts of the Treasury.

TITLE XXVII—EXPIRATION OF AUTHORIZATIONS; EFFECTIVE DATE

SEC. 2701. EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

(a) Expiration of Authorizations After Two Years.—Except as provided in subsection (b), all authorizations contained in titles XXI, XXII, XXIII, XXIV, and XXV for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1990, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1991, whichever is later.

(b) Exception.—The provisions of subsection (a) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1990, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1991, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

SEC. 2702. EFFECTIVE DATE

Except as otherwise specifically provided, this division shall take effect on October 1, 1988, or the date of enactment of this Act, whichever is later.

TITLE XXVIII—GENERAL PROVISIONS

Part A—Program Changes

SEC. 2801. LONG-TERM FACILITIES CONTRACTS

Section 2809(a)(3) of title 10, United States Code, is amended by striking out "20 years" and inserting in lieu thereof "32 years".

SEC. 2802. INCREASE IN FOREIGN HOUSING LEASING AUTHORITY

Section 2828(e)(2) of title 10, United States Code, is amended by striking out "36,000" and inserting in lieu thereof "38,000".

SEC. 2803. REPORTS ON REAL PROPERTY TRANSACTIONS

Subsections (a), (b), and (e) of section 2662 of title 10, United States Code, are amended by striking out "$100,000" each place it appears and inserting in lieu thereof "$200,000".

SEC. 2804. NOTIFICATION REQUIREMENT RELATING TO ACQUISITION OF INTEREST IN LAND

Section 2672 of title 10, United States Code, is amended—

(1) in subsection (a)(1), by striking out "Subject to subsection (b), the" and inserting in lieu thereof "The";

(2) by striking out subsection (b); and

(3) by redesignating subsection (c) as subsection (b).

SEC. 2805. PLANNING ASSISTANCE FOR IMPACTED COMMUNITIES

(a) Modification of Authority.—Paragraph (1) of section 2391(b) of title 10, United States Code, is amended to read as follows:

"(1) The Secretary of Defense may make grants, conclude cooperative agreements, and supplement funds available under Federal programs administered by agencies other than the Department of Defense in order to assist State and local governments in planning community adjustments and economic diversification required (A) by the proposed or actual establishment, realignment, or closure of a military installation, (B) by the cancellation or termination of a Department of Defense contract or the failure to proceed with an approved major weapon system program, (C) by a publicly-announced planned major reduction in Department of Defense spending that would directly and adversely affect a community, or (D) by the encroachment of a civilian community on a military installation, if the Secretary determines that an action described in clause (A), (B), or (C) is likely to have a direct and significantly adverse consequence on the affected community or, in the case of an action described in clause (D), if the Secretary determines that the encroachment of the civilian community is likely to impair the continued operational utility of the military installation.".

(b) Condition on Assistance.—Section 2391(b) of such title is further amended—

(1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (3) the following new paragraph:

"(4) In the case of a publicly-announced planned major reduction in Department of Defense spending that will directly and adversely affect a community, assistance may be made under paragraph (1) only if the publicly-announced planned major reduction will result in the loss of 1,000 or more full-time Department of Defense and contractor employee positions over a five-year period in the locality of the affected community.".

Part B—Miscellaneous

SEC. 2811. PROHIBITION OF FUNDING FOR CERTAIN MILITARY CONSTRUCTION CONTRACTS ON GUAM

(a) In General.—Except as provided in subsection (b), no funds appropriated pursuant to authorizations made by this division may be obligated or expended with respect to any contract for a military construction project on Guam if any work is carried out on such project by any person who is a nonimmigrant alien described in section 101(a)(15)(H)(ii) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)).

(b) Exception.—In any case in which there is no acceptable bid made in response to a solicitation by the Secretary of a military department for bids on a contract for a military construction project on Guam and the Secretary concerned makes a determination that the prohibition contained in subsection (a) is a significant deterrent to obtaining bids on such contract, the Secretary concerned may make another solicitation for bids on such contract and the prohibition contained in subsection (a) shall not apply to such contract after the 21-day period beginning with the date on which the Secretary concerned transmits a report concerning such contract to the Committee on Armed Services of the Senate and the House of Representatives.

(c) Effective Date.—The provisions of this section shall apply to contracts entered into, amended, or otherwise modified on or after the date of the enactment of this Act.

SEC. 2812. BROOKE ARMY MEDICAL CENTER

(a) Increase in Project Authority.—(1) Section 2401(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661; 100 Stat. 4034), is amended by striking out "$241,000,000" in the item relating to Fort Sam Houston, Texas, under the heading relating to Defense Medical Facilities Office and inserting in lieu thereof "$275,000,000".

(2) The limitation on the total cost of projects carried out under section 2401 of such Act is hereby increased by $34,000,000.

(b) Conforming Amendment.—Section 2403(a)(2) of such Act is amended by striking out ", but the" and all that follows through "beds".

SEC. 2813. COMMUNITY PLANNING ASSISTANCE

(a) Additional Authority.—In addition to the authority under any other provision of law, the Secretary of Defense may provide community planning assistance under section 2391(b) of title 10, United States Code, in the following amounts:

(A) Not to exceed $350,000 for communities located near newly established light infantry division posts.

(B) Not to exceed $250,000 for communities located near newly established Navy strategic dispersal program homeports.

(C) Not to exceed $150,000 for communities located near Whiteman Air Force Base, Knob Noster, Missouri.

(b) Expiration of Authority.—The authority to provide community planning assistance under subsection (a) expires on September 30, 1991.

SEC. 2814. FORT DERUSSY, HAWAII

(a) Use.—The Secretary of the Army shall administer Fort DeRussy, Hawaii, as the primary rest and recreation area for members of the Armed Forces in the Pacific.

(b) PROHIBITION.—Notwithstanding any other provision of law, funds appropriated or otherwise available to the Department of Defense may not be used in any way, directly or indirectly, for the purpose of selling, leasing, renting, excessing, or otherwise disposing of any portion of the land constituting Fort DeRussy, Hawaii (as constituted on the date of the enactment of this Act).

(c) IMPLEMENTATION OF PLAN.—(1) Section 2740(d) of the Military Construction Authorization Act, 1987 (Public Law 99-661; 100 Stat. 4051), is amended—

(A) by striking out "PAYMENT OF EXCESS INTO TREASURY" in the subsection heading and inserting in lieu thereof "EXCESS AMOUNT"; and

(B) by striking out "shall deposit" and all that follows through the period and inserting in lieu thereof "may use such amount for the implementation of the plan established by the Secretary of the Army on March 1, 1988, for the future use and development of Fort DeRussy, Hawaii, except that such amount may not be used to pay for the construction of nonappropriated-fund projects identified in such plan. The Secretary shall deposit any part of such amount not used for such purpose at the end of the ten-year period beginning on the date of the enactment of the Military Construction Authorization Act, 1989, into the Treasury as miscellaneous receipts.".

(2) Section 2332(d) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 100-180; 100 Stat. 1223), is amended—

(A) by striking out "PAYMENT OF EXCESS INTO TREASURY" in the subsection heading and inserting in lieu thereof "EXCESS AMOUNT"; and

(B) by striking out "shall deposit" and all that follows through the period and inserting in lieu thereof "may use such amount for the implementation of the plan established by the Secretary of the Army on March 1, 1988, for the future use and development of Fort DeRussy, Hawaii, except that such amount may not be used to pay for the construction of nonappropriated-fund projects identified in such plan. The Secretary shall deposit any amount not used for such purpose at the end of the ten-year period beginning on the date of the enactment of the Military Construction Authorization Act, 1989, into the Treasury as miscellaneous receipts.".

SEC. 2815. WURTSMITH AIR FORCE BASE, MICHIGAN

The library building located on the Wurtsmith Air Force Base, Michigan, is hereby designated as the "General Earl T. O'Loughlin Library". Any reference to such building in a law, rule, map, document, record, or other paper of the United States shall be considered to be a reference to the "General Earl T. O'Loughlin Library".

SEC. 2816. LOCATION OF HAZARDOUS WASTE STORAGE FACILITY AT PEARL HARBOR NAVAL SHIPYARD

The Secretary of the Navy may not construct a hazardous waste storage facility for the Pearl Harbor Naval Shipyard at a location closer than 600 feet to a public school.

SEC. 2817. SOLICITATION FOR PROPOSALS FOR OFFICE SPACE FOR NAVY

(a) IN GENERAL.—The Administrator of General Services, in coordination with the Secretary of the Navy, shall issue solicitation for proposals for the acquisition of such office and related space within the National Capital Region as the Secretary determines necessary to meet the needs of the Navy within such region.

(b) REPORT.—The Secretary, after consultation with the Administrator, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report regarding the proposals received in response to the solicitation issued pursuant to subsection (a). Such report shall include a comparative cost analysis of meeting the office and related space needs of the Navy within the National Capital Region by means of lease, lease-purchase, and military construction, respectively. The report shall identify, and include recommendations for meeting, the current and long-term office and related space needs of the Navy within the National Capital Region.

(c) DEADLINE FOR REPORT.—The report required by subsection (b) shall be submitted not later than 90 days after the date established by the Administrator for receiving responses to the solicitation for proposals issued pursuant to subsection (a).

SEC. 2818. THIRD INFANTRY DIVISION MEMORIAL

(a) IN GENERAL.—The Society of the Third Infantry Division may establish, on grounds in Arlington National Cemetery selected pursuant to subsection (b)(1), a memorial in honor and in commemoration of the members of the "Rock of the Marne" of the Third Infantry Division, United States Army, who bravely served their country in World War I, World War II, and the Korean conflict.

(b) ADMINISTRATIVE PROVISIONS.—(1) The Secretary may select a suitable site on grounds in Arlington National Cemetery upon which may be established the memorial authorized in subsection (a).

(2) The design and plans for such memorial shall be subject to the approval of the Secretary of the Army, the American Battle Monuments Commission, the National Capital Planning Commission, and the Commission of Fine Arts.

(3) The United States shall not be liable for any expense in connection with the construction of the memorial authorized by subsection (a).

(4) The maintenance and care of the memorial authorized under this section shall be the responsibility of the Secretary of the Army.

(c) EXPIRATION OF AUTHORITY.—The authority provided in this section shall expire at the end of the 5-year period beginning on the date of the enactment of this Act unless—

(1) construction of the memorial authorized in subsection (a) is commenced within such period; and

(2) before construction of the memorial begins, the Society of the Third Infantry Division certifies to the Secretary of the Army the amount available for the construction of the memorial and the Secretary determines that such amount is sufficient to complete the memorial.

SEC. 2819. COMMISSION ON ALTERNATIVE UTILIZATION OF MILITARY FACILITIES

(a) ESTABLISHMENT OF COMMISSION.—Within 30 days after the date of the enactment of this Act, the President shall establish a Commission on Alternative Utilization of Military Facilities. The Commission shall be composed of representatives from the Department of Defense, the Bureau of Prisons of the Department of Justice, the National Institute on Drug Abuse of the Department of Health and Human Services, and the General Services Administration.

(b) REPORT REQUIREMENTS.—The Commission shall, on a biannual basis—

(1) prepare a report listing active and nonactive military facilities that the Secretary of Defense has identified as subjects for closure, as being underutilized in whole or part, or as being excess to the needs of the Department of Defense;

(2) identify those facilities, or parts of facilities that could be effectively utilized or renovated to serve as minimum security facilities for nonviolent prisoners;

(3) identify those facilities, or parts of facilities, that could be effectively utilized or renovated to serve as drug treatment facilities for nonviolent drug abusers; and

(4) transmit a list of such facilities to the President and to the Congress.

(c) DEADLINE FOR REPORTS.—The first report required by subsection (b) shall be submitted to the President and Congress not later than October 1, 1988. Subsequent reports under such subsection shall be submitted not later than September 1 of every second year after submission of the first report through fiscal year 1996.

PART C—REAL PROPERTY TRANSACTIONS

SEC. 2821. LAND EXCHANGE, ALAMEDA COUNTY, CALIFORNIA

(a) IN GENERAL.—(1) Subject to subsections (b) through (d), the Secretary of the Army may convey to the County of Alameda, California, and to the City of Dublin, California, the real properties referred to in paragraph (2) in exchange for conveyance to the United States of approximately 445 acres of real property, together with improvements thereon, of the property described in paragraph (3).

(2) The properties authorized to be conveyed by the Secretary are as follows:

(A) Approximately 35 acres of real property, together with improvements thereon, at the Reserve Forces Training Center, County of Alameda, California, to the County of Alameda, California.

(B) Approximately 12 acres of real property, together with improvements thereon, at such center to the City of Dublin, California.

(3) The property to be conveyed to the United States is a parcel of land consisting of approximately 445 acres, together with improvements thereon, located in the County of Alameda, California, which is under the jurisdiction of the East Bay Regional Park District, County of Alameda, California, and which was conveyed to such district by the United States by a deed dated February 2, 1973.

(4) The instrument of conveyance conveying the property referred to in paragraph (3) to the United States may, at the option of the East Bay Regional Park District—

(A) include a right of reversion on behalf of such district in the event that the property conveyed to the United States is no longer needed by the Department of the Army (as determined by the Secretary of the Army); and

(B) reserve to such district an easement consisting of not more than 25 acres along the most eastern boundary of the property for use by such district as a part of the Regional Trail System of such district.

(b) ADDITIONAL CONSIDERATION.—If the fair market value of the properties conveyed by the United States pursuant to subsection (a) exceeds the fair market value of the property conveyed to the United States pursuant to such subsection, the County of Alameda, California, the City of Dublin, California, or the East Bay Regional Park District, as appropriate, shall pay the difference to the United States. Any such payment shall be covered into the Treasury as miscellaneous receipts.

(c) LEGAL DESCRIPTION AND SURVEYS.—The exact acreage and legal description of the real property to be conveyed pursuant to this section (including the easement referred

to in subsection (a)(4)) shall be determined by surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the County of Alameda or the City of Dublin.

(d) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the conveyances made pursuant to this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2822. LAND CONVEYANCE, LOMPOC, CALIFORNIA

(a) In General.—Subject to subsections (b) through (d), the Secretary of the Army may convey, without reimbursement, to the City of Lompoc, California, all right, title, and interest of the United States in and to a tract of real property (including improvements thereon) of approximately 100 acres located adjacent to the real property conveyed to the City pursuant to section 834 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1526).

(b) Use of Property.—(1) The conveyance authorized by subsection (a) shall be subject to the condition that the real property conveyed shall be used only for educational purposes or the purposes provided in section 834 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1526), or both.

(2) If the property conveyed pursuant to subsection (a) is not used for the purposes described in paragraph (1), all right, title, and interest in and to such property shall revert to the United States, which shall have the right of immediate entry thereon.

(c) Legal Description and Surveys.—The exact acreage and legal description of the property to be conveyed under subsection (a) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such survey shall be borne by the City.

(d) Other Terms and Conditions.—The Secretary may require such other terms and conditions with respect to the conveyance under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2823. LAND EASEMENT, ORANGE COUNTY, CALIFORNIA

(a) In General.—Subject to subsections (b) through (e), the Secretary of the Navy may grant an easement to Orange County, California, for the construction and maintenance of flood control improvements (hereafter in this section referred to as "county improvements") on a tract of land owned by the United States, consisting of approximately 32 acres, located at the northern boundary of the Marine Corps Air Station, El Toro, California, and may grant such temporary rights to Orange County as the Secretary determines necessary for the construction of such improvements.

(b) Consideration.—(1) In consideration for the conveyance by the Secretary under subsection (a), Orange County shall convey to the United States a parcel of real property consisting of approximately one and one-half acres located adjacent to the Marine Corps Air Station, Tustin, California.

(2) The United States shall also be entitled to such flood control improvements at the Marine Corps Air Station, El Toro, California, as the Secretary and Orange County shall agree upon.

(3) The county improvements and additional flood control improvements shall be constructed at no cost to the United States.

(c) Payment of Excess Into Treasury.—If the fair market value of the easement described in subsection (a) exceeds the fair market value of the real property conveyed to the United States under subsection (b), Orange County shall pay the difference to the United States. Any such payment shall be covered into the Treasury as miscellaneous receipts.

(d) Legal Description of Property.—The exact acreages and legal descriptions of the real property to be conveyed under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such survey shall be borne by Orange County.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2824. LAND EXCHANGE, SAN DIEGO, CALIFORNIA

(a) Exchange Authorized.—Subject to subsections (b) through (e), the Secretary of the Navy may convey to the San Diego Unified Port District of San Diego, California, such real property under the jurisdiction of the Navy in the City of San Diego, California, as the Secretary determines appropriate in exchange for one or more parcels of land, together with improvements thereon and consisting of approximately 32 acres, located adjacent to the San Diego Naval Station, San Diego, California, and owned by the San Diego Unified Port District.

(b) Limitation on Value of Property Exchanged.—The fair market value of the real property conveyed by the Secretary under subsection (a) may not exceed the fair market value of the real property received by the Secretary under such subsection, as determined by the Secretary.

(c) Notice to Committees.—The Secretary may not enter into an exchange under this section until the Secretary has notified the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives of the details of the proposed exchange and a period of 21 days has elapsed following the day on which the committees receive the notification.

(d) Legal Description of Property.—The exact acreages and legal descriptions of the real property to be conveyed under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such survey shall be borne by San Diego Unified Port District.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2825. LAND TRANSFER, WASHINGTON, DISTRICT OF COLUMBIA

(a) In General.—The Administrator of General Services shall transfer, without consideration, to the Secretary of the Navy approximately 6 acres of real property (including Building 197 located thereon) located at a site referred to as the Southeast Federal Center near the Washington Navy Yard, Washington, D.C., and bounded on the east by Isaac Hull Avenue, on the north by Tingey Street, on the west by Buildings 116 and 118, and on the south by property owned by the Department of the Navy.

(b) Design of Building.—The Secretary of the Navy shall use not more than $9,200,000 of the amount appropriated pursuant to section 2205(a)(4) to initiate the redesign of Building 197 referred to in subsection (a).

SEC. 2826. LAND CONVEYANCE, OKALOOSA COUNTY, FLORIDA

Section 809(c) of the Military Construction Authorization Act, 1979 (Public Law 95-356; 92 Stat. 587), is amended by inserting before the period the following: "and a third parcel containing forty-two acres".

SEC. 2827. TRANSFER OF LAND, SUITLAND FEDERAL CENTER, MARYLAND

The Administrator of General Services shall transfer, without consideration, to the Secretary of the Navy such parcel of vacant land located at the Suitland Federal Center, Suitland, Maryland, as the Administrator, after consultation with the Secretary, determines—

(1) to be excess to the present and anticipated future needs of the General Services Administration at the Suitland Federal Center; and

(2) adequate to accommodate the needs of the Navy for the construction and operation of a facility to serve as the Naval Intelligence Command Headquarters authorized by section 2201.

SEC. 2828. AIR FORCE PLANT AT COLUMBUS, OHIO

(a) In General.—The Secretary of the Air Force may sell or lease, or issue a permit to another agency within the Department of Defense for use of, all or any portion of Air Force Plant No. 85 located in Columbus, Ohio. Any such action shall be carried out in accordance with applicable law except to the extent that such law is inconsistent with this section.

(b) Authority of Secretary.—(1) The Secretary shall provide that each deed entered into for the transfer of such property shall contain a covenant warranting that all remedial action necessary to protect human health and the environment with respect to any environmental contamination at the plant at the time of the sale, including any remedial action found to be necessary with respect to such contamination after the date of such transfer, has been or will be conducted by the United States. Such covenant shall be in lieu of any other covenant or other action required by any applicable law with respect to environmental restoration to be taken by the Federal government at the plant before such transfer.

(2) In any case in which the Secretary provides a permit to another agency within the Department of Defense to use any portion of the plant, the Secretary may provide for the environmental restoration of such portion by such other agency with funds available to the Department of the Air Force for environmental restoration.

(3) To the extent that the Secretary decides to take remedial action with respect to environmental contamination in any portion of the plant before the sale or lease of such portion, the Secretary may use funds provided by the purchaser or lessor for such purpose.

(c) Deduction of Expense From Proceeds of Sale or Lease.—The Secretary may use the proceeds of any sale or lease of the property described in subsection (a) to credit the accounts from which funds were expended by the Secretary for reasonable and necessary expenses, other than for environmental restoration, incurred in connection with the sale or lease. The Secretary may also use the proceeds of such sale or lease directly for the purpose of environmental restoration at the plant. The remaining proceeds of the sale or lease shall be credited to the general fund of the Treasury.

(d) Additional Terms.—The Secretary may require such additional terms and conditions in connection with any sale or lease entered into under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2829. LAND CONVEYANCE, FORT JACKSON, SOUTH CAROLINA

(a) Authority To Sell.—Subject to subsections (b) through (e), the Secretary of the Army may sell and convey all right, title, and interest of the United States in and to a parcel of land, consisting of a total of approximately 32 acres, that comprises a portion of Fort Jackson, South Carolina and is excess to the needs of the Army.

(b) Competitive Bid Requirement; Minimum Sale Price.—(1) The Secretary shall use competitive procedures for the sale of land referred to in subsection (a).

(2) In no event may any of the land referred to in subsection (a) be sold for less than the fair market value of the land, as determined by the Secretary.

(c) Use of Proceeds of Sale.—(1) The Secretary may use the proceeds from the sale of the land referred to in subsection (a) for the rehabilitation of military family housing at Fort Jackson, South Carolina.

(2) Any proceeds of the sale not used for such purpose shall be covered into the Treasury as miscellaneous receipts.

(d) Legal Description of Lands.—The exact acreage and legal description of the property to be conveyed under subsection (a) shall be determined by a survey that is satisfactory to the Secretary.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with any transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

And the Senate agree to the same.

From the Committee on Armed Services, for consideration of the entire House bill (except sections 4101 through 4110), and the entire Senate amendment (except sections 938 and 949), and as exclusive conferees with respect to any proposal to report in total disagreement:

Les Aspin,
Charles Bennett,
Samuel S. Stratton,
Bill Nichols,
G.V. Montgomery,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4264) to authorize appropriations for fiscal year 1989 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SUMMARY STATEMENT OF CONFERENCE ACTION

The conferees recommend authorization for the Department of Defense for procurement, research and development, test and evaluation, operation and maintenance, working capital funds, military construction and family housing, weapons programs of the Department of Energy, and civil defense totaling $221.1 billion. This figure is $0.1 billion above the amount requested by the President, $0.1 billion above the Senate amendment, and $0.1 billion below the House bill.

The budget summit between the President and the Congress in November 1987 resulted in an agreement that national defense spending for fiscal year 1989 would be $299.5 billion. This agreement was reflected in the Budget Resolution.

The authorizations included in this Act are substantially less than the functional ceiling of $299.5 billion for national defense provided in the Budget Resolution. The primary reason for this difference is that, although the military end strengths and pay raise are authorized in this Act, the actual funding for military pay and benefits (approximately $78.5 billion) is not reflected in this Act.

SUMMARY TABLE OF AUTHORIZATIONS

The defense authorization act provides authorizations for appropriations but does not provide budget authority. Budaget authority is provided in appropriations acts.

In order to relate the conference recommendations to the Budget Resolution, matters in addition to the dollar authorizations contained in this Act must be taken into account. A number of programs in the defense function are authorized permanently or, in certain instances, authorized in other annual legislation. In addition, the authorization act establishes personnel levels and includes a number of legislative provisions affecting military compensation.

The table below summarizes authorizations included in the Act for fiscal year 1989 and, in addition, summaries the implication of the conference action for the budget totals for National Defense (Budget Function 050).

SUMMARY OF FUNDS RECOMMENDED FOR AUTHORIZATION
(Dollars in Millions)

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS AND OTHER NATIONAL DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,791.5 million for Army aircraft procurement. The House bill would authorize $2,959 million. The Senate amendment would authorize $2,794.9 million. The conferees recommend authorization of $2,883.7 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Strengthening the armor-antiarmor balance

Both the House report (H. Rept. 100-563) and the Senate report (S. Rept. 100-326) emphasized the need to strengthen conventional defenses, especially in light of ratification of the INF treaty. Both reports note the deterioration of the armor-antiarmor balance and the need to reverse that deterioration in order to preserve an effective deterrent in NATO. To that end, the conferees recommend numerous changes to the budget request to strengthen conventional defense capabilities.

The conferees recommend multiyear procurement contracts for the two primary antiarmor systems, the M1 tank and the AH-64 helicopter, based on comprehensive master plans developed during the past year. The conferees provided additional procurement aned R&D funds for urgent improvements to existing antitank missiles, including the Hellfire and TOW 2 missiles. The conferees recommended increased production rates for the Hellfire and Maverick missiles. The conferees also recommed acceleration of the development of future promising antiarmor systems, including a Block 3 version of the M1 tank, the fiber optic guided missile, the hypervelocity missile, and the sense and destroy armor (SADARM) program.

The conferees note that the serious deterioration of the armor-antiarmor balance cannot be reversed in one year and will require sustained investment by the Department of Defense. The conferees emphasize the urgent nature of the current problem, especially in the immediate post-INF security environment in Europe, and direct the Secretary to insure that these programs receive sufficient funds in the upcoming Five Year Defense Program for fiscal years 1990 to 1994.

Guardrail/Common Sensor Aircraft

The amended budget request included $69.4 million for six RC-12K GUARDRAIL/Common Sensor (GRCS) aircraft.

The House bill would authorize the requested amount.

The fiscal year 1989 Intelligence Authorization Act (H.R. 4387), passed by the House of Representatives, would prohibit the procurement of more than three aircraft and sensors until the Army had presented a plan that includes the contribution of Remotely Piloted Vehicles (RPVs) and other reconnaissance assets to support Army airborne signal intelligence (SIGINT) requirements. Other studies that would be required by H.R. 4387 include the Army plans for a new aircraft develpment program and its relationship to RC-12K procurement, and the modeling and simulation tools used to certify the GRCS.

The conferees endorse these reporting requirements and the program contingency. The conferees believe that this report can be completed by November 1, 1988, and will not adversely affect contract plans. The conferees further agree that the Army must carefully consider all available SIGINT assets, current and future, in setting GRCS force levels, but note that since the termination of the Precision Location Strike System (PLSS), the GRCS is integral to supporting follow-on force attack targeting requirements.

AH-64 Attack Helicopter

The amended budget request contained $773.1 million for procurement of 72 aircraft and $36 million for advance procurement to continue production in fiscal year 1990.

The House bill would authorize $813.1 million for 72 aircraft for fiscal year 1989 and $40 million for procurement of two combat mission simulators. The House bill would also authorize $92 million for advance procurement, and would direct the Army to enter into a multiyear contract if certain criteria (specified in Section 114 of the House bill) were satisfied.

The Senate amendment would authorize $813.1 million for this program. The increase of $40 million would be authorized because it is not possible to procure 72 aircraft with the funds requested by the Army. The Senate amendment would also authorize $76 million for advance procurement, and would direct the Army to enter into a multiyear contract for 72 aircraft over a three-year period if certain conditions could be satisfied. The Senate amendment would also specify that none of the $40 million authorized to properly price the request in fiscal year 1989 could be obligated unless the Army does enter into a multiyear contract and the unit price for helicopters in fiscal year 1989 does not exceed the unit price negotiated under the terms of the multiyear contract.

The conferees recommend an authorization of $813.1 million, with not less than $20 million to be provided to procure a mission simulator. The remaining $20 million in additional authorization may be used to properly price the AH-64 procurement in fiscal year 1989, subject to the same conditions specified by the Senate report (S. Rept. 100-326). If the funds are not required, they may be used to procure an additional mission simulator.

The conferees recommend an authorization of $76 million for advance procurement and direct the Army to negotiate a multiyear contract, subject to the restrictions outlined in section 107. The conferees note that the Army has developed two alternative approaches to a multi-year contract: a three-year multiyear contract for 72 aircraft per year, and a four-year multiyear contract for 60 aircraft per year. The Army may pursue either approach, subject to the conditions specified in section 107. The conferees do believe, however, that it would be desirable to retain the highest practical production rate consistent with overall Army budget resources.

The conferees direct that not less than one battalion of AH-64 helicopters be provided to the Reserve Component each year.

OV-1 Surveillance Aircraft

The amended budget request contained $12.2 million for the modification of OV-1 surveillance aircraft.

The House bill would deny all funding for the modification program.

The Senate amendment would approve the program at the requested level.

The conferees recommend an authorization of $6.212 million. The conferees express concern over the overall affordability of the OV-1 modification program. The conferees doubt that it is appropriate or affordable to modify the entire fleet of OV-1 aircraft.

Army helicopter improvement program

The amended budget request contained $161 million for the Army Helicopter Improvement Program (AHIP).

The House bill would authorize $204 million for 36 aircraft.

The Senate amendment would authorize the requested amount.

The Senate recedes.

The conferees have learned of the Army's plans to modify 16 existing AHIPs to the armed reconnaissance configuration and understand the cost to perform the modification could have been lowered if the modification were performed during the baseline AHIP upgrade. The conferees are concerned that if the Army has a requirement to modify additional AHIP aircraft to the armed configuration, additional funding will be required. This does not seem prudent in the existing budget environment. The conferees direct that the 36 AHIP aircraft authorized in fiscal year 1989 and future AHIP aircraft have the structural and electrical modifications (required for the armed reconnaissance configuration) installed during the baseline AHIP modification. This will allow the Army to equip cost-effectively fiscal year 1989 and future AHIPs with armament in the event the Army chooses to do so at a later date.

MISSILE PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,586.6 million for Army missile procurement. The House bill would authorize $2,686.7 million. The Senate amendment would authorize $2,541.8 million. The conferees recommend authorization of $2,605.2 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Army tactical missile system

The amended budget request contained $76.3 million to procure 66 Army Tactical Missiles Systems (ATACMS) in fiscal year 1989 and $4.3 million for advance procurement in fiscal year 1990.

The House bill would authorize the requested levels, but included a provision (Sec. 111(b)) that would restrict the obligation of certain funds until the Secretary of Defense certified that the total requirement for ATACMS had been established and submitted a report outlining the requirement and the associated acquisition strategy.

The Senate amendment would authorize the requested levels and would impose no obligation restrictions.

The House recedes.

The conferees support the ATACMS program, but believe that the Department of the Army should conduct an analysis of total requirements for the system. The Department is directed to conduct that analysis and provide the results to Congress with the submission of the fiscal year 1990 budget request.

The conferees understand that the Army could save approximately $12 million in future budgets if all of the fuzes for ATACMS submunitions could be procured at economic production rates. The conferees invite the Army to proceed with any administrative actions possible to achieve those savings. If legislative relief is required, the conferees direct the Army to propose such changes at the time the fiscal year 1990 budget request is submitted.

WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,960.6 million for Army weapons and tracked combat vehicles. The House bill would authorize $2,966.1 million. The Senate amendment would authorize $2,959.2 million. The conferees recommend authorization of $2,915.1 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

M1 tanks

The amended budget request contained $1,131.6 million to procure 545 M1 tanks and $212.1 million for advance procurement for fiscal year 1990. Subsequent to the budget submission, the Army determined that it intends to keep the M1 tank in production, to replace all current M60 tanks in the National Guard with M1s, and to retrofit early model M1s with the 120mm cannon.

The House bill would endorse this plan, authorize $1,131.6 million for tank procurement for the Army and $252.1 million for advance procurement, and direct the Army to enter into a five-year multiyear contract for 3,000 tanks, subject to the restrictions specified in section 114 of the House bill. The House report (H. Rept. 100-563) directed the Secretary of Army to report on the plan to equip the National Guard with M1 tanks. The House report further specified that the Army may not enter into the multiyear contract until the Secretary of Defense certifies that sufficient funds have been budgeted in the Five Year Defense Program for fiscal years 1990 to 1994 to support the new acquisition strategy.

The Senate amendment would authorize $1,131.6 million for procurement in fiscal year 1989 an $256.2 million for advance procurement. It would also specify that the Army should consider a multiyear contract for continued production. The Senate amendment would also endorse the Army's plans for modernizing the National Guard and would authorize $15 million to modify facilities to initiate modification of early model M1 tanks with the 120mm smoothbore cannon.

The conferees recommend an authorization of $1,131.6 million for procurement in fiscal year 1989 and $252.1 million for advance procurement. The conferees direct the Army to proceed with a multiyear contract for up to 3,000 tanks, subject to the conditions specified in section 102. The conferees also support the directive certification requirements associated with the M1 tank multiyear program as outlined in the House report (H. Rept. 100-563).

Prior year funding availability

The conferees recommend a reduction of $56.6 million in Weapons and Tracked Combat Vehicles because of the availability of prior year funds which are no longer required for their original purpose. The conferees understand that $26.6 million appropriated to procure M1 tanks and $30 million to procure M2 fighting vehicles is excess to original requirements and is available either to be transferred or rescinded.

AMMUNITION, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,007.8 million for Army ammunition. The House bill would authorize $2,051.6 million. The Senate amendment would authorize $2,035.5 million. The conferees recommend authorization of $2,064 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

OTHER PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $4,774 million for Army other procurement. The House bill would authorize $4,242.8 million. The Senate amendment would authorize $4,781.2 million. The conferees recommend authorization of $4,580.3 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Motorcycles

The amended budget request contained $4.3 million for motorcycles for the Army.

The House bill would authorize the amount requested. The House report (H. Rept. 100-563) also directed that the competition for motorcycles be concluded and a contract awarded by March 1, 1989.

The Senate amendment would deny any procurement for motorcycles.

The Senate recedes. The conferees acknowledge that the Army has had ample opportunity to conduct the competition and directs that it be resolved, and a contract awarded, not later than March 1, 1989.

High mobility multi-purpose wheeled vehicle

The amended budget request contained $158.4 million to procure high mobility multi-purpose wheeled vehicles.

Both the House bill and the Senate amendment would authorize the requested amount.

The conferees note that the Army was authorized last year to enter into a five-year multiyear contract for the high mobility multi-purpose wheeled vehicle program. The conferees understand that fiscal pressures within the Army have raised questions on whether it is possible to proceed with that multiyear contract. The conferees remain committed to the previous multiyear contract and expect the Army to proceed with that acquisition approach.

TRI-TAC equipment

The amended budget request contained $115.7 million for procurement of TRI-TAC equipment.

The House bill would reduce the request to $43.6 million and delete the fiscal year 1988 authorization of $33.3 million.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $79.531 million for the procurement of TRI-TAC equipment in fiscal year 1989 and retention of the $33.3 million authorized in fiscal year 1988.

The conferees question the Army's current plan to introduce competition in the program, and encourage the Under Secretary of Defense of Acquisition to review the plan for competition. The conferees also note that much of the equipment planned for procurement under the TRI-TAC program is equipment currently being procured under the Mobile Subscriber Equipment (MSE) contract. The conferees direct that the Army may not procure any item of equipment under the TRI-TAC program that is also being procured under the MSE program at a price higher than permitted under the MSE contract if it is to be procured from the same vendors.

SINCGARS

The amended budget request contained $267.2 million for 16,000 SINCGARS radios, including 9,500 radios with embedded communication security (ICOM).

The House bill would reduce the request to $154 million.

The Senate amendment would authorize the requested amount.

The House recedes with an amendment.

The conferees agree to authorize $222.8 million to purchase SINCGARS radios. The conferees also direct the Marine Corps (sec. 112) to obligate $29.3 million in prior year funds to procure SINCGARS radios. Finally, the conferees agree to reduce the request by $10 million due to availability of prior-year funds resulting from contract savings. Therefore, options three and four of the current procurement contract for SINCGARS will not require renegotiation.

The amended budget request for fiscal year 1989 is based on full-rate production of 16,000 SINCGARS radios. The conferees want to ensure that testing demonstrates that SINCGARs radios meet operational requirements before the Army enters full-rate production. The conferees understand that a review by the Defense Acquisition Board will occur prior to award of the full-rate production option. Consistent with the Defense Department's proposed review, the conferees direct that fiscal year 1989 procurement funds not be obligated until the Committees on Armed Services of the Senate and House of Representatives receive a certification by the Director of Operational Test and Evaluation that testing has demonstrated that each version of the radio meets all operational reliability requirements. The required certifications for the two versions of SINCGARs may be submitted independently.

The conferees also understand that the Army has selected a second source producer of SINCGARs radios. The radio design of the second source producer is substantially different from the current production design. The conferees emphasize that the Army may not obligate funds for any second source SINCGARs radio that is not fully and completely interoperable with the existing SINCGARs radio, to include the embedded secure communication operations.

Single channel objective tactical terminal

The amended budget request contained $55.1 million for procurement of 15 Single Channel Objective Tactical Terminals (SCOTT) and refurbishment of 15 engineering models to production line quality.

The House bill would deny authorization of the requested amount.

The Senate amendment would authorize the full request.

The conferees recommend authorization of $36.5 million for production of at least 13 production SCOTT AN/TSC-124 MILSTAR terminals, logistics support of engineering development models (EDMs), and continued MILSTAR sytstem engineering support.

Although the conferees support the total MILSTAR program, they are concerned about the relative priority accorded these systems by the Services and the total number of terminals required. The conferees direct that the Secretary of Defense submit with the next budget submission a report to the Committees on Armed Services of the Senate and House of Representatives describing the total Department of Defense requirement for SCOTT terminals and the priority for those systems.

Commanders' Tactical Terminals

The amended budget request contained $22.98 million for the Commanders' Tactical Terminals (CTT).

The House bill would deny the requested amount due to concerns expressed about the conduct and results of recent multi-Service tests on the system, and because of apparent Air Force reticence in supporting the program.

The Senate amendment would authorize the requested amount.

The conferees understand that the Air Force has reduced its planned procurement quantities of the CTT, but note that Air Force support has not otherwise changed. However, it makes sense for the Army to take the lead in the program due to its much larger buy and the fact that it will be responsible for supporting the system once fielded. The conferees believe the test results support a low-rate initial production (LRIP) decision to support an initial operational test and evaluation (IOT&E). The terminals requested by the Army will also permit the Army to replace units in Europe to provide a limited operational capability, which is desirable given the delivery schedule of the GUARDRAIL Common Sensor, the availability of the TR-1 aircraft, and the pressing need to advance follow-on forces attack (FOFA) capabilities.

The conferees recommend an authorization of $19.07 million for this program.

Army data distribution system

The amended budget request contained $75.5 million for procurement of Army Data Distribution System (ADDS) equipment.

The House bill would authorize $17.5 million for this program.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $54.5 million for procurement of ADDS equipment. The $20 million reduction is made without prejudice and the conferees continue to support this program.

Night vision equipment

The amended budget request contained $55.1 million for AN/PVS-7 ground night vision goggles and $23.56 million for AN/AVS-6 aviator night vision systems.

The House bill would add $38 million for AN/AVS-6 aviator night vision goggles and would approve the budget request for ground night vision goggles.

The Senate amendment would add $83 million for the AN-PVS-7 ground night vision goggles and would approve the request for AN/AVS-6 aviator night vision goggles.

The conferees recommend authorization of the budget request for aviation night vision goggles, and recommend an additional authorization of $83 million for AN/PVS-7 ground night vision goggles to ensure that the Army can fulfill its contractual obligations to fund the fifth year of awarded multiyear contracts in fiscal year 1989. Although initial deliveries under these contracts were delayed, it now appears that contractors may be delivering night vision goggles in compliance with their current contract delivery schedules.

The conferees direct, however, that the additional $83 million not be obligated until the Secretary of the Army certifies to the Congress that obligation of these funds is required based on actual contractor performance in meeting all contractually required delivery schedules and performance specifications within total contract costs.

If such a certification cannot be made, the Secretary of the Army may obligate up to $38 million of these additional funds to purchase AN/AVS-6 aviation night vision goggles. Prior to obligating these additional funds for the AN/AVS-6 goggles, the Secretary shall notify the Committees on Armed Services of the Senate and House of Representatives.

Army tactical communications

The House report (H. Rept. 100-563) expressed concern over the Army's tactical communication and automation programs, and directed the Army to provide an analysis of total battlefield voice and data requirements by June 30, 1988.

The Senate report (S. Rept. 100-326) contained no similar direction.

The conferees concur that the Army should outline its requirements and plans,

and direct that the report be submitted with the fiscal year 1990 budget request.

Army trucks

The House report (H. Rept. 100-563) directed the Secretary of the Army to provide to the Committees on Armed Services of the Senate and House of Representatives a master plan for modernizing the truck fleet over the next decade.

The Senate report (S. Rept. 100-326) contained no similar direction.

The Senate recedes. The conferees endorse the direction included in the House report.

Logistics support vessels

In fiscal year 1987, the Army received authorization of $40 million to procure four logistics support vessels. The Army requires one additional vessel.

The House bill would authorize one additional vessel, but would authorize no funds for that purpose.

The Senate amendment would authorize the Army to procure a fifth vessel within the funds originally authorized and appropriated.

The conferees support an authorization of an additional logistics support vessel and direct that it be procured with prior-year funds that are not required for their original purpose. The Army is expected to submit a reprogramming through normal procedures.

AIRCRAFT PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $8,980 million for Navy aircraft procurement. The House bill would authorize $9,271.5 million. The Senate amendment would authorize $9,076.2 million. The conferees recommend authorization of $9,259.3 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

EA-6B jammer aircraft

The amended budget request contained $473.557 for procurement of nine EA-6B jammer aircraft and $18.331 million for advance procurement of nine aircraft in fiscal year 1990.

The House bill would authorize $399.116 million for these aircraft, a reduction of $74.441 million. The House bill would make this reduction on the basis that the Navy had requested excess funds for the Advanced Capability upgrade.

The Senate amendment would authorize $534.257 million for procurement of 12 aircraft and $24.331 million for advance procurement for 12 aircraft in fiscal year 1990.

The conferees recommend an authorization of $467.557 million and $24.331 million for advance procurement for 12 EA-6B aircraft in fiscal year 1990. The conferees direct the Navy to procure not less than 12 aircraft with the funds appropriated pursuant to authorization.

F-14 modification program

The amended budget request contained no funds to initiate modification of existing F-14 aircraft into the new "D" model configuration.

The Senate amendment would authorize $29.5 million for advance procurement of six F-14D upgrade kits. The Senate report (S. Rept. 100-326) directs the Navy to incorporate a significant remanufacture program in its plans for the Five Year Defense Program for fiscal years 1990 to 1994.

The House bill contained no similar provision.

The conferees recommend authorization of $29.5 million for six upgrade kits, and direct the Navy to provide an acquisition strategy to the Committees on Armed Services of the Senate and House of Representatives for the long-term modernization of the existing fleet of F-14 aircraft.

F-18 aircraft/reconnaissance modifications

The amended budget request contained $2,287.3 million to procure 72 F-18 aircraft, including $82.9 million to purchase equipment and modify aircraft to function as reconnaissance aircraft.

The House bill would reduce the request by $49.7 million, based on a restructuring of the reconnaissance program, but would provide an increase of $99.7 million to procure 12 additional aircraft.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $2,494.3 million, which is sufficient to procure 84 aircraft in fiscal year 1989 and to proceed with the reconnaissance variant at the requested level. The conferees concur with the concern expressed in the Senate report (S. Rept. 100-326) that serious attention must be devoted to Navy aviation in future budget submissions. The conferees also note that budget data concerning the reconnaissance program was inconsistent and incomplete, and not supportive of a well-planned and stable acquisition strategy. The conferees expect that future budget submissions for the F-18 reconnaissance program will include complete and consistent cost estimates.

CH-53E helicopters

The amended budget request included $241.7 million for procurement of CH/MH-53E helicopters.

The House bill would reduce this request by $12.1 million while adding $9.642 million for advance procurement, a net reduction of $2.5 million from the program. The adjustment would allow the program to continue the planned procurement of four helicopters in fiscal year 1990.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

SH-60B helicopters (Seahawk)

The amended budget request included $117.9 million for procurement of 6 SH-60B helicopters (which, combined with the procurement of SH-60F helicopters, would allow for a production run of 24 SH-60 series helicopters in fiscal year 1989).

The House bill would reduce this amount by $5.3 million.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

SH-60F helicopter (CV ASW)

The amended budget request included $344.1 million for procurement of 18 SH-60F helicopters.

The House bill would reduce this amount by $51.9 million.

The Senate amendment would authorize the amount in the budget request.

The House authorization would continue the previous year's authorization for this aircraft, with an additional amount for inflation. However, the fiscal year 1989 request includes funding for two training systems that must be procured this year under the terms of the fixed-price procurement contract.

The House recedes, with the understanding that the increased funding in fiscal year 1989 will be used to procure the trainers.

TACAMO

The amended budget request contained $334.476 million for 7 E-6A TACAMO aircraft.

The House bill would authorize $105.841 million for 3 aircraft and would authorize $78.695 million in advance procurement for fiscal year 1990.

The Senate amendment would authorize the requested amount.

The conferees agree to authorize the amount requested for this program and stress that this authorization marks the completion of TACAMO procurement.

P-3 series modifications

The amended budget request included $131.9 million for modifications to the P-3 series aircraft, consisting of procurement of Update III kits for P-3Cs.

The House bill would add $50 million to the request for procurement of additional Update III kits.

The Senate amendment contained no similar provision.

The House recedes.

Navy common electronic countermeasures equipment

The amended budget request contained $35.335 million for Navy common electronic countermeasures (ECM) equipment.

The House bill would authorize an additional $50 million for this purpose.

The Senate amendment would authorize the requested amount.

The conferees recommend authorization of an additional $30 million for a total of $65.335 million for common ECM equipment. The Secretary of the Navy is directed to utilize the additional funding as required to reduce existing shortfalls in common ECM equipment.

WEAPONS PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $6,271.8 million for Navy weapons procurement. The House bill would authorize $5,823.8 million. The Senate amendment would authorize $6,193.1 million. The conferees recommend authorization of $5,972.2 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Advanced medium range air to air missile

The amended budget request contained $59.8 million for procurement of 50 Advanced Medium Range Air to Air Missiles (AMRAAM).

The Senate amendment would authorize the amount requested.

The House bill would provide no authorization for Navy AMRAAMs.

The conferees agreed to provide $35 million for the procurement of 30 AMRAAMs for the Navy. The conferees direct that these missiles be utilized for conducting Navy operational test and evaluation.

AIM-54C Phoenix missile

The amended budget request contained $465.3 million to procure 560 Phoenix missiles.

The House bill would authorize $325.8 million to procure 350 missiles.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $405.3 million to procure 450 missiles. The conferees understand that this authorization is sufficient to maintain the competition established in the program.

Further, the conferees direct the Navy to install production FSU-10A fuzes on all AIM-54C Phoenix missiles stored at the contractor's facility as of June 1, 1988, before increasing production beyond the fiscal year 1988 level.

Penguin

The conferees agree that the reduction for procurement of Penguin missiles is taken without prejudice and for budgetary reasons in recognization of the program's contracting schedule for fiscal year 1989 procurements.

Vertical launched anti-submarine rocket program

The amended budget request included $17.6 million for procurement and $30.3 million for RDT&E for the Vertical Launched ASROC (VLA) program.

The House bill would authorize the requested amounts, and the House report (H. Rept. 100-563) directed the Navy to proceed with initial production of the MK-46 version of VLA as soon as possible.

The Senate amendment would authorize the requested amounts and the Senate report (S. Rept. 100-326) noted that the Department of Defense was considering cancellation of the program in favor of making SEA LANCE a surface as well as a sub-surface launched weapon. The Senate report directed the Department of Defense to report on its decision promptly.

The conferees affirm the language contained in the House report and agree that the long-term strategy for procurement of a quick reaction, long-range ASW weapon should be based on a system common to surface ships and submarines. However, to avoid having many ships with launchers empty of quick reaction ASW weapons for at least several years, the conferees believe that the production of VLA armed with MK 46 torpedoes is essential to the near-term antisubmarine warfighting ability of the fleet.

Expendable mobile antisubmarine warfare training target

The conferees agree that accelerated availability of the Expendable Mobile Antisubmarine Warfare Training Target (EMATT) would provide important training in the critical area of antisubmarine warfare. Accordingly, the conferees recommend authorization of $1 million and invite the Navy to reprogram from authorization made available elsewhere up to an additional $6 million to begin procurement of EMATT.

SHIPBUILDING AND CONVERSION, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $9,130.1 million for Navy shipbuilding and conversion. The House bill would authorize $9,126.1 million. The Senate amendment would authorize $9,056.1 million. The conferees recommend authorization of $9,056.1 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

FF 1052 service life extension program

The conferees affirm the position noted in the Senate report (S. Rept. 100-326) regarding planning limitations for any contemplated service life extension (SLEP) of the FF-1052 class frigates.

OTHER PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $4,789.7 million for other procurement, Navy. The House bill would authorize $5,213.4 million. The Senate amendment would authorize $4,836.2 million. The conferees recommend authorization of $4,817.8 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Sealift support equipment

The amended budget request included $21.8 million for sealift support equipment.

The House bill would add $12 million to the request.

The Senate amendment would add $8 million to the request.

The House recedes.

The conferees remain very supportive of the use of seasheds and adapters and their continued procurement from small businesses by competitive dual-sourcing through the existing small business program under a stable production.

Reduction in ships support equipment

The conferees agree to a reduction of $15 million in the amended budget request for ships support equipment. The conferees are aware that problems have been identified in fully executing certain of the programs contained in the amended budget request. Accordingly, the conferees direct that this reduction be taken from the following programs: other propulsion equipment; other pumps, electrically suspended gyro navigator; submarine batteries; Hull, Machinery and Electrical items under $2 million; and diving and salvage equipment.

AN/SQR-17A acoustic processor

The amended budget request did not include a request for AN/SQR-17A acoustic processors.

The House bill would add $10 million for this equipment.

The Senate amendment contained a provision (sec. 111(e)) that would proscribe further procurement of this equipment, with accompanying language indicating that the General Accounting Office had concluded that more equipment had been procured in previous years than the Navy required.

The House recedes with an amendment whereby the Senate proscription on procurement would be deleted in favor of a program review by the Secretary of the Navy.

The conferees agree that in light of the report by the General Accounting Office, the Secretary of the Navy should review requirements and develop a stable procurement plan for the AN/SQR-17A, if it is neeeded, in particular for the Mobile Inshore Undersea Warfare units of the Naval Reserve. Accordingly, the conferees direct the Secretary of the Navy to submit the results of the Secretary's review of this program and to request funds for such a plan, if deemed necessary, in the fiscal year 1990 budget request.

AN/SQR-18 towed array sonar

The amended budget request contained $0.3 million for the AN/SQR-18 towed array sonar.

The House bill would add $13.9 million for this anti-submarine warfare equipment.

The Senate amendment contained no similar provision.

The Senate recedes.

SIDEKICK electronic countermeasures equipment

The amended budget request did not include a request for an electronic countermeasures system nicknamed SIDEKICK. SIDEKICK provides an active countermeasures capacity to the SLQ-32(V)2 electronic warfare equipment.

The Senate amendment contained a provision (sec. 113) that would authorize $54 million for procurement of 36 SIDEKICK units.

The House bill would not authorize funds for this program.

The House recedes with an amendment.

The conferees agree that the procurement of SIDEKICK will significantly enhance the electronic countermeasures capability of ships so equipped. Accordingly, the conferees recommend authorization of $9 million for the initial procurement, directing the Secretary of the Navy to establish a stable program for procurement based on a firm installation schedule. The conferees also invite the Navy to reprogram funds for the SIDEKICK program up to the level that can be obligated in fiscal year 1989.

Sonobuoys

The amended budget request included $103.4 million for procurement of sonobuoys.

The House bill would authorize a general increase of $56.7 million for sonobuoys.

The Senate amendment would authorize a general increase of $30 million, for a total sonobuoy procurement of $133.4 milllion.

The House recedes.

General purpose bombs

The amended budget request contained $31.3 million to procure general purpose bombs.

The House bill would authorize an increase of $75 million, for a total of $106.3 million, but would reserve $5 million for the DSU-30/B target detecting device.

The Senate amendment would authorize the requested amount.

The conferees recommend an authorization of $56.3 million, including $5 million for the DSU-30/B target detecting device.

Rockeye bombs

The amended budget request contained $0.9 million for Rockeye munitions.

The House bill would authorize $16.9 million, including $1.5 million to be used for follow-on testing of an engineering change proposal to reload existing Rockeye munitions with a dual-purpose insensitive PBX bomblet refuzed with the FMU-140 fuze.

The Senate amendment would authorize the budget request.

The conferees recommend an authorization of $16.9 million, and direct that $1.5 million be used for follow-on testing consistent with the House direction.

MK-92 coherent receiver-transmitter

The amended budget request did not include a request for the MK 92 coherent receiver-transmitter (CORT) system.

The House bill would add $78 million for this equipment.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees recommend authorization of $50.1 million for the MK 92 CORT system.

Reduction in ordnance support equipment

The House bill contained a reduction of $27.9 million in ordnance support equipment. The Senate amendment did not contain a similar request.

The conferees agree to a reduction of $35 million in ship support equipment. The conferees are aware that problems have been identified in executing fully certain of the programs contained in the amended budget submission. Accordingly, the conferees direct that this reduction be taken from the following programs: 5"/54 gun ammunition and 16-inch ammunition.

Trucks

The amended budget request included $29.4 million for 1,858 trucks for the Navy.

The House bill would reduce the request by $10.4 million and 658 trucks.

The Senate amendment would authorize the amount requested.

The Senate recedes.

Amphibious equipment

The conferees affirm the language in the House report (H. Rept. 100-563) and the Senate report (S. Rept. 100-326) concerning the Offshore Petroleum Discharge System.

Ship system trainers

The amended budget request included $4.7 million for procurement of ship system trainers.

The House bill would add $11.9 million to the request for procurement of 19F fire training systems designed to train Navy personnel to fight fires onboard ships.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

PROCUREMENT, MARINE CORPS

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $1,157.3 million for Marine Corps procurement. The House bill would authorize $1,330.3 million. The Senate amendment would authorize $1,167.3 million. The conferees recommend authorization of $1,297.3 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

M1A1 main battle tanks

The amended budget request included $60.4 million for procurement of 14 M1A1 tanks.

The House bill would authorize an increase of $117 million for 52 additional tanks.

The Senate amendment would authorize the amount requested.

The Senate recedes with an amendment.

The conferees recommend authorization of $164.4 million for 66 M1A1 main battle tanks for the Marine Corps, an increase of $104 million for 52 tanks to the request.

M-4 carbine

The amended budget request included $1 million for 1,500 M-4 carbines.

The House bill would deny authorization for carbines.

The Senate amendment would authorize the amount requested.

The Senate recedes.

MK-19 40mm machine gun

The amended budget request did not include funds for MK-19 40mm machine guns.

The House bill would reflect the budget request.

The Senate amendment would authorize $5 million for MK-19 40mm machine guns.

The House recedes.

Logistics vehicle system

The amended budget request included $5.8 million for Logistics Vehicle Systems. The House bill provided an increase of $20 million to the request.

The Senate amendment contained no similar provision.

The Senate recedes.

AIRCRAFT PROCUREMENT, AIR FORCE

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $16,630 million for Air Force aircraft procurement. The House bill would authorize $16,413.8 million. The Senate amendment would authorize $16,256.1 million. The conferees recommend authorization of $16,125 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

F-16 aircraft

The amended budget request contained $2,853 million for 180 F-16 aircraft.

The Senate amendment would reduce the request by $351 million and would deny the authorization request for Advanced Self Protection Jammer (ASPJ) procurement.

The House bill would reduce the request by $50 million due to a repricing of publications and technical data materials.

The conferees agree to provide an authorization of $2,703 million for 180 F-16 aircraft, a reduction of $150 million. The conferees direct that the reduction be applied either to reduce the scope of the ASPJ program or to take advantage of the repricing of publications and technical data materials.

F-16 advanced procurement

The amended budget request contained $588.7 million for advance procurement for the F-16 aircraft. This request was based on Air Force plans to procure 630 aircraft over a four-year period, at a rate of 180 aircraft in fiscal years 1990 and 1991, 150 aircraft in fiscal year 1992, and 120 aircraft in fiscal year 1993.

Subsequent to submission of the multiyear request, the conferees have learned of revised plans to procure not more than 150 aircraft per year. The conferees understand that the advance procurement request for the multiyear contract can be reduced by $134 million, which provides sufficient funds to provide a multiyear contract at 150 aircraft in fiscal years 1990, 1991, and 1992, and 120 aircraft in fiscal year 1993.

Consequently, the conferees recommend an authorization of $454.7 million for advance procurement for F-16 aircraft. The conferees expect the Air Force to proceed with a multiyear contract at the reduced aircraft levels, consistent with the restrictions contained in section 107.

C-117 airlifter

The amended budget request included $970.4 million for procurement of four C-17 aircraft.

The House bill would reduce the requested amount by $4 million.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

The conferees affirm the language in the Senate report (S. Rept. 100-326) regarding future C-17 production rates and the associated report.

Trainer aircraft

The amended budget request contained $12.9 million for modification of the T/AT-37 trainer aircraft, and $9.6 million to initiate procurement of the Tanker Transport Training System (TTTS) program.

The House bill would deny authorization for both programs.

The Senate amendment would authorize the requested amounts.

The conferees agreed to provide the requested funding for both programs; however, they are concerned with Air Force plans for trainer aircraft as outlined in the April 1988 U.S. Air Force Trainer Masterplan. The conferees agreed on the requirement for the Service Life Extension Program (SLEP) of T-37 aircraft, and on the Air Force plans to initiate a dual-track training program for tanker and transport pilots; however, the conferees are not convinced that the Air Force plans with respect to T-37 and T-38 replacement aircraft are prudent.

The conferees agreed that the masterplan with respect to Reconnaissance-Attack-Fighter-Training System (RAFTS) and Primary Aircraft Training System (PATS) may be the most suitable option for the Air Force, but not necessarily the best option when all Department of Defense trainer aircraft requirements and programs are considered.

For example, the masterplan begins a PATS (T-37) replacement aircraft program in 1994, five to six years prior to the Navy requiring a T-34C replacement, and begins a RAFTS (T-38) replacement program in 2001, five to six years after the Navy's T-45 production line discontinues. The conferees note that by reversing the two programs' acquisition strategy, the Air Force could begin a RAFTS replacement program in 1994 and procure T-45 variants toward the end of the production line, thus taking advantage of the associated cost savings for continuing a warm production line. Additionally, the Air Force could co-develop a PATS aircraft in 2001 with the Navy for replacement of T-34C and T-37 aircraft. The masterplan did not consider these options, which would ultimately lead to the Navy and Air Force having similar primary and advanced trainer aircraft.

The conferees reiterate the importance of striving for similar training aircraft for the Navy and Air Force in future years, particularly since both the Navy and Air Force have decided to co-develop the ATA and ATF aircraft, which will cause training objectives to be similar, if not identical, in future years.

The conferees direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives outlining the Department's plans for future trainer aircraft for the Navy and the Air Force. It is imperative that this report, to the maximum extent possible, outline a plan that will lead to the Navy and Air Force procuring similar trainer aircraft and take advantage of the associated cost savings of joint-Service procurement and development; and, at a minimum, consider the options outlined above for the follow-on RAFTS and PATS aircraft.

The conferees request that the report be received by February 15, 1989 in order to review the Department's plans for trainer aircraft prior to reviewing the fiscal year 1990 request for TTTS, which will have a significant increase in funding.

KC-134 re-engining

The amended budget request contained $604.3 million for 36 aircraft in the KC-135 re-engining program.

The Congress has for several years insisted that the conversion rate be sustained at or about 50 aircraft per year due to the significant savings thereby achieved and the pressing need for improvements in tanker lift capacity for conventional and strategic missions. The Congress also has consistently expressed interest in a multi-year procurement for this program. The Department of Defense, however, consistently underfunds this much-needed program.

The House bill would authorize $173 million more than the request, which would convert an additional 11 aircraft.

The Senate amendment, purely for budgetary reasons, would authorize only $63 million more than the request, which is sufficient to convert 4 more aircraft.

The conferees reluctantly agree to authorize a total of $667.3 million to convert 40 aircraft, consistent with the Senate amendment. The conferees urge the Department to include funds in the budget request for fiscal years 1990 and 1991 for a higher conversion rate.

The Senate report (S. Rept. 100-326) included a requirement for a report on the priority assigned to re-engining KC-135 RDT&E aircraft. The conferees endorse this reporting requirement.

MISSILE PROCUREMENT, AIR FORCE

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $8,158 million for Air Force missile procurement. The House bill would authorize $8,062.1 million. The Senate amendment would authorize $8,011.4 million. The conferees recommend authorization of $7,716.5 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Air Force missile modifications

The House bill would authorize an additional $15 million for Shrike, $55 million for AIM-7, $100 million for AIM-9, and $15 million for Advanced Medium Range Air to Air Missile (AMRAAM) modifications.

The Senate amendment would provide no additional authorization for these modification programs.

The conferees agree to recommend authorization of $15 million for Shrike and $55 million for AIM-7 missile modifications. The funds may be utilized to modify and equip existing Air Force missiles.

Space boosters

With two exceptions, the conferees endorse the section in the Senate report (S. Rept. 100-326) pertaining to the Space Launch Recovery program, including the guidance for future satellite research and development programs and the requirement for a report on future use by the Department of Defense of the space shuttle and associated facilities. Regarding the two exceptions, as noted elsewhere in this statement of managers, the conferees approved the Navy's multi-year procurement request as proposed for the UHF Follow-on Satellite; the second exception concerns space boosters procurement, which is addressed below.

The amended budget request contained $275.055 million (including $20.2 million in advance procurement and less $28.2 million in advance procurement from fiscal year 1988) for the Medium Launch Vehicle (MLV) II.

The House bill would authorize the requested amount.

The Senate amendment would reduce the request by $50 million in anticipation of contract savings.

The amended budget request contained $376.206 million (including $130 million in advance procurement and less $293.6 million in advance procurement from fiscal year 1988) for other space boosters.

The House bill would authorize the requested amount.

The Senate amendment would reduce the request by $10 million.

The conferees agree to reduce the MLV II request by $28.1 million ($16.1 million in advance procurement for fiscal years 1988 and 1989), and the Space Boosters request by $31.9 million. Should savings not be realized sufficient to cover these reductions, the conferees invite reprogramming requests to rectify the shortfall.

Additionally, the conferees reiterate their concern about the large and rising costs of the Space Launch Recovery program resulting from the *Challenger* space shuttle disaster. As a result of that accident, NASA is unable to sustain the commitments made to the Department of Defense for launching national security payloads. Despite DOD replacement of the lost orbiter, the shuttle's availability has been delayed, the flight rate will drop from 24 to about 14 per year, and payload performance will drop dramatically due to safety and other concerns.

The costs of replacing this lost space launch capability are being overwhelmingly borne, not by NASA, but by the Department of Defense. In view of the fact that this is a national problem, and that the *Challenger* disaster demonstrated conclusively the folly of relying on a single system for access to space, DOD will be forced to expend some $12 billion dollars by 1994 to re-create an entire space launch infrastructure based on multiple expendable space boosters. At the same time, the large prior investment by DOD in the shuttle is now very much in doubt, including a $3.5 billion facility at Vandenberg for launching the shuttle into polar orbit. Because of post-*Challenger* payload restrictions, this facility is unlikely to be used by DOD.

In addition to these unforeseen liabilities and potentially wasted investments, DOD has assumed the overwhelming share of the burden of developing the next-generation space launch systems and technology. Through the mid-to-late 1990s, DOD plans to expend over $20 billion on the Advanced Launch System and the National Aerospace Plane program alone. For its part, NASA hopes to be able to afford $1.5 billion for its own shuttle-derived unmanned heavy-lift vehicle. The conferees are concerned about the affordability and realism of these plans and the funding responsibilities assumed respectively by DOD and NASA. These and related concerns were expressed by the conferees in the fiscal year 1988 Continuing Appropriations Act.

The statement of managers on the fiscal year 1988 Continuing Appropriations Act also adopted the Senate Appropriations Committee's requirement for the President to submit a comprehensive "Space Recovery Program reconciling the separate DOD and NASA programs to meet present and future space launch requirements," and which includes "a comprehensive explanation of how all the separate, unmanned and manned launch vehicles, payloads, and launch facilities proposed by DOD and NASA fit into this overall plan." The conferees underscore the importance of this plan, which has not been provided to the Congress, and urge its earliest submission to the Congress.

OTHER PROCUREMENT, AIR FORCE

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $8,393.5 million for Air Force other procurement. The House bill would authorize $8,064.4 million. The Senate amendment would authorize $8,318 million. The conferees recommend authorization of $8,196.8 million, as delineated in the following table. Unless noted explicityly in the statement of managers, all changes are made without prejudice.

Early warning air defense radars

The amended budget request included $203.173 million for the North Warning Radar system, which will replace the Distant Early Warning system and complement the Over-the-Horizon Backscatter radar (OTH-B) in Canada's northern reaches.

The House bill would reduce the request by $10 million.

The Senate amendment would authorize the requested amount.

The House recedes.

The amended budget request included $161.038 million for the OTH-B radar.

The House bill would deny the request without prejudice, citing concerns about the lack of information on recent tests, software problems, configuration instability across the various sector, and the site-specific environmental review process. The House bill would also defer the request for $11.7 million in spares and $17.5 million for military construction for the Alaska site.

The Senate amendment would authorize the requested amounts.

The conferees acknowledge the concerns expressed in the House bill, but believe that recent information on test results is encouraging and that the software upgrades appear achievable. Accordingly, the conferees approve the request for spares and military construction, and agree to an authorization of $145 million for OTH-B procurement, a reduction of $16.038 million levied for budgetary reasons.

Weapon Storage and Security system

The amended budget request included $36.847 million for the Weapon Storage and Security System (WSSS).

The House bill would authorize $18 million of the requested amount.

The Senate amendment would authorize the requested amount.

The conferees agree to an authorization of $32.847 million for WSSS, noting the importance of the system in the post-INF period, and the progress that has been made in the past year in securing accelerated approval of NATO financing. Further discussion of this program is contained in the classified annex of the statement of managers.

PROCUREMENT, DEFENSE AGENCIES

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $1,216.1 million for procurement, Defense Agencies. The House bill would authorize $1,150.5 million. The Senate amendment would authorize $1,207.9 million. The conferees recommend authorization of $1,205.1 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Remotely piloted vehicle

The amended budget request contained $65.6 million for procurement of Remotely Piloted Vehicles (RPV).

The House bill would deny the amount requested for this program.

The Senate amendment would authorize the requested amount.

The conferees received a draft Department of Defense Master Plan for Unmanned Aerial Vehicles (UAV) during the conference that is supposed to address the management of and expenditures for RPVs in fiscal year 1989. The conferees believe that a viable near-term and far-term RPV program could evolve from the Master Plan.

The conferees agreed that resources required to pursue research, development, test, and evaluation initiatives are underfunded. Accordingly, a reduction of $15 million in the procurement account is recommended to offset the funding shortfall in the RDT&E account.

The conferees recommend authorization of $50.6 million in the procurement account for RPVs, which would respond to unified and specified commanders' near-term requirements and corps operations. Remaining funds may be applied to support of previously procured PIONEER RPV systems. The conferees do not support the procurement of additional PIONEER systems in the future and direct the number of systems to remain at nine.

A complete discussion of RPVs is contained in title II, RDT&E, of this statement of managers.

PROCUREMENT, NATIONAL GUARD AND RESERVE EQUIPMENT

OVERVIEW

The House bill would authorize $816.1 million for procurement, National Guard and Reserve equipment. The Senate amendment would authorize $443 million. The conferees recommend authorization of $843.5 million, as delineated in the following table.

C-26 aircraft reprogramming

The House report (H. Rept. 100-563) approved the Department of Defense reprogramming FY88-1PA that would allow for procurement of four additional C-26 aircraft as a result of the recent competitive program conducted by the Air National Guard.

The Senate report (S. Rept. 100-326) contained no similar language.

The conferees note that the reprogrammings in question are FY88-2PA and FY88-4PA. The conferees note that reprogramming FY88-4PA proposes to procure three additional aircraft at a unit cost of $4.3 million, although the approved program called for procuring six aircraft at a unit cost of $2.9 million. The conferees do not understand why the unit cost would increase when the procurement rate increases.

The conferees recommend approval of reprogrammings FY88-2PA and FY88-4PA, provided that the three additional aircraft in reprogramming FY88-4PA may not be procured at a unit cost greater than the unit cost provided for in the program base reflecting congressional action.

CHEMICAL DETERRENT PROGRAM

OVERVIEW

The amended budget request contained approximately $1 billion for chemical warfare and chemical biological defense programs. Of this amount, $636 million was requested for chemical defense efforts, $174.5 million was requested for chemical demilitarization, and $186.3 was requested for chemical weapons modernization.

Chemical weapons modernization

The amended budget request contained $186.3 million for the binary chemical weapons program. The conferees agrees to authorize a total of $77.4 million for the binary chemical weapons program: $60.9 million in procurement for the Bigeye chemical bomb and the 155 GB-2 million artillery round; and $16.5 million in research and development and construction for the Multiple Launch Rocket System (MLRS).

The following table summarizes the conferees' recommendation with respect to the binary munitions program:

BINARY MUNITIONS PROGRAM

[Fiscal year 1989, in millions of dollars]

Item	Request	House bill	Senate amendment	conference
155 GB–2 artillery round	66.0	1.2	66.0	45.9
Bigeye chemical bomb	99.4	0	99.4	15.0
Navy procurement	9.9	0	9.9	(5.0)
AF procurement	89.5	0	89.5	(10.0)
MLRS binary weapon	20.9	0	20.9	16.5
Pilot facility tooling	16.4	0	16.4	(12.0)
Facility construction[1]	4.5	0	4.5	(4.5)
Total	186.3	1.2	186.3	77.40

[1] The facility construction request is addressed in Division B, Military Construction Authorizations of this statement of managers.

Bigeye chemical bomb (sec. 116)

The Senate amendment would authorize the $99.4 million requested in fiscal year 1989 for the Bigeye chemical bomb, but would condition release of the funds on a certification by the Comptroller General that the Bigeye had met certain standards in the operational and developmental tests to be conducted in 1990.

The House bill would provide no authorization for fiscal year 1989. The bill would further stipulate that funds made available for Bigeye for fiscal years before fiscal year 1990 may not be spent except as required to procure 100 Bigeye bombs to be used to conduct the operational and developmental tests scheduled to take place in 1990.

The conferees agree that the Department of Defense may use prior-year funds made available for Bigeye for the procurement of production-configured Bigeye bombs to be used only for the purpose of conducting the follow-on operational and developmental testing scheduled for 1990. The procurement of Bigeye bombs for any other purpose is prohibited. The conferees agree that any prior-year funds not used to procure Bigeye bombs for the test program may be used to maintain program continuity, but none of the prior-year funds may be used for low-rate initial production.

The conferees agree to prohibit low rate initial production and the procurement of any additional Bigeye bombs until the Director of Operational Test and Evaluation of the Department of Defense and the Comptroller General of the United States have submitted reports to Congress that certify that criteria set forth in section 116 for the follow-on tests have been met. The conferees would invite the Joint Chiefs of Staff, in conjunction with the fiscal year 1990 budget submission, to reaffirm the military requirement for the Bigeye bomb.

The conferees recognize the importance of maintaining program continuity through the period when the follow-on tests are being conducted and evaluated. The conferees have provided $15 million for this purpose in fiscal year 1989. Of this sum, $10 million is provided to the Air Force and $5 million to the Navy. These funds are to be used only for the purpose of maintaining program continuity, maintaining the subcontractor base and procuring long-lead items such as piece parts and components. The use of these funds for low-rate initial production of final assembly of Bigeye bombs is expressly prohibited. For the purpose of section 116, final assembly is defined as filling the bomb body with the liquid binary reactant QL.

155mm GB-2 binary chemical artillery round

The amended budget request contained $66 million for the 155mm GB-2 artillery round.

The House bill would authorize $1.2 million for the Army to procure only long-lead items for the artillery round.

The Senate amendment would authorize the requested amount.

The conferees recommend an authorization of $45.9 million for production of the 155mm GB-2 binary chemical artillery round. This level of authorization ensures that production will not be interrupted between the fiscal year 1989 program and the fiscal year 1990 program. This reduction from the budget request reflects a realignment of the program schedule.

Multiple launch rocket system binary chemical weapon

The amended budget request contained $16.4 million for equipment for the Multiple Launch Rocket System (MLRS) binary chemical weapon injector fill/close facility at Pine Bluff Arsenal. A related $4.5 million military construction project was also in the budget request.

The House bill would not authorize the program.

The Senate amendment would authorize the requested amount.

The conferees recommend authorization of $12 million in research, development and test funding for a pilot MLRS binary injector fill/close facility and $4.5 million for related construction.

Chemical demilitarization

The amended budget request contained $162.9 million (including $74 million in procurement, $88.2 million in operation and maintenance, and $0.7 million in research, development, test and evaluation) to support the chemical demilitarization program. The Department of Defense subsequently revised the request to require $174.5 million to implement the program described in the Chemical Stockpile Disposal Plan that was delivered to the Congress on March 15, 1988.

The House bill would authorize $179.5 million for this program. The House report (H. Rept. 100-563) specified that the additional $5 million would support an independent safety review by the National Academy of Sciences, as well as support the implementation of any safety items resulting from this review. The House bill contained a provision (sec. 931) that would prevent equipment prove out and systems test (referred to as "systemization" by the Department of Defense) at any continental United States chemical demilitarization facility until the operational verification of destruction technology at Johnston Atoll was successfully completed. This section would also require the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives upon successful completion of the Johnston Atoll operational equipment prove out. Section 931 would also require the Secretary to report if the Secretary determines that there will be a delay in meeting the December 31, 1990 completion of the Johnston Atoll operational verification, or if the Secretary determines that there will be a delay in meeting the April 30, 1997 stockpile elimination deadline.

The Senate amendment would authorize $174.5 million. The Senate amendment contained a provision (sec. 122) that would require the Secretary to submit a report only if the Secretary determined that there will be a delay in the April 30, 1997 stockpile elimination deadline.

Both the House bill (sec. 931) and the Senate amendment (sec. 122) contained provisions that would amend the stockpile elimination deadline of section 1412 of the fiscal year 1986 Department of Defense Authorization Act (Public Law 99-145) from September 30, 1994 to April 30, 1997. This amended deadline was requested by the Department of Defense.

The Senate recedes with an amendment. The conferees recommend authorization of $179.5 million, which includes an additional $5 million of safety. The conferees agree in section 118 to extend the stockpile elimination deadline to April 30, 1997. The conferees also agree to clarify that equipment prove-out and tests could be conducted at the Chemical Agent Munition Disposal System (including the cryofracture pilot facility) in Tooele, Utah before operational verification of the destruction technology at Johnston Atoll. Section 118 requires reports from the Secretary of Defense when the equipment and facility at Johnston Atoll are proven out, and if the Secretary determines that there will be a delay in meeting the December 30, 1990 completion of operational verification at Johnston Atoll. Section 118 also requires a report from the Secretary of Defense if he determines that there will be a delay in meeting the April 30, 1997 stockpile elimination deadline.

Chemical weapons convention compliance monitoring program (sec. 208)

The Senate amendment contained a provision (sec. 237) that would direct that $6.8 million be made available to conduct a program to develop and demonstrate compliance monitoring capabilities in support of the Convention on the Prohibition of Chemical Weapons proposed by the United States at the Conference on Disarmament.

The House bill contained no similar provision.

The House recedes.

Legislative Provisions

LEGISLATIVE PROVISIONS ADOPTED

Authorization for multiyear contracts (sec. 107)

The amended budget request contained authority to enter into multiyear contracts for the procurement of the following seven systems in fiscal year 1989:

CH-47 helicopter modification
Multiple launch rocket system
AV-8B aircraft
UHF follow-on satellite system
Defense meteorological satellite system
F-16 C/D aircraft
H-60 series competitive engine

The House bill would authorize the Department of Defense to enter into multiyear contracts for all programs except for the AV-8B aircraft and the UHF follow-on satellite system. In addition, the House bill would authorize the Department to enter into multiyear contracts for the AH-64 helicopter and the M1 tank.

The Senate amendment would authorize multiyear contracts for all of the programs requested, except for the UHF follow-on satellite system. In addition, the Senate amendment would authorize multiyear contracts for the AH-64 helicopter and the M1 tank.

The Senate recedes with an amendment.

The conferees recommend that the Department be authorized to enter into multiyear contracts for the following programs:

CH-47 helicopter modification
Multiple launch rocket system
AV-8B aircraft
UHF follow-on satellite system
Defense meteorological satellite system
F-16 C/D aircraft
T-700 series helicopter engine
AH-64 helicopters
M1 series tanks

Despite the fact that both the House bill and the Senate amendment did not include authorization of the UHF follow-on satellite system, the conferees received information subsequent to action in the Senate which supports authorization of the multiyear procurement request. The conferees are persuaded that the Navy has structured an innovative acquisition strategy that could serve as a model for use by other Departments. The conferees reserve judgment, however, on certain aspects of the procurement strategy—notably, acceptance of satellites on orbit. The conferees consider this novel acquisition strategy an experiment that, if successful, could serve as a model for other satellite procurement. The conferees urge other Military Departments to monitor the success of this approach.

The conferees endorse the direction outlined in the House Report (H. Rept. 100-563) concerning the feasibility of adding EHF telemetry and communications to the UHF follow-on satellite program, but caution that any such initiative should not disrupt the award or execution of the multiyear contract. The conferees also endorse the concerns expressed in the Senate report (S. Rept. 100-326) that modifications to production satellites must be considered carefully only as part of a formal block change process, and not on an ad hoc satellite-to-satellite basis.

The House bill would direct that multiyear contracts contain negotiated priced options for varying quantities to be procured over the period of the contract. The purpose of the provision would be to provide flexibility in the execution of multiyear contracts in the presence of budget limitations in future years. The conferees believe, however, that one of the key advantages of multiyear contracts is the stability that they introduce for contractors and for the Department. The conferees strongly support multiyear contracts and do not wish to weaken their utility to improve acquisition procedures. Consequently, the conferees recommended a provision that would permit the Secretary to instruct the Departments to incorporate negotiated priced options if he judges that such a course would enhance the multiyear procurement process.

The conferees direct that before the Department enter into multiyear contracts for the AH-64 helicopter and the M1 series tank, the Secretary of Defense submit to the Congress the total force acquisition plan for Army aviation and anti-armor systems, and that the Secretary certify that he approves those acquisition plans.

The conferees note that the multiyear contracts for the AH-64 helicopter and the M1 tank apply to fiscal year 1990. The Department may include procurement authorized for fiscal year 1989 as an option in the multiyear contracts, however.

Air defense anti-tank system (sec. 111(a))

The amended budget request contained $85 million for procurement of the Army's air defense anti-tank system (ADATS) forward area air defense system (FAADS), and $23.8 million for advance procurement for fiscal year 1990.

The House bill would authorize the requested amounts, but included a provision (sec. 111) that would prohibit the obligation of fiscal year 1988 and 1989 funds appropriated pursuant to authorization until certain conditions are met. The House bill would also prohibit obligation of any procurement funds after fiscal year 1989 until operational testing demonstrates that the ADATS meets operational requirements.

The Senate amendment would deny the authorization for procurement in fiscal year 1989, but would authorize the requested funds for advance procurement in 1990.

The Senate recedes.

The conferees reiterate their concern that the FAADS program not repeat the acquisition errors made on the DIVAD air defense system. The conferees reserve their support for the program until the results of realistic operational testing are made available to the Congress. The conferees also note the high cost of the ADATS system and encourage the Army to explore alternatives for reducing procurement costs, should the system perform satisfactorily in the operational tests.

120mm mortars (sec. 111(b))

The amended budget request contained no funds for procurement of 120mm mortars.

The House bill would authorize $5 million to procure mortars and $35 million for 120mm mortar ammunition. The House bill also included a provision (sec. 111(c)) that would restrict the obligation of funds appropriated pursuant to authorization until the Secretary of Defense submits a mortar master plan, certifies that the five-year plan contains suficient funds to implement the master plan, and completes an "Arsenal Act analysis" cost-effectiveness analysis.

The Senate amendment would provide no authorization for 120mm mortars. The Senate report (S. Rept. 100-326) directed the Army to conduct an analysis of heavy mortar requirements.

The Senate recedes.

In light of the decision to proceed with the 120mm mortar, the Army is not required to conduct the mortar study directed in the Senate report.

155 millimeter ammunition (sec. 111(c))

The Senate amendment contained a provision (sec. 111) that would express the concern of Congress that the schedule for propellant production and load, assemble and pack of 155 millimeter M864 ammunition base burn assembly may not make it economical to carry out production of this assembly from two sources concurrently. This provision would also prohibit the Secretary from selecting a second source for production of the base burn assembly for this round until the program enters full-rate production and the Secretary reports to the Committees on Armed Services of the Senate and House of Representatives on the acquisition plan of the Secretary for the establishment of a second source for the program.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees agreed to a provision providing that if the low rate initial production contractor of the 155 millimeter M864 base burn assembly is willing to self-facilitize the production line for this item at a government-owned contractor-operated facility, the Army shall establish it and maintain it at a minimum production rate of 8,000 units per month with fiscal years 1989 and 1990 funds. This provision also requires the Secretary of the Army to estabish a second source competitively for the 155 millimeter M864 base burn assembly in fiscal year 1989. The conferees agreed that this provision will not delay any phase in the current production schedule of the M864 round.

AH-1W ground support equipment (sec. 112(a))

The Senate amendment contained a provision (sec. 111(d)) that would direct that $55 million be obligated only for procurement of ground support equipment for aircraft appropriated in prior year.

The House bill contained no similar provision.

The House recedes.

Trident II missile (sec. 112(b))

The Senate amendment contained a provision (sec. 111A(a)) that would authorize the requested level only for procurement of the Trident II missile. This provision would also prohibit reductions to Trident II missile procurement to achieve any undistributed reductions.

The House bill contained no similar provision.

The House recedes.

DDG-51 competition (sec. 112(c))

Both the House bill (sec. 112(b)) and the Senate amendment (sec. 111(A)(b)) included provisions that would affect the form of competition for construction of *Arleigh Burke* (DDG-51)-class guided missile destroyers.

The House bill would repeal a provision in the fiscal year 1988 Department of Defense Appropriations Act (Public Law 100-202) that requires full and open competition for ships authorized in fiscal year 1989.

The Senate amendment would require full and open competition unless the Secretary of the Navy certifies that the DDG-51 program would cost less if competition were limited to the two current shipyard contractors or that certain national seucrity needs took precedence.

The conferees agree that the Secretary of the Navy may limit competition to the two shipyard contractors currently building DDG-51 class ships if the Secretary certifies to the Committees on Armed Services of the Senate and House of Representatives that such limitation would likely result in lower total cost for the fiscal year 1989 DDG-51 shipbuilding program, or is necessary to meet the cost, schedule, or performance requirements of the Navy or such other requirements of the Navy as may be determined by the Secretary.

Use of prior year funds for DDG-51 destroyer program (sec. 112(d))

The Senate amendment contained a provision (sec. 111(f)) that would authorize the use of prior-year funds for the construction of one DDG-51 class guided missile destroyer.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees recommend that up to $730 million in amounts appropriated for fiscal year 1988 and prior years and remaining available for obligation be authorized to be transferred to the Navy shipbuilding and conversion program for fiscal year 1988, to the extent provided in appropriations acts and without extension of obligational authority, for the procurement of one DDG-51 class guided missile destroyer. This procurement authorization is separate from the procurements authorized for DDG-51 class destroyers in fiscal year 1989.

5-inch semi-active laser guided projectile (sec. 112(f))

The House bill contained a provision (sec. 102(d)(2)) that would direct completion of production qualification by three sources for 5-inch semi-active laser guided projectiles.

The Senate amendment contained an identical provision (sec. 111(A)(c)).

The conferees direct the Secretary of the Navy to identify the sources of funds to be used for the production qualification effort, making maximum use of funds remaining available for obligation for the five-inch laser guided projectile program. Should additional funds be necessary beyond those available, the Secretary shall identify the sources of such funds by means of a reprogramming. The conferees affirm the language concerning sources of funds for this program contained in the House report (H. Rept. 100-563).

C-130 refurbishment (sec. 113(a))

The House bill contained a provision (sec. 113) that would authorize the Secretary of the Air Force to use eight C-130 aircraft currently in long-term storage at Air Force plant #6, Marietta, Georgia, and direct that $35 million of aircraft modification funds shall be available only to refurbish such aircraft for operational use.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees recommend an increase of $17.5 million in Air Force aircraft modification funds to modify C-130 aircraft in order to refurbish and place in operational use the eight C-130 aircraft currently in long-term storage at Air Force plant #6.

SLC-7 launch facility (sec. 113(b))

The Senate amendment (sec. 112) would prohibit the obligation or expenditure of funds for the launch facility at Vandenberg Air Force Base (the SLC-7 launch facility) intended to launch the Titan IV expendable launch vehicle.

The House bill contained no similar provision.

The House recedes. The conferees agree to endorse the section in the Senate report (S. Rept. 100-326) relating to this facility (included in the discussion of the Space Launch Recovery program).

Infantry anti-tank weapon (sec. 114)

The House bill contained a provision (sec. 115) that would require the Secretary of the Army to select an interim infantry anti-tank weapon from among the Milan II, Bofors BILL and Dragon Generation III weapons, and the Director of Operational Test and Evaluation to report on the performance of these weapons in operational tests.

The Senate amendment contained a provision (sec. 211) that would repeal certain statutory provisions related to these weapons, and that would specify that no funds appropriated pursuant to authorization may be used for further research and development or procurement of either the Milan II or Bofors BILL weapons.

The Senate recedes with an amendment.

The conferees direct the Secretary of the Army to select an interim infantry anti-tank weapon from among the Milan II, Bofors BILL, Dragon Generation II and Generation III weapon systems. The conferees note that the selection is to identify for each weapon its tank-killing capability, gunner survivability, portability by field troops, countermeasures vulnerability, system reliability and safety.

The conferees direct that before any funds be used to procure an interim infantry anti-tank weapon, the Secretary shall conduct a Cost and Effectiveness Analysis (COEA). Such a COEA must be based on standards for effectiveness for an interim anti-tank weapon system, especially in light of the fact that the system must be capable of defeating modern Soviet tanks equipped with reactive armor. The COEA must emphasize tank-killing capability, gunner survivability, portability by field troops, countermeasures vulnerability, system reliability and safety, as well as cost.

Source selection authority for palletized loading system (sec. 115)

The House bill contained a provision (sec. 117) that would amend section 259(b) of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180), which required the Under Secretary of Defense for Acquisition to serve as source selection authority for the Army palletized loading system. The House provision would name the Acquisition Executive for the Department of the Navy as the source selection authority.

The Senate amendment contained no similar provision.

The Senate recedes.

Management of certain defense procurement programs (sec. 117)

The House bill contained a provision (sec. 119) that would direct the Department of Defense not to extend the duration of defense acquisition programs unless the Secretary of Defense submits a report justifying the extension. Further, the House provision would require a report on cost increases caused by the extension and require the Secretary to identify a specified number of major acquisition programs to be produced at maximum efficient production rates.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees recommend that the Secretary of Defense be required to submit a "stretchout impact statement" if certain conditions are met. The impact statement would delineate the costs associated with stretchouts of production rates. Further, the provision requires the Secretary to identify all major acquisition programs being produced at 80 percent or less of the programmed acquisition rate at the time the major acquisition program was initiated. Finally, the conferees direct the Secretary to identify not less than 10 programs that could be produced at maximum efficient production rates and the costs associated with such action.

Report on Navy aircraft (sec. 119)

The Senate amendment contained a provision (sec. 121) that would require the Secretary of Defense to submit a detailed report on current and projected requirements of the Navy for aircraft.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

MLRS system for the Army National Guard

The House bill contained a provision (sec. 111(d)) that would support the deployment of three batteries per year of Multiple Launch Rocket System (MLRS) to units of the Army National Guard.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note their strong support for the introduction of MLRS batteries into Army National Guard units.

Air Force common electronic countermeasure equipment

The House bill contained a provision (sec. 116) that would require a competition between the ALQ-131 and ALQ-184 Electronic Countermeasure (ECM) pod programs; require approval of the Secretary of Defense prior to upgrading certain Navy or Air Force ECM systems; and require a report on the protection of EF-111 aircraft.

The Senate report (S. Rept. 100-326) encouraged the Air Force to conduct a year-to-year competition between the ALQ-131 and the ALQ-184 ECM pod programs.

The conferees agree that an immediate competition between the ALQ-184 and ALQ-131, or a year-to-year competition of these systems, is a reasonable acquisition strategy, and agree that the requirement to field one or both systems is essential and must be accomplished by the Department of Defense. The conferees have learned that the Under Secretary of Defense for Acquisition is currently studying the acquisition strategy proposed for the ALQ-131 and ALQ-184 ECM pod systems.

In light of this action, the conferees agree at this time to defer, without prejudice, the House provision. In taking this action, the conferees expect the Under Secretary of Defense to initiate not later than January 15, 1989, a competitive acquisition strategy. The conferees direct that any future upgrades to the ALQ-94, ALQ-137, ALQ-126A, ALQ-126B, or ALQ-162 ECM systems must be approved by the Under Secretary of Defense for Acquisition, and direct the Secretary of Air Force to submit a report to the Committees on Armed Services of the Senate and House of Representatives, by January 15, 1989, describing the Air Force plans for future electronic protection of EF-111 aircraft.

General increase for Navy and Marine Corps ammunition

The House bill included a provision (sec. 1201) that would provide additional authorization for procurement of ammunition for the Navy and Marine Corps.

The Senate amendment contained no similar provision.

The House recedes.

Guard and Reserve training devices

The House bill contained a provision (sec. 1203) that would provide $25.0 million for procurement of training devices for the Army National Guard.

The Senate amendment contained no similar provision.

The House recedes. The conferees provided $50.0 million to the Army National Guard to procure what ever equipment the Guard judges to be of highest priority. The conferees note that the Guard may procure training devices if that is judged to be of sufficient priority. The conferees also note that the Guard may procure FISTV vehicles if those vehicles are judged by the Guard to be of sufficient priority.

Global positioning system

The amended budget request contained $75.644 million for procurement of the Global Positioning System (GPS) satellite program.

The House bill would reduce the request by $14.427 million.

The Senate amendment contained a provision (sec. 929(a)) that would authorize the request.

The conferees agreed to an authorization of $75.644 million, the requested amount, but did not agree to the Senate legislative provision.

The amended budget request contained $53.232 million for RDT&E for the Global Positioning System.

The House bill would authorize the requested level.

The Senate amendment contained a provision (sec. 929(b)) that would limit expenditures for Global Positioning System RDT&E to $48.232 million.

The conferees agree to an authorization of $48.232 million but see no need for the Senate legislative provision.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION (RDT&E)

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $38,157.1 million for research, development, test, and evaluation in the Department of Defense. The House bill would authorize $37,372.9 million. The Senate amendment would authorize $37,995.3 million. The conferees recommend authorization of $37,970.2 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

RESEARCH AND DEVELOPMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $5,030.7 million for Army research, development, test, and evaluation. The House bill would authorize $5,224.9 million. The Senate amendment would authorize $5,008.4 million. The conferees recommend authorization of $5,198.4 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

ITEMS OF SPECIAL INTEREST

Forward area air defense system

The amended budget request contained $164.2 million for Forward Area Air Defense (FAAD). This program provides research and development for both direct line of sight and the non-line of sight projects.

The House bill would authorize an additional $30 million to procure additional test fiber optic guided missiles configured with Technical Risk Reduction (TRR) upgrades.

The Senate amendment would authorize the amount requested.

The conferees recommend an additional authorization of $20 million, and endorse the directives contained in the House report (H. Rept. 100-563). The conferees also note that while the fiber optic guided missile (FOGM) was initially developed as an anti-armor system, the Army is focusing its development almost exclusively on an air defense system to counter non-line of sight helicopters. The conferees believe that the FOGM remains a potent anti-armor system and directs the Army to incorporate the missile in its anti-armor modernization plans.

In order to insure that technical risk reductions proceed expeditiously, the conferees recommend the authorization of $20 million in P.E. 603313, Missile and Rocket Advanced Technology.

M1 block 3 upgrade program

The Senate amendment would authorize an additional $50 million to initiate the development of a block 3 improvement program for the M1 tank. The Senate amendment would direct that such an improvement program consider a new generation light-weight 120mm cannon, improved engines, a reduced volume turret and advanced fire control systems, emphasizing that the block 3 tank should be fielded by 1995.

The conferees recommend an increase of $30 million to initiate the block 3 improvement program. The conferees believe such an improvement program is essential to reverse the deteriorating armor-antiarmor balance with the Soviet Union. The conferees believe the Army should award this initiative high priority and consider the numerous suggestions by industry for improving the M1 tank. The conferees emphasize that a block 3 M1 tank should be ready for operational fielding by the middle of the next decade.

The conferees expect the Army to program sufficient resources in the Five Year Defense Program for fiscal years 1990 to 1994 to produce a block 3 M1 tank by the middle of the next decade.

Army laser weapons technology

The amended budget request contained $6.4 million for the Army's Laser Weapons Technology Program.

The House bill would authorize $12.9 million, an increase of $6.5 million, and direct the Army to continue work on critical dye laser technology at the Army's Missile Command.

The Senate amendment would authorize the requested amount.

The conferees recommend an authorization of $11.4 million and concur with the direction that the Army should continue research on dye laser technology at the Missile Command.

Army electronic warfare programs

The House bill would authorize an additional $11 million for Army Electronic Warfare Technology and $4 million for Army Electronic Warfare Development. The House bill would direct that the $11 million be used to initiate an improvement program for the TACJAM system. The House bill would also direct that the $4 million be used to develop a tri-service common module visible/near infrared laser device.

The Senate amendment would also authorize an increase for electronic warfare, but for different purposes. The Senate amendment would authorize an increase of $5 million for Army Electronic Warfare Technology and $4 million for Electronic Warfare Development, with the additional funds in both instances to be devoted to increased activity in electronic warfare vulnerability assessment of fielded U.S. systems, with special attention to command systems.

The conferees recommend an increased authorization of $8 million for Electronic Warfare Technology, with $4 million to be devoted to improvements for TACJAM and $4 million for electronic warfare vulnerability assessment. The conferees also recommend an increased authorization of $4 million for Electronic Warfare Development, with $2 million to be devoted to TACJAM and $2 million to vulnerability assessment.

The conferees note that the Army's ongoing vulnerability assessment activity is primarily an operational test and evaluation activity, yet it is funded within program elements that are otherwise largely devoted to the development of new programs. The Conferees believe this accounts for the long-term reduction in funding for this key activity. The conferees encourage the Army to consider shifting the management and budgeting for electronic warfare vulnerability assessment to other program elements which are oriented toward operational test and evaluation.

Joint tactical fusion program

The amended budget request contained $127.1 million for the Army portion of the Joint Tactical Fusion Program (JTFP).

The House bill would add $5 million for planning and conducting a Follow-On Forces Attack (FOFA) test as part of a Joint Chiefs of Staff exercise to validate command relationships and targeting procedures.

The Senate amendment would authorize the requested amount.

The conferees agree to the conduct of a FOFA test recommend an authorization of $130.1 million for the Army portion of the JTFP.

Weapons and munitions engineering development

The amended budget request contained $132.6 million for Weapons and Munitions Engineering Development. The primary emphasis of the program is the development of the sense and destroy armor (SADARM) munition, which will provide counterbattery and anti-armor capability for howitzers and rocket artillery.

The House bill would authorize an increase of $25 million to accelerate the program.

The Senate amendment would authorize the amount requested.

The conferees recommend a total authorization of $157.6 million, an increase of $25 million. The conferees note that reinstatement of the 120mm mortar program requires additional research and development funds to finish required qualification and testing. Therefore, the conferees recommend that $7.3 million of the authorization provided in this program element may be used to complete testing on the 120mm mortar program.

Combat vehicle improvement program

The amended budget request contained $82.8 million for the Army's Combat Vehicle Improvement Program. This program funds the development of improvements to the M1 tank, as well as other combat vehicles.

The House bill would authorize an additional $15 million to accelerate the introduction of the Commanders Independent Thermal Viewer (CITV) into the block 2 upgrade for the M1 tank, and to initiate a leader-follower development program that would ensure CITV competition in the first year of procurement.

The Senate amendment would authorize an additional $13.9 million to accelerate the CITV program.

The conferees recommend authorization of $96.7 million an increase of $13.9 million. The Army should insure that competition is introduced into CITV production at the earliest practicable point.

Landmine warfare and barrier advanced technology

The conferees are concerned about the ability of the armed forces to dectect both anti-vehicle and anti-personnel mines on the battlefield. Landmine techology has far outstripped the U.S. ability to detect various types of mine fusing and casing options available. The conferees suggest that alternative sensor technologies, including ground penetrating radar, be explored as a way to rapidly advance mine detection capability.

Nuclear biological chemical reconnaissance vehicle

The Army proposed to meet its requirements for a Nuclear, Biological, Chemical (NBC) Reconnaissance Vehicle by procuring an existing system developed in Germany and in use by the German Army. The Army selected this approach because it would field an NBC reconnaissance vehicle several years before it would be available under a normal development program.

The House report (H. Rept. 100-563) directed the Army not to proceed with this acquisition approach, but instead to conduct a competition to develop NBC vehicles.

The Senate report contained no comparable direction.

The conferees believe that the Army does have an urgent need to field an NBC reconnaissance vehicle as promptly as possible. However, the conferees believe that the NBC reconnaissance vehicle program is sufficiently large to justify opening the program to competition. The conferees deliberated at considerable length on the best manner to balance these two goals. The conferees recommend that the Army conduct a competition based on expendited procedures. Specifically, the conferees direct the Army to take the following steps:

—Conduct a head-to-head competition with prototype vehicles between not less than two competitors, so long as their proposals are technically sound. The Army may supply mission equipment to the competitors on a reimburement/refurbishment basis.

—The competition shall be completed and the winner announced not later than July 1, 1989.

—The acquisition program shall be conducted under the "non-development item" (NDI) approach. The Bids may be based on use of existing government-developed equipment, but all integration and modification costs must be born by the contractor.

—The companies participating in the competition must submit contract proposals that incclude five years of options with "not to exceed" price quotes. The price quotes need not cover any product improved mission equipment package that might be developed for the system, but must include the mission equipment tested in the competiton.

In order to cover the Government's costs associated with the competition, the conferees recommend an authorization of $6 million for the Army test program. In addition, the conferees recommend that $10 million be authorized for procurement of the winning system, so that procurement can begin in fiscal year 1989 following successful completion of the competition.

RESEARCH AND DEVELOPMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $9,216.2 million for Navy research, development, test, and evaluation. The House bill would authorize $9,346.9 million. The Senate amendment would authorize $9,274.6 million. The conferees recommend authorization of $9,383.2 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

ITEMS OF SPECIAL INTEREST

Attack submarine development

The amended budget request included $13.6 million for the Navy's Attack Submarine Development program.

The House bill would not authorize funds for this program.

The Senate amendment would authorize the amount in the budget requested.

The House recedes.

Commend and control systems

The conferees affirm the language in the House report (H. Rept. 100-563) regarding the Link Eleven Empowerment project.

Laser communications systems

The amended budget request included $5.269 million for Satellite Laser Communications (SLCSAT) research and development.

Both the House bill and the Senate amendment would authorize $25.269 million, $20 million more than the requested amount. In addition, the House bill would authorize $10 million for Tactical Airborne Laser Communications research in the Defense Advanced Research Projects Agency (DARPA) for fiscal year 1989. The Senate amendment authorized no additional funds for Tactical Airborne Laser Communications research beyond those appropriated in fiscal year 1988.

The conferees reviewed the status of both laser communications programs and believe that the SLCSAT program is funded at a level where engineering studies must examine the tradeoffs required to establish the cost of an operational satellite system. Resources not needed for engineering studies should be devoted to the engineering of hardware.

The conferees agreed that the DARPA program can use existing funding to execute planned experiments effectively through fiscal year 1989 (including uplink experiments). This program also needs to devote resources to the development of potentially more useful transmitter technologies. If the results of experiments warrant, DARPA is invited to seek a reprogramming to augment the program for a rapid start-up in fiscal year 1990.

Finally, the conferees note that a laser communications program, which appears to have considerable merit, can be carried through a full-scale devlopment decision only if it enjoys the support of tactical users and resource priority within the Navy.

Sea lance

The amended budget request included $50 million for the Navy's Sea Lance program, a submarine-launched rocket that carries a MK-50 torpedo as a payload.

The Senate amendment would add $15 million to the request.

The House bill contained no similar provision.

The House recedes.

The conferees recommend authorization of $65 million, an increase of $15 million, to proceed with flight testing of the Sea Lance vehicle with the understanding that the Department of the Navy will seek to reprogram and additional $15 million from funds otherwise authorized to preserve the originally projected initial operational capability.

Cover and deception

The House bill would authorize an additional $1 million to continue the Navy cover and deception program.

The Senate amendment contained no similar provision.

The Senate recedes, and the conferees affirm the language in the House report (H. Rept. 100-563) on this matter.

Command and control

The conferees note that for some years the Congress has supported development of a supercomputer system titled "S-1". This support is continued, and the Navy is requested to complete development of the S-1 hybrid wafer-scale-integrated supercomputer system.

Fast sealift development

The Senate report (S. Rept. 100-326) stated certain requirements for the Secretary of the Navy regarding study and testimony on a fast sealift plan. the conferees affirm that language, and the Navy is invited to reprogram from funds otherwise authorized as necessary for the study of a wide range of propulsion and hull technologies, including semi-planning hull technology.

In addition, the conferees direct that both the Secretary of the Navy and the Commission on Merchant Marine and Defense prepare estimates on the requirement for fast sealift under the same planning scenarios used by the Chairman of the Joint Chiefs of Staff in the required annual net assessments. These estimates shall be submitted to the Committees on Armed Services of the Senate and House of Representatives no later than January 1, 1989.

Light assault vehicle gun

The conferees affirm the language in the Senate report (S. Rept. 100-326) concerning the selection of a gun for the Marine Corps Light Assault Vehicle.

Navy oceanography program

The Senate amendment would authorize an additional $3 million for the Navy Oceanography Program.

The House bill contained no similar provision.

The House recedes, and the conferees affirm the language in the Senate report (S. Rept. 100-326) on this matter.

Oceanographic and meteorological program

The Senate amendment would authorize an additional $2 million for the Navy's Oceanographic and Meteorological Program.

The House bill contained no similar provision.

The House recedes, and the conferees affirm the language in the Senate report (S. Rept. 100-326) on this matter.

Rapid air defense integration prototype

The conferees affirm the language in the Senate report (S. Rept. 100-326) concerning early testing of a prototype of a fully integrated ship air defense system.

RAMP/RTIF program

The Senate and House reports (S. Rept. 100-326 and H. Rept. 100-563) would direct the Secretary of the Navy to execute lots 1-6, or their equivalents, in the Navy's Rapid Acquisition of Manufactured Parts (RAMP) program; however, additional funding to support this direction would not be authorized in either the House bill or the Senate amendment.

The conferees recommend an authorization of $5 million to execute lots 1-6 in the RAMP/RTIF Step II contract, and direct the Secretary of the Navy to report to the Committees on Armed Services of the Senate and House of Representatives by February 1, 1989 on a long-range implementation plan for the RAMP program beyond fiscal year 1989.

Sea-based air antisubmarine warfare

The House bill would authorize $5 million for the Navy to investigate the potential of the SV-22 tilt rotor aircraft to perform sea based air antisubmarine warfare (ASW).

The Senate amendment contained no similar provision.

The House recedes.

The conferees share the concern of the House of Representatives for sea-based air ASW shortfalls, and encourage the Navy to investigate not only the SV-22 option but follow-on options to the S-3 as well.

Ship propulsion technology

The conferees affirm the language in the Senate report (S. Rept 100-326) with respect to ship propulsion technology. The Conferees believe that the economy, power density, and signature reduction possible with gas turbine improvements and electric drive are significant and should be pursued without delay.

Standard embedded computer

The amended budget request included $13.2 million in research and development for the Standard Embedded Computer program.

The House bill and the Senate amendment would authorize the amount requested.

The conferees note that this program has received specific congressional attention for more than four years. At congressional request in 1984, the Under Secretary of Defense for Research and Engineering provided a plan to phase out embedded computers such as the Department of Navy's AN/UYK 43/44 and AN/AYK 14s, and to develop by January 1990 replacements using next-generation technology, including open architecture. Subsequently, the Department of Defense has failed to implement the plan with sufficient funding. As a consequence, not only has development of next generation computers been delayed, but also delays have occurred in the development of upgrades to current computers. This situation is perpetuated in the fiscal year 1989 amended budget request. Only $1.4 million is requested for development of next generation computer technology, in spite of the fact that as late as last year a request of at least $4.9 million had been anticipated for this development. No funds were requested in fiscal year 1989 for development of upgrades to exisitng computers.

This year the Department of the Navy notified Congress that the date for the availability of next-generation computers has slipped to January 1996, a six-year slip for a program essentially started four years ago. Subsequent to the notification, the Department of the Navy approved funding and milestone plans to meet the January 1996 date for development of next generation computers. The conferees expect the Navy to fully fund this plan.

In view of the funding and milestone plans, the conferees recommended authorization of the commencement of upgrades to current embedded computer systems beginning in fiscal year 1989, but such authorization is only to initiate development of upgrades with reprogrammed funds from lower priority programs. Approval of such reprogramming is contingent upon prior reprogramming and obligation of $3.5 million for development of next-generation computers, in addition to the $1.4 million authorized in fiscal year 1989. The conferees expect that all development of upgrades will include open architecture operating systems as have now been adopted by all major computer suppliers.

The conferees affirm the language in the House report (H. Rept. 100-563) regarding the Mass Memory Storage Device project in this program.

Systems support technology

The House bill would authorize $3 million above the amended budget request for Systems Support Technology (PE62234N). This additional authorization would be specifically intended to suppport a manufacturing process under the Osprey program.

The Senate report (S. Rept. 100-326) addressed the Osprey manufacturing process in a broader discussion of the Product Evaluation Activity.

The conferees recommend authorization of $1 million above the request in this program element only for the Osprey program.

RESEARCH AND DEVELOPMENT, AIR FORCE

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $14,932.1 million for Air Force research, development, test, and evaluation. The House bill would authorize $14,713.8 million. The Senate amendment would authorize $14,721.7 million. The conferees recommend authorization of $14,680.8 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

ITEMS OF SPECIAL INTEREST

Ground-based laser technology programs

The amended budget request contained $74.494 million for advanced weapons technology.

Both the House bill and the Senate amendment would authorize the requested amount.

Within the advanced weapons technology program, the conferees recommended authorization of the full amount requested for high energy laser technology development. Such funds shall be used to maintain a balanced competitive technology development of various ground-based laser system concepts through a concept selection in 1991. In addition, the conferees believe that, at a minimum, chemical DF and Oxygen Iodine, Free Electron Laser, and repetitively and single pulsed excimer concepts should be continued by the Services and the Defense Advanced Research Projects Agency (DARPA) through concept selection.

ICBM modernization studies

The Senate amendment contained study requirements for ICBM modernization related programs (sec. 213), and the House bill contained related and different study requirements (sec. 223).

The conferees agreed not to include either set of requirements in legislation. However, the conferees agreed that the Secretary of Defense shall evaluate the feasibility of providing common launch control systems for the MX rail-garrison program and the Small Intercontinental Ballistic Missile (SICBM) program. If the evaluation demonstrates that such commonality is feasible, the Secretary shall preserve such commonality in those programs.

The conferees also agreed that evaluations of operational issues (particularly evaluations of potential vulnerabilities), and technological and logistical issues should continue to be an inherent part of ICBM Modernization research and development. The Secretary of the Air Force should continue the independent review of the SICBM program, focusing on ways to reduce the costs of that program, that is being carried out by a Federally Funded Research and Development Center with substantial experience in the analysis of issues related to ICBMs. The results of this study are to be provided to the Committees on Armed Services of the Senate and House of Representatives by March 1, 1989.

C-17 development

The reduction of authorization for the C-17 development program recommended by the conferees is for budgetary reasons only and the Department of Defense is invited to seek reprogramming of funds, if necessary.

Joint tactical fusion program

The amended budget request included $.999 million for the Air Force portion of the Joint Tactical Fusion Program (JTFP).

The House bill would add $10 million: (1) to prevent termination of the Enemy Situation Correction Element (ENSCE); (2) to match Air Force funding to its commitment to provide 12 percent of the joint program RDT&E funding; and (3) to ensure that Air Force situation assessment equipment is functionally compatible with the Army system.

The Senate amendment would authorize the requested amount.

The conferees recommend an authorization of $7.999 million for the Air Force portion of the JTFP.

TR-1 program

The amended budget request contained $102.2 million to continue development of the TR-1 program.

The House bill would authorize $92.2 million. The $10 million reduction was based on the apparent lack of progress in supporting Army requirements.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $102.2 million, of which $1 million is to be available only for the Air Force to examine methods of processing, exploiting and disseminating fixed and moving target indicator data from the TR-1 Advanced Synthetic Aperture Radar System for both Air Force and Army applications.

Follow-on tactical air reconnaissance system

The amended budget request contained $56.6 million for continued development of the Follow-on Tactical Air Reconnaissance System (FOTARS), which will provide reconnaissance sensors for use by unmanned aerial vehicles as well as in-production fighter aircraft of the Air Force and the Navy.

The House bill would reduce the request by $15 million, citing an ongoing General Accounting Office (GAO) investigation and lack of justification for the medium-range remotely piloted vehicle (RPV) that would carry the sensors.

The Senate amendment would also reduce the request by $15 million.

The conferees recommend authorization of $41.6 million.

The conferees note that the FOTARS program is an integral component of future tactical reconnaissance capabilities, but are troubled by inconsistencies in the program. For example, the Joint Services Imagery Processing System (JSIPS), a component of the FOTARS program, does not include a requirement to provide the near-real time data to the Army from sensors on manned and unmanned aircraft. The conferees request the Services to reassess their plans for receipt, exploitation and dissemination of tactical data through the JSIPS program.

Satellite systems survivability

The amended budget request included $3.784 million for satellite systems survivability.

The House bill would authorize the requested amount for this program. It also contained a provision (sec. 201) that would authorize an additional $5.3 million for satellite systems survivability.

The Senate amendment would authorize the requested amount.

The House recedes.

RESEARCH AND DEVELOPMENT, DEFENSE AGENCIES

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $8,667.8 million for Defense Agencies research, development, test, and evaluation. The House bill would authorize $7,772 million. The Senate amendment would authorize $8,706.2 million. The conferees recommend authorization of $8,428.4 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

ITEMS OF SPECIAL INTEREST

National aerospace plane

The amended budget request included $244.767 million for the National Aerospace Plane technology demonstration program.

The House bill would authorize the requested amount.

The Senate amendment would reduce the request by $14 million.

The conferees recommend an authorization of $230.767 million. This reduction is made without prejudice, for budgetary reasons. The conferees express their support for the National Aerospace Plane program and expect the Department of Defense to incorporate adequate funding for this program into its Five Year Defense Program for fiscal years 1990 to 1994.

Air defense initiative

The amended budget request contained $213.574 million for the Air Defense Initiative, an increase of approximately $180 million over the amount appropriated for fiscal year 1988. Last year, the conferees attempted to improve the coordination and management of this joint program by vesting the Office of the Secretary of Defense (OSD) with oversight responsibility and stressing that priority should be placed on developing surveillance technologies and exploiting to the fullest extent relevant research conducted under the Strategic Defense Initiative.

The conferees believe some progress has been made in properly focusing this research effort, but are not confident that an integrated program plan enjoying the support of Service participants has been achieved.

The conferees recommend an authorization of $163.574 million for the Air Defense Initiative; related actions are described in the classified annex to this statement of managers.

The House bill contained a legislative provision (sec. 237) that would describe the purpose of the Air Defense Initiative and require an annual review of the program and its progress toward deployment.

The Senate amendment contained no similar provision.

The House recedes. The conferees believe that this information is already contained in present and planned Department of Defense reports.

Joint stand-off weapons program

The amended budget request contained $15.9 million for the Joint Standoff Weapons Program, which includes the Air Force's Modular Stand-off Weapon (MSOW) program and the Navy's Advanced Interdiction Weapon System (AIWS) program.

The House bill would authorize $25.9 million, and would direct that not less than $15.9 million be available for the AIWS program.

The Senate amendment contained no similar provision.

The conferees recommend an authorization of $15.9 million. The conferees understand that the MSOW program is likely to be revised substantially in light of the decision by France to withdraw from participation in the program. The Department of Defense is developing a master plan that will incorporate a revision to both the MSOW program and the AIWS program. The conferees direct that none of the amounts authorized be obligated until the Department has reported to Congress on the new plan for short-range stand-off weapons.

Projects of the Defense Advanced Research Projects Agency

In addition to other changes, the House bill would authorize inreases in the amounts requested for the Defense Advanced Research Projected Agency (DARPA) accounts as follows:

(1) $69.0 million for Strategic Technology to include $15.0 million for high temperature superconductor manufacturing; $20.0 million for advanced manufacturing technology for microelectronic components, advanced materials and concurrent design tools; $2.0 million for hybrid bi-static radar research; $7.0 million for gallium arsenide manufacturing technology; and $25.0 million to continue the development of the single pulse excimer laser.

(2) $20.0 million for Tactical Technology associated with anti-armor applications utilizing smart weapons.

(3) $15.0 million for experimental evaluation of the tactical laser communications program.

The Senate amendment would authorize $106 million more than the amended budget request—in addition to other inreases—in an account entitled DARPA MANTECH. This $106 million increase would be apportioned as follows: $46.0 million for gallium arsenide manufacturing technology and insertion; $27.0 million for high temperature superconductor manufacturing; $18.0 million for the DARPA Initiative in Concurrent Engineering; $8.0 million for the EXCIMER Laser-Semiconductor Device Manufacturing; and $7.0 million for the "smart skin" design effort.

In addition to provisions relating to DARPA in other sections of this statement of managers, the conferees agree to recommend an increased authorization of $94.0 million for DARPA as follows:

(1) $79.0 million for Strategic Technology to include $21.0 million for high temperature superconductor manufacturing technology; $18.0 million for advanced manufacturing technology for microelectronic components, advanced materials, and concurrent engineering design tools; $18.0 million for gallium arsenide manufacturing technology; $7.0 million for excimer laser semiconductor device manufacturing technology; and $15.0 million to continue the development of the single-pulse excimer laser.

(2) $10.0 million Tactical Technology associated with anti-armor applications using smart weapons.

(3) $5.0 million for Experimental Evaluation of Major Innovations for a follow-on forces attack prototype.

Although the conferees did not recommend authorization for research in hybrid bi-static radars as would be authorized by the House bill, the conferees agree as would be authorized by the House bill, the conferees agree that such a program merits support and urges the Department to pursue this promising technlogy.

The conferees are concerned that funding for artificial intelligence and robotics research the DARPA has been decreasing despite marked progress in this area in recent years, including, for example, tremendous productivity gains as the result of the introduction of expert systems. Therefore, the conferees direct that the DARPA Information Science and Technology Office allocate at least $47 million of funds authorized to AI/Robotics research.

The conferees also recommend that of the funds authorized for the Defense Advanced Research Projects Agency for fiscal year 1989, $15.0 million should be made available for a program of research in advanced microelectronic, optoelectronics, and materials.

The conferees note and continue to support DARPA funding and management in technology thrusts for basic research not explicitly directed to ongoing weapons development programs. Included among these thrusts, which the conferees continue to support, have been those encompassing directed energy programs. The current management challenge to DARPA is to execute both these basic technology programs and the prototype programs.

Advanced technology tactical transport

The House bill would authorize $10 million to initiate a prototyping program for the Advanced Technology Tactical Transport to continue the program initiated by the Defense Advanced Research Projects Agency.

The Senate amendment contained no similar provision.

The conferees recommend an authorization of $5 million. The conferees emphasize that any further development of the Advnaced Technology Tactical Transport should proceed on the basis of open competition among all qualified competitors.

Advanced torpedo technology

The House bill would authorize an additional $10 million for Advanced Torpedo Technology. This matter is addressed in the discussion of the Advanced ASW Technology program elsewhere in this statement of managers.

Anti-submarine warfare technology

The amended budget request did not include funds for authorization of an antisubmarine warfare (ASW) initiative.

The House bill would authorize $40 million for this purpose.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees recognize that the capabilities of Soviet submarines are increasing at a rate not previously predicted. To counter this trend and to enlarge the nation's antisubmarine warfare options, the conferees wish to ensure that the antisubmarine warfare research and development program encompasses a balanced range from conservative product improvement investments to vigorous high risk/high pay-off ventures. The conferees direct the Defense Advanced Research Projects Agency to conduct a thorough review of the national ASW research and development programs with the purpose of targeting high pay-off areas for investment. The conferees affirm the reporting requirements of the House report (H. Rept. 100-563).

The conferees recommended authorization of $15 million for the ASW Technology program, of which $10 million shall be allocated for advanced torpedo technology.

Advanced rotorcraft

The House report (H. Rept. 100-563) directed that $45 million of funds provided for the Balanced Technology Initiative (BTI) be used only for purposes of establishing an advanced rotorcraft technology program. The purpose of the program is to accelerate the development of advanced designs and materials to develop a low-observable helicopter.

The Senate report (S. Rept. 100-326) had no similar language.

The conferees note that there would be many positive features to an advanced rotorcraft program. The conferees do not believe, however, that it is appropriate to earmark funds authorized for the Balanced Technology Initiative for this purpose. In accordance with the program established by Congress and administered by the Department of Defense over the past three years, the Director of Defense Research and Engineering has the discretion as to funding of projects within the BTI program. The Director is welcome to fund projects for advanced rotorcraft technology if the Director judges that such projects meet the criteria for which the BTI program was established.

Anti-jam tactical communications

The House report (H. Rept. 100-563) imposed certain restrictions on Department of Defense plans for anti-jam tactical communications. In addition, the House report directed that $3 million be used only for Have Quick 2A development in the Navy and that $6 million be used only for development of a Universal Modem.

The Senate report (S. Rept. 100-326) contained no similar restrcitions.

The conferees are concerned that the Services' commitment to the establishment of joint Service anti-jam standards is not progressing in a well-defined manner. The conferees note that significant progress has been made since the Grenada operation; however, serious questions have been raised in the area of ultra high frequency (UHF 225-400 MHZ) anti-jam techniques. The conferees understand that the HAVE QUICK technique has been established as the U.S. standard, although the Navy has continued to equip existing aircraft with LINK 4A anti-jam protection.

The conferees direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives by January 15, 1989, describing the Department's plans with respect to tactical anti-jam communications. This report should outline the Department's plans as to how interoperability will be achieved within each Service as well as between Services and allies, and should take into account the equipping of current aircraft as well as future aircraft.

Electronic warfare master plan

The House report (H. Rept. 100-563) directed that the Department of Defense improve its master plan for electronic warfare (EW). The conferees recognize the considerable effort put forth by the Military Departments in preparation of the Electronic Warfare Master Plan. The current document represents a substantive improvement over previous versions. However, in order to increase the utility of the document, the conferees direct that the following changes and clarifications be implemented in the next submission of the plan set for February 1, 1989:

(1) The plan shall insure that the threat and operational assessment information include inputs from the Joint Chiefs of Staff and the Unified Commanders in Chief, as well as those of the Services.

(2) The plan shall clarify the relationship between electronic warfare programs described in the plan and threats they are to counter, explaining the deficiencies these programs are to address.

(3) For each major electronic warfare program, the plan shall identify RDT&E and procurement funding appropriated in fiscal year 1989 and the amount requested in fiscal years 1990 and 1991. The plan should include the procurement quantities for each year of funding and the major milestones of each program.

(4) The plan shall provide guidance and direction for acquisition of EW systems that are common to as many platforms and missions as feasible.

Further, the conferees direct, as a matter of DOD policy, that when common requirements exist and potential cost savings can be quantified, commonality be maximized to the extent possible in all electronic warfare acquisitions. Commonality assessments should consider inter-Service, intra-Service and operational aspects including logistics/maintenance support and maintenance/operator training.

Fibrous carbon thermal insulation

The House and Senate reports (H. Rept. 100-563 and S. Rept. 100-326) contained nearly identical language addressing the status of export controls on, and the strategic military importance of, fibrous carbon thermal insulation. The conferees endorse this language and affirm the reporting requirements contained therein.

Follow-on forces attack prototype

The House bill would add $5 million to the RDT&E authorization for the Defense Advanced Research Projects Agency (DARPA) for the purpose of developing, evaluating, and demonstrating a prototype that could enhance the first- and second-echelon target development and nomination process.

The Senate amendment contained no similar provision.

The conferees recommend authorization of $5 million for the proposed Follow-On Forces Attack (FOFA) prototype and endorse the language contained in the classified annex to the House report (H. Rept. 100-591, Part I) on H.R. 4387, the fiscal year 1989 Intelligence Authorization Act. The conferees believe that this initiative could address the Army tactical reconnaissance, surveillance, and target acquisition shortfalls for both ground targets and air defense. The conferees are mindful of the out-year funding implications of this initiative and urge its consideration in the fiscal year 1990 budget deliberations and as a candidate for inclusion in the Balanced Technology Initiative (BTI) program, if appropriate. Coordination with the Joint Unmanned Aerial Vehicles (UAV) program office may also be appropriate.

Low intensity conflict

The House bill would authorize $2 million for the National Security Agency to evaluate and, if appropriate, to procure off-the-shelf signals intelligence-related (SIGINT) items of equipment to support Special Operations Forces or U.S. Central Command contingency forces in the event of low-intensity conflict.

The Senate amendment contained no similar provision.

The conferees agree to provide $2 million in support of low-intensity conflict capabilities for the reasons and the purposes described in the classified annex to the House report (H. Rept. 100-591) on H.R. 4387, the fiscal year 1989 Intelligence Authorization Act.

Low intensity conflict planning and programming

The House bill would authorize $3 million for the Office of the Assistant Secretary of Defense for Command, Control Communications, and Intelligence to establish a planning and programming activity to ensure that low-intensity conflict intelligence initiatives can be developed planned, and programmed to meet the requirements of all the Services. The House bill would further direct that $1 million of the $3 million be provided to the Defense Intelligence Agency (DIA) for certain purposes. Finally, the House bill would request that the Secretary of Defense present, with the biennial fiscal year 1990 budget, a report on the status of low-intensity conflict initiatives and any out-year funding requirements.

The Senate amendment would not authorize funds for this purpose.

The conferees recommend $3 million for this initiative.

Management of electronic warfare programs

The House report (H. Rept. 100-563) directed the Secretary of to consolidate management of electronic warfare (EW) programs and to submit a report outlining the delegation of responsibilities of the Under Secretary of Defense for Acquisition for all electronic warfare programs.

The Senate report (S. Rept. 100-326) contained no similar direction.

For several years, the Congress has expressed its concern in the area of electronic warfare and electronic component commonality, and has taken several legislative steps to improve management and commonalty. The conferees believe it is essential that the Department of Defense avoid unnecessary duplication with attendant logistics and training requirements both within the individual military Services and among the military Services, consistent with the unique operational requirements of each of the Services. The conferees believe these steps were required, and progress to date has been limited, because of a diversity of management authority and oversight responsibility not only in the military Services but also in the Office of the Secretary of Defense.

The conferees believe that centralized oversight of electronic warfare and avionics programs in the Office of Secretary of Defense, and execution control under the Service Acquisition Executives, is essential to minimize proliferation and duplication in electronic warfare programs. Accordingly, the conferees direct the Under Secretary of Defense for Acquisition to submit a report to the Committees on Armed Services of the Senate and House of Representatives by December 1, 1988, outlining the delegation of oversight responsibilities by the Under Secretary of Defense for Acquisition for all electronic warfare programs, and an analysis on how responsibility for all EW programs might be consolidated in one office under the direction of the Secretary.

National bone marrow donor registry

The conferees recommend authorization of $21.108 million for the Navy Medical Development program, of which $2.5 million is to be available only for the National Bone Marrow Donor Registry program.

Radar warning receiver test and evaluation

The House report (H. Rept. 100-563) directed the Assistant Secretary of Defense for Command, Control, Communications and Intelligence to develop a joint Service integrated plan for fielding a single radar warning receiver for all Service uses, and to establish a test and evaluation program under the direction of the Director of Operational Test and Evaluation to manage a common "test bed" for radar warning receivers (RWR).

The conferees support the need to provide updated radar warning capability to counter the steadily improving threat. The conferees are concerned by the number of different radar warning receivers used by the various Military Departments. Over the past several years, Congress has urged the Services to work toward a more integrated approach in developing common effective radar warning receivers.

The conferees believe the Integrated Electronic Warfare/Integrated Communication Navigation Identification Avionics (INEWS/ICNIA) program offers the best opportunity for maximizing commonality in electric warfare systems for future aircraft. For current platforms, the conferees recognize that the large number of radar warning receivers already installed in combat aircraft precludes wholesale near-term replacement. However, to minimize perpetuation of mulitple types of systems and make best use of funds, the conferees direct the Services to limit spending on older RWRs to operationally essential reliability and maintainability upgrades and capability upgrades that are justified by a Cost and Operational Effectiveness Analysis (COEA). In the case of the ALR-67 upgrade or the Advanced Special Receiver (ASR) program, the COEA should consider the utilization of modules common with other RWR programs to the maximum extent practicable.

The conferees believe it is essential to establish a viable test and evaluation program for RWR updates. The conferees therefore direct that all future operational test results for RWR update programs be reviewed and approved by the Director of Operational Test and Evaluation, prior to obligation of production funds.

The Director should develop a uniform set of standards and criteria for measuring all RWRs. Tests should include a comprehensive, validated RWR threat base that uses identical simulations and field testing for all services. All field testing should evaluate RWRs in similar threat environments.

Remotely piloted vehicle

The amended budget request contained $34.8 million for research, development, test, and evaluation of Remotely Piloted Vehicles (RPV).

The House bill would deny authorization of the amount requested for this program until the Department of Defense submitted the required reports, restructured the management of RPV programs, and explained the tasks for which fiscal year 1989 appropriations would be obligated.

The Senate amendment would authorize the requested amount and did not contain any similar restriction.

The conferees received a draft Department of Defense Master Plan for Unmanned Aerial Vehicles (UAV) during the conference that is supposed to address the management of and planned expenditures for RPVs in fiscal year 1989. The conferees believe that a viable near-term and far-term RPV program could evolve from the Master Plan. However, the outyear implications, including the operating and support costs which must be incurred by the individual Services, could present an impediment to expeditious fielding of RPV systems that would compete for resources against currently fielded manned systems such as the RF-4 or proposed follow-on manned reconnaissance capabilities. The conferees, therefore, expect the Department of Defense UAV Executive Committee, in conjunction with the UAV Program Officer, to ensure that outyear funding is programmed by the Services and that objective reviews are conducted to examine the roles and cost-benefits of UAVs with respect to all other systems.

The conferees also believe that total program visibility is necessary to preclude a duplication of effort. Efforts currently reflected in the Master Plan as "related UAV programs" and others that could evolve from special assess programs should be under the management oversight of the Executive Committee and the Department of Defense UAV Program Manager. The conferees request the Executive Committee to review all RPV-related and special access programs, and, if appropriate, include them in future UAV program budget submissions.

The conferees support the proposal for a Joint Technology Center, with the understanding that the center is not limited to research and development tasks but is chartered to conduct tests, evaluation, and training programs. The conferees believe that such a center, supported by all four Services, will provide the baseline in technology and concepts of operations for future UAVs.

The conferees agreed that funds requested in the research, development, test, and evaluation account are insufficient to execute the UAV Master Plan. Accordingly, $47.1 million is recommended for authorization. Additional funds are available from reprogramming request FY 88-14 PA ($25 million), which is approved.

Further discussion of RPVs is contained in Title I, Procurement, of this statement of managers.

ICBM modernization (sec. 202)

The amended budget request contained $1,032,891,000 for ICBM Modernization, which consists of $40 million for continued development and flight testing of the MX missile system, $792,891 million for development of the rail-garrison MX system, and $200 million for development of the small ICBM system. The Department of Defense initially intended not to request funds for the small ICBM program in its amended fiscal year 1989 budget request, and to cancel the small ICBM program on grounds of unaffordability. However, following discussions with various congressional leaders, the Department agreed to include $200 million in the amended fiscal year 1989 request, in order to permit the next administration to determine the future course for ICBM modernization programs.

The House bill would authorize $32,891 million for the MX missile system, $100 million for the rail-garrison MX program and $600 million for the small ICBM program.

The Senate amendment would authorize the requested amount for MX missile development, $700 million for the rail-garrison MX program, and $50 million for the small ICBM program.

The conferees agreed to fund the continued development and flight testing of the MX missile at the requested amount, and to authorize a total of $750 million for the rail-garrison MX and small ICBM programs, subject to certain constraints. The conferees agreed to permit up to $250 million to be obligated for each of those two programs through March 31, 1989, and direct the Secretary of Defense not to terminate either program prior to January 21, 1989. Within these funding limitations, the conferees direct the Secretary to exercise his best management efforts to keep the contractor base for each program as intact as possible, and to continue studies and analyses of other ICBM basing and operational modes. The conferees further direct the Air Force not to obligate any fiscal year 1989 Rail-Garrison MX funds for the procurement of MX missiles for flight tests; the Air Force should plan to utilize MX missiles already being procured for follow-on testing and spares. Within the funding limits for the small ICBM program, the conferees also direct the Air Force to carry out the schedule of activities it has planned under the amended budget request, plus any additional activities to facilitate transition to a more rapidly paced program, should the President choose that course.

The conferees direct the Air Force to submit a report by October 1, 1988, to the Committees on Armed Services and Appropriations of the Senate and House of Representatives setting forth a detailed breakout of its plans for when and for what purpose funds will be obligated for the rail-garrison MX and small ICBM programs through March 31, 1989.

The conferees further intend that the next President shall choose after his inauguration but before March 31, 1989 whether to continue neither, both, or one of the two ICBM modernization programs—the rail-garrison MX program and the small ICBM program—and that he shall direct the Secretary of Defense to reallocate the unobligated balance of the $750 million provided so as to best support his programmatic decisions. Should the President choose to cancel both programs, the conferees would expect the unobligated funds to be allocated to an accelerated program of research on ICBM modernization options; should the President elect to continue both programs, the conferees recognize that available unobligated funds may not be sufficient for the balance of fiscal year 1989 and invite reprogramming actions by the Secretary of Defense. In any event, the next President shall notify the Committees on Armed Services and Appropriations of the Senate and House of Representatives promptly of his decision.

Nuclear monitoring (sec. 203)

The amended budget request contained $22.6 million for nuclear monitoring activities in the Department of Defense.

The House bill (sec. 203(a)) would direct that $37.6 million be available only for the nuclear monitoring program.

The Senate amendment contained no similar provision, but would also authorize $37.6 million.

The Senate recedes. The conferees agree that the increased authorization may be used to support activities such as those described in the House report (H. Rept. 100-563).

Grant for semiconductor cooperative research program (sec. 204)

The amended budget request contained $44.785 million for the Semiconductor Manufacturing Technology program (SEMATECH).

The House bill included a provision (sec. 204) that would authorize $100 million only for this program, an increase of $55.215 million above the amended budget request.

The Senate amendment would also authorize $100 million, but did not include a legislative restriction specifying that the funds would be authorized only for SEMATECH.

The Senate recedes.

Airship program (sec. 205)

The House bill contained a provision (sec. 207) that would authorize not more than $40 million for the airship program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree that the Secretary of Defense may make available an amount not to exceed $25 million for the airship program. The conferees include this funding in the Navy RDT&E account; however, the Secretary of Defense may transfer this funding to another RDT&E account if appropriate.

Anti-tactical ballistic missile system and extended air defense (sec. 206)

The House bill contained a provision (Sec. 214) that would require that not less than $75 million of the funds available for the Strategic Defense Initiative program be made available for the joint development, on a matching fund basis, of an anti-tactical ballistic missile system with NATO allies and other countries that the United States has invited to participate in the Strategic Defense Initiative program.

The Senate amendment contained a provision (Sec. 214(c)) that would authorize $50 million for the Defense Agencies for a research and development program to be approved by the Director of Defense Research & Engineering in connection with the anti-tactical missile system. The Senate provision would stipulate that if any funds were made available to firms in allied countries, such funds would be available for obligation only after the Secretary of Defense had entered into a cooperative program with such allied countries for that purpose.

The House recedes with an amendment.

The conferees support the Administration's plans for theater defense activities within the Strategic Defense Initiative, and recommend an additional authorization of $25 million for the Defense Agencies for the purpose of research and development in connection with anti-tactical missile systems.

Product evaluation (sec. 207)

The Senate amendment contained a provision (sec. 816) that would require the Secretary of Defense to establish a product evaluation activity for the purpose of demonstrating and evaluating promising items of equipment developed by private industry. Section 220B of the Senate amendment would also authorize $17.5 million for evaluation of those products that were not included in the amended budget request. The Senate provision also would require that the evaluation cost be shared on an equal basis between the contractor and the government.

The House bill contained no similar provisions.

The House recedes with an amendment. The conferees agree that this type of product evaluation activity would be beneficial to the Department of Defense; however, the Senate provision was not intended to establish a separate office to administer the activity. The conference agreement clarifies this intent, and also includes language concerning cost-sharing by small businesses.

The conferees direct that the Department of Defense set up a procedure whereby a "user" point of contact be assigned to each potential product. That point of contact should approve the potential usefulness for that product before it is considered for evaluation under this section. The conferees further agree that this product evaluation activity is only for products that could be used to satisfy a need of the Department of Defense.

The conferees have learned of many promising programs that could well be demonstrated through the product evaluation activity. The following projects were brought to the attention of the conferees.

Multi-Helicopter External Lift System.

Ruggedized Plastic Material for Ammunition Packaging.

30/30 Engineering Vehicle.

High-Speed Assault Landing Craft.

Navy Advanced anti-Ship Seeker/Guidance Program.

DP-2 Vector Thrust Project.

Hardened buried and low-profile broadband antennae.

Optoelectronics materials center (sec. 209)

Section 214(a) of the Senate amendment would authorize $14.5 million to establish an Optoelectronics Materials Center at a major university in the United States, and for associated facilities.

The House bill contained no similar provision.

The House recedes.

Trident II missile (sec. 211)

The amended budget request contained $1,865,609,000 for RDT&E on the Trident II missile.

The Senate amendment contained a provision (sec. 212) that would authorize the requested level, making such amount available only for RDT&E for the Trident II missile. This provision would also prohibit reductions to Trident II missile RDT&E to achieve any undistributed reductions.

The House bill contained no similar provision.

The House recedes.

Balanced technology initiative (sec. 212)

Section 215 of the Senate amendment would authorize $338 million for the Balanced Technology Initiative (BTI) program. Of this amount, $288 million would be authorized for those programs initiated in fiscal years 1987 and 1988, and $50 million would be available only for new and innovative projects begun in fiscal year 1989.

The House bill contained no similar provision.

The House recedes with an amendment that would delete the provision in which the relationship between BTI and the Conventional Defense Initiative (CDI) is addressed, and that would delete the restriction on obligation authority. The conferees note that CDI is no longer a distinct program separately identified in the bill. The conferees agree to an authorization of $263 million for those programs initiated in fiscal years 1987 and 1988, and $50 million only for new and innovative programs begun in fiscal year 1989.

The conferees strongly support the BTI program and believe that it offers significant opportunities to improve the combat capability of the conventional forces. The conferees also believe that a link should exist between BTI and the NATO Cooperative Research and Development program to maximize alliance resources, and urge the Department of Defense to pursue greater cooperation with our allies in this regard.

Oversight management of the BTI program has been assigned to the Director, Defense Research and Engineering (DDR&E). The conferees are satisfied at this time that the DDR&E will provide strong leadership and centralized focus to the program, irrespective of whether the program is executed by the Defense Advanced Research Projects Agency (DARPA) or within the Services.

The conferees note that the House report (H. Rept. 100-563) identified certain programs and mission areas such as Close-in Battlefield Surveillance, Countermine Technologies, and Advanced Rotorcraft and Traffic Control/Approach Landing System (TRACALS) for specific support under the BTI program. As established by the Congress and administered by the Department of Defense, the Director of Defense Research and Engineering has sole responsibility for determining the distribution of funds appropriated for the Balanced Technology Initiative. This provision was included so that the limited BTI funds are available to the most promising advanced technology available to the Department. While the conferees agree that many programs are worthy of support, they believe that BTI should compete programs and projects based on merit, opportunity, and need as determined by the DDR&E, and therefore leave the funding of the House proposed projects to the discretion of the DDR&E.

Advanced tactical aircraft and advanced tactical fighter (sec. 213)

The Senate amendment contained a provision (sec. 216) that would stipulate that not more than 50 percent of the funds provided to the Navy for the Advanced Tactical Aircraft may be obligated until the Secretary of Defense certifies that the Navy has budgeted sufficient funds to participate in the demonstration and validation phase of the Air Force's Advanced Tactical Fighter Program. Section 216 would also provide that the Air Force may obligate not more than $350 million for the advanced Tactical Fighter until the Secretary of Defense certifies that the Air Force has budgeted suficient funds to participate in the full scale development of the Navy's Advanced Tactical Aircraft.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Air-to-air missile project office (sec. 214)

The Senate amendment contained a provision (sec. 218) that would require the Secretary of the Navy and the Secretary of the Air Force to establish joint program offices for the co-development of the Advanced Air-to-Air Missile (AAAM) and the Product Improved Advanced Medium Range Air-to-Air Missile (AMRAAM). The Senate amendment would also authorize $40.4 million for the AAAM program and $30 million for the Product Improved AMRAAM, and further specify that not more than half of the funds could be obligated until the joint project offices had been established.

The House bill contained no similar provision.

The House recedes with an amendment that authorizes $20 million for a Product Improved AMRAAM program and $40.4 million for the AAAM program, and requires a single program office for these two programs.

Training in advanced manufacturing technologies (sec. 215)

The Senate amendment included a provision (sec. 220) that would authorize up to $31 million in fiscal year 1989 for the purchase of high technology manufacturing equipment and the installation of such equipment in a center for advanced manufacturing technology training.

The House bill contained no similar provision.

The House recedes with an amendment limiting the total authorization to no more than $15 million.

Space defense system (sec. 216)

The amended budget request contained no funding for the F-15 launched Miniature Homing Vehicle anti-satellite (MHV ASAT) program.

The House bill (section 202) would prohibit the obligation of $16 million in prior-year funds for this program.

The Senate amendment contained no similar legislative provision; however, it would also deny the obligation of these prior-year funds.

The Senate recedes.

Long-range conventional cruise missile program (sec. 217)

The amended budget request contained $50 million for research and development for the Long-Range Cruise Missile Program.

The House bill would authorize $10 million.

The Senate amendment would authorize the requested amount.

The conferees support the Long-Range Conventional Cruise Missile program and recommend authorization of $30 million. If program execution requires additional funds, the Department of Defense may request additional funding through the normal reprogramming process.

The Senate amendment also contained a provision (sec. 231) that would require the Department to submit a report on the Long-Range Conventional Cruise Missile.

The House bill contained no similar provision.

The House recedes.

Seek spinner (sec. 218)

The House bill would authorize $50 million in research and development to continue the development of the Seek Spinner anti-radiation lethal drone. The House bill also would authorize $15 million in advance procurement for Seek Spinner.

The Senate bill would not authorize funds for this program.

The conferees recommend that no funds be authorized for continued development or procurement of Seek Spinner. The conferees also recommend a provision prohibiting the Department of Defense from obligating any funds for research and development or procurement of Seek Spinner.

The conferees note that the Department of Defense recommended termination of Seek Spinner three years ago when Congress directed that the Department consolidate redundant cruise missile programs. The Department selected the Tacit Rainbow program for further development and procurement because it could be operated by each of the Services. By contrast Seek Spinner could not be operated by the Navy or the Army, and only the Tactical Air Command had a requirement for it in in the Air Force.

Last year Congress directed the Department to conduct a study of all stand-off munitions, and develop a stand-off munitions master plan. That plan has been delivered to Congress and recommends that Seek Spinner be terminated.

The conferees note that limited budget resources do not permit continuation of programs that are redundant to approved Department programs. Consequently, the conferees recommend authorization of the full request for the Tacit Rainbow program and termination of Seek Spinner. Further, the conferees encourage the Air Force to take such actions as are required to recover funds already obligated for the Seek Spinner program.

Moratorium on flight testing of depressed trajectory ballistic missiles (sec. 219)

The House bill contained a provision (sec. 209) that would establish a moratorium in fiscal year 1989 on the testing of depressed trajectory ballistic missiles.

The Senate amendment contained no such provision.

The Senate recedes with an amendment that changes the effective date of the moratorium and requires the Secretary of Defense, in coordination with the Director of Central Intelligence (DCI), to submit to Congress a report by April 1, 1989 that defines in quantitative terms a depressed trajectory ballistic missile. In addition, this report must also contain an evaluation of the United States' capability to monitor Soviet testing of depressed trajectory ballistic missiles, a description of past ballistic missile testing practices of the United States and the Soviet Union, and an evaluation of the possibility that the Soviet Union could deploy depressed trajectory ballistic missiles in the absence of future depressed tradjectory ballistic missile flight testing.

The conferees note that a depressed trajectory ballistic missile is a ballistic missile whose time of flight is less than the time of flight of the same ballistic missile on a minimum-energy trajectory of the same range. However, the specific quantitative definition of a depressed trajectory ballistic missile is a matter of judgment. Accordingly, the conferees have directed the Secretary of Defense, in coordination with the DCI, to supply such a definition. The conferees further direct that the report explicitly state all assumptions made in the descriptions and evaluation contained therein. Specifically, in evaluating the possibility that the Soviet Union could deploy depressed trajectory ballistic missiles without further flight testing, the conferees direct that the report state whether or not it assumes a deviation from established Soviet flight test practices. If such a deviation is assumed, the conferees direct that the report state the magnitude of the deviation. In addition, the conferees direct that the report include a discussion of reentry vehicle, guidance system, and rocket booster characteristics essential to depressed trajectory ballistic missile flight in the section of the report assessing the Soviet Union's ability to develop confidence in a depressed trajectory ballistic missile, without conducting full-up flight tests of such a weapon.

University research initiative (sec. 220)

The amended budget request contained $95 million for the University Research Initiative (URI).

The House bill would authorize $95 million and included a provision (sec. 238) that would broaden the geographic distribution of the funds.

The Senate amendment would authorize $120 million and included a provision (sec. 235) that would allow funds to be obligated in any state without limitation.

The conferees agree to delete both the House and Senate provisions and recommend an alternative provision that will prohibit earmarking of research funds for colleges and universities unless the provision is specifically set aside in each and every case where the set-aside is intended for a specific school. In agreeing to this provision, the conferees express their strong belief that ear marking research funds is not an acceptable practice and has an adverse effect on support efforts for creative, energetic basic research. The conferees believe that Federal funding should be awarded to academic institutions under a competitive process, and have therefore included a provision that will require specific action to circumvent a competitive environment.

The conferees recommend an authorization of $120 million for the URI.

The goal of the URI is to enhance on a nationwide basis the quality of science and engineering graduate education. The current focus of the URI program is multidisciplinary research. Although multidisciplinary research is a viable concept for further enhancing existing research centers of excellence, it does little to improve the overall nationwide science and engineering graduate education infrastructure. Of the funds authorized for the URI, at least $25 million are authorized only for initiating a new program that is focused on improving the overall nationwide science and engineering graduate education infrastructure. All awards under this program will be competitive, with priority being given to concepts employing cost sharing or cooperative agreements with the state and local governments, national and defense laboratories, industry, and existing research centers of excellence. The conferees wish to emphasize that awards under this new program should not be restricted on the basis of the geographical location of participating institutions.

By October 1, 1988, the Secretary of Defense shall provide Congress a plan for initiating the new program and for the eventual transition of the URI program from its current focus of multidisciplinary research to the broader focus of enhancing the nationwide quality of science and engineering graduate education balanced with multidisciplinary research.

Limitation on SDI programs (sec. 221)

The amended budget request contained $4,546 billion for the Strategic Defense Initiative (SDI) for research, development, testing, and evaluation.

The House bill contained a provision (sec. 211) that would authorize $3.183 billion for SDI.

The Senate amendment contained a provision (sec. 221(a)) that would authorize $4,271 billion for SDI.

The conferees agree to authorize $3.738 billion for SDI.

The House bill contained a provision (sec. 215) that would limit authorization of Phase I and related SDI programs to 40 percent of the SDI funds for fiscal year 1989. The Senate amendment contained a provision (sec. 221 (b)) that would authorize specific funding allocations for the Advanced Launch System, the Boost Surveillance and Tracking System, the Exoatmospheric Reentry Vehicle Intercept System, the High Endoatmospheric Defense Interceptor System, and the Gallium Arsenide Integrated Circuit Technology program.

Both the Senate and the House provisions stem from concern about the direction and priorities of the Strategic Defense Initiative program, particularly the Phase I architecture. The conferees are encouraged by the ongoing reassessment of the SDI program by the Administration. The conferees believe that the SDI program should be structured to obtain a balance among the following priorities.

First, there should be research on technologies that will lay the basis for an informed decision as to whether the long-term objectives of the SDI program can be realized. This should include research on directed energy weapons (such as the Free Electron Laser (FEL) and the Neutral Particle Beam (NPB)), survivability techniques, discrimination, and battle management software.

Second, the SDI program should explore defense technologies consistent with the ABM Treaty that might be developed in the near-term to defend against accidental missile launch. In this regard, the conferees agreed to establish a floor of $350 million on fiscal year 1989 funding for ground-based kinetic intercept technologies (such as the Exoatmospheric Reentry Vehicle Intercept System (ERIS) and the High Endoatmospheric Defense Interceptor, (HEDI)). The conferees also agreed that the Space-Based Interceptor (SBI) should not be considered for early deployment, and established a ceiling of $85 million for the SBI. The conferees recognize that sensor and propulsion technologies being developed under the SBI program element may be promising for ground based intercepts and would expect any overall program restructuring to take this into account. The conferees also agreed that the force of the space-based chemical laser program should be on ground-based experiments.

Third, the program should give emphasis to sensor technologies, especially to those programs within the SDI that are essential for other national security missions (such as the Boost Surveillance and Tracking System (BSTS) and the Space Surveillance and Tracking System (SSTS)) and to those technologies with significant military applications in addition to strategic defenses (including advancements in space launch cost reduction, lasers, software development, and sensor, optics and integrated circuit development).

Finally, the conferees note the value of some SDI technologies for spinoff or commercial applications. The conferees note especially the progress of the medical free electron laser program which has been supported by both the Administration and the Congress in fiscal year 1989.

The House recedes with an amendment that authorizes at least $350 million for ground-based kinetic interceptor systems, at least $225 million for the Free Electron Laser technology integration experiment, and not more than $85 million for the Space-Based Interceptor program.

Strategic defense system OT&E organization (sec. 221)

The amended budget request included $10 million to establish a formal strategic defense system (SDS) operational test and evaluation (OT&E) organization.

The House bill would provide no authorization for this organization.

The Senate amendment contained a provision (sec. 221(d)) that would prohibit the establishment of an SDS OT&E activity.

The House recedes with an amendment. The House report (H. Rep. 100-563) expressed the view that investment in operational test and evaluation of a strategic defense system is premature. The conferees endorse this view, and authorize no funds for fiscal year 1989 for an SDS OT&E activity. The conferees note, however, that this action does not alter the responsibilities of the Director, Operational Test and Evaluation and the Service operational test agencies to provide timely assessments necessary to support milestone decisions.

Report on allocation of SDI funding for fiscal year 1989 (sec. 222)

The Senate amendment contained a provision (sec. 222) that would require the Secretary of Defense to report to the Committees on Armed Services and Appropriations of the Senate and House of Representatives within 90 days of the enactment of legislation appropriating funds for the Strategic Defense Initiative (SDI) on how that funding has been apportioned among each program, project and activity of the SDI within each appropriation account.

The House bill contained no similar provision.

The House recedes. The conferees agrees that this provision, similar to a provision in the fiscal years 1988 and 1989 Defense Authorization Act (Public Law 100-180), provides a useful baseline for how the SDI Organization allocates those funds that are finally appropriated to the SDI for RDT&E and other purposes during fiscal year 1989. In the absence of this report, the Congress would not receive such detailed allocation information until the submission of the fiscal year 1990 budget request.

Development and testing of ABM systems or components (sec. 223)

The Senate amendment contained a provision (sec. 223) that specified that funds provided to the Defense Department for fiscal year 1989 and previous years for the development or testing of anti-ballistic missile (ABM) systems or components may not be obligated or expended unless such development or testing is consistent with the development and testing described in the March 1988 Strategic Defense Initiative Organization (SDIO) report.

At a hearing of the Strategic Forces and Nuclear Deterrence Subcommittee of the Senate Armed Services Committee on April 18, 1988, Dr. Robert B. Costello, the Under Secretary of Defense for Acquisition and the senior DOD official responsible for reviewing the compliance of DOD programs with U.S. legal obligations, testified that statements contained in Appendix C of the March 1988 SDIO report ("SDI Compliance with the ABM Treaty") meant that the Administration has no requirement or plan for any SDI development or testing—including for any long lead acquisition of unique material or equipment for such development or testing—in fiscal year 1989 that would conflict with a similar restriction (sec. 225) in the fiscal years 1988/1989 Defense Authorization Act (Public Law 100-180).

The House bill contained a virtually identical provision (sec. 212) that would specify that funds provided to the Defense Department for fiscal year 1989 and previous years may not be obligated or expended for any experiment, test, or purchase of equipment that is inconsistent with the April 18, 1988 testimony of Dr. Costello.

The House recedes.

Accidental launch protection (sec. 224)

The House bill contained a provision (sec. 216) that would express the sense of Congress that the Strategic Defense Initiative Organization (SDIO) should concentrate development efforts for the first phase of a strategic defense system on an Antiballistic Missile (ABM) Treaty-compliant system capable of protecting the United States from the accidental launch of an intercontinental ballistic missile (ICBM).

The Senate amendment contained no similar provision.

The Senate recedes with an amendment expressing the sense of the Congress that the Secretary of Defense should direct the SDIO to give priority to development of a deployment option for an ABM Treaty-compliant accidental launch protection system.

B-1B bomber program (sec. 231)

The House bill contained a provision (sec. 221) that would (1) limit the obligation of funds for RDT&E on the B-1B bomber pending receipt of a required report; (2) require a report on the total cost of planned and programmed enhancements to the B-1B; and (3) direct the Air Force to evaluate and flight test alternatives to the trouble-plagued ALQ-161 defensive avionics system on the B-1B.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees agree with the general thrust of the House provision, but do not believe a decision to embark on a commitment to installation and flight testing of alternatives to the ALQ-161 is justified at this time. On the other hand, the conferees remain concerned about whether the Air Force two-year "recovery plan" for the ALQ-161 will be successful in restoring a meaningful electronic warfare capability. While the conferees agree that the combination of lower radar cross-section, higher penetration speed, and better low-altitude flight capabilities represent important advancements in penetration capability relative to the B-52 fleet, the conferees continue to believe that electronic countermeasures will play an increasingly important role in the B-1B's ability to carry out its penetration missions.

Last year, the conferees directed the Air Force to develop a comprehensive, two-year recovery plan for the ALQ-161, and to report bimonthly on the progress achieved. While some progress has been achieved, the ultimate success of the program is not clear, and, therefore, the conferees believe it is prudent to direct the Air Force to establish a modest fallback effort. Accordingly, the conferees recommend authorization of $15 million, which shall be used only to conduct detailed evaluations, including "form, fit, and function" analyses of the applicability of existing electronic warfare systems to replace some or all of the ALQ-161 system. The conferees intend this action to provide options for the Committees to review in conjunction with the budget request for fiscal years 1990 and 1991 and the progress on the Air Force's ALQ-161 recovery plan next year. Should the Air Force or the Congress determine that the ALQ-161 recovery plan is not succeeding, this action should serve both to identify other feasible options and their costs and to shorten the lead-time for the implementation of one of the options.

The Senate recedes with an amendment.

Advanced technology bomber (B-2) (sec. 232)

The House bill contained a provision (sec. 222) that would require: A full performance matrix to be included as part of the B-2 cost, performance, and management initiative required in last year's Authorization Act; a report on total program cost of the B-2 in current and constant dollars; an independent GAO cost audit and analysis; and a review of the current system for monitoring and tracking the costs of the B-2 program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree to accept the general thrust of the House provision but with certain modifications, emphasizing an independent GAO cost review and the concern of the conferees for the ability of the Air Force and the DOD to control the costs of the program. The conferees endorse the continued development and low-rate production of the aircraft, because of its revolutionary penetration capabilities. However, the conferees continue to be concerned by the potential for programmatic cost growth on the part of the prime contractor and the two major subcontractors to affect the overall schedule and affordability of the program.

Sense of Congress on strategic missile modernization (sec. 233)

The Senate amendment contained a provision (sec. 232) that would express the sense of the Senate that the authorization of funds in this Act for research and development for both the Small ICBM and the rail-garrison MX missile systems does not constitute a commitment or express an intent to provide funds to procure and deploy either or both systems.

The House bill contained no similar provision.

The House recedes with an amendment changing the provision to the sense of Congress. In addition, the amendment deletes the findings from the Senate provision, because these findings had been previously stated in a similar provision (sec. 220) contained in the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180).

Advanced submarine technology (sec. 241)

The amended budget request did not include funds for the Advanced Submarine Technology Program.

The House bill would authorize $114 million for this purpose, with accompanying language concerning the execution of the program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees recommend authorization of $65 million for the Advanced Submarine Technology Program under the management of the Defense Advanced Research Projects Agency. The conferees agree that this program should be funded at $100 million per year in order to maintain a desired level of effort; however, since the program was initiated in fiscal year 1988 and funding obligations were delayed six months due to the inertia inherent in a program start-up, $65 million is considered adequate in fiscal year 1989 to maintain a $100 million annual program. The conferees agree that the Defense Advanced Research Projects Agency should actively manage this program in a manner to ensure that the broadest range of technological disciplines and expertise will be brought to bear. Accordingly, the language of the House report (H. Rept. 100-563) concerning program execution, as revised, is affirmed and should stand as final guidance for this program, which is anticipated to have a life of approximately five years.

The Secretary of Defense is directed to act in the future to fund this program at levels that will ensure that the congressional intent is carried out.

EMPRESS II (sec. 242)

Both the House bill (sec. 235) and the Senate amendment (sec. 212(c)) would prohibit the Secretary of the Navy from conducting tests of electromagnetic pulses in the Chesapeake Bay area in connection with the Electromagnetic Pulse Radiation Environment Simulator Program for ships (EMPRESS). The House bill would effect a permanent prohibition; the Senate amendment would limit the prohibition only to fiscal year 1989.

The Senate recedes.

Space control (sec. 243)

The House bill contained a provision (sec. 939) that would require the Secretary of the Navy to submit a comprehensive plan to counter Soviet satellites used to locate, target, and destroy U.S. naval vessels.

The Senate amendment contained a provision (sec. 236) that would require a comprehensive report that includes the requirements underlying the space control mission, a net assessment of U.S. and Soviet space control capabilities, and a plan to satisfy space surveillance requirements.

The House recedes.

Advanced tactical reconnaissance system competition (sec. 244)

The Senate amendment contained a provision (sec. 927) that would require the Secretary of the Air Force to submit a report outlining his plans for establishing competition in the development and procurement of components for the Advanced Tactical Reconnaissance System.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

High temperature superconductivity

The House bill continued two provisions (secs. 203(c) and 203(e)) that would direct that certain amounts be available to the Defense advanced Research Projects Agency (DARPA) only for high temperature superconductivity work.

The Senate amendment contained no similar provision; however, it would authorize $27 million to DARPA for high temperature superconductor manufacturing technology.

The House recedes on both provisions. The conferees affirm their intent that additional authorization be provided for research in high temperature superconductivity. Further discussion of this issue is included under the section of the statement of managers that addresses the Defense Advanced Research Projects Agency.

Vector thrust project (DP-2)

The House bill contained a provision (sec. 203(d)) that would urge the Secretary of Defense to transfer funds to continue the DP-2 Vector Thrust Project of the Defense Advanced Research Projects Agency if the results of on-going tests warrant the continuation of the project.

The Senate amendment included no similar provision.

The House recedes. The conferees agree, however, that the Vector Thrust Project (DP-2) may offer significant improvements to military aircraft performance. Accordingly, the conferees affirm the intent of the House provision, and urge that the Secretary of Defense transfer funds to continue the program should test results warrant. The conferees have also included this program as a possible candidate in the Product Evaluation Activity addressed elsewhere in this statement of managers.

Block 2 upgrade for Army tactical missile system

The House bill contained a provision (Sec. 206) that would require that $20 million be provided only for the development of a Terminally Guided Sub Munition (TGSM) for the Army Tactical Missile System (ATACMS).

The Senate amendment contained no similar provision.

The House recedes. The conferees recommend an authorization of $10 million.

The conferees believe that the Army should be developing anti-armor capability for modern weapon systems, and especially those weapons designed for follow on forces attack. The conferees fully support the speedy development of a block upgrade to the Army Tactical Missile System, which should feature, but not be limited to, improved terminally guided submunitions.

Red team analysis of SDI program

The House bill contained a provision (sec. 213) that would direct the Secretary of Defense to conduct an independent adversarial (or so-called red team) analysis of the Strategic Defense Initiative (SDI) program, in order to enhance the credibility of SDI plans and programs.

The Senate amendment contained no similar provision.

The House recedes. The conferees agree that it would be highly desirable for the Secretary of Defense to establish an independent "red team"—one wholly *outside* the direction, control, or influence of the SDI organization—to review the range of potential Soviet responses, both political and technical, to the current SDI program plans. The analyses should examine a broad range of potential Soviet responses and U.S. countermoves and assess the potential effectiveness of those moves and countermoves. The conferees strongly urge the Secretary to establish such an independent group, and to direct the necessary resources from the SDI Organization to support such an activity.

Joint integrated avionics

The House bill contained a provision (sec. 232) that would require the Secretary of Defense to designate a Director of Joint Service Avionics to head a Joint Service Avionics Management Office. The Director would oversee the incorporation of joint avionics systems into future aircraft systems currently under development in the Military Departments. The Director would control the distribution of funds for avionics development for future weapon systems.

The House bill also contained a provision (sec. 205) that would provide authorization of not less than $50 million for engineering development of the joint Integrated Communications Navigation Identification Avonics (ICNIA) program. Further, the House provision would specify that $3 million of the funds authorized shall be available to the Army only for a helicopter test bed for the ICNIA program.

The Senate amendment contained no similar provisions.

The House recedes with the following language.

The conferees support the concept of Service execution and management of a joint avionics process through the Joint Integrated Avionics Plan and the Joint Integrated Avionics Working Group (JIAWG). The conferees believe JIAWG, as supervised by the Service acquisition executives, is sufficient to develop integrated avionics tailored to specific aircraft, while maximizing commonality and fulfilling the intent of streamlined acquisition as described in the Goldwater-Nichols Department of Defense Reorganization Act of 1986; however, oversight by the Office of the Secretary of Defense (OSD) should be more focused to provide explicit guidance. The conferees note the current JIAWG is undergoing a restructuring, and the funding for integrated avionics in the fiscal year 1989 amended budget request was not sufficient. Therefore, the conferees direct the Under Secretary of Defense (Acquisition) to submit to the Committees on Armed Services of the Senate and House of Representatives, by December 1, 1988, a report on the feasibility of centralizing and strengthening existing OSD oversight of joint avionics development within the current OSD organization.

To address funding shortfalls, the conferees recommend additional authorization of

$34.7 million for the Air Force for joint integrated avionics. Of the $34.7 million recommended for authorization, $5.7 million is to be utilized for implementation of JIAWG avionics; $26 million is to be utilized for full scale development of common modules for integrated communication, navigation, and identification avionics; and $3 million is to be utilized for testing integrated communications, navigation, and identification avionics is a helicopter test bed such as an Army UH-60 Blackhawk.

This program initiative is not intended to delay the Air Force's Advanced Tactical Fighter (ATF), the Navy's Advanced Tactical Aircraft (ATA), or the Army's light helicopter (LHX) program. Rather, this approach provides for the concurrent development of modules and the supporting architectural elements of the JIAWG standard integrated avionics suites to reduce risk in meeting the ATF, ATA, and LHX aircraft schedules. In view of this objective, the conferees expect the Department of Defense to include sufficient funding in future budget requests.

Live fire testing programs

Section 236 of the House bill would amend section 2366(b)(3) of title 10, United States Code, to allow the Secretary of Defense to conduct live fire testing and to evaluate such testing using appropriations available for procurement of the systems being tested.

The Senate amendment contained no similar provision.

The House recedes. The conferees agree with the intent of the House provision to allow the Secretary of Defense to reprogram up to one third of one percent of the total funds approved by Congress for the procurement of a specific system that has been identified as a live fire testing candidate, for the purpose of conducting necessary vulnerability/lethality live fire tests and evaluations in compliance with the fiscal years 1987 and 1988 Defense Authorization Acts (Public Laws 99-661 and 100-180). The conferees agree to provide this discretionary authority to the Secretary of Defense through this statement of managers.

National Center for Manufacturing Sciences

The Senate amendment contained a provision (sec. 213(a)) that would authorize $5 million from the Air Force Manufacturing Technology (MANTECH) program only for the National Center For Manufacturing Sciences (NCMS).

The House bill contained no similar provision; however, the House report (H. Rept. 100-563) contained language that would direct the Air Force to obligate $5 million from the Air Force MANTECH program (identified as the Air Force Industrial Preparedness program) to support NCMS. The House report would also provide $10 million within the Air Force Industrial Preparedness program to complete a two phase program for modernizing the MARQUADT jet laboratory (MJL) facility and for meeting demanding requirements for ongoing and future hypersonic ramjet and scramjet programs such as the National Aerospace Plane (NASP) technology program.

The Senate recedes. The conferees direct that the Air Force obligate $5 million from the Air Force Industrial Preparedness program to support NCMS; however, the conferees do not agree with the House report language directing $10 million from the Air Force Industrial Preparedness account to MJL. The conferees support the requirement to enhance the nation's hypersonic testing facilities, but are concerned about utilizing industrial preparedness funds and the specific designation of a facility on a noncompetitive basis to receive these funds. The conferees, therefore, agree to authorize up to $10 million within the National Aerospace Plane technology program to establish a program to enhance industrial hypersonic testing facilities.

Consolidated DOD software initiatives program

Section 214(b) of the Senate amendment would authorize $45.12 million ($8 million above the amended budget request) only for the Defense Advanced Research Projects Agency for the Consolidated Department of Defense Software Initiatives program.

The House bill contained no similar legislative restriction, but would also authorize $45.12 million. The Senate and House reports (S. Rept. 100-326 and H. Rept. 100-563) both specifically would direct that of the $45.12 million, at least $18.9 million would be available only for the Department of Defense Software Engineering Institute (SEI).

The Senate recedes. The conferees recommend an authorization of $45.12 million and direct that at least $18.9 million be available only for the DOD Software Engineering Institute.

Mark XV identification friend or foe

The Senate amendment contained a provision (sec. 217) that would limit the amount the Department of Defense could obligate on combat identification systems until the Secretary of Defense made certain certifications to the Congress concerning combat identification systems.

The House bill contained no similar provision.

The Senate recedes.

The conferees concur with the Senate position that combat identification persists as one of the most important deficiencies in the NATO Alliance. NATO identified combat identification as one of its key deficiencies twenty years ago, but little progress has been made to correct that deficiency. The conferees share the concern that the Department's program to rectify combat identification problems is inadequate. Further, the conferees understand that the current program is subject to even further reductions and delays in the Department's planning for the Five Year Defense Program for fiscal years 1990 to 1994.

The conferees intend to focus on the problem of combat identification during consideration of the Five Year Defense Program for fiscal years 1990 to 1994. To that end, the conferees direct the Department of Defense to take the following action:

(1) The Secretary of Defense shall conduct a comprehensive fratricide assessment of U.S. forces, to include air-to-air and surface-to-air fratricide. The fratricide assessment shall consider combat identification capabilities and force levels in three time periods: 1990, 1995, and 2000. The fratricide assessment should indicate which programs and capabilities produce changes over these periods.

(2) The Commander-in-Chief of the U.S. European Command shall report to the Secretary his assessment of the adequacy of NATO's combat identification systems, and the extent to which the Five Year Defense Program removes the deficiencies in combat identification for U.S. forces. The Commander-in-Chief shall also report on the adequacy of the plans of other members of the NATO alliance to redress deficiencies in combat identification.

(3) The Director of Defense Research and Engineering shall conduct a comprehensive evaluation of all non-cooperative combat identification programs. That evaluation shall include an assessment of the technical status and risk of each program, as well as the Services' management of those programs.

The conferees direct that the Department not obligate more than 50 percent of the research and development funds appropriated pursuant to authorization for combat identification until the Secretary has submitted to the Congress the reports and studies noted above. The programs included in the obligation limitation are P.E. 603706A, 604709A, 604211N, 603724F, and 604725F.

Satellite R&D

The Senate amendment (sec. 219) would apply an undistributed reduction to the Global Positioning System (GPS), the Defense Satellite Communications System (DSCS), the Defense Meteorological Satellite Program (DMSP), and the Defense Support Program (DSP) satellite R&D programs.

The House bill would authorize the amounts contained in the amended budget request.

The Senate recedes. The conferees agreed to the Senate position and to the rationale contained in the Senate report (S. Rept. 100-326) but see no need for a legislative provision.

TITLE III—OPERATION AND MAINTENANCE AND WORKING CAPITAL FUNDS

OVERVIEW

The House bill would authorize $85,700,879,000 for Department of Defense Operation and Maintenance accounts and $768,500,000 for Working Capital Fund accounts, an increase from the amended budget request of $51,879,000 and $5,000,000, respectively.

The Senate amendment would authorize $85,521,280,000 for Department of Defense Operation and Maintenance accounts and $693,500,000 for Working Capital Fund accounts, a reduction of $127,700,000 and $70,000, respectively.

The conferees agree to authorize $85,497,500,000 for Department of Defense Operation and Maintenance accounts and $688,500,000 for Working Capital Fund accounts, as reflected in the following tables. This level of authorization represents a reduction from the amended budget request of $151,500,000 and $75,000,000, respectively.

ITEMS OF SPECIAL INTEREST

Morale, welfare and recreation

The conferees generally endorse the recommendations and direction issued by the House report (H. Rept. 100-563) and urge the Department of Defense to continue its efforts to manage morale, welfare, and recreation (MWR) activities in a more uniform and efficient manner. The conferees wish to clarify a number of points in the report and provide additional guidance to the Department of Defense.

The conferees believe that MWR activities in the Department of Defense should be divided into three categories in lieu of the four categories advocated by DOD. For those activities that were in the category that is being disestablished and that are being assigned to the business activity category (for which no direct appropriated fund support is provided), the Department of Defense may submit to the Committees on Armed Services of the Senate and House of Representatives by October 1, 1988, a list of activities by base, supported by appropriate justification, to be exempt from assignment to this category and to be assigned instead to the basic community support category (for which a combination of appropriated and non-appropriated fund support is authorized). The conferees expect the Department of Defense to exercise this option judiciously on the basis of the location of these activities, such as isolated, remote locations or locations that are exceptional because of conditions which make them practically identical to isolated, remote locations in terms of MWR. The exemption will be subject to the approval of the Committees on Armed Services of the Senate and House of Representatives.

With respect to the phase out of appropriated fund civilian employees and military personnel from business activities, the conferees direct the Department of Defense to expedite the action to provide portability of benefits between civil service and non-appropriated fund employees. The conferees also direct the Department of Defense to identify those military personnel who are currently serving in the activities being religned to the business activities category who have been assigned a primary skill with the reasonable expectation of retaining this skill as a career skill. The conferees expect the Department of Defense to provide for retraining of those personnel to other skills. In the case of personnel who are within four years of retirement or completion of an active duty service commitment, the Department of Defense may develop a plan for the utilization of these personnel in business activities until October 1, 1992. The Department of Defense will submit this plan by December 31, 1988 to the Committees on Armed Services of the Senate and House of Representatives for approval.

With respect to the reimbursement of non-appropriated fund Services with appropriated funds, the conferees are disappointed at the apparent inability of the Office of the Secretary of Defense to provide definitive, uniform guidance to the military Services. Therefore, the conferees direct the Department of Defense to cease this practice by October 1, 1990.

Finally, with respect to the transfer of package store activities to the exchanges, the conferees expect the Department of Defense to provide a reasonable employment transition option for personnel currently employed by package stores.

Joint use of Selfridge AFB, Michigan

The conferees from the House of Representatives note that, given the opposition of the Air Force to making Selfridge Air Force Base, Michigan, a joint use facility, it would require an act of Congress to direct such joint use. The House conferees state their opposition to any such joint use and to any such future act of Congress.

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Humanitarian assistance (sec. 303)

Both the House bill and the Senate amendment contained a provision (section 303) that would continue a program of transportation of humanitarian aid to persons who are refugees because of the invasion of Afghanistan by the Soviet Union and to the non-Communist resistance organization at or near the border between Thailand and Cambodia. Both provisions would provide that of the amount authorized in section 301 for humanitarian aid ($13 million), $10 million would be for the Afghan programs and $3 million would be for the Southeast Asia program. As in previous years, the transportation provided under this section would be under the direction of the Secretary of State.

The only differences between the two provisions were minor differences in the reporting requirements to Congress. The conferees believe the Senate version is preferable. Therefore, the House recedes.

Tripler Army Medical Center (sec. 304)

The Senate amendment contained a provision (sec. 305) that would direct the Department of Defense to establish a video teleconferencing center for the Tripler Army Medical Center.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Assistance to the 1990 Goodwill Games (sec. 305)

The House bill would authorize $5 million for Defense Department security support for the 1990 Goodwill Games in Seattle, Washington.

The Senate amendment contained no similar authorization.

The Senate recedes with an amendment.

The conferees agreed to authorize the Secretary of Defense to provide logistical support and personnel services on a reimbursable basis to Federal, State and local government entities in connection with the 1990 Goodwill Games to be held in Seattle, Washington. The Secretary of Defense, under specified circumstances, may waive the requirement for reimbursement for logistical support and personnel services to the Goodwill Games to ensure the security of persons and property in connection with the Games. In order for the Secretary to exercise this waiver authority, the Attorney General must (1) certify to the Secretary that there are significant potential threats to the security of persons or property, or both, at the Games, and that other Federal, State and local entities concerned do not have the capability to deal adequately with such potential threats; and (2) recommend that the requirement for reimbursement be waived because such reimbursement is in the national interest and unusual circumstances make it impractical for Federal, State and local entities to reimburse the Secretary.

The provision requires that waivers for reimbursement be made by the Secretary on a case-by-case basis. The conferees included this requirement to ensure that a blanket waiver is not given by the Secretary for the entire range of security support services provided by the Department of Defense. Rather, it is the intent of the conferees that the waiver authority be used for particular categories of equipment and services on the basis of specific demonstrated need.

This provision also authorizes up to $5 million to be appropriated for DOD support to the Goodwill Games in fiscal year 1989. In computing the amount that has been expended to carry out this provision, the Secretary shall include the pay and allowances of Members of the Reserve Components called to active duty to provide support to the Goodwill Games and exclude the pay and non-travel related allowances of active duty military members supporting the Games.

Inaugural assistance (sec. 306)

The conferees are concerned that the authority contained in section 2543 of title 10, United States Code, for the Secretary of Defense to provide support to the Inaugural Committee may not provide sufficient flexibility to encompass the full range of support that the military Services have traditionally and customarily provided to the ceremonies marking the inauguration of the President. Accordingly, the conferees have included a provision giving the Secretary of Defense additional authority during fiscal year 1989 to lend materials or supplies and provide materials, supplies or services of personnel to the Inaugural Committee under conditions prescribed by the Secretary.

The conferees believe that in providing this increased flexibility, the Inaugural Committee should reimburse the Secretary of Defense for the materials, supplies or services of personnel provided to it in connection with any event that is not a public event. The conferees also believe that when providing the services of members of the armed forces to the Inaugural Committee for any event that is not a public event, the Secretary should utilize only members of the armed forces who have volunteered for service with the Inaugural Committee.

Prohibition on financing certain activities by direct appropriations (sec. 311)

The House bill contained a provision (Sec. 311) that would prohibit the conversion of the Naval Avionics Center, Indianapolis, Indiana; the Naval Air Engineering Center, Lakehurst, New Jersey; and the Naval Civil Engineering Laboratory, Port Hueneme, California, from industrial funding to direct operation and maintenance funding.

The Senate amendment contained a similar provision (sec. 311).

The House recedes.

Prohibition on joint use of Dobbins Air Force Base with civil aviation (sec. 312)

The House bill contained a provision (sec. 312) that would prohibit the Secretary of the Air Force from entering into an agreement to allow joint use of Dobbins Air Force Base in Marietta, Georgia, with civil aviation.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Prohibition on purchases of Toshiba products for resale in military exchange stores (sec. 313)

The House bill contained a provision (sec. 313) that would prohibit the Department of

Defense from purchasing any product manufactured or assembled by Toshiba America, Incorporated (or any of its affiliates or subsidiaries) for the purpose of resale, either directly or by concessionaire, in a military exchange store or in any other morale, welfare or resale activity operated by the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree to an exception to the prohibition in the House provision for microwave ovens manufactured or assembled in the United States. The conferees also agree to make the House provision effective for three years after the date of enactment.

Limitation on funding for United States Southern Command airlift (sec. 314)

The House bill contained a provision (Sec. 301(d)) that would provide that of the amounts authorized for the Operation and Maintenance, Air Force account in fiscal year 1989, $11.5 million would be available only for contracting for aircraft with short takeoff and landing (STOL) capability for the United States Southern Command. The provision would also prohibit obligation of fiscal year 1989 Operation and Maintenance, Air Force funds for a contract for STOL-capable aircraft until the Secretary approves and submits to the Committees on Armed Services of the Senate and House of Representatives a requirements document and acquisition plan, including costs and schedule information, for an aircraft with short takeoff and landing capability for the United States Southern Command.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree to require a requirements document and acquisition plan from the Secretary of Defense before obligation of any fiscal year 1989 funds from the Operation and Maintenance, Air Force account for a contract for STOL-capable aircraft.

One-year extension of limitation on Army depot maintenance funding (sec. 315)

The House bill contained a provision (sec. 314) that would extend to fiscal year 1989 the requirement contained in section 314 of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180) that no less than 60 percent of the appropriations for Army depot maintenance may be used to perform workload in-house, unless the Secretary of the Army submits a report indicating that this objective cannot be met and the reasons for this deviation.

The Senate amendment contained no similar provision.

The Senate recedes.

Operation of SR-71 depot rework facility (sec. 316)

The Senate amendment would authorize an additional $20 million for SR-71 squadrons, directing that the Air Force use those funds to maintain the existing rework facility at Palmdale, California, which serves as the depot for the SR-71 fleet.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees note that the funding for the rework facility should occur through the operations and maintenance account. The conferees recommend that the Air Force retain operation of the existing rework facility through fiscal year 1989.

Management of civilian personnel during fiscal year 1990 (sec. 317)

The House bill contained a provision (sec. 330) that would repeal the requirement for the authorization of civilian personnel appropriations by end-strength, as requested by the administration. The House provision would also require the Secretary of Defense to submit an annual report on funds spent for civilian personnel, and exempt "indirectly funded government employees" from this reporting requirement.

The Senate amendment contained a provision (sec. 431) that would authorize civilian personnel end-strengths for each component of the Department of Defense for fiscal year 1989 as required by section 115 of title 10, United States Code.

The Senate recedes with an amendment.

The conferees agreed to extend for two more years the lifting of congressional end strength ceilings and to continue the prohibition of Department of Defense management of civilian personnel or related methodology through fiscal year 1990.

The conferrees also agreed to change from quarterly to semi-annually the reporting requirements on the number and dollar obligations associated with Department of Defense civilians.

Limitations on operation of existing Poseidon-class submarines (sec. 318).

In view of the severe budgetary constraints faced by the Department of Defense, the conferees agree to prohibit the expenditure of funds to overhaul, maintain, operate, or deploy the USS *James Monroe* (SSBN 622) after September 1, 1989. The conferees expect the Navy to dispose of the submarine in a manner consistent with the disposition of previous Poseidon-class submarines that were withdrawn from service. The conferees also agree to prohibit the expenditure of funds to overhaul, operate or deploy the USS *Henry Clay* (SSBN 625) after September 1, 1989. The conferees expect the Navy to withhold the submarine from operations in a manner consistent with the normal handling of ballistic missile submarines in a non-deployed status.

Limitation on private operation of commissary stores (sec. 321)

The House bill contained a provision (sec. 321) that would prohibit any full-store privatization or contracting out of procurement functions for military commissaries.

The Senate amendment contained a similar provision (sec. 321).

The House recedes.

Allowable costs with respect to certain service contracts performed overseas (sec. 322)

The House bill contained a provision (sec. 322) that would prohibit the Secretary of Defense or the Secretary of a Military Department from entering into any overseas contract that allows for the payment of severance pay greater than the typical rate of severance pay in the United States or contracts that require the Government to reimburse a contractor for overseas banking services for bad debt expenses.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree with that part of the House provision prohibiting the entering into any overseas contract allowing for the payment of severance pay greater than the typical rate of severance pay in the United States. The conferees do not agree with the bad debt expense segment. The conferees direct the Secretary of Defense to pursue aggressively the Department of Defense program to assign overseas military banking program bad debts to the U.S. Government and to initiate involuntary collection of these debts. The conferees also direct the Secretary of Defense to determine the feasibility and to develop an implementation plan to transfer overseas military banking activities to military exchanges in line with the recommendations put forth in the November 1987 report entitled, "DOD Study of Overseas Financial Services." The feasibility and implementation plan is to be submitted to the Committees on Armed Services of the Senate and House of Representatives six months after enactment.

Authority to continue support of scouting activities overseas (sec. 323)

The House bill contained a provision (sec. 323) that would permit, for locations outside of the United States, scouting professionals to travel at the expense of the Government while providing scouting services and would provide without charge office, warehouse, and recreational facilities and communication equipment. Additionally, the provision would permit supplies of the Boy Scouts of America and the Girl Scouts of America to be used in the furtherance of scouting programs for the armed forces to be transported at Government expense. This provision would also allow the Secretary of the Military Department concerned to reimburse the Boy Scouts of America and the Girl Scouts of America from available nonappropriated funds for all or part of the pay of an employee of these Scouting organizations who are performing scouting services in a foreign country in support of the armed forces.

The Senate amendment contained no similar provision.

The Senate recedes.

Transfers and exchanges of certain documents, historical artifacts and condemned and obsolete combat material (sec. 324)

The House bill contained a provision (sec. 324) that would include historical societies, historical institutions, veterans' organizations and foreign museums on the list of eligible recipients for loan or donation of books, works of art, drawings, plans, models, and condemned or obsolete combat material that are no longer needed by the Department of Defense. Additionally, the provision would permit the Secretary concerned to exchange such items with individuals and public and private organizations, institutions, or agencies.

The Senate amendment contained no similar provision.

The Senate recedes.

Qualifications for head of auditing function in Military Departments (sec. 325)

The House bill contained a provision (sec. 325) that would establish minimum qualifications for auditors general within each Service and would give the Department of Defense Inspector General authority to approve each new auditor general selectee. In adition, this provision would prohibit the use of military personnel in certain key supervisory positions within the Naval Audit Service.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees agree to establish minimum qualifications for auditors general within each Service, and agree to prohibit the use of military personnel in certain key supervisory positions within the Naval Audit Service. The conferees also agree that the Navy should replace the militiary officers serving in these key supervisory positions within one year with highly skilled and professional civilian audit managers. The conferees direct the Navy to conduct a thorough and extensive search for candidates to fill these positions. The conferees do not agree that approval by the Department of Defense Inspector General of each auditor general selectee should be required.

Prohibition on certain depot maintenance workload competitions (sec. 326)

The House bill contained a provision (sec. 326) that would prohibit the Secretary of Defense from requiring the Secretary of the Army or the Secretary of the Air Force from competing depot workloads between themselves or with private contractors.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Report on manpower, mobility, sustainability and equipment (sec. 327)

The House bill contained a provision (sec. 328) that would make permanent the annual reporting requirement contained in section 317 of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180). Under this requirement, the Secretary of Defense must submit a report to the Committees on Armed Services of the Senate and House of Representatives on the status of Department of Defense efforts to identify and measure readiness and to relate such indicators and measurements to the budget process.

The Senate amendment contained no similar provision. However, the Senate report (S. Rept. 100-326) directed the Secretary of Defense to submit a consolidated report on manpower, mobilization, sustainability and readiness to the Committees on Armed Services of the Senate and House of Representatives not later than February 15, 1988.

The Senate recedes with an amendment. The conferees agree to require a report from the Secretary of Defense for fiscal year 1989 as outlined in the Senate report.

Lease of aircraft for fleet electronic warfare support group activities (sec. 328)

The Senate amendment contained a provision (sec. 919) that would authorize the lease of an aircraft to support fleet electronic warfare activities.

The House bill contained no similar provision.

The House recedes.

Requirements for certain Circular A-76 procedures (sec. 331)

The House bill contained a provision (sec. 316) that would require the Secretary of Defense to include retirement system costs of both the Department of Defense and the contractor in any comparison of the cost of performing commercial activities in the Department of Defense under Office of Management and Budget (OMB) Circular A-76. The provision would also require DOD officials responsible for determining under OMB Circular A-76 whether to convert to contractor performance any commercial activity in DOD to consult monthly during the review process with the civilian employees who will be affected by the determination.

The Senate bill contained no similar provision.

The Senate recedes with a technical amendment.

Performance of firefighting and security guard functions at Amchitka, Alaska (sec. 332)

The Senate amendment contained a provision (sec. 304) authorize the Secretary of the Navy to contract for the performance of firefighting and security guard functions required by the Navy at Amchitka, Alaska.

The House bill contained no similar provision.

The House recedes.

Defense supply management studies and modernization plan (sec. 341)

The House bill contained a provision (sec. 341) that would require the Secretary of Defense to carry out and complete within one year after enactment a comprehensive study to determine the effectiveness of Department of Defense procedures for ensuring security and control for supplies at DOD depots. This study would be submitted to the Committees on Armed Services of the Senate and House of Representatives 18 months after enactment, and would be reviewed by the General Accounting Office. This provision would also require the Secretary of Defense to conduct a cost-benefit analysis of the practice of selling surplus DOD munitions to the public; to develop methods for the identification and accounting for individual items of ammunition, explosives and other DOD supplies that are susceptible to pilferage; and to prepare a plan for the modernization of the supply facilities and supply distribution procedures of each of the Military Departments and Defense Agencies.

The Senate amendment contained a similar provision (sec. 331).

The House recedes with an amendment. The conferees agree to modify the requirement for the Secretary of Defense to conduct a cost-benefit analysis of the practice of selling surplus munitions to the public to include licensed dealers.

Supply security and control improvements (sec. 342)

The House bill contained a provision (sec. 342) that would require the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives on security and control of Department of Defense supplies. This provision would also direct the Secretary of Defense to require an investigation of each discrepancy in an accounting for supplies of the Department of Defense involving an amount exceeding the amount determined under procedures prescribed by the Secretary; direct the Secretary, to the extent feasible, to require that the job functions of supply ordering and supply receiving be performed by different offices and individuals; and require the Secretary to ensure that an individual's performance in accounting for supplies of the Department of Defense is taken into account in evaluating an individual's job performance and fitness for promotion or assignment to a position of command.

The Senate amendment contained a similar provision (sec. 332), but did not include the requirement relating to individual's performance in accounting for supplies. Instead, the Senate report (S. Rept. 100-326) urged Defense Department managers to comply with DOD Instruction 4140.35, "Physical Inventory Control for DOD Supply System Material", which requires that the heads of DOD Components shall, "Ensure that materiel accountability and inventory accuracy are mandatory elements in military and civilian personnel performance for individuals directly responsible for the caring, safekeeping, managing and reporting of DOD supply system material."

The House recedes.

Inventory investigations (sec. 343)

The House bill contained a provision (sec. 343) that would express the sense of Congress that the use of undercover investigative techniques by the Department of Defense enhances the ability of the Department to detect and investigate theft of government property from the DOD supply system. The provision would urge the Secretary of Defense to continue conducting such undercover investigations.

The Senate amendment contained a similar provision (sec. 333).

The House recedes.

Reports to the Secretary of the Treasury of losses of munitions (sec. 344)

The Senate amendment contained a provision (sec. 334) that would require the Secretary of Defense to report the theft or other loss of any ammunition, destructive device, or explosive material from Department of Defense stocks to the Secretary of the Treasury within 24 hours after the discovery of such theft or loss.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees agree to require the Secretary of Defense to report the theft or other loss of any ammunition, destructive device, or explosive material from DOD stocks to the Secretary of the Treasury within 72 hours after the discovery of such theft or loss. The conferees further agree that items determined to be of low risk and of minimal utility to criminal elements may be excluded from this reporting requirement based on a Memorandum of Agreement between the Secretary of Defense and the Secretary of the Treasury.

Study of Department of Defense safety standards for transportation of hazardous materials (sec. 351)

The House bill contained a provision (sec. 353) that would require the Secretary of Defense to submit to Congress a report on the adequacy of Department of Defense safety standards for the transportation of hazardous materials not later than one year after the date of enactment.

The Senate amendment contained no similar provision.

The Senate recedes.

Report on the use of degradable plastic items by the Defense Department (sec. 352)

Section 944 of the Senate amendment would direct the Secretary of Defense to conduct a study to identify the types of disposable plastic items used in fiscal year 1989 by the Department of Defense; to determine which items were biodegradable and which were not; and to report on the feasibility and costs of substituting agricultural commodity-based biodegradable plastic items for nonbiodegradable items.

The House bill contained no similar provision.

The House recedes with an amendment that broadens the types of degradable plastics to be considered beyond agricultural commodity-based biodegradable items. The conferees have learned of other means of producing degradable plastic, and believe the study and report should not be limited to biodegradable plastic items. The conferees also understand that the Department of the Navy may have undertaken a study of degradable plastic products. The conferees believe that if such studies exist, the Department of Defense should make use of these studies to prevent unnecessary duplication of effort.

Navy participation in feasibility study of Sunset Harbor Project, California (sec. 353)

The House bill contained a provision (sec. 327) that would require the Navy to contribute $100,000 to study the feasibility of an alternate navigable ocean access at Sunset Harbor in San Diego, California.

The Senate amendment contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Funding for Defense agencies

The House bill contained a provision (sec. 301(c)) that would reduce the amounts authorized for the Office of the Secretary of Defense and the Washington Headquarters Service by $5 million from the amounts requested, and increase the amount authorized for the Defense Investigative Service by $10 million from the amount requested.

The Senate amendment contained no similar provision.

The House recedes. The conferees agree to include the adjustments made by the House provision in the amounts authorized for Operation and Maintenance, Defense Agencies.

Authorization for school district assistance

The House bill contained a provision (sec. 305) that would authorize the Secretary of the Navy to use not more than $1.5 million to provide assistance to the Tinton Falls School District, Tinton Falls, New Jersey, for the purpose of supporting the education of dependents of Navy personnel who are stationed at Naval Weapons Station Earle during the 1989-1990 school year.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that Title II of the recently enacted Elementary and Secondary School Improvement Amendments of 1988 (Public Law 100-297) includes a provision authorizing the Department of Defense to provide financial assistance to local school districts otherwise unable to provide for public education of children whose parents live or work on federal property. This provision would apply to the situation in Tinton Falls, New Jersey. The conferees note that in correspondence with Senator Lautenberg, Senator Bradley and Representative Smith, the Navy has indicated that it will seek authority from the Secretary of Defense to provide funds after concurring with the Tinton Falls and State Boards of Education that a deficit exists. The conferees endorse this effort.

Prohibition on contracting out certain maintenance functions

The House bill contained a provision (sec. 315) that would prohibit the Secretary of Defense from reviewing, in accordance with Office of Management and Budget (OMB) Circular A-76, or converting to contract performance any organizational or intermediate level maintenance function for trainer equipment or trainer aircraft now being performed by active-duty military personnel. The House bill (sec. 315(b)) would also terminate any ongoing reviews under OMB Circular A-76 and revert back to performance by active duty military personnel any organizational or intermediate level maintenance function for trainer equipment or trainer aircraft that had been converted to Department of Defense civilian personnel in contemplation of such a review. Finally, the House bill (sec. 315(c)) would require the Secretary of Defense to convert back to performance by active duty military personnel any organizational or intermediate level maintenance function for trainer equipment or trainer aircraft that had been converted to contractor performance after January 1, 1985 at the expiration of the contract or upon the option to renew the contract.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Comptroller General to submit a report, not later than April 1, 1989, to the Committees on Armed Services of the Senate and House of Representatives concerning contracting out of maintenance of trainer aircraft and trainer equipment at Lowry Air Force Base, Colorado and Columbus Air Force Base and Meridian Naval Air Station, Mississippi. This study should provide an independent assessment of the following issues associated with the contracting out of these functions:

(1) the validity of projected cost savings from contracting out, to include costs of functions formerly performed by maintenance personnel (e.g., ramp and facility security performed on a duty roster, flexibility to use military personnel for emergency duty);

(2) the potential impact on personnel and equipment readiness from contracting out;

(3) the economic impact, if any, on the local communities;

(4) the impact on wartime mobilization requirements;

(5) the impact on the ship-to-shore rotation schedule for Navy maintenance personnel and the overseas rotation schedule for Air Force maintenance personnel; and

(6) other impacts on base functions caused by the reduction of the military population (reduction of base medical facilities, commissary, exchange, and morale, welfare, and recreation facilities).

Limitation on funds for depot maintenance

The House bill contained a provision (sec. 317) that would prohibit the use of funds for depot maintenance of equipment in the Army during fiscal year 1989 unless such funds provide for civilian personnel strengths at the Army depots performing tank repair or tank rebuilding within the continental United States in an amount above the strengths assigned to those depots on September 30, 1986.

The Senate bill contained no similar provision.

The House recedes.

Study on conversion to district, direct natural gas, and other heating systems in West Germany

The House bill contained a provision (sec. 318) that would require the Secretary of Defense, in conjunction with the Secretary of State and the Secretary of Commerce, to conduct a study of the economic and national security implications of the conversion of United States military installations in West Germany to district heat and direct natural gas systems. This study would be submitted to the Committees on Armed Services of the Senate and House of Representatives not later than February 1, 1989. This provision would also probihit the Secretary of Defense or the Secretaries of the Military Departments from entering into any agreement or contract to convert a heating facility at a military installation to district heat, direct natural gas, or other sources of fuel between April 14, 1988 and July 1, 1989.

The Senate amendment contained no similar provision.

The House recedes.

Prohibition on the use of Coast Guard resources in the Persian Gulf

The House bill contained a provision (sec. 354) that would permanently prohibit the use of any vessels, assets, personnel, or other resources of the Coast Guard in the Persian Gulf region.

The Senate amendment contained no similar provision.

The House recedes.

Report on mobilization and deployment delays for NATO and Warsaw Pact forces

The House bill contained a provision (sec. 351) that would require, no later than 60 days after enactment, the Secretary of Defense to submit to the Committees on Armed Services of the Senate and House of Representatives a report concerning the length of time required for the military forces of the United States and the Warsaw Pact to enter combat at the inter-German border in the event of a major conflict in Europe.

The Senate amendment contained no similar provision.

The House recedes. However, the conferees believe that the report required by the House provision should be prepared and submitted to the Congress. Therefore, no later than six months after the date of the enactment of this Act, the Secretary of Defense is directed to submit to the Committees on Armed Services of the Senate and House of Representatives an unclassified report (with classified annexes as necessary) concerning the length of time required for the ground and air forces of the United States to enter combat at the inter-German border in the event of a major conflict in Europe. The Secretary shall include in such report, for each major combat unit (divisions and separate brigades) and major element of their combat service support in the active and reserve components that is likely to be involved in such a conflict, an estimate of the minimum time delay between the decision of the United States to mobilize and the entry of that unit into battle. Assessments shall be consistent with current levels of readiness and equipment inventories. For each unit, the report shall give the currently existing fraction of the unit's total equipment inventory, the fraction of active and reserve manning, the average number of days of training for reserve personnel in that unit during the previous year, and the transit time from the unit's peacetime location to the inter-German border.

The Secretary shall include in the report an unclassified report (with classified annexes as necessary) concerning the length of time required for the ground and air forces of Belgium, Canada, Denmark, Federal Republic of Germany, France, Luxembourg, Netherlands, and the United Kingdom to enter combat at the inter-German border in the event of a major conflict in Europe. The Secretary shall include in such report, for each major combat unit (divisions and separate brigades) and major element of their combat service support in the active and reserve components that is likely to be involved in such a conflict, an estimate of the minimum time delay between the decision of each nation to mobilize and the entry of each unit of that nation's forces into battle. Assessments shall be consistent with current levels of readiness and equipment inventories. For each unit, the report shall give the best estimate of the currently existing fraction of the unit's total equipment inventory, the fraction of active and reserve manning, the average number of days of training for reserve personnel in that unit during the previous year, and the transit time from the unit's peacetime location to the inter-German border.

Finally, the Secretary shall include in the report an unclassified report (with classified annexes as necessary) concerning the length of time required for the ground and air forces of the Soviet Union, the German Democratic Republic, Poland and Czechoslovakia to enter combat at the inter-German border in the event of a major conflict in Europe. All active and reserve forces of these nations currently in the NATO Guidelines Area and the Western Military District of the Soviet Union shall be included. For each major combat unit (divisions and separate brigades) and major element of their combat service support, the report shall give the best estimate of the minimum time delay between the Warsaw Pact decision to mobilize and the entry of that unit into battle. Assessments shall be consistent with current levels of readiness and equipment inventories. For each unit, the report shall give the best estimate of the current existing fraction of the unit's total equipment inventory, the fraction of active and reserve manning, the average number of days of training for reserve personnel in that unit during the previous year and the transit time from the unit's peacetime location to the inter-German border.

Report on availability of equipment and personnel

The House bill contained a provision (sec. 352) that would require, no later than 90 days after enactment, the Secretary of Defense to submit to the Committees on Armed Services of the Senate and House of Representatives a report concerning existing major conventional military equipment and trained personnel of the U.S. and its NATO allies in central Europe that are not currently organized into combat or support units. Not later than six months after enactment, the Secretary of Defense would submit to Congress a plan for the more effective use of this manpower and equipment.

The Senate amendment contained no similar provision.

The House recedes. However, the conferees believe that the report and plan required by the House provision should be prepared and submitted to the Congress. Therefore, no later than six months after the date of the enactment of this Act, the Secretary of Defense is directed to submit to the Committees on Armed Services of the Senate and House of Representatives an unclassified report (with classified annexes as necessary) concerning existing major conventional military equipment and trained personnel in the ground and air forces of the United States and its NATO allies in central Europe which are not currently organized into combat or support units. The report shall include the following:

(1) An inventory of all existing major equipment possessed by the United States (including tanks, infantry fighting vehicles, artillery, antitank and air defense weapons, and helicopters and tactical aircraft) that is in storage, in war reserve material stocks, in training units, or otherwise not assigned to combat units.

(2) The members and former members of the Armed Forces of the United States who have received military training or performed a tour of duty in ground or air forces within the past five years and who are not currently assigned to any active or reserve combat or combat support unit.

(3) The current plans of the Department of Defense for use of the equipment listed in paragraph (1) and persons listed in paragraph (2) in the event of a major conflict in Western Europe.

(4) An estimate of the equipment and manpower inventories, as defined in paragraphs (1) and (2), in Belgium, Denmark, the Federal Republic of Germany, France, Luxembourg, the Netherlands, and the United Kingdom and, if known, the current plans of those nations for use of that equipment and personnel in the event of a major conflict in Western Europe.

The Secretary shall include in the report a plan for the use of the manpower and equipment described in paragraphs (1) and (2) above to increase the military force which could be available for the defense of Western Europe in a time period consistent with the estimate of the warning time of an attack and the duration of such a conflict given in the 1987 Military Net Assessment made by the Joint Chiefs of Staff (or any subsequent revision thereof). The Secretary shall include in such report comments from the Reserve Component Chiefs.

Additional authority of base commanders over contracting for commercial activities

The House bill contained a provision (sec. 810) that would amend section 1111 of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180) to give installation commanders the authority to decline to exercise an option to extend a commercial activities contract and to exclude a contractor from consideration of a future contract in any case where the base commander has reasonable cause to believe that the contractor in question is violating Federal law in the performance of that contract.

The Senate amendment contained no similar provision.

The House recedes.

Applicability of commander authority to ongoing and future reviews of commercial activities

The House bill contained a provision (sec. 813) that would amend section 1111 of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180) to extend the authority provided to military base commanders in section 1111(a) to reviews of commercial activities involving civilian employees that are being conducted on December 4, 1987, and to reviews of commercial activities that begin after such date.

The Senate amendment contained no similar provision.

The House recedes.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

PART A—ACTIVE FORCES

LEGISLATIVE PROVISIONS ADOPTED

End strengths of active forces (sec. 401)

The House bill contained a provision (sec. 401) that would authorize active force military end-strengths for the Army, Navy, Marine Corps and Air Force at the levels requested by the Administration for fiscal year 1989.

The Senate amendment contained a provision (sec. 401) that would authorize active force officer, enlisted, and cadet end-strengths for the Army, Navy, Marine Corps, and Air Force. The aggregate end-strengths for the Navy and Marine Corps would be authorized at the levels requested by the Administration for fiscal year 1989. The aggregate end-strengths for the Army and Air Force would be authorized at levels 500 below levels requested by the Administration for each of these Services for fiscal year 1989. These reductions would be consistent with an officer end-strength reduction plan submitted by the Department of Defense that would reduce officer strengths in these two Services by 4,100 over two years beginning in fiscal year 1989.

The House recedes with an amendment establishing officer strength ceilings for each of the military Services within the total active end-strengths authorized. The conferees believe that the ceilings on separate active force officer end-strengths are consistent with the concern of the Congress regarding the disproportionate growth of the officer corps in recent years. The following table summarizes the conference agreement:

	Request	House	Senate	Conference
Army:				
Officers			106,927	106,927
Enlisted			660,423	
Cadets			4,450	
Total	772,300	772,300	771,800	771,800
Navy:				
Officers			72,610	72,610
Enlisted			515,815	
Cadets			4,775	
Total	593,200	593,200	593,200	593,200
Marine Corps:				
Officers			20,120	20,120
Enlisted			177,080	
Total	197,200	197,200	197,200	197,200
Air Force:				
Officers			105,038	105,038
Enlisted			465,645	
Cadets			4,417	
Total	575,600	575,600	575,100	575,100

Repeal of mandatory reductions in strength of active duty officer corps (sec. 402)

The House bill contained a provision (sec. 402) that would repeal the requirement for the Department of Defense to reduce officer strength by 2 percent in fiscal year 1989 and another 2 percent in fiscal year 1990 calculated on the fiscal 1986 officer end-strength base.

The Senate amendment contained a provision (sec. 402) that would repeal the mandated 2 percent reduction in fiscal year 1989 and instead require a reduction of 1,000 officers, 500 in the Army and 500 in the Air Force, from the fiscal year 1988 level. The Senate amendment would retain the mandated 2 percent reduction for fiscal year 1990.

The House recedes with an amendment repealing the mandated 2 percent reduction for fiscal year 1990 and instead requiring a reduction of 3,100 officers, 500 in the Army and 2,600 in the Air Force, from the fiscal year 1989 level. The conferees emphasize that this compromise accepts the officer reduction plan submitted by the Department of Defense for fiscal years 1989 and 1990 only as the first initiative taken by the Department to control officer strength. The conferees have received a study on the manning of unified and specified commands and supporting component headquarters from the Secretary of Defense which indicates a potential surplus of 7,200 spaces. In his letter transmitting the study, the Secretary of Defense indicated that he was ". . . confident some manpower savings will be possible, and I will take steps to reduce our manpower request for FY 1990-1991 accordingly." The conferees intend to follow the action the Secretary of Defense takes and emphasize that the savings identified by the Secretary as a result of this report are to be in addition to the reductions approved by the conferees in this Act.

Temporary reduction in number of Air Force colonels (sec. 403)

The Senate amendment contained a provision (sec. 403) that would reduce the number of colonels that the Air Force is authorized to have on active duty in fiscal years 1989 and 1990 by 125 and 250, respectively, below the numbers that would otherwise be authorized under section 523 of title 10, United States Code, for those years.

The House bill contained no similar provision.

The House recedes. The conferees expect the Office of the Secretary of Defense to review critically the field grade officer strengths of the military Services in all future budget submissions to ensure that the strengths requested support valid requirements and are not merely a reflection of the numbers allowed by the grade tables in section 523 of title 10, United States Code.

PART B—RESERVE FORCES

LEGISLATIVE PROVISIONS ADOPTED

End strengths for Selected Reserve (sec. 411)

The House bill contained a provision (sec. 411) that would authorize Selected Reserve end-strengths for fiscal year 1989 at the levels requested by the Administration, except for the Air National Guard and Air Force Reserve which would be authorized 290 and 399 above the requested levels, respectively.

The Senate bill contained a provision (sec. 411) that would authorize Selected Reserve end-strengths for fiscal year 1989 at the levels requested by the Administration for all components.

The House recedes.

The following table summarizes the conference agreement:

	Request	House	Conference
Army National Guard	457,300	457,300	457,300
Army Reserve	320,600	320,600	320,600
Naval Reserve	152,600	152,600	152,600
Marine Corps Reserve	43,600	43,600	43,600
Air National Guard	115,200	115,490	115,200
Air Force Reserve	83,600	83,999	83,600
Coast Guard Reserve	13,000	13,000	13,000
Total	1,185,900	1,186,589	1,185,900

End strengths for reserve on active duty in support of the reserves (sec. 412)

The House bill (sec. 412) and the Senate amendment (sec. 412) would authorize full-time manning in the National Guard and Reserve components at the levels requested by the Administration for fiscal year 1989, except that the House bill would authorize the Air National Guard to increase its strength by 17 more than the level requested by the Administration.

The House recedes.

The following table summarizes the conference agreement:

	Request	House	Conference
Army National Guard	25,725	25,725	25,725
Army Reserve	13,329	13,329	13,329
Naval Reserve	21,991	21,991	21,991
Marine Corps Reserve	1,945	1,945	1,945
Air National Guard	7,948	7,965	7,948
Air Force Reserve	657	657	657
Coast Guard Reserve	13,000	13,000	13,000
Total	71,595	71,612	71,595

Clarification of applicability of prior amendments relating to number of members in certain grades authorized to be on active duty in support of the reserve (sec. 413)

The House bill contained a provision (sec. 413) that would authorize full-time support grade ceilings for the E-9, E-8, O-6, O-5, and O-4 grades in the National Guard and Reserve components at the levels requested by the Administration.

The Senate amendment contained a provision (sec. 413) that would authorize full-time support grade ceilings authorized for fiscal year 1989 in the fiscal years 1988/1989 Defense Authorization Act.

The Senate recedes with an amendment striking the House provision and clarifying the applicability of the full time support grade ceilings authorized for fiscal year 1989 in the fiscal years 1988/1989 Defense Authorization Act.

PART D—AUTHORIZATION OF APPROPRIATIONS

LEGISLATIVE PROVISION ADOPTED

Authorization of appropriations for military personnel for fiscal year 1989 (sec. 431)

The House bill contained a provision (sec. 431) that would authorize (1) $78,453,300,000 for military personnel for fiscal year 1989; and (2) $21,776,900,000 for Air Force military personnel, reserve personnel and national guard personnel.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that authorizes $78,461,000,000 for military personnel during fiscal year 1989 and strikes the separate Air Force authorization.

LEGISLATIVE PROVISION NOT ADOPTED

Repeal of prior fiscal year 1989 personnel authorizations

The House bill contained a provision (sec. 432) that would repeal prior fiscal year 1989 personnel authorizations.

The Senate amendment contained no similar provision.

The House recedes.

TITLE V—MILITARY PERSONNEL POLICY

PART A—OFFICER PERSONNEL POLICY

LEGISLATIVE PROVISIONS ADOPTED

Selection boards (sec. 501)

The Senate amendment contained a provision (sec. 501) that would make the following changes to Defense Officer Personnel Management Act (DOPMA) promotion provisions: (1) limit the delegation of the authority of the President to approve, modify, or disapprove selection board reports to officials in the Office of the Secretary of Defense; (2) delete the President's existing authority to modify selection board reports as that authority is unnecessary; (3) provide explicit authority to the Service Secretaries to establish minimum numbers of selections by skill within a competitive category; (4) prohibit the modification of the maximum number to be selected by a selection board and other binding guidance to a board after a selection board has made its report; and (5) provide clarification on the procedures available to a Service Secretary in reviewing a board report.

The House bill contained no similar provision.

The House recedes. The conferees believe these changes will strengthen the credibility of the officer promotion process and preclude previous differences in interpretation and irregularities in the application of officer promotion statutes.

Removal from promotion list (sec. 502)

The Senate amendment contained a provision (sec. 502) that would clarify that the President has the authority to remove names from reserve officer promotion lists of the Navy and Marine Corps.

The House bill contained no similar provision.

The House recedes.

Selective early retirement for certain pre-DOPMA Navy and Marine Corps officers (sec. 503)

The House bill contained a provision (sec. 515) that would subject pre-Defense Officer Personnel Management Act (DOPMA) officers of the Navy and Marine Corps to the same selective retirement rules that apply to their Army and Air Force counterparts.

The Senate amendment contained no similar provision.

The Senate recedes.

Technical revision of section 638 of title 10, United States Code (sec. 504)

In concert with their action on the temporary Defense Officer Personnel Management Act (DOPMA) relief provisions in the House bill, the conferees agreed to a technical revision to section 638(a) of title 10, United States Code, governing selective early retirement, to improve the clarity of that section.

PART B—JOINT OFFICER PERSONNEL POLICY

Joint officer personnel policy (secs. 511-519)

The House bill contained provisions (secs. 702, 703, 704, 706, 707(b), 707(c) and 707(d)) that would amend the joint officer management policies of title IV of the Goldwater-Nichols DOD Reorganization Act of 1986 (Public Law 99-433) to:

(1) extend for one year the transition period (until October 1, 1989) for filling 50 percent of joint duty assignments by joint specialty officers or nominees;

(2) require that a critical joint duty assignment be filled by a joint specialty officer only when a vacancy occurs in such assignment after January 1, 1989;

(3) permit officers to be awarded the joint specialty during the transition period with one year (instead of two years) of joint duty service;

(4) extend for one year the transition period (until October 1, 1989) for award of the joint specialty;

(5) make a technical change to the date of enactment references in section 406(b)(1)(B)(iii) of Public Law 99-433;

(6) suspend the joint duty prerequisite for promotion to general or flag rank for all officers serving in, or selected for, the rank of colonel or Navy captain as of September 30, 1988;

(7) direct the Secretary of Defense to use the requirements of section 619(e)(1) of title 10, United States Code, as a guideline, where feasible, in managing the group of officers for whom the joint duty prerequisite for promotion to general or flag rank has been suspended;

(8) permit the Secretary of Defense during the transition period to January 1, 1992 to credit officers with joint duty service, for purposes of promotion to general or flag rank, for service in joint duty assignments that involved significant experience in joint matters;

(9) reduce to 15 percent (from 33 percent) the number of officers serving 2-year critical occupational specialty joint tours who may count toward the requirement that 50 percent of all joint duty assignments must be filled by joint specialty officers or nominees;

(10) provide joint duty service credit for captains or Navy lieutenants who serve in joint duty assignments;

(11) require an annual report on progress in implementing joint officer management policies with respect to Navy nuclear propulsion officers;

(12) require that an officer must have completed a full tour of duty in a joint duty assignment as a general or flag officer to qualify for appointment as JCS Vice Chairman, combatant commander, or Service chief of staff and make technical changes relating to statute references; and

(13) make a technical change in section 668 of title 10 to redesignate subsection (f) as subsection (c).

The Senate amendment contained a provision (sec. 701) that would amend title IV of Public Law 99-433 to:

(1) increase to 10 percent (from 5 percent) the number of officers who may annually be awarded the joint specialty by other than the prescribed manner and prerequisites;

(2) require that only 80 percent (instead of 100 percent) of all critical joint duty assignments must be filled by joint specialty officers at all times;

(3) require promotion tracking of officers, other than joint specialists, only until first in-zone consideration following reassignment from a joint duty assignment;

(4) set the promotion policy objectives for officers serving, or having served, in joint duty assignments (other than those serving, or having served, on the Joint Staff or with the joint specialty) to be not less than for the Service-wide rate, less officers serving, or having served, on the Service headquarters staff;

(5) reduce the minimum joint tour length from 3 to 2 years for general and flag officers and 3½ to 3 years for other officers;

(6) eliminate the requirement for an advance joint specialty nomination for a 2-year critical occupational specialty joint tour;

(7) delete the restriction on eligibility for a 2-year critical occupational specialty joint tour to an officer on his initial joint duty assignment;

(8) delete the limitation on the number of 2-year critical occupational specialty joint tours that may be excluded annually from the average joint tour length computation;

(9) provide full joint duty tour credit for an overseas joint duty assignment prescribed by regulation to be at least two years in length;

(10) authorize appointment to general or flag rank of an officer in a joint duty assignment who has served at least two years, but not a full joint duty tour;

(11) simplify the joint duty cumulative credit provision by eliminating the prerequisite that at least one of the cumulated tours must have been served overseas or terminated for hardship, medical, reorganization, or promotion reasons;

(12) further simplify the joint duty cumulative credit provision by eliminating the requirement that the applicable tour length must be accumulated within an 8-year period;

(13) permit constructive credit without a waiver for an officer reassigned from a joint duty assignment for reasons of military necessity within 60 days of completing joint tour length criteria;

(14) permit designation as joint duty assignments of up to 250 in-Service billets filled by officers of the same Service;

(15) exempt Navy nuclear propulsion officers from the joint duty prerequisite for promotion to flag rank;

(16) permit officers to be awarded full joint duty tour credit, for purposes of promotion to general or flag rank, for service in joint duty assignments that began before January 1, 1987, which were considered as full tours of duty under the policies and regulations in effect at the time the assignment began;

(17) extend for one year (until October 1, 1989) both the transition period during which the Secretary of Defense may waive certain prerequisites for award of the joint specialty and the date by which critical joint duty assignments and certain other joint duty assignments must be filled by joint specialty officers or nominees;

(18) permit officers to be awarded full joint duty tour credit, for purposes of award of the joint specialty during the transition period, for service in joint duty assignments or joint equivalent assignments that began before January 1, 1987, which were considered as full tours of duty under the policies and regulations in effect at the time the assignment began; and

(19) require a report by February 1, 1990 from the Secretary of Defense, after consultation with the JCS Chairman, comprehensively addressing the principles that should guide joint officer management policies, the goals that should be established for joint officer management policies, the detailed concepts that support these principles and goals, progress in implementing title IV of Public Law 99-433, and modifications to statutory requirements.

The conferees agree to make a comprehensive series of modifications to the joint officer management policies of title IV of the Goldwater-Nichols Act. The conferees approve all of the modifications to title IV requested in the DOD legislative proposal of March 22, 1988. In addition, the conferees approve a number of other initiatives included in either the Senate or House provisions. The conferees are fully convinced that the amendments made to title IV by this Act will provide for effective steady state implementation of the joint officer management policies. The conferees, therefore, do not expect to make or be asked to make additional modifications to title IV for the foreseeable future.

The conferees remain concerned about the degree of bureaucratic opposition within DOD to the requirements of title IV of the Goldwater-Nichols Act. As the amendments made by this Act resolve all of the problems and adopt all of the better approaches identified by DOD, in addition to providing increased management flexibility through a number of congressionally initiated modifications, there is no acceptable reason for continued opposition within DOD. The conferees expect senior civilian officials and military officers to expand their leadership role, to give more attention to effective implementation of title IV, and to promote the change in attitudes that must accompany increased emphasis on joint officer management.

The basic themes of the modifications approved by the conference committee are to: (1) increase the length and to provide more flexible rules for the transition period leading to full implementation of title IV; (2) provide more equitable policies for crediting officers with joint duty service, especially assignments served prior to enactment of the Goldwater-Nichols Act; (3) shorten joint duty tour lengths; (4) provide more flexibility in the selection and assignment of joint specialty officers; and (5) provide more flexibility regarding the joint duty prerequisite for promotion to general or flag rank.

The House bill and the Senate amendment contained two similar provisions (items (1) and (4) below) which were not issues during the conference. Of the 26 differences between the House bill and the Senate amendment, two House provisions (items (6) and (7) in the above description of the House provisions) were deleted by the conference committee, and four Senate provisions (items (4), (7), (14) and (19) in the above description of the Senate provisions) were deleted. Specific modifications to title IV approved by the conference committee, including resolution of the 20 remaining differences, were:

(1) extend for one year the transition period (until October 1, 1989) for filling 50 percent of joint duty assignments by joint specialty officers or nominees (not a conference issue);

(2) require that a critical joint duty assignment be filled by a joint specialty officer only when a vacancy occurs in such assignment after January 1, 1989 (House provision);

(3) permit officers to be awarded the joint specialty during the transition period with one year (instead of two years) of service in joint duty assignments (begun before January 1, 1987) and joint equivalent assignments (begun before October 1, 1986) which were considered full tours of duty under the policies and regulations in effect on September 30, 1986 (conference substitute provision);

(4) extend for one year the transition period (until October 1, 1989) for award of the joint specialty (not a conference issue);

(5) make a technical change to the date of enactment references in section 406(b)(1)(B)(iii) of Public Law 99-433 (House provision);

(6) permit officers to be awarded full joint duty tour credit, for purposes of promotion to general or flag rank, for service in joint duty assignments that began before January 1, 1987 which were considered full tours of duty (but not less than 12 months) under the policies and regulations in effect on September 30, 1986 (conference substitute provision);

(7) extend until January 1, 1994 (from January 1, 1992) the transition period during which officers may be awarded full joint duty credit, for purposes of promotion to general or flag rank, for service in joint equivalent assignments which began before October 1, 1986 and were considered full tours of duty (but not less than 12 months) under the policies and regulations in effect on September 30, 1986 (conference substitute provision);

(8) reduce to 25 percent (from 33 percent) the number of officers serving 2-year critical occupational specialty joint tours who may count toward the requirement that 50 percent of all joint duty assignments must be filled by joint specialty officers or nominees (House provision with Senate amendment);

(9) provide joint duty service credit for captains or Navy lieutenants who serve in joint duty assignments (House provision);

(10) require an annual report on progress in implementing joint officer provisions with respect to Navy nuclear propulsion officers (House provision);

(11) extend to January 1, 1994 (from January 1, 1992) the period during which Navy nuclear propulsion officers may be promoted to rear admiral (lower half) without meeting the joint duty prerequisite (conference substitute provision);

(12) require that an officer must have completed a full tour of duty in a joint duty assignment as a general or flag officer to qualify for appointment as JCS Vice Chairman, combatant commander, or Service chief of staff and make technical changes relating to statute references (House provision);

(13) make a technical change in section 668 of title 10 to redesignate subsection (f) as subsection (c) (House provision);

(14) increase to 10 percent (from 5 percent) the number of officers who may annually be awarded the joint specialty by other than the prescribed manner and prerequisites with the limitation that not more than 10 percent of the officers in each grade may be annually awarded the joint specialty pursuant to this exception (Senate provision with House amendment);

(15) require until January 1, 1994 that only 80 percent (instead of 100 percent) of all critical joint duty assignments must be filled by joint specialty officers at all times and, thereafter, authorize the Secretary of Defense to waive the requirement in the case of an individual joint duty assignment and to delegate this authority to the JCS Chairman (Senate provision with House admendments);

(16) require promotion tracking of officers, other than joint specialists, only until first in-zone consideration following reassignment from a joint duty assignment (Senate provision);

(17) reduce the minimum joint tour length from 3 to 2 years for general and flag officers and 3½ to 3 years for other officers (Senate provision);

(18) include overseas joint duty assignments which are at least as long as the minimum joint tour length in the computation of the average joint tour length (conference substitute provision);

(19) eliminate the requirement for an advance joint specialty nomination for a 2-year critical occupational specialty joint tour (Senate provision);

(20) increase to 12.5 percent (from 10 percent) the number of 2-year critical occupational specialty joint tours that may be excluded annually from the average joint tour length computation (conference substitute provision);

(21) provide full joint duty tour credit for an overseas joint duty assignment prescribed by regulation to be at least two years in length with the limitation that not more than 6 percent of all joint duty assignments may be credited under this exception (Senate provision with House amendment);

(22) authorize until January 1, 1994 appointment to general or flag rank of an officer in a joint duty assignment who has served as least two years, but not a full joint duty tour (Senate provision with House amendment);

(23) authorize the Secretary of Defense to grant credit for a full tour of duty when he waives the length of a joint duty assignment in the case of an individual officer (conference substitute provision);

(24) simplify the joint duty cumulative credit provision by eliminating the requirement that the applicable tour length must be accumulated within an 8-year period (Senate provision); and

(25) permit constructive credit without a waiver for an officer (other than a general or flag officer) reassigned from a joint duty assignment for reasons of military necessity within 60 days of completing joint tour length criteria, but require any shortened tours to be included in the average joint tour length computation (Senate provision with House amendments).

With respect to the joint duty prerequisite for promotion to general or flag rank, the conferees determined that the DOD regulation imposing this requirement, which has been in effect for more than 30 years, was more widely circumvented than previously understood. Failure to meaningfully implement the joint duty promotion prerequisite means that a significant portion of current field grade officers, especially more senior ones, may have great difficulty in meeting the current statutory requirements of section 619(e) of title 10, United States Code.

The conferees do not intend that officers be disadvantaged for service in a personnel system that did not adequately enforce the DOD regulation. For this reason, the conferees agree to grandfather all service in joint duty assignments prior to the date of enactment of the Goldwater-Nichols Act, provided that such service was at least one year in length and was considered a full tour of duty under the policies and regulations in effect on Septemer 30, 1986. The conferees also agree to extend by two years (until January 1, 1994) the transition period during which officers may be credited, for purposes of promotion to general or flag rank, for service in joint equivalent assignments which were at least one year in length and were considered a full tour of duty.

The conferees, however, recognize that many senior field grade officers have had no joint duty or joint equivalent assignments whatsoever. While the conferees are committed to equitable treatment for such officers, the Senate conferees believe that the House provision (items (6) and (7) above) to suspend the joint duty prerequisite for promotion to general or flag rank for senior field grade officers might be interpreted as a lessening of congressional support for joint duty. Consequently, the conferees agree to set aside the House provision in favor of a transition provision that addresses the equity issue while providing an incentive for senior field grade officers to serve in a joint duty assignment. The transition provision permits officers to be selected for general or flag rank while serving in a joint duty assignment if they have served at least two years.

Despite the approval of these reduced standards, the transition to the more rigorous requirements of title IV concerning the joint duty prerequisite for promotion may pose difficulties for many officers. The conferees urge the Secretary of Defense to carefully monitor the situation and to use his waiver authority to minimize inequities and to ensure that the most qualified officers are promoted to general or flag rank.

With respect to Navy nuclear-propulsion officers, the conferees recognize that significant personnel management changes will be required to comply with the requirements of title IV. Last year, the Congress exempted until January 1, 1992 Navy nuclear-propulsion officers from the joint duty prerequisite for promotion to flag rank. The conferees agree to extend this exemption period by two years (to January 1, 1994). At the same time, the conferees determine that service in this specialized and somewhat isolated field is inadequate preparation for the responsibilities of flag rank, especially service in joint duty assignments. The conferees urge the Secretary of Defense to ensure that Navy nuclear propulsion officers are better prepared for assignments outside of their specialty. Given the substantial changes required, the conferees agree to require an annual report on progress in implementing joint officer provisions with respect to Navy nuclear propulsion officers.

Current law requires that all critical joint duty assignments must be filled with joint specialty officers at all times. The conferees recognize that this absolute requirement cannot be met, especially in the near term. The conferees agree to a transition provision (until January 1, 1994) that would require that only 80 percent of such assignments must be filled by joint specialists. After the transition period, the conferees expect that around 95 percent of critical joint duty assignments can be filled by joint specialists. For the small percentage of positions that may need to be excepted from the requirements of the law, the conferees agree to provide the Secretary of Defense the authority to waive the requirement in the case of an individual critical joint duty assignment. Based upon experience during the transition period, the Secretary of Defense is directed to report to the Committees of Armed Services of the Senate and House of Representatives his expectation on the percentage of assignments for which this waiver may need to be applied after the transition period ends. Such report is to be submitted by the Secretary not later than January 1, 1993.

Current law requires that an officer be nominated for the joint specialty prior to beginning a 2-year critical occupational specialty joint tour. The conferees determine that this requirement would provide incentives for the Services to nominate a large number of officers for the joint specialty and would undermine efforts to use the nomination process as a rigorous screening of qualified officers. For these reasons, the conferees agree to eliminate the requirement for an advance joint specialty nomination for a 2-year critical occupational specialty joint tour. The conferees do expect, however, that advance nominations will be the normal procedure and, consequently, that officers will be nominated in advance to the maximum extent practicable.

PART C—MISCELLANEOUS

LEGISLATIVE PROVISIONS ADOPTED

Testing of new entrants for drug and alcohol abuse (sec. 521)

The House bill contained a provision (sec. 501) that would amend the current requirements for the testing of new entrants into the military Services for drug and alcohol abuse so that testing could take place at basic training installations rather than at the Military Entrance Processing Station.

The Senate amendment contained no similar provision.

The Senate recedes.

Requirement to accept persons enlisting in the Air Force on gender-free basis (sec. 522)

The House bill contained a provision (sec. 502) that would (1) require the Secretary of the Air Force to implement a gender neutral enlistment methodology; and (2) repeal the 22 percent accession standard for women in fiscal year 1989.

The Senate amendment contained no similar provision.

The Senate recedes.

Military education for Army National Guard technicians (sec. 523)

The House bill contained a provision (sec. 503) that would require the Army National Guard to phase out its requirement that Army National Guard civilian technicians attend military education program training in active component schools as comparable state training programs become available.

The Senate amendment contained no similar provisions.

The Senate recedes with technical and clarifying amendments.

Expansion of military spouse employment preference (sec. 524)

The Senate amendment contained a provision (sec. 502) that would include all jobs in the grades of GS-1 and above among those to which the military spouse employment preference applies.

The House bill contained no similar provision.

The House recedes.

Manpower cost estimate for major defense acquisition programs (sec. 525)

The Senate amendment contained a provision (sec. 503) that would clarify that manpower cost estimate reporting requirements for new systems may be modified when no major manpower effects are present and during time of war or national emergency.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Temporary DOPMA relief

The House bill contained provisions (secs. 511-514) that would provide temporary relief from certain tenure provisions of the Defense Officer Personnel Management Act (DOPMA) if the military Services were required to reduce their officer strengths. These provisions included: (1) authority for Service Secretaries to shorten the period of continued active-duty for officers previously selected for continuation, to relax involuntary retirement provisions for certain regular officers, and to involuntarily separate regular officers regardles of promotion status (secs. 511, 512 and 513); and (2) authority for Service Secretaries to reduce from 10 to 8 years the minimum period of active commissioned service required for voluntary retirement in commissioned grades (sec. 514).

The Senate amendment contained no similar provisions.

The House recedes.

The conferees believe that these temporary DOPMA relief provisions are now not necessary in view of the conference agreement to repeal the previously imposed officer reductions for fiscal years 1989 and 1990. The conferees expect the Department of Defense to be prepared to address the need for these temporary authorities in hearings on the fiscal year 1990 and 1991 defense authorization request next year, especially in the context of further officer reductions that are expected as a result of the Department of Defense study on the manning of unified and specified commands and supporting component headquarters.

Selective Service registration

The House bill contained a provision (sec. 954) that would establish guidelines for the prosecution of individuals who, according to Selective Service records only, have not registered under the Military Selective Service Act.

The Senate amendment contained no similar rovision.

The House recedes.

Voluntary legal assistance

The Senate amendment contained a provision (sec. 919(a)) that would permit the acceptance by the Armed Services of legal assistance services on a voluntary basis from attorneys, clerks, or paralegals. Acceptance of such services by the Government is currently prohibited by section 1342 of title 31, United States Code. Additionally, section 919(b) would amend section 1054 of title 10, United States Code, to bring persons furnishing voluntary legal services within the class of persons the Attorney General is authorized to represent in civil malpractice suits.

The House bill contained no similar provision.

The Senate recedes. Although the conferees agree that the notion of voluntary legal services furnished by retirees, dependent spouses, and the like has appeal, the particulars of the contemplated scheme need to be explored before a statutory change would be appropriate. Therefore, the conferees direct the Department of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives on the need for and mechanics of a voluntary legal assistance program. The report should include an assessment and discussion of: the existing military legal assistance program and the extent to which it needs to be supplemented in order to meet the needs of military members, former members, and their dependents; the population of attorneys, clerks and paralegals who have offered voluntary services in the past and who might be expected to volunteer in the future; the qualifications of persons, particularly attorneys, necessary as a prerequisite to acceptance of their services (i.e. should members of the bar be in good standing and in an active status); anticipated supervisory requirements; how to ensure and enforce the avoidance of self-referral and referral to affiliated organizations by persons volunteering their services; and the anticipated number of and costs associated with civil lawsuits flowing from the rendering of voluntary legal assistance. In short, the report should provide a comprehensive and detailed explanation of the operational parameters of such a program. In addition, the report should address the extent to which acceptance of volunteer services in the area of legal assistance would serve as a precedent for the acceptance of such services from physicians, medical specialists and others in helping professions. The report should further address the nature and scope of any concomitant need for legal representation by the Attorney General and indemnification caused by the acceptance of volunteer services outside the legal field. The report is due no later than February 15, 1989. The conferees will reconsider this issue when the report becomes available and will address the question of whether a statutory provision is warranted at that time.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—PAY AND ALLOWANCES

LEGISLATIVE PROVISIONS ADOPTED

Military pay raise for fiscal year 1989 (sec. 601)

The House bill contained a provision (sec. 601) that would provide a military pay raise divided as follows: (1) a 4 percent increase in basic pay; (2) a 4 percent increase in basic allowance for subsistence; and (3) a 7 percent increase in basic allowance for quarters.

The Senate amendment contained a provision (sec. 601) that would provide a 4.3 percent increase in each of the components of basic military compensation as requested by the Administration.

The Senate recedes with an amendment that provides: (1) a 4.1 percent increase in basic pay; (2) a 4.1 percent increase in basic allowance for subsistence; and (3) a 7 percent increase in basic allowance for quarters.

The 4.3 percent across the board military pay raise requested by the Administration was based on projected private sector wage growth as measured by the employment cost index (ECI). At the time the request was submitted, the projected ECI was 4.3 percent. The 4.3 percent pay raise request matched the projected ECI increase to keep the 11 percent gap between private sector pay increases and military pay increases from widening.

The actual ECI has now been reported as 3.5 percent. Therefore, the projection on which the Administration's request was based is overstated by 0.8 of a percentage point. As a result, the conference agreement will actually close the gap between private sector and military wage growth by 0.6 of a percentage point, the first time the military pay raise will exceed the ECI since 1981.

Allowance for transportation of increased household goods (sec. 602)

The House bill contained a provision (sec. 602) that would increase the weight allowances for household goods for certain military personnel when they are required to move, effective on May 1, 1989.

The Senate amendment contained an identical provision, effective on July 1, 1989.

The House recedes.

PART B—SPECIAL PAY FOR CRITICAL PERSONNEL

LEGISLATIVE PROVISIONS ADOPTED

Aviator retention bonus (sec. 611)

The House bill contained a provision (sec. 611) that would authorize an aviator retention bonus. The bonus would be paid to officers who (1) are entitled to aviation career incentive pay; (2) are in pay grades below O-6; (3) are qualified to perform operational flying duty; (4) have completed at least six but less than 13 years of active duty; (5) have completed any active duty service commitment incurred for undergraduate aviator training; and (6) are in an aviation specialty that is designated as critical on the basis of a current shortage of officers in the specialty. The amount of the bonus payments would be limited to: (1) $12,000 for each year covered by a written agreement if an officer agrees to remain on active-duty to complete 14 years of commissioned service; or (2) $6,000 for each year covered by a written agreement of two years or less. The authority to enter into bonus agreements would expire in three years (September 30, 1991). The House provision would also provide a two-year "transition" window which would allow payments for one and two-year extensions for officers between 13 and 16 years of service, and require a report on the implementation of the provision by July 1, 1990. The House bill would authorize $36.2 million in fiscal year 1989 for the bonus in the Air Force.

The Senate amendment contained a similar provision (sec. 611) but with a number of differences: (1) a bonus would be paid to aviators in skills designated as retention sensitive; (2) the bonus level would be capped at $12,000 for each year covered by a written agreement but would be subject to the discretion of the Service Secretary; (3) the authority to enter into agreements would expire in one year (September 30, 1989); (4) there would be no provision for a "transition window"; (5) there would be a requirement for a report, but it would be on the retention, management, and compensation of aviators to be accompanied by a legislative proposal due by December 1, 1988; and (6) the authorization for funding would be $30 million.

The Senate recedes with an amendment that would: (1) adopt the House eligibility criteria, including the requirement that recipients must be in an aviation specialty that is designated as critical on the basis of a current shortage of officers in the specialty; (2) adopt the House limitation on the levels of payment authorized for each year covered by a written agreement of extension; (3) establish as the period during which agreements may be entered into from January 1, 1989 to September 30, 1989; (4) delete the two-year "transition window" allowance that was in the House bill; (5) require a report and accompanying legislation that would implement the recommendations in the report by December 1, 1988; (6) require that no agreements may be entered into if the report is not received by the Committees on Armed Services of the Senate and House of Representatives by December 1, 1988; and (7) adopt the funding authorization in the House bill of $36.2 million.

The conferees urge the Department of Defense to evaluate critically all facets of its management of the aviator inventory and to also give equal scrutiny to the validity of stated aviator requirements, especially in non-flying positions. With regard to aviator requirements, the conferees received a report from the General Accounting Office, dated June 1988, entitled *"Air Force Pilots—U.S. Air Force Requirements, Inventory and Related Data."* This report indicates about one-third of Air Force pilot requirements are in non-flying jobs. The conferees are skeptical that so many pilots are required in non-flying jobs and caution the Department of Defense that these requirements will be subject to reduction next year if they are not adequately justified on a position by position basis in all Services. The conferees expect this issue to be addressed analytically in the report required by December 1, 1988.

In addition, the conferees direct the Secretary of Defense to evaluate critically the capability and desirability of realigning portions of the Air Force flying missions, such as airlift, to the Air National Guard and Air Force Reserve. The conferees believe that the Air National Guard and Air Force Reserve have demonstrated effective capability in performing the flying missions they have been assigned. Furthermore, the Air National Guard and Air Force Reserve have no apparent aviator manning problems. Realignment of certain flying missions from the active to the reserve force may have the potential of averting some of the aviator manning problems in the active force and may also be cost-effective in the long term. The Secretary of Defense is directed to submit a report to the Committees on Armed Services of the Senate and House of Representatives making recommendations, based on his evaluation, by January 1, 1989, and to include any realignments proposed in the fiscal years 1990/1991 Department of Defense budget request.

Medical officer retention bonus (sec. 612)

The House bill contained a provision (sec. 612) that would authorize $50 million for medical incentive special pay. This authorization is $17 million above the level contained in the amended budget request.

The Senate amendment contained a provision (sec. 612) that would provide the Secretary of Defense short term discretionary authority to increase, by up to 48 percent, certain variable, additional and board certified special pays for physicians who have more than eight years of service and who have qualifications for which the Secretary of Defense determines retention problems exist.

Further, the Senate provision would require the Secretary of Defense to submit a comprehensive report on the Department's requirement for health care professionals, and the adequacy of the current health professional compensation system, accompanied by a legislative proposal providing an alternative compensation system linked to the civilian sector.

The House recedes with an amendment. The conferees recognize that the retention of health care professionals is difficult. While recognizing that compensation is not the only factor affecting retention, the conferees agree that it is a major consideration. The conference agreement directs the Secretary of Defense to submit a comprehensive report to the Committees on Armed Services of the Senate and House of Representatives evaluating the adequacy of the existing compensation package for health care professionals and any recommended changes to that structure. That report must include justification for future long-term specialty requirements, grade levels, training requirements, and levels of non-patient care physician positions. If the Department is unable to justify its stated requirements for those levels during the next budget cycle.

The conference agreement also requires that this long-term comprehensive report include a legislative proposal that provides for one of two approaches to an alternative compensation system for health care professionals linked to the compensation of private sector employed physicians. The Department must submit this proposal, and should, in addition, submit any other legislative proposals the Department of Defense deems to have merit in addressing retention problems in the medical community, to the Committees on Armed Services of the Senate and House of Representatives no later than December 1, 1988.

Further, the conferees agree that while developing an adequate health professional compensation system is the long-term solution, short-term concerns need to be addressed as well. The conference agreement, therefore, authorizes $30 million to establish a discretionary physicians' bonus to be implemented by the Secretary of Defense during fiscal year 1989.

This temporary medical bonus program is to be provided to those physicians determined to be in short supply based either on specialty, training, years of experience, or other factors determined by the Secretary of Defense. This authority is granted only for those members who have more than eight years of creditable service, who have completed service obligations incurred as a result of education and/or training, and whose total compensation currently falls below that of comparable physicians in private sector employment as determined by the Secretary of Defense. The conferees suggest that the salaries of physicians employed by civilian Health Maintenance Organizations, or other similar organizations, may represent a good comparative benchmark. The Secretary would have the authority to negotiate multi-year service agreements with a minimum requirement for a two-year commitment period. The maximum bonus payable is $20,000 per year of commitment. However, the conferees generally expect that the total compensation that a military physician receives under this limited authority in any one year may not exceed a 48 percent increase in the total annual amount of variable special and additional special pays to which such a physician is entitled under sections 302(a)(2), 302(a)(4), and 302(a)(5) of title 37, United States Code, during such year. If the Secretary believes that a higher amount for any physician or category is justified, he should provide written notification to the Committees on Armed Services of the Senate and House of Representatives describing the rationale for his decision.

This section becomes effective January 1, 1989, but only if the comprehensive report and accompanying legislative proposal described above is received by the December 1, 1988, deadline, and the authority shall terminate in any case on September 30, 1989. A report on the proposed method of implementation of this temporary medical special pay program shall be submitted to the Committees on Armed Services of the Senate and House of Representatives by November 15, 1988.

Special pay for critically short wartime health specialists in the Selected Reserve (sec. 613)

The Senate amendment contained a provision (sec. 613) that would authorize a two-year test program utilizing an affiliation bonus, of not more than $10,000 annually, for critical wartime health professionals who agree to serve in the Selected Reserve for one to three years.

The House bill contained no similar provision.

The House recedes.

PART C—OTHER PERSONNEL BENEFITS

LEGISLATIVE PROVISIONS ADOPTED

Housing lease indemnity program (sec. 621)

The House bill contained a provision (sec. 613) that would make permanent for all Services worldwide the pilot rental indemnity program established by section 1357 of the fiscal year 1987 Defense Authorization Act (Public Law 99-661). Under this program, a service Secretary could guarantee to a landlord who leased a rental unit to a military member compensation for any breach of the lease or damage to the rental unit in lieu of the military member paying a security deposit.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to ensure due process to the service member before reducing that member's pay for such breach of the lease or damage to the rental unit.

The conferees note that, in addition to a security deposit, service members assigned in some overseas locations must purchase all of the appliances, plumbing fixtures, and even light sockets for their rental units. The basic housing unit itself may consist of only a shell with no interior fittings. A small portion of the monthly Overseas Housing Allowance is designed to reimburse the member for part of this "upfront" cost. While service members may draw an advance on basic pay and housing allowances, for many lower-ranking members, the $2,000-plus cost of purchasing the basic housing "package" places a severe strain on their family resources. It is not clear that the present Overseas Housing Allowance and advance payment mechanisms are sufficient to deal with these high out-of-pocket expenses. The conferees, therefore, direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives no later than February 1, 1989, on the adequancy of present programs in assisting service members, particularly lower-ranking personnel, in dealing with the upfront costs of making overseas rental housing habitable.

Retired pay inversions resulting from court-martial punishment (sec. 622)

The Senate amendment contained a provision (sec. 614) that would change current authority allowing the adjustment of retired pay to higher amounts because of so-called "look back" provisions so that this authority would not be applicable to personnel retired in a reduced grade because of court-martial.

The House bill contained no similar provision.

The House recedes.

Travel and transportation allowances for emergency travel (sec. 623)

The Senate amendment contained a provision (sec. 616) that would establish the same standard for funded emergency travel for military personnel assigned overseas on temporary duty as exists for military personnel assigned overseas on permanent duty.

The House bill contained no similar provisions.

The House recedes.

Travel and transportation allowances incident to voluntary extension of overseas tours of duty (sec. 624)

The Senate amendment contained a provision (sec. 619) that would clarify that certain overseas tour extension incentives are discretionary.

The House bill contained no similar provisions.

The House recedes.

Civilian clothing allowance (sec. 625)

The Senate amendment contained a provision (sec. 618) that would clarify that civilian clothing allowances for duty in certain places are limited to officer personnel and are discretionary.

The House bill contained no similar provisions.

The House recedes.

LEGISLATIVE PROVISION NOT ADOPTED

Study of supply and demand for child care

The House bill contained a provision (sec. 616) that would require the Inspector General (IG) of the Department of Defense to conduct a study on the supply and demand for child care on military installations for military and civilian families.

The Senate amendment contained no similar provisions.

The House recedes. The conferees note that the General Accounting Office is currently conducting a study on the supply and demand for child care on military installations and that an IG study on the same subject is therefore unnecessary at this time.

PART D—BENEFITS RELATING TO INCAPACITATION OF CERTAIN RESERVE MEMBERS IN LINE OF DUTY

LEGISLATIVE PROVISIONS ADOPTED

Compensation for certain reserve members (sec. 631)

The House bill contained a provision (sec. 621) that would authorize military pay and allowances, less civilian earned income, to National Guard and Reserve personnel who are incapacitated during training and are unable to perform military duties as a result.

The Senate amendment contained no similar provision.

The Senate recedes.

Travel for dependents of certain members (sec. 532)

The House bill contained a provision (sec. 622) that would authorize round trip transportation for certain family members of reservists who are killed or become seriously ill while serving on active duty for 30 days or less or inactive duty for training.

The Senate amendment contained no similar provision.

The Senate recedes.

Injury, disability and death compensation coverage for ROTC cadets during military training activities (sec. 633)

The Senate amendment contained a provision (sec. 620(a)) that would authorize medical care coverage for certain ROTC cadets injured or disabled and death compensation for those who die during or while traveling in connection with prescribed training.

The House bill contained no similar provision.

The House recedes.

PART E—HEALTH CARE MANAGEMENT PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Requirement to submit end strengths for medical personnel (sec. 641)

The House bill contained a provision (sec. 631) that would direct the Secretary of Defense to provide as a part of the annual budget submission a separate statement on the end strength for all members of the armed forces who are medical personnel.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment requiring that a delineation of medical requirements and the end strength to meet those requirements be included in the Defense Manpower Requirements Report. The conferees expect that the budget justification books provided by the Department of Defense will also provide detailed information on medical end strengths and note that the *Health Manpower Statistics* report currently prepared by the Department fails to provide either accurate or useful data on medical staffing.

Requirements with respect to certain Navy medical personnel (sec. 642)

The House bill contained a provision (sec. 632) that would require the Secretary of the Navy to restore to the level of January 1, 1986, the number of civilian personnel employed in Navy medical treatment facilities, including rehiring of support personnel.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment making $15 million of Navy operation and maintenance funds available solely for the purpose of paying the civilian salaries of additional medical support personnel.

The conferees note that two of the principal reasons given for military physician dissatisfaction are, first, the inability to practice medicine due to the shortage of medical support personnel like nurses and technicians and, second, the lack of other support personnel to perform clerical duties. Such clerical duties are a terrible waste of the government's investment in the education and special pays of these providers.

Unfortunately, the Navy made its already critical shortfalls in medical care capability worse by reducing civilian support personnel beginning in early 1986 and substituting non-medical enlisted personnel designated to support the hospital ships and fleet hospitals.

The conferees believe that adequate numbers of qualified support personnel are essential to the efficient operation of a hospital and to physician satisfaction. The enhanced retention incentive provided by the one year medical bonus retention authorized by section 612 could be substantially diluted or even totally negated if the downward spiral on support personnel continues. The conferees are advised that the Navy is working to solve the serious problems that have resulted in some areas as a result of the implementation of the non-medical substitution program. To assist that effort, the conferees set aside funds specifically earmarked for civilian salaries of medical support personnel and intend to closely monitor the progress made on improving support staffing during fiscal year 1989.

Provision relating to Navy end strengths and officer in health professions (sec. 643)

The Senate amendment contained a provision (sec. 622) that would repeal the requirement contained in section 723 of the fiscal years 1988/1989 Defense Authorization Act (Public Law 100-180) that requires the Navy to allocate 25 percent of officer accessions and 15 percent of end strength growth to health professionals.

The House bill contained no similar provision.

The House recedes with an amendment that would earmark a portion of the Navy's officer end strength for fiscal years 1989, 1990, and 1991 to be filled only by health care professionals.

The conferees note that section 723 was included in Public Law 100-180 because of congressional concerns about chronic understaffing in the Navy medical department. Although Congress has approved considerable end strength growth for the Navy from fiscal year 1981 through fiscal year 1988—64,000 personnel—the Navy made a conscious decision to devote the bulk of that growth to manning the fleet for the future 600-ship Navy.

In fiscal year 1986, Navy end strength grew by 10,000 over the fiscal year 1985 level; by contrast, Navy medical staffing decreased by 183. During the same one-year period, non-availability statements issued by Navy hospitals sending patients to civilian medical facilities under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) increased by more than 60 percent. In fiscal year 1987, Navy end strength grew by 6,000; Navy medical staffing decreased by an additional 470.

In an effort to reverse this downward trend in both the level of staffing and the availability of care, section 723 of Public Law 100-180 required that 25 percent of the Navy's officer accessions and 15 percent of its end strength growth during fiscal years 1989 and 1990 be medical personnel. The conferees recognize that percentages are not the optimal way to ensure growth in the Navy's medical strength and, in an effort to ensure modest medical growth over the next few years, have instead required that a portion of the Navy's officer end strength during fiscal years 1989, 1990, and 1991 be earmarked specifially for medical personnel.

The conferees emphasize that their concern is not growth per se but, rather, improvement in the quality and accessibility of medical care. They recognize that major efforts will be necessary and that the Navy may need additional tools. As a first step, they have authorized a one-year medical officer retention bonus in section 612 and plan a comprehensive review of medical personnel incentives next year following submission of the December 1, 1988, report of the Secretary of Defense required in section 612.

The conferees understand that the Navy is looking at increased numbers of Federal civilian employees or expanded contracting with the private sector as other options to relieving its current staff shortfalls. If the Navy succeeds in significantly increasing its medical staff by implementing one or both options, the conferees will review the medical end strength level allocated by this provision and make appropriate revisions.

The conferees recognize that recruiting and retaining health care professionals are challenging tasks and have attempted to set realistic goals for growth. Some provider categories, like nurses, will be very difficult to increase because severe shortages exist in the civilian sector as well. The Navy has the opportunity, however, for growth in some other provider groups, specifically physician assistants. If action is taken on commissioning physician assistants, this program could offer the opportunity to increase substantially the availability of medical care to the current beneficiary population, both aboard ship and at fixed medical facilities.

The conferees will closely monitor the Navy's implementation of this medical growth plan. Should the requirements of section 642 prove unrealistic or unattainable in the current environment, after a good faith effort by the Navy to achieve those goals, the conferees would certainly consider any other recommendations from the Secretary of the Navy, through the Office of the Secretary of Defense, for modification. The conferees note that they view reversal of the chronic understaffing of Navy medical care to be a top priority item in the allocation of Navy manpower resources in the foreseeable future.

Sharing of health care resources between the Department of Defense and the Veterans' Administration (sec. 644)

The House bill contained a provision (sec. 633) that would provide authority in title 10 for Department of Defense/Veterans' Administration (DOD/VA) sharing agreements and permit the use of Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) funds to execute such agreements.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment deleting the House provision and instead providing $20 million of medical operation and maintenance funding for such sharing agreements. The conferees recognize the merit and potential for cost-effective use of scarce medical care resources that can result from such sharing agreements and expect the Department of Defense to continue to explore ways to contain rapidly escalating medical costs.

CHAMPUS was established to pay for care provided beneficiaries in the civilian sector. If the Department of Defense believes that greater cost-effectiveness can be achieved in some instances through use of CHAMPUS funds for sharing agreements with the Veterans' Administration, then a number of issues need to be clarified. Before authorizing the Department of Defense to use CHAMPUS funds for DOD/VA sharing, the conferees need further information. Therefore, the Secretary of Defense is directed to submit a report not later than February 15, 1989, addressing the following questions:

1. Would beneficiary freedom of choice be limited in any way as a result of a sharing agreement?
2. Would contractors in the region of the country covered by the CHAMPUS Reform Initiative be liable for the costs incurred by a local base commander who negotiates a sharing agreement without the contractor being allowed to participate in that decision?
3. On what priority basis would patients be seen in DOD and VA facilities?
4. What types of tracking methods would be in place to monitor the use of CHAMPUS funds and evaluate the growth and cost-effectiveness of the sharing program?
5. Would a copayment be required for DOD beneficiaries utilizing these agreements?
6. How would patient workloads be used to justify expansion of facilities?
7. Would written referrals be required?
8. Would cost effectiveness be required?
9. How would double billings be prevented?

In addition, the conferees expect the report to address the recommendations of the General Accounting Office contained in the March 1988 report entitled "Further Opportunities to Increase the Sharing of Medical Resources" and any additional issues that the Secretary deems appropriate.

The conferees direct the Department to develop a plan for utilization of CHAMPUS funds to execute agreements as authorized by the Veterans' Administration and Department of Defense Health Resources Sharing and Emergency Operations Act (Public Law 97-174). This report and plan should be submitted to the Committees on Armed Services of the Senate and House of Representatives not later than February 15, 1989.

The Department of Defense is to be commended for the more than 240 sharing agreements which have already been executed under current authority. Both cost efficiencies and high quality health care are imperative components of delivering medical treatment to beneficiaries of our military medical system.

Extension of earliest termination date for former Public Health Service hospitals and requirement that such hospitals be cost effective (sec. 645)

The House bill contained a provision (sec. 621) that would extend the earliest possible termination date for designation of Uniformed Services Treatment Facilities to December 31, 1989 and would require that the Secretary of Defense certify that more cost-effective care can be obtained prior to termination of the designation.

The Senate amendment contained a provision (sec. 634) that would extend the earliest possible termination date for designation of Uniformed Services Treatment Facilities to December 31, 1991.

The House recedes with an amendment extending the earliest possible termination date for designation of Uniformed Services Treatment Facilities to December 31, 1990, and requiring the Secretary of Defense to certify that more cost effective care can be obtained prior to termination of the designation.

Eligibility of certain institutions to receive reimbursement under CHAMPUS (sec. 646)

The House bill contained a provision (sec. 635) that would authorize the Secretary of Defense to waive CHAMPUS co-payment if a medical treatment facility does not impose a legal obligation to pay for care on all patients. The Secretary of Defense would not be permitted to withhold payment to a hospital based solely on the fact that the facility imposes no legal obligation for payment on its patients.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that permits the Secretary of Defense to waive CHAMPUS beneficiary co-payment and to make payment to requesting hospitals that do not impose legal obligations on patients to pay for care, if the requesting hospital meets regulations prescribed by the Office of the Civilian Health and Medical Program of the Uniformed Service.

PART F—MISCELLANEOUS

LEGISLATIVE PROVISIONS ADOPTED

Limited extension of certain medical benefits for former spouses (sec. 651)

The House bill contained a provision (sec. 615) that would authorize a limited extension of certain medical benefits for former spouses. Specifically, those former spouses who had been married for a minimum of 20 years to a service member who served for a minimum of 20 years with at least 15 years of marriage during that military service (the so called "20/20/15" group) and whose divorces were finalized after the enactment of the fiscal year 1989 Defense Authorization Act, would become eligible for one year of transitional military medical care while deciding whether to elect coverage under the new Department of Defense conversion plan. Those with pre-existing conditions not covered in the first year of the conversion plan would retain eligibility for military medical care for an additional one-year period for that pre-existing condition.

The Senate amendment contained no similar provision.

The Senate recedes.

Technical correction to survivor benefit plan coverage of former spouses (sec. 652)

The House bill contained a provision (sec. 614) that would make a technical correction to ensure that the designated former spouses of military retirees, of retirement eligible active-duty personnel, or of reservists with at least 20 years service who were spouse beneficiaries on or before the date of the fiscal year 1986 Survivor Benefit Plan changes have their post-age 62 annuities calculated under both the previous and current systems, with entitlement to the higher of the two.

The Senate amendment contained no similar provision.

The Senate recedes.

Special annuity for certain surviving spouses (sec. 653)

The Senate amendment contained a provision (sec. 615) that would authorize a $165 per month survivor benefit payment to survivors of military retirees whose spouses died before November 1, 1953.

The House bill contained no similar provision.

The House recedes with an amendment requiring this category of survivors to meet the eligibility under the Department of Defense Minimum Income Widows' Program in order to be eligible for this program.

Report on definition of dependent for certain purposes (sec. 654)

The Senate amendment contained provisions that would define "dependent" for travel purposes (sec. 617), for medical care purposes (sec. 623), and for commissary entitlement purposes (sec. 620).

The House bill contained no similar provisions.

The House recedes with an amendment deleting the Senate provisions but requiring a report from the Secretary of Defense not later than February 15, 1989, that comprehensively addresses the appropriate benefits and entitlements that should accrue to military dependents, and the appropriate definition of military dependent as a category so that this category can be treated uniformly for such entitlements and benefits as housing, travel, medical care, commissary privileges, schooling, etc. The amendment further requires that the Secretary of defense submit proposed legislation to accompany the report which would implement the recommendations in the report.

TITLE VII—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Authority to Establish Position of Assistant Secretary of Defense for Intelligence (sec. 701)

The House bill contained a provision (sec. 951) that would:

(1) amend section 136(b) of title 10, United States Code, by dropping "intelligence" from the position title, redesignating the position of Assistant Secretary of Defense for Command, Control, and Communications, and making a corresponding change to the prescription of the responsibility of such position;

(2) amend section 136(b) of such title to designate the position of Assistant Secretary of Defense for Intelligence and to prescribe the responsibility of such position; and

(3) amend section 136(a) of title 10 and section 5315 of title 5 to increase the number of Assistant Secretaries of Defense from eleven to twelve.

The Senate amendment contained a provision (sec. 705) that would prohibit the use of funds in fiscal year 1989 to establish or operate an Office of the Assistant Secretary of Defense for Intelligence or to pay the salary of an Assistant Secretary of Defense for Intelligence.

The conferees agreed to an amendment to retain the current position of Assistant Secretary of Defense for Command, Control, Communications, and Intelligence, but to authorize the Secretary of Defense, if he so chooses, to separate the intelligence function and the command, control, and communications function. The Secretary of Defense could establish the position of Assistant Secretary of Defense for Intelligence and redesignate the current position as the Assistant Secretary of Defense for Command, Control, and Communications. The conferees recognize that concerns about the current consolidation of these functions have been raised and that alternative organizational arrangements are being studied within DOD. The conferees agreed to provide the Secretary of Defense with the flexibility to implement any improved organizational arrangements that he determines necessary. The authority granted by the provision is consistent with the conferees' view that the Secretary of Defense should have sufficient flexibility to organize his office to fit his personal management style and DOD functional priorities.

The conferees agree to require the Secretary of Defense to submit, not later than November 1, 1988, a report to the Committees on Armed Services of the Senate and House of Representatives presenting and explaining his determination as to the most appropriate assignment of the duty of supervising the intelligence function. Such report should also present and explain the Secretary's views on the recommendations relating to the intelligence function contained in the management studies of the Office of the Secretary of Defense (OSD) required by section 109 of the Goldwater-Nichols DoD Reorganization Act of 1986 (Public Law 99-433). In each instance in which the Secretary recommends a change to the duty of supervising the intelligence function, he should explain how relationships among OSD officials and between OSD officials and intelligence officials in other departments and agencies would be affected. The Secretary should also include his recommendations for other organizational changes in the overall intelligence community that are warranted, particularly if he decides to create an Assistant Secretary of Defense for Intelligence.

Should the Secretary of Defense decide to establish the position of Assistant Secretary of Defense for Intelligence, the report that he submits to the Committees on Armed Services must include a detailed explanation of the duties of, and a draft charter for, such position. In addition, the Secretary should provide a detailed explanation of the duties of, and a draft charter for, the position of Assistant Secretary of Defense for Command, Control, and Communications, as redesignated. The conferees intend that the Secretary's report will be reviewed by the Committees on Armed Services prior to any confirmation proceedings for the new position and the redesignated position.

Should the Secretary of Defense decide to establish the position of Assistant Secretary of Defense for Intelligence, he will have to do so within the authorized level of eleven Assistant Secretaries. If the Secretary believes that a twelfth Assistant Secretary is justified, he should include in his report to the Committees on Armed Services an explanation of the need for an increase in the authorized number of Assistant Secretaries.

Designation in each military department of Assistant Secretary with responsibility for financial management (sec. 702)

The House bill contained a provision (sec. 701) that would—

(1) amend sections 3016(b), 5016(b), and 8016(b) of title 10, United States Code, to designate an Assistant Secretary for Financial Management in each Military Department and to prescribe the responsibility of such positions;

(2) amend chapters 303, 503, and 803 of such title to add new sections 3022, 5025, and 8022, respectively, prescribing the financial management activities and operations that the Assistant Secretary for Financial Management of each Military Department is to direct and manage; and

(3) amend section 8016(a) of such title to increase the number of Assistant Secretaries of the Air Force from three to four.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to specify the effective dates for the various subsections of the House provision. In the case of the Departments of the Army and the Navy, January 20, 1989 is the effective date for subsections (a) and (b), respectively. In the case of the Department of the Air Force, July 1, 1989 is the effective date for subsections (c) and (d), except that such subsections shall take effect on such earlier date, but not before January 21, 1989, as may be prescribed by the President in advance by Executive Order.

General Counsels of military departments (sec. 703)

The Senate amendment contained a provision (sec. 706) that would amend sections 3019, 5019, and 8019 of title 10, United States Code, to require the appointment of the General Counsel of a Military Department by and with the advice and consent of the Senate. The Senate provision would apply this requirement only to appointments made on and after the date of enactment of this act.

The House bill contained no similar provision.

The House recedes.

Deferral of retirement date for Chairman of the Joint Chiefs of Staff (sec. 704)

The Senate amendment contained a provision (sec. 702) that would authorize the President to defer the retirement of the current JCS Chairman to coincide with the end of his second term on October 1, 1989.

The House bill contained no similar provision.

The House recedes.

Assignment of combatant forces (sec. 711)

The Senate amendment contained a provision (sec. 703) that would amend section 162(a) of title 10, United States Code, to authorize the Secretary of Defense to assign U.S. combatant forces to the U.S. element of binational and multinational military commands.

The House bill contained no similar provision.

The House recedes with an amendment to limit the authority of the Secretary of Defense to assign U.S. combatant forces, other than to combatant commands, only to the U.S. Element of the North American Air Defense Command.

Responsibility and authority of commander of special operations command (sec. 712)

The Senate amendment contained a provision (sec. 704) that would amend section

167(e) of title 10, United States Code, to clarify which of the functions of the commander of the special operations command are limited to assigned forces and to clearly assign to such commander responsibility for preparing and submitting to the Secretary of Defense program recommendations and budget proposals for special operations forces.

The House bill contained no similar provision.

The House recedes with two amendments. The first amendment would clarify that the commander of the special operations command would be responsible for executing budgets as well as for preparing and submitting to the Secretary of Defense program recommendations and budget proposals. The conferees agreed that the commander of the special operations command shall be responsible for budget execution not later than for the budget for fiscal year 1992.

The second House amendment would specify that the commander of the special operations command would be responsible for program recommendations, budgets proposals, and budget execution for other assigned forces as well as for all special operations forces. At present, not all of the forces assigned to the special operations command are designated as special operations forces. The conferees agreed that the commander should have the specified resource allocation responsibilities for all forces assigned to the command.

Strategic air defense alert mission (sec. 713)

The House bill contained a provision (sec. 945) that would prohibit any changes to any Air National Guard unit in the strategic air defense mission in the northern U.S., or any changes to the deployment of those units until both the Over-the-Horizon Backscatter (OTH-B) radar system and the North Warning System are fully deployed and the Secretary of the Air Force has reported on how these and other systems will perform the strategic air defense mission along the northern border of the U.S. and in Canada.

The Senate amendment contained a similar provision (sec. 942).

Neither committee had the opportunity to receive testimony on this or other issues related to impending changes in the strategic air defense mission as a result of the phaseout of the Distant Early Warning (DEW) line of radars and its replacement with the OTH-B and North Warning radars, which exend the warning and surveillance network into the arctic reaches. Accordingly, the Senate recedes with an amendment calling for an interim report on the effort of this provision on planned Department of Defense operations, and recommendations on whether this policy should be continued after fiscal year 1989. Both committees plan to hold extensive hearings in connection with the fiscal year 1990 budget request on the effects of this provision.

Reports on budgets for unified and specified commands (sec. 714)

The House bill contained a provision (sec. 705) that would amend section 166 of title 10, United States Code, to require the Secretary of Defense to submit a separate budget proposal for each unified and specified combatant command. The House provision would also add "command and control" to the list of activities for which funding is to be requested in such separate budget proposals.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that requires reports by the Secretary of Defense, the JCS Chairman, and the commanders of the unified and specified combatant commands on the resource allocation provisions, including separate budget proposals for the combatant commands, of the Goldwater-Nichols DOD Reorganization Act of 1986 (Public Law 99-433). The conferees express concern that implementation of the resource allocation provisions appears to be incomplete. The conferees intend that the required reports will assist the Committees on Armed Services of the Senate and House of Representatives in determining what further actions may be necessary to ensure full implementation of the Goldwater-Nichols Act.

Report on initial Unified Command Plan and review of Service roles and missions (sec. 715)

The House bill contained a provision (sec. 707(a)) that would require the Secretary of Defense to submit not later than April 1, 1989 to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of sections 153(b) and 161(b) of title 10, United States Code. Such report would address the initial report of the JCS Chairman on the assignment of functions (or roles and missions) to the Services (as required by section 153(b)) and the initial review by the JCS Chairman of the Unified Command Plan (as required by section 161(b)).

The Senate amendment contained no similar provision.

The Senate recedes. The conferees agreed that this report would assist congressional efforts to monitor progress in the implementation of the Goldwater-Nichols DoD Reorganization Act of 1986 (Public Law 99-433).

Regulations for delivery of military personnel to civil authorities when charged with certain offenses (sec. 721)

The Senate amendment contained a provision (sec. 936) that would require the Department of Defense to promulgate uniform regulations to provide for the delivery to civilian authorities of military members accused of civil offenses, including parental kidnapping and related offenses, especially with respect to those who might otherwise remain overseas to avoid stateside civil child custody proceedings.

The House bill contained no similar provision.

The House recedes.

Court of military appeals retirement revisions (sec. 722)

The Senate amendment contained a provision (sec. 918) that would revise the retirement system for judges of the Court of Military Appeals.

The House bill contained no similar provision.

The House recedes with an amendment establishing the retirement system for the Court of Military Appeals under the Department of Defense Military Retirement Fund. Under this provision, a judge may elect, at the time of retirement from civil service, to receive an annuity under this new program in lieu of any other annuity to which the judge may be entitled under any other retirement system for civilian employees of the Federal government. If the judge makes such an election, it would be irrevocable, and the judge would not be entitled to any return of retirement contributions. This provision, however, does not affect the judge's entitlement to any benefits to which he is otherwise entitled under the government's Thrift Saving Plan.

It is the intent of the conferees that the provisions governing cost-of-living increases and survivor annuities be implemented, insofar as practicable, in a manner consistent with the provisions governing such benefits for civilian employees and their survivors under title 5, United States Code.

Annual net assessments (sec. 731)

The Senate amendment contained a provision (sec. 707) that would clarify the timing and content of the annual net assessment that is to be transmitted to the Congress by the Secretary of Defense under section 113(j) of title 10, United States Code.

The House bill contained no similar provision.

The House recedes.

Linkage of national military strategy and weapon acquisition programs (sec. 732)

The House bill contained a provision (sec. 938) that would express the sense of Congress that (1) the links between national strategy and specific acquisition decisions should be better defined; (2) the necessary operational capabilities and concepts of operations should be more clearly defined through the requirements process; (3) the requirements process should include alternatives based on levels of resources likely to be approved by the Congress and explicit tradeoffs among the Services; (4) the Secretary of Defense should ensure that budget priorities clearly reflect national strategic priorities; and (5) the Secretary should commission an independent assessment of the DoD process for requirements and planning.

The Senate amendment contained no similar provision.

The Senate recedes with technical amendments to clarify the House provision.

Ammunition production base requirements (sec. 733)

The House bill contained a provision (sec. 943) that would express the sense of Congress that the maintenance of the inactive portion of the Government-owned ammunition production base is critical to the defense of the United States and that sufficient funding should be provided to maintain this base to meet surge requirements and mobilization requirements of the Military Departments. This provision would also require the Secretary of Defense to submit a report, together with appropriate legislative proposals, to the Committees on Armed Services of the Senate and House of Representatives by December 1, 1988 on alternatives to the current method of funding the ammunition production base to better assure that appropriate levels of funds are used for the maintenance of the base.

The Senate amendment contained no similar provision.

The Senate recedes with technical amendments.

Sense of Congress on declassification of classified information (sec. 734)

The House bill contained a provision (sec. 957) that would express the sense of Congress that the Secretary of Defense should take all reasonable measures to declassify classified information under the control of the Department of Defense that the Secretary determines is no longer required to be protected in the interests of national security.

The Senate amendment contained no similar provision.

The Senate recedes. The conferees agree that too much information is classified in the first instance and too much information remains classified beyond the time that it is required to be protected. They are aware that Executive Order 12356 requires that classified information be declassified as soon as national security consideration permit, and urge the Secretary to take all reasonable steps to assure that this policy is carried out.

Advance payment of administrative claims (sec. 735)

The Senate amendment contained a provision (sec. 916) that would amend current law governing advance payment for administrative claims by increasing the maximum amount from $10,000 to $100,000.

The House bill contained no similar provision.

The House recedes. The conferees note that in most instances of death or injury to persons or property, the $10,000 limit in current law will provide sufficient funds to enable a claimant to alleviate any immediate hardship and mitigate damages pending final settlement. The conferees direct the Secretary of Defense to issue rules to ensure that the authority to provide advance payments in excess of $10,000 will be exercised in a judicious manner.

Energy efficiency incentive (sec. 736)

The Senate amendment contained a provision (sec. 925) that would authorize the Department of Defense to establish a program to conserve energy. Under this provision, the portion of the funds appropriated for payment of a military Service's energy expenses that is equal to the Government's share of the first year's energy cost savings resulting from contracts entered into under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.) as amended in 1986, would be treated as an unobligated balance. This unobligated balance would be available to the Service in the fiscal year after the fiscal year in which the savings occur, to be used in equal amounts, until expended, for additional energy efficiency projects by the Service, and appropriated Morale, Welfare and Recreation purposes and minor construction projects that enhance the quality of life at the installation at which the savings are realized.

The House bill contained no similar provision.

The House recedes with a technical amendment.

LEGISLATIVE PROVISION NOT ADOPTED

Maintenance of selected reserve force structure

The House bill contained a provision (sec. 932) that would prohibit the secretaries of the Military Departments from reducing the force structure of the Selected Reserve of the reserve components under their respective jurisdictions below the fiscal year 1988 force structure levels.

The Senate amendment contained no similar provision.

The House recedes. However, the conferees agree with the $11 million increase in the House bill to the Air National Guard and Air Force Reserve operation and maintenance accounts with the understanding that this funding is not designated for any specific purpose.

Uniform method for establishing wage schedules and rates

The House bill contained a provision (sec. 949) that would reinstate the effects of the so-called "Monroney Amendment" for the Department of Defense. The provision would require that wage rates for federal civilian blue collar workers be based on local prevailing wages for comparable private sector positions. If there is an insufficient number of comparable private sector positions to provide a representative sample, the nearest wage area with similar characteristics would be referenced for appropriate wage determinations.

The Senate amendment contained no similar provision.

The House recedes.

TITLE VIII—ACQUISITION POLICY AND MANAGEMENT

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Integrated financing policy (sec. 801)

The House bill contained a provision (sec. 821) that would require defense contractors to submit an annual profit information report containing detailed financial data to a firm in the private sector designated by the Secretary of Defense. The firm would aggregate the data and transmit it annually to the Secretary of Defense. The Secretary would be required on an annual basis to conduct a study of the financial situation and level of profitability of defense contractors.

The House bill also contained a provision (sec. 822) that would require the Secretary of Defense to establish an Advisory Council for the purpose of recommending to the Secretary of Defense a financial analysis methodology for the profitability study.

The Senate amendment contained a provision (sec. 801) that would require the Secretary of Defense to establish, in conjunction with the development of the Five Year Defense Program, an integrated plan to ensure that Department of Defense financing policies are structured to meet the Department's long-term needs for industrial resources and technology innovation. The foundation of the plan would be the Department's long-term goals for the defense industry, taking into account the different characteristics of its separate segments and tiers. The plan would set forth a detailed explanation of the relationship between these long-term goals and the specific policies, as reflected in the budget, on progress payments and other financing of contractors, return on investment, and division of contract risk.

The Senate recedes with an amendment that makes clarifying changes to the integrated financing policy requirement and that requires the Department of Defense: (1) in developing the integrated financing policy, to take into consideration the profitability of negotiated defense contracts for each fiscal year that forms the basis for the policy; (2) to establish an Advisory Council to recommend the financial analysis methodology to be used for any return on investment study conducted by the Secretary of Defense; (3) to use the most current information on profitability developed for the integrated financing policy as the basis for negotiating defense contracts; and (4) to report to Congress each year on the manner in which contracts negotiated under the integrated financing policy have prevented the occurrence of excessive profits. The Council would consist of seven numbers, with three representatives from the private sector and four from the public sector (including the General Accounting Office and the Department of Defense). It is the intent of the conferees that that the private sector representatives include persons from defense industry and the accounting profession.

Competitive prototype strategies (sec. 802)

The Senate amendment contained a provision (sec. 819) that would substantially revise current law governing the use of competitive prototyping in the development of appropirate acquisition strategies.

The House bill contained no similar provision.

The House recedes with an amendment sunsetting the statutory provisions governing competitive prototype strategies on September 30, 1991. The conferees believe that the next three years will provide a base of experience that will permit the Department, after legislation expires, to develop appropriate regulatory guidance for the use of competitive prototype strategies.

Delegation of authority to approve certain contract justifications (sec. 803)

Section 2304(f) of title 10, United States Code, requires written justifications and approvals for contract awards that use procedures other than competitive procedures. As currently written, the aproval can be granted only by the "senior procurement executive" for contracts in excess of $10 million. Although each Military Department has a statutory "senior procurement executive," no authority exists to designate such a position in the Defense Agencies and other elements of the Department of Defense. This means that the Under Secretary of Defense for Acquisition must serve as the approval authority for the Defense Agencies and other elements of the Department that are not within the Military Departments.

The Senate amendment contained a provision (sec. 808) that would permit the Under Secretary of Defense to delegate his approval authority to a senior official within each applicable element of the Department of Defense.

The House bill contained no similar provision.

The House recedes with an amendment that specifies the military or civilian grade that must be held by an individual who receives this delegation of authority. The conferees wish to emphasize that the sole purpose of this provision is to permit the Under Secretary to delegate this duty if he so desires, and it is not the intent of the conferees to encourage any increase in the use of noncompetitive procedures.

Evaluation of contract proposals for professional and technical services (sec. 804)

The House bill contained a provision (sec. 807) that would require the Department of Defense to evaluate proposals for professional services as if the hourly labor rates for professional employees carrying out the services were based on a 40-hour work week.

The Senate amendment contained a provision (sec. 812) that would express the sense of the Senate that the evaluation of professional and technical services contract proposals should be made on the basis of a 40-hour work week standard.

The Senate recedes with an amendment requiring the Secretary of Defense to establish criteria to ensure that proposals for professional and technical services are evaluated on a basis which does not encourage contractors to propose mandatory uncompensated overtime for professional and technical employees.

The conferees believe that timely and decisive action must be taken by the Department of Defense to resolve the issue of the basis upon which the Department will evaluate bids and proposals for the professional and technical services. The conferees feel strongly that the issue must be resolved promptly and in a manner that provides the Department with the best product for funds expended, while maintaining fair labor practices. The conferees direct that the Department establish an advisory committee to make recommendations concerning the issue. The conferees intend to follow closely the Department's implementation of this provision and will review whether legislation is still necessary after the Secretary acts.

The professional and technical services representation on the advisory committee shall be drawn from trade and business associations such as the Professional Services Council, the Contract Services Council, the Contract Services Association, the Electronic Industries Association, the American Electronics Association, and other interested groups or companies.

In recommending criteria, the advisory committee should recognize that the professional and technical services industry is a vital sector of the defense industrial base. The provision of quality services by the industry is essential to assuring innovation and technological leadership in our defense systems. Acquisition procedures should be specifically fashioned to achieve the objective of quality professional and technical services support for the defense effort.

Procurement of critical spare parts (sec. 805)

The House bill contained a provision (sec. 808) that would require the Secretary of Defense to procure critical spare or repair parts for ships and aircraft that meet the same quality and inspection requirements as the original parts.

The Senate amendment contained a provision (sec. 822) that would require the Secretary of Defense to use, in procuring critical spare or repair parts for aircraft, qualification and quality requirements that were at least as stringent as those that applied to the original or original redesigned parts.

The Senate recedes with an amendment requiring that the head of an agency, when purchasing critical spare or repair parts, use all appropriate quality and qualification requirements as may be specified and made available to potential offerors. In determining the appropriate qualification and quality requirements, the head of an agency is required to utilize the requirements used to qualify the original production part, unless he determines in writing that any or all such requirements are unnecessary.

The conferees support the efforts by the Services to increase significantly competition in the procurement of critical spare or repair parts and this provision is not intended to supersede any law or regulation, including section 2319 of title 10, United States Code. However, the conferees are equally concerned that quality and safety not be compromised in procuring critical spare or repair parts. They recognize that there are circumstances in which it may not be necessary to apply the same qualification and quality requirements used during the development or early production stages of a defense program to a part procured to support a fielded system. They also recognize that as technology changes qualification requirements change. However, the qualification and quality requirements applied to critical original production parts should serve as the baseline and subsequent modifications should be documented.

The conferees intend to continue monitoring this issue and direct the General Accounting Office to prepare and submit a report within one year on the implementation of this section and the procedures used by the Services to ensure the necessary level of quality in critical spare parts procurement. The review should focus on parts procured from original equipment manufacturers as well as parts procured from other sources. The report should review any criteria used to designate parts as critical parts and, to the extent that quality deficiencies in such critical parts can be traced and documented, any organizational or systemic causes which might lead to the procurement of critical parts of insufficient quality.

Incentives for innovation (sec. 806)

The Senate amendment contained a provision (sec. 803) that would prevent the Government from requiring that a prime contractor provide for competition between identical items in cases where an item has been developed exclusively at private expense. The Senate provision would allow the head of an agency to require such competition in certain circumstances. In addition, the Senate provision would require the Department of Defense to evaluate proposals from prime contractors who rely on privately-developed items in a manner that accommodates the objectives of this provision.

The House bill contained no similar provision.

The House recedes with an amendment that makes technical changes and that requires DOD, in considering the responses to proposals described in subparagraphs (1)(B) or (2)(B) of section 2305(d) of title 10, United States Code, to evaluate items developed exclusively at private expense on the basis of an analysis of the total value of incorporating such items in the system.

Regulations on use of fixed price development contracts (sec. 807)

The Senate amendment contained a provision (sec. 802) that would require the Secretary of Defense to prescribe guidelines limiting the use of fixed price contracts for development programs. The Senate provision also would preclude use of firm-fixed price development contracts in excess of $10 million unless approved by the Under Secretary of Defense for Acquisition.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees note that current Department of Defense rules discourage the use of fixed price development contracts, but do not provide sufficient guidance for assessment of the relationship between pricing and program risk, and for the allocation of risk between the United States and the contractor. The conferees expect the revised regulations to provide a greater level of detail with respect to these matters.

The conferees emphasize that the expiration of the $10 million statutory limit on firm-fixed price contracts after two years does not signal any intent or expectation that the regulatory limitations will be changed substantially at that time; rather, it reflects a belief that a two-year statutory period is sufficient to focus the Department's attention on this problem. The Congress can monitor the Department's performance after that period through the oversight process without the necessity for mandatory involvement by the Under Secretary in specific cases, except to the extent that the Under Secretary believes at that time that such continuing involvement is necessary.

Department of Defense Advisory Panel on government-industry relations (sec. 808)

The Senate amendment contained a provision (sec. 811) that would require the Secretary of Defense to establish an advisory panel on government-industry relations.

The House bill contained no similar provision.

The House recedes.

Report on simplification and streamlining of acquisition procedures (sec. 809)

The Senate amendment contained a provision (sec. 810) requiring the Under Secretary of Defense for Acquisition to submit to Congress a report on the Under Secretary's programs regarding simplification of procedures governing the acquisition process.

The House bill contained a provision (sec. 802) requiring the Department of Defense and the General Accounting Office to conduct studies of the Department's implementation of the acquisition streamlining recommendations proposed by the President's Blue Ribbon Commission on Defense Management (the "Packard Commission").

The House recedes. The conferees direct the Under Secretary of Defense for Acquisition to include an assessment of the effectiveness of the Department's implementation of the Packard Commission's recommendations in the report required by this section. The conferees also direct the Under Secretary to specifically address the impact of existing laws and regulations on the effectiveness of program managers and contracting officers.

Defense industrial base (sec. 821)

The House bill contained comprehensive provisions (secs. 1001 and 1002) that would be intended to foster revitalization of the United States defense industrial base.

The Senate amendment contained a similar provision (sec. 804).

The House recedes with an amendment that, among other changes, clarifies the intent of the provision; changes the title of the Defense Production Innovation Office to the Defense Industrial Base Office; and deletes the reference to the Defense Production Base Director.

Source for procurement of certain valves and machine tools (sec. 822)

The House bill contained a provision (sec. 805) that would prohibit the Department of Defense from buying powered and non-powered valves manufactured outside the United States. The House bill included another provision (sec. 806) that would prohibit the Secretary of Defense or the Secretaries of the Military Departments from buying certain machine tools manufactured outside the United States or Canada.

The Senate amendment contained no similar provisions.

The Senate recedes on both provisions with an amendment to make the following changes: (1) specify that the category of valves covered by the provision are those used in piping for naval surface ships and submarines; (2) specify that the valves and machine tools covered by the provision may not be purchased from sources outside the United States and Canada; (3) restrict the period of time in which the valves and machine tools would be covered by the provision to three years; (4) authorize the Secretary of Defense to extend the restriction contained in the provision for two additional years. In addition to these changes to the House provisions, the conferees agree to authorize the Secretary of Defense to waive the restriction in the provision if he makes any one of several specific determinations.

Finally, the conferees direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives on the costs and effects of statutory "Buy American" restrictions. The report shall include the following information and analysis: (1) a compilation of statutory "Buy American" restrictions that affect purchases by the Defense Department; (2) an analysis of the existing capability of U.S. and Canadian manufacturers of the products covered by the "Buy American" restrictions to provide the Defense Department with an adequate supply of those products of a satisfactory quality, on a timely basis, and at a reasonable cost; (3) factors that should be considered by the Secretary and the Congress in establishing "Buy American" restrictions on defense products; (4) an estimate of the costs incurred by the Defense Department in not being able to buy products covered by the "Buy American" restrictions from sources outside the United States; (4) an analysis of how the Secretary of Defense would exercise the waiver authority granted by this provision for valves and machine tools if it were extended to encompass the other products covered by "Buy American" restrictions; and (5) the Secretary's recommendations for any legislative action on this subject. This report shall be submitted to the Armed Services Committees by February 1, 1989.

The conferees believe that their agreement on the House provisions should represent the beginning of a reassessment by the Congress of the role of "Buy American" restrictions in the procurement of defense equipment. In particular, the report to be prepared by the Secretary of Defense should greatly contribute to this review. Another important factor to be considered in the course of this reassessment will be the defense industrial base planning framework established by section 821.

Critical technologies plan (sec. 823)

Section 817 of the Senate amendment would establish an annual requirement for the Under Secretary of Defense for Acquisition, in consultation with the Assistant Secretary of Energy for Defense Programs, to submit a plan for developing the 20 technologies most essential to ensure long-term qualitative superiority in United States weapon systems. The plan required by the Senate amendment would include, among other items, the extent to which the United States should depend on its allies for the development of such technologies.

The House bill contained no similar provision.

The House recedes with an amendment that requires the plan to include a comparison of the relative positions of the United States and other industrialized countries prominent in the 20 most essential technologies. The conference agreement also requires the plan to include an assessment of the extent to which the United States should depend on other countries, not limited to U.S. allies, for the development of the 20 most essential technologies.

Defense memoranda of understanding (sec. 824)

The Senate amendment contained a provision (sec. 805) that would require the Secretary of Defense to consult with the Secretary of Commerce in the negotiation and renegotiation of Memoranda of Understanding (MOUs) between the Department of Defense and one or more foreign countries relating to defense trade, cooperation on defense research, or production of defense equipment. The Senate provision would also require the Secretary of Defense, in consultation with the Secretary of Commerce, to submit a report to the Armed Services Committees of the Senate and House of Representatives that describes the effect on the United States defense industrial base of the implementation of each such memorandum.

The House bill contained no similar provision.

The House recedes with an amendment that clarifies the intent of the provision, deletes reporting requirements from the provision, and deletes from the provision language directing the Secretary of Defense to use resources provided by the Secretary of Commerce.

The conferees agree that for a period of one year after the enactment of this Act, the Secretary of Defense, after consulting with the Secretary of Commerce, shall submit a report within 30 days after each such memorandum of understanding is signed. The report shall include, at a minimum, a description of the anticipated effects of the implementation of the memorandum on the United States defense industrial base. The reports are to be submitted to the Committees on Armed Services of the Senate and House of Representatives.

The conferees also recognize that cases may exist in which the defense industry may appeal the decision to sign an MOU on the grounds that implementing it would adversely affect the United States defense industrial base. In resolving industry complaints, the conferees direct the Secretary of Defense to fully use such resources as the Secretary of Commerce may make available to the Department of Defense for the purpose of making a determination of the validity of any protest.

Department of Defense offset policy (sec. 825)

The Senate amendment contained a provision (sec. 806) that would require the Secretary of Defense, in coordination with the Secretary of Commerce, the Secretary of State, the Secretary of the Treasury, and the United States Trade Representative, to establish a comprehensive offset policy for defense contractual arrangements with foreign countries. The provision would also restrict officials of the United States from entering into any agreement with a foreign country that would require the transfer of United States technology to a foreign country or firm in connection with a contract that is subject to an offset arrangement if the implementation of the agreement would adversely affect the United States defense industrial base and result in a substantial loss to the United States firm. Should any firm enter into a contract for the sale to a foreign country of a weapon system subject to an offset arrangement exceeding $50 million, the provision would also require that the firm notify the Secretary of Defense of the proposed sale.

The House bill contained no similar provision.

The House recedes with an amendment that clarifies the findings; directs the President, instead of the Secretary of Defense, to establish an offset policy and to enter into negotiations with foreign governments; requires the President, instead of the Secretary of Defense, to submit specified reports; directs the Secretary of Defense to consult with the Secretary of Commerce in making a determination on the validity of a protest by the defense industry regarding a memorandum of understanding; and delays by one year the due date of a report of possible actions that the United States might take regarding offsets.

The Senate provision would require the Secretary of Defense to consult with the Secretary of Commerce, the Secretary of State, the Secretary of the Treasury, and the United States Trade Representative in establishing an offset policy, in negotiating with foreign governments, and when submitting the required reports. In agreeing that the President was responsible for these actions instead of the Secretary of Defense, the conferees confirm that this agreement was not intended to change the requirement that these officials be consulted in carrying out the intent of this provision.

The conferees are aware that the direction to enter into negotiations does not contain a date certain when these negotiations are to begin. The conferees recognize that with the upcoming change in the administration, continuity of negotiations will be difficult to maintain. The conferees therefore agree that while it may be useful to begin laying the groundwork for these negotiations, it would be acceptable to initiate formal negotiations at an appropriate time in fiscal year 1989.

The conferees are aware that other reporting requirements concerning offsets exist, such as reports required by the Defense Production Act, and believe that the reports required by section 825 should incorporate the information collected by those reports, when appropriate, rather than duplicate information that may already be collected. The conferees also note that the Senate Foreign Relations Committee and the House Foreign Affairs Committee, among others, have a specific interest in the report required by March 15, 1990. Accordingly, the conferees direct that the report also be provided to those committees, in addition to the Committees on Armed Services of the Senate and House of Representatives.

The conferees confirm that they did not contemplate that restrictions on the transfer of technology would be included in Memoranda of Understanding unless the Secretary of Defense after consulting with the Department of Commerce and Department of State, determines that the terms of the agreement would result in damage to the United States industrial base and substantial financial loss to the protesting United States firm.

The conferees further agree that, in establishing an offset policy and negotiating with foreign countries to limit the adverse effects of offset arrangements, the major emphasis should be directed at eliminating the adverse effect of offset arrangements between and among the industrialized countries. The conferees recognize that certain offset arrangements with non-industrialized countries may be of less concern.

Allowability of costs to promote the export of defense products (sec. 826)

The House bill contained a provision that would make foreign selling costs allowable.

The Senate amendment contained a provision that would make foreign selling costs allowable subject to ceilings set in advance agreements between the Secretary of Defense and individual defense contractors.

The House recedes with an amendment requiring that, as a condition of allowability, the Secretary of Defense determine that foreign selling costs are likely to result in future cost advantages to the United States. The provision also restricts the Secretary of Defense from reimbursing more than 110 percent of the amount of foreign selling costs incurred in the previous year for any business segment which had over $2.5 million in foreign selling costs in that year. The General Accounting Office and the Department of Defense Inspector General are each required to report on the implementation of this provision within two years.

Finally, the conferees have agreed that this provision should expire at the end of three years. At that time, the conferees will consider extending and modifying the provision based on an assessment of the success of this provision in stimulating exports by the U.S. defense industry and in generating savings to the United States.

Additional prohibitions on persons convicted of felonies related to defense contracts (sec. 831)

Under current law (10 U.S.C. 2048), a person convicted of fraud or another felony arising out of a contract with the Department of Defense is prohibited from working in a management or supervisory capacity on any defense contract, or from serving on the board of directors of any defense contractor for a period, as determined by the Secretary of Defense, of not less than one year.

The House bill contained a provision (sec. 803) that would establish the minimum period of disqualification as not less than five years, which may be waived by the Secretary of Defense in specified circumstances. The House provision would also expand the list of disqualified activities, to include serving as a consultant to a defense contractor and such other activities as the Secretary of Defense deems appropriate and includes includes in applicable regulations.

The Senate amendment contained no similar provision.

The Senate recedes.

Limitation on allowability of costs of contractors incurred in certain proceedings (sec. 832)

The House bill contained a provision (sec. 816) under which legal fees and related expenses would not be treated as an allowable cost in any proceeding relating to a violation of, or failure to comply with, any federal, state, or local law or regulation which resulted in a conviction, a civil judgment containing a finding of liability, and administrative finding of liability, or a decision to debar or suspend the contractor or terminate the contract. In all other cases, allowable costs normally would be limited to $75 per hour.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

Under the legislation, the Secretary of Defense will issue regulations governing certain legal costs. Under the regulations, costs incurred in connection with any proceeding brought by the United States that results in a determination of a violation of, or failure to comply with, any Federal law or regulations on the part of the contractor would be unallowable when the proceeding resulted in: (1) a criminal conviction; (2) a civil judgment or final administrative determination of such violation of failure to comply if the violation or failure to comply was knowing or willful and the proceeding resulted in the imposition of a monetary penalty; or (3) a final decision by the Department of Defense to debar or suspend the contractor or to rescind, void, or terminate the contract when such action is based on a violation or failure to comply that was knowing or willful. When the matter is resolved by consent or compromise, the parties may agree as to the extent of allowability of such costs as a part of such resolution. Nothing in this provision precludes the Secretary from using existing regulatory authority to provide that costs incurred in specified nonfederal proceedings would be unallowable.

It is the intent of the conferees that costs will be unallowable when the decision in the underlying civil or administrative proceeding is based on an express finding that the violation or failure to comply was knowing or willful. The conferees recognize, however, that in a number of civil and administrative matters, a determination as to whether the violation was knowing or willful will not be expressly addressed in the decision on the underlying proceeding. Therefore, the conferees expect the Secretary's regulations to provide guidance to contracting officers as to the types of considerations that should be applied in determining whether a violation was knowing or willful. One consideration that should be set forth in the regulations is that a pattern of violations shall constitute evidence of knowing or willful behavior.

Air travel expenses of defense contractor personnel (sec. 833)

The Senate amendment contained a provision (sec. 923) that would require the Administrator of General Services to enter into negotiations with commercial carries in an effort to reach an agreement that would permit contractor personnel traveling in the performance of a Department of Defense contract to travel at the Government rate. If such agreement is reached, defense contractor personnel would be required to travel under conditions that qualify them for such a rate.

The House bill contained no similar provision.

The House recedes with an amendment clarifying that contractor costs incurred in excess of the rates negotiated would be unallowable. In addition, the provision expires at the end of a three-year period, at which time the Secretary of Defense will determine whether to continue this requirement under the Secretary's authority to prescribe cost allowability standards.

Standards for contractor inventory accounting systems (sec. 834)

The House bill contained a provision (sec. 329) that would set standards for contractor inventory accounting systems. These standards would include enforcement mechanisms and a requirement that contractors certify that their inventory accounting systems complied with all applicable laws and regulations.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment requiring the Secretary of Defense to issue regulations establishing standards for inventory accounting systems used by defense contractors. The regulations would also prescribe appropriate certification and enforcement mechanisms.

In establishing the initial standards for contractor inventory accounting systems, the conferees direct the Secretary of Defense to utilize the elements presented in the Federal Register on December 14, 1987. In addition, the conferees direct the Secretary to develop clear direction for contracting officers in cases where the inventory accounting system of a defense contractor is so unreliable that a determination of the material impact on the United States from the deficiencies of the system is precluded. Such direction should include mechanisms for determining the appropriate withholding rate for progress payments or other penalties to ensure contractor compliance with applicable inventory accounting system standards.

Equal employment opportunities relating to an Army contract (sec. 835)

The House bill contained a provision (sec. 818) that would prohibit the Secretary of Defense from awarding a contract to be performed overseas to any contractor that discriminates on the basis of race, color, religion, sex, or national origin in its employment practices.

The Senate amendment contained no similar provisions.

The Senate recedes with an amendment that prohibits the expenditure or obligation of funds in this Act or in any previous act for the performance of contract number DA AJ09-88-C-A093 by a contractor outside the United States unless the Secretary of the Army secures a commitment from the contractor that it will support equal employment opportunities for all individuals irrespective of race, color, religion, sex, or national origin in its employment practices.

Procurement technical assistance cooperative agreement program (sec. 841)

The Senate amendment contained a provision (sec. 809) that would (1) require procurement technical assistance cooperative agreement programs to furnish technical assistance related to exporting defense-related products and services, (2) increase the maximum amount of the Department of Defense assistance to a program to $300,000 for programs operating on a State-wide basis, and (3) require that $500,000 of the $7 million made available for this program for fiscal year 1989 be designated for programs related to Indian tribal organizations.

The House bill contained no similar provision.

The House recedes with an amendment that increases the maximum amount of DOD assistance to a program to $300,000 for programs operating on a State-wide basis and that provides an additional year for the Department to obligate the $500,000 made available last year for programs related to Indian tribal organizations. The fiscal years 1988/1989 Defense Authorization Act provided $14 million for the Procurement Technical Assistance Cooperative Agreement Program for fiscal years 1988 and 1989, which included $7 million for each year. That legislation also designated $500,000 of that amount for programs related to Indian Tribal programs, but limited that authority to the funds provided for fiscal year 1988. Because the Department has not yet obligated those funds, the conferees have provided authority for the Department to do so out of the funds made available for fiscal year 1988 and fiscal year 1989. The conferees did not include a statutory requirement to provide assistance related to exporting defense products and services because the conferees did not want to dilute the program's emphasis on helping companies participate in the DOD acquisition process.

In its most recent solicitation for cooperative agreement proposals, the Defense Logistics Agency proposed to phase out all funding for existing Procurement Technical Assistance Centers over a five-year period, at a rate of 20% a year. The conferees are concerned about the effect of this proposal on existing Procurement Technical Assistance Centers. The Committees on Armed Services of the Senate and House of Representatives intend to examine this issue and to make appropriate recommendations to the Defense Logistics Agency. The conferees direct the Defense Logistics Agency to refrain from any further action to phase out funding for existing Procurement Technical Assistance Centers until such time as the Committees make their recommendations.

Product evaluation (sec. 842)

The Senate amendment contained a provision (sec. 816) that would require the Secretary of Defense to establish a product evaluation activity of the purpose of demonstrating and evaluating promising items of equipment developed by private industry. Section 220B of the Senate amendment would also authorize $17.5 million for evaluation of those products that were not included in the amended budget request. The Senate provision also would require that the evaluation cost be shared on an equal basis between the contractor and the government.

The House bill contained no similar provisions.

The House recedes with an amendment. The conferees agree that this type of product evaluation activity would be beneficial to the Department of Defense; however, the Senate provision was not intended to establish a separate office to administer the activity. The conference agreement clarifies this intent, and also includes language concerning cost-sharing by small businesses.

The conferees direct that the Department of Defense set up a procedure whereby a "user" point of contact be assigned to each potential product. That point of contact should approve the potential usefulness for that product before it is considered for evaluation under this section. The conferees further agree that this product evaluation activity is only for products that could be used to satisfy a need for the Department of Defense.

The conferees have learned of many promising programs that could well be demonstrated through the product evaluation activity. The following projects were brought to the attention of the conferees.

Multi-Helicopter External Lift System

Ruggedized Plastic Material for Ammunition Packaging

30/30 Engineering Vehicle

High-Speed Assault Landing Craft

Navy Advanced anti-Ship Seeker/Guidance Program

DP-2 Vector Thrust Project

Hardened buried and low-profile broadband antennae

Contract goal for small and disadvantaged businesses in printing-related services (sec. 843)

The Senate amendment contained a provision (sec. 947) that would authorize the Public Printer, in contracts for printing, binding and related services for the Department of Defense, to contract with small and disadvantaged businesses for the purpose of meeting the goals in section 1207 of the fiscal year 1987 Defense Authorization Act.

The House bill contained no similar provision.

The House recedes with an amendment establishing a test program for contracts for Department of Defense requirements in fiscal years 1989 and 1990. The test program authorizes the Public Printer, in each of the two fiscal years, to restrict to small and disadvantaged businesses competition on contracts for up to five percent of the value of printing, binding and related services procured by the Government Printing Office for the Department of Defense in the preceding fiscal year. The amounts set aside under this provision would be counted toward goals established in section 1207 of the fiscal year 1987 Defense Authorization Act.

Extension of contract goal for small disadvantaged businesses (sec. 844)

The House bill included a provision (sec. 801) that would extend by one year the program requiring a three-year, five percent Department of Defense contracting goal for small disadvantaged businesses established in section 1207 of the fiscal year 1987 Defense Authorization Act.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees note that the initial legislation called for a three-year test program, but the Department of Defense did not issue comprehensive interim rules until nearly fifteen months after the legislation was enacted. Therefore, the one year extension has been granted in order to permit a full, three-year test.

The conferees also note concern over the manner in which the Department has implemented the authority to provide small disadvantaged businesses with up to 10 percent price differential. By providing this differential on an across-the-board basis, the Department may be making it very difficult for other small and medium-sized businesses to compete, particularly in terms of programs in which small and disadvantaged businesses already have a substantial presence. The conferees direct the Secretary of Defense to ensure that any price differentials for small and disadvantaged businesses are tailored to the various segments and tiers of industry so that other small and medium sized companies are not denied a reasonable opportunity to compete, and that price differentials are not used when adequate small and disadvantaged business participation exists within an industry category.

Deadline for certain small business regulations (sec. 845)

The House bill contained a provision that would require the Department of Defense to issue the regulations required by subsections (f) and (h) of section 921 of the fiscal year 1987 Defense Authorization Act not later than June 1, 1988.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment requiring that the regulations become effective not later than October 1, 1988.

Safeguarding military whistleblowers (sec. 846)

The House bill contained a provision (sec. 810) that would protect lawful communications by military personnel to a Member of Congress or an Inspector General in the Department of Defense. The House bill would prohibit retaliatory personnel actions as a reprisal for such a communication, require an investigation by the DOD Inspector General of certain allegations, and provide statutory guidance for the Boards of Correction of Military Records in reviewing all allegations of such reprisals.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment which clarifies the rights protected by this provision and revises the review and reporting procedures.

The conferees note that in the course of their duties, members of the Armed Forces may become aware of information evidencing wrongdoing or waste of funds. It is generally the duty of members of the Armed Forces to report such information through the chain of command. Members of the armed forces, however, have the right to communicate directly with Members of Congress and Inspectors General (except to the extent that a communication is unlawful under applicable law or regulation), and there may be circumstances in which service members believe it is necessary to disclose information directly to a Member of Congress or an Inspector General. When they make lawful disclosures, they should be protected from adverse personnel consequences (or threats of such consequences), and there should be prompt investigation and administrative review of claims of reprisals. When such a claim is found to be meritorious, the Secretary concerned should initiate appropriate corrective action, including disciplinary action when warranted.

It is the intent of the conferees that the Secretaries of Defense and Transportation implement this section in a manner consistent with the Inspector General Act of 1978 and the Uniform Code of Military Justice.

LEGISLATIVE PROVISIONS NOT ADOPTED

Source for procurement of anchor and mooring chain

The House bill contained a provision (sec. 804) that would prohibit the Secretary of Defense and the Secretaries of the Military Departments from buying anchor and mooring chain manufactured outside the United States.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Congress on determinations of most qualified responsive bids

The House bill contained a provision (sec. 814) that would express the sense of Congress that, in determining the most qualified responsive bid for a contract from the Department of Defense in excess of $100,000, the Secretary of Defense or the Secretaries of the Military Departments shall take into account amounts to be paid by the bidder in federal taxes as a result of the contract.

The Senate amendment contained no similar provision.

The House recedes.

Limitation of transference of technical data used in second source procurement

The House bill contained a provision (sec. 817) that would require that any technical data, which must be transferred for second source procurement, shall be used only for reprocurement within the United States.

The Senate amendment contained no similar provision.

The House recedes.

Value engineering review

The House bill contained a provision (sec. 958) that would require a value engineering review for all supply and service contracts for major weapon systems and for all construction contracts in excess of $2 million. The House bill would also require a report on the efforts of the Department of Defense to increase contractor participation in the value engineering program.

The Senate bill contained no such provision.

The House recedes. The conferees acknowledge the importance of the value engineering program and agree that the Department of Defense has to find incentives to increase the contractor participation in this program. The conferees were also informed of the recent Office of Management and Budget circular that directed all of the executive departments to increase their emphasis on value engineering. The conferees agree that the Department of Defense should have an opportunity to implement this new direction. The conferees also agree that the Department of Defense should submit a report to Congress that describes the Department of Defense value engineering program results and its efforts to increase the benefits from its value engineering program. At a minimum, the report should include:

a. a description of the Department of Defense efforts to increase contractor participation in the value engineering program;

b. a description of the top 20 fiscal year 1988 contractor value engineering projects of each Service and Agency;

c. a description of the top 20 fiscal year 1988 construction value engineering projects for each Service and Agency; and

d. a description of the efforts to implement the 45-day contractor proposal accept/reject standard along with fiscal years 1986, 1987, and 1988 proposal accept/reject data.

The report should be provided to the Committees on Armed Services of the Senate and House of Representatives by February 28, 1989.

Acquisition management and government contracting education

The Senate amendment contained a provision (sec. 813) that would require the Secretary of Defense to submit to Congress a report on the extent to which institutions of higher education offer and conduct educational programs and courses on government contracting and acquisition management.

The House bill contained no similar provision.

The Senate recedes.

The conferees note the widespread concern over the need to enhance the quality of the procurement work force, particularly in terms of attracting highly qualified students to government service. The conferees are concerned that insufficient opportunities exist at the graduate level for students to take courses and concentrate in programs that will stimulate their interest in and prepare them for acquisition-related positions in the government. As part of the effort to minimize Department of Defense reporting requirements, the conferees decided not to require a report in statute. However, the conferees expect the Under Secretary of Defense for Acquisition to be thoroughly familiar with the information described in section 813 of the Senate amendment and to be prepared to discuss the relationship between educational offerings and the needs of the government during oversight hearings in 1989.

Science and engineering workforce study

The Senate amendment included a provision (sec. 814) that would direct the Department of Defense to complete a study initiated in 1985 for the purposes of determining and testing the factors that increase the supply of minority and women scientists, engineers, and technologists needed by defense industries and the Department of Defense.

The House bill contained no similar provision, but would authorize $6.0 million to carry out the study. The House report (H. Rept. 100-563) included language describing this study.

The Senate recedes. The conferees agree to provide up to $3.0 million within a line item entitled "CASET" if needed, to complete the study being conducted by the Center for American Scientists, Engineers, and Technologists. The conferees direct the Department of Defense to complete this study.

Undefinitized contractural actions

The Senate amendment contained a provision (sec. 818) that would reduce the administrative burden imposed by statutory requirements relating to the administration of undefinitized contractural actions.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the last reporting requirement under current law will occur in less than a year. It is the intent of the conferees not to renew the reporting requirement in view of the progress demonstrated by the Department of Defense in managing undefinitized contractual actions.

Small Business Administration certificate of competency program

The Senate amendment contained a provision (sec. 820) that would revise section 8(b) of the Small Business Act to simplify the administration of the certificate of competency program.

The House bill contained no similar provision.

The Senate recedes.

The conferees have been informed that the Small Business Committee of the Senate intends to include a similar provision in forthcoming legislation and agree that this issue should be addressed initially in that forum.

Negotiation of subcontracting plans

The Senate amendment contained a provision (sec. 820) that would revise section 8(d) of the Small Business Act to authorize negotiation of plant or division-wide small business and small disadvantaged business subcontracting plans, including goals.

The House bill contained no similar provision.

The Senate recedes.

The conferees have been informed that the Small Business Committee of the Senate intends to include a similar provision in forthcoming legislation and agree that this issue should be addressed initially in that forum.

Conflict of interest

The Senate amendment contained a provision (sec. 946) that would require the Department of Defense to issue regulations to prohibit the award of a DOD contract to an individual who was a government employee on the date on which he submitted the bid for the contract.

The House bill contained no similar provision.

The Senate recedes.

The conferees agree that persons employed in a Government agency should not bid on or enter into contracts with the Department of Defense while they are so employed. Even when such transactions are conducted at arm's length and involve no impropriety, they raise the specter of insider dealings and the appearance of favoritism.

The existing limitations in the Federal Acquisition Regulations are inadequate. However, the conferees agree that the regulations could be amended without a requirement to do so being placed in law. The conferees direct the Secretary of Defense to incorporate suitable language into DOD standards of conduct regulations within 180 days and to pursue a change in the Federal Acquisition Regulations. In the event that the Secretary feels that exceptions to an outright prohibition are necessary, such exceptions should only apply after an individual obtains the approval of the appropriate Designated Agency Ethics Official or his designee.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Sense of Congress on expanding confidence-building measures (sec. 901)

The Senate amendment contained a provision (sec. 911) that would express the sense of the Congress that the President should give high priority to developing, in coordination with the NATO allies, stabilizing and verifiable proposals for expanding the regime of confidence-building measures in conjunction with the follow-on to the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) and the new Conventional Stability Talks (CST).

The House bill contained no similar provision.

The House recedes.

Sense of Congress on START (sec. 902)

The House amendment contained a provision (sec. 950) that would express the sense of Congress that the Strategic Arms Reductions Talks (START) should not include any provision resulting in a large asymmetric reduction in any leg of the triad, and that the President should strive not to reduce the total number of U.S. nuclear ballistic missile submarines (SSENs) permitted under START below 20.

The Senate amendment contained a provision (sec. 943) that would express the sense of Congress that START should not establish any restrictions on current or future non-nuclear cruise missiles.

The Senate recedes with an amendment expressing the sense of Congress that START: (1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the U.S. SSBN force, and (2) should not prohibit or limit the deployment of non-nuclear cruise missiles. The conferees do not intend the statement on not limiting non-nuclear cruise missiles to restrict, for example, our ability under a future START agreement to mark a cruise missile so as to be able to distinguish between a conventional and nuclear cruise missile.

Sense of Congress concerning the role of Congress in arms control and defense policy (sec. 903)

The House amendment contained a provision (sec. 959) that would express the sense of Congress that although Congress has a constitutionally defined role to play in arms control and nuclear testing policy, it should not usurp, undermine, or in any other way interfere with the constitutionally defined powers of the President to negotiate and implement such policies.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment expressing the sense of Congress that the Congress, in exercising its constitutional authority to raise and support the Armed Forces and, in the case of the Senate, to advise and consent to the ratification of treaties, has a role to play in arms control and defense policy, but the Congress should not usurp, undermine, or interfere with the constitutional authority of the President to negotiate and implement treaties, especially treaties affecting U.S. arms control and defense policy.

Sense of Congress on the five-year ABM treaty review (sec. 904)

The Senate amendment contained a provision (sec. 948) that would express the sense of Congress that the President should, without any further delay, propose an early date to conduct the overdue five-year review of the Antiballistic Missile (ABM) Treaty.

The House bill contained no similar provision.

The House recedes with an amendment changing the findings by the Senate contained in the Senate provision to findings by the Congress.

Annual report on Soviet compliance with arms control commitments (sec. 905)

The Senate amendment contained a provision (sec. 912) that would amend the annual report on Soviet arms control compliance required pursuant to the fiscal year 1986 Defense Authorization Act (Public Law 99-145) to require the President to include additional information in the report, including what measures the President is taking to bring the Soviet Union into compliance and, in the event the President should issue two consecutive reports in which he cannot certify full Soviet compliance with all current arms control agreements, the actions necessary to compensate for such violations.

The House bill contained no similar provision.

The House recedes.

Annual report on arms control strategy (sec. 906)

The Senate amendment contained a provision (sec. 913) that would require a new annual report to the Congress by the President containing a comprehensive discussion and analysis of U.S. arms control strategy.

The House bill contained no similar privision.

The House recedes with an amendment making minor revisions in the text of the provision.

Study and report on Soviet ABM capability and activities (sec. 907)

The Senate amendment contained a provision (sec. 924) that would require a report to Congress by the President not later than October 1, 1989 regarding the Antiballistic Missile (ABM) capability and activities of the Soviet Union.

The House bill contained a similar provision (sec. 937) that would require an identical report, but to be submitted by the Secretary of Defense not later than 60 days after the enactment of this Act.

The House recedes with an amendment making minor revisions in the Senate provision and requiring submission of the report not later than January 1, 1989.

Analysis of alternatives U.S. strategic nuclear force postures under START (sec. 908)

The Senate amendment contained a provision (sec. 939) that would require a report to Congress by the President on the implications of a potential Strategic Arms Reductions (START) Treaty for alternative U.S. force postures in the 1990's.

The House bill contained no similar provision.

The House recedes with an amendment making a minor revision in the provision.

On-Site Inspection Agency (sec. 909)

The House bill contained a provision (sec. 953) that would require certain Executive Branch officials to submit reports to designated congressional committees describing their responsibilities with regard to the monitoring and verification of arms control agreements. The provision further required that any request submitted to Congress by the Executive Branch for the enactment of budget authority for the On-Site Inspection Agency (OSIA), or for the enactment of any other legislation concerning OSIA, be submitted separately from any other request for the enactment of budget authority or other legislation.

The Senate amendment contained a provision (sec. 954) that would express the sense of Congress relating to personnel strengths for on-site inspection purposes.

The Senate recedes with an amendment which retains the House provision's reporting requirement but changes the budget request subsection in the House provision to require that any request submitted to the Congress for an authorization for OSIA appropriations provide details of all funding and military and civilian personnel requested for that Agency for that fiscal year, including the number of DOD and other agency personnel that will be assigned to on-site inspection activities and support of such activities.

Coordination of verification policy and R&D activities (sec. 910)

The Senate amendment contained a provision (sec. 950) that would require a report to Congress by the President reviewing the relationship of U.S. arms control objectives with the responsiveness of research and development of monitoring systems for weapons verification.

The House bill contained no similar provision.

The House recedes with an amendment making minor revisions in the provision.

Limitation on deployment of certain strategic nuclear weapons.

The House bill contained a provision (sec. 935) that set in permanent law limits of 820 on launchers of MIRVed ICBMs, 1200 on launchers of MIRVed ICBMs and SLBMs, 1320 MIRVed ICBMs, SLBMs, and ALCM equipped bombers, and the number of MIRVs on individual ballistic missiles, unless the President certifies to Congress that the Soviet Union has exceeded these limits.

The Senate amendment contained no similar provision.

The conferees agree to delete the House provision. The conferees note that decisions taken for budgetary reasons elsewhere in the bill will have the effect of stabilizing U.S. strategic forces during fiscal year 1989 at roughly the level maintained during fiscal year 1988.

The conferees believe that maintaining interim restraint in strategic offensive force levels is not only purdent in light of current budget realities, but also consistent with the recent progress in the START negotiations and the continuing Soviet practice of retiring older ICBMs and SLBMs prior to the end of their normal service life. Assuming that progress continues to be made in START and that the Soviet Union continues early retirements of ICBMs and SLBMs, it would be the intent of the conferees to take such actions as may be required to maintain U.S. and Soviet interim restraint, including the option of foregoing the overhaul of additional Poseidon-class submarines nearing the end of their normal service life.

Sense of Congress on implications of INF for NATO

The House bill contained a provision (sec. 952) that would express the sense of Congress on a number of issues related to the implications of the Intermediate-range Nuclear Forces (INF) Treaty for NATO and on other arms control issues.

The Senate amendment contained no similar provision.

The House recedes.

Missile technology control regime

The Senate amendment contained a provision (sec. 934) that would express the sense of the Senate that the Secretary of Defense should provide by July 30, 1988 the report specifiying personnel requirements to implement the Missile Technology Control Regime Policy that was mandated by the fiscal years 1988/1989 Defense Authorization Act (sec. 901). The provision would also state that Department of Defense personnel deficiencies which prevent effective performance of missile technology control responsibilities be rectified as soon as possible, using temporary duty assignments if deemed necessary.

The House bill contained no similar provision.

The Senate recedes. The conferees are concerned about the inaction of the Department of Defense on Section 901 and urge the Department to comply with the provisions of the Act. In the past year, the number of countries that have acquired ballistic missiles or have actually used them in combat has increased significantly. Both the Secretary of Defense and the Secretary of State have expressed concern about the proliferation of missiles covered by the Missile Technology Control Regime. The conferees believe it is imperative that the Secretary of Defense file the requested report as soon as possible but not later than July 30, 1988. It is the conferees' expectation that Department of Defense personnel deficiencies which prevent effective performance of missile technology control responsibilities will be rectified as soon as possible, using temporary duty assignments if necessary.

TITLE X—MATTERS RELATING TO NATO COUNTRIES AND OTHER ALLIES

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Acquisition and cross-servicing agreements with allied countries (sec. 1001)

The Senate amendment contained a provision (sec. 914) that would raise the ceiling from $100 million to $200 million on acquisitions by the United States under the authority of the NATO Mutual Support Act of 1979.

The House bill contained no similar provision.

The House recedes with an amendment setting the new ceiling at $150 million.

Authority to waive surcharge on certain sales to NATO (sec. 1002)

The Senate amendment contained a provision (sec. 915) that would authorize the Secretary of Defense to waive the administrative surcharge for sales through Foreign Military Sales (FMS) channels to the NATO Maintenance and Supply Agency (NAMSA).

The House bill contained no similar provision.

The House recedes with a technical amendment that changes the Senate provision from a new section of title 10, United

States Code, to a new provision of the Arms Export Control Act (Public Law 90-629).

Authority of Military Departments to loan and borrow from foreign countries materials, supplies and equipment for research and development purposes (sec. 1003)

The Senate amendment contained a provision (sec. 233) that would clarify the authority of the Department of Defense to loan and accept material for limited cooperative research and development projects with foreign countries.

The House bill contained no similar provision.

The House recedes with an amendment that makes the following changes to the Senate provision: (1) grant the authority to the Secretary of Defense (who, in turn, could delegate it to the Secretaries of the Military Departments); (2) limit the countries with which the transactions could take place to those in NATO and to those designated as "major non-NATO allies" for the purpose of section 1105 of the fiscal year 1987 Defense Authorization Act (Public Law 99-661); (3) require the Secretary of Defense to enter into an a agreement with each country with which a transaction is to take place; (4) place the authority in chapter 6 of the Arms Export Control Act (Public Law 90-629) as a new section 65; and (5) retitle chapter 6.

Modernization of NATO's theater nuclear capabilities (sec. 1004)

The Senate amendment contained a provision (sec. 922) that would express the sense of the Senate that, following ratification of the Intermediate-range Nuclear Forces (INF) Treaty, modernization of U.S. theater nuclear capabilities, in close consultation with its NATO allies, is essential to the deterrence strategy of the Alliance, and that the United States should proceed with ongoing activities for satisfying the identified Alliance requirement for a follow-on to Lance.

The House bill contained no similar provision.

The House recedes with an amendment changing the provision to the sense of Congress and making a minor revision in the provision.

Report on NATO defense program (sec. 1005)

The Senate amendment contained a provision (sec. 928) that would require the Secretary of Defense to identify all programs, projects, and activities that constitute the NATO Defense Program.

The House bill contained no similar provision.

The House recedes with a technical amendment that directs that the report be submitted in conjunction with the annual report of the Secretary of Defense to the Congress.

Improvement in defense research and procurement liaison with Israel (sec. 1006)

The House bill contained a provision (sec. 233) that would require the Secretary of Defense to assign to duty in Israel an individual or individuals to serve as the primary liaison between the procurement and research and development activities of the armed forces of the United States and Israel.

The Senate amendment contained no similar provision. However, the Senate report (S. Rept. 100-326) addressed this issue.

The Senate recedes with a technical amendment.

Modification of report requirement concerning designation of major non-NATO allies (sec. 1007)

The House bill contained a provision (sec. 234) that would simplify an annual report to the Congress that designates countries as "major non-NATO allies" for the purpose of entering into cooperative research and development projects with the United States. The provision would require that this report be submitted only if additions or deletions are made to the existing list of countries designated as major non-NATO allies.

The Senate amendment contained a similar provision (sec. 234) that differed from the House provision only in technical details.

The Senate recedes with a technical amendment.

Call for defense burdensharing negotiations with allies (sec. 1008)

The House bill contained a provision (sec. 946) that would express the sense of Congress that the United States should enter into negotiations with its allies for the purpose of obtaining an agreement for a more equitable appointment of the burden of financial support of the alliance.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Report on, and discussions regarding, Japanese contributions to global stability and the indivisible security of the leading industrialized democracies (sec. 1009)

The Senate amendment contained a provision (sec. 933) that would express the sense of Congress that the President should enter into discussions with Japan for the purpose of reaching a more equitable distribution of the burden of financial support for the security of the leading industrialized democracies.

The House bill contained no similar provision.

The House recedes with a technical amendment.

ITEM OF SPECIAL INTEREST

NATO and non-NATO cooperative research and development

The amended budget request contained $200.598 million for cooperative research and development with NATO and major non-NATO allies. This research and development would be conducted within the frameworks established by sections 1103 and 1105 of the fiscal years 1986 and 1987 Defense Authorization Acts (Public Laws 99-145 and 99-661), respectively.

In order to better understand the funding required for cooperative research and development with each of these groups of allies, the conferees direct the Secretary of Defense to identify the requested funding for these two research and development efforts in future budget requests in two separate program elements within the account entitled "Research, Development, Test and Evaluation, Defense Agencies".

TITLE XI—DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT

The House bill contained a provision (sec. 1101) that would authorize funds for specific items related to drug interdiction. The House bill also included a provision (sec. 1103) that would authorize use of the armed forces for interdiction or aircraft and vessels involved in drug smuggling.

The Senate amendment contained a provision (sec. 940) that would revise and expand the authority of the Department of Defense to assist drug interdiction efforts by civilian law enforcement authorities.

The conferees agree that the Department of Defense can and should play a major role in the national drug interdiction effort. Drug abuse has an increasingly corrosive effect on our society, and it is imperative that we substantially increase our national effort to meet this challenge. The conferees have developed a program that will significantly increase the role of the armed forces in an effective and responsible manner.

Drug enforcement intelligence information

The conferees emphasize that intelligence is the key to a successful drug interdiction program. The conference agreement requires the Secretary of Defense to ensure that civilian law enforcement officials are promptly provided with intelligence information collected by the armed forces that is related to drug interdiction. The conferees direct the Secretary of Defense to work with the Director of Central Intelligence to ensure that the collection of drug interdiction information is established as a high priority for the intelligence community.

Detection and monitoring of aerial and maritime transit (secs. 1101 and 1102)

Under the conference agreement, the armed forces will concentrate on the detection and monitoring of air and sea traffic, a role that is consistent with the traditional military mission. By undertaking the major role in air and sea surveillance, the military can eliminate the unnecessary duplication of assets and efforts by civilian agencies, and enable those agencies to focus on the law enforcement activities for which they are trained and equipped.

The conference agreement establishes a requirement for the Department of Defense, on an annual basis, to plan and budget for the effective detection and monitoring of all potential aerial and maritime threats to the national security. This will include guidance from the Secretary of Defense on the specific force levels and specific supporting resources to be made available for this mission, including that aspect of the mission that supports the DOD air and sea surveillance responsibilities related to drug interdiction.

Section 1102 establishes the Department of Defense as the single lead agency for the detection and monitoring of aerial and maritime transit of illegal drugs into the United States. The conferees expect DOD to take prompt action to provide the necessary detection and monitoring capabilities in those border areas that serve as the primary points of entry by drug smugglers. The Department of Defense should focus on the area of greatest threat, the southern border of the United States, particularly during the hours of darkness. It is the hope of the conferees that the Department of Defense can develop the capability to conduct effective nighttime surveillance and monitoring of the southern border using a combination of: (1) Land, sea, and air-based radar; (2) aircraft capable of monitoring the flight of potential drug smugglers; and (3) integrated communications with the law enforcement agencies that will make the actual searches, seizures, and arrests. The conferees, in section 1107, have directed the President to report to the Congress on the feasibility of such a program. The conferees also urge the accelerated deployment of the system of aerostat radars in order to reduce the need for expensive airborne radar platforms. In this regard, the conferees call to the attention of the Department of Defense a gap in planned aerostat coverage from Brownsville, Texas to the northern part of Florida—a gap that hearings before the House Armed Services Committee have revealed is being increasingly exploited by aerial drug smugglers.

As lead agency, DOD will be responsible for coordinating all air and sea surveillance activities of the federal government, including the elimination of unnecessary duplication. The DOD role as lead agency will be to conduct and coordinate detection and monitoring activities, but the responsibility for establishing detection and monitoring requirements for the drug interdiction program will remain with civilian law enforcement authorities. The designation of DOD as the single lead agency can be changed by the President only if he makes a different designation within 15 days of the date of enactment and reports his reasons to the Congress.

The establishment of an air and sea surveillance mission and designation of the Department as the single lead agency represent a major new military requirement, and should substantially enhance our nation's drug interdiction efforts. It is important to put this in perspective, and to not assume that we have solved the drug problem through this major change in our interdiction program. The interdiction effort will not significantly reduce the drug abuse problem without a substantial increase in our nation's commitment to reduce the demand for illegal drugs.

Interdiction is not the most cost-effective component of a drug abuse reduction strategy. In testimony before the Senate Armed Services Committee, the Comptroller General reported that expenditures for federal anti-drug efforts have increased from $129.5 million to nearly $4 billion in the last seventeen years. In the last decade, the budgetary emphasis has been on supply reduction efforts as opposed to demand reduction programs. The Comptroller General reported that by 1987 the federal government was spending three times more on supply reduction than on demand reduction programs.

Despite substantial increases in interdiction resources, there has been little or no effect on the drug abuse problem. The Office of Technology Assessment (OTA) has reported that the quantity of cocaine coming into this country has more than doubled from 1981 to 1986—from 40 to 65 tons to over 130 tons. Although the OTA acknowledges that we are catching more smugglers and seizing more drugs, still more is coming through and there is no indication that the trend is changing.

Perhaps the best and most accurate indicators of the extent of the drug problem—price and purity—also raise questions about the wisdom of focusing primarily on interdiction. The most recent data from the National Narcotics Intelligence Consumers Committee estimates that the price of cocaine is at its lowest level reported to date. At the same time, its purity is at its highest—over 50 percent. The Drug Abuse Warning Network (DAWN) reported that cocaine-related hospital emergencies in 1987 are at the highest level yet recorded, increasing by more than 60 percent over the previous year's record. Since 1980 there has been a near tenfold increase in the annual number of those emergencies reported through DAWN nationwide—from 3,000 to 26,186.

In short, although we have been spending more and more federal dollars on interdiction in recent years, the drug problem has been growing by leaps and bounds. The General Accounting Office (GAO) has found no direct correlation betweeen interdiction resources and the availability of imported drugs in the domestic market. A recently completed study by the RAND Corporation also concluded that increased expenditures for drug interdiction would have a negligible effect on drug consumption.

In sum, while interdiction must remain a necessary component of any national anti-drug strategy, the conferees believe that we should reconsider the past federal emphasis on interdiction and other supply-side efforts, and develop a more balanced approach placing greater reliance on demand-reduction programs.

The conferees recognize that demand reduction efforts in areas such as treatment and education do not fall within the scope of the Armed Services Committees and will be more appropriately addressed in comprehensive drug legislation that the Congress is expected to consider later this year. However, based on a review of proposals for increased military involvement as well as testimony from numerous experts on the drug issue, the conferees recommend that increased federal emphasis be placed on demand reduction programs in the anti-drug effort. Although the conferees authorize and encourage an expanded military support for drug interdiction efforts, the conferees emphasize that priority should be given to reducing demand.

Communications network (sec. 1103)

The conference agreement requires the President to report to the Congress on a plan for integration by the Department of Defense of the command, control, communications, and technical intelligence assets of the United States dedicated to the interdiction of illegal drugs into an effective network. The President, in a subsequent report, also must advise Congress of his plan for assignment of the responsibility for operating this command, control, communications, and intelligence network. The role for the Department of Defense in this endeavor is to provide technical advice and experience in establishing and operating a communications network that provides command, control, and intelligence information. It does not place DOD personnel in a command role, nor does it provide authority for the armed forces to engage in domestic intelligence gathering activities.

Drug interdiction and law enforcement support (sec. 1104)

In order to enhance the ability of the Department of Defense to provide support to the drug enforcement efforts of civilian agencies, the legislation revises the current law governing such activities as set forth in chapter 18 of title 10, United States Code. This revision is intended to expand the opportunities for military assistance in a manner that is consistent with the requirements of military readiness and the historic relationship between the armed forces and civilian law enforcement activities. Chapter 18 is revised as follows:

Use of intelligence and other information collected during military operations (10 U.S.C. 371)

Subsection (a) restates current law permitting DOD to provide Federal, State, or local civilian law enforcement officials with any information collected during the normal course of military training or operations that may be relevant to a violation of any Federal or State law within the jurisdiction of such officials. The requirement that this be accomplished "in accordance with other applicable law" means that the collection, retention, and dissemination of such information must be in accord with other legal requirements, such as the Privacy Act.

Subsection (b) establishes a requirement for the Department, to the maximum extent practicable, to take into account the needs of civilian law enforcement officials when planning and executing military training or operations. Examples include scheduling training exercises using night vision devices in border areas, conducting photo-reconnaissance training missions in a manner that serves the need of a civilian law enforcement agency for aerial surveillance of potential marijuana fields, and similar activities. It does not constitute authority to acquire information that DOD is not otherwise authorized to obtain during military training and operations.

Subsection (c) requires the Secretary of Defense to ensure that intelligence information related to drug interdiction and other civilian law enforcement matters is provided promptly to the appropriate civilian law enforcement officials to the maximum extent consistent with national security requirements. The conferees are sensitive to past concerns about use of the military for domestic intelligence gathering, and emphasize that this section does not modify in any way existing law with respect to the military's authority (or lack thereof) to collect and disseminate intelligence information about American citizens in the United States and abroad.

Use of military equipment and facilities (10 U.S.C. 372)

This section clarifies current law to provide that the Department of Defense may make available to civilian law enforcement officials any equipment (including associated supplies or spare parts), base facility, or research facility for law enforcement purposes. The assistance must meet the requirements of other applicable laws with respect to interagency and intergovernmental use, transfer, or disposal of equipment.

Training and advising civilian law enforcement officials (10 U.S.C. 373)

Paragraph (1) clarifies current law to provide that the Secretary of Defense, in accordance with other applicable law, may make Department of Defense personnel available to train Federal, State, and local civilian law enforcement officials in the operation and maintenance of equipment, including equipment made available under section 372. Paragraph (2) restates current law permitting DOD to provide civilian law enforcement officials with expert advice. Such training and expert advice may extend to instruction in the operation of equipment, scientific analysis, translations, and assistance in strategic planning, but may not extend to direct, active involvement in specific law enforcement operations.

Maintenance and operation of equipment by Department of Defense personnel (10 U.S.C. 374)

Subsection (a) clarifies current law to provide that the Secretary of Defense, in accordance with other applicable law, may make Department of Defense personnel available to maintain equipment for Federal, State, and local civilian law enforcement officials.

Subsection (b) revises current law to specify the circumstances in which DOD personnel may operate equipment to assist civilian law enforcement agencies involved in the enforcement of drug, customs, and immigration laws. DOD personnel may operate equipment (including aircraft, vessels, and vehicles) for the following purposes:

Detecting, monitoring, and communicating of the movement of air and sea traffic (regardless of the location of the aircraft or vessels being monitored).

Aerial reconnaissance. The conferees intend this authority to be used for reconnaissance of property and not for surveillance of persons.

Interception of vessels or aircraft detected outside the United States for the purposes of communicating with such vessels and aircraft to direct such vessels and aircraft to go to a location designated by appropriate civilian officials. When the contact is made outside the United States, equipment operated by DOD personnel (e.g., an aircraft) may continue into the land area of the United States to direct the vessels and aircraft to go to a location designated by appropriate civilian officials. As used in this section, the term "interception" means a contact for purposes of communications, and does not include a physical interruption of the flight or passage of the aircraft or vessel.

Operation of equipment to facilitate communications in connection with law enforcement activities.

When jointly approved by the Secretary of Defense, the Attorney General, and the Secretary of State, DOD personnel may transport (or operate a base of operations for) civilian law enforcement personnel in connection with law enforcement operations outside the land areas of the United States (or any territory, commonwealth, or possession of the United States). The requirement for joint approval and the limitation to operations outside the United States are established in this section because of the potential for involving DOD personnel in a direct law enforcement confrontation, even though their role is designed for logistical support. To the extent that transportation of law enforcement officials or use of military officials does not reasonably raise the possibility of a law enforcement confrontation, such assistance may be provided in the United States under subsection (c).

Subsection (c) provides that the Secretary of Defense, in accordance with other applicable law, may make Department of Defense personnel available to any Federal, State, or local civilian law enforcement agency to operate equipment for purposes other than described in subsection (b) to the extent that such assistance does not involve direct participation in a civilian law enforcement operation, except as otherwise authorized by law.

Restriction on direct participation by military personnel (10 U.S.C. 375)

This section clarifies current law which requires the Secretary of Defense to issue such regulations as may be necessary to insure that the provision of any support (including the provision of any equipment or facility or the assignment or detail of any personnel) to any civilian law enforcement official under this chapter does not include or permit direct participation by a member of the Army, Navy, Air Force, or Marine Corps in a search and seizure, arrest, or other similar activity unless participation in such activity by such member is otherwise authorized by law. The conferees deleted the term "interdiction of a vessel or aircraft," which is set forth in current law, because the term "interdiction" has acquired a meaning that includes detection and monitoring as well as a physical inerference with the movement of a vessel or aircraft. The conferees emphasize, however, that they do not intend by this action to authorize military personnel to interrupt the passage of a vessel or aircraft except as otherwise authorized by law.

The conferees recognize that the magnitude of the drug problem has led to calls for the military to be directly involved in search, seizures, and arrests. The conferees, however, do not believe that it is appropriate to make such a radical break with the historic separation between military and civilian functions without clear and compelling evidence that such an action would result in a substantial reduction in the drug problem. The overwhelming weight of the evidence is that no such change would come from giving the military police powers.

As noted above, there is a serious question as to whether increased interdiction efforts—regardless of which agency actually exercises the police functions—will have a significant impact on the supply of drugs available to meet the demand. Providing law enforcement powers to naval personnel, for example, would not add to the Navy's ability to assist in maritime interdiction because current law already provides for placing Coast Guard Law Enforcement Detachment Teams on board naval vessels transitting drug interdiction areas.

Utilizing Navy instead of Coast Guard personnel for law enforcement purposes would do nothing to solve the most critical problems that the Coast Guard now faces in drug interdiction, whether aboard Navy or Coast Guard vessels. As Peter Reuter of the RAND Corporation noted in testimony before the Senate Armed Services Committee: "Even when the Coast Guard has prior information that a vessel may be carrying drugs, only one out of eight of those boarded is found to have drugs. That is about five times higher than the agency's success rate when it has no prior information. The military services can ensure that the Coast Guard will see more vessels and pursue more of them for boarding. But it cannot at the moment do much to help the maritime services distinguish the undistinguishable."

The conferees agree that interdiction, to a reasonable degree, is a necessary part of a comprehensive drug strategy. However, none of the federal law enforcement agencies have requested use of military personnel to supplement their arrest, search, and seizure functions.

Drug interdiction is a sophisticated matter, and the Coast Guard provides its members with months of schooling and extensive on-the-job training. It makes little sense to create a situation in which the military skills of members of the armed forces will atrophy while they spend months receiving law enforcement training. To the extent that we need more individuals to perform law enforcement functions, the most cost-effective way to do so is to provide the law enforcement agencies with the necessary personnel. This bill follows this cost-effective approach by providing authority for increased Coast Guard Law Enforcement Detachment Teams.

The demand by some for use of the military in drug-related arrests would quickly fade in the face of actual law enforcement confrontations between the uniformed military and American civilians. As former Chief Justice Burger has noted, the American experience has been marked by "a traditional and strong resistance . . . to any military intrusion into civilian affairs. That tradition has deep roots in our history. . . ." *Laird* v. *Tatum*, 408 U.S.C. 1, 15 (1972). The Posse Comitatus Act, as one court has noted, is not "an anachronistic relic of an historical period the experience of which is irrelevant to the present. It expresses the inherited antipathy of the American to the use of troops for civil purposes. . . . Its relevance to this age is sadly clear." *Wrynn* v. *United States*, 200 F. Supp. 457, 465 (E. D. N. Y. 1961).

In testimony before the Senate Armed Services Committee, Secretary of Defense Carlucci noted: "I remain absolutely opposed to the assignment of a law enforcement mission to the Department of Defense. I am even more firmly opposed to any relaxation of the posse comitatus restrictions on use of the military to search, seize and arrest. I have discussed this matter with the President, and other senior members of his Cabinet, and I can report that these views are shared throughout this Administration. The historical tradition which separates military and civilian authority in this country has served both to protect the civil liberties of our citizens and to keep our Armed Forces militarily focussed and at a high state of readiness."

Support not to affect adversely military preparedness (10 U.S.C. 376)

This section restates the requirement under current law that provides that support (including the provision of any equipment or facility or the assignment or detail of any personnel) may not be provided to any civilian law enforcement official under this chapter if the provision of such assistance will adversely affect the military preparedness of the United States. The conferees note that this provision should not be interpreted in a manner that would shield the Department from providing support merely because it is inconvenient to do so. At the same time, the conferees note that the armed forces have the ultimate responsibility for the defense of the nation, and our military capability could be seriously compromised by draining DOD assets into other agencies.

Reimbursement (10 U.S.C. 377)

This section clarifies current law governing reimbursement. Chapter 18 of title 10 was designed to eliminate ambiguities as to the type of support that DOD can provide other agencies without violating the Posse Comitatus Act. It is not intended to establish the Department of Defense as a source of free supplies and manpower that can be tapped by other agencies without any form of accountability. When DOD makes equipment, facilities, or personnel available to other government entities, reimbursement shall be provided to the extent that would otherwise be required by the Economy Act or other applicable law. This section also makes it clear, however, that the reimbursement provision must be applied in a reasonable fashion. Reimbursement is not required when the support is provided in the normal course of military training or operations or results in a benefit to the Department of Defense that it substantially equivalent to that which would otherwise be obtained from military operations or training.

Nonpreemption of other law (10 U.S.C. 378)

This section, which is similar to the provision included when chapter 18 was first enacted in 1981, makes it clear that nothing in this revision is intended to limit the authority of the executive branch to use military personnel or equipment for civilian law enforcement purposes beyond that provided by law before the date of enactment.

Assignment of Coast Guard personnel to naval vessels for law enforcement purposes (10 U.S.C. 379)

This section clarifies current law authorizing a minimum of 500 active duty personnel of the Coast Guard to be assigned to naval vessels for performance of Coast Guard law enforcement functions, including search, seizure and arrest. The revision makes it clear that Coast Guard law enforcement personnel must be placed on each appropriate surface vessel that transits a drug interdiction area. A total of $6 million will be transferred from the Department of Defense to the Coast Guard in fiscal year 1989 for this program. To ensure the most cost-effective use of these funds, the conferees direct the Secretary of Defense to ensure that Coast Guard personnel are properly integrated into the ship's company of naval vessels to perform shipboard duties when not actually engaged in law enforcement activities.

Enhancing cooperation with civilian law enforcement officials (10 U.S.C. 380)

This section revises current law to emphasize the conferees interest in having the Department of Defense play the leading role in advising Federal, state, and local law enforcement officials of the types of assistance that DOD can provide.

Enhanced drug interdiction and law enforcement role for the National Guard (sec. 1105)

The National Guard traditionally has performed law enforcement functions under the direction of the Governors. When not in federal service, the National Guard is not subject to the Posse Comitatus Act. Subsection (a) provides funds for drug enforcement activities of the Guard while in state status. The Secretary of Defense may obligate up to $60 million for this purpose. To be eligible, the Governor must submit a plan to the Secretary specifying how personnel of the National Guard of such State are to be used in drug enforcement and interdiction operations. The Secretary of Defense is required to consult with the Attorney General in reviewing such proposals. It is the intent of the conferees that priority be given to those plans which (a) involve areas of the greatest need in terms of drug interdiction and (b) are most likely to be effective. The National Guard will remain under state command and control when conducting any law enforcement activity with funds provided under this section. The provision of these funds does not place the National Guard in federal status for purposes of the Posse Comitatus Act, or for any other purpose.

When in federal status, the National Guard can assist civilian law enforcement officials to the same degree as the active forces. Subsection (b) requires the Secretary of Defense to prescribe and enforce training criteria for the National Guard to enhance the capability of the National Guard to assist in drug abuse control activities.

Because the conferees believe that the National Guard may provide significant opportunities for enhanced law enforcement assistance, subsection (c) requires the President to submit to Congress a report on the potential effectiveness of using members of the National Guard for drug interdiction efforts, consistent with applicable law, along the borders and at the ports of entry of the United States.

Funding of activities related to drug interdiction (sec. 1106)

This section provides the Department of Defense with $300 million, which may be used only for drug interdiction activities involving the detection and monitoring of air and sea traffic under sections 1101 and 1102, the integration of a command, control, communications, and intelligence network under section 1103, or the activities of the National Guard in state status under section 1105. These funds are in addition to the funds that the Department of Defense currently is expending on drug interdiction activities. The $300 million includes a transfer of $90 million appropriated for procurement of P-3 aircraft in fiscal year 1987. The conferees emphasize that DOD has been given specific missions under this Act in order to take advantage of existing assets and expertise, and intend that these additional funds should be used primarily to operate existing equipment. This does not preclude appropriate expenditures for procurement or research and development when there is a critical need that cannot be met with existing equipment.

To the extent that funds currently budgeted for activities related to the detection of air and sea traffic are insufficient to meet the requirements established in this legislation, the conferees invite appropriate reprogramming requests.

Reports (sec. 1107)

The conferees recognize that the new missions established in this Act are likely to require additional resources, and may require statutory modifications. Section 1107(a) requires the President to submit a report to Congress containing legislative proposals, including budgetary requests, not later than December 1, 1988. Subsection (b) requires the President to provide a report on aerial interdiction capabilities along the Southern border. Subsection (c) requires the Secretary of Defense to submit two reports on the relationship between civilian and miliary resources in specified air interdiction activities.

TITLE XII—GENERAL PROVISIONS

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Transfer authority (sec. 1201)

The House bill contained a provision (sec. 901) that would permit the transfer of an authorization for any fiscal year to any other authorization for that fiscal year made available in titles I, II or III upon determination by the Secretary of Defense that such a transfer would be in the national interest. The provision would authorize reprogrammings involving the transfer of authorization between authorization as set out in bill language.

The authority to transfer could only be used to provide authorization for higher priority items than the items from which authorization was transferred and could not be used to provide authorization for an item that was denied authorization by the Congress. The Secretary of Defense would be required to notify the Congress promptly of transfers. The total amount of transfers would be limited to $2 billion.

The Senate amendment contained a similar provision, except that the total amount of transfers would be limited to $3 billion.

The House recedes.

Increase in fiscal year 1988 defense funds transfer authority (sec. 1201)

The House bill contained a provision (sec. 902) that would increase from $2 billion to $4 billion the ceiling on the authority to transfer an authorization for obligation for fiscal year 1988 to any other authorization for fiscal year 1988 made available in Titles I, II or III of the fiscal years 1988/1989 Defense Authorization Act. The House provision would allow transfers of prior year authorizations to fiscal year 1988. The provision would provide that in determining the purposes for which amounts transferred pursuant to this provision will be used, the Secretary of Defense shall insure that an appropriate portion of this authority is used to transfer funds to operation and maintenance accounts for depot maintenance activities in amounts sufficient to reduce Services backlogs which would otherwise occur and for pay of civilian personnel in amounts sufficient to prevent furloughs, reductions-in-force, or release of on-call employees into a nonpay status. The provision would also direct the Secretary of Defense to notify the Congress of each transfer made under the provision not less than 15 days before the transfer is made, and to carry out transfers authorized in the provision so that any transfers would not result in an increase in outlays by the Department of Defense during fiscal year 1988.

The Senate amendment contained a similar provision that would increase from $2 to $4 billion the ceiling on transfer authority for fiscal year 1988, and that would allow transfers of prior year authorizations to fiscal year 1988. In addition to the purposes for which transfers could be used under the House provision, the Secretary of Defense would be required to give special consideration and priority to civilian employees of the Department of Defense, readiness and more efficient acquisition processes, and to provide funds for other high priority readiness items.

The Senate recedes with an amendment. The conferees agree to increase from $2 to $4 billion the ceiling on transfer authority for fiscal year 1988, and allow transfers of prior year authorizations to fiscal year 1988. Transfers in excess of $2 billion will be subject to the following conditions. In determining the purposes for which amounts transferred pursuant to this provision will be used, the Secretary of Defense will be required to insure that an appropriate portion of this authority is used to transfer funds to military personnel and operations and maintenance accounts for depot maintenance activities in amounts sufficient to reduce Service backlogs which would otherwise occur; for pay of civilian personnel in amounts sufficient to reduce furloughs, reductions-in-force, or release of on-call employees in a nonpay status; and for pay of military personnel. The conference agreement also provides that the Secretary of Defense shall notify Congress 15 days in advance of transfers made under this section and may carry out such transfers only to the extent that he is able to manage fiscal year 1988 appropriations so that such transfers do not increase outlays by the Department of Defense during fiscal year 1988.

Authority for obligation of certain unauthorized fiscal year 1988 defense appropriations (secs. 1211-1213)

The House bill contained provisions (secs. 911, 912 and 913) concerning certain unauthorized fiscal year 1988 defense appropriations. Section 911 would authorize unauthorized fiscal year 1988 defense appropriations totaling $10.6 billion. Section 912 would prohibit obligation of funds for five unauthorized programs, and impose limitations on three other programs. Section 913 would repeal three general provisions contained in the fiscal year 1988 Defense Appropriations Act (Public Law 100-202).

The Senate amendment contained a provision (sec. 903) that would prohibit obligation of funds for four unauthorized programs, and impose limitations on three other programs. Section 903(e) would transfer the funds prohibited for obligation for specific programs to Operation and Maintenance accounts to be used to minimize furloughs and separation of civilian employees and for other high priority readiness programs.

The Senate recedes with an amendment.

Section 1211 authorizes unauthorized fiscal year 1988 defense appropriations totaling $10,624.6 million. Section 1212 prohibits the obligation of funds appropriated in fiscal year 1988 as follows:

(1) $5.3 million for Satellite System Survivability in Air Force research and development;

(2) $10.0 million for Maxicube Cargo System under Army research and development;

(3) $20.0 million for Coastal Defense Augmentation;

(4) $40.0 million for Defense Meteorological Satellite program in Navy research and development;

(5) $193.8 million for P-3C aircraft under National Guard and Reserve procurement; and

(6) $10.0 million for AN/SQR-17 acoustic processors for Mobile Inshore Undersea Warfare group under National Guard and Reserve procurement.

The Senate recedes to the House provision on Forward Area Air Defense Heavy System (sec. 1212(b)(1)), and A-6 aircraft configuration (sec. 1212(b)(2)), and recedes with a technical amendment on tank procurement (sec. 1212(b)(3)).

The conferees agree to repeal sections 8098 and 8122 of the fiscal year 1988 Defense Appropriations Act (as contained in section 101(b) of Public Law 100-202).

Naming of Trident submarine the U.S.S. Melvin Price (sec. 1221)

The House bill contained a provision (sec. 934) that would express the sense of Congress that the Secretary of the Navy should name the next Trident submarine to be named after enactment of this Act the U.S.S. Melvin Price.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees take this action in recognition of the 44 years of loyal, dedicated service of the late Honorable Melvin Price to the people of the United States and the 21st congressional district of Illinois. The conferees further wish to recognize his service for 40 years as a member of the Committee on Armed Services of the House of Representatives, serving 10 years as its chairman; his service for 31 years as a member of the Joint Committee on Atomic Energy and his service as the committee's first chairman; the major role he played in successfully advocating the peaceful use of nuclear energy and the military application of nuclear power for Navy ships and submarines; and the indelible mark on the history of the Nation he has left as a result of his 44 years of unselfish efforts to maintain the strength and readiness of the Armed Forces.

Naming a Navy ship the U.S.S. Bob Hope (sec. 1222)

The conferees agree Mr. Bob Hope has expressed extraordinary patriotism and character for over 50 years in peacetime and in three wars. Disregarding his own safety and convenience, he has journeyed to all regions of the world at all seasons of the year to ships at sea and to combat zones ashore solely and selflessly to be with soldiers, sailors, marines and airmen who were far from home and frequently in danger of their lives. Through entertainment he has shared himself and his talent and brought, however briefly, a sense of home and normalcy to young men and women for whom home and normalcy was far away.

The conferees agree that while the country asked much of its servicemen and women, and they gave, the country asked nothing of Mr. Hope, and he gave love and humor selflessly throughout all the good times and bad. In so doing he has earned the undying respect and fond esteem of all of his countrymen, and the Secretary of the Navy should name an appropriate ship of the United States Navy the U.S.S. Bob Hope.

Rate of progress payments on naval ship repair contracts (sec. 1223)

The House bill contained a provision (sec. 921) that would amend section 7312(a) of title 10, United States Code, regarding progress payments, to establish the specified rates as minimum rates.

The Senate amendment contained no similar provision.

The Senate recedes.

Limitation on repair of naval vessels in foreign shipyards (sec. 1224)

The House bill contained a provision (sec. 922) that would amend section 7309 of title 10, United States Code, to place restrictions on the overhaul, repair (with the exception of voyage repairs) or maintenance of U.S.-homeported naval vessels in foreign shipyards.

The Senate amendment contained no similar provision.

The Senate recedes.

Competition between public and private shipyards for overhaul of naval vessels (sec. 1225)

The House bill contained a provision (sec. 925) that would amend chapter 633 of title 10, United States Code, to require that additional criteria be considered when the Secretary of the Navy conducts competition for the overhaul of naval vessels between public and private shipyards.

The Senate amendment contained no similar provision.

The Senate recedes.

Depot-level maintenance of ships (sec. 1226)

The House bill contained a provision (sec. 923) that would direct the Secretary of the Navy to require that, to the extent feasible, not less than one-half (by cost) of all depot-level maintenance scheduled as of October 1, 1988 for naval vessels in Japan for fiscal years 1989, 1990 and 1991 be carried out in the United States.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees agree that these restrictions on depot-level maintenance should be observed to the extent feasible and consistent with policies of the Navy regarding family separations.

The conferees also affirm the lanugage of the House report (H. Rept. 100-563) regarding scheduling of depot-level maintenance work for ships about to change homeport to or from Japan. In this regard, the conferees direct that, where feasible, the Secretary of the Navy should adjust deployment schedules to accommodate the intent of this language.

Report on effects of naval shipbuilding plans on maritime industries (sec. 1277)

The House bill contained a provision (sec. 924) that would require an annual report by the Secretary of Defense regarding the effects of the five-year shipbuilding plan on the private sector shipbuilding and repair industries of the United States. The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees agree that this report should be required in 1989, 1990 and 1991.

Report on encouragement of construction in United States shipyards of combatant vessels for allies. (sec. 1228)

The House bill contained a provision (sec. 955) that would amend chapter 631 of title 10, United States Code, to require the Secretary of the Navy to carry out an ongoing program to encourage United States shipyards to construct combatant vessels for allies.

The Senate amendment contained no similar provision.

The conferees note that the fiscal year 1986 Defense Authorization Act (Public Law 99-145) contained a nearly identical provision (sec. 1455). In view of that provision, the conferees believe an assessment of the state of compliance with existing law should be made before directing further action, if any further action is necessary. Accordingly, the conferees recommend a provision that would require the Secretary of the Navy to assess and report on the performance of the Department of the Navy with respect to the requirements of section 1455 of the fiscal year 1986 Defense Authorization Act, within 90 days of enactment of this Act.

The Senate recedes with an amendment.

Report on navy patrol boats (sec. 1229)

The Senate amendment contained a provision (sec. 945) that would require the Secretary of the Navy to report on circumstances and conditions regarding inventory and requirements for small patrol boats.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees agree that the report should be made 90 days after enactment of the Act.

Computer viruses (sec. 1231)

The House bill included a provision (sec. 942) that would require the Secretary of Defense to submit a report on "computer viruses."

The Senate amendment did not include a similar provision.

The Senate recedes.

A computer virus is a destructive computer program that can replicate itself in computer systems with which it comes into contact. The conferees are concerned about the serious damage that could result from the introduction of a computer virus into Department of Defense computer systems.

The conferees agree that the Secretary of Defense should submit a study on this subject to the Congress not later than March 1, 1989. The conferees expect that the National Security Agency will be the lead agency in the preparation of the report. Additionally, the conferees request the Secretary to provide the definitions and terms of reference to be used in the report to the Committees on Armed Services of the Senate and House of Representatives as soon as feasible.

Reassessment of Soviet electronic capability from Mount Alto embassy (sec. 1232)

The House bill contained a provision (sec. 944) that would note that the report required by section 1122 of the fiscal year 1988/1989 Defense Authorization Act (Public Law 100-180) regarding the Soviet embassy on Mount Alto was inadequate. The provision would also note that the report did not contain a determination by the Secretary of Defense as to whether or not the occupation of the Mount Alto site by the Soviet Union is consistent with the national security of the United States. Finally, the provision would require a report from the President meeting the requirements of section 1122.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees agree that the report submitted under the 1988/1989 Act was inadequate and that a new report should be required.

Technical Amendments (sec. 1233)

The Senate amendment contained a provision (sec. 953) that would make technical corrections to previously enacted laws.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

National policy on control of compromising emanations

The House bill contained a provision (sec. 941) that would direct that the Secretary of Defense not implement the proposed "National Policy on Control of Compromising Emanations (TEMPEST)" and the National Instruction "TEMPEST Countermeasures for Facilities" until he submits a report to the Armed Services Committees of the Senate and House of Representatives and 45 legislative days have elapsed after the Committees receive the report.

The Senate bill contained no similar provision.

The House recedes.

The conferees are concerned that the proposed policy may have an adverse impact on TEMPEST security standards and may be costly for the Government. The conferees agree that this issue should be explored in greater depth by the Armed Services Committees but do not wish to delay implementation of the regulations pending a complete review of the subject. The conferees, therefore, direct the Secretary of Defense to provide a report to the Armed Services Committees describing the new regulations and analyzing the effects of the new policy statement and instructions. The conferees direct that the report be provided not later than 90 days after enactment of this Act.

Additional protection of classified information

The House bill contained a provision (sec. 956) that would express the sense of Congress that the President should determine the extent to which classified information in the possesion of journalists is vulnerable to collection by hostile foreign intelligence operatives. It would also require a report on the likelihood that places of business of journalists may be subject to electronic surveillance and the feasibility of addressing the problem.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are deeply disturbed by the consequences of unauthorized disclosures of classified information to journalists and the possibility that foreign governments might obtain that information. However, the conferees are also aware that this issue raises concerns about the rights of the press under the First Amendment to the Constitution. Moreover, they are not persuaded that a report, such as would be required by section 956, would prove useful. The greater concern is that persons with proper access to classified information sometimes give it to unauthorized persons, including journalists. The conferees urged the President to make renewed efforts to assure that classified information is properly protected and that it is not conveyed to unauthorized persons.

Report on status of POMCUS

The House bill contained a provision (sec. 933) that would require, no later than 60 days after enactment, the Secretary of Defense to submit to Congress a report on the progress toward completion of the Pre-positioning of Materiel Configured to Unit Sets (POMCUS) program.

The Senate amendment contained no similar provision.

The House recedes. However, the conferees believe that the report required by the House provision should be prepared and submitted to the Congress. Therefore, no later than four months after the date of the enactment of this Act, the Secretary of Defense is directed to submit to the Committees on Armed Services of the Senate and House of Representatives an unclassified report (with classified annexes as necessary) concerning the progress towards completion of the POMCUS program. The report shall include—

(1) a statement of the shortfall in equipment prepositioned in Europe under the plan (stated in tonnage and in procurement costs) that has occurred each year since the beginning of the POMCUS program;

(2) any specific plans of the Department of Defense (given in tonnage and in procurement costs) and any timetable for reduction of the current shortfalls in the POMCUS program; and

(3) the effect that any current shortfall and any planned reductions described under paragraph (2) would have on the number of days required from the time of a decision of the United States to deploy a force of 10 divisions to Western Europe to the time such force could be so deployed.

Davis-Bacon amendments

The House bill contained a provision (secs. 4101 through 4110) that would amend the Davis-Bacon Act of 1931. Changes would include raising the threshold of applicability for Department of Defense new construction to $50,000, and, for alteration and repair, to $15,000. The provision would also address several other related issues, including the rights of aggrieved parties.

The Senate amendment contained no similar provision.

The House recedes.

Special operations airlift

The Senate amendment contained a provision (sec. 920) that would express the sense of Congress that the Five-Year Defense Plan for fiscal years 1990 through 1994 and the separate budget requests for fiscal years 1990, 1991, and 1992 should, at a minimum, include sufficient funds to procure or modify by fiscal year 1992 all of the special operations airlift aircraft specified in a plan submitted to the Congress by the Secretary of Defense in June 1987.

The House bill contained no similar provision.

The Senate recedes in the interest of minimizing the length of the Act and without prejudice to the Senate provision. In fact, the conferees agree with the substance of the Senate provision. Therefore, the conferees make the following findings:

(1) Adequate airlift for special operations forces of the Armed Forces is essential for the successful performance of any of the missions of such forces.

(2) Inadequate airlift capacity impairs the capability of such forces to carry out such missions.

(3) In June 1987, the Secretary of Defense submitted to Congress a plan to meet the immediate airlift requirements of the special operations forces.

(4) The plan specified that, except for 49 CV-22A aircraft, the remainder of the special operations forces airlift aircraft are scheduled to be procured or modified not later than fiscal year 1992.

In light of these findings, the conferees strongly believe that:

(1) the plan submitted to Congress in June of 1987 by the Secretary of Defense is a sound proposal to redress the serious deficiency in airlift capability for special operations forces;

(2) the Secretary of Defense should formulate a five-year defense program for fiscal years 1990 through 1994 that, at a minimum, includes sufficient funds for the procurement or modification, not later than the end of fiscal year 1992, of all the airlift aircraft specified in the plan referred to in paragraph (1); and

(3) the President should submit budgets to Congress for fiscal years 1990, 1991, and 1992 that, at a minimum, include sufficient funds for the procurement or modification, by the end of fiscal year 1992, of all the airlift aircraft specified in the plan referred to in paragraph (1).

CLOSURE AND REALIGNMENT OF MILITARY INSTALLATIONS

The Senate amendment contained two provisions (sec. 921 and 935) that would address the functions of a recently appointed Base Closure Commission which is analyzing the Department of Defense installation infrastructure and making recommendations for base closures and realignments. The provisions would provide a one time streamlining of installation closure procedures.

The House bill contained no similar provision.

The Senate recedes with great reluctance and only on the basis of an agreement with the House conferees to a date certain for a vote in the House of Representatives on this matter and a guarantee to convene another conference to address this issue at the earliest possible time.

Exclusive economic zone

The Senate amendment contained a provision (sec. 931) that would require the Secretary of Defense to submit to the Congress a review of defense assets that might be utilized to reduce and prevent illegal foreign fishing in the U.S. exclusive economic zone.

The House bill contained no similar provision.

The Senate recedes.

Army National Guard intelligence units

The House report (H. Rept. 100-563) directed the Secretary of Defense to provide certain intelligence equipment to appropriate Army National Guard units if adequate safeguards for the control of equipment and operations are in place. In addition, the Secretary was directed to provide no later than September 30, 1988, a report on the number of Army Guard units involved, the number and kinds of equipment to be distributed, and a timetable for distribution.

The Senate report (S. Rept. 100-326) did not contain similar direction.

The conferees understand that, subsequent to the passage of the House bill, a dispute between the National Security Agency and the Army National Guard was resolved and a decision was made in the Office of the Secretary of Defense to provide a Combat Electronic Warfare and Intelligence (CEWI) capability to the National Guard.

The conferees continue to endorse the total force policy and recognize the contributions National Guard components could make upon mobilization. For this reason, any proposal to provide a signals intelligence (SIGINT) capability to the National Guard should consider the wartime mission of the units, the efficiency of the units, the availability of linguists and equipment, and the adequacy of training and control mechanisms.

The conferees direct that, prior to the transfer of any SIGINT equipment to the National Guard, the Secretary of Defense submit a report to the Armed Services and Intelligence Committees of the Senate and House of Representatives that identifies the National Guard units scheduled to receive the equipment and describes:

(1) the amount, type and cost of the equipment to be provided,

(2) the safeguards agreed to by the Army and the National Security Agency to ensure proper use and security of the equipment,

(3) the training and linguist support plan, and

(4) the wartime missions and planned contributions to be made by these units.

TITLE XIII—FOREIGN RELATIONS MATTERS

Legislative Provisions

LEGISLATIVE PROVISIONS ADOPTED

Sense of Congress concerning the Panama Canal and the United States Southern Command (sec. 1301)

The House bill contained a provision (sec. 940) that would express the sense of Congress that the operations of the U.S. Southern Command are vital to U.S. security interests and on a permanent basis essential to defending those interests and that the President should, therefore, take all steps necessary to ensure the continued operations of the command.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to add a congressional finding that the security of, and the free flow of shipping through, the Panama Canal are vital interests of the United States and with technical amendments to clarify the intent of the House provision.

Limitation on assistance to Panamanian Defense Force (sec. 1302)

The Senate amendment contained a provision (sec. 952) that would prohibit the obligation or expenditure of funds for assistance to the Panamanian Defense Force unless and until the President certifies that no Soviet, Cuban, or Nicaraguan armed forces are present in Panama and that General Noriega has been removed as Commander of the Panamanian Defense Force, barred from all offices and authority, and prohibited from designating or appointing his successor. The Senate provision would clarify that the funding prohibition would not apply to the use of funds for defense of the Panama Canal or maintenance of U.S. Armed Forces or interests in Panama. Lastly, the Senate provision would require a report from the President 10 days after the date of enactment of this act regarding whether Soviet, Cuban, or Nicaraguan military, paramilitary, or intelligence personnel are in Panama and whether the Panamanian Defense Force has coordinated with, cooperated with, supported, or received support from, such personnel.

The House bill contained no similar provision.

The House recedes with four amendments and with technical amendments to clarify the intent of the Senate provision. The House amendments were to:

(1) except military attaches accredited to the Republic of Panama from the President's certification that no Soviet, Cuban, or Nicaraguan armed forces are present in Panama;

(2) require the portion of the President's certification relating to General Manuel Noriega to certify only that General Noriega has relinquished command of the Panamanian Defense Force and no longer holds any official position of leadership (either military or civilian) in Panama;

(3) authorize the President to obligate or expend any funds necessary for collection of intelligence; and

(4) require the report from the President not later than 30 days after the date of enactment of this act.

Sense of Congress concerning indictment of General Noriega of Panama on drug-related charges (sec. 1303)

The Senate amendment contained a provision (sec. 941) that would express the sense of Congress on the drug-related indictments against General Manual Noriega, Commander of the Panamanian Defense Force. The Senate provision would express that no negotiations should be conducted, nor arrangements made, by the United States Government with General Noriega, which would involve dropping drug-related indictments against him. In addition, the Senate provision would express that any such negotiations or arrangements would send the wrong signal about the U.S. priority on the war on drugs; would not further the prospects of restoring noncorrupt, democratic government to Panama; and would not serve the overall U.S. national security interests.

The House bill contained no similar provision.

The House recedes with technical amendments to clarify the intent of the Senate provision.

Limitation on introduction of armed forces into Nicaragua for combat (sec. 1304)

Section 947 of the House bill would prohibit funds appropriated to the Department of Defense from being obligated or expended for the purpose of introducing U.S. armed forces into Nicaragua for combat unless the Congress declared war or enacted specific authorization for such introduction, or such introduction were necessary to meet a clear and present danger of hostile attack upon the United States, its territories or possessions or its allies; or to meet a clear and present danger to, and to provide necessary protection for, the U.S. Embassy, U.S. government personnel, or U.S. citizens; or to respond to hijacking, kidnapping, or other acts of terrorism involving citizens of the United States or its allies. Section 947 would not apply if MIG aircraft, or other aircraft of similar design or capability, or nuclear missiles or any other nuclear weapons were introduced into Nicaragua. Finally, nothing in section 947 would invalidate any provision of the War Powers Resolution (Public Law 93-148) or any authority of the United States to act under the provisions of the Inter-American Treaty of Reciprocal Assistance.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that changes the provision to an expression of the "Sense of Congress." Under the agreed provision, the Congress reaffirms the sense of Congress expressed in the fiscal year 1986 Defense Authorization Act (Public Law 99-145) that United States armed forces should not be introduced into or over Nicaragua for combat. The provision also contains the statement that it should not be construed as affecting the authority and responsibility of the President or Congress under the Constitution, statutes, or treaties of the United States in force.

Human rights violations by the Polish government (sec. 1305)

The Senate amendment contained a provision (sec. 926) that would express the sense of the Senate that it condemns the violations of the fundamental rights of the Polish people by the Polish regime and that any improvement in relations between the United States and Poland must be predicated on a fundamental improvement in human rights in Poland.

The House bill contained no similar provision.

The House recedes with an amendment to make the Senate provision an expression of the sense of Congress and to reflect in its findings the current situation in Poland.

Conditions for sale or other transfer of F-15 aircraft to Saudi Arabia (sec. 1306)

The Senate amendment contained a provision (sec. 937) that would make the sale or other transfer of F-15 aircraft by the United States to Saudi Arabia subject to the following conditions: (1) any such F-15 aircraft shall be limited to models A, B, C, and D; (2) no F-15E aircraft with a ground attack capability shall be sold or transferred and existing Saudi aircraft shall not be upgraded to that capability; and (3) Saudi Arabia shall not possess more than 60 F-15 aircraft at any time.

The House bill contained no similar provision.

The House recedes with an amendment to authorize the President to waive the conditions for the sale or other transfer of F-15 aircraft to Saudi Arabia if the President certifies to the Congress that such action is necessary in the national interest.

Restriction on sale of arms to certain nations (sec. 1307)

The Senate amendment contained a provision (sec. 932) that would prohibit the sale of arms by the United States to Saudi Arabia or to any other nation in the Middle East which has procured Chinese-made CSS-2 missiles unless the President has first certified to the Congress that such nation does not have chemical, biological, or nuclear warheads for such missiles.

The House bill contained no similar provision.

The House recedes with four amendments. The House amendments were to:

(1) equally direct the requirements of the Senate provision to all nations by deleting references to any individual nation;

(2) broaden the category of missiles to include all intermediate-range, Chinese-made missiles;

(3) require a one-time certification from the President prior to the sale of arms to such nations and a prompt notification from the President of any evidence that such nation has subsequently acquired chemical, biological, or nuclear warheads for its intermediate-range, Chinese-made missiles; and

(4) make the provision apply solely during fiscal year 1989.

Philippine bases (sec. 1308)

The Senate amendment contained a provision (sec. 930) that would require the Secretary of Defense to transmit to the Congress a study of the costs and benefits of maintaining U.S. military bases in the Philippines and of relocating those bases to alternative countries.

The House bill contained no similar provision.

The House recedes with an amendment to clarify the terms of the study to be prepared by the Secretary of Defense.

Assessment of security of United States facilities in the Philippines (sec. 1309)

The House bill contained a provision (sec. 948) that would require the Secretary of Defense to provide to Congress an annual assessment of security at U.S. bases in the Philippines.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Authorizing economic sanctions against Ethiopia (sec. 1310)

The Senate bill contained a provision (section 949) that would condemn the Government of Ethiopia for its use of food as a weapon and its human rights record. It would also urge the Government of Ethiopia to allow foreign relief personnel to return to the northern part of Ethiopia and to allow the international relief campaign to resume, and would call on the rebel groups to cease attacks on relief vehicles. The provision would strongly urge the President to impose economic sanctions on the Government of Ethiopia if it engages in certain policies, including forced resettlement, denial of international relief to persons at risk because of famine, and seizure of international relief assets.

The House bill contained no similar provision.

The Senate provision was identical to a provision favorably reported by the House Foreign Affairs Committee. Therefore, the House recedes, with an amendment to terminate the authority granted by the section on June 1, 1990, and with technical amendments.

LEGISLATIVE PROVISIONS NOT ADOPTED

Soviet prisoners of war in Afghanistan

The House bill contained a provision (sec. 304) that would find, among other things, that the Administration had not established a mechanism whereby Soviet defectors and prisoners of war in Afghanistan are provided an opportunity to seek political asylum in the West. The provision would also express the sense of Congress that the President should establish such a mechanism, grant asylum to eligible Soviet defectors, establish a framework using private and public resources to assist Soviet defectors adjust to life in the United States, and direct that the Afghan resistance and Soviet defectors and prisoners of war in Afghanistan be informed of these programs.

The Senate amendment contained no similar provision.

The House recedes.

The conferees believe that the United States should assist Soviet defectors and prisoners of war in Afghanistan to the maximum extent practicable. But the conferees also note that the Administration has, in fact, established a mechanism for processing those Soviet defectors and prisoners of war who seek refugee status in the United States. Other organizations, including the Red Cross and the Government of Pakistan, have established programs to assist refugees and Soviet defectors and prisoners of war. With respect to granting refugee status, the President already has adequate authority. Therefore, this provision is not necessary. Nevertheless, the conferees urge the Administration to increase its efforts to assist Soviet defectors and prisoners of war in Afghanistan.

Enforcement of the Helsinki Final Act

The Senate amendment contained a provision (sec. 938) that would require that no country which did not have Most-Favored Nation status by May 1, 1988, could be granted this status unless the President certifies that the country is in complete or substantially complete compliance with the human rights and humanitarian affairs provisions of the Final Act of the Conference on Security and Cooperation in Europe (also known as "the Helsinki Final Act.")

The House bill contained no similar provision.

The Senate recedes.

TITLE XIV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

The House bill, Division C, Title I, Part A, would authorize appropriations for Department of Energy National Security programs in the total amount of $8,135 million. The Senate amendment, Division C, Title XXXI, Part A, would authorize $8,165.796 million for this purpose.

The conferees agree to an authorization of $8,135 million.

The amended budget request, the authorizations contained in the House bill, the authorizations contained in the Senate amendment, and the conference agreement are presented in the following tables.

Fiscal Year 1989 Department of Energy National Security Programs

Operating expenses (sec. 1401)

The House bill contained a provision (sec. 3111) that would authorize $6,622.025 million for operating expenses.

The Senate amendment contained a provision (sec. 3101) that would authorize $6,715.821 million for operating expenses.

The conferees agree to an authorization of $6,681.025 million for operating expenses.

Plant and capital equipment (sec. 1402)

The House bill contained a provision (sec. 3112) that would authorize $984.305 million for plant construction and $488.670 million for capital equipment.

The Senate amendment contained a provision (sec. 3102) that would authorize $961.305 million for plant construction and $488.670 million for capital equipment.

The conferees agree to an authorization of $965.305 million for plant construction and $488.670 million for capital equipment.

Operating expenses related to N reactor

The amended budget request included $168.6 million for operating expenses at the N Reactor, for which a decision was made in February 1988 to place in cold standby in February 1988.

The House bill would authorize the amounts requested.

The Senate amendment would authorize $147.1 million for operating expenses at the N Reactor.

The conferees agreed to authorize $152.6 million for operating expenses at N Reactor. $14.3 million of the reduction is to come from funds budgeted for tritium contingency pre-engineering work.

Defense waste and environmental restoration

The amended budget request contained $120.925 million for environmental restoration activities at all Department of Energy defense facilities.

The House bill would authorize $138.925 million for environmental restoration activities, with the increase of $18 million provided for environmental restoration activities at Hanford, Washington.

The Senate amendment would authorize $170.925 million for environmental restoration activities at all Department of Energy defense facilities.

The conferees agree to an authorization of $170.925 million for environmental restoration activities and intend that the increase of $50 million over the budget request be applied to the highest priority projects at Department of Energy defense facilities, including, to the extent the Secretary of Energy deems appropriate, projects at Hanford, Washington. The conferees' approval of an increase of $50 million reflects the high priority that is placed on the clean-up of Department of Energy defense facilities.

Funding limitations: Strategic Defense Initiative (sec. 1403)

The House bill contained a provision (sec. 3113(a)) that would limit the funds appropriated to the Department of Energy for fiscal year 1989 for the Strategic Defense Initiative (SDI) to $245 million.

The Senate amendment contained a provision (sec. 3103(a)) that would limit the funds for the Strategic Defense Initiative to $279 million.

The conferees agree to a provsion that would limit the funds authorized to the Department of Energy for fiscal year 1989 for SDI to $262 million. The conferees observe that the conferee agreement contains a provision (sec. 1424(b)) that would authorize the Secretary of Defense to transfer up to $100 million of funds appropriated to the Department of Defense for fiscal year 1989 for the Strategic Defense Initiative to the Department of Energy for the nuclear directed energy research program in support of SDI.

Funding limitations: inertial confinement fusion program (sec. 1403)

The House bill contained a provision (sec. 3113(b)) that would require that not less than $163.77 million of funds appropriated for fiscal year 1989 be used for the defense inertial confinement fusion (ICF) program.

The Senate amendment contained a provision (sec. 3103(b)) that would require that not more than $163.77 million of funds appropriated for fiscal year 1989 be used for the defense inertial confinement fusion program and that not less than $16.8 million of such amount be used for entering into a contract with KMS Fusion, Inc.

The conferees agree that $163.77 million of funds appropriated for fiscal year 1989 be used for the defense inertial confinement fusion program. The conferees also agree that within this amount, $16.8 million should be available for entering into a contract with KMS Fusion, Inc. and that $12.9 million should be available for ICF research program activities at the University of Rochester.

Funding limitation: special isotope separation project (sec. 1403)

The House bill contained a provision (sec. 3133(e)) that would prohibit the obligation or expenditure of funds for site preparation for the Special Isotope Separation (SIS) project prior to March 1, 1989 and would require the Secretary of Energy to submit a report to Congress by March 1, 1989 including assessments and determinations on various aspects of the SIS project.

The Senate amendment contained a provision (sec. 3103(f)) that would prohibit the obligation or expenditure of funds for site preparation for the SIS project prior to March 1, 1989. The Senate report (S. Rept. 100-326) required the Secretary of Energy to submit a report by March 1, 1989 including two of the items contained in the House bill: (1) an assessment of the adequacy of the SIS technology for transition to routine production operations, and (2) a certification that the designated location is consistent with the Department of Energy study on the modernization of the nuclear materials complex and with the projected long-term need for additional sources of weapons grade plutonium.

The House recedes. The conferees agreed to prohibit the obligation or expenditure of funds for site preparation for the SIS project prior to March 1, 1989. The conferees also agreed that not later than March 1, 1989, the Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives an unclassified report (with a classified appendix as necessary) on the SIS project. The report shall include the following:

1. An assessment of the adequacy of the SIS technology for transition to safe, routine production operations at the designated Idaho site;

2. A comparison of the cost, technical risk, and availability of feedstock materials for SIS with the cost, technical risk, and availability of feedstock materials for other processes for obtaining weapons-grade plutonium, including recycling plutonium from retired warheads, blending supergrade plutonium with fuel grade plutonium, scrap recovery, and the use of reactors in the Department of Energy complex for plutonium production;

3. A certification that the designated location of the production-scale SIS plant is consistent with the recommendations of the Department of Energy study on the modernization of the nuclear materials complex, and with the projected long-term need for additional sources of weapons-grade plutonium.

4. A description of the specific sources and quantity of feed materials available for the SIS project facility over the expected economic lifetime of that facility.

Funding limitation: plutonium recovery modification project (sec. 1403)

The amended budget request include $18 million for Project 89-D-125, the Plutonium Recovery Modification Project, at Rocky Flats, Colorado.

The House bill would authorize the amounts requested.

The Senate amendment would not authorize the modification project for fiscal year 1989.

The conferees agree to authorize $4 million for Project 89-D-125 and have included a provision that provides that such funds may not be obligated or expended until the later of (1) February 15, 1989; or (2) 60 calendar days after Congress has received the report on modernization of the Department of Energy defense complex as required by section 3132 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1988 (Public Law 100-180).

PART B—RECURRING GENERAL PROVISIONS

Limits on construction projects (sec. 1423)

The Senate amendment contained a provision (sec. 3123) that would apply limitations only to construction projects that have been authorized.

The House bill contained a provision (sec. 2123) that would apply limitations to all construction projects.

The Senate recedes.

Funds available for national security programs (sec. 1427)

The Senate amendment contained a provision (sec. 3127) that would, subject to provisions in appropriations acts, make amounts appropriated for management and support activities and for general plant projects available when necessary for all national security programs of the Department of Energy, and would subject the use of such funds in connection with all national security programs of the Department of Energy to the reprogramming provisions contained in section 3121 of the Senate amendment.

The House bill contained a provision (sec. 3127) that would, subject only to provisions in appropriations acts, make amounts appropriated for management and support activities and for general plant projects available when necessary for all national security programs of the Department of Energy.

The House recedes.

PART C—MISCELLANEOUS PROVISIONS

Review of the inertial confinement fusion program (sec. 1431)

The House bill contained a provision (sec. 3131) that would direct the Secretary of Energy to establish a Program Review Group on Intertial Confinement Fusion (ICF), which would review the accomplishments, management, goals, and anticipated contributions of the ICF program. The Review Group would submit two reports to the Secretary of Energy and to the Congress containing recommendations on priorities for future work in the ICF program. An interim report would be submitted before January 15, 1990 and a final report before September 15, 1990.

The Senate amendment contained a provision (sec. 3131) that would direct the Secretary of Energy to request the National Academy of Sciences to conduct a review of the ICF program which would include (1) an assessment of the accomplishments, management, and goals of the ICF program, including an assessment of the most promising technology for continuing the program; (2) an assessment of the potential benefits of the ICF program under alternative nuclear testing regimes; and (3) an assessment of the budgetary priority of the ICF program relative to the core research and development (R&D) program. An interim report would be submitted to the Secretary of Energy and to the Congress by January 15, 1990, and a final report would be submitted by September 15, 1990.

The House recedes with an amendment. The conferees agree to a provision that would direct the Secretary of Energy to establish a Review Group to conduct the first two assessments contained in the Senate provision. The Group will be required to submit an interim and final report to the Secretary and to Congress together with recommendations regarding priorities for future work in the ICF program. The Secretary will be required to review the interim and final report of the Review Group and submit an assessment of the budgetary priority of the ICF program in relation to that of the core R&D programs to the Congress not later than 30 days after receiving the Review Group's report.

Assistance to communities affected by closing of N Reactor (sec. 1432)

The House bill contained a provision (sec. 3133) that would authorize the Secretary of Defense to make grants, conclude cooperative agreements, and supplement funds made available under Federal programs administered by agencies other than the Department of Defense in order to assist communities affected by the closure of the N Reactor.

The Senate amendment contained a similar provision (sec. 3135) that would, in addition to giving the Secretary of Defense the authority to make grants, conclude cooperative agreements, and supplement funds made available under Federal programs administered by agencies other than the Deparmtent of Defense in order to assist State and local governments in planning and supporting community adjustments required by the closure of N Reactor, authorize the Department of Energy to reimburse the DoD for such activities.

The Senate recedes.

Review of waste isolation pilot plant in New Mexico

The Senate amendment contained a provision (sec. 3133) that would establish an independent scientific review group for the Waste Isolation Pilot Plant (WIPP) in New Mexico, to be known as the Environmental Evaluation Group (EEG) and would require that the Secretary of Energy enter into an agreement for the financial support of the EEG.

The House bill contained no similar provision.

The House conferees were concerned that a separate evaluation group for WIPP is duplicative of the functions of the Safety Oversight Board established by Sec. 3141. The Senate conferees noted that: (1) an evaluation group has been in operation for a number of years pursuant to agreements reached between the State of New Mexico and the Department of Energy; (2) that it would take a period of time for the Board to become fully operational; (3) that within the State of New Mexico the Board would be viewed primarily as a replacement for the oversight functions presently being conducted by the National Academy of Sciences; and (4) that the continuation of the evaluation group was an important element in maintaining public confidence in the safe operation of WIPP in the State of New Mexico.

The conferees agree to a provision that would require that the Department of Energy contract with the New Mexico Institute of Mining and Technology for the continued funding of an independent evaluation group. The funding for the group would be subject to annual Congressional review.

The conferees recognize that the operation of the evaluation group within the State of New Mexico provides a direct and local input to public officials and to private citizens of the State and that the continuation of that relationship is important. The conferees intend to maintain close and continuing contact with state and local government and citizens groups in New Mexico.

The conferees note that approximately $700 million has been expended constructing WIPP, that the Administration has budgeted $43 million from prior year Department of Energy Defense Programs unobligated balances for payment to the State of New Mexico during fiscal year 1989 for road improvements in the State of New Mexico, and that by this section a unique oversight arrangement is being continued, yet legislation that would implement land withdrawal and clear a major obstacle to the actual placement of waste at WIPP has not been enacted. The Department of Energy's plans contemplate that waste would begin to be moved to WIPP in October, 1988 if the withdrawal is completed and remaining technical issues are resolved. The conferees are concerned that if the Department of Energy proceeds to disburse funds for road improvements prior to land withdrawal the funds may be wasted in that land withdrawal may continue to be delayed. Accordingly the conferees direct that disbursement of funds for road improvements be delayed until land is withdrawn.

Hanford loaned executive program (sec. 1434)

The House bill contained a provision (sec. 3134) that would allow contractors of the Department of Energy at the Hanford Reservation to loan personnel to the Tri City Industrial Development Council and would require contractors to compensate such loaned personnel.

The Senate amendment contained no similar provision.

The Senate recedes.

New production reactor (sec. 1435)

The House bill contained a provision (sec. 3113(d)) that would establish New Production Reactor (NPR) selection criteria for consideration by the Secretary of Energy.

The Senate amendment contained a provision (sec. 3132) that would require a report on the Secretary's recommendation for a new production reactor not later than July 31, 1988, and a subsequent report on ways to facilitate the earliest availability of an NPR.

The House recedes.

The conferees agree that the construction of an NPR on an urgent schedule should be the highest priority of the Department of Energy in meeting the future special material needs of our nuclear deterrent. The conferees further agree that the Congress should take no action that could potentially or actually delay the ongoing process that will make the NPR a reality, nor should it take any action to prejudge the outcome of the ongoing evaluation by the Department of Energy with respect to either technology or site selection. The conferees endorse the criteria being used by the Department of Energy's Energy Research Advisory Board (ERAB) in its analysis of potential technologies for the NPR.

The conferees recognize that the NPR provides an oppotunity to advance the level of safety and environmental protection associated with defense program reactors, and believe that the Secretary should attach substantial weight to such factors in making his recommendations.

Nuclear test ban readiness program (sec. 1436)

The House bill contained a provision (sec. 936) that would prohibit all funding for nuclear tests with a yield in excess of one kiloton, provided that the Soviet Union accepted in-country verification and limited its testing to the same threshold.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

The conferees agree to require that the Secretary of Energy establish and support a readiness program to assure that the United States is in a position to maintain the reliability and safety of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive ban on nuclear testing is negotiated within the framework agreed to by the United States and Soviet Union. The program shall also assure the continued deterrent effect of nuclear weapons through a vigorous program of research in areas related to nuclear weapons science and engineering.

The conferees agree that the purposes of the readiness program are: to assure that stockpile reliability and safety are maintained through a vigorous program of stockpile inspection and non-explosive testing; to assure that specific materials, components, processes, and personnel required for the remanufacture of existing nuclear warheads or substitution of alternative nuclear warheads remain available; and to assure that a vigorous program of research in areas related to nuclear weapons science and engineering is maintained under a low-threshold or comprehensive test ban regime. The Secretary of Energy is required to submit an annual unclassified report to the Congress that describes the status of the readiness program.

PART D—DOE DEFENSE NUCLEAR FACILITIES SAFETY OVERSIGHT BOARD

The House bill contained provisions (secs. 3141-3150) that would establish a safety oversight board for Department of Energy defense nuclear facilities.

The Senate amendment contained similar provisions (secs. 3141-3144) that would establish a safety oversight board. A detailed explanation of the Senate provisions is contained in Senate Report 100-232.

The conferees agree to the following provisions (secs. 1441 and 1442).

Section 3142 of the Act amends the Atomic Energy of Act of 1954 (42 U.S.C.

2011 et seq.) by adding a new chapter 21 entitled "Defense Nuclear Safety Board."

Section 311 of chapter 21 creates the Board, composed of five members appointed by the President with the advice and consent of the Senate. The Board members are required to be from civilian life and to be experts in the field of nuclear safety. The conferees believe that the President should ensure that the members of the Board collectively are sufficiently knowledgeable about the national security missions of the Department of Energy. They will serve staggered five-year terms of office to ensure continuity. Board members will be required to sever any significant financial relationships with DOE and its contractors prior to assuming office.

Section 312 of chapter 21 sets forth the Board's main functions.

Section 312(a)(1) requires the Board to review and evaluate the content and implementation of DOE standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities. The Board will recommend specific measures to ensure that public health and safety are adequately protected. "Adequate protection" is the level of safety required of commercially licensed nuclear facilities (Atomic Energy Act sec. 182, 42 U.S.C. 2232.) The conferees believe that it is appropriate to require the same general level of safety from DOE nuclear facilities as is required of commercial facilities. The conferees recognize that specific standards recommended by the Board for achieving adequate protection may not necessarily be the same as those applied to commercial facilities, to the extent that DOE and commercial facilities are significantly different.

As applied to commercial facilities, the standard of adequate protection means "reasonable assurance that the health and safety of the public will not be endangered by the operation of the facility." (10 C.F.R. 50.35(c)). Absolute certainty or perfect safety is not required. What constitutes "reasonable assurance of adequate protection" is subject to change as the state of the nuclear safety art advances. The Board will be responsible for weighing such factors as technical feasibility, the risk of accidents, the record of past performance, the need for further improvement in nuclear safety, and other considerations. The conferees believe that such factors should be balanced by the Board when the adequate protection standard is applied.

The recent explication of the "adequate protection" concept by the U.S. Court of Appeals for the District of Columbia is important. In *Union of Concerned Scientists* v. *NRC*, 824 F.2d 108, 118 (D.C. Cir. 1987), the Court of Appeals held that under the adequate protection standard, the "NRC need ensure only an acceptable or adequate level of protection to public health and safety; the NRC need not demand that nuclear power plants present no risk of harm." The Court further stated that:

> The level of adequate protection need not, and almost certainly will not, be the level of "zero risk." This court long has held that the adequate-protection standard permits the acceptance of some level of risk.

Section 312(a)(2) directs the Board to investigate any event or practice at a DOE defense nuclear facility which the Board determines has adversely affected, or may adversely affect, public health and safety.

Section 312(a)(3) provides the Board with access to design and operational data, including safety analysis reports, from any DOE defense nuclear facility.

Section 312(a)(4) provides that the Board shall review the design of new defense nuclear facilities to ensure that the operation of each facility will adequately protect the public health and safety. The Board will also be required to review and monitor the execution of construction to ensure that the facility will adequately protect the public health and safety when completed. This section also provides that an action of the Board, or a failure to act, may not delay or prevent the Secretary of Energy from carrying out the construction of a new facility.

Section 312(a)(5) provides that the Board will make recommendations to the Secretary of Energy with respect to DOE defense nuclear facilities as necessary to ensure the adequate protection of public health and safety. In making its recommendations, the Board is directed to consider technical and economic feasibility.

Section 313(a) of chapter 21 provides the Board with the necessary powers to conduct hearings, including subpoena power to obtain witness testimony. The conferees expect that the Department of Energy and DOE contractors will cooperate with the Board, and the Board will not need to invoke statutory procedures to obtain information necessary to carrying out its functions.

Section 313(b) permits the Board to hire staff and consultants, but limits staff to one hundred full-time equivalents.

Section 313(c) allows the Board to prescribe regulations to carry out its responsibilities.

Section 313(d) grants to the Board the power to establish reporting requirements for the Secretary of Energy that allow the Board to obtain the expert knowledge and advice of DOE.

Section 313(e) allows the Board to make use of existing health and safety expertise within the Federal Government concerning DOE defense nuclear facilities.

Section 313(f) allows the Board to receive assistance from the staff of the Nuclear Regulatory Commission and the Advisory Committee on Reactor Safeguards.

Section 313(g) allows the Board to seek the assistance of the National Research Council or other appropriate groups to assist the Board in carrying out its responsibilities.

Section 313(h) allows the Board to station staff at any DOE defense nuclear facility to carry out the functions of the Board.

Section 313(i) allows the Board to conduct special studies concerning adequate protection of public health and safety at DOE defense nuclear facilities.

Section 313(j) gives the Board the authority to evaluate information received from the scientific and industrial communities, as well as from the interested public.

Section 314(a) of chapter 21 requires that the Secretary of Energy fully cooperate with the Board. Contractors operating DOE defense nuclear facilities shall cooperate to the extent provided by contract or otherwise with their consent.

Section 314(b) allows the Secretary to deny access based on lack of need to know or clearance.

Section 315 of chapter 21 establishes the procedures for making and implementing the recommendations of the Board.

Section 315(a) applies to all recommendations, except those relating to an imminent or severe threat to public health and safety, which are covered in section 315(g). Recommendations subject to this section are required to be made available to the public in the Department of Energy regional public reading rooms and to be published in the Federal Register. Thirty days are allowed for public comment.

Section 315(b) requires the Secretary of Energy to transmit to the Board, within 45 days unless more time is sought, a description of the action to be taken in response to the Board's recommendations. The Secretary's response will be published in the Federal Register. Thirty days are allowed for public comment.

Section 315(c) requires the Board to furnish the Secretary with copies of all comments, views, data, and arguments submitted under sections 313 (a) and (b).

Section 315(d) requires the Board, after 30 days for public comment, to revise or reaffirm its recommendations should the Secretary reject, in whole or in part, a recommendation of the Board. Based on the Board's review, the Secretary will make a final decision. The Secretary will publish the final decision and reasoning, and submit a report of that decision and reasoning to the Committees on Armed Services and Appropriations of the Senate and to the Speaker of the House of Representatives.

Section 315(e) requires the Secretary to prepare a plan of implementation for the Board's recommendations accepted by the Secretary within 90 days of the Secretary's final decision. The Secretary may have an additional 45 days to prepare and transmit the plan provided he notifies the Board, the Committees on Armed Services and Appropriations of the Senate, and the Speaker of the House of Representatives. The Secretary may implement the recommendation at any time.

Section 315(f) requires the Secretary to carry out and complete, within one year of its transmittal, the implementation plan for each recommendation accepted by the Secretary. If complete implementation takes more than one year, the Secretary shall submit a report to the Committees on Armed Services and Appropriations of the Senate and to the Speaker of the House of Representatives. If the Secretary determines that implementation is impracticable due to budgetary considerations or because it would affect the Secretary's ability to meet the annual nuclear weapons stockpile requirements, the Secretary shall submit to the President, to the Committees on Armed Services and Appropriations of the Senate, and to the Speaker of the House of Representatives a report containing the recommendation and the Secretary's determination. The conferees note that the report may include a discussion of the budgetary consequences, safety consequences, national security consequences, and other implications of implementing or not implementing the recommendation. This section provides the President with the opportunity to review the determination of the Secretary of Energy, as appropriate, to ensure that budgetary constraints and materials requirements are properly balanced with safety concerns.

Section 315(g) sets forth procedures in case a recommendation relates to an imminent or severe threat to the public health and safety. The conferees expect that the Board will make a recommendation under this section only in the event that failure to implement a recommendation could have imminent, life-threatening consequences, such as an accident which is sufficient to cause injury or death. In that case, the Board will transmit its recommendation to the Secretary of Energy, the President and, for information purposes, to the Secretary of Defense. The Secretary will make a recommendation to the President who shall make the decision concerning acceptance or rejection of the Board's recommendation. The President shall promptly notify the Committees on Armed Services and Appropriations of the Senate and the Speaker of the House of Representatives of his decision and reasoning.

Section 315(h) protects classified and controlled information. This provision does not restrict from public availability information which is not subject to the restrictions on classified and controlled information.

Section 316(a) of chapter 21 requires the Board to submit an annual report on its activities at the time the President submits his budget to Congress. The report is intended to provide Congress with an overview of the Board's activities, as well as an assessment of the improvements in the safety of DOE nuclear facilities and of outstanding safety problems.

Section 316(b) requires the Secretary of Energy to submit an annual report on the Department's activities under this chapter to the appropriate Senate committees and to the Speaker of the House of Representatives.

Section 317 of chapter 21 provides that the judicial review provisions of chapter 7 of title 5 of the United States Code apply to the activities of the Board.

Section 318 of chapter 21 defines the term "Department of Energy defense nuclear facility" to include DOE production and utilization facilities operated for national security purposes, with the exception of naval nuclear reactors and facilities or activities involved with the testing, assembly, or transportation of nuclear explosives or nuclear material. The use of the term "assembly" refers to a DOE defense facility that is responsible for the final assembly of nuclear weapons and devices. At the present time, the only facility in this category is the Pantex plant. The term "assembly" is not intended to exclude from the Board's review facilities that are responsible for the assembly of components or of other items that precede the final assembly of nuclear weapons and devices. The exclusion of facilities involved in the testing of nuclear explosives, under current practice, applies to the Nevada test site. The term "Department of Energy defense nuclear facility" also includes nuclear waste storage facilities with the exception of those developed pursuant to the Nuclear Waste Policy Act and licensed by the Nuclear Regulatory Commission.

Section 319 of chapter 21 limits the Board's authority to enter into contracts to the extent provided by appropriations.

Section 320 of chapter 21 provides for authorization of appropriations on an annual basis. Such annual authorization provides for continuing oversight and review by the Congress.

Section 3141(b) of the Act amends section 5314 of title 5 to provide that members of the Board will be compensated at Level III of the Executive Schedule.

Section 3141(c) requires the Board's first annual report to include the results of a study by the Board and its recommendation on whether non-defense nuclear facilities should be subject to independent external oversight.

Section 3141(d) requires the Board's fifth annual report to include an evaluation by the Board for continuation, termination, or modification of the Board's functions and programs.

Section 3142 of the Act authorizes the Secretary of Energy to transfer to the Board up to $7 million, which shall remain available until expended, to carry out its responsibilities during fiscal year 1989.

LEGISLATIVE PROVISIONS NOT ADOPTED

Membership of Nuclear Weapons Council

The House bill contained a provision (sec. 3132) that would change the membership of the Nuclear Weapons Council from the Director of Defense Research and Engineering to the Under Secretary of Defense for Acquisition.

The Senate amendment contained no similar provision.

The House recedes.

Demonstration of burning weapons grade nuclear materials

The House bill contained a provision (sec. 3135) that would direct the Secretary of Energy to formulate a plan for conducting a demonstration of the technical feasibility of burning weapons grade nuclear material from dismantled nuclear weapons in a liquid metal rector.

The Senate amendment contained no similar provision.

The House recedes.

K reactor cooling tower

The Senate amendment contained a provision (sec. 3103(d)) that would allow expenditure of funds appropriated for the K reactor cooling tower only if the cooling tower could be used both for the K reactor and for a new production reactor.

The House bill contained no similar provision.

The conferees agree that the Secretary of Energy should enter into discussions with the State of South Carolina concerning the requirement for a cooling tower for the K reactor. The conferees believe that those discussions should focus on priorities for environmentally related projects at Savannah River to determine whether the K reactor cooling project is a primary priority of the State. If the K reactor is not a primary priority, the Secretary should seek to obtain an agreement identifying other higher priority projects that could be funded if agreement can be reached to allow continued operation of the K reactor without construction of cooling tower. The Secretary should periodically advise the Armed Services Committees of the Senate and House of Representatives of the discussions with the State and submit a report detailing the outcome of the discussions not later than in January 15, 1989.

The conferees further agree that the Secretary should utilize a portion of the $1 million authorized for the K reactor cooling tower project to study the feasibility of a cooling tower that could support both the K reactor and a new production reactor.

The Senate recedes.

Use of remaining unobligated balances

The Senate amendment contained a provision (sec. 3103(e)) that would authorize the transfer of certain fiscal year 1988 appropriations for projects at Richland, Washington that remain unobligated to defense waste and environmental restoration activities at Richland, Washington. The provision identified both the sources and uses of funds and required the transfer to be in addition to amounts otherwise authorized in the State amendment.

The House bill included authorization of $17 million in addition to the budget request for defense waste and environmental restoration projects and activities.

The conferees agree that the Secretary of Energy may transfer up to $44 million of unobligated balances remaining from 1988 appropriations for construction projects as enumerated in section 3103(e) of the Senate amendment to defense waste and environmental restoration activities at Richland, Washington, as determined by the Secretary of Energy. The conferees intend that any sums transferred be in addition to the amounts otherwise authorized for Department of Energy atomic energy defense activities for fiscal year 1989.

Adjustments for pay increases

The Senate amendment contained a provision (sec. 3128) that would authorize appropriations for pay increases as authorized by law.

The House bill contained no similar provision.

The Senate recedes.

Settlement of atomic energy community assistance obligations, Los Alamos County, New Mexico

The Senate amendment contained a provision (sec. 3134) that would authorize up to $26 million for final settlement of all obligations to make community assistance payments to Los Alamos County, New Mexico under section 91 of the Atomic Energy Community Act of 1955.

The House bill contained no similar provision.

The Senate recedes. The conferees continue to encourage the Department of Energy to pursue to a buy-out of all remaining Federal obligations to the remaining recipients under the Atomic Energy Community Act of 1955.

Report on nuclear waste repository site

The Senate amendment contained a provision (sec. 3136) that would direct the Secretary of Defense to prepare a report on the national security implications of the construction and operation of a nuclear waste repository.

The House bill contained no similar provision.

The Senate recedes.

TITLE XV—NATIONAL DEFENSE STOCKPILE

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Authorization of acquisitions and disposals (secs. 1501 and 1502)

The House bill contained the following provisions related to the authorization of acquisitions, upgrades and disposals of materials in the National Defense Stockpile.

Section 3201 would authorize the President to dispose of 14 specific strategic materials determined to be excess to stockpile requirements. The value of the materials disposed to would be limited to $180 million. The authority to carry out the disposals would be subject to the conditions set forth in section 3202.

Section 3202 would require that the disposal of stockpile materials authorized by section 3201 be carried out in such a manner that the National Defense Stockpile Transaction Fund receive all payments due for the materials during fiscal year 1989. Section 3202 would also require the President to undertake a $20 million pilot program for the upgrading of three strategic materials now in the National Defense Stockpile and to purchase six strategic materials, from a specified list, totaling $160 million. Finally, section 3202 would limit the expenditure of funds for the pilot upgrading program and for the purchase of stockpile materials to $90 million during fiscal year 1989.

The Senate amendment contained the following provisions related to the authorization of acquisitions, upgrades and disposals of materials in the National Defense Stockpile:

Section 3201 would authorize $90 million for the acquisition and upgrade of materials in the National Defense Stockpile in fiscal year 1989.

Section 3202 would authorize the President to dispose of 19 specific materials determined to be excess to stockpile requirements.

The conferees agree to the following provisions related to the authorization of acquisitions, upgrades and disposals of materials in the National Defense Stockpile:

Section 1501 authorizes the President to dispose of 19 materials determined to be excess to stockpile requirements during fiscal year 1989. The value of the materials disposed of is limited to $180 million. The President may dispose of materials under this section only to the extent that the total amount received from such disposals does not exceed the amount expended from the National Defense Stockpile Transaction Fund during fiscal year 1989.

Section 1502 authorizes the President to obligate $180 million out of the funds of the National Defense Stockpile Transaction Fund (subject to such limitations as may be provided in appropriations acts) for the acquisition and upgrade of stockpile materials and other authorized uses of such funds. These funds would be in addition to funds previously made available from the Stockpile Transaction Fund but not obligated or expended. Of this amount, at least $20 million shall be obligated to initiate new programs for upgrading stockpile materials. The conferees direct the stockpile manager to upgrade those materials currently in the stockpile that would be most essential to the defense effort in a national emergency and most vulnerable to interruptions in supply. The stockpile manager shall submit a report to Congress by October 1, 1988 containing a plan for the use of the $20 million for upgrading stockpile materials.

Technical and clarifying amendments (sec. 1503)

The Senate amendment contained a provision (sec. 3203) that would make several technical and clarifying changes to the Strategic and Critical Materials Stockpiling Act (section 98h-2(b), title 10, United States Code). This provision would clarify the fact that the Annual Materials Plan for stockpile operations must be submitted by February 15 of each year for the next fiscal year. This provision would also require reporting of all expenditures from the National Defense Stockpile Transaction Fund in the Annual Materials Plan. Finally, this provision would require that expenditures and disposals detailed in an Annual Materials Plan for a fiscal year that are not obligated or executed in that fiscal year shall not be obligated or executed in that fiscal year shall not be obligated or expended until they are resubmitted in a subsequent Annual Materials Plan or in a revision thereto.

The House bill contained no similar provision.

The House recedes with an amendment.

The conferees agreed to the technical and clarifying changes in the Senate provision. The conferees also agreed to require the Stockpile Manager to include information on research and development of strategic and critical materials in the Stockpile Report to Congress.

TITLE XVI—CIVIL DEFENSE

LEGISLATIVE PROVISION

LEGISLATIVE PROVISION ADOPTED

Civil defense authorization (sec. 1601)

The House bill contained a provision (sec. 3301) that would authorize $160.393 million for civil defense.

The Senate amendment contained a provision (sec. 3301) that would authorize $135.393 million for civil defense.

The conferees agree to an authorization of $147.893 million for civil defense for fiscal year 1989.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

OVERVIEW

The amended budget request for fiscal year 1989 contained $8,719,245,000 for military construction and family housing.

The House bill would authorize $8,662,231,000 for military construction and family housing.

The Senate amendment would provide $8,636,566,000 for this purpose.

The conferees recommend authorization of $8,696,635,000 for military construction and family housing for fiscal year 1989.

	Revised FY89 Request	House		Senate		House +/- Senate	Conference Agreement

MISCELLANEOUS REPORT REQUIREMENTS

The House and Senate reports (H. Rept. 100-563 and S. Rept. 100-326) addressed items of special emphasis. The conferees endorse the language on items of special emphasis found in both reports and, unless some modification to that language is contained in this statement of managers, the positions and requirements contained under "Items of Special Emphasis" in both Senate and House reports on the fiscal year 1989 military construction authorization bills are concurred in by the conferees.

PUBLIC SCHOOLS AND MILITARY FAMILY HOUSING

The conferees are concerned over the impact on public schools at the local level when additional family housing units are approved for military personnel. The military Services are urged to coordinate their housing requirements with the local school districts so that adequate planning can take place to provide the required educational facilities. The Services are expected to provide, with their budget justification for each family housing construction request, a statement indicating whether additional facilities are required to accommodate an increase in students.

As part of the study being undertaken by the Secretary of Defense and the Secretary of Education to determine the appropriate federal share for support of public schools located on military bases, the Secretaries are also directed to consider the needs of coterminous school districts.

TITLE XXI—ARMY

The House bill would authorize $2,415,051,000 for Army military construction and family housing programs for fiscal year 1989.

The Senate amendment would authorize $2,419,301,000 for such purposes.

The conferees recommend authorization of $2,417,701,000 for military construction and family housing for the Army for fiscal year 1989.

Test and Evaluation Center, Fort Huachuca, Arizona

The Senate amendment would authorize $5.4 million for a replacement facility for the Army Test and Evaluation Center at Fort Huachuca, Arizona which was severely damaged by a fire.

The House bill contained no similar provision.

The Senate recedes.

The conferees has reviewed the conditions and circumstances of the fire at Fort Huachuca in July 1987 that destroyed 23 buildings, including the central heating plant that serviced several other buildings in the area. The Army request for a new Test and Evaluation Center will allow the relocation of functions from the remaining buildings and help eliminate the need to rely on leased boilers for a heating system.

Although the facilities to be replaced by the Test and Evaluation Center were not completely destroyed, the conferees believe that the loss of the heating plant is considered sufficient damage to qualify this project under section 2854 of title 10, United States Code, Restoration or Replacement of Damaged or Destroyed Facilities. The conferees understand that the new facility will not replace the damaged or destroyed World War II vintage facilities on a one-for-one square foot basis, but will be designed to meet current functional standards.

The conferees therefore, direct the Army to proceed with this project under the authority provided in section 2854 of title 10, United States Code.

Reserve Officer Training Corps facilities

The House report (H. Rept. 100-563) includes a section regarding Department of Defense policy concerning the provision of facilities to support Reserve Officer Training Corps (ROTC) units at colleges and universities. The report discusses in particular the facility needs of North Georgia College, Dahlonega, Georgia. It requests that the Secretary of Defense review current policy regarding the funding and construction of such facilities and provide the Committees on Armed Services of the Senate and the House of Representatives a report on this matter by March 1, 1989.

The conferees support the House requirement and urge the Department to take a careful look at current policy to ensure that to the maximum extent possible, it takes into account the unique role of the few military schools which support ROTC.

Extension of authorizations (sec. 2106)

The House bill contained a provision (sec. 2016) that would extend the authorizations of several military construction projects originally authorized in fiscal years 1985, 1986, and 1987, until October 1, 1989, or the date of enactment of the fiscal year 1990 Military Construction Authorization Act.

The Senate amendment contained a similar provision (sec. 2106) that would extend the same projects, with the exception of a dining facility modernization project at Fort Leavenworth, Kansas, which was originally authorized in fiscal year 1986.

The Senate recedes.

TITLE XXII—NAVY

The House bill would authorize $2,330,350,000 for Navy military construction and family housing programs for fiscal year 1989.

The Senate amendment would authorize $2,336,093,000 for such purposes.

The conferees recommend authorization of $2,369,875,000 for military construction and family housing for the Navy for fiscal year 1989.

Naval Construction Battalion Center, Port Hueneme, California

The House bill would authorize $3 million for a sealift support storage facility at Port Hueneme, California to be constructed with tensioned architectural fabric structures.

The Senate amendment would authorize $6.9 million for the facility using traditional construction methods.

The conferees recommend authorization of $3 million and direct the Secretary of the Navy to advertise this project for bid using both tensioned architectural fabric structures and traditional construction methods. If additional funding is required, the conferees expect the Secretary to request additional authorization under the cost variation authority contained in section 2853 of title 10, United States Code.

Fleet Surveillance Support Command, Guam

The amended budget request contained $26.28 million for construction of an electronic installation at the Fleet Surveillance Support Command, Guam.

The House bill would authorize $20.972 million for this purpose.

The Senate amendment would authorize the requested amount.

The Senate rcedes. The conferees direct the Secretary of the Navy to make every effort to construct this facility within the authorization provided. However, if all attempts to reduce the cost of the project prove unsuccessful, the conferees expect the Secretary to request additional authorization under the cost variation authority contained in section 2853 of title 10, United States Code.

Navy development at Capodichino Airport, Italy

The House bill contained a provision (sec. 2205(b)(3)) that would authorize $46.6 million, in advance appropriations for the construction of a new Command, Control, Communications and Intelligence Complex at Naval Support Activity, Naples, Italy.

The Senate amendment contained no similar provision.

The House recedes. The conferees, by adding $2.2 million the fiscal year 1988 authorization for appropriation of $19.4 million for construction at Naval Support Activity, Naples, agree to a limited relocation of Navy activities from their current site at Agnano, Italy. The conferees generally support the more modest relocation plan which was recently provided by the Department of the Navy which envisions locating a new operational headquarters and direct support units at Capodichino Airport. The fiscal year 1989 authorization will provide initial construction of direct support facilities at this location.

The conferees declined to authorize the construction of the new command and control complex because construction is not programmed to begin until at least fiscal year 1990. Further, the Navy's initial description of this resited facility fails to adequately justify the changes in passive security features which were incorporated in the original plans for the same function at Capua. The Navy is requested to provide a detailed justification for these changes and operational justification for the redesigned complex.

As with the command and control complex, the conferees expect a functional justification and detailed cost/benefit analysis to accompany subsequent requests for military construction funds supporting the relocation of any significant function from Agnano to other sites.

Communications systems laboratory, Charleston, South Carolina

The Senate report (S. Rept. 100-326) instructed the Secretary of the Navy to accelerate the design of a Communication Systems Laboratory for the Naval Electronics Systems Engineering Center (NAVELEXCEN) in Charleston, South Carolina. Given the need for this facility and the possible cost savings, the conferees direct the Secretary of the Navy to accelerate the design of this facility and include it in the fiscal year 1990 military construction request.

Restrictions on naval construction, San Francisco, California (sec. 2205(c))

The House bill contained a provision (sec. 2205(c)) that would preclude the expenditure of military construction funds for fiscal year 1989 at Hunters Point Annex and Naval Station, Treasure Island, San Francisco, California, until the Department of the Navy submits a report to the Committees on Armed Services of the Senate and House of Representatives.

The Senate amendment contained no similar provision.

The Senate recedes. The conferees agree that a new Environmental Impact Statement is not required should the Navy alter its planned use of the Hunter Point Annex and Naval Station, Treasure Island. However, a Supplemental Environmental Impact Statement should be provided to address any mission changes not reflected in the original document.

Acquisition of housing at certain naval air stations (sec. 2206)

The Senate amendment contained a provision (sec. 2205) that would authorize the Secretary of the Navy to acquire all outstanding interest in 264 units of family housing on Naval Air Station, Glenview, Illinois.

The House bill contained no similar provision.

The House recedes with an amendment.

In addition to the authorization provided by the Senate amendment, the conferees agree to also authorize the Secretary of the Navy to acquire all outstanding interest in 72 units of family housing at Sunnyvale, California, near Naval Air Station, Moffett Field. This provision will permit the Navy to procure the last two remaining Wherry housing projects supporting its installations and provide a basis for addressing the serious family housing deficits at these two locations.

Portsmouth Naval Shipyard modernization

The Senate amendment contained a provision (sec. 2202) that would direct that $2 million of the planning and design funds authorized to the Navy be obligated only to design the first and second increments of the modernization of Dry Dock Number 2 at Portsmouth Naval Shipyard, Portsmouth, New Hampshire.

The House bill contained no similar provision.

The Senate recedes.

TITLE XXIII—AIR FORCE

The House bill would authorize $2,163,411,000 for Air Force military construction and family housing programs for fiscal year 1989.

The Senate amendment would authorize $2,135,251,000 for such purposes.

The conferees recommend authorization of $2,143,981,000 for military construction and family housing for the Air Force for fiscal year 1989.

Pease Air Force Base, New Hampshire

The Senate amendment would authorize $500,000 for an engine plant conversion project at Pease Air Force Base, New Hampshire.

The House bill contained no similar provision.

The conferees direct the Secretary of the Air Force to use unspecified minor contruction funds for this purpose.

Charleston Air Force Base, South Carolina

The House bill would authorize appropriations for construction of the following projects at Charleston Air Force Base, South Carolina:

1. Add/Alter Child Development Center	$490,000
2. Add/Alter Recreation Center	590,000

The Senate amendment contained no similar provision.

The conferees direct the Secretary of the Air Force to use unspecified minor construction funds for this purpose.

Extension of certain previous authorizations (sec. 2305)

The House bill contained a provision (sec. 2305) that would extend certain military construction projects authorized in fiscal year 1987 until October 1, 1989, or the date of enactment of the fiscal year 1990 Military Construction Authorization Act.

The Senate amendment contained a similar provision (sec. 2305) which included two additional projects at Bitburg, Germany and La Junta, Colorado.

The House recedes.

TITLE XXIV—DEFENSE AGENCIES

The House bill would authorize $750,000,000 for Defense Agencies military construction and family housing programs for fiscal year 1989.

The Senate amendment would authorize $704,050,000 for such purposes.

The conferees recommend authorization of $711,550,000 for military construction and family housing for the Defense Agencies for fiscal year 1989.

AFCENT school (sec. 2404)

The Senate amendment contained a provision (sec. 2404) that would authorize the Secretary of Defense to contribute $8,863,000 to the Government of the Netherlands as the U.S. share of construction of an international school for military dependents whose parents are stationed at Allied Forces Central Europe (AFCENT), Brunssum, Netherlands.

The House bill contained a similar provision (sec. 2404).

The House recedes.

Defense access roads (sec. 2406)

The House bill contained a provision (sec. 2406) that would authorize $10 million for a defense access road project at Fort Meade, Maryland.

The Senate amendment contained a similar provision (sec. 2406) that would authorize $12 million for this purpose.

The House recedes.

Resiting of overseas contingency medical facility (sec. 2408)

The Senate amendment included a provision (sec. 2407) that would amend the fiscal years 1988/1989 National Defense Authorization Act (Public Law 100-180) by resiting a contingency medical facility from Royal Air Force Wethersfield, United Kingdom, to Royal Air Force Boscombe Downs, United Kingdom.

The House bill contained no similar provision.

The House recedes.

Extension of previous authorization (sec. 2409)

The Senate amendment contained a provision (sec. 2409) that would extend the authorization of a Defense Communications Agency project at Scott Air Force Base, Illinois, until October 1, 1989, or the date of enactment of the fiscal year 1990 Military Construction Authorization Act, whichever is later.

The House bill contained no similar provision.

The House recedes.

Reynolds Army Community Hospital, Fort Sill, Oklahoma and Seoul Army Community Hospital, Korea (sec. 2410)

The Senate amendment contained a provision (sec. 2410) that would provide the Secretary of Defense the authority to contract in advance of appropriations for the construction of hospitals at Fort Sill, Oklahoma, and Seoul, Korea. This authority would permit phased funding of these two major projects.

The House bill would authorize $54 million for Phase II of a hospital at Fort Sill, Oklahoma, and $55 million for a replacement hospital at Seoul, Korea.

The House recedes to $27 million for the Fort Sill hospital and $28 million for the Seoul hospital. Although the conferees prefer to limit projects to one year's authorization, the priority of these two hospital projects, coupled with the budget constraints facing the conferees, led to a decision to phase fund both projects. This approach will permit construction to begin on both projects during fiscal year 1989. Because of the size of each initiative, phase funding is not expected to materially delay the beneficial occupancy of either facility.

TITLE XXV—NATO

The House bill would authorize $502,100,000 for the U.S. contribution to the NATO Infrastructure program for fiscal year 1989.

The Senate amendment would authorize $492,000,000 for this purpose.

The House recedes.

TITLE XXVI—GUARD AND RESERVE

The House bill would authorize $501,319,000 for military construction for fiscal year 1989 for the Guard and Reserve components.

The Senate amendment would authorize $561,528,000 for such purposes.

The conferees recommend an authorization of $561,528,000 for military construction for fiscal year 1989. This authorization would be distributed as follows:

Army National Guard	$203,859,000
Army Reserve	84,411,000
Naval/Marine Corps Reserve	54,900,000
Air National Guard	154,758,000
Air Force Reserve	63,600,000

Planning and design funds, various locations

The House bill would authorize an additional $1.1 million for planning and design for the reserve components for the purpose of initiating design on high priority projects identified as urgent requirements.

The Senate amendment contained authorization of an additional $650,000 for this purpose.

The conferees agree to authorize an additional $1,180,000 for planning and design. The conferees expect the reserve components to initiate design on the following high priority projects for inclusion in the fiscal year 1990 budget request:

Army National Guard	$200,000
National Guard Armory, Laredo, Texas.	
National Guard Armory, Clovis, New Mexico.	
Air National Guard	650,000
Civil engineer facility, Camp Blanding, Florida.	
Aircraft hangar, Key Field, Mississippi.	
Tactical Construction Squadron Operations, Gulfport, Mississippi.	
Composite Training/Operations Building, Thompson Field, Mississippi.	
Civil Engineer Facility, Thompson Field, Mississippi.	
Army Reserve	330,000

Add/Alter Reserve Center, Syracuse, New York.

Reserve Center, Brownsville, Pennsylvania.

Yeager Airport, Charleston, West Virgina (sec. 2602)

The Senate amendment contained a provision (sec. 2602) that would authorize $3.3 million for the construction of an aircraft parking ramp/holding pad in support of the Air National Guard activities at Yeager Airport. This project was to be funded with anticipated savings on Air National Guard construction projects authorized in fiscal year 1987.

The House bill contained no similar provision.

The House recedes.

Land exchange at Chicago O'Hare Airport (sec. 2603)

Section 2603 authorizes the Secretary of the Air Force to use the proceeds of land exchange between the City of Chicago and the Department of the Air Force regarding the disposition of property at the O'Hare Air Reserve Forces Facility, Illinois. If facilities dislocated by the land exchange are not constructed by the City, the Department of the Air Force is authorized to collect and use the proceeds for such construction and other expenses associated with the transaction.

Army Reserve Center, Gordo, Alabama

The Senate amendment contained a provision (sec. 2603) that would authorize $1.547 million for the construction of an Army Reserve Center at Gordo, Alabama. The project was to be funded from within the overall Army Reserve military construction authorization.

The House bill contained no similar provision.

The House recedes with an amendment that authorizes appropriation of $1.547 million for this purpose.

TITLE XXVII—EXPIRATION OF AUTHORIZATIONS

Expiration of authorizations (sec. 2701)

The House bill contained a provision (sec. 2701) that would establish an expiration date for the military construction authorization for the active components and NATO Infrastructure for fiscal year 1989.

The Senate amendment contained a similar provision (sec. 2701) with different title references.

The House recedes.

Effective date (sec. 2702)

The House bill contained a provision (sec. 2702) that would establish an effective date for the military construction authorizations.

The Senate amendment contained a similar provision (sec. 2702).

The House recedes.

TITLE XXVIII—GENERAL PROVISIONS

PART A—PROGRAM CHANGES

LEGISLATIVE PROVISIONS ADOPTED

Long-term facilities contracts (sec. 2801)

The Senate amendment included a provision (sec. 2804) that would amend section 2809 of title 10, United States Code, to extend the maximum period of long-term facility contracts from 20 to 32 years.

The House bill contained no similar provision.

The House recedes.

Increase in foreign lease authority (sec. 2802)

The Senate amendment contained a provision (sec. 2805) that would amend section 2828 of title 10, United States Code, to increase the total number of overseas leases from 36,000 to 38,000.

The House bill contained no similar provision.

The House recedes. The conferees are concerned about the steady increase in the number and cost of overseas leases and the drain which such arrangements place on family housing funds. However, they are aware of an experimental Army program in Europe which appears to produce an overall savings to the Department while aiding soldiers to find decent, affordable housing overseas. In order to support this program, the conferees agree to increase the statutory number of overseas leases by 2,000 units. The Secretary of Defense is requested to analyze the United States Army, Europe (USAREUR) program from the viewpoints of personnel morale and cost, and provide the Committees on Armed Services of the Senate and House of Representatives a report no later than January 15, 1989 regarding this initiative and its potential application to other Services and geographic areas.

Reports on real estate transactions (sec. 2803)

The Senate amendment contained a provision (sec. 2807) that would amend section 2662 of title 10, United States Code, to raise the threshold of reporting real property transactions from $100,000 to $200,000.

The House bill contained no similar provision.

The House recedes.

Notification requirement relating to the acquisition of interest in land (sec. 2804)

The Senate amendment included a provision (sec. 2808) which would amend section 2672 of title 10, United States Code, by eliminating the requirement of a Service Secretary to advise Congress of the acquisition of real estate interests valued at more than $100,000 but less than $200,000.

The House bill had no similar provision.

The House recedes.

Community planning assistance for impacted communities (sec. 2805)

The Senate amendment contained a provision (sec. 2801) that would amend section 2391 of title 10, United States Code, to expand the scope of Department of Defense activities in community impact planning assistance to include problems of encroachment and the adverse impact of long-term reductions in civilian personnel employment. The Department would continue to be limited to a $2 million annual authorization for this purpose.

The House bill contained no similar provision.

The House recedes.

Rental guarantee program

The Senate amendment included a provision (sec. 2803) that would amend section 2821 of title 10, United States Code, to provide the military Services increased flexibility in executing the guaranteed rental family housing program. The provision would permit Service provision of utilities; permit, rather than mandate, default conditions; and permit a Military Department or a separate contractor to perform maintenance.

The House bill contained no similar provision.

The Senate recedes.

The Congress approved the Military Housing Rental Guarantee Program as a pilot program in 1983. The law has been extended and amended several times over the past five years, but as of today, not one unit has been made available for rent under this program. The program now appears to be entirely different from what was envisioned when it was enacted.

Therefore, the conferees agree not to approve any further revisions, but recommend that the Secretary of Defense submit a new housing program incorporating the lessons learned from this pilot program if he believes that it is now workable.

Cost variation

The Senate amendment contained a provision (sec. 2806) that would provide a technical correction to section 2853 of title 10, United States Code, regarding the handling of cost variations for military construction projects.

The House bill contained no such provision.

The Senate recedes.

PART B—MISCELLANEOUS

LEGISLATIVE PROVISIONS ADOPTED

Prohibition on funding of certain military construction contracts on Guam (sec. 2811)

The House bill contained a provision (sec. 2801) that would prohibit the use of certain classes of nonimmigrant foreign labor on military construction projects on Guam.

The Senate amendment contained no such provision.

The Senate recedes.

Community planning assistance (sec. 2813)

The Senate amendment contained a provision (sec. 2802) that would authorize planning assistance for communities adversely affected by the Army's newly established light infantry divisions and the Navy's developing strategic homeports.

The House bill contained a similar provision (sec. 2803) that would authorize planning assistance for communities adversely affected by new Defense Department missions at Naval Station, Everett, Washington; Fort Drum, New York; and Whiteman Air Force Base, Missouri.

The conferees agree to accept elements of the House bill and Senate amendment. The following amounts are authorized to be appropriated for community planning assistance:

$350,000 for light infantry division beddowns at Fort Drum, New York and Fort Wainwright, Alaska;

$250,000 for the Navy's new strategic homeports; and

$150,000 for Whiteman Air Force Base, Missouri.

Fort DeRussy, Hawaii

The House bill contained a provision (sec. 2804) that would designate the Armed Forces Recreation Center at Fort DeRussy, Hawaii, the "Dan Daniel Armed Forces Recreation Center." The provision would further authorize the Secretary of the Army to use any excess funds realized from the sale of real property at Kapalama Military Reservation, Hawaii to implement the relocation of non-recreation functions from DeRussy as outlined in a plan established by the Secretary of the Army on March 1, 1988. The provision also would prohibit the disposal of any portion of the land constituting Fort DeRussy.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment. The conferees agree with the general outline of a Department of the Army plan to enhance and expand the current recreation mission at Fort DeRussy by: (1) relocating Army Reserve functions from the post; (2) retaining the property currently comprising Fort DeRussy; (3) constructing with non-appropriated funds additional hotel accommodations and other recreation amenities; and (4) redeveloping the remaining acreage as a joint Department of Defense-community area with available appropriated funds. The conferees believe that the Army plan provides a sound basis for this development and support it, provided new facility design takes into account local sensitivities.

In making a long term commitment to the redevelopment of Fort DeRussy as an enhanced Armed Forces Recreation Center, the conferees believe that the long-standing debate over the future or mission of Fort DeRussy has been resolved. In doing so, the conferees defer any redesignation of the name of the Center.

The conferees expressed their strong desire to recognize the contributions and tireless efforts of Congressman Dan Daniel in support of the recreation facilities at Fort DeRussy. The conferees agreed that a suitable portrait of Congressman Daniel should be displayed appropriately in the recreation center at Fort DeRussy in tribute to Congressman Daniel's efforts on behalf of military personnel and their families for these facilities.

Wurtsmith Air Force Base, Michigan (sec. 2815)

The House bill contained a provision (sec. 2805) that would designate the library at Wurtsmith Air Force Base, Michigan, as the "General Earl T. O'Laughlin Library."

The Senate amendment contained no similar provision.

The Senate recedes.

Location of hazardous waste storage facility at Pearl Harbor Naval Shipyard, Hawaii (sec. 2816)

The House bill contained a provision (sec. 2806) that would prohibit construction of a hazardous waste storage facility at Pearl Harbor Naval Shipyard which is closer than 3,000 feet to a public school.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment prohibiting construction of such storage facilities closer than 600 feet to a public school.

Solicitation for proposals for office space for the Navy (sec. 2817)

The Senate amendment contained a provision (sec. 2809) that would direct the Secretary of the Navy, in coordination with the Administrator of General Services, to issue a solicitation for proposals for acquisition through lease or lease-buy of office and related space within the National Capital Region. Upon receipt of proposals, the Navy would be directed to provide the Committees on Armed Services of the Senate and House of Representatives a report analyzing the relative merits of lease, lease-buy, and military construction alternatives in meeting the Service's administrative facility needs.

The House bill contained no similar provision.

The House recedes with an amendment that directs that the solicitation be published by the Administrator of General Services, in coordination with the Secretary of the Navy.

Third Infantry Division memorial (sec. 2818)

The Senate amendment contained a provision (sec. 2811) that would authorize the Secretary of the Army to select a site in Arlington National Cemetery for a privately financed memorial honoring the historic deeds of the 3rd Infantry Division.

The House bill contained no such provision.

The House recedes.

Commission on alternative utilization of military facilities (sec. 2819)

The Senate amendment contained a provision (sec. 951) that would establish a commission on alternative utilization of military facilities. This interagency body would review, on a biannual basis, military facilities identified by the Department of Defense which are fit for closure, surplus in whole or part, or sufficiently underutilized to permit consideration as a site for a minimum security prison or a drug treatment center.

The House bill contained no such provision.

The House recedes.

PART C—REAL PROPERTY TRANSACTIONS

LEGISLATIVE PROVISIONS ADOPTED

Land transfer, Reserve Forces Training Center, Alameda County, California (sec. 2821)

The House bill contained a provision (sec. 2813) that would authorize the Secretary of the Army to enter into a value-for-value land exchange with the County of Alameda and City of Dublin, California. In exchange for approximately 47 acres of land at the Alameda Reserve Forces Training Center, the Army would receive approximately 450 acres from the East Bay Regional Park District, Alameda, California.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that changes the acreage to be conveyed from 450 acres to 445 acres; allows the East Bay Regional Park District the right of reversion to the parcel in the event the Secretary of the Army determines that it is no longer required by the United States Army; and grants the Park District an easement along the most easternly border of the parcel for its regional trail system. This easement does not exceed 25 acres.

Land conveyance, Lompoc, California (sec. 2822)

The House bill contained a provision (sec. 2816) that would authorize the Secretary of the Army to convey, without reimbursement, approximately 100 acres of land in Lompoc, California, to the City of Lompoc, California for the educational purposes of Allan Hancock Community College.

The Senate amendment contained a similar provision (sec. 2905) that would authorize the transfer for less restrictive educational purposes.

The House recedes.

Land easement, Orange County, California (sec. 2823)

The Senate amendment contained a provision (sec. 2902) that would authorize the Secretary of the Navy to grant Orange County, California, an easement on Marine Corps Air Station, El Toro, California, for the construction and maintenance of a flood control project. In consideration, the Navy would receive approximately 1.5 acres of land adjacent to Marine Corps Air Station, Tustin, California, as well as the benefit of the flood control improvements.

The House bill contained a similar provision (sec. 2815).

The House recedes.

Land exchange, San Diego, California (sec. 2824)

The Senate amendment contained a provision (sec. 2901) that would authorize the Secretary of the Navy to enter into a value-for-value exchange of property to acquire approximately 32 acres of land adjacent to the San Diego Naval Station.

The House bill contained no similar provision.

The House recedes.

Land transfer, Washington, District of Columbia (sec. 2825)

The House bill contained a provision (sec. 2811) that would direct the no-cost transfer of approximately six acres of land with improvements from the Administrator of General Services to the Secretary of the Navy. The provision would also direct the use of no more than $9.2 million for the design of the renovation of the related facilities.

The Senate amendment contained no similar provision.

The Senate recedes.

Land conveyance, Okaloosa County, Florida (sec. 2826)

The House bill contained a provision (sec. 2814) that would amend the fiscal year 1979 Military Construction Authorization Act (Public Law 95-356) by conveying at fair market value an additional 42 acres of land at Eglin Air Force Base, Florida from the Department of the Air Force to the Air Force Enlisted Men's Widows and Dependents Home Foundation, Incorporated.

The Senate amendment contained no similar provision.

The Senate recedes.

Land transfer, Suitland Federal Center, Maryland (sec. 2827)

The Senate amendment contained a provision (sec. 2903) that would authorize the Administrator of General Services to transfer to the Secretary of the Navy, without consideration, vacant land at the Suitland Federal Center, Suitland, Maryland, that is excess to the needs of the General Services Administration and is needed to accommodate construction of a new facility for the Naval Intelligence Command.

The House bill contained a similar provision (sec. 2812).

The House recedes.

Air Force Plant at Columbus, Ohio (sec. 2828)

The Senate amendment contained a provision (sec. 2812) that would authorize the Secretary of the Air Force to sell or lease Air Force Plant No. 85 at Columbus, Ohio, which is excess to Air Force needs. Proceeds of the sale or lease would be credited to the U.S. Treasury, after expenses connected with such a sale or lease, including environmental cleanup, have been deducted.

The House bill contained no similar provision.

The House recedes with an amendment. In light of interest by the Defense Logistics Agency (DLA) in locating a function on a portion of Air Force Plant No. 85, the amended provision authorizes the Secretary of the Air Force to permit portions of the facility to another Defense Department organization. The conferees believe that support for DLA requirements and sale or lease of the remainder of the plant for private development are compatible uses. The Air Force and any Defense Department permit-

tee are expected to insure that the property available for commercial redevelopment remains an integral industrial facility with adequate administrative space.

In authorizing the Secretary of the Air Force to sell or lease this property and use some of the proceeds to fund environmental restoration and other related property disposal expenses, the conferees wish to ensure that the Service does not expend scarce Defense Environmental Restoration funds for this purpose in lieu of investing these resources to address the most serious environmental problems outlined in the Defense Department priority cleanup program.

Land conveyance, Fort Jackson, South Carolina (sec. 2829)

The Senate amendment contained a provision (sec. 2904) that would authorize the sale, at fair market value, of approximately 14 acres of Fort Jackson, South Carolina that are excess to Army needs. The provision would authorize proceeds of the sale to be used to construct a new consolidated maintenance facility on the post.

The House bill contained no similar provision.

The House recedes with an amendment. The conferees agreed to the sale of approximately 32 acres of excess property, the proceeds of which could be applied to the modernization of family housing on Fort Jackson.

LEGISLATIVE PROVISIONS NOT ADOPTED

Camp Robinson, Arkansas

The House bill contained a provision (sec. 2817) that would authorize the use of 1,000 acres of Camp Robinson, Arkansas as an industrial park and 40 acres for other public uses.

The Senate amendment contained no similar provision.

The House recedes. The conferees are concerned about the impact which highway construction will have on the mission integrity of Camp Robinson, Arkansas. In light of local interest in redeveloping portions of the camp which may no longer be useful to the military mission, the Department of the Army is directed to submit a report to the Committees on Armed Services of the Senate and House of Representatives by March 15, 1989, regarding this issue.

From the Committee on Armed Services, for consideration of the entire House bill (except sections 4101 through 4110), and the entire Senate amendment (except sections 938 and 949), and as exclusive conferees with respect to any proposal to report in total disagreement:

Les Aspin,
Charles Bennett,
Samuel S. Stratton,
Bill Nichols,
G.V. Montgomery,
Pat Schroeder,
Beverly Byron,
Nicholas Mavroules,
Ike Skelton,
Dave McCurdy,
Thomas M. Foglietta,
Marilyn Lloyd,
Norman Sisisky,
Richard Ray,
John M. Spratt, Jr.,
Frank McCloskey,
Solomon P. Ortiz,
George (Buddy) Darden,
Tommy F. Robinson,
Albert G. Bustamante,
Barbara Boxer,
Ben Blaz,
James V. Hansen,

From the Committee on Armed Services, solely for consideration of sections 209, 212, 935, and 936 of the House bill, and section 223 of the Senate amendment, and modifications committed to conference:

Les Aspin,
Charles Bennett,
Pat Schroeder,
Nick Mavroules,
Dave McCurdy,
Thomas M. Foglietta,
John M. Spratt, Jr.,
Frank McCloskey,
Barbara Boxer,

From the Permanent Select Committee on Intelligence, for consideration of matters within the jurisdiction of that committee under clause 2 of Rule XLVIII:

Louis Stokes,
Robert W. Kastenmeier,
Robert A. Roe,
Henry J. Hyde,
Dick Cheney,

From the Committee on Education and Labor, solely for consideration of sections 4101 through 4110 of the House bill, and modifications committed to conference:

Augustus F. Hawkins,
William D. Ford,
Joseph M. Gaydos,
William Clay,
Austin J. Murphy,
Pat Williams,
Jim Jeffords,
Tom Petri,
Steve Bartlett,

From the Committee on Armed Services, solely for consideration of sections 4101 through 4110 of the House bill, and modifications committed to conference:

Les Aspin,
Frank McCloskey,

From the Committee on Energy and Commerce, for consideration of sections 3141 through 3150 of the House bill, and sections 3141 through 3144 of the Senate amendment, and modifications committed to conference:

John D. Dingell,
Philip R. Sharp,
Norman F. Lent,

From the Committee on Foreign Affairs, for consideration of sections 234, 303, 304, 318, 354, 937, 940, 944, 946, 947, 948, 950, 952, 953, and 959 of the House bill, and sections 232, 233, 234, 237, 303, 806, 807, 809, 911, 912, 913, 914, 915, 922, 924, 926, 928, 930, 931, 932, 933, 934, 937, 939, 941, 943, 948, 949, 950, and 952 of the Senate amendment, and modifications committed to conference:

Dante B. Fascell,
Lee H. Hamilton,
Gus Yatron,
Stephen J. Solarz,
Bill Broomfield,
Benjamin A. Gilman,

From the Committee on Government Operations, for consideration of section 921 of the Senate amendment, and modifications committed to conference:

Jack Brooks,
John Conyers,
Cardiss Collins,
Glenn English,
Henry A. Waxman,
Frank Horton,
Bill Clinger,

From the Committee on the Judiciary, for consideration of sections 304, 954, and 1103 of the House bill, and sections 918, 940, 941, and 951 of the Senate amendment, and modifications committed to conference:

Bob Kastenmeier,
Carlos J. Moorhead,
Bill McCollum,

From the Committee on Merchant Marine and Fisheries, for consideration of section 921 of the Senate amendment, and modifications committed to conference:

Walter B. Jones,
Gerry E. Studds,
Dennis M. Hertel,
Don Young,
Norman F. Lent,

From the Committee on Post Office and Civil Service, for consideration of section 917 of the Senate amendment, and modifications committed to conference:

William D. Ford,
Bill Clay,
Gary L. Ackerman,
Gene Taylor,
Benjamin A. Gilman,

From the Committee on Rules, for consideration of section 921 of the Senate amendment, and modifications committed to conference:

Claude Pepper,
Joe Moakley,
Butler Derrick,
Tony Beilenson,
Martin Frost,
James H. Quillen,

From the Committee on Ways and Means, for consideration of sections 938 and 949 of the Senate amendment, and modifications committed to conference:

Dan Rostenkowski,
Sam Gibbons,
Ed Jenkins,
Tom Downey,
Bill Frenzel,

From the Committee on Armed Services, for consideration of sections 938 and 949 of the Senate amendment, and modifications committed to conference:

Managers on the Part of the Senate.

DEFENSE SAVINGS ACT OF 1988

The SPEAKER pro tempore (Mr. Gray of Illinois). Pursuant to House Resolution 489 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 4481.

□ 1217

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period, with Mr. Volkmer in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

The gentleman from Wisconsin [Mr. Aspin] will be recognized for 22½ minutes; the gentleman from Alabama [Mr. Dickinson] will be recognized for 22½ minutes; the gentleman from Texas [Mr. Brooks] will be recognized for 22½ minutes; the gentleman from New York [Mr. Horton] will be recognized for 22½ minutes; the gentleman from North Carolina [Mr. JONES] will be recognized for 15 minutes; the gentleman form Michigan [Mr. DAVIS] will be recognized for 15 minutes; the gentleman from Florida [Mr. PEPPER] will be recognized for 15 minutes; and the gentleman from Ohio [Mr. LATTA] will be recognized for 15 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Chairman, I yield 2 minutes to the gentleman from Oklahoma [Mr. McCURDY].

Mr. McCURDY. Mr. Chairman, I rise in support of H.R. 4481 as passed out of Armed Services Committee. The issue of base closure is certainly one of the toughest political issues for Congress especially for Members such as myself who represents a district that contains three military bases. There is no doubt that of the 5,737 separate DOD installations and properties worldwide, many are overlapping in their function and should be closed or consolidated. This bill would give us the chance to streamline our conventional and strategic base structure without worrying about individual parochialism or partisan considerations.

Mr. Chairman, this bill, as opposed to the Army substitute, provides for proper consideration of environmental protection. As the former chairman of the Armed Services Committee Defense Environmental Restoration Panel, I am aware of the severe problem of toxic and hazardous waste that is found on many military bases. We cannot and should not walk away from our responsibility to clean any base. Furthermore, we should calculate this cost as part of the price to close the base.

I believe the recommendations included in this bill by the Armed Services Committee are responsible provisions that are fair and equitable. Mr. Chairman, this is a unique opportunity for the administration and Congress to rise above the parochial concerns for the good of the country, and I strongly urge my colleagues to support this bill.

Mr. DICKINSON. Mr. Chairman, I yield myself such time as I might consume.

Mr. Chairman, I rise today in strong support of this effort to save the taxpayers money by closing or realigning certain military installations.

Let me first commend the efforts of my friend and colleague, the gentleman from Texas [Mr. ARMEY]. As many of my collleagues know, the gentleman from Texas has brought this issue of base closure to the House for the past 2 years. He has not given up on the issue, and even in the face of opposition last year from the Department of Defense he kept on and modified his bill, and now he has gained the support of the Department of Defense. He simply kept working at the issue that he is dedicated to, and one that will save substantial sums of money for the taxpayers of the United States. I join with many of our colleagues in expressing gratitude to our colleague, the gentleman from Texas.

Last year, the proposal of the gentleman from Texas [Mr. ARMEY] failed passage on the House floor by only six votes. I voted against it. The Department of Defense was opposed to it. Most of our committee was opposed to it.

Today we have a different era, a modified bill that would accomplish the same purposes, and I am supporting it. The chairman of our committee is supporting it and the administration supports it. The Secretary of Defense supports it and its time has come. We need it.

As has been pointed out and will be pointed out several times today, I am sure, it has been unthinkable and unworkable for the Department of Defense to close a military installation. There has not been one closed since 1977, one reason for this being that the Environmental Protection Act allows one to throw legal roadblocks in the way, ask for studies, and ask for impact statements. Opponents of a base closure can do all these things, and then if they do not like the reports they get, they simply take the issue into Federal court and drag it out. As a consequence, it has come to the point where a small group of dedicated Members of Congress, applying all of the tricks of the trade, have been very effective in being able to block any base closure for the past 12 years.

The time has come, and we now have a narrow window in which to work our will to allow the Department of Defense to close certain bases. The fact is that many circumstances have come together to make it possible in this short window to pass this legislation now. It is my opinion that if we do not pass this bill and allow these base closures to be named this year, we will be another 10 years before such an opportunity comes again.

We have a lameduck Congress, we have a lameduck administration, we have a lameduck Secretary of Defense, all of whom support this legislation. The President has named a nonpartisan commission of seven members, including notably former Senator Abraham Ribicoff and our former colleague, Congressman Jack Edwards. There is nothing partisan about it.

The time has come for us to give the Government the tools that it needs to save billions of dollars. One particularly attractive feature of this bill is that when the package is decided on and sent over to us, it is a "take it or leave it" deal. Neither the administration nor the Congress can pick and choose individual bases from the list. A Member cannot protect an individual base in his or her district, but will have to vote for or against the entire list.

One of the arguments that will be heard involves the question of whether we will require an affirmative act to approve the closure of the bases or whether we will require a negative act to close the bases. This issue has some significant political aspects and is extremely important. But whatever the case, I will support the bill.

In addition to this, the gentleman from Texas [Mr. ARMEY] has a substitute which is a modified version of his original bill that was the basis of the work of our Committee on Armed Services. The Armey substitute has been made in order to be offered as a substitute to whatever bill we pass. I intend to support the Armey substitute bill. Many of the Members who will be opposing the bill here today are the ones who have been speaking most loudly about cutting the waste in the defense budget, and cutting the Defense budget. If these Members are really serious about saving money, let them put their money where their mouths are now. The time has come to close bases, to authorize the Department of Defense to save money, and if Members want to do that, if they are serious about it, then they should not hide behind some spurious reasoning and argue about individual provisions. There is only one game in town. This is the only chance we will have to vote on this issue in an atmosphere where it is likely to pass in the next 10 to 15 years.

I would urge the Members of the House to support the Armey version of the bill. We need to pass this bill here and now.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The gentleman from Alabama [Mr. DICKINSON] has consumed 6 minutes.

Mr. ASPIN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of this legislation which is before the House today. I think I agree with the gentleman from Alabama that basically what we need to do here is to pass this procedure, and use this method of closing excess and redundant military bases because, frankly, I have come to the conclusion that it is the only way that we are going to be able to do it. With declining budgets and with squeezes on the procurement end of the Pentagon, I think that the Congress ought to take every opportunity that it can to make sure that the money that we are spending on defense is spent as wisely and as productively as possible. That means eliminating waste wherever we can.

There is enormous debate, as Members in the Chamber know, on exactly how much savings can be expected from closing bases. In the short run it often costs money, but in the long run it saves money.

I think that given the climate, the general squeeze on military expenditures, it is incumbent upon us to take advantage of making the savings, whatever savings they may be, in this piece of legislation. So I rise in support of it.

Today there will be a lot of amendments offered, some of which I will support, some of which I will oppose, and we will be able to debate those fully when we get to the point that they will be offered. But I would like to tell the Members that I will support the bill on final passage almost regardless of how some of these amendments come out, because I think that the purpose of the legislation and passing the legislation is very, very important.

Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. ECKART].

□ 1230

Mr. ECKART. I thank the gentleman for yielding.

Mr. Chairman, I have read the language of the bill, H.R. 4481, as reported by the Committee on Armed Services, and have paid particularly close attention to the language of the amendments offered in that committee by the gentlelady from California [Mrs. BOXER]. Those amendments, which remain part of the bill we have before us today, reflect the gentlelady's concern that no military bases may be closed or otherwise transferred in a manner that is environmentally unacceptable.

As the primary House sponsor of the 1986 amendments to the Superfund law, which included in section 120 a comprehensive program for the cleanup of hazardous wastesites on Federal facilities, I share the gentlelady's concerns wholeheartedly. For this reason, I would like to ask the gentlelady a question about the environmental restoration language contained in the bill before us today.

The language of the bill to which I refer:

First, requires that the Secretary of Defense develop a plan to accomplish, within 5 years, the environmental restoration of the bases to be closed or realigned—unless the Secretary determines that because of extraordinary circumstances a longer period is necessary; and

Second, restricts the transfer to the General Services Administration of real property at a military base to be closed or realigned until environmental restoration has been completed and the property is in a condition that would permit its disposal by the Federal Government in accordance with applicable law.

My question to the gentlelady is simply this: Am I correct in my understanding that the provisions of this bill that deal with environmental restoration are to be implemented in accordance with and subject to the Comprehensive Environmental Response, Compensation and Liability Act [CERCLA or Superfund] and the Solid Waste Disposal Act?

Mrs. BOXER. Mr. Chairman, will the gentleman yield?

Mr. ECKART. I yield to the gentlewoman from California.

Mrs. BOXER. I thank the gentleman for yielding.

Mr. Chairman, the gentleman is correct. The provisions of current law, including Superfund and the Solid Waste Disposal Act, governing the cleanup of hazardous substances at Federal facilities, will be complied with. I can also assure the gentleman that the cleanup priorities established in accordance with the above two statutes and funded by the Defense environmental restoration account will not be altered by this bill. Any lower priority cleanups associated with bases addressed by this bill will be funded by the base closure account. In sum, this bill is not only fully consistent with DOD compliance with existing environmental restoration laws, but provides additional funding for expedited cleanup of toxic wastesites that may not otherwise be addressed in the next 5 years.

Mr. Chairman, I want to thank the gentleman very much for engaging in this colloquy with me. There has been some misunderstanding.

Mr. Chairman, I am very proud to have the support of the gentleman for this amendment as well as that of the chairman of his committee, the gentleman from Michigan [Mr. DINGELL].

Mr. DICKINSON. Mr. Chairman, I yield 3 minutes to the distinguished ranking member of the Subcommittee on Military Installations and Facilities of the Committee on Armed Services, the gentleman from New York [Mr. MARTIN].

Mr. MARTIN of New York. I thank the gentleman for yielding.

Mr. Chairman, I rise in strong support of this legislation. I want to take a few minutes to explain the difficulty that the committee has had in coming up with a bill that is subject to the jurisdiction of so many subcommittees and so many competing interests, and also to thank the gentleman from Texas [Mr. ARMEY] who has worked so long and so hard for so many years to get a piece of legislation such as this before the House. It does indeed represent a compromise among the committees of jurisdiction and for that reason, if for only that reason, it is an imperfect piece of legislation. That happens when you have so many competing interests and so many subcommittees which have jurisdiction, as well as a variety of passionate feelings on all sides of the issue.

But the fact of the matter is we are here at a time, as the gentleman from Alabama has said, when action has to be taken. Something that all the Members should be aware of, that we have to be very careful to insure that while we are passing this legislation and attempting to take steps to close or realign bases to save taxpayers' dollars, that we do not abdicate our responsibility as Members of Congress as far as the review process is concerned.

I have a great deal of respect for the panel that has been put together under the charter to review these bases.

Let us understand that they have a tremendous challenge and in a very short period of time are going to have to make some monumental decisions. It is going to require the support as well as the scrutiny of Congress as well.

The environmental concerns that were spoken to earlier, during our hours of hearings before the subcommittee and later before the entire committee, we wanted to make sure that there was not going to be unnecessary delay and roadblocks thrown in the way of the Pentagon in closing bases that were unneeded but at the same time balance the environmental concerns.

Let us face it, our Federal military installations, where they are polluted, where they have environmental problems, are going to have to be cleaned up whether the bases are closed or whether they remain open. We have to be sure that we do not find ourselves in the ridiculous position of setting aside those bases that do have environmental concerns and say, "You cannot close them irrespective of how outdated or outmoded they might be because they have our environmental problems." We are going to have to clean up each and every military installation that has environmental problems irrespective of whether or not this bill ultimately becomes law.

With that, Mr. Chairman, I will be asking for time later on during the amending stage.

Mr. Chairman, I yield back the balance of my time.

Mr. HERTEL. Mr. Chairman, I yield 3 minutes to the gentleman from Pennsylvania [Mr. FOGLIETTA].

Mr. FOGLIETTA. I thank the gentleman for yielding.

Mr. Chairman, I rise in opposition to H.R. 4481, the Defense Savings Act.

As we debate this military base closure legislation, I would like to point out some misconceptions regarding its effects.

The first is the misnomer: "The Defense Savings Act of 1988." This is not true; in fact, this legislation, if enacted, will not save the taxpayers $1.

Our greatest economic threat is the bloated budget deficit. Instead of using the alleged base closure savings for deficit relief, the money will simply be used to fund other defense projects. While testifying before the Committee on Armed Services, Secretary of Defense Frank C. Carlucci admitted that the money will be transferred to "higher priorities." When I asked if that meant more money for example, for SDI, he answered "Yes." That is outrageous. Deficit reduction should be our highest priority, not funding redundant, wasteful weapons systems. I believe defense spending is adequate already, any savings should go toward shrinking the deficit or funding domestic programs already cut to the bone.

Furthermore, let us not delude ourselves into thinking that closing bases saves very much money at all. The functions must be relocated, possibly costing even more money. Environmental cleanup and economic assistance, which I fully support, will cost still additional money.

I am also apprehensive of Pentagon claims that closing bases stimulates employment. While true in some cases where the property was utilized most efficiently, many communities are still reeling from the base closings of the 1970's. It is interesting to note that out of the 3,600 military bases which were closed during the 1960's and 1970's, the Pentagon has only listed 100 examples of economically stimulated areas.

This legislation is too important to be fraught with such uncertainties—communities will suffer, and budget savings are iffy at best, the deficit will not shrink. We must go in with our eyes wide open. Which we are not doing here today.

Mr. DICKINSON. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. FOGLIETTA].

Mr. Chairman, will the gentleman yield?

Mr. FOGLIETTA. I yield to the gentleman from Alabama.

Mr. DICKINSON. I wonder if I misunderstood the gentleman when he was quoting Secretary Carlucci. Mr. Chairman, did the gentleman intend to say that the savings from the closing of the base might be used for any other purpose but not the money that was recouped from the sale of property? Because there are two sums of money here. One has to do with that from the sale of property, whatever is realized from that would be held for other cleanups, pollution, and so forth. But it is my understanding that these funds would not go into the general fund or the General Treasury.

Mr. FOGLIETTA. No.

Mr. DICKINSON. What the gentleman meant is the projected savings after the closure and not the funds being manipulated.

Mr. FOGLIETTA. The funds that would be used for the closing of that base, we are not talking about that. We are talking about the net savings from the closing of bases would not be used for deficit reduction, would not be taken out of the military budget, in his opinion, would not be used for deficit reduction, would not be used for other programs but would be used for programs within the Department of Defense.

Mr. DICKINSON. I thank the gentleman for making that clear.

Mr. Chairman, I yield 3 minutes to the gentleman from Virginia [Mr. BATEMAN].

Mr. BATEMAN. Mr. Chairman, I thank the gentleman from Alabama for yielding the time.

Mr. Chairman, I rise in support of the bill now pending before the Committee of the Whole in the form in which it now exists. I do that because I think there is a legitimate case that has been made that we need a procedure, a mechanism by which sound and rational judgments may be made on the alignment and operation of military facilities throughout the United States and for that matter throughout the world.

I am willing to support the bill that comes to us as the product of the several committees which have worked upon it and brought it to the floor. I think it is reasoned. I think it is realistic, I think it requires certain things to be taken into consideration which inherently either must be taken into consideration or we rush to enacting something which is not going to save ourselves money but which is going to cost the taxpayers of America perhaps a great deal of money.

There is no witness who appeared before any of the committees dealing with this bill who did not indicate that in the short-run it costs money to close military reservations. There is no immediate short-term savings.

The savings, where it is a potential for savings, comes from long-term cost avoidance. Now if we are going to look at bases throughout the United States and make decisions based upon a sound and comprehensive cost analysis, then I can support such efforts. But legislation which says, in effect, to a commission, as much as I respect that commission, "You make your analysis but you are not mandated to take into consideration all of the elements that ought to go into a sound analysis," I cannot support. The bill before you does require not a short-term, not a restricted view, "would closing this base save money for the Department of Defense?" without regard to how much other departments of Government might be required ultimately to expend because of closing their military facility. I want all aspects of the equation which have a proper bearing on the sound analysis of potential savings, actual savings, actual additional costs incurred in relocation and replacement, I want all of these things considered.

When, if and as they are required by a bill, I support it. Short of that, I certainly cannot and would say to my colleagues that you would have been abdicating an incredible responsibility to an administrative agency, to the Department of Defense, that would be a dereliction in our duties if we did not impose upon the administration and the commission standards and guidelines which would be acceptable.

Mr. HERTEL. Mr. Chairman, I yield 3 minutes to the chairman of the Committee on Veterans' Affairs, the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Chairman, I would like to reserve my right on final passage as to how I will vote on this bill until we see how the amendments come out and what is adopted.

Mr. Chairman, I would like to say though I support the so-called Brooks amendment. I like what the Committee on Rules did on protecting the House on approval of this resolution and what the Governmental Affairs Committee has done.

I certainly oppose the Armey substitute and also the Kasich amendment. However, I do want to commend the gentleman from Texas [Mr. ARMEY] for his persistence and hard work on this legislation coming to the floor. However, I really do not think this legislation is necessary.

I want to point out to my colleagues I do serve on the Committee on Armed Services. The Secretary of Defense has the authority without notifying Congress to close any base he wants to that has less than 300 civilians working on that base. Also, the Secretary of Defense has the authority, he can notify Congress in most cases, but he has the authority to close bases who have 300 civilians or more.

□ 1245

Mr. Chairman, here is the way they can do it, and he is doing it now; he is contracting out. He is getting rid of the military personnel on these bases, and he is putting civilians in there. That reduces the size of the base.

The Secretary of Defense has the authority to transfer Air Force wings, Army divisions, regiments, and battalions out of a base, out of a camp, or out of a fort, and move those regiments wherever he wants to. So he has the authority of moving units off of bases.

Quite frankly, this legislation is not necessary. I ask the Members to not take my word for it. They should ask other Members around here today if they have had base closings, and they would be surprised at the number of bases that have been closed in this country in the last few years.

Mr. Chairman, I close by saying this: if some Members have bases they want closed in their States, if they will come forward and tell us, then probably we will not even need this legislation.

Mr. HERTEL. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. BUSTAMANTE].

Mr. BUSTAMANTE. Mr. Chairman, today we are considering a clever setup that is supposed to avoid the pitfalls of politics which tends to get in the way of cost-efficient government. Proponents of this bill feel they have suddenly found a way to save billions of defense dollars by relieving Congress of its responsibilities to deliberate the major national security and economic implications of military base closings. This bill relegates Congress' responsibility to a bipartisan commission already appointed by the Secretary of Defense.

Mr. Chairman, while I oppose this bill because it will strip the affected people of a voice on base closings, I commend my colleagues in the Armed Services and Government Operations Committees for improving this bill.

Since I support initiatives for a frugal and cost-efficient Government, I wonder why under the Armey substitute such a clever solution is only being applied to a narrow area of potential defense savings. The substitute limits the Commission's review of the military usefulness of bases to those inside the United States. The cost of our overseas bases amounts to $35.5 billion this fiscal year and $37 billion next year. These are not negligible costs and should also be reviewed. In addition, the future viability of our overseas bases need to be taken into account when we consider closing bases inside the United States. If we do not take such factors into account, we will fritter away the bill's purported savings.

If we are to really address wasteful programs of questionable value to our national security, we need to include in a Defense Savings Act not only obsolete military installations but also wasteful and ineffective weapons programs. It is just as difficult, if not more difficult, to cancel a bad weapons program than close an unneeded military base. One only needs to look at the strategy of defense contractors for assuring the future of a program by having work on the project performed in all the 50 States. Why, then, have the proponents of this legislation not included weapons systems in their efforts to save defense dollars? I am sure there are more dollars to be saved in weapons procurement than in military bases. I hope that it is not because bases are more expendable than businesses and that Government employees are less important than private sector employees.

Mr. Chairman, we need to make sure that the legislation's purported savings are as real as its impact on the affected communities. While many smaller savings schemes have failed to materialize in the past, the consequences of this one to the socioeconomic well-being of many of our communities should require everyone to pause and reflect before taking a leap. I urge my colleagues to oppose this bill.

Mr. DICKINSON. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Arizona [Mr. KYL].

Mr. KYL. Mr. Chairman, today we have an opportunity. We have an opportunity to save taxpayer dollars; we have an opportunity to make defense more efficient; and, we have an opportunity to show that Congress puts the national interest above parochial interests.

We can do that best today by supporting the Armey version of the base-closing legislation. As between the two versions of the bill, the Washington Post in its lead editorial this morning concluded that the Armey bill was the better of the two approaches. As the Post pointed out, "The basic problem is the disposition in Congress to treat the military budget as pork."

Mr. Chairman, in fatter days, the Members of Congress might have been able to rationalize spending money to keep questionable facilities open, but how can it be rationalized today when defense budgets are experiencing annual real reductions averaging 5 percent a year since 1985? We are shortchanging the men and women in the military services by unnecessarily spending $2 to $5 billion a year. That is the amount of estimated savings under this legislation.

That money could be put to better use, for compensation for the men and women in the service, for providing them better training and equipment, or for nondefense needs, or maybe even reducing the Federal budget deficit. Do we remember that problem?

It is said that the Secretary of Defense can close bases or contract out, and that is the way we can save money. But the same people who oppose closing bases oppose contracting out. So we are not saving money. It is obvious that Congress will not close bases and will not allow bases to be closed. None have been closed since 1977. It is too politically difficult, and we all know that.

Defense should not be used as a community development or jobs program. The Department of Defense is not a public works program. It is important for the defense of this country to do everything that should be done, nothing more and nothing less. Bases obviously should exist solely as a function of whether they serve the national defense, not their immediate impact on the local economy.

Frankly, I am disappointed at some of the provisions in the committee bill that we are considering, and I would ask my colleagues who support a strong defense especially, do they understand that defense is suffering today because the American taxpayer does not support it? And the reason the American taxpayer does not support more spending for good defense is because the American taxpayer knows we are wasting money. And one of the places where he knows we are wasting money is in keeping inefficient and obsolete bases open.

Let us look beyond our short-term parochial interests to the national interest. This is the way to generate more support for defense. Without reform, I am concerned that we will never have the support of the American people to do what we should with defense.

In my concluding moments, let me point out one or two differences and problems with the committee bill, as opposed to the Armey proposal. I do not think we are fooling anyone when we say we are all for closing obsolete bases, but then we attach so many preconditions to it that we know we are never going to end up closing the bases. One of these is the difference between automatic closure, which would occur under the Armey proposal, and the provision that is in the committee bill that would require Congress to affirmatively act. Who among us believes that we will actually close bases if we have to affirmatively act? That is the current law.

The CHAIRMAN. The time of the gentleman from Arizona [Mr. KYL] has expired.

Mr. ASPIN. Mr. Chairman, I yield 3 minutes to the gentleman from Arkansas [Mr. ALEXANDER].

Mr. ALEXANDER. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, as a member of the Military Construction Appropriations Subcommittee, I have followed the issue of base closings for about 6 or 8 years intensively, and even before then, as a Member of Congress, I was very interested in the issue of base closings.

It may be somewhat encyclopedic, I suppose, to advise Members that in 1969 some military bases were closed. In fact, I recall, when I first arrived as a newly elected Member of Congress, the Secretary of Defense recommended that a naval training reserve center in my district be closed, and after conferring with many of my constituents in Helena, AR, they agreed that it was a waste of money to maintain that facility, and we agreed that it should be closed. In contrast, Eaker Air Force Base in Blytheville has always been regarded as a vital part of America's defense structure. The 97th Bombardment Wing at Eaker Air Force Base won the coveted Omaha Trophy, which is annually awarded to the best unit in the Strategic Air Command. This honor again demonstrates the excellence of Eaker Air Force Base.

So it is not without some reasonable response that Members of Congress approach this issue, even though it is a political one and even though it may be extremely volatile in our various districts to address that question when it affects us directly. All Americans want to eliminate waste and duplication and unnecessary spending, and so do we in Congress as we approach these issues.

The gentleman from Texas a minute ago mentioned that base closings alone do not solve the problem of expensive military preparedness. The balancing of global commitments against the willingness of taxpayers to pay for the national defense is a vital issue. After all, if we close a base, we still have the units involved, which are 72 or 75 pecent of the cost, and ostensibly they would be transfered to another facility somewhere else, and that does not address the question of manpower levels and equipment costs, and so on, that are involved.

Frankly, I do not know why it is necessary to create another commission. Like several speakers before me, I am somewhat ambivalent about a new commission for this purpose, and will reserve my judgment on how to vote until I see what the full content of the bill is after the debate. When Congress or the administration has an issue that it cannot resolve, it seems that we resolve it by establishing a commission. I do not think the Secretary of Defense really needs a commission, and the only thing I can say as a Member of Congress who wants to fulfill my responsibility on these issues of national defense is that I am somewhat reassured that the process of allowing Congress to approve or disapprove recommendations that may be made by the proposed commission still remains intact. I appreciate the work that has been done by the numerous Members on this issue.

Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. DICKINSON. Mr. Chairman, I yield 4 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Chairman, probably the most important element of this legislation is the formula that we use to close bases down. When Mr. Weinberger was the Secretary of Defense, the Department took a list of 22 military bases, and what they tried to do to determine whether a base should be closed down was, they said, "We don't want to expend more money to close a base down than we save. So, therefore, we have to have some formula that says if we can save money during a certain period of time, more than the cost of closing the base down, then we will close the base down. If the cost of closing the base over some period of time is greater than the savings, then we won't close the base down."

What were the costs involved? There were about three of them. One of them was an environmental survey to decide what was actually located on the military base. Another one was the cost of building new facilities, because when you close an old base down and you have to transfer people, there is a cost associated with new facilities.

The third one was the cost of actually transferring people. Now, when you add those things together, you take these 22 bases and you see that each of these 22 bases has a different time period when the savings will outweigh the cost of closing it down. Now, when you average these 22 together, you find out that the average period of time that it takes to make savings, when the savings overwhelm the cost of closing, is 6 years. That was an average, and that was a goal.

The Congress then took this average or this goal of 6 years and mandated it into law and said, if we could not save money within a period of 6 years—when I say, "save money," what do I mean? I mean the savings from not operating the base, because there are operation and maintenance costs—what we did was, we said, if we cannot close it in 6 years, we do not close it at all.

That would not have been so bad, but then what happened was that we recognized that there was a legitimate problem with the environment, that what we could not do would be to take a military base and close it down and burden communities with the cost of an environmental cleanup.

So the Armed Services Committee then added an amendment stating that when closing a base, we have to calculate in the cost of an environmental cleanup. Now, if we do that and we add a major cost that the Pentagon did not originally calculate in the formula, we are then limiting the number of bases that will be closed. Of these 22 bases, only one-half of them would be closed when we add in the environmental cleanup costs.

□ 1300

Now many people would like to strip those environmental cleanup costs out of the formula. Frankly, it is probably the best way to go, but it is not what would sell on this House floor, and it does not represent our concern about what we do to help local communities resolve their environmental problems.

Now what we did by adding in environmental cleanup costs was to dramatically increase the time period it will take to make savings to offset the cost of closing the base. What we did is we took the same list of the 22 bases, and we added in the environmental cleanup costs, and we came out with another average, and that average is 13 years.

What we are doing is, we are recognizing the vital aspect of environmental cleanup. We are providing that we will help local communities in environmental cleanup, but that we will make the formula for closing bases realistic. And that is why it is necessary to extend the period of time in which we calculate cost savings from 6 to 13 years. Without extending the total amount of time that we calculate cost savings, we might as well take the bill and throw it away because it has no impact.

So, those who are in favor of meeting environmental concerns, community concerns, economic concerns, retraining concerns, should support the Kasich amendment that provides for a 13-year calculation on cost savings.

Mr. Chairman, I am happy to yield to the gentleman from Wisconsin [Mr. ASPIN], the chairman of the Committee on Armed Services.

Mr. ASPIN. Mr. Chairman, I believe that the gentleman in the well, Mr. KASICH, has a very, very important amendment here. We will debate it further in the day, but it is a very important amendment that we ought to pass to this bill that we are considering here today.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from New York.

Mr. MARTIN of New York. Mr. Chairman, the gentleman from Ohio [Mr. KASICH] is making a very important contribution, and we have discussed this on and off the floor on many occasions, but, to make it perfectly clear, to agree what the gentleman is doing is trying to increase the number of bases that could be considered in this alignment and at the same time insuring that those bases that do have environmental problems will not be kept open just because they have an environmental problem.

Mr. KASICH. Mr. Chairman, the gentleman from New York [Mr. MARTIN] is absolutely right. If we do not approve this 13-year provision, the bill is meaningless, and those who will oppose this 13 years really do not want to close bases down. This is an effective effort to try to take care of these concerns and yet still have an ability to close down a great number of bases. Without the 13-year provision my colleagues know that we do not have much of anything, and the gentleman is exactly right.

Mr. Speaker, I will reluctantly yield to the gentleman from Michigan [Mr. HERTEL] who is opposed to the basic concept of the bill.

The CHAIRMAN. The time of the gentleman from Ohio [Mr. Kasich] has expired.

Mr. ASPIN. Mr. Chairman, I yield 3 minutes to the gentleman from Michigan [Mr. Hertel].

Mr. HERTEL. Mr. Chairman, I just want to clarify that the amendment of the gentleman from Ohio [Mr. Kasich] is not discussed at all in the Armey substitute. Is that correct?

Does the Armey substitute deal with these environmental questions the gentleman has just——

Mr. KASICH. Mr. Chairman, will the gentleman yield?

Mr. HERTEL. I yield to the gentleman from Ohio [Mr. Kasich].

Mr. KASICH. The Armey substitute takes out all the environmental language.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. HERTEL. Mr. Chairman, does the amendment of the gentleman from Texas [Mr. Armey] or his substitute—I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, my substitute accepts the provisions included in all three committees for modified waiver or NEPA. All environmental language for performance in cleanup that we have in all environmentals are still in effect. The only thing we do is remove the threat of extended lawsuits in the NEPA provisions.

Mr. HERTEL. I do not have a base in my district, Mr. Chairman. I come to this legislation though because of my concern about the communities that might be left in pain because of the operation of our actions that we take today.

I am in favor of closing bases, but I want to do it properly. We have pockets of high unemployment in this Nation. I do not want to see more, and I think the next Democratic administration will change that. A simplistic approach like Gramm-Latta cannot be taken. One must address the questions, and in this committee bill I address two.

One is that we would say that Congress would clean up all the toxic waste that is left behind when a base is closed. Fine. Close the base, but clean up the toxic waste so the communities are not left with it. That is not in the substitute.

Second, I would say where we have areas of high unemployment that we create new ones by closing a base. Give the people a break. Give them just a chance. Have the Department of Defense do community planning with those communities to try to find new industries to take the place of the jobs lost and train those people that are thrown out of jobs and unemployed.

Mr. Chairman, that is all we ask in the committee approach. Give those communities a break. Close the bases, save the money, but be honest and straightforward with those communities.

Clean up the toxic waste now, and, second, help the unemployment.

Mr. Chairman, I yield on that point to the gentleman from Texas [Mr. Armey]. Does he favor helping the unemployed?

Mr. ARMEY. Mr. Chairman, yes, I do.

Mr. HERTEL. Mr. Chairman, is the substitute of the gentleman from Texas [Mr. Armey] designed to help the unemployed?

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. HERTEL. I yield to the gentleman from Texas [Mr. Armey].

Mr. ARMEY. Mr. Chairman, the Department of Defense does have an economic adjustment provision, and it will be, of course, utilized to help the unemployed.

Mr. HERTEL. Mr. Chairman, I reclaim my time.

The Department of Defense does not always do that. We only stipulate that they shall do it in every case to help with community planning and help and train the unemployed. The current law does not do that, and the substitute of the gentleman from Texas [Mr. Armey] does not address the question of the unemployed that will be harmed by the base closure.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. HERTEL. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, my substitute gives communities all the protection and assistance of current law. In addition——

Mr. HERTEL. Mr. Chairman, I reclaim my time.

Mr. Chairman, I just pointed out that the current law does not guarantee any help for the unemployed and does not guarantee community planning for those people thrown out of jobs where they have a high rate of unemployed.

The CHAIRMAN. The time of the gentleman from Michigan [Mr. Hertel] has expired.

The gentleman from Wisconsin [Mr. Aspin] has 2 minutes remaining. The gentleman from Alabama [Mr. Dickinson] has 1½ minutes remaining.

Mr. DICKINSON. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, I would just like to say in closing that in answer to the gentleman from Michigan [Mr. Hertel] who just spoke that we already have in the law a provision for economic impact; I mean that feature is already in the law, but it is a very spurious argument to vote against the whole bill for that reason.

Mr. HERTEL. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON, No, Mr. Chairman. I have 1 minute left, and I am going to take it.

But to say we are not going to close the base anywhere because it might create undue hardship and unemployment, that is really not a very valid reason because it has already been addressed in the law today.

Mr. HERTEL. Mr. Chairman, will the gentleman yield on that point for one sentence?

Mr. DICKINSON. I yield to the gentleman from Michigan.

Mr. HERTEL. Mr. Chairman, only 15 percent of the communities where bases were closed in the past got such assistance. That answers the question. The current law does not protect these people.

Mr. DICKINSON. Mr. Chairman, getting to current law, the gentleman from Mississippi says that the Secretary of Defense already has the right to close bases. That is true, but there is not one base that we have been able to close in 12 years, not one. He said that a lot of them have been closed recently, but he cannot name one.

Now why is that, Mr. Chairman? Because the gentlemen on this floor and the gentlemen on the Senate floor know that all that has to be done is put a little proviso in the appropriation bill that says no money appropriated in this bill may be used to transfer an air wing, may be used to close a base, may be used to do any of the things we are trying to do. Base closures can and have been stopped by the appropriations process.

The CHAIRMAN. The time of the gentleman from Alabama [Mr. Dickinson] has expired.

Mr. ASPIN. Mr. Chairman, I yield the remaining 2 minutes to the gentleman from Texas [Mr. Ortiz].

Mr. ORTIZ. Mr. Chairman, the subject of base closures is one that deserves the careful consideration of the House. What we do today will not only effect the Department of Defense and its structure, but also the lives of thousands of Americans.

Although most of us support the admirable goal of closing unneeded military facilities and saving taxpayer dollars, we must not lose sight of the potential impact of base closures on the communities that support our Nation's military structure.

I, for one, am intimately aware of the impact on a community of a sudden closure of a major military facility. Several years ago, the Department of Defense made a decision to close the Corpus Christi Army Depot, the largest industrial employer in the area. Literally, hundreds of people were put out of work in one stroke. Every family in the community was affected by this decision, either because a family member worked at the depot or like many others who could no longer sell their products. The impact on the community could not have been more devastating.

In this bill, we have worked to try and prevent what happened in Corpus Christi from happening again. The text of the bill includes many provisions important to the protection of communities that may be affected by this legislation. We have put in safeguards such as ample time for notification, economic impact studies, foreign base consideration, economic assistance to affected communities, and congressional review.

Without these provisions, I could not even consider supporting base closure legislation. As it is, I have many reservations.

I support the inclusion of language requiring a congressional resolution of approval before any base closure action can be initiated. I believe that it is imperative that the Congress have the final voice in base closure decisions and I comment the chairman of the Government Operations Committee, JACK BROOKS, for his diligent efforts to include this provision in the bill.

I also comment the efforts of the chairmen of the House Armed Services Committee, the Merchant Marine and Fisheries Committee, and the Rules Committee for their efforts to fairly consider all of the concerns of the Members of the House.

The concerns are valid. We must be sure that the savings are real, the communities are protected, and our defense is enhanced. I urge us all to listen carefully to the debate. This may well be one of the most important votes of the year.

The CHAIRMAN. All time for the Committee on Armed Services has expired.

The gentleman from Texas [Mr. BROOKS] will be recognized for 22½ minutes and the gentleman from New York [Mr. HORTON] will be recognized for 22½ minutes.

The Chair recognizes the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I yield myself 7 minutes.

Mr. Chairman, H.R. 4481 would establish an unprecedented and untested mechanism for expediting the identification and closure of military installations that no longer fit our national defense posture. A Commission on Base Realignment and Closure, appointed by the Secretary of Defense, would review all U.S. military installations over the next few months and report to the Secretary on those that should be closed or whose functions should be realigned.

Under the original proposal, if the Secretary accepted the Commission's recommendations, he would then begin the closure and realignment process. There would be no participation by the legislative branch after passing the bill; even the account set up to fund the closure and realignment activities would be isolated from the normal authorization and appropriations process.

Mr. Chairman, the removal of the Congress from the original base closure commission scheme was no accident. In fact, it lies at the heart of the philosophy behind H.R. 4481. The bill is expressly designed to circumvent the legislative process, because it is felt that the political pressures that are a natural part of that process have traditionally thwarted the shutdown of military bases that have outlived their usefulness.

Unfortunately, getting base closures out of politics by this scheme also gets them out of the constitutional process of Government. It is the Constitution that gives the Congress the authority to regulate the management and disposal of property belonging to the Federal Government. It is the Constitution that requires us to "provide for the common defense." And, it is the Constitution that requires us occasionaly to make tough political choices—not to set up Rube Goldberg gimmicks that are purposely crafted to let us avoid making those choices.

That is what H.R. 4481 as introduced would have done. It would have put the base closure decisionmaking process on autopilot, getting Congress off the hook by permitting it to avoid its constitutional duty.

This institutional concern caused the Committee on Government Operations to adopt an amendment to H.R. 4481, putting the Congress back in the process without jeopardizing the underlying goal of an expedited decisionmaking timetable. The amendment specifies that the Commission's report will not take effect until a joint resolution of approval has been passed by both Houses of Congress and signed by the President. The amendment includes provisions that will assure congressional consideration of the resolution—the Congress won't be able to block enactment of the recommendations by sitting on the resolution. It is assured of coming to a vote, and Congress is assured of having a voice in this matter.

The provision for a joint resolution of approval was one component of the consensus amendment in the nature of a substitute that is before the Committee of the Whole today. We reached this agreement after extensive discussions among the four committees with substantive jurisdiction over the base closure issue: Government Operations, Armed Services, Merchant Marine and Fisheries, and Rules. Each of those committees had input into the final product. It includes the Government Operations provisions putting the General Services Administration—the agency with expertise and experience in property management and disposal—back into the game. It includes Armed Services provisions regarding the socioeconomic impact of closures and plans for environmental restoration. It adopts Merchant Marine and Fisheries' recommendations for language limiting the coverage of the National Environmental Policy Act of 1969. And, Rules Committee joined in advocating the provision I discussed earlier which requires an affirmative vote of approval by the Congress before the Commission's recommendations go into effect.

Mr. Chairman, no legislative idea is so pure, so righteous, so logical, that it cannot be improved by going through the process of examination, review, and change by the committees of the Congress. The base closing bill that is before the House today has been subjected to that process and changed by it. The result is a piece of legislation that retains whatever merit the original proposal possessed and is also more workable and more reflective of this body's institutional responsibilities. I urge the adoption of the amendment in the nature of a substitute.

□ 1315

Mr. HORTON. Mr. Chairman, I yield myself 5 minutes.

Mr. Chairman, the original bill that was presented to the four committees, the so-called Armey bill, was and would have been the largest unbridled delegation of legislative authority in the history of this country, because we literally were delegating our authority to the Secretary of Defense, to the staff of the Secretary of Defense, and to the Commission, because what we would have been saying was that the Secretary of Defense would appoint this Commission. The Commission would be staffed by personnel from the Defense Department. They would act by the end of this year, December 31, and whatever action they took would then be placed in effect without any congressional oversight whatsoever.

Mr. Chairman, as one who has struggled to find an acceptable approach to the problem of identifying and closing unnecessary military bases, I am supportive of the language of H.R. 4481 as reported by the Rules Committee and I would urge its approval by the full House. I firmly believe that the committee version offers a better approach, one that keeps intact the concept of executive branch execution and congressional oversight without destroying the laudable intent of the original bill.

As I pointed out a number of times during the Government Operations Committee consideration of this bill, cutting inefficiency anywhere in the Government requires a thoughtful process. This bill, in its current form, will provide for an independent base closure and realignment selection process as well as brief—and I want to stress the word brief—but important judicial and congressional review procedures.

It is important to point out that this measure has been closely examined by four different committees, each with a clear jurisdictional interest in the base closure concept. I firmly believe that we have a better bill because of that scrutiny.

For starters, this is a better product because it keeps the property disposition where it belongs, with the property disposal specialists at the General Services Administration. As the ranking Republican on the Government Operations Committee, I can tell you without hesitation that property disposal should be in the hands of GSA, and not the DOD, which it would have been in the original bill.

If there is anything more important than keeping GSA in the loop during this base closing and realignment exercise, it is keeping the Congress in the loop. While I understand and appreciate the argument to remove politics from the base closure process this one time, I believe that a stronger argument can be made for preserving and protecting the integrity of the Congress as an institution.

I might point out parenthetically, Mr. Chairman, that what we have provided is, as the chairman of the Government Operations Committee just explained, there would be a resolution of approval after the process is completed and it would then be reported to the Congress and then we would have an opportunity to vote up or down. In my judgment, this should be an incentive for those who are opposed to the concept, because it will give the Congress an opportunity to have a voice, an approval, that is, a direct approval. We would vote to approve the product.

I would be opposed to the substitute that the gentleman from Texas [Mr. Armey] will present a little bit later to have it as a disapproval resolution, because that is not the same thing.

The Committee on Government Operations has a long and distinguished history in the fight against wasteful, duplicative, and unnecessary spending. We have identified and eliminated billions of dollars of waste and we have never done it by giving someone else the difficult job that we, the Congress, have the responsibility to do. Congress should play a role in the closing of unnecessary military bases. That is why I like the congressional approval process that is part of this bill. It requires a simple up or down vote, a take it or leave it vote. That is not much, but it at least is going to keep Congress in the loop.

I will be the first to admit that this is not a perfect piece of legislation, Mr. Chairman, but it is one that can work. It is a good compromise. I urge my colleagues to support H.R. 4481 in the form that is now before us.

Mr. BROOKS. Mr. Chairman, I yield 5 minutes to the gentlewoman from Illinois [Mrs. Collins].

Mrs. COLLINS. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in support of the amendment in the nature of a substitute printed in the report of the Committee on Rules as the original text for purpose of amendment. I fully endorse the remarks of the chairman of the Committee on Government Operations, Mr. Brooks. I also compliment him, and the chairman of the Committees on Armed Services, Merchant Marine and Fisheries, and Rules for their wise and careful resolution of the many complex issues of policy, procedure, and implementing authority which this important legislation entails.

As a member of the Committee on Government Operations, I am pleased that the amendment in the report of the Committee on Rules adopts expedited procedures which both preserve the Congress' legislative prerogatives and ensure early votes by both Houses. The procedures are modeled after the general legislation under the jurisdiction of the Committee on Government Operations which delegates reorganization authority to the President. That authority provides for a joint resolution of approval to be passed by both Houses and signed by the President.

As a member of the Committee on Government Operations, I am also pleased that the amendment in the nature of a substitute reported by the Committee on Rules as original text specifiers that the Defense Secretary's use of funds in the base closure account in all cases is to be subject to appropriations, including proceeds in that account received from the transfer or sale of real property at installations to be closed or realigned. This requirement, likewise, is of special concern to the Committee on Government Operations, which is charged under the rules of the House with jurisdiction over measures relating to budget and accounting, overall economy and efficiency of Government operations, and off-budget treatment of Federal programs.

Finally, as chairwoman of the Government Operations Committee's Government Activities and Transportation Subcommittee, I am particularly pleased that the amendment in the nature of a substitute included in the report of the Committee on Rules as original text preserves the real property utilization and disposal role of the General Services Administration in connection with property to be released at bases recommended for closure or realignment.

The original version of H.R. 4481 would authorize the Secretary of Defense to proceed with almost all real property operations incidental to the bill independently of the General Services Administration. And yet, the Federal Property Act provides procedures that have worked successfully for many years in effecting further Federal utilization of excess real property and disposal of surplus real property in all circumstances, including base closures. Hence, any waiver of these procedures with transfer of functions from the independent authority and action of the Administrator of General Services would require the strongest justification. In the case of this base-closure proposal, such justification does not, in my opinion, exist.

I strongly urge my colleagues to support the amendment in the nature of a substitute included in the report of the Committee on Rules as original text. It is a product that will do the job with efficiency, with fairness, and with full consideration of the many basic and vital areas of national and governmental concern. Again, I compliment the chairmen of the committees concerned and their staffs for their hard, dedicated work, cooperative posture, and exceptional accomplishment in the form of this amendment.

Mr. HORTON. Mr. Chairman, I yield 5 minutes to the gentleman from Arizona [Mr. Kolbe].

Mr. KOLBE. Mr. Chairman, I want to thank the gentleman for yielding this time to me. I want to thank the members of the committee and the chairmen of the various committees who have considered this legislation for their efforts in its behalf.

Mr. Chairman, I also want to commend the gentleman from Texas [Mr. Armey] for tackling an issue that has stymied Congress and reasonableness for years. As a member on the Military Construction Subcommittee of the House Appropriations Committee, I've looked at the base-closure issue closely. I'm pleased we're debating this topic at all. In particular I'm very pleased that the Rules Committee has allowed Mr. Armey's substitute to H.R. 4481, the Defense Savings Act, to be offered later today.

As originally introduced, H.R. 4481 would depoliticize the closure of unneeded military installations. This would allow DOD to close or realign installations without the threat of congressional derailment. These actions could realize anywhere from $2 to $5 billion in annual savings. Nevertheless, this body has successfully—for 10 years now—prevented the Defense Department from closing any base in the United States. The reasons are obvious: Members' fear of base closures in their own district; a desire for protection of the status quo when it benefits us as individuals.

Many claims are made about waste and mismanagement in the Pentagon. But, when the Defense Department offers a way to reduce spending, Congress rises up in arms. If this legislative body is serious about deficit reduction, it is time for us to take the lead and take advantage of the opportunity the Defense Savings Act offers us.

I strongly encourage my colleagues to vote for this substitute. While it preserves the intent of H.R. 4481, as originally introduced, it has been modified to address the concerns numerous Members have with closing military bases. Bases with obsolete missions or unnecessary functions would be identified by a nonpartisan commission. This blue-ribbon panel would recommend to the Secretary of Defense a list of bases that should be closed. The Secretary would then make a decision to accept or reject the entire list of bases offered by the panel. Through this all-or-nothing approach, Members can be assured that no political retribution could be meted out to an individual Member.

Environmental concerns have also been taken into consideration. Mr. ARMEY's substitute provides for a limited use of the National Environmental Policy Act of 1969, between the time a base closure is begun and completed. In the past, NEPA provisions have been used to prevent base closures by throwing up a smokescreen of complicated environmental impact statements. This is obviously a perversion of what NEPA was intended to do. Mr. ARMEY's bill eliminates the abuse of NEPA as a stalling tactic, by applying the true spirit of the 1969 act: the protection of our environment.

The economic impact base closures would have on communities located near the bases has been taken into consideration in this substitute. Economic adjustment and community planning assistance would be made available to local communities, during the transition period after a base closure. Finally, and most important, this bill ensures that the executive branch will not be able to make arbitrary or capricious decisions about closing military bases. With procedures for a motion of disapproval, Congress retains the right to block base closures by a majority vote. Mr. ARMEY's substitute to H.R. 4481 positively addresses all of the concerns Members have had with base closures.

Comparing it to the version before us, the Armey substitute is certainly superior. Amendments to H.R. 4481 by the Committees on Armed Services and Government Operations—quite frankly—only make matters worse. Under the terms offered by these two committees, politics would not only be reintroduced to the realm of base closures, but would actually be reinforced. The Armed Services version would allow a joint resolution of the Armed Services Committees to block any closures. Furthermore, this version would require the Commission on Base Realignments to publish a tentative list of bases it is recommending for closure. Clearly, these measures do not depoliticize the issue of base closures, but will augment the power of small vested interests to deny our taxpayers billions of dollars in annual savings.

Government Operations would serve to accomplish the same politicization, by making the funds necessary for closing bases part of the annual appropriations request by DOD. Armed Services has also included a provision that states that the commission cannot recommend a base for closure, unless the costs of closing it can be recouped within 6 years. This shortsighted provision would deny us billions of dollars in long-term savings, for the sake of eliminating a few dollars in closing costs today. Far and away the worst provision included in the amendments to H.R. 4481 is the requirement that both foreign and domestic bases be considered for closure. We all know there is not a political problem in closing an overseas base, so this issue, introduced here, is a red herring. Moreover, treaties regulating the establishment and maintenance of military facilities overseas is a matter of foreign policy. While I agree that our allies must assume greater responsibilities in their own defense capabilities, this is an issue that must be dealt with separately. Deficit reduction cannot come at the expense of our alliances with overseas partners.

The final area I want to address, is the myth surrounding base closures. At the mere mention of a base closure or realignment, prophets of doom come out in the communities that will be most affected. But the predictions of these prophets most often do not come to pass. The world does not end with base closures. Economic Armageddon does not result. The period immediately following a closure does have tremendous impact on communities located near the base, but this blow can be softened through economic assistance and with careful planning. Many communities are actually better off once an installation has been closed. The Office of Economic Adjustment's 1986 study demonstrates this. Of some 93,000 jobs lost in 100 base closures since 1961, a total of 138,000 jobs have replaced them.

Take Kinchloe AFB in Kinross, MI. Kinchloe was one of the last bases closed before the O'Neill-Cohen amendment rendered DOD impotent to close any more. When the base closed in 1977, a $36 million payroll and a large percentage of retail sales were lost. The prophets of doom came out, and Kinross was given its last rites. After a brief interim, local politicians and business leaders joined together to develop a new economic base. What resulted was the Chippewa County Economic Development Corp., which allowed this rural Michigan community to compete nationally for new industry. Almost 1,000 workers are now employed at the former Kinchloe AFB, one-third more than were employed by the military. More than 40 companies are now located on the former base facility. Low-operating costs, along with the annuities that come with an active military installation, have made Kinchloe a very attractive place for industry.

Mr. Chairman, I hope my colleagues will support the Armey substitute to H.R. 4481 when it is offered later today. I strongly support Mr. ARMEY's version of the bill, and will cast my vote in favor of it. The gentleman from Texas [Mr. ARMEY] has done an admirable job to ensure that in these times of fiscal reduction, the fat can be trimmed without hurting the bone. The Armey substitute represents a step in the direction of deficit reduction, and should not be passed up.

□ 1330

Mr. HORTON. Mr. Chairman, I yield 3 minutes to the gentleman from Arizona [Mr. KYL].

Mr. KYL. Mr. Chairman, I serve on both the Committee on Government Operations and the Committee on Armed Services, so I have had an opportunity to view and participate and hear the debate in both of these committees.

I want to speak just on one provision of the Committee on Government Operations version, which I think is less effective than the Committee on Armed Services version, and that is the specific provision which would require congressional approval, an affirmative vote of approval rather than allowing the Commission's recommendations to become law unless disapproved by a joint resolution of the Congress. With great respect for my colleague, the gentleman from New York, the ranking member of the Committee on Government Operations, who said that this is an unbridled delegation of authority to a commission, I would say not unbridled but, yes, a delegation. I would like to address both of those points.

First, it is a delegation of authority, and the reason that both versions of the bill delegate the authority to the Commission is because we know that Congress will not on its own permit bases to be closed. Experience shows that. We all know that, because we do not have the political courage to vote against the interests of our own districts in favor of the national interest, and, or course, there is an awful lot of backscratching that goes on. As a result, since 1977, there has been no major base closed in the country. That is why both sides agree there has to be delegation.

Let us talk about unbridled delegation. There are many safeguards built into the Committee on Armed Services version of the bill. The first has to do with the politics. Under the Armed Services Committee version, Congress has the authority to disapprove the recommendation of the Commission. That is a safeguard that keeps politics from the executive branch or the Commission playing a part here, and it permits the Congress to correct a mistake. But to turn that around and say that Congress must affirmatively vote to close the base is to ask Congress to do something it has not been willing to do for the last 11 years, and it is not going to do it in the future.

The environment—there are plenty of environmental safeguards here. It still requires an environmental impact statement, not before the recommendation, but after the recommendation. Anybody can file a lawsuit within 60 days challenging the adequacy of the NEPA statement and presumably tie a project up forever if they wanted to do so. There is also plenty of environmental protection on the matter of restoration costs. We are providing for restoration costs, and I believe the Kasich amendment, which would stretch that amortization to 13 years, is critical to the workability of this bill. I hope that all of the Members, my colleagues, will support the Kasich amendment for a 13-year amortization.

Finally, we have the socioeconomic impact statement that my colleague, the gentleman from Arizona [Mr. KOLBE], just mentioned. We have all three bases covered—the political, the economic, and the environmental. We have protected the interests of the people in the local communities in which these bases are located.

It is time for us to protect national interests and the taxpayers' interests.

Finally, some have expressed great concern about the loss of jobs. First, the studies have shown there is a net increase in jobs when bases are closed, not a loss. Second, and let us understand this, jobs are not the business of the Department of Defense. Defense is.

Mr. Chairman, as the lead editorial of the Washington Post said today:

> The House has a pretty clear choice to make. The defense budget should not be used as an employment program.

Mr. HORTON. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. ARMEY].

Mr. ARMEY. Mr. Chairman, I thank the gentleman for yielding. I appreciate having this time to speak to a "Dear Colleague" letter that came out yesterday under the signature of the distinguished chairman and the ranking member of the Government Operations Committee.

Obviously there is a great deal of confusion about this bill and its several variations, because, in fact, it has been marked up by four separate committees, and there have been variations in process.

The "Dear Colleague" letter that went out addresses the substitute amendment which I will offer later today, and it says that my substitute will not provide for further involvement or revisiting of the issue by Congress. That is not the case. In my substitute, I take those provisions for disapproval that were in the Armed Services version. The "Dear Colleague" also says it is likely that there will be a multibillion-dollar base closing account. That is not likely. The base-closing account will have approximately $300 million in it. The "Dear Colleague" also says that in my substitute we make no provision for the General Services Administration to handle the disposal of the land. I am happy to tell the distinguished chairman and the ranking member that we agreed, as we framed up our substitute, that the point of the gentlemen was absolutely right, and we adopted a GSA provision into our substitute.

Hopefully, the Members will find my substitute much more to their liking as they have an opportunity to see the whole thing.

Mr. BROOKS. Mr. Chairman, will the gentleman yield?

Mr. ARMEY. I am happy to yield to the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, let me say to my distinguished friend it was my understanding that the original bill that he had had a $300 million fund for these transfers and realignments, and that into that fund also would go the proceeds from the sale of those bases, and that fund could well be over the $300 million.

If the gentleman were to say, and I will not name any to make people nervous, but if a couple of those good bases were sold, one might get $1 billion for some of them where they are well located, and I am thinking of several that I will not mention on either coast of this country, where the land is very valuable, and that fund could well be into the billions.

Mr. HORTON. Mr. Chairman, I yield 5 minutes to the gentlewoman from Maryland [Mrs. MORELLA].

Mrs. MORELLA. Mr. Chairman, I rise in opposition to the bill as presented and in support of the Armey substitute.

In recent years the American people have been engaged in a fierce debate over the national debt and the budget deficit. They have looked to Congress for action, for solutions, but they have seen little progress. Whatever we in Congress believe, the fact is that the perception among average Americans is that we are all talk and no action. Today we are presented with a clear opportunity to demonstrate to the American people not only that we understand their concern, but that we are taking firm and visible action to tackle the problem.

The issue here is not one of slashing the Defense budget, as some would advocate, or slashing domestic programs, as others would advocate. We have today the opportunity to slice fat—wasteful spending—from the budget.

The bill which we are presented with guts the original intent of Mr. ARMEY's legislation, which was designed to streamline base closing procedures and ensure that no base would be closed or kept open for political reasons. Instead, we are faced with a bill, and proposed amendments, which may make it even more difficult to close obsolete bases by complicating the base closing process and encouraging political maneuvering. Recent history has shown that Congress is not capable of making these decisions.

As has been stated earlier, as many as 400 of our 4,000 military installations are superfluous, serving no useful military purpose. One of the best known examples is Fortress Monroe, a moat-surrounded relic from the War of 1812. Such a setting might make for an excellent theme park, contributing to the economic development of the area. Utah's Camp Floyd, built in 1857, clearly no longer serves the purpose for which it was established; namely, to protect stagecoaches crossing the frontier from bandits and Indian raids. There are countless other such examples.

Yet no major base has been closed since 1977, although 13 have been created in the ensuing decade. In 1977, Congress began requiring the Department of Defense to provide an environmental impact statement on proposed base closures. Members have also added amendments to annual DOD authorization and appropriations bills to block specific closure proposals.

Earlier this year, Secretary of Defense Carlucci appointed a nine-member commission of military experts to prepare a list of unneeded bases; the commission is expected to report at the end of the year. In an effort to overcome the political obstacles to base closures, a proposed amendment to the fiscal year 1989 Defense authorization bill—H.R. 4264—would have empowered DOD to close the bases identified in the report without further congressional action. I supported that amendment.

The amendment was not made in order however, because it was agreed that the appropriate committees should first have an opportunity to review the bill—H.R. 4481—which I have cosponsored. On June 10, the House voted 330 to 0 to instruct conferees on H.R. 4264 to adopt language similar to that in the version of H.R. 4481 reported by the Armed Services Committee. Similar language was included in the Senate-passed version of the Defense authorization bill.

The Armey substitute, which will be offered later and which I support wholeheartedly, would permit Congress to disapprove the base closing committee's report under expedited procedures, rather than requiring congressional approval of the commission's recommendations. No action would be initiated before January 1, 1990, thus allowing for congressional review and assuring adequate notice to affected communities. It would drop cumbersome and overly burdensome requirements for socioeconomic analyses and environmental restoration plans. It would keep the commission's focus on domestic bases rather than creating new conflicts by expanding the legislation to include overseas facilities.

The Armey substitute is indubitably the better bill. It is supported by a whole plethora of organizations, including the American Conservative Union, Business Executives for National Security, Citizens for a Sound Economy, the Council for Citizens Against Government Waste, the National Tax Limitation Committee, the National Taxpayers Foundation, the Heritage Foundation, and countless others. In addition, the bill has been endorsed by newspaper editorial boards ranging the political spectrum, around the country, and some of these editorials have been cited today in debate.

The Armey substitute will save between $2 and $5 billion a year; it will help reduce the budget deficit; and it will show the American people that we in Congress understand their concerns about the budget and that we are taking concrete and effective steps to combat this problem.

I urge Members to join me in opposition to the bill and in support of the Armey substitute.

Mr. BROOKS. Mr. Chairman, I yield 3 minutes to the gentleman from Wisconsin [Mr. KLECZKA].

Mr. KLECZKA. Mr. Chairman, I am pleased to join the Honorable JACK BROOKS, distinguished chairman of the Committee on Government Operations, a committee on which I have the honor of serving, in urging my colleagues to support the consensus version of H.R. 4481.

During the course of the Government Operations Committee's extensive hearings and markup of this legislation, we added a number of excellent provisions.

Working with our friends on the Armed Services and Merchant Marine and Fisheries Committees, we have compromised our differences and, I believe, considerably strengthened the original bill.

The major improvement from the original bill is our addition of congressional particiption in the base closure decisionmaking process. I strongly support the provision which requires the adoption of a joint congressional resolution of approval before the Base Closure Commission's recommendations can go into effect.

I oppose any efforts to weaken Congress' vital role by replacing this strong check on any political mischief by the President or the Secretary of Defense with a mere motion of disapproval.

I also support the provision that makes the General Services Administration responsible for disposal of any bases which are to be closed. This only makes sense as the GSA is the agency which performs this function for all other Government property.

Finally, I favor the compromise language in the bill which promotes regional equity in the closing of military bases. Regional equity is important to me because my home State of Wisconsin is the fourth lowest State in terms of defense spending return on the Federal taxes we pay.

According to the Northeast-Midwest Congressional Coalition, of every dollar Wisconsin pays in taxes, we only get 32 cents back in total defense spending and only 22 cents back in Defense Department salary and wages.

While I am not arguing that each State should get an equal share of Pentagon contracts, a more even regional distribution of defense bases and personnel would be socially fairer and militarily wiser.

A strong national defense requires that we expedite legitimate base closures. A strong national defense also requires Congress to help guarantee that the right bases are closed and closed in such a way that our whole Nation benefits.

As a Member from a district without any military bases, I think I can objectively say that the consensus version of the Defense Savings Act succeeds on both counts.

□ 1345

Mr. HORTON. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. DREIER].

Mr. DREIER of California. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, many Members over the past several years have been accused of supporting every gold-plated weapons system to come down the pike. We also have received a number of criticisms from people in the press and from our political opposition that we have continually just written a blank check to the Pentagon.

Today we have an opportunity to once again, prove that that perception is wrong. While I have supported the amendment in years past offered by my friend, the gentleman from Kansas [Mr. GLICKMAN], which would have brought about a modest cut in the buildup, and I have also supported the concept of defense sharing, especially for West Germany and Japan. Today we are in a position where we really have a chance to take the 4,000 military bases in this country and bring about what I hope will be a modest, bipartisan responsible proposal that can actually bring about a reduction in the number of those bases.

I strongly support the substitute being offered by my friend, the gentleman from Texas [Mr. ARMEY], and urge my colleagues to vote in favor of it.

Mr. HORTON. Mr. Chairman, I yield back the balance of my time.

Mr. BROOKS. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The gentleman from North Carolina [Mr. JONES] will be recognized for 15 minutes and the gentleman from Virginia [Mr. BATEMAN] will be recognized for 15 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in strong support of the National Environmental Policy Act [NEPA] provisions found in the substitute amendment to H.R. 4481, that is made in order as the original bill under the rule and in the substitute that will be offered by Mr. ARMEY.

H.R. 4481 was introduced on April 28, 1988, by Mr. ARMEY, for himself, Mr. ASPIN, and Mr. DICKINSON, and was referred to the Committees on Armed Services, Government Operations, and Merchant Marine and Fisheries.

H.R. 4481 was referred to the Merchant Marine and Fisheries Committee because of the committee's exclusive jurisdiction over NEPA. As introduced, H.R. 4481 waived the application of NEPA to the Secretary of Defense's closure of bases under this bill.

On June 21, 1988, the Merchant Marine and Fisheries Committee met to consider and markup H.R. 4481. I offered a series of amendments to the bill to modify the NEPA waiver in the bill as introduced. These amendments retain the essential timeline under the original Armey bill for selecting which bases to close and choosing which bases should receive those functions. At the same time, the amendments preserve the essential attributes of the NEPA process for disclosing significant environmental impacts of a major Federal action and considering alternative ways to mitigate those effects.

The amendments were reported unanimously by the Merchant Marine and Fisheries Committee.

I want to express my appreciation to the distinguished chairman of the Armed Services and Government Operations Committees, LES ASPIN and JACK BROOKS. They have graciously deferred to the Merchant Marine and Fisheries Committee on its views on NEPA and both committees have reported out bills incorporating NEPA provisions identical in substance to those provisions reported by my committee. These provisions have also been included in the amendment in the nature of a substitute that is made in order as the original bill under the rule and in Mr. ARMEY's amendment.

NEPA is one of our Nation's premier environmental laws, if not our principal environmental law. It should be preserved insofar as practicable and consistent with the policy objectives of H.R. 4481, the Defense Savings Act. Congress enacted NEPA in 1969 to encourage productive and enjoyable harmony between man and his environment; to promote efforts which will prevent or eliminate damage to the biosphere and stimulate the health and welfare of man; to enrich the understanding of ecological systems and natural resources important to the Nation; and to establish a Council on Environmental Quality. The major purpose of NEPA is to require agency decisionmakers to take a hard look at the environmental consequences of their actions. The amendments of the Merchant Marine and Fisheries Committee will accomplish this purpose.

The environmental waiver was included in the original Armey bill because the Department of Defense [DOD] argued that NEPA, among other laws, was inhibiting DOD efforts to close unnecessary military bases. The Secretary of Defense gave three examples to support DOD's position when he testified on May 18, 1988, before the Defense Policy Panel of the House Armed Services Committee. Upon close scrutiny of these examples, a reasonable person must conclude that political pressure and changes of heart by the Department were the primary reasons that some closures did not take place—not NEPA. Upon questioning by members of the panel, Secretary Carlucci conceded that NEPA has never prevented the Defense Department from closing any military installation, although it caused delays in the process.

The modified NEPA process, which I endorse today, will not interfere with Congress' establishment of a legislative framework to expedite the closure and realignment of unnecessary military bases. The modified process exempts from NEPA the essential decisions by the Commission on Base Realignment and Closure and the Secretary of Defense to choose which bases to close. This will allow the Commission to meet its end-of-the-year deadline and the Secretary to meet his deadline of early next year. This does not mean, however, that the Commission and the Secretary are to ignore the environmental consequences of their decisions, only that they do not have to comply with the procedural requirements of NEPA prior to making these decisions. At the same time, the Merchant Marine and Fisheries amendments require the Secretary of Defense to comply with NEPA prior to actually closing any base or realigning any functions to a new base, thereby protecting the public's right to know what environmental risks may be associated with the closure or realignment of a particular military installation.

The first part of the Merchant Marine and Fisheries amendments provides the NEPA shall not apply: First, to the actions of the Commission on base realignment and closure in selecting military installations for closure or realignment and making its report to the Secretary; and second, to the actions of the Secretary of Defense in determining whether to accept or reject the Commission's recommendations and in transmitting the Secretary's report to the Congress. The committee's intent is to exempt from the requirements of NEPA the two policy decisions of recommending and selecting military based for closure or realignment. This was done to maintain the schedule established by the bill as introduced.

The second, the key part of the amendments requires the Secretary to comply with NEPA after the installations are selected but before they are actually closed or realigned. In applying NEPA to the actual base closures, the Secretary need not consider: First, the need for closing or realigning the installation previously selected; second, the need for transferring functions to a military installation other than the one selected; or third, alternative military installations to those previously selected. This was done to be consistent with the previous decision to allow the Commission and the Secretary to decide, on other grounds, which bases to close and not to allow NEPA to be used to second-guess this decision. In all other respects, the normal NEPA process applies.

The amendments require the Secretary to consider the environmental impacts associated with the process of closing or realigning bases, as well as alternative ways of addressing and mitigating those impacts. The committee leaves open the question whether a particular closure or realignment constitutes, in the parlance of NEPA, a major Federal action significantly affecting the quality of the human environment. If the Secretary of Defense decides that a particular closure or realignment does constitute a major Federal action that significantly affects the quality of the human environment, the Secretary should follow the normal NEPA process for preparation of a draft environmental impact statement [EIS], public comment, and preparation of a final EIS. To decide whether implementing a particular closure or realignment is a major Federal action that has significant impacts on the quality of the human environment, the Secretary should, in accordance with regulations of the Council on Environmental Quality [CEQ], prepare and make available to the public an environmental assessment and, if justified, a finding of no significant impact. Regardless of the type of NEPA analysis, the Secretary's actions under NEPA must be completed before he may close or realign the base or relocate functions.

The third part of these amendments establishes a schedule for filing a civil action for judicial review of the Secretary's actions or inactions under NEPA. This part requires an aggrieved party to file a complaint in the appropriate Federal court no later than the 60th day after the Secretary's action or failure to act. Where a person had no reasonable knowledge of such action or inaction, the complaint must be filed within 60 days after the person has acquired actual or constructive knowledge of such action or inaction. I encourage the Secretary to provide the public reasonable notice of all NEPA decisions under these amendments so that the 60-day deadline may be met and judicial review may be expedited to this extent.

In conclusion, I urge adoption of the Committee on Merchant Marine and Fisheries' NEPA amendments that have been incorporated in the substitute base closings bill before us and in Mr. ARMEY's substitute. These amendments will enable the public to have confidence in the expedited base closings process we will approve today by ensuring that environmental impacts are fully weighed and mitigated.

Mr. Chairman, I reserve the balance of my time.

Mr. BATEMAN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I urge my colleagues to support H.R. 4481.

The balance between the desire to expeditiously close any base, once a decision has been made to close it, and giving full consideration of the policies behind the National Environmental Policy Act is a difficult one to achieve. However, the compromise evinced by section 2 of the bill is a sound one. Thus, the part of the process which will have the most significant impact on the environment—the actual closure of the bases—will be subject to review under NEPA, ensuring that the Department of Defense takes a hard look at the environmental consequences of its actions.

Mr. JONES of North Carolina. Mr. Chairman, I yield 8 minutes to the gentleman from Michigan [Mr. HERTEL].

Mr. HERTEL. Mr. Chairman. I thank the gentleman for yielding time to me.

Mr. Chairman, many of my colleagues have asked me why I have gotten involved in this issue. As I pointed out before, I have no base in my district. I do sit on the Armed Services Committee and on the Merchant Marine and Fisheries Committee which have jurisdiction of this bill.

Mr. Chairman, I come to this issue because what I saw was a simplistic approach. I realized, as the gentlewoman from Maryland read off all of the list of groups that support the Armey substitute, and all of the editorials that have been written about the Armey substitute, that Congress, this House, is responsible for the actions that we take, and that we have to look beyond the simplistic approach and look at the details. We have to look at the effect on this Nation and on the communities involved.

In the past, many communities have made great sacrifices on behalf of the military personnel who live in their area, whether it be in community services or simply regular support and enthusiasm for the problems of those families, because we now have 50 percent of the people in the armed services who do have families under our volunteer system.

So I am not opposed to the bill, I am not opposed to the concept. I am very much for cutting unnecessary military bases. As my colleagues know, in the last Congress I was the chairman of the Task Force on Waste, Fraud and Abuse in the Pentagon, and there was waste on military bases that are not needed.

The difference between the committee approach and the Armey substitute is are we going to meet our responsibilities or not. I want to examine just two different areas.

The committee approach is to say that when there is toxic waste, environmental damage, it should be cleaned up so that that community who loses a base and those jobs will not be stuck with land that cannot be used for development because it has toxic waste on it. The committee approach would say within 6 years of closing the base those costs must be appropriated and met, and the base must be cleaned up and the toxic waste must be cleaned up.

The Kasich amendment, as we heard from the gentleman from Ohio [Mr. KASICH] and which he is going to offer today, would say instead of 6 years under the committee approach, 13 years to clean up those toxic wastes. I have no problem with that approach, because it would still address the problem. But the Armey substitute says get in line, maybe it will be cleaned up, maybe it will not be. It tells us no specifics. Even though the Kasich amendment would say 13 years and the committee would say 6 years, I think that is long enough if you live near a base with toxic waste, if you have a problem of unemployment and dislocated jobs because the base has been closed, and then on top of that you cannot use the land because of toxic wastes. I say 6 years, 13 years, that is plenty. Do it. But the Armey substitute, the one supported by these editorials, does not say when or if ever they will be cleaned up. In fact, the Army and the Department of Defense, the other two branches, they could decide they would rather clean up toxic waste at active bases before inactive bases, and in the Armey substitute they would have that clear right.

We know it is an expensive problem and proposition to clean up toxic wastes because many bases around this country already have it. I am just saying do not add to the problem. Close the unnecessary base, clean up the toxic wastes within 6 years, within 13 years, but do not let those people wallow in that additional problem.

In the area of unemployment, the committee has adopted my language to say very simply in every case we will have community planning to try to bring in new businesses, to make the best use of that land; and, second, that we will have job training for those people who are dislocated by the base closing and leaving. I did not see a dollar limit. I did not say what amount of money must be appropriated. I just said the Department of Defense, and the committee has agreed with me, the Department of Defense in every case when they close a base should give the people some job training, some community planning before they walk away. I think that is only fair. Those people are going to be harmed. They do not live in my district, but they might live in some of my colleagues. But it does not matter. They are Americans and they deserve a chance for a livelihood.

Think about even the extended market, the people who have grocery stores and a base of a few thousand people closes. They might lose their business too. Should that community not get some help or should this Government just walk away from the problems those communities face after they have made sacrifices on behalf of supporting the military in the past? I think this country should.

We hear talk about the low-unemployment rate in this Nation, but we know that there are pockets of high unemployment. That is going to occur under either the bill or the Armey substitute. There is going to be more unemployment. But at least we will address the concerns of those communities so that the people see that we think they should have a fighting chance for jobs and a livelihood by helping them for a very, very short time.

It has been pointed out, and the sponsors have said that the Armey substitute follows existing law, but the gentleman from Texas pointed out that in the 1960's and the 1970's when we had so many bases closed that only 15 percent under existing law, the law that operates today, and under the Armey substitute, if it is adopted, only 15 percent of those communities got assistance for their unemployment problems. It is true and it has been cited that in some cases there has been an increase in employment, and that would depend on the location of the base and the value of that land. If we go to a coastal region, I am sure in many cases, if the commission so chooses, that there will be cases where very valuable land could lead to more jobs. But I am concerned about those communities who are already hard hit and might have a higher unemployment percentage already, and that that could be increased, and more people could lose their jobs with no chance, no opportunities, just have the Department walk away, have this Congress and this House walk away from their problems. I do not think that is right.

It does not affect my communities, but I am thinking about those other families out there, and I think all Members should. We do not need simplistic, hardhearted approaches any more. We saw the damage and it took us years to recover after Gramm-Latta. This is the same type of approach.

The gentleman started with a very good idea, that there are unnecessary bases that need to be closed. He adopted the accelerated NEPA provision from the committee that was not in his original bill, and I congratulate the gentleman for doing that. I think something should be done for those areas that will be creating more unemployment.

It is ironic that just 3 years ago this House voted first with me to stop the homeporting in New York City, but later to allow which is going to be the most expensive home port. Already the cost figures for the housing alone have doubled within 1 year. We put a new home port in New York City, the most expensive city in this country, with no tactical advantage in a nuclear age. New York, unfortunately, is one of the first or second nuclear targets of the Soviet Union. So we are going to spend as much, Barry Goldwater says, as $10 billion for a new port in New York City, and it is going to be expensive for those service people to live there and to work there; and yet, just 2 years later the Congress turns around again, after approving new bases, and they want to close some smaller, less expensive, older bases. That is ironic.

I just hope Members are consistent in how they vote on these questions. Let us close the unnecessary bases. Let us look in fact at some of the homeporting bases that are going to be so very expensive, like New York, and unnecessary. Let us even think about extending in the future this commission's life to keep reviewing what bases are unnecessary, and let this House implement that legislation to close bases.

But let us take the committee's bill today to protect those people who are going to be left with toxic waste on that land, and to protect those people who are going to be thrown out of their jobs, to give them just a chance, clean up the land, give them some job training, community planning so that they at least have hope, if nothing else they have hope when those bases are closed.

□ 1400

And I hope the House will consider those families in the future and not walk away from their problems so that we do not create new pain by our actions today.

Mr. BATEMAN. Mr. Chairman, I yield 5 minutes to the gentleman from Illinois [Mr. Davis].

Mr. DAVIS of Illinois. I thank the gentleman for yielding.

Mr. Chairman, I rise today like everyone else wanting to consolidate missions and to close bases and to save the taxpayers money and to do the right things. However, during the Department of Defense's testimony in front of the Committee on Armed Services of which I am a member, I asked the Secretary several questions that I thought my constituents would want the answers to back in Illinois before the base-closing procedure started.

One of them that I asked—and I know I will get asked all of these questions when I go home after this bill so I wanted to have some answers. Unfortunately most of the answers were not forthcoming prior to today.

I did ask the Secretary, for instance, "How do we explain the delegation twice removed of constitutional and congressional authority to review and to oversight the decisions of the commission to close bases?" How do we explain that we cannot do it ourselves because of politics and we cannot review it ourselves because of politics? And, of course, there was no answer to that.

I asked him: How long would it take to recover the estimated $2 to $3 billion in the costs of consolidating and moving missions of the proposed 20-odd bases that would be closed out of the 871 U.S. bases that are currently open?

It will take a long time. They say cost avoidance, not savings of those closed bases, after the mission was shifted, would save about $500 million a year. That is a lot of money. That triggered the next question: If you think in terms of 6 or 8 or 10 years of saving just the money that it cost to move the missions of the closed bases of $3 billion, it would take about 7 or 8 years if my math is right. But then the next question, the next question to the Secretary was: What then will you do in the succeeding 100 years with the $500 million of cost avoidance or money that you do not have to put out in the form of savings? Will it go to reduce the deficit? The answer is no, it will go to DOD spending to increase the effectiveness of purchasing in the Department of Defense and maybe even for homeporting to expand bases, which was the next question that I led into. I said, "Why are we doing homeporting and expanding naval facilities on the perimeter of the United States of America at the same time we are talking about closing bases perhaps in Illinois, perhaps in Arkansas, perhaps in Alabama, and building new bases on the coast when it does not seem to be cost efficacious to do so?"

No answer to that one either.

The final question that bothers me and should bother my constituents in America more than any other question, and I asked him, "What foreign bases will be closed before American jobs are lost through base closure in the United States of America?" He could not answer that only to say—and you will hear this argument made that "Well, there are 375 foreign bases outside the United States in foreign jurisdictions but there are no reasons why we can't close those, there are no environmental concerns, there are no economic impact concerns, we don't care what happens in West Germany, we don't care what happens in England, we don't care about this, that, and the other. However, we have some treaty considerations," and that is probably true. "We have some geopolitical considerations," may be true. "We have some military considerations," may be true.

Now I am known as a pretty ardent hawk around here and I do not discount that, but I am going to tell you something: I am also an American who has difficulty trying to explain to his district, "Wait a minute, we are going to close 20 bases, and put 40,000 or 50,000 or 100,000 Americans out of work while we leave the West Germans and the Japanese work." That does not seem to me to be an efficacious thing to do.

So my colleagues and ladies and gentlemen, I will be offering two amendments to this bill today and to the substitute in the form of a bill; one dealing with foreign base closure that will say that no American base may be closed until all foreign bases recommended for closure or realignment by the commission are closed first.

Second, to address the issue of congressional delegation of authority far beyond, I think a wise move on our part to add in eight members to the commission on an ex officio basis, at least, the chairman and ranking committee members of the Committee on Armed Services and the Senate Committee on Armed Services and the Appropriations Committees; as ex officio so that the public will know how the decisions ultimately were made.

Mr. BATEMAN. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. Armey].

Mr. ARMEY. I thank the gentleman for yielding.

Mr. Chairman, I would like to take a moment to express my appreciation to the chairman of the committee, the gentleman from North Carolina [Mr. Jones], and to the ranking member, the gentleman from Virginia [Mr. Bateman], and to the members of the committee.

When you recognize five different committees have held jurisdiction over this bill, I think this committee deserves the "collegiality and good work" award because their provisions on the modified NEPA waiver were not only accepted by all of the committees but enthusiastically accepted by me in my substitute. This is the one point on which we all agree. The modified NEPA waiver written by the committee recognizes the need to do environment impact studies in the decisionmaking process, but not to allow them to be used as a litigation tool to prevent actions from ever being taken.

It was a very judicious compromise of these two possible events, well-crafted and obviously so because it was accepted by everybody.

Let me encourage the body to understand this modified NEPA waiver, written by this committee and accepted by everyone, does not exempt base closing from any statute regarding environmental cleanliness. I have a two-page list here of all the laws that protect our environment in the action. None of those laws are exempted under this waiver accepted by all of us.

So let me encourage the committee to feel good about the work they have done. I certainly appreciate the good work they have done. They have helped make the joint committee bill a better bill and they have helped make my substitute a better bill and they certainly will help make it a safer process for all of America.

Mr. JONES of North Carolina. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. BATEMAN. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

The CHAIRMAN. The time of the Committee on Merchant Marine and Fisheries has expired.

The gentleman from Florida [Mr. PEPPER] will be recognized for 15 minutes and the gentleman from Missouri [Mr. TAYLOR] will be recognized for 15 minutes.

The Chair recognizes the gentleman from Florida [Mr. PEPPER].

Mr. PEPPER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the bill before us now, H.R. 4481, raises two issues that profoundly concern the Committee on Rules: The inclusion of expedited procedures and the unhealthy appetite this Congress has displayed for delegating its legislative responsibilities. Before I discuss those matters, let me retrace our steps and explain how we got here.

Mr. Chairman, the bill as reported by the Armed Services and Government Operations Committees would make the recommendations of the commission on base-closure subject to congressional review with expedited procedures for consideration. The Armed Services Committee would attach expedited procedures to consideration of a joint resolution of disapproval; the Committee on Government Operations would allow the President to amend the Commission's recommendations but would make the recommendations contingent upon enactment of a joint resolution of approval. Before the Rules Committee granted a rule providing for the consideration of this bill, the committee met as a matter of original jurisdiction, on the expedited procedures.

In considering the provisions of H.R. 4481 relating to rules and procedures of the House, the Committee on Rules worked closely with the Committees on Armed Services and on Government Operations to resolve the concerns I will address here. The committees involved reached an agreement that is incorporated in the amendment in the nature of a substitute which the Rules Committee made in order as original text for purpose of amendment. Under this amendment, the President will submit the commission's recommendations to Congress and the Congress, under expedited procedures, will vote on an unamendable joint resolution of approval. While it would be my preference to avoid expedited procedures altogether, this is a fair compromise.

As chairman of the Committee on Rules, I must note that the committee has previously issued reports and studies expressing our concern with the inclusion of expedited procedures in controversial legislation. These procedures are intended to guarantee timely future consideration of important matters, however, it is precisely the role of the Committee on Rules to guarantee and structure such consideration. Expedited procedures for House consideration are unnecessary and usually a hinderance. Look at the record. More often than not, the House has set aside or modified expedited procedures in order to allow Members to consider matters that have become concerns but were not anticipated when the expedited procedures were written. In the few instances when the House made use of expedited procedures, we usually defeated the legislation and later reconsidered the matter under a special rule granted by the committee.

Even though an expedited procedure may bring about a compromise in a particular instance, such a procedure represents a loss of congressional prerogative regardless of the substance at issue. The House as a whole and the Committee on Rules in particular are clearly in a position to address and resolve matters related to consideration.

H.R. 4481 serves to highlight the fundamental difference between resolutions of approval and disapproval. While political exigencies may vary, a resolution of approval generally allows for greater congressional involvement and control. A joint resolution of disapproval tends to weaken legislative control because if Congress fails to act, the Executive proposal becomes law. And if the President vetoes a joint resolution of disapproval, a policy may be established which does not have the support of a majority in either House. In the context of the bill before us now, a joint resolution disapproving the base closings recommended by the commission would in practical effect deny congressional expression in the base closure decisionmaking process. Even if majorities in both Houses saw fit to disapprove the President's recommendations, a Presidential veto would require a two-thirds majority in each House to make effective the will of Congress.

Now there are some Members who heartily approve that result. I have heard my colleagues say we will never close a single unnecessary base unless we keep congressional involvement at a minimum. Base closings and realignments are of such a sensitive political nature, it is argued, that the decisions must be made outside the political arena, insulated from political pressures that may arise during the normal legislative process.

I do not share the low opinion expressed about this great institution. I believe Members can be relied upon to discharge their constitutionally defined duties, that Members of Congress can be relied upon to vote affirmatively for proposals that are in the Nation's interest.

As chairman of the Rules Committee, I am deeply disturbed by the proliferation of schemes to avoid our responsibilities, from Gramm-Rudman to the original idea of a commission whose recommendations would become law without congressional review. Congress should not abdicate its legislative responsibilities. That is the danger with resolutions of disapproval. They maintain the appearance of congressional oversight but undermine Congress' ability to participate in the process.

□ 1415

Mr. Chairman, democracy has chosen means by which it implements its decisions, and the Congress in my opinion, for 200 years has nobly and bravely discharged its responsibility and can be depended upon very forthrightly and very responsibly and honorably in the years ahead.

Mr. TAYLOR. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, when it was introduced this bill was referred only to three committees, Armed Services, Government Operations, and Merchant Marine and Fisheries. However, two of those committees added provisions for congressional review of proposed military base closures. Since this new material falls within the original jurisdiction of the Rules Committee, the bill was sequentially referred to Rules.

As reported by the Armed Services Committee the bill provided for a joint resolution of disapproval of any of the recommendations of the Commission on Base Realignment and Closure, subject to expedited procedures.

As reported by the Government Operations Committee, the bill provided for a joint resolution of approval, again subject to expedited consideration by both Houses.

While the Rules Committee did not actually amend the bill referred to it, the rule providing for the consideration of this bill, the Defense Savings Act, made in order as original text a substitute printed in the report accompanying the rule. That substitute included provisions for a joint resolution of approval.

Mr. Chairman, the rule under which we are considering this bill is an open rule which will allow the congressional review provisions either to be deleted or amended in such a way that the joint resolution of approval could be changed into a joint resolution of disapproval.

Mr. Chairman, the Committee on Armed Services is on record on one side of this issue and the Committee on Government Operations is on record on the other side. The House will have an opportunity to express its will on this issue during the amending process.

Mr. Chairman, I yield 10 minutes to the gentleman from Texas [Mr. ARMEY].

Mr. ARMEY. Mr. Chairman, I thank my good friend, the gentleman from Missouri [Mr. TAYLOR], for yielding so generously of his time.

Mr. Chairman, today we have an opportunity to make the single most important, clear, good government vote for deficit reduction and waste elimination of this congressional year. We can do so today if we will pass forward an amendment in the form of a substitute that restores the power of H.R. 4481 to actually close obsolete military bases for a potential savings of over $2 billion a year out of maintenance and operations costs every year forever, simply by eliminating waste. It is a very simple, clear understanding. If we do it at home in our households, we know that that is money we will not have to spend in the future. If we do it by cleaning house in our military basing structure, again we will save billions of dollars of money that will not have to be spent in the future in maintaining and operating bases that do not make a contribution to our Nation's defense.

Everybody knows that that money can be saved. There is a consensus on that. Why, then, do we not easily close bases? The reason is politics. First, obviously every Member understands clearly that in the beginning, as we close a base and for perhaps the next 2 years, certainly very likely before the next election, that is likely to have an economic impact on his community. Every Member obviously wants to avoid that.

Mr. Chairman, we have evidence of that, and we have clear, factual testimony. There was a very good editorial in yesterday's New York Times testifying from Michigan that in the long run those communities not only survived but they prospered as they reutilized that property. But it is that short-run cost that bothers us, and Members, of course, will try to avoid that cost in their own individual parochial interests. No one can fault them for that.

But there is a larger concern that is political in nature and that has stopped this from happening. It is one that does not cut through the individual Member per se in his political interest, but they are the prerogatives of the Congress, and that is that the fact is, unfortunate as it is, that historically base closing has been used as a point of leverage by administrations, both Republican and Democratic administrations, as political leverage over and above Members of Congress to encourage them to vote in a manner that the administration would like. So we have seen communities afflicted, and we have seen, I am afraid, even base closings that would hamper our Nation's defense out of a sense of political reprisal.

For that reason, in 1977 Congress passed legislation that would put an end to that business of using base closing for political leverage. And well they should. But as they tried to kill a bad practice, they had the unfortunate result of overkill, and they built in so many safeguards against closing bases that no base has been closed in the past 10 years. Why? Because the individual Member of Congress or an individual in the community can tie a base closing up in so much redtape, largely through environmental protection studies, with redtape, that it just becomes impossible to do so.

Having addressed this question, we came up with a solution. Why not protect against political blackmail by establishing a nonpartisan commission agreed upon by the leadership of the House and the Senate, with the Secretary of Defense, to objectively study the base structure and make recommendations to the Department of Defense and to Congress regarding which closures and which realignments would benefit our Nation's defense and save the taxpayers money by reducing costs? And when we have that commission and its report, then it would be safe to waive those aspects of current legislation that make it impossible to close a base. Members of Congress will be provided in that case protection from blackmail, and they will be provided protection from criticism back home because they will have the opportunity, as we will see, to protect their interests, to speak for their interests, and then, of course, to let the will of the Congress in general override in the Nation's interest the parochial interest of an individual Member.

The concept was first introduced 2 years ago. It was offered as an amendment to the DOD authorization just last year, and it failed by seven votes. It failed in part because the Department of Defense did not support it in the form in which we had it at that time, and it had gone through no committees.

After that vote, we went to work, and during the course of the next entire year we brought together a working force that included Members and staffs of the House and Senate Armed Services Committees, the Secretary of Defense and his staff, myself, and Senator ROTH, the Senate sponsor, and we put together after months of work H.R. 4481. It was a good bill, crafted through time by the professionals, those Members of Congress with the greatest expertise and those staff members with the greatest expertise.

The bill was then simultaneously referred to the Committee on Armed Services, the Committee on Government Operations, the Committee on Merchant Marine and Fisheries, and then to the Committee on Rules. The bill has endured five hearings and six markups, and now we have it coming back, rather than a simple, direct, clear bill by which we can eliminate waste, as something that is complicated and cumbersome, and so now a bill that was a good idea has in fact come back to this floor and made worse than current law, because everybody has added their two bits to the bill.

I will be offering a substitute for that bill that is in fact endorsed by the administration and by the Secretary of Defense. The fact is that my substitute will get the job done. That substitute takes the good work of the committees that have had jurisdiction over this bill. They have done some good things. We have taken the modification rather than the waiver of NEPA. We have taken the better property disposal conditions of the Government Operations Committee's markup. We have taken the advance notice provision. We have also taken the provision in the Senate version of the bill and in the Armed Services Committee version for a congressional revisit of the subject by way of a motion of disapproval, as written by the Committee on Armed Services.

Now, what we have not done by way of taking the committee's work is to take some of the extraneous ornaments that, quite frankly, if implemented into law, will kill the effectiveness of this bill and give us a bill that will create the illusion of moving toward the elimination of waste and inefficiency but assuring that that never happens. Those provisions include the provision to take this bill, which is dedicated to looking at the domestic waste in domestic bases and applying it to international bases, in total disregard of the fact that international bases are a whole different set of problems wrapped up in international treaties and diplomacy and affected by the State Department.

Mr. DELLUMS. Mr. Chairman, will the gentleman yield?

Mr. ARMEY. I yield very briefly to the gentleman from California.

Mr. DELLUMS. First of all, Mr. Chairman, the gentleman knows full well that our domestic and foreign bases are an integral part of one policy. To engage in the assertion that there is some kind of dichotomy does not face realities.

Mr. ARMEY. Mr. Chairman, if the gentleman will let me reclaim my time, the point is well taken. The point was raised by the gentleman in his subcommittee when he so kindly held markup on it, and for that reason our provision, which is the provision that was authored by our working team, requires this commission dealing with domestic bases to take into consideration a study presented to them about the relationship of our domestic bases to our foreign bases. As we address the question of foreign bases in separate legislation, we can use that information, and we should.

The CHAIRMAN. The time of the gentleman from Texas [Mr. ARMEY] has expired.

The gentleman from Florida [Mr. PEPPER] has yielded back the remainder of his time.

Does the gentleman from Missouri [Mr. TAYLOR] wish to yield additional time?

Mr. TAYLOR. Mr. Chairman, I yield 2 additional minutes to the gentleman from Texas [Mr. ARMEY].

Mr. DELLUMS. Mr. Chairman, will the gentleman yield briefly to me?

Mr. ARMEY. I yield very briefly, because I want to retain enough time to conclude my statement.

Mr. DELLUMS. Mr. Chairman, just to add a little levity to this otherwise boring debate, I just want to say to my colleague that, as he laid out the history, he failed to mention the fact that it was this gentleman's subcommittee that held the first hearings on the gentleman's bill that pointed out the number of flaws that the gentleman has attempted to correct. We would just like our subcommittee to get adequate credit for that.

□ 1430

Mr. ARMEY. Mr. Chairman, I appreciate the gentleman's point, and the point is very well taken. I have no doubt that it is a timely interdiction of his subcommittee that has made it possible for us to get this bill to the floor on my birthday.

To get back then to the serious points, we have not accepted those provisions that would add additional socioeconomic studies to the base closing process. That is what we were trying to get away from. They have added in this markup lawsuit bait. We will keep these decisions tied up in the courts for 100 years with these new provisions. We have tried to take them back out. We have not added in our substitute the environmental restoration requirements that will rewrite environmental law. The toxic waste laws, all environmental laws except the NEPA study regulations, apply to base closings. We do not have to rewrite on an ad hoc basis in the Committee on Armed Services the comprehensive Environmental Response and Compensation Liability Act of 1980.

Has anybody, anybody, checked with th Committee on Energy and Commerce to see if they wanted their jurisdiction over this provision coming to the floor? Every committee got their jurisdiction over the original H.R. 4481.

Now when we add this rewriting of the environmental protection law, we ought to check with that committee. It is not necessary. We protect the environment. We do not waive any law protecting the environment. What we waive is laws that result in lawsuits.

Mr. VENTO. I rise in strong support of the proposed substitute for the military base closings legislation before us today.

It is not often that we are presented with an opportunity such as this to make a significant reduction in the Federal deficit without having to cut into essential domestic or defense programs. Too often in the past obsolete and unneeded military bases have been kept open far too long by well intentioned yet parochial interests. In fact, not one base has been closed in the past 11 years.

Mr. Chairman, I have long been a supporter of the closing of unneeded military bases. I am a cosponsor of another base closings bill, the Department of Defense Cost Savings Act. I support the idea of a bipartisan base closing commission as recommended by the Grace Commission. By giving statutory authority to the Commission on Base Realignment and Closures to carry out its mandate, the legislation before us today will lessen the influence of political pressures on the base closings process. By significantly streamlining this process, it is estimated that the closing of bases could eventually save the National Government between $2 and $5 billion annually.

While the legislation before has good intentions, the substitute is better. It is tempting to support the environmental and employment features of the House-reported bill. Yet the substitute still allows for congressional disapproval of any base closing list recommended by the Commission. The streamlined procedures envisioned by the substitute will more effectively eliminate the all important political pressures surrounding such base closings and therefore is much more likely to achieve the goal which we all share—the closing of unneeded military bases. Most environmental law and other safeguards for employees would remain in place and there is every expectation that communities and States that are impacted by such closings would receive further consideration from the National Government and the U.S. Congress.

Mr. Chairman, we in the House should be looking for responsible ways to reduce the budget deficit. We must take positive steps to reduce the deficit, the most recent example being the completion of all of our appropriations bills on time and within budget limits. The approach taken in the substitute is bipartisan and involves the cooperation of both Congress and the administration. This spirit of cooperation is certainly necessary if we are to make the proper decisions to reduce the Federal deficit yet still meet the critical defense and expanding domestic needs of the Nation.

Mr. Chairman, I would like to express one concern I have about this bill. I am concerned that the savings that result from this bill could be used to fund far-flung, wasteful and redundant weapons systems instead of going primarily into deficit reduction efforts. It would be a disappointment if we simply shifted wasteful spending from unneeded military bases to unneeded weapons systems. We must see that the savings from this bill be used to reduce our deficit and not be diverted into a new Pentagon wish list.

The military has real needs that have been subordinated to the extensive hemorrhage of dollars spent on weapons systems and unneeded military bases at the expense of conventional capability. We need to retrench our military spending priorities. This base closing measure is an essential step and indeed the substitute will work. The good intentions of the compromise legislation however will not materialize in closing unneeded military bases.

Mr. Chairman, the serious procurement problems of the military are back in the headlines today. In the past few years we have put in place new requirements and procedures. Hopefully such safeguards will eventually be helpful. Unfortunately the assumption that all procurement officials within the administration and officers within the military were acting in good faith was and is inaccurate. Safeguards and laws don't work when Government officials undercut and circumvent the clear letter and spirit of laws passed by Congress and signed by the President.

This base closing legislation won't work if we create the cumbersome bureaucratic process advocated by the compromise. Let us give the Commission we create some real authority and responsibility with a congressional safeguards and let the process work. Military base closing is a difficult issue, but one that we must face. The proponents of the compromise confuse the issue to a great extent. Congress should send a clear message on this issue. Let us charge the Commission to do the task that we are unfortunately unable to do ourselves as an institution.

Mr. Chairman, I also intend to support the amendment to provide that such Commission on Presidential decisions take place if Congress fails to disapprove this provision is the most important to break the indifference and cut the endless delays in acting on the issue of military base closing.

Mr. TAYLOR. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

The CHAIRMAN. Pursuant to the rule, the committee amendment in the nature of a substitute now printed in House Report 100-751 is considered as an original bill for the purpose of amendment and is considered as having been read.

The text of the committee amendment in the nature of a substitute is as follows:

Strike out all after the enacting clause, and insert:

SECTION 1. SHORT TITLE.

This act may be cited as the "Defense Savings Act of 1988".

SEC. 2. CLOSURE AND REALIGNMENT OF MILITARY INSTALLATIONS.

(a) IN GENERAL.—The Secretary of Defense shall—

(1) close all the military installations recommended for closure by the Commission on Base Realignment and Closure in the report of such Commission submitted by the President before January 19, 1989, pursuant to section 3(c) if such report is approved pursuant to a joint resolution adopted in accordance with section 4 of this Act;

(2) realign all the military installations recommended for realignment by such approved report; and

(3) initiate all such closures and realignments no later than September 30, 1991,

and complete all of them no later than September 30, 1995, except that no such closure or realignment may be initiated before January 1, 1990.

(b) Implementation.—

(1) In general.—In closing or realigning a military installation under this Act, the Secretary—

(A) subject to the availability of funds authorized and appropriated to the Department of Defense for use in planning and design, minor construction, and operation and maintenance, and the availability of funds in the Account, shall carry out actions necessary to implement such closure or realignment, including acquiring land, constructing replacement facilities, relocating activities, and conducting advance planning and design as may be required to transfer functions from such military installation to another;

(B) subject to the availability of funds authorized and appropriated to the Department of Defense for economic adjustment assistance and community planning assistance and the availability of funds in the Account, shall provide—

(i) economic adjustment assistance (including grants for job retraining programs) to any community in the United States located near an installation being closed or realigned; and

(ii) community planning assistance to any community in the United States located near an installation to which functions will be transferred as a result of such closure or realignment;

if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate; and

(C) subject to the availability of funds authorized and appropriated to the Department of Defense for environmental restoration and the availability of funds in the Account, shall carry out activities for the purpose of environmental restoration, including reducing, removing, and recycling hazardous wastes and removing unsafe buildings and debris.

(2) Termination of authority.—The authority of the Secretary to carry out any closure or realignment under this Act shall terminate at the close of September 30, 1995.

(c) Socio-Economic Impact Plan.—

(1) Plan.—The Secretary may not initiate a closure or realignment of a military installation in the United States under this Act until, before the first budget is submitted to the Congress which contains a request for funds which will be used to carry out the closure or realignment of such military installation, the Secretary—

(A) has completed a study of the socioeconomic impact of such closure or realignment on the area in which the military installation is located; and

(B) has developed a plan to minimize such impact, including a statement of the amounts the Secretary plans to request (and the fiscal years for which they will be requested) to minimize such impact.

(2) Transmittal.—A copy of each such plan shall be transmitted to the Committees on Armed Services of the Senate and the House of Representatives as soon as practicable after it is developed, subject to section 2(a)(3).

(d) Environmental Restoration Plan.—

(1) Plan.—The Secretary may not initiate a closure or a realignment of a military installation in the United States under this Act until, before the first budget is submitted to the Congress which contains a request for funds which will be used to carry out the closure or realignment of such military installation, the Secretary—

(A) has completed a study of the environmental restoration needed before the real property and facilities at such military installation can be disposed of by the Federal Government in accordance with applicable law; and

(B) has developed a plan to accomplish such restoration within 5 years (or within a longer period if the Secretary determines that such longer period is necessary because of the extraordinary circumstances involved), including a statement of the amounts the Secretary plans to request (and the fiscal years for which they will be requested) to accomplish such restoration.

(2) Transmittal.—A copy of each such plan shall be transmitted to the Committees on Armed Services of the Senate and the House of Representatives as soon as practicable after it is developed, subject to section 2(a)(3).

(e) Disposal of Property.—

(1) In general.—Except as otherwise provided by this Act, the Administrator shall transfer and dispose of all property and facilities of the Department of Defense (and any department thereof) located at an installation to be closed or realigned pursuant to this Act in accordance with the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.) and other laws which authorize the Administrator to dispose of property of agencies of the United States.

(2) Disposal of property for reduced consideration.—(A) In carrying out this subsection, the Administrator shall make maximum use of the authority to dispose of property without consideration or for reduced consideration to provide economic adjustment assistance to communities affected by closures and realignments of installations under this Act. Disposals of property pursuant to this Act carried out by the Administrator under section 203(k) or 203(p) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484 (k) or (p)), or under any other law which authorizes disposal of property of the United States without consideration or for reduced consideration, shall be carried out on the basis of a land-use study conducted by the Administrator, in cooperation with the Secretary and the community involved, which—

(i) is consistent with the purpose and policy set forth in section 802 of the Federal Urban Land-Use Act (40 U.S.C. 531); and

(ii) takes into consideration the purpose of providing economic adjustment assistance to the community.

(B) Nothing in this paragraph shall limit the applicability of the Federal Urban Land-Use Act to disposals of real property under this subsection.

(3) Explanatory statements.—Section 203(e)(6) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(e)(6)) shall not apply to disposals of property pursuant to this Act other than—

(A) disposals of property having a fair market value in excess of $100,000; and

(B) disposals of property by exchange.

(4) Use of proceeds.—(A) Subject to subparagraph (B), the Administrator shall deposit into the Account all proceeds from property transferred or disposed of by the Administrator pursuant to this Act.

(B) The Administrator shall deposit into the fund referred to in section 204(b) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 485(b)) an amount of the proceeds of each transfer and of each disposal of property carried out pursuant to this Act equal to the amount estimated by the Administrator to be needed for direct and related operating expenses incurred by the Administrator in carrying out the transfer or disposal, as applicable. Amounts deposited by the Administrator into that fund pursuant to this subsection shall be administered in accordance with sections 204(b), (c), and (d) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 485(b), (c), and (d)).

(5) Restrictions on reporting property as excess.—(A) Before any real property or facility under the control of the Department of Defense (or any department thereof) and located at a military installation to be closed or realigned under this Act is reported as excess property to the General Services Administration, the Secretary shall notify all military departments, agencies, and other instrumentalities (including nonappropriated fund instrumentalities) within the Department of Defense of the availability of such property or facility and may transfer, without reimbursement, such property or facility to any such department, agency, or instrumentality, except that the Secretary shall give a priority to any such department, agency, or other instrumentality that offers to pay fair market value for the property or facility. For purposes of this paragraph, fair market value shall be determined on the basis of the value of the property as it is being used at the time of such notification. All proceeds from any such transfer shall be deposited into the Account.

(B) Real property that is under the control of the Department of Defense (or any department thereof), located at a military installation to be closed or realigned under this Act, and in need of environmental restoration may not be reported as excess to the General Services Administration until it has been restored by the Secretary to a condition which would permit it to be disposed of by the Federal Government in accordance with applicable law.

(C) After the General Services Administration has accepted any real property or facility located at a military installation closed or realigned, or to be closed or realigned, under this Act, the Secretary may not, after the one-year period beginning on the date such property or facility is accepted, expend funds to maintain, secure, or operate the property or facility unless such maintenance, security, or operation is carried out pursuant to an agreement entered into between the Secretary and the Administrator of the General Services Administration that provides for reimbursement by such Administration to the Department of Defense of all expenses incurred by the Department in providing such maintenance, security, or operation.

(f) Waivers.—The Secretary may carry out the authority provided in subsection (b) without regard to—

(1) section 1362 of the Department of Defense Authorization Act, 1987 (Public Law 99-661; 100 Stat. 3816);

(2) section 709 of the Military Construction Authorization Act, 1972 (Public Law 92-145; 85 Stat. 394);

(3) section 810 of the Military Construction Authorization Act, 1968 (Public Law 90-110; 81 Stat. 279); and

(4) the procedures set forth in sections 2662 and 2687 of title 10, United States Code.

(g) National Environmental Policy Act.—

(1) Nonapplication of act.—The provisions of the National Environmental Policy Act of 1969 shall not apply to—

(A) the actions of the Commission, including selecting the military installations which it recommends for closure or realignment under this Act, selecting any military installation to receive functions from a installation to be closed or realigned, and making its report to the Secretary and the Congress under section 3(a);

(B) the actions of the Secretary in establishing the Commission, in selecting any military installation to receive functions from an installation to be closed or realigned, and in carrying out section 3(b); and

(C) the actions of the President under section 3(c) in making comments and recommendations regarding the report and statement of the Commission and in submitting to the Congress such report, statement, comments, and recommendations.

(2) Application of act.—The provisions of the National Environmental Policy Act of 1969 shall apply to the actions of the Secretary—

(A) during the process of the closing or realigning of a military installation under this Act after such military installation has been selected for closure or realignment but before the installation is closed or realigned and the functions relocated, and

(B) during the process of the relocating of functions from a military installation being closed or realigned under this Act to another military installation after the receiving installation has been selected but before the functions are relocated.

(3) Limitation on considerations.—In applying the provisions of the National Environmental Policy Act of 1969, the Secretary shall not have to consider—

(A) the need for closing or realigning a military installation which has been selected for closure or realignment;

(B) the need for transferring functions to another military installation which has been selected as the receiving installation; or

(C) alternative military installations to those selected.

(4) Judicial review.—A civil action for judicial review, with respect to any requirement of the National Environmental Policy Act of 1969 or with respect to any requirement of the Commission made by this Act, of any action of, or any failure to act by, the Secretary during the closing, realigning, or relocating referred to in subparagraph (A) and (B) of paragraph (2) or of any action or failure to act by the Commission under this Act, may not be brought later than the 60th day after the date of such action or failure to act, except that if a party shows that he did not know of the act or failure to act by the Secretary and that a reasonable person acting under the circumstances would not have known, such party may bring a civil action not later than the 60th day after the date such party acquired actual or constructive knowledge of such action or failure to act.

(h) Account.—

(1) Establishment.—There is established on the books of the Department of the Treasury the Department of Defense Base Closure Account which shall be administered by the Secretary as a single account.

(2) Contents.—The Account shall consist of—

(A) funds appropriated to the Account;

(B) any funds that the Secretary may, subject to approval in an appropriation Act, transfer to the Account from funds appropriated to the Department of Defense for any purpose, except that such funds may be transferred only after the date on which the Secretary transmits written notice of, and justification for, such transfer to the appropriate committees of Congress;

(C) amounts deposited into the Account pursuant to paragraph (4)(A) or (5)(A) of subsection (e); and

(D) any other amount received by the Secretary in connection with any closure or realignment of any military installation under this Act.

(3) Authorizations of appropriations.—Not more than $300,000,000 is authorized to be transferred pursuant to paragraph (2)(B) to the Account in fiscal year 1989. No funds are authorized to be appropriated to the Account in such fiscal year. With respect to fiscal years beginning after fiscal year 1989, the amounts authorized to be appropriated or transferred to the Account shall be determined in annual authorization Acts.

(4) Use of amounts in account.—The Secretary may use the funds in the Account, subject to approval in authorization and appropriation Acts and without regard to fiscal year limitations on amounts appropriated and authorized, only for the purposes described in subsection (b).

(5) Annual report.—No later than 60 days after the end of each fiscal year in which the Secretary carries out activities under this Act, the Secretary shall transmit a report to the Congress of the amount and nature of the deposits into, and the expenditures from, the Account during such fiscal year and of the amount of expenditures otherwise made pursuant to subparagraphs (A) through (C) of subsection (b)(1).

(6) Unobligated funds.—Unobligated funds which remain in the Account after the termination of the authority of the Secretary under this Act shall be held in the Account until transferred by an appropriation Act enacted after the report is transmitted under paragraph (7).

(7) Final accounting.—No later than 60 days after the termination of the authority of the Secretary to carry out an alignment or closure under this Act, the Secretary shall transmit to the Congress a report containing an accounting of—

(A) all the funds deposited into and expended from the Account and otherwise expended under subparagraphs (A) through (C) of subsection (b)(1); and

(B) any amount remaining in the account.

(i) Reports.—

(1) Annual report.—Each annual Budget transmitted by the President to the Congress shall include—

(A) a schedule of the closure and realignment actions to be carried out under this Act in the fiscal year for which the request is made and an estimate of the total cost savings to be achieved by each such closure and realignment and of the time period in which these savings are to be achieved in each case, together with—

(i) the Secretary's assessment of the environmental effects of such actions; and

(ii) an accounting of the amounts requested for economic adjustment assistance, community planning assistance, and environmental restoration to carry out the plans described in subsections (c) and (d) during such fiscal year; and

(B) a description of the military installations, including those under construction or planned, to which functions will be transferred as a result of such closures and realignments, together with the Secretary's assessment of the environmental effects of such transfers.

(2) Notification regarding cost of certain construction projects.—When a decision is made to carry out a construction project under subsection (b)(1) and the cost of the project will be greater than the maximum amount for a minor construction project, the Secretary shall notify in writing the appropriate committees of Congress of the nature of and justification for the project and the amount of expenditures for it.

(j) Use of funds.—Funds which are appropriated or transferred to the Account or otherwise appropriated specifically for purposes of carrying out this Act or which may otherwise be used to carry out the closure or realignment of any military installation under this Act shall be available to the Secretary for the purpose of carrying out the closure or realignment under this Act of all military installations to be closed or realigned of this Act, subject only to the requirements of this Act. This subsection shall apply to all funds appropriated after the date of the enactment of this Act, and another provision of law does not supersede this subsection unless it does so by specifically referring to this subsection and stating that it supersedes this subsection.

SEC. 3. REVIEW AND SUBMISSION OF COMMISSION REPORT.

(a) Submission to Secretary.—The Commission shall submit to the Secretary and to the Congress not later than January 6, 1989—

(1) a report containing the recommendations of the Commission specifying the closures and realignments of military installations to be carried out under this Act, including a description of the Commission's recommendations of the military installations to which functions will be transferred as a result of the realignments and closures recommended by the Commission; and

(2) a statement by which the Commission certifies that it has identified the military installations to be closed or realigned after—

(A) reviewing, on the basis of current and future mission requirements, all military installations inside and outside the United States, including those under construction or planned;

(B) considering the potential to accommodate contingency, mobilization, and future force requirements at receiving locations; and

(C) considering, subject to subparagraph (A), the equitable geographic distribution throughout the United States of such closures and realignments under this Act.

(b) Submission to President.—The Secretary shall submit to the President not later than 5 days after submission of the report and statement of the Commission under subsection (a)—

(1) the report described in subsection (a)(1) and the statement of the Commission described in subsection (a)(2); and

(2) comments and recommendations of the Secretary regarding such report and statement.

(c) Submission to Congress.—Not later than January 19, 1989, the President may submit to the Congress the report of the Commission described in subsection (a)(1) and the statement of the Commission described in subsection (a)(2).

SEC. 4. CONGRESSIONAL CONSIDERATION OF COMMISSION REPORT.

(a) Rules of Senate and House of Representatives on Reorganization Plans.—This section is enacted by the Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions with respect to any report of the Commission submitted to Congress (in accordance with section 3(c) of this Act), and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(b) Terms of Resolution.—For the purpose of this section, "resolution" means only a joint resolution of the Congress—

(1) which does not have a preamble;

(2) the matter after the resolving clause of which is as follows: "That Congress approves the report of the Commission on Base Realignment and Closure submitted to the Congress by the President pursuant to the Defense Savings Act of 1988 on ", the blank space being appropriately filled in; and

(3) the title of which is as follows: "A joint resolution approving the report of the Commission on Base Realignment and Closure.".

(c) Introduction and Referral of Resolution.—

(1) Introduction.—After January 19, 1989, but no later than March 1, 1989, a resolution, as defined in subsection (b), shall be introduced (by request) in the House by the chairman of the Armed Services Committee of the House, or by a Member or Members of the House designated by such chairman, and shall be introduced (by request) in the Senate by the chairman of the Armed Services Committee of the Senate, or by a Member or Members of the Senate designated by such chairman.

(2) Referral.—A resolution described in paragraph (1) introduced in the House of Representatives shall be referred to the Committee on Armed Services of the House of Representatives. A resolution described in paragraph (1) introduced in the Senate shall be referred to the Committee on Armed Services of the Senate.

(d) Discharge.—If the committee to which the resolution described in subsection (c) is referred has not reported such resolution (or an identical resolution) by March 15, 1989, such committee shall be deemed to be discharged from further consideration of such resolution and such resolution shall be placed on the appropriate calendar of the House involved.

(e) Consideration.—

(1) Motion to proceed.—On or after the third day after the date on which the committee to which such a resolution is referred has reported, or has been deemed to be discharged (under subsection (d)) from further consideration of, such a resolution, it is in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House, on the next day after the day on which such Member gives notice to the presiding officer thereof, to move to proceed to the consideration of the resolution, and all points of order against the resolution (and against consideration of the resolution) are waived. The motion is highly privileged in the House of Representatives and is privileged in the Senate and is not debatable. The motion is not subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(2) Debate.—Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. An amendment to the resolution is not in order. A motion further to limit debate is in order and not debatable. A motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

(3) Vote.—Immediately following the conclusion of the debate on such resolution and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

(4) Appeals.—Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to such resolution shall be decided without debate.

(f) Consideration by Other House.—If, before the passage by one House of a resolution of that House described in subsection (c) that House receives from the other House a resolution described in such subsection, then the following procedures shall apply:

(1) The resolution of the other House shall not be referred to a committee.

(2) With respect to a resolution described in subsection (c) of the House receiving the resolution—

(A) the procedure in that House shall be the same as if no resolution had been received from the other House; but

(B) the vote on final passage shall be on the resolution of the other House.

SEC. 5. OTHER MATTERS RELATING TO THE COMMISSION.

(a) Public Hearings.—On December 1, 1988, the Commission shall publish in the Federal Register a tentative list of the military installations it plans to recommend for closure or realignment, and shall conduct, during December 1988, public hearings for the purpose of obtaining comments on such list which the Commission shall take into consideration in making its final recommendations to the Secretary.

(b) Staff.—The professional staff of the Commission should be selected on the basis of their training, experience, and attainments and in a manner that will assure the impartiality and independence of the Commission to the maximum extent feasible. To further assure such impartiality and independence, the professional staff of the Commission should be politically neutral and should be appointed on the basis of each individual's ability to perform the professional duties required by the Commission.

(c) Determining Costs and Savings.—

(1) Costs.—In determining whether to recommend the closure or realignment of any military installation, the Commission shall take into consideration the estimated costs of, and the feasibility of accomplishing, environmental restoration, removal of hazardous or toxic materials and ordnance, and historic preservation necessary to be carried out with respect to such military installation.

(2) Determination.—In carrying out paragraph (1) and in making estimates of expenditures to be made and cost savings to be realized from closing or realigning a military installation, the Commission shall take into consideration the estimated total costs to be expended by all agencies and instrumentalities of the Federal Government as a result of such closure or realignment.

(3) Report.—The Commission shall include in the report transmitted to the Secretary and the Congress under subsection (a) an accounting of the estimated expenditures to be made and savings to be realized by the Federal Government, as determined in the manner described in paragraph (2), from each such closure or realignment recommended by the Commission.

(d) Limitation.—The Commission may not recommend the closure or realignment of any military installation unless it makes a determination that the estimated total cost savings realized from the closure or realignment will, by the end of the 6-year period beginning with the date of the completion of the closure or realignment of the military installation, exceed the amount expended to close or realign the base. For purposes of making this determination, estimated cost savings and estimated expenditures shall be discounted to a present value, using an appropriate discount rate to be selected by the Commission.

SEC. 6. DEFINITIONS.

In this Act—

(1) Account.—The term "Account" means the Department of Defense Base Closure Account established by section 2(h)(1).

(2) Administrator.—The term "Administrator" means the Administrator of General Services.

(3) Closure.—The term "closure" means the termination or relocation of all functions at a military installation.

(4) Commission.—The term "Commission" means the Commission on Base Realignment and Closure established by the Secretary of Defense that is designated for purposes of carrying out this Act.

(5) Initiate.—The term "initiate" includes any action reducing functions or civilian personnel positions but does not include studies, planning, or similar activities carried out before there is a reduction of such functions or positions.

(6) Military Installation.—The term "military installation" means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department.

(7) Realignment.—The term "realignment" means any action which reduces or relocates functions and civilian personnel positions at a military installation, or both, without terminating all functions at the installation.

(8) Secretary.—The term "Secretary" means the Secretary of Defense.

(9) United States.—The term "United States" means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and any other Commonwealth, Territory, or possession of the United States.

AMENDMENT OFFERED BY MR. KASICH

Mr. KASICH. Mr. Chairman, I offer an amendment. The Clerk read as follows:

Amendment offered by Mr. Kasich: In the first sentence of section 5(d), strike out "6-year" and insert in lieu thereof "13-year".

Mr. DELLUMS. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from California.

Mr. DELLUMS. Mr. Chairman, just in order to correct the record, I wanted to say to my distinguished colleague and dear friend, the gentleman from Texas [Mr. Armey] that, when I referred to a boring debate, I was not referring to his exciting and eloquent remarks. I was talking about the debate in general.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, I am glad to thank my colleague for his kind comments and congratulate him on his perspicacity.

Mr. KASICH. Mr. Chairman, with that vital contribution let us go forward on that bill.

The amendment before us simply changes the formula in terms of calculating savings over the cost from 6 to 13 years, and the reason the amendment is important, and it is absolutely critically important, is that, if we do not adopt the 13 years, we are virtually passing a meaningless bill.

I think most people on the floor today recognize that the big vote today is going to be on the Armey substitute. If the Armey substitute goes down and the committee provision prevails, it is absolutely vital that we have the 13 years in there because without the 13 years and leaving it at 6 years, in this country we would be virtually closing down only 50 percent of the bases that we had originally targeted. With the 13-year provision we boost that back up to accomplishing basically what it is we sought to achieve.

Mr. Chairman, it is a responsible amendment because it does permit and does provide for environmental cleanup costs that both the gentleman and the gentlewoman from California [Mr. Dellums and Mrs. Boxer] sought, and, rather than carrying on much longer, I would like to yield to the chairman of the Committee on Armed Services. We do not need to get into a technical discussion of the amendment because it is technical unless there is a reason for it.

Mr. ASPIN. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from Wisconsin [Mr. Aspin].

Mr. ASPIN. Mr. Chairman, I appreciate the gentleman from Ohio [Mr. Kasich] yielding this time to me.

Mr. Chairman, I think that the amendment that the gentleman from Ohio is offering here is a clear improvement on the bill that is before us that came out of committee, and, as the gentleman will recall and those members of the committee who are here with us today will recall, we had an extensive discussion of this very issue as we were marking up the bill in the full committee. We did not have a solution to the problem that the gentleman in the well [Mr. Kasich] is now coming forth with, but we knew there was a problem. We knew there was a solution that could be devised.

Mr. Chairman, I think the gentleman from Ohio [Mr. Kasich] has come up with the solution to the problem, and I would urge all of the committee members and everybody here to support this amendment.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. KASICH. Mr. Chairman, I yield to the gentleman from New York [Mr. Martin].

Mr. MARTIN of New York. Mr. Chairman, I rise in strong support of the amendment of the gentleman from Ohio [Mr. Kasich].

Mr. Chairman, I would only differ with what the chairman said in the instance where he said it is a solution to the problem. It is a partial solution to the problem, and I think it goes a long way to making a very difficult set of circumstances much better.

As I said earlier on the floor, the object of the exercise here is to make sure that more bases can be considered and that we insure that no base is left unconsidered because it happens to have an environmental problem.

But with that statement I would just like to say that I support the amendment of the gentleman from Ohio [Mr. Kasich].

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, I thank the gentleman from Ohio [Mr. Kasich] for yielding to me.

Mr. Chairman, I want to express my support for the amendment of the gentleman from Ohio. I think it is a well conceived amendment. I think it should help the bill, and certainly we can find it acceptable.

Mr. FOGLIETTA. Mr. Chairman, will the gentleman yield for a point of clarification?

Mr. KASICH. I yield to the gentleman from Pennsylvania.

Mr. FOGLIETTA. Mr. Chairman, if there exists a base, which under other circumstances and other criteria should be closed according to this legislation, however, it would take longer than 13 years to clean up the toxic contamination that this bill would not cover.

This amendment would not cover that particular type of a situation; is that correct?

Mr. KASICH. The gentleman from Pennsylvania [Mr. Foglietta] is correct.

In fact, that kind of a base would be closed down under normal procedure.

Mr. Chairman, that is not the ideal situation as far as I am concerned, but it is the only situation that I think was politically doable through this Hosue to account for the environmental problem.

Mr. FOGLIETTA. Mr. Chairman, will the gentleman yield further?

Mr. KASICH. I yield to the gentleman from Pennsylvania.

Mr. FOGLIETTA. If the assumptions made earlier in debate, that according to the existing laws it is next to impossible to close a base, then, if we do have a base which is so contaminated or the worst contaminated bases in our Nation would not be affected by this expansion of 13 years; is that correct?

Mr. KASICH. Mr. Chairman, it would depend on what the cost of the cleanup was.

Mr. FOGLIETTA. If it was extended beyond 13 years.

Mr. KASICH. Mr. Chairman, it is not a question of beyond 13 years. If the savings that were made within 13 years do not outweigh the cost of cleaning it up, then that base cannot be closed. But, if we do not have 13 years and we stay with 6 years, then we get ourselves in a position where we are virtually closing no bases.

So, if the gentleman were to ask me if this is a perfect answer, no. If this is an improvement under the bill; it is such a dramatic improvement that it makes the bill meaningful again, as the gentleman from Texas [Mr. Armey] and the gentleman from New York [Mr. Martin] said.

The CHAIRMAN. The time of the gentleman from Ohio [Mr. Kasich] has expired.

(At the request of Mr. Davis of Illinois, and by unanimous consent, Mr. Kasich was allowed to proceed for an additional 3 minutes.)

Mrs. BOXER. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentlewoman from California.

Mrs. BOXER. Mr. Chairman, I would just like to state that the gentleman from Ohio [Mr. Kasich] is right on target with this amendment. It is an extremely important one because what the gentleman from California [Mr. Dellums] and I were concerned about the Committee on Armed Services was dealing with this bill is that we made sure that we put into place an environmental restoration plan.

Now when the gentleman from Texas [Mr. Armey] states that he took the best from each committee, I would beg to differ with him very strongly because he does not have in his bill an environmental restoration plan. However, the bill that we are working on now does.

Now, Mr. Chairman, in order to really not just be saying we are great and we are for cleanup, we have got to put some money behind that effort, and we have to extend the number of years in which we expect this bill to be revenue-neutral. That is what the gentleman has done, but I would like to go on record as saying that I strongly support the gentleman in this regard. I only support the gentleman if the environmental restoration plan remains in the bill.

Mr. Chairman, I would like to ask the gentleman if he agrees.

Mr. KASICH. Mr. Chairman, it absolutely does, and that is why I changed the formula rather than yank the environmental cleanup out. That is why I think it solves all these problems.

Mr. MONTGOMERY. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from Mississippi.

Mr. MONTGOMERY. Mr. Chairman, I am a little confused on the amendment of the gentleman from Ohio [Mr. Kasich]. As I understand it, the Secretary of Defense asked when he chartered this special Commission to close the bases that it be on a 6-year period. The amendment of the gentleman goes to 13 years. Is the Secretary in agreement with the gentleman from Ohio [Mr. Kasich] on this amendment?

Mr. KASICH. Yes, Mr. Chairman, the Secretary of Defense supports this amendment because, when we added the environmental cleanup costs in, it was necessary to extend the time period in which we calculated savings. Now the administration and the Pentagon both are in support of this amendment in an effort to expedite the closing of unnecessary bases.

Mr. MONTGOMERY. If some Members accept the gentleman's amendment, would he be willing not to offer the next amendment?

Mr. KASICH. Mr. Chairman, I think the next amendment is an entirely different issue, but I appreciate the gentleman's contribution.

Mr. DELLUMS. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I yield to the gentleman from California [Mr. Dellums], the chairman of the subcommittee.

Mr. DELLUMS. Mr. Chairman, I thank the gentleman from Ohio [Mr. Kasich] for yielding this time to me.

Mr. Chairman, just to set the record, the original version of the bill stated that a base could not be closed unless savings could be realized by 6 years. The gentlewoman from California [Mrs. Boxer] and this gentleman from California insisted upon placing funds in the bill that would allow for environmental restoration and a cleanup, so we insisted upon a toxic waste cleanup provision that would require additional funds. Once the gentleman accepted that, then, as I understand it from talking with the Pentagon, they stated to him that with the addition of the new revenues and new responsibilities that to insist upon the 6-year cutoff to make it revenue-neutral and begin savings that they could virtually not close many bases in order to do that. So the gentleman is taking it out now to 13 years, and by moving the provision from 6 years to 13, he can accomplish base closures and we can simultaneously accomplish the desired effect of continuing to clean up those bases that are purported to be closed.

Mr. KASICH. Mr. Chairman, I could not have put it better myself. The gentleman from California [Mr. Delums] is exactly right.

The CHAIRMAN. The time of the gentleman from Ohio has expired.

(At the request of Mr. Dellums, and by unanimous consent, Mr. Kasich was allowed to proceed for 1 additional minute.)

Mr. DELLUMS. Mr. Chairman, will my distinguished colleague from Ohio [Mr. Kasich] continue to yield to me?

Mr. KASICH. I yield to the gentleman from California.

Mr. DELLUMS. Mr. Chairman, then based upon that, then I would suggest to all of my colleagues that the gentleman from Ohio [Mr. Kasich] has offered a meritorious amendment and that it should be supported by all of our colleagues. Those who want to, on the one hand, close bases, this 13-year expansion allows that to take place. Those who are very concerned about environmental cleanup and environmental restoration, they can rest assured that this provision allows that to go forward.

Mr. Chairman, the gentleman from Ohio [Mr. Kasich] had another alternative, and that was to go in the bill and challenge the effort that the distinguished gentlewoman from California [Mrs. Boxer] and this gentleman made in trying to put the environmental cleanup provision in the bill.

But it seems to me the gentleman showed great integrity and great love of the environment by not going in that regard, and so this gentleman wishes to support my colleague.

Mr. KASICH. Mr. Chairman, let me just say to the gentleman from California [Mr. Dellums] that many say he is articulate, but I must stand here today and say that I think he has never been more accurate or more articulate. I appreciate the gentleman's contribution.

The CHAIRMAN. The time of the gentleman from Ohio [Mr. Kasich] has again expired.

(By unanimous consent, Mr. Kasich was allowed to proceed for 30 additional seconds.)

Mr. KASICH. Mr. Chairman, the amendment is a good attempt to take care of what I think is a serious problem, and I appreciate the bipartisan support, and I think that we should make this a much better bill, and we will take care of our environmental problems as well.

Mr. Chairman, I yield back the balance of my time.

Mr. MARTIN of New York. Mr. Chairman, I rise in favor of the amendment.

I will not take the 5 minutes, Mr. Chairman, but I do feel this is one of the most important amendments that we are going to be considering, and it has to be readily understood. If it were me writing the bill, I would not have had the 6-year requirement payback. I would not have had the 13-year requirement payback. The object of this whole exercise is to try to streamline the number of bases we have.

But, Mr. Chairman, the gentleman from Ohio [Mr. Kasich] is being very practical, and he is being very cooperative with the body, the committee, and everyone else to arrive at a result that we ensure that bases that do not have environmental problems are not kept open for that sole reason that it has environmental problems that we are going to have to clean up sooner or later anyway. I would hate to have a situation where we make a decision that as between two bases we are going to close one that is clean environmentally and keep one open that is filthy environmentally, and that, I think, is the gravamen of the gentleman's amendment, and I support it.

With that, I yield back the balance of my time.

□ 1445

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. Kasich].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. KASICH

Mr. KASICH. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Kasich: In section 2(a)(1), strike out "if such report is approved" and insert in lieu thereof "unless such report is disapproved".

In section 2(a)(2), strike out "approved report" and insert in lieu thereof "report unless such report is so disapproved".

Strike out section 4 and insert in lieu thereof the following:

SEC. 4. CONGRESSIONAL CONSIDERATION OF COMMISSION REPORT.

(a) In General.—The Secretary may not carry out any closure or realignment under this Act if, within the 45-day period beginning on March 1, 1989, a joint resolution described in subsection (b) is enacted disapproving the recommendations of the Commission. The days on which either House is not in session because of an adjournment of more than 3 days to a day certain shall be excluded in the computation of such 45-day period.

(b) Description of Resolution.—For the purpose of subsection (a), the term "joint resolution" means only a joint resolution which is introduced after the date on which the report of the President referred to in section 3(c) is received by Congress and—

(1) which does not have a preamble;

(2) the matter after the resolving clause of which is as follows: "That Congress disapproves the recommendations of the Commission on Base Realignment and Closure established by the Secretary of Defense as submitted to the Secretary of Defense on ______", the blank space being appropriately filled in; and

(3) the title of which is as follows: "A joint resolution disapproving the recommendations of the Commission on Base Realignment and Closure.".

(c) Referral.—A resolution described in subsection (b) introduced in the House of Representatives shall be referred to the Committee on Armed Services of the House of Representatives. A resolution described in subsection (b) introduced in the Senate shall be referred to the Committee on Armed Services of the Senate.

(d) Discharge.—If the committee to which a resolution described in subsection (b) is referred has not reported such resolution (or an identical resolution) by March 15, 1989, such committee shall be deemed to be discharged from further consideration of such resolution and such resolution shall be placed on the appropriate calendar of the House involved.

(e) Consideration.—

(1) Motion to proceed.—On or after the third day after the date on which the committee to which such a resolution is referred has reported, or has been deemed to be discharged (under subsection (d)) from further consideration of, such a resolution, it is in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House, on the next day after the day on which such Member gives notice to the presiding officer thereof, to move to proceed to the consideration of the resolution, and all points of order against the resolution (and against consideration of the resolution) are waived. The motion is highly privileged in the House of Representatives and is privileged in the Senate and is not debatable. The motion is not subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(2) Debate.—Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. An amendment to the resolution is not in order. A motion further to limit debate is in order and not debatable. A motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

(3) Vote.—Immediately following the conclusion of the debate on a resolution described in subsection (b), and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

(4) Appeals.—Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution described in subsection (b) shall be decided without debate.

(f) Consideration by Other House.—If, before the passage by one House of a resolution of that House described in subsection (c) that House receives from the other House a resolution described in such subsection, then the following procedures shall apply:

(1) The resolution of the other House shall not be referred to a committee.

(2) With respect to a resolution described in subsection (b) of the House receiving the resolution—

(A) the procedure in that House shall be the same as if no resolution had been received from the other House; but

(B) the vote on final passage shall be on the resolution of the other House.

(g) Rules of Senate and House.—The procedures contained in subsections (c) through (f) are enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of a resolution described in subsection (b), and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

Mr. KASICH (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the Record.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. KASICH. Mr. Chairman, this amendment is one that addresses the question of approval or disapproval. This really gets to the nub of the issue. I think by putting the 13 years in, we have significantly improved the bill, but we still have in my judgment several other flaws. This one can be or could be a fatal flaw.

This is one that says that after the Commission comes back and makes its recommendations, the Congress has to go forward and approve the list.

What my amendment does this afternoon is to say that rather than the Congress having to move and take affirmative action or approving the list, rather the Congress then must instead take action to disapprove the list.

I do not think I need to take the full 5 minutes to explain the significance of this, but I think people in the House are very aware of the fact that if the House of Representatives has to move to take positive action again to close bases down, the likelihood of that happening, the likelihood of that going through the Rules Committee, the likelihood of that getting through the various standing committees, like the Armed Services or the authorizing committee or the appropriating committee, the chances of getting through the Senate and through the conference committee, that labyrinth of activity that would be required to approve something, I think we all recognize the fact that we make the process of closing bases infinitely more difficult.

So what this amendment attempts to do is to say that the Congress should only disapprove of the list.

Frankly, from a political point of view, from the point of view of the membership of this House, if we are going to have base closings, I think it makes far greater sense from a political perspective for yourselves to not to be held responsible for being able to stop a bill from coming up. It is much easier to be able to make the argument that, "I tried to get a resolution of disapproval, but the Congress just simply wouldn't buy it."

From a political point of view, I think you have got a stronger position to argue from. If we have to approve this resolution, in my judgment, you are on the hot seat. You are in a more tenuous position then frankly when you get right down to it, as the opponents of this legislation would argue. What they hope is that by requiring approval, rather than disapproval, frankly, they will kill the bill. We will never get base closings, because the Congress, the House and the Senate, will frankly never pass an approval resolution.

If, in fact, you support base closures, and let me tell you about the bill, the bill says that when you close a base down you have to clean the environment. The bill says that if you have unemployment in your community, we will have retraining funds. If your community is going to be adversely impacted, we are going to have money available to help the community.

Now, look, that is a well thought out sensitive piece of legislation that the Committee on Armed Services was able to adopt. We have accommodated the environmental problems. We have accommodated the real economic problems. We have accommodated the real human problems that can arise as a result of trying to close bases, and we have answered it in the most thoughtful way; so why do not we as a Congress have the courage to stand up and do what the American people really want, and I think we all know what they really want to happen, at least generally they want it to happen, they might not want it to happen in their backyards, but they want it to happen all across this country and say that unnecessary bases that are open ought to be closed, and that in the process of closing them we are going to take a sensitive and thoughtful approach.

Please approve this amendment. Please give the Congress the ability to disapprove if the list is so bad, but do not force us to jump through the many hoops and all the crazy maze of trying to pass additional legislation to actually close military bases.

Let us strike one for the taxpayers. Let us do what it is they want us to do and let us support this amendment and get on with the business of running the Pentagon as efficiently as we possibly can.

Mr. KYL. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I am happy to yield to the gentleman from Arizona.

Mr. KYL. Mr. Chairman, may I ask the gentleman, is it correct that his amendment would restore the language in the House Armed Services Committee as to how the bill would operate?

Mr. ASPIN. That is exactly right. It is a bill, by the way, that passed unanimously through the committee with a great amount of consideration and is a provision that people on both sides of the aisle in both Houses, in many cases, support. It is just a question of whether we want to have an effective bill or whether we want to delay the ultimate process of closing bases and perhaps even making it impossible.

Mr. KYL. Mr. Chairman, if the gentleman will yield further, I think that it is why it is critical to have this amendment adopted and I fully support the amendment.

Mr. BROOKS. Mr. Chairman, I move to strike the last word, and I rise in opposition to the amendment.

Mr. Chairman, I hope the House will endorse a provision for an affirmative vote by the Congress in this matter and will reject this amendment providing for a vote of disapproval. The legislative branch's responsibility for disposal of Federal property is as old as our Constitution. In promoting the goal of expediting the identification and closure of military installations that have outlived their usefulness, there is no need for us to turn our backs on the provision of article 4 which states, "The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States * * *."

Regrettably, a resolution of disapproval would pay lipservice to the idea of providing a congressional role in the base closure decisionmaking process, while denying such a role in practice. The reason is one of simple mathematics. On the one hand, if either House of Congress were to take no action or if only one House passed a disapproval resolution, the closures and realignments would go forward. On the other hand, even if majorities of both Houses of Congress were sufficiently concerned about the Commission's recommendations to pass a joint resolution of disapproval, such a resolution would still be subject to a Presidential veto.

A veto would, of course, be likely since the resolution would be disapproving what the executive has proposed. Then, it would take two-thirds majorities in both Houses of Congress to effectuate the Congress' expression of disapproval. In other words, a resolution of disapproval would allow as few as 34 Senators, working with one Chief Executive, to block the will of the 535 Members of Congress.

No matter how laudable the abstract goal of closing unneeded military installations might be, it should be recognized that the "base closure commission" concept, in any form, constitutes a significant transfer of power from elected representatives of the legislative branch to unelected officals in the executive. I believe that it would be a serious mistake and a dangerous precedent for the Congress to hand over constitutionally based authority in a mechanism that provides nothing more than window dressing for our branch of government. That is what a resolution of disapproval procedure would do, and that is why I hope the House will preserve the provision for an affirmative resolution of approval.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. BROOKS. I yield to my distinguished friend, the gentleman from New York.

Mr. MARTIN of New York. Mr. Chairman, I thank the gentleman from Texas for yielding to me and explaining procedurally what would be required, depending on which version of this bill we adopt as far as congressional oversight approval or disapproval.

The gentleman from Ohio when he joined the committee, believe me, we have an appreciation for his efforts. There has been no one who has been on the committee since I have been here who has been more energetic, more intelligent or hard working, and it pains me, quite frankly, to oppose the gentleman's amendment; but when the gentleman pointed out that we ought to have the courage to stand up and vote on these kinds of pieces of legislation, he pinpointed the issue.

When this report comes out, if a body that is devoid of politics, such as this panel is supposed to be and makes recommendations, and if at that time it cannot pass the scrutiny of the Congress, then that perhaps ought not to be the law of the land.

What we would do in effect, it is this gentleman's opinion, is to abdicate our responsibility as far as oversight in making those kinds of decisions.

Our chairman, the gentleman from Texas [Mr. BROOKS] pointed out that this is the key element, that as far as review by Congress of any recommendation that is made by this panel, if we disagree it is going to require a two-thirds vote, as a very practical matter, of both this body and the other body to disapprove.

Why can we not stand up and make the important decision, and if it is a good recommendation by the panel, vote by a fair majority, as all bills pass this House, to insure that that legislation becomes the law of the land and those bases are closed or realigned.

So reluctantly, I oppose the amendment of the gentleman from Ohio, this amendment, and salute the gentleman from Texas for his very concise explanation.

Mr. ASPIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, let me say that I am going to vote in this case for the Kasich amendment because I believe that the Kasich amendment is better slightly than the alternative, and it was indeed the position of the Armed Services Committee.

But let me tell you this. I believe that the issue is in fact less than meets the eye here in this debate.

First of all, we are, whether we vote for a negative disapproval or a positive approval, if we vote either negatively on the list or positively on the list, the House is getting a vote on the issue.

Second, there are expedited procedures in the legislation either way. There are expedited procedures that prevent the vote from being blocked in the committee, being filibustered in the Senate or held up in other ways, expedited procedures either whether we vote negatively as a disapproval, or positively as an approval.

Third, it is my impression that the list as presented by the Secretary of Defense and voted on by the Congress, either way, I believe that the list will be approved. I believe that the politics, if you look ahead to the vote that will occur next January under this legislation, the committee will report and Mr. Carlucci, the outgoing Secretary of Defense, will have the option to take the list of bases presented by the Commission and send it forward as a recommended list to be closed. We will then get a vote under it either way. Either we will vote a positive vote or a negative vote.

I believe that the vote to approve that list will be made no matter which vote we have, and the reason is because the people whose bases are not on the list will vote in favor of the legislation, because they know that this legislation will settle the issue once and for all, at least for 10 years or maybe 15 years.

If your base is not on that list that is sent forward next January, you would be most anxious to have that base list approved because then your base is safe. If that list is rejected, then maybe your list will be back on the chopping block and have a vote on it in some other way.

So I think that the politics runs that let us say a list of 22 bases comes forward to be closed, there will be 22 votes in this House absolutely for sure against the legislation, whether it is a positive vote or a negative vote; but the other side of the question is that all other Congressmen, the other 410 Congressmen whose bases are not listed, they will be anxious to vote for closing the 22, because whatever bases they have in their districts will then be safe for 10 years.

So I think that the politics of the thing does not make much difference, whether it is a negative vote or a positive vote, expedited procedure, either way Congress gets its say and the list gets approved either way.

The big difference is, as the gentleman from Texas [Mr. BROOKS] has pointed out correctly, that if it does come down to a congressional disapproval, then the President could veto it and the question is the two-thirds to override.

But basically, I do not see that happening, because I think that the politics of this thing is going to be regardless of how frantic 22 Members of this body are to be sure that the Congress votes against approval of that list, in fact the politics is going to be that that list gets approved.

I do support this, because it came out of our committee. I supported the amendment of the gentleman from Ohio, because I think it is a little cleaner way of doing it. I think it is a little clearer that this is an issue under which Congress does not have a role. I think it is a little bit less of an incentive on our Congress.

If it were my choice, I would have no vote at all. If it were my choice, I would have the legislation written so that we do not have a vote on it at all. That I understand it totally out of the question.

In light of that, I think the amendment of the gentleman from Ohio is better, but I do not think it is a big issue either way.

Mr. KASICH. Mr. Chairman, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Ohio.

□ 1500

Mr. KASICH. Mr. Chairman, under my amendment, if this amendment should pass, Congress would never have to vote on the issue. If this is defeated, Congress would then be forced to vote on the issue. Is that not correct?

Mr. ASPIN. Mr. Chairman, we have to vote on the issue whether the gentleman's amendment passes or not. It is just a question of whether we vote to disapprove the list or whether we vote to approve the list.

Mr. KASICH. Assuming though there is a request for disapproval, that request may never come; people may never be forced to be on the record for that.

Mr. ASPIN. That is correct.

Mr. FOGLIETTA. Mr. Chairman, I move to strike the last word.

Mr. Chairman, with all due respect to my chairman and to the gentleman on the opposing side who are stating that the only difference is whether we vote to approve or disapprove, I must state that that is incorrect as stated by the gentleman from Texas [Mr. BROOKS].

The fact is that it is a big difference. The difference is whether it is a majority or a two-thirds vote, and that is a very significant difference, whether it is a majority or a two-thirds vote. Second, let me state that I do not see why the attitude has to persist in this body that the only time anything admirable, anything noteworthy can be achieved is if and when we abdicate our responsibility to some appointed official or to some other body. I believe that this Congress, this House, has the ability, has the honor, has the dedication to perform those duties we are elected to perform without abdicating our responsibility to someone else.

Mr. MONTGOMERY. Mr. Chairman, will the gentleman yield?

Mr. FOGLIETTA. Mr. Chairman, I am happy to yield to the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Chairman, I appreciate the gentleman's rising, and I certainly am in opposition to the Kasich amendment.

I think what the gentleman from Pennsylvania has said as well as what the gentleman from Texas [Mr. BROOKS] has said, who is really the author of this approval resolution, makes a lot of sense. Really, the dignity of the House is at stake here, too. Precedence has been set. We do approval. We did not do it on Gramm-Rudman, and people are concerned about that. We had the disapproval resolution, and I would certainly hope that we would defeat this amendment.

Mr. Chairman, I would rather have approval than disapproval, and as pointed out by the gentleman from Texas [Mr. BROOKS], and I disagree with the chairman that I think we have a better chance if we do have approval and not have to get a two-thirds vote to override the President of the United States. It is much easier to get a simple majority in this House than it is to get a two-thirds vote.

Mr. Chairman, I hope we would defeat this amendment. It is a bad amendment. It really was not explained in the full committee. We took no time, and we did not have an opportunity to vote the bill up or down in the committee. It was done by voice vote, and certainly this is one of the worst amendments that would be offered.

Mr. FOGLIETTA. Mr. Chairman, reclaiming my time, I stand in opposition to the amendment, and I urge my colleagues to do likewise.

Mr. Chairman, I yield back the balance of my time.

Mr. DICKINSON. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I will just very briefly say that while my chairman and I do not always agree, I think he has explained the differences as well as can be explained. I do agree with him. I do support the amendment for the reasons stated.

Mr. Chairman, I would just like to say that the arguments that we are abrogating our responsibility are certainly spurious. We are going to get the last bite at the apple anyway it goes.

For us to say to use a two-thirds vote as a veto override, that is really not very realistic. We are not going to get a bill sent over here by the Secretary of Defense that the President would veto. Members should not worry about a two-thirds vote, if it gets over here. We will get a vote, and it will be either voted up or down at that time, but it is going to be a package deal, and we will not be able to pick and choose.

I really think that our committee's way, as explained by the chairman, the gentleman from Wisconsin [Mr. ASPIN] is the best way, and I would urge support for the amendment.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I am happy to yield to the gentleman from New York [Mr. MARTIN].

Mr. MARTIN of New York. Mr. Chairman, I want to make sure everybody understands that the ranking member pointed out that the two-thirds vote perhaps did not make that much difference, and I think it does.

Mr. Chairman, does the gentleman foresee the President, whoever he might be, approving this list and then signing the bill, that the Congress would decide that we wanted to reverse that action; would not the gentleman think that the President would veto that and then require a two-thirds vote of both Houses?

Mr. DICKINSON. Mr. Chairman, reclaiming my time, I do not think I am following what the gentleman is saying. What I said was I would be surprised, more than surprised, if the Secretary of Defense sent a package over to us which, if we passed it, the President would veto it. It is not going to come over here. If the package we vote on has to go back and be vetoed, it is not going to come over here to start with.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I am happy to yield to the gentleman.

Mr. MARTIN of New York. Mr. Chairman, that is the confusing procedural issue that we are up against that is going to require the two-thirds vote that the chairman, the gentleman from Texas [Mr. BROOKS] talked about, because any disapproval by this body is certainly going to invite a Presidential veto and require that we override it.

Mr. ASPIN. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. Mr. Chairman, I am happy to yield to the gentleman.

Mr. ASPIN. Mr. Chairman, let me just try to respond to the gentleman from New York [Mr. MARTIN] on this issue. The important thing here is the two-thirds veto only becomes important if the legislation is so controversial that it does not pass under an affirmative vote and would pass under a negative vote. The point that I was making earlier is that whatever list is sent over is going to be approved overwhelmingly, whether we vote for the list or whether we vote down a resolution to disapprove the list; no matter how we vote on it, it is going to be approved by a large amount of votes, because everybody whose base has not been listed will be so relieved they will vote for it. This two-thirds/50-percent issue is not going to arise next January. That is the point. That is why I say I do not think it makes much difference. I think it matters to our colleagues, because I think that unfortunately what is going to happen is the gentleman from Philadelphia who has a base on the list and which he does not want to see closed, and the Pentagon or the Commission recommends that it be closed, if we put a vote in here, the gentleman is going to be expected to be able to deliver his colleagues, and his constituents are going to say, "Why were you so ineffective that you could not deliver your colleagues to save our base here?" Whereas, the point is the reason the gentleman will not be able to do that, everybody is so relieved their base is not on the list they are going to vote for the list, so the problem of the amendment of the gentleman from Texas [Mr. BROOKS] and the problem with the legislation as it now exists, which Mr. KASICH is trying to correct, is it is going to put our colleagues in a tough spot, where their constituents are going to be expecting them to be able to deliver. I frankly do not believe that they are going to be able to deliver, and that is why I think the Kasich amendment is better than what we have got.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. Mr. Chairman, I am happy to yield whatever time I have left to the gentleman.

Mr. MARTIN of New York. Mr. Chairman, basically I respect the chairman, but I do not agree with the scenario that everybody is going to jump for this list if their base is not on it. I do not agree with that. We will wait and see. The point is that if the requirement is for a piece of legislation to pass the House, as the gentleman from Ohio [Mr. KASICH] talks about, as a motion of disapproval, it is highly improbable that the President, whoever he might be, is going to sign the disapproval resolution because, after all, it is his Secretary of Defense that recommended approval.

Mr. DELLUMS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I tried to listen to the debate, and I would like to elicit the attention of my distinguished colleague, the gentleman from Ohio [Mr. KASICH], the author of the amendment. I would like to argue just the reverse of what has just been argued in defense of the gentleman's amendment.

Mr. Chairman, first of all, if a Member has a resolution, and let me back up, the motivation is to remove the politics and the pressure from this decision. Is that not correct?

Mr. KASICH. Mr. Chairman, that is correct.

Mr. DELLUMS. Let me argue this point: If we have a resolution of approval and the House of Representatives votes affirmatively on a resolution of approval, I would suggest then that those Members of Congress parochially affected by that list; that is, facilities on the list, would then have great difficulty going to the Committee on Appropriations for measures to limit expenditures for the purposes of expediting the list, because the Members of the Committee on Appropriations will say, "Look, we cannot do that, because the Congress has already acted affirmatively."

Let us move that aside for a moment and go to the gentleman's approach, resolution of disapproval. Let us say, Mr. Chairman, that the House of Representatives because of the controversial nature of the list, the majority of the House of Repreentatives votes in favor of a resolution of disapproval, the result being, and let me finish my point and we will argue the gentleman's case, and the resolution of disapproval goes back, the President vetoes it, the Members then have a two-thirds responsibility. What would then stop any Member of Congress then from going around the back door, given the resolution-of-disapproval approach, from saying to my colleagues, "I need some relief; give me a resolution limiting expenditures that no money shall be appropriated for the purposes of closing 'X' base in 'Y' State?" I would suggest to the gentleman that there will be greater frequency of that particular set of activities with a resolution of disapproval than with a resolution of approval, because with the Congress operating affirmatively, everybody in this body will have seen the fact that the Congress has operated affirmatively. If the gentleman can show me a resolution of disapproval, I will show him Members going behind the resolution of disapproval every single day and every single one of us in here with any ability to develop collegial relationships with our colleagues has at least one friend on the Committee on Appropriations that would do our bidding, and I would suggest to the gentleman, with all due respect, and I know that my colleague's motivations are beyond reproach, and I certainly do not question them. But I am simply saying that on the basis of the logical presentation of ideas, I am not sure that the gentleman achieves what he wants to achieve with the resolution of disapproval.

Mr. Chairman, let me add just this one other comment: I know that one of the great activities in this body is to engage in the process of self-flagellation, whether one is a late-night TV host or a talking head on the news or a Member of Congress, one way to get a quick laugh is to make a political joke. I did not come here to be a political joke. This is serious business, a serious body, and we engage in life-and-death decisions on a daily basis, but we constantly engage in this self-flagellation game as if we cannot do any business.

Just the other day I stood on this floor as the chairman of the Committee on the District of Columbia arguing with many of the Members saying, "Do not overturn the District of Columbia's residency requirement rule." I understood that my colleagues from northern Virginia and Maryland were about the business of doing the bidding of their constituency that forced us into being a city council on the floor of the U.S. Congress, but that did not stop any of the majority of this body from striking down the residency requirement, slapping the face of several thousand human beings in the District of Columbia. I opposed that decision, but I did not oppose the Members' right to do it, because they did it. That is what this process is all about, the ability of each and every individual Member of this body to get up and to fight, to fight for what they believe in. That is why I came to Congress. That is why I got off the streets with the demonstrations and the picket signs, because in the 1960's, somebody told me, "Take your struggle onto the floor of Congress and fight, and fight for what you believe in." You folks are now telling me that this process is a b.s. process, and you are telling me that this is a lightweight process. You are telling me that you have got to engage in some kind of formula development to make Members of Congress live up to their responsibility.

The CHAIRMAN. The time of the gentleman from California [Mr. DELLUMS] has expired.

(By unanimous consent, Mr. DELLUMS was allowed to proceed for 2 additional minutes.)

Mr. DELLUMS. Mr. Chairman, I was elected here to assume these responsibilities, not to give them to another branch of government, not to hide behind some formula, "Let Mikey do it, let somebody else do it, let the formula do it, let a two-thirds vote do it, let the President do it, let a commission do it."

What the heck were we elected for? For us to try to do it. If we are about the business of wanting to close bases, I would suggest to my colleagues let us get on with it.

Mr. Chairman, I take a second to no one in this body in raising my voice in the name of peace and challenging the insanity of spending multibillions of dollars pouring it down a rathole in Virginia known as the Pentagon as we continue to engage in the politics of war and militarism, but if we are going to talk about saving money, we have got a responsibility to do it.

I am saying that if the President can make an affirmative statement, why can we not, as Members of Congress, make an affirmative statement? Why are we always backing into the decisions as if in some way we were second-class citizens? I fought to be a first-class citizen, and I did not come here to Congress to be second class to anyone including the executive branch.

Mr. KASICH. Mr. Chairman, will the gentleman yield?

Mr. DELLUMS. I am happy to yield to the gentleman.

Mr. KASICH. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, let me say that if we made our decisions in the Congress based on that, we would have closed these military bases down 15 years ago. If we made these decisions entirely on the merits and parochial interests did not play a role, these bases would have been closed down 15 years ago, and I think this is a great day in the House of Representatives that we are finally going to pass legislation that is going to enable us to close down unnecessary bases that should have been closed down 15 years ago.

All I am trying to do is be pragmatic. I am saying the membership here and now should vote we want to close bases, and we support the concept, and we are vesting the Commission to look at it on a nonpartisan basis and make a decision based on the merits.

The CHAIRMAN. The time of the gentleman from California [Mr. DELLUMS] has again expired.

(By unanimous consent, Mr. DELLUMS was allowed to proceed for 2 additional minutes.)

Mr. DELLUMS. Mr. Chairman, this business about voting, we are here to vote, but we are now here debating, and we will vote at the appropriate time. All of these vote-birds ought to be quiet for a minute.

Mr. Chairman, I yield to my colleague, the gentleman from Ohio [Mr. KASICH].

□ 1515

Mr. KASICH. I appreciate the gentleman yielding. One of the reasons we do not call up the War Powers Act every week on the Persian Gulf is one basic reason, because rather than having to take a vote on that we would rather let the policy go along and not have to be recorded, because if we get recorded then we are taking an overall position and judging the overall policy. So what we do is we do not call up the War Powers Act. We let things continue to go in the gulf until we get stirred up enough here that we decide we had better take a vote on it.

What I am arguing in this case is politically wrong. The gentleman wants to close bases that are unnecessary. So do I. The gentleman wants to eliminate Pentagon waste and so do I. What is the easiest way to eliminate Pentagon waste? The easiest way to eliminate Pentagon waste in this case is to let the Congress of the United States, the House of Representatives of the United States say today we favor base closings, and if we do not like the list that the Commission comes out with we will knock it down. If we like the list that the Commission approves, we are not going to waste the taxpayers' money and we are not going to waste our time by approving something.

What we are saying is we are going to vest the Commission, we are going to say you come up with the list, and if the list makes sense we are not going to take it up in here. It is only if we think the list is no good that we reserve the right to act.

That gives us the greatest chance in the world of eliminating Pentagon waste, and that is why I think the amendment makes so much sense.

The CHAIRMAN. The time of the gentleman from California [Mr. DELLUMS] has again expired.

(By unanimous consent Mr. DELLUMS was allowed to proceed for 2 additional minutes.)

Mr. DELLUMS. Mr. Chairman, I might just add as an aside that the vote-birds are disrespectful human beings. We are here to engage in a process of election. We are going to be out on Friday, Saturday, and Sunday. At least let us take Thursday and do the business we are supposed to be doing.

Having said that, Mr. Chairman, I would like to say to my colleague from Ohio [Mr. KASICH] that I respect him and I agree with everything the gentleman is saying. We need to challenge the Pentagon on waste. We are looking at a scandal going across the tubes and the newspapers every single day right now, so we have to engage in that.

I think we need to take the world to peace. I think we need to close bases that make no sense. We need to save taxpayers' dollars, move them into other appropriate programs to enhance the quality of human life for people in this country and people around the world who are living in pain because we are indeed a great Nation.

I would simply say, however, that I disagree with the gentleman's judgment. The gentleman has two amendments. I might say, as one of my colleagues, I stayed with the gentleman as long as I could, and I was with him on the first amendment. I cannot be with him on the second amendment. The reason I cannot be with him on the second amendment is because I do not agree with his judgment. I think we ought to have an affirmative vote. Let us face it straight up or down, and if people in America look at that vote and say you should have closed bases and you did not, then they ought to get rid of the tapdancers in this Congress. Maybe there are too many tapdancers in here now. But we should not be hiding behind formulas and formats that do not force us to step up to the plate and swing strongly.

I honestly believe profoundly and in my guts and in my brain that a resolution of disapproval, I would say to the gentleman from Ohio, is going to create a number of back door contacts with the Appropriations Committee where Members are going to be asking to limit funds in order to do it. I think we ought to face the issue cleanly and squarely and upfront. We do not need a two-thirds vote.

Why do we have a two-thirds vote in this situation when it only takes a majority vote for us to engage in a whole range of activities? I do not think we need a two-thirds vote and I think the gentleman would be creating more politics.

Mr. BATEMAN. Mr. Chairman, I move to strike the requisite number of words. I will try not to consume that long.

Mr. Chairman, I think it is time that we put this thing into a perspective which is orthodox and responsible for a lawmaking body. I am not sure much of the discussion has focused on that.

I think it is important that we remind ourselves that under this bill, whether it stays as it is or whether the proposed amendment is adopted, we have a procedure which says to a commission come up with a list of bases you think should be closed. We say to a Secretary of Defense accept or reject everything that is on that list, and then we say to ourselves send that list to us and we cannot change any of it, we must accept it all or reject it all.

Under that context do we really want something that says that we have gone through all of that and it comes to us and that we must specifically pass a resolution of disapproval and then override an almost certain Executive veto, because surely they would not veto it if they had approved sending it over here to us? I do not want that degree, that order of abdication of our responsibility.

My distinguished chairman and ranking member and others have laid out for the Members certain scenarios as to what is more or less likely to occur, all of which are founded in a degree of cynicism that quite frankly I am not totally comfortable with. I am willing to close unnecessary, costly, unjustified military facilities. I am willing to support a procedure by which we can identify those which are and then stand up and make responsible decisions. I am not willing to abdicate all decision making to this proposition and an anonymous commission, however, distinguished, who may have to review 800-some domestic bases between now and the end of this year operating largely and already with a staff which comes to them from the bosom of the office of the Secretary of Defense, with whatever number of hit lists they may have based on ancient staff studies of which I know not.

This is not a thing which we should take lightly. This is not a thing where we should be abdicating our responsibility, certainly not to the extent of saying that even if this Congress rises up and disapproves of some egregious mistakes in a list that is sent over here that that is it, that we are powerless to do anything about it by a majority vote, that we must at least, at the very least be able to muster a two-thirds majority vote.

This I think is folly. We ought to defeat this amendment.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. BATEMAN. If I have 45 seconds remaining, I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, I thank the gentleman for yielding.

Let me just say the Kasich motion for disapproval is exactly the provision adopted by the Armed Services Committee, it is a provision that I adopt in my amendment and the Senate adopted that provision by a vote of 83 to 13. It is a provision that allows the Commission's work to go forward unless we disapprove of it.

Mr. BATEMAN. I would like to reclaim my time and respond. There was no focus on the realities of this proposition in the Armed Services Committee. I cannot speak for the quality of debate in the Senate of the United States. I will say that my judgment on this issue has been formed on this floor during the only meaningful debate on this aspect of the subject that I have heard.

Mr. FOGLIETTA. Mr. Chairman, will the gentleman yield?

Mr. BATEMAN. I yield to the gentleman from Pennsylvania.

Mr. FOGLIETTA. Mr. Chairman, as a point of information I would like to let the gentleman know that according to my calculations, if this Commission were to visit every one of the 800-some bases before making a report, they would have to visit 7 bases a day starting tomorrow morning for every day until the time that they were required to submit that report, 7 bases a day. That is if they did not work on weekends. If they worked on weekends they would have to visit at least five bases every day between now and the date.

Mr. BATEMAN. I thank the gentleman for that information and I yield back the balance of my time.

Mr. KYL. Mr. Chairman, I move to strike the requisite number of words and I rise in support of the amendment.

Mr. Chairman, first I want to say I think there have been several good points made on both sides of this debate. The gentleman from California [Mr. DELLUMS] made some good points. My colleagues, the gentleman from Virginia [Mr. BATEMAN], made some good points, and it is with great respect for both of them and others that I disagree with them.

I do not believe that the Congress abdicates its responsibility, Mr. Chairman, when we agree to a procedure that is provided for by the Constitution of the United States. What are we afraid of by the possibility of a Presidential veto? Our forefathers developed a Constitution with checks and balances in it, and one of those balances was the possibility of a veto which would then require a two-thirds vote to override. That is the constitutional process. Those who oppose the Kasich amendment are opposed to that constitutional process.

What are they going to tell the American people, whom I believe can see right through this—that they are not willing to take their chances to be able to override a veto, that they want to be able to defeat base closing with a mere majority vote? They are the ones who are opposing the constitutional process.

Our chairman of the House Armed Services Committee, the gentleman from Wisconsin [Mr. ASPIN], makes a valid point too. He says it may not matter; that the vote to close bases will be overwhelming in any event. I hope he is right, that the specific procedure does not matter. I would hope, however, if it does matter, if for example colleagues from a particular State decide to support their colleague in whose district a base is being closed and, therefore, we have many more votes in opposition to the closing of a base than we might expect, that we would have the possibility of our usual constitutional process at work.

With the Kasich amendment we would have the ability to adopt a motion of disapproval, and if the President then decided to veto that, we would have to override that with a two-thirds vote. So in either event I agree with the Committee on Armed Services and the committee chairman and ranking member that this amendment is a good amendment.

Finally, Mr. Chairman, and I think this is the fundamental point, and the point that this debate must revolve itself down to, many in this body say let us respect this body. let us understand that our constituents send us here to make decisions and we ought to make those decisions. There are two answers. No. 1, we do have a voice in making the decision with the motion of disapproval which, as the gentleman from Wisconsin [Mr. ASPIN] points out, can be brought to the floor and a vote insisted on. But more importantly, I think the American taxpayers are asking this Congress, they are looking us right in the eye and asking, "Have you been doing your duty? Have you been exercising that responsibility that we asked you to exercise?" The answer, my colleagues, is a sad "No."

In the last 10 or 11 years we have not been able to close a single major base in this country. We have not permitted it to be done. Why? Pure politics.

Who are we trying to fool? The American taxpayers understand that. If we do not adopt the Kasich amendment, I believe that the media in this country is going to point it out to all of our constituents, that what we wanted to do was to pass a proposed solution that looks good, but in point of fact will not end up closing any bases.

Not to approve the Kasich amendment is actually to, in effect, leave the status quo, and we have not been able to close any bases under the status quo.

Mrs. BOXER. Mr. Chairman, will the gentleman yield?

Mr. KYL. I yield to the gentlewoman from California.

Mrs. BOXER. Mr. Chairman, I thank the gentleman for yielding. I would like to correct the record because I have a base in my district that was closed long before I got here. The community accepted it. It was not easy. Unfortunately, it has been sitting as a toxic waste dump for all of this time.

Mr. KYL. If I can reclaim my time, the gentlewoman misquoted me. I said in the last 10 or 11 years.

Mrs. BOXER. It was just about this time that the base was closed.

Mr. KYL. That is right, the last 10 or 11 years. I think the statistics are unassailable. We have not closed a single major military base in the country during that time, and that is because the final say lies with the Congress.

I support the gentlewoman from California in her desire to clean up bases, and I think it is also incumbent upon those serious about closing bases and serious about cleaning up the environment at those bases not to adopt a proposal here that, in effect, is going to be a ruse, that will not allow any bases to be closed; and that is why it is so important that we adopt the Kasich amendment which permits the Congress to deal with the issue, on a resolution to oppose the recommendation of the Commission. But it does not put us in the position where a mere majority can kill it by refusing to adopt an affirmative vote.

Mrs. BOXER. Mr. Chairman, will the gentleman yield?

Mr. KYL. I am happy to yield to the gentlewoman from California.

Mrs. BOXER. I am not going to try to continue, but the Hamilton Air Force Base was shut down and it was moved.

I just want to say for the record that President Reagan has not submitted one base closure in 8 years, so I think all this blame Congress, blame Congress one way or the other is absolutely wrong.

Mr. KYL. Reclaiming my time, blame the Congress or the President; the fact is that it has not been done. I think the administration knows that it would be a futile gesture indeed to send up a base closure to this body that is not about to vote for it, so there is no point in sending them up here.

I am willing to cast the blame wherever it ought to go, but here we are now with a Secretary of Defense who is willing to close bases, willing to support a Commission recommendation. Let us take advantage of that opportunity, and in this last year of this administration, where we are not going to have any politics played, take advantage of the opportunity and adopt the Kasich amendment.

Mr. KLECZKA. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, it has been kind of interesting listening to the debate. First let me indicate that I stand in opposition to the amendment and in support of the Government Operations Committee position and that of an affirmative vote by this Congress on any recommendation by the Commission.

The previous speaker, to myself, indicated that it would be possible to defeat base closing by a mere majority vote.

□ 1530

And to that speaker I say, "My God, is that ever radical?" It seems to me that is the way we operate around here every day. In order to pass any legislation we have to conjure up a mere majority, for our Government is based on majority rule. If we are going to carry the gentleman's amendment to total absurdity, let us adopt that type of approach for all legislation. Let us adopt that approach for all 13 appropriation bills and any Ways and Means tax bills.

I would love to have the Foreign Affairs appropriation bill come before us and I have an opportunity to vote disapproval. At that point in time all 435 of us vote disapproval. The President, who is the only one in town having to act responsibly, would then veto it and then we would locate only one-third plus one Member of either House to sustain the veto and at that point the dollars are spent. Let us do that on a tax bill. It is not easy standing before a voting machine voting "aye" for a tax increase, but at times that happens to be the responsible way to do it. So let us adopt this new approach. Any tax bill on the floor, from here on out, will come up under a disapproval. At that time, all of us will have the luxury to play Cool Hands Luke or Clean Hands Luke, and I will bet your bottom dollar every Member in here is going to vote to disapprove that. "My God, how absurd to increase taxes in a responsible manner."

But then we have to rely on the President who says, "Yes, in order to keep the Government running we have to do this." Then subsequently one-third plus one of one House or the other will vote to increase taxes. Now if in fact we want to provide for Government by one-thirds plus one, let us change the Constitution to do that. Let us not play games on this bill, that we are going to do disapproval on a couple of appropriation bills tomorrow, because those are toughies too, and God knows we have to face reelection every 2 years, let us put a disapproval-type clause on those.

Mr. Chairman, how about the controversial bills? The easy ones we will vote approval; the controversial ones we will come through the back door and legislate in reverse.

I think we are setting a bad precedent. If in fact we want to be honest with ourselves, we want to be honest with this Congress, let us go to the ultimate end, let us knock out not only the approval of Mr. BROOKS but also the disapproval and let us have the Commission do it. Let the Commission have sole authority to close bases. Then we can all take the floor in our 1-minutes and we will all have clean hands and we will blame those son-of-a-guns wherever they might reside.

Let us not have legislation around here by one-third plus one because I think if we are going to do so legally, we are going to have to change our Constitution and our way of government to provide for that.

Mr. HORTON. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, I would just like to make a couple of points which I think are very important.

First of all, I have been on the Committee on Government Operations for 26 years and in the first 20 years we had many instances in which we used this matter of disapproval, particularly with reference to reorganization bills. It is very confusing.

As a matter of fact, it got to a point where we had to require that the chairman of the Committee on Government Operations and the chairman of the Committee on Governmental Affairs of the Senate mandatorily had to introduce legislation to disapprove the reorganization plan, then we had to have hearings, then we had to report the bill out and then we had to vote on it.

Now as a matter of fact, and I would like to make this very clear, I think those who are arguing for the disapproval procedure, their point is well made because they will, they hope that they will avoid a vote by the membership on the question as to whether or not those base closures that are proposed should be closed.

The Committee on Government Operations which has had more experience in this area than any other committee because we used those disapproval resolutions for many years, and then we got back to the approval type which is what we have provided in this legislation. Let me just read to you so you understand what I am talking about. In the bill before us, H.R. 4481, it states after January 19, 1989, but no later than March 1, 1989, a resolution shall be introduced in the House, in the Senate and then we would have to vote it up or down within a certain period.

Now we would have before us all the information, we would have to vote it up or down in order for it to proceed.

As a matter of fact, if you turn to the proposal that Mr. ARMEY has by way of a substitute which basically is the Kasich amendment, it starts off by saying that the Secretary may not carry out any closures or realignments under this act if within a certain period of time, and then it goes on for about five or six pages trying to detail the complicated procedures which are involved in a disapproval resolution. But the simple proposal that the Committee on Government Operations came to and which we proposed in this legislation is to give the Members of the House an opportunity to vote up or down. It is very simple. You are dealing with a very unusual situation of the delegation of power, a delegation of legislative authority to the Secretary of Defense. Now, with all due respect to Mr. ARMEY, in his earlier bill he did not provide for any type of disapproval resolution. But he does provide it here. But in my judgment I think the Members of Congress, as they very well point out, are ducking the issue. And the issue is we ought to have the right to vote on it up or down prior to the time it goes into effect. It is just that simple. But it is a complicated procedure if you try to use this disapproval procedure.

Also, I think it does do away with the obligation of the Members to vote affirmatively on such an important matter as the closure of these bases.

In other words, you are buying a pig in a poke if you say now you can close those bases, what other bases you want to come up with. And I think that as Members of Congress your people are going to hold you to that vote more than they are going to hold you to a vote of up or down after you see what is on the table and after you understand what is involved and after you know what they are proposing as a result of this 6-month study that they are going to be making in order to have it on the table by December 31.

So I urge you to vote against this amendment and vote for the bill which does have a procedure for the Members of Congress to vote up or down on whether or not we want to go with the base closures that the commission recommends.

Mr. PEASE. Mr. Chairman, I move to strike the requisite number of words and I rise in support of the amendment.

Mr. Chairman, I rise in support of this amendment offered by my colleague from Ohio [Mr. KASICH]. I think we ought to remember as we consider this amendment what the purpose of this bill is. The purpose of this bill is to facilitate the closing of military bases which ought to be closed, should have been closed over the last 10 years. The question before us is, procedurally, do we make it harder or easier to accomplish the task of closing those bases? The simple fact of the matter is, as all of us know who have been in this body very long, that it is more likely that Congress will uphold the base closing if it can be done without a vote and it is less likely that Congress will uphold the base closing if an affirmative vote is required.

The previous speaker from Wisconsin mentioned that maybe we ought to have the same procedure on tax legislation, maybe we should not have tax legislation unless with or without a vote.

I would mention to you that on the markup for the Tax Reform Act of 1986 there was a chairman's mark, and at first in the committee the rule was, for one day, that no part of the chairman's mark could continue to be in the bill unless after discussion it was an affirmative vote to keep it in the mark.

Very quickly, in 24 hours we saw there would never be a tax reform bill, never be a tax reform bill if that procedure were followed.

So we changed it the next day to a procedure that said that the chairman's mark would stay in, any item would stay in the chairman's mark unless there were a vote to take it back out.

Same thing on the congressional pay raises. An effort was made several years ago to make sure that when the recommendation of the President's commission came to Congress, it would go into effect unless there was a vote of the Congress to reject it. I think there is little doubt but what there would not be a congressional pay raise, would not have been one last year if there had been an affirmative requirement that there must be a positive vote by the Congress on a pay rise.

We all know that we are going to have difficult times fiscally in the next few years. The Pentagon is going to be chronically short of money. They will be lucky to get funds for zero growth over the next several years.

It is critically important for those who believe in a strong defense and paying for the weapons systems we have already put into effect that as much money as possible be available to those.

If that is going to be the case we are going to have to close some of these bases. If we want real plant closing, a real opportunity to get the plants closed we are more likely to get it with the Kasich amendment attached to this bill; so that when the recommendations come through if we think in general it is a good recommendation that the President submits to us, we need not have a vote. Now let us not kid ourselves, we can talk all we want about congressional prerogatives but the truth of the matter is it is easier to accomplish what we want do do in a difficult area politically if Congress does not have to vote on it for it to go into effect.

So I think the gentleman from Ohio, my colleague, has offered an excellent amendment and I hope very much that the House will support his amendment.

Mr. MONTGOMERY. Mr. Speaker, I move to strike the requisite number of words and I will take less than half a minute.

I only want to take this time because misinformation has been given today here about base closures. I have taken out of the Department of Defense yearbook, and I want you to listen to these figures: Since January 1969 through January 1986, 485 military installations have been closed or put in caretaker status. Of those 485 installations that have been closed, 132 of them were major bases. The Secretary has the authority, let us continue to let him do it; defeat this amendment.

Mr. KOLBE. Mr. Chairman, I move to strike the requisite number of words and I rise in support of the amendment.

I will not take the full 5 minutes.

I just wanted to say a couple of things, answer a couple of things that have been said here on the floor.

It has been talked about that this is a bad delegation of power by the Congress of our authority here. But the fact is Congress has done this many times in the past because the most obvious recent example of that is Gramm-Rudman where if we do not do something then the automatic provisions kick in.

Now I know that many of those who spoke on this were not proponents of the passage of the Gramm-Rudman Act. But the fact is that that is an example of how this Congress has recognized that we have a particular problem because sometimes we cannot act because of our own narrow political interests and we need to reverse the process, we need to say that it is going to happen unless we take action to stop it from happening.

That is precisely the case that exists here. We have heard the argument a few moments agc that if we do not do this kind of thing, why not next will we not take a tax bill and delegate that to some commission and then unless Congress acts we will not have a tax bill. I would suggest that is a very different kind of argument.

A tax bill, the policy in making the taxes, the policy is making the taxes, what you put into the tax bill. Here is the policy in making the tax is what you put into the tax bill. Here the policy is a decision that we agreed that there are unnecessary bases that may need to be closed and there needs to be a procedure for closing that base. The policy is not which base to close, the policy is not which building, which square acre of land or lot may be occupied by a military base. We have given a military mission to the Department of Defense, in this case to provide the mission for the security of this country. We should not be getting into the micromanagement of that every day. Just as we do not tell an agency whether they should buy pens or pencils, we tell them, "Here is the job that we give you, the objective that we have for this agency. Now go out and get it accomplished." And whether they use pencils or pens or computers to get it done is an object, a decision that they should have to make.

Similarly here, we should tell the Department of Defense meet these national security needs within these guidelines that we give you. Where exactly you put a particular tank or a particular plane or a particular ship is not a decision that a Congress should always be making.

Certainly in this case by giving ourselves the ability to say no, to turn down the closing of the bases I think we have given ourselves ample protection for that. This is not a dangerous delegation of congressional power. I think it is a reasonable approach to what is a very difficult problem.

□ 1545

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. KOLBE. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, if I might state this very briefly, the gentleman from Mississippi made a very good point in which he indicated there had been some major bases closed since 1969. The point to which we addressed this legislation is that no major base has been closed since 1979 when the O'Neill-Cohen legislation was put in place in response to the closures between 1969 and 1977.

Mr. Chairman, I appreciate the gentleman's point. I thought it was well taken, but I did want to clear up that one point, and I think we ought to now vote to pass the Kasich amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. KASICH].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. KASICH. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 250, noes 138, not voting 43, as follows:

□ 1605

The Clerk announced the following pairs:

On this vote:

Mr. Bilirakis for, with Mr. Roth against.

Mr. Marlenee for, with Mr. Solarz against.

Messrs. SKEEN, TALLON, and YOUNG of Alaska changed their vote from "aye" to "no."

Messrs. OBERSTAR, GEKAS, SOLOMON, and SMITH of Florida, Mrs. SCHROEDER, Ms. SLAUGHTER of New York, Mr. PARRIS, and Mr. SCHAEFER changed their vote from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

□ 1615

Mr. BROOKS. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore [Mr. FOLEY] having assumed the chair, Mr. VOLKMER, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period, had come to no resolution thereon.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 10, 12, 24, 29, 34, 36, and 44 to the bill (H.R. 4567) "An act making appropriations for energy and water development for the fiscal year ending September 30, 1988, and for other purposes."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the above-entitled bill.

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 1544. An act to amend the National Trails System Act to provide for cooperation with State and local governments for the improved management of certain Federal lands, and for other purposes, and

S. 2595. An act to authorize appropriations for fiscal year 1989 for the Office of the U.S. Trade Representative, the U.S. International Trade Commission, and the U.S. Customs Service.

LEGISLATIVE PROGRAM

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I have asked to proceed for 1 minute that I might inquire of the distinguished majority leader the program for the rest of the day and for next week, and I am happy to yield to my friend, the gentleman from Washington [Mr. FOLEY].

Mr. FOLEY. Mr. Speaker, I thank the distinguished Republican leader for yielding.

We have risen, as the House knows, on this particular legislation and we will try to reschedule it as soon as possible. We hope we will be able to do that next week.

The schedule for next week is that the House will not be in session tomorrow. We will meet at noon on Monday to consider 15 suspensions, as follows:

H.R. 4861, to authorize grants for State Veterans' Cemeteries;

H.R. 4315, John Muir National Historic Site Land Addition;

H.R. 4375, to improve management of certain public lands in Michigan;

H.R. 4675, to extend drug abuse prevention activities under the Domestic Volunteer Service Act;

H.R. 4676, to extend the Temporary Child Care for Handicapped Children and Crisis Nurseries Act of 1986;

H.J. Res. 600, 50th anniversary of the FDA;

H.R. 3361, to establish the National Institute of Deafness;

H.R. 4833, Nursing Shortage Reduction and Education Extension Act;

H.R. 4915, to extend the grant program for the prevention and control of sexually transmitted diseases;

H.R. 25, Whistleblower Protection Act of 1988;

H.R. 2882, Excellence in Government Management Act of 1988;

H.R. 4574, Federal Employees Cost Savings Awards Act;

H.R. 4340, Retirement and Survivors' Annuities for Bankruptcy Judges and Magistrates Act of 1988;

H.R. 4064, to authorize appointment of additional bankruptcy judges; and

H.R. 4758, Public Safety Officers' Death Benefits Amendments of 1988.

On Tuesday, July 12, the House will meet at noon to consider H.R. 1516, the Tongass Timber Reform Act, under an open rule, with 1½ hours of debate. Then we will consider recorded votes made in order on Monday for suspension debated on Monday.

There will be no Monday votes, as previously announced, but there will be votes on Tuesday on the Tongass bill and on ordered votes from Monday.

On Wednesday, July 13, the House will meet at 11 a.m. and consider S. 2527, the Plant Closing Notification Act, subject to a rule, and H.R. 4848, the Omnibus Trade and Competitiveness Act of 1988, subject to a rule.

On Thursday, July 14, the House will meet at 10 a.m. to consider the conference report on H.R. 4264, the Department of Defense authorization for fiscal year 1989, subject to a rule.

H.R. 3964, to establish a National Park System Review Board, subject to a rule.

And H.R. 4519, the Arizona/Florida Land Exchange Act, subject to a rule.

At the conclusion of business on Thursday, the House will adjourn for the Democratic National Convention district work period.

Of course, this announcement is made subject to the usual caution that conference reports may be brought up at any time and any further program will be announced later.

Mr. MICHEL. Mr. Speaker, might I inquire of the distinguished gentleman, in view of the Committee rising on the bill on which we were just considering, is it the judgment of the majority leader then that this would be a matter for continuation then on Tuesday after the rollcalls on the suspensions that may have been ordered from Monday?

Mr. FOLEY. Mr. Speaker, if the gentleman will yield further, we would try to do that on either Tuesday or Thursday. I cannot advise the gentleman precisely which day, but it is possible to do it on Tuesday if we finish the other business at a sufficiently early hour.

Mr. MICHEL. Well, I might make the observation, I guess if I had my druthers to make that decision now, I would say Tuesday. Looking again at Thursday, just like today, we get the kind of pressure that, well, now, we have planes and we are all leaving and you are leaving for your convention. I would hope that there would be some kind of agreement or arrangement that next Thursday when getaway time comes that it is determined enough in advance that we do not have that problem with cancellations.

Mr. FOLEY. The gentleman makes a good point and we will try to accommodate that.

Mr. MICHEL. If that is the case, then it would seem to me that unless there is some big to-do next Tuesday night of which this Member is not aware, but recognizing that that has to be a consideration sometimes, Members might be advised to work a little bit later on Tuesday in order to make sure that we do not have to be around here forever on Thursday.

Perhaps the gentleman knows something that I do not know that would foreclose that from happening.

Mr. FOLEY. No. I do want to reserve the possibility that we may be looking at some alteration in the schedule in order to try to accommodate this legislation.

The only thing I can assure the gentleman without any question is that we will take votes on Tuesday and we will take up the Tongass bill and we will take up the legislation on Wednesday, particularly the legislation on plant closing and trade.

I am sensitive to the gentleman's statements that we did not want to have a late session on Thursday, so I will take those things under consideration.

Mr. MICHEL. Mr. Speaker, I thank the gentleman.

Mr. ARMEY. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Speaker, I thank the gentleman for yielding to me.

Let me thank the distinguished majority leader for all that he has done to help us schedule this bill. I realize that time is getting late and Members are trying to get home, especially the Members on the west coast. For that reason, I was more than happy to agree that we ought to rise now and proceed. That having been the case, though, let me assure all the membership that I will be happy to stay here as late as necessary on Tuesday evening in order to complete this legislation, and I would like to believe that all my colleagues would be willing to do the same.

ADJOURNMENT TO MONDAY, JULY 11, 1988

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that when the

House adjourns on today, it adjourn to meet at noon on Monday next.

The SPEAKER pro tempore (Mr. VOLKMER). Is there objection to the request of the gentleman from Washington?

There was no objection.

HOUR OF MEETING ON WEDNESDAY, JULY 13, 1988

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that when the House adjourns on Tuesday, July 12, 1988, it adjourn to meet at 11 a.m. on Wednesday, July 13, 1988.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

RESIGNATION AS MEMBER OF SELECT COMMITTEE ON NARCOTICS ABUSE AND CONTROL

The SPEAKER pro tempore laid before the House the following resignation as a member of the Select Committee on Narcotics Abuse and Control:

HOUSE OF REPRESENTATIVES,
Washington, DC, July 7, 1988.

Hon. JIM WRIGHT,
Speaker, House of Representatives, H-204,
The Capitol, Washington, DC.

DEAR MR. SPEAKER: I hereby tender my resignation to the House Select Committee on Narcotics Abuse and Control effective today.

Thank you for your attention to this matter.

Sincerely,

E. CLAY SHAW, JR.,
Member of Congress.

The SPEAKER pro tempore. Without objection, the resignation is accepted.

There was no objection.

RESIGNATION AS MEMBER OF COMMITTEE ON THE JUDICIARY

The SPEAKER pro tempore laid before the House the following resignation as a member of the Select Committee on the Judiciary:

HOUSE OF REPRESENTATIVES,
Washington, DC, July 7, 1988.

Hon. JIM WRIGHT,
Speaker, House of Representatives, H-204,
The Capitol, Washington, DC.

DEAR MR. SPEAKER: I hereby tender my resignation to the House Committee on the Judiciary effective today.

Thank you for your attention to this matter.

Sincerely,

E. CLAY SHAW, JR.,
Member of Congress.

The SPEAKER pro tempore. Without objection, the resignation is accepted.

There was no objection.

RESIGNATION AS MEMBER OF COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION

The SPEAKER pro tempore laid before the House the following resignation as a member of the Select Committee on Public Works and Transportation:

HOUSE OF REPRESENTATIVES,
Washington, DC, July 7, 1988.

Hon. JIM WRIGHT,
Speaker, House of Representatives, H-204,
The Capitol, Washington, DC.

DEAR MR. SPEAKER: I hereby tender my resignation to the House Committee on Public Works and Transportation effective today.

Thank you for your attention to this matter.

Sincerely,

E. CLAY SHAW, JR.,
Member of Congress.

The SPEAKER pro tempore. Without objection, the resignation is accepted.

There was no objection.

ELECTION AS MEMBER OF COMMITTEE ON WAYS AND MEANS

Mr. MICHEL. Mr. Speaker, I offer a privileged resolution (H. Res. 490) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 490

Resolved, That Representative Shaw of Florida be and is hereby elected to the Committee on Ways and Means.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON ENERGY AND COMMERCE TO HAVE UNTIL 5 P.M. FRIDAY, JULY 8, 1988, TO FILE REPORTS ON H.R. 4833, H.R. 3361 AND H.R. 4915

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that the Committee on Energy and Commerce may have until 5 p.m., Friday, July 8, 1988, to file reports on the following bills:

H.R. 4833, Nursing Shortage Reduction and Education Extension Act of 1988;

H.R. 3361, National Institute on Deafness and other Communication Disorders; and

H.R. 4915, to amend the Public Health Service Act to revise and to extend the program of grants for the prevention and control of sexually transmitted diseases.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ALABAMANS ADVISE GOVERNMENT LEADERS

(Mr. ERDREICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. ERDREICH. Mr. Speaker, about 10,000 people across my district in Jefferson County, AL responded to my annual questionnaire. Their answers provided good advice for Congress.

Forty percent felt the Federal budget deficit was the No. 1 problem facing Alabama, with 26 percent saying education was the No. 1 priority, and 17 percent selecting economic growth.

Forty-two percent felt a freeze on Federal spending, except Social Security and Medicare was the best way to reduce the deficit, while another 42 percent felt across-the-board spending reductions are the best way to eliminate red ink spending.

Eighty-eight percent supported using the military in the fight against illegal drugs, and 73 percent supported naval escorts by the United States in the Persian Gulf.

Although 73 percent opposed Federal grants to assist in child care, 64 percent favored expanding Medicare to provide for long-term care.

Strong majorities favored the adoption of tougher trade laws, continuing efforts to attain an arms reduction treaty with the Soviets and line-item veto authority for the President.

I would like to thank the almost 10,000 residents who took the time to give me their views. Their opinions help me do a better job representing Jefferson County in Congress, and place in the RECORD the entire results, good Alabama common sense for Congress to follow.

	Number	Percent	V/A (percent)
1. What is the number one problem facing Alabama?			
a. The Federal budget deficit	3934	40	158 (1.60)
b. Trade	446	5	
c. Education	2560	26	
d. AIDS	298	3	
e. Economic growth	1722	17	
f. Other	781	8	
2. Which of the following do you think is the best way to reduce the Federal budget deficit?			
a. Reduce Federal spending across-the-board	4,130	42	507 (5.12)
b. Freeze Federal spending across-the-board	1,134	11	
c. Freeze Federal spending across-the-board, except for Social Security and Medicare	4,128	42	
3. If your answer to the above question did not eliminate deficit spending, would you support a combination of restraint on all Federal spending and new tax increases?			
a. Yes	3,755	38	1,086 (10.97)
b. No	5,058	51	
4. Do you think the current level of Federal domestic spending is:			
a. About right?	1,728	17	360 (3.64)
b. Too much?	6,423	65	
c. Too little?	1,388	14	
Do you think the current level of defense spending is:			
a. About right?	4,443	45	292 (2.95)
b. Too much?	3,784	38	
c. Too little?	1,380	14	
5. Do you favor the use of the U.S. military to assist in preventing the movement of illegal drugs across our borders?			
a. Yes	8,710	88	189 (1.91)
b. No	1,000	10	
6. Should the Federal Government make grants to assist public and non-profit child care centers?			
a. Yes	2,924	30	320 (3.23)
b. No	6,655	67	
7. Medicare currently does not pay for long-term home-based or nursing home care. Do you favor legislation to provide long-term care for the elderly and chronically ill, even if it means increasing the Medicare payroll tax for people with higher incomes?			
a. Yes	6,333	64	386 (3.90)
b. No	3,180	32	
8. Do you support the continued deployment of United States Navy escorts for shipping vessels in the Persian Gulf?			
a. Yes	7,261	73	371 (3.75)
b. No	2,267	23	
9. Do you favor adopting stronger U.S. trade laws to ensure full and fair U.S. participation in international trade?			
a. Yes	7,618	77	409 (4.13)
b. No	1,872	19	
10. Do you favor adopting policies to limit imports from countries that compete unfairly with U.S. goods, even if it means higher consumer prices?			
a. Yes	7,157	72	338 (3.41)
b. No	2,404	24	
11. Do you favor continuing efforts for an arms reduction treaty with the Soviet Union?			
a. Yes	8,013	81	266 (2.69)
b. No	1,620	16	
12. Do you support granting U.S. Presidents the authority to veto budgetary "line items" without vetoing entire budget appropriation bills?			
a. Yes	7,936	80	287 (2.90)
b. No	1,676	17	

PROPOSED LEGISLATION WOULD REQUIRE LIGHT TRUCKS TO MEET LABELING REQUIREMENTS

(Mr. PETRI asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. PETRI. Mr. Speaker, today I am introducing a bill to include light trucks in the labeling requirements of the Automobile Information Disclosure Act.

In March, I received a letter from Mr. and Mrs. Toshner of Fond du Lac, WI. They wrote about their experiences buying a pick-up truck last winter. Only after they had purchased the truck did they discover that they had been misled about optional versus standard equipment. That cost them a lot of money. They found out that manufacturers are not required to provide the same information on light trucks as they do on cars. So, they wrote to ask me to introduce a bill that would require the same window display stickers to be placed on light trucks as on cars.

When Congress passed the Automobile Information Disclosure Act in the late 1950's, light trucks were not nearly as popular as they are today. However, by last year, they accounted for one third of all passenger vehicles sold. It's time we required the same disclosures for these vehicles as we do for cars.

My bill simply adds light duty trucks to the existing Automobile Information Disclosure Act. I urge my colleagues to support this measure.

H.R. —

A bill to amend the Automobile Information Disclosure Act to make the requirements of that Act applicable to light duty trucks

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LABEL REQUIREMENTS.

(a) IN GENERAL.—Section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232) is amended—

(1) by inserting "or light duty trucks" after "new automobiles",

(2) by inserting "or light duty trucks" after "new automobile", and

(3) by inserting "or light duty trucks" after "such automobile" each place it occurs.

(b) DEFINITION.—Section 2 of such Act (15 U.S.C. 1231) is amended by adding at the end the following:

"(i) The term 'light duty truck' means a truck of not more than six thousand pounds gross vehicle weight.".

(c) CONFORMING AMENDMENTS.—

(1) Section 2 of such Act (15 U.S.C. 1231) is amended

(A) by inserting "or light duty trucks" after "new automobiles" each place it occurs in paragraphs (e) and (h), and

(B) by inserting "or light duty trucks" after "new automobiles" each place it occurs in paragraphs (f) and (g).

(2) Section 4 of such Act (15 U.S.C. 1233) is amended—

(A) by inserting "or light duty trucks" after "new automobiles" each place it occurs, and

(B) by inserting "or light duty trucks" after "automobiles" each place it occurs.

SEC. 2. EFFECTIVE DATE.

The amendments made by section 1 shall apply with respect to light duty trucks (as defined in section 2 of the Automobile Information Disclosure Act) manufactured after October 1, 1989.

ADIRONDACKS AND OTHER AREAS BELEAGUERED BY ACID RAIN

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute, and to revise and extend his remarks, and include extraneous matter.)

Mr. BOEHLERT. Mr. Speaker, I wish to call my colleagues' attention to a front-page article in today's edition of the New York Times. The article reports that over a quarter of the lakes and ponds in the Adirondack Mountains are so acidic that the vast majority of those can no longer support fish.

The article goes on to report that the study was sponsored in part and financed by New York's utilities, and, further, that of the 1,245 Adirondack lakes surveyed, the study found that 319 of them, or 26 percent, were so acidic, with the pH factor of 5 or below, that except under rare circumstances they can no longer contain fish.

Mr. Speaker, it is time for America to wake up. This cancer called acid rain is systematically destroying our waterways, our forests, and our buildings. It is a very serious threat to our public health. It is time to do something about it, not just for the Adirondacks but for Florida and Colorado and for some Members' beloved Texas. It is time to do something about it. Let us demand of our Presidential candidates that they tell us where they stand on the issue of acid rain. Let us demand to know from our candidates for Congress where they stand on this important issue of acid rain.

Mr. Speaker, we cannot wait any longer.

Acid Rain Imperils Adirondacks Fish

(By Elizabeth Kolbert)

Albany, July 6.—Over a quarter of the lakes and ponds in the Adirondack Mountains are so acidic that the vast majority of them can no longer support fish, a three-year study by New York's state environmental agency has found. An additional one-fifth of the lakes in the region are so acidic they are considered "endangered," according to the study.

The study, one of the most thorough surveys in the nation of the effects of acid rain on a region, found the proportion of lakes in the Adirondacks that were acidic to be 15 percent higher than surveys by the Federal Government had indicated.

The Commissioner of the state's Environmental Conservation Department, Thomas C. Jorling, said the study, which is still under review, "confirms beyond a doubt" that the "adverse effects of acid rain on aquatic systems are real."

"NEEDED" DOCUMENTATION

The study, he said, "gives the documentation that the skeptics out there said they needed."

State officials acknowledged, however, that the data from the study had not yet been fully analyzed and that some of the lakes that are acidic and that have no fish may be that way naturally, but they said that number was relatively small compared with the number of lakes that have been damaged by acid rain.

The Reagan Administration has maintained that not enough is known about the effects of acid rain to justify stiffer pollution controls.

Mr. Jorling said the findings "demonstrate on their own" the need for legislation to curb the emissions that cause acid rain.

Such legislation has been stalled in Congress because of disputes between representatives of Northeastern states, which suffered the most damage from acid rain, and those of Midwestern states, whose coal-fired power plants and other factories are believed to produce much of the pollution that causes acid rain.

This pollution, mainly oxides of sulfur and nitrogen, is transported through the atmosphere, where it undergoes chemical changes and falls to the ground in the form of acid rain.

AGREEMENT BY GOVERNORS

Last month, the Governors of New York and Ohio—two states that have been at odds in this debate—announced that they had agreed on a proposal to require sharp reductions nationwide in the emission of these pollutants. Today, Governor Cuomo's Washington liaison, Brad Johnson, said legislation to implement the proposal would be introduced in both houses of Congress soon, although no members of Ohio's Congressional delegation have yet agreed to sponsor it. The legislative prospects are uncertain.

The study of the Adirondack lakes which was partly financed by the research arm of New York's utilities draws on extensive surveys of almost half of the 2,700 lakes in the Adirondack region. Most of the region lies within the 6-million-acre Adirondack Park, the largest wilderness area left in the country east of the Mississippi River.

The Adirondack region is particularly sensitive to the effects of acid rain because of the thinness of the soil there, the high elevation of many of its lakes and the position of the mountains in the weather system. More than two-thirds of the acidified lakes, the study found, are in the southwestern Adirondacks, which under normal weather patterns are the first mountains that clouds traveling east from the Midwest encounter.

The most famous and frequently visited of the Adirondack lakes, such as Lake George and Mirror Lake at Lake Placid, are so large that they are not yet threatened by acid rain, state officials said.

CONSIDERED "ENDANGERED"

Of the 1,245 Adirondack lakes surveyed, the study found 319 of them, or 26 percent, to be so acidic—with a pH factor of 5 or below—that except under rare circumstances they contain no fish. The pH scale is a measure on the concentration of hydrogen ions in a solution; the lower the pH, the more acidic the solution. Pure water has a pH of 7, and lemon juice has a pH of 2. The average pH of rainfall in New York is about 4.

The study found that an additional 235 lakes, or 19 percent, have a pH of between 5 and 6, and are considered by researchers to be "endangered." Research on acid rain indicates that at a pH of 5.5 many fish populations and plant species die off.

State environmental officials said lakes with a pH between 5 and 6 would be likely to recover if acid rain-producing emissions were cut substantially in the next few years. Dumping tons of lime, an alkaline substance, into lakes with a lower pH has enabled some lakes to sustain fish, but because a lake may drain seven or eight times a year this process requires constant monitoring.

Because reliable past data are scarce, the study does not document any trends. But David Shaw, program development coordinator for the State Environmental Conservation Department's Air Division, said there was some evidence of a trend toward acidification. "In cases where we've got data, it shows in some lakes there was a fishing opportunity and there no longer is one; the lake has become acidified," he said.

The study concluded that 25 percent of the lakes in the Adirondacks have no fish. But because the data from the study are still being analyzed, state officials said they could not draw a direct correlation between lakes with a low pH and lakes with no fish.

Kurt Anderson, environmental affairs manager for the Empire State Electric Energy Research Corporation, the utilities' research arm that helped finance the study, said that because the scientific analysis has not been completed, no conclusions could be drawn from the data. "We know what is says, but what it means is yet to be determined," he said.

CONTRAST WITH FEDERAL STUDY

The results of the study contrast with those of a Federal survey released last fall by the National Acid Precipitation Program, an interagency group, which put the proportion of lakes in the Adirondacks that were acidified at 10 percent.

But Christian Rice, a spokesman for the Federal Environmental Protection Agency, said the results of the two studies were not contradictory because the Federal study excluded small lakes under 10 acres, which are more sensitive to acid rain, while the state study sampled lakes as small as one acre. He also said recently revised E.P.A. estimates put the proportion of acidified lakes in the Adirondacks at 14 percent.

Mr. Rice said the New York study was unlikely to influence the Administration's position that more data were needed because "the question is what is the trend, and neither our study nor the New York State study gives us that."

☐ 1630

TRAGEDY IN THE PERSIAN GULF

The SPEAKER pro tempore (Mr. Hutto). Under a previous order of the House, the gentleman from California [Mr. Panetta] is recognized for 5 minutes.

Mr. PANETTA. Mr. Speaker, the Members of Congress received an in-depth Defense Department briefing yesterday on the shooting down of the Iranian passenger jet.

This incident was a tragedy which we all deeply regret. Unfortunately, these 290 civilians were caught in the crossfire of combat. Their deaths are a sad reminder of the terrible consequences of war.

These events occurred in a 12-minute span in the heat of battle. It seems clear that the decision to fire on the plane was made following repeated warnings. While the present evidence indicates that the action was both understandable and justified, the investigation now underway should give us the facts we need to judge the decisions made and the procedures and technology used in the incident.

Surely, the issue of possible reparations should not even be considered until all the facts are presented.

But beyond the tragedy of this incident, there remain the larger questions surrounding our policy in the Persian Gulf. Do we have specific goals? Are our allies participating as fully as they should considering where most of the protected oil shipments go? Are sufficient diplomatic efforts being pursued to find peace between Iran and Iraq? Or are we caught in a haphazard web of military commitments that will continue to place at high risk the lives and equipment of U.S. forces?

Iran has been a quagmire for United States policy for far too long. Common sense tells us we need to find the answers to these questions before more innocent lives are lost.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Florida [Mr. MacKay] is recognized for 5 minutes.

Mr. MacKay. Mr. Speaker, due to a previous commitment I missed several votes. Had I been able to vote, I would have voted for H.R. 1720, for House Resolution 489, against the amendment of Mr. Brown and for the amendment of Mr. Kasich to H.R. 4481.

I appreciate having this opportunity to state my position on these measures.

RESTRICTIVE RULES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Mississippi [Mr. Lott] is recognized for 15 minutes.

Mr. LOTT. Mr. Speaker, I am inserting this special order in a continuing effort to keep Members of the public apprised of the extent to which Members' rights are being curtailed by the use of restrictive rules.

Restrictive rules are those order of business resolutions reported by the Rules Committee which limit the freedom of Members to offer germane amendments to the bills made in order by those rules. Such restrictive rules come in varying forms ranging from completely closed to modified closed, and modified open. As has been pointed out, 12 years ago, in the 95th Congress, restrictive rules comprised 12 percent of the total rules granted. That percentage has increased steadily in ensuing Congresses until today, in this 100th Congress, they are running at about 42 percent of the total.

Our colleagues on the Democratic side of the aisle have defended restrictive rules on grounds of orderly process and time management, and have pointed out that Republicans have supported many restrictive rules. It is true that at times we have acceded to such rules if they have accommodated most Members wishing to offer amendments or the legislation involved was otherwise noncontroversial. But, our support for such rules has not been as frequent as some have implied.

On June 9 of this year, for instance, the gentleman from Massachusetts [Mr. Frank] took a special order in which he indicated that the House Republican leader had voted for 37 restrictive rules in the 97th through first session of the 100th Congress (Congressional Record, June 9, 1988, p. H4106). What he failed to point out was that this comprised only 28 percent of the 132 restrictive rules granted over that 7-year period.

In a similar vein, the distinguished Majority Leader, in a "Guest Observer" column published in the Hill newspaper, Roll Call, on June 19, 1988, made the claim that, "The Republican leadership and Members supported over half of the 43 closed or modified rules used so far in this Congress." And on June 16, 1988, the majority leader indicated in a floor colloquy with the Republican leader that in this Congress "over half of those [restrictive] rules have passed this House by votes in excess of 350 Members voting for it or by voice vote."

While I had not done a vote analysis of restrictive rules at the times these various claims were made, the claims did arouse my curiosity and doubts. Had a majority of the Republican leaders and membership voted for a majority of the restrictive rules in this Congress? And, had over half of these rules passed with the approval of over 350 of the 435 House Members?

According to the data compiled at my request by the minority counsel for the Rules Subcommittee on the Legislative Process, the answer to both questions is a resounding "No!" For the purpose of these calculations we assumed, as did the majority leader, that a majority of the Republican leaders and Members supported those restrictive rules adopted by voice vote. But, unlike the majority leader, we did not assume such support in those instances in which a voice vote was preceded by a recorded vote on the previous question.

As one who has managed such rules for the Republican side on many occasions, I know for a fact that if we make a previous question fight, which is always motivated by opposition to the rule as reported, and ask for a recorded vote, we sometimes do not ask for a recorded vote on adoption of the rule in order to save time and avoid a duplicative vote. But, such voice votes certainly do not indicate Republican support for the rule.

What the data shows is that Republican leaders, that is, at least three of the five elected leaders, supported only 14 or 33 percent of the 42 restrictive rules, while the Republican membership supported only 15 or 36 percent of such rules. These percentages are a far cry from the claim that our leadership and membership supported over half of the restrictive rules. Put another way, Republican leaders and Members alike opposed 67 percent of the restrictive rules.

And, how many of the restrictive rules passed by voice vote or with the support of more than 350 Members? Even if we count those two rules passed by voice votes after a majority of each party voted on opposite sides of the previous question vote, the answer is that 12 rules passed by voice vote and only 1 passed by a recorded vote in which over 350 Members supported the rule. That's 13 of the 42 rules or 31 percent of the total, and not over 50 percent of such rules as has been claimed.

What does all this data point to in the final analysis? It shows us that Republicans can be cooperative and accommodating on truly managerial restrictive rules provided they are treated fairly in the process. But, it also tells us that such rules in a large majority of cases are being used for other purposes that have a partisan cast to them. And it is the increasing reliance on such rules on controversial bills for the purpose of securing partisan advantage or political cover that is being objected to. In recent times, restrictive rules have even been used to shut out Democratic Members who have had legitimate amendments they wished to offer. This kind of political, procedural manipulation is an insult to the freely elected Members of this House and the people they represent who are being disenfranchised by the majority leadership in such rules. This is our main complaint.

At this point in the Record, Mr. Speaker, I will insert the backup data to which I have referred. The materials follow:

OPEN VERSUS RESTRICTIVE RULES, 95TH–100TH CONGRESS

Congress (years)	Total rules granted[1]	Open rules[2]		Restrictive rules[3]	
		No.	Percent	No.	Percent
95th (1977–78)	241	213	88	28	12
96th (1979–80)	198	161	81	37	19
97th (1981–82)	112	90	80	22	20
98th (1983–84)	145	105	72	40	28
99th (1985–86)	101	65	64	36	36
100th (1987–88)	111	64	58	47	42

[1] Total rules counted are all those reported from the Rules Committee which provide for the initial consideration of legislation, including rules on appropriations bills. Not included are special rules on conference reports, Senate amendments, and so forth.

[2] Open rules are those which permit any Member to offer any germane amendment to a measure so long as it is otherwise in compliance with House rules.

[3] Restrictive rules are those which limit the number of amendments which can be offered, and include so-called modified open and modified closed rules as well as completely closed rules.

Sources: Survey of Activities, Committee on Rules, 95th–99th Congresses; "Notices of Action Taken," Committee on Rules, 100th Congress (as of July 1, 1988).

[Prepared by minority counsel, Subcommittee on the Legislative Process, Committee on Rules.]

SUMMARY OF HOUSE VOTES ON RESTRICTIVE RULES IN THE 100TH CONGRESS

	Number	Percent of total
Total restrictive rules voted on by House	42	100
Total restrictive rules supported by majority of Republicans voting[1]	15	36
Total restrictive rules supported by majority of elected Republican leadership[2]	14	33
Total restrictive rules supported by majority of Democrats voting[1]	42	100
Total restrictive rules opposed by majority of Republicans voting[1]	27	64
Total restrictive rules opposed by majority of elected Republican leadership[2]	27	64
Total restrictive rules opposed by majority of Democrats voting[1]	0	0

[1] Support is assumed by all Members when a rule is adopted by voice vote except when such a vote is preceded by a recorded vote on the previous question in which case the previous question vote is used as the indicator of support or opposition. This is because a recorded vote on the previous question is usually demanded when there is opposition to the rule and a move to amend the rule. The subsequent adoption of a rule by voice vote is usually more to avoid a duplicative vote than it can be construed to be support for the rule. There were two such previous question votes on which a majority of each party voted on opposite sides of the question and the rule was then adopted by voice vote.

[2] The elected Republican leadership used for these calculations are the top five leaders: the Republican leader, the Republican Whip, Conference chairman, the Policy Committee chairman, and the Research Committee chairman. A majority of the leadership is three of the five leaders.

HOUSE VOTES ON RESTRICTIVE RULES REPORTED IN THE 100th CONGRESS[1]

---

[1] Restrictive rules are defined as those resolutions reported by the Rules Committee which limit the number of amendments which may be offered to a measure. Only those rules voted on by the House are included here and not those which were either tabled or not yet considered by the House.

[2] The abbreviations used on House votes are: PQ-previous question vote; A-adoption of rule; R-rejection of rule; ; and VV-voice vote. Previous question votes are only included here when the rule is subsequently adopted by voice vote. A vote on the previous question is a clear indication of opposition to the rule and of a desire to amend it since defeating the previous question is the only way a rule can be amended.

[3] Restrictrive rules are classified here as either closed (C), modified closed (MC), or modified open (MO).

[4] The abbreviations used for party votes are: R-Republican; RL-the top five elected Republican leaders; and D-Democrat.

CHILD CARE AND NUTRITION ENHANCEMENT ACT OF 1988

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Minnesota [Mr. PENNY] is recognized for 30 minutes.

Mr. PENNY. Mr. Speaker, today I am introducing the Child Care and Nutrition Enhancement Act of 1988, adding one more bill to the over 100 other bills with child care provisions already introduced during this Congress. Unquestionably, the need for child day care is great and a universally recognized priority of policymakers. But why do I now add to the deluge of legislation addressing child care?

I think it's time we work toward a program that is effective and not just expansive. This bill is designed to allow States greater flexibility in child care expenditures, enabling them to structure child care programs which fit individual and regional needs. Historically, our education system has been based on the principle that local control is the best control. This bill shares that philosophy. It does not attempt to enforce cumbersome Federal regulations, rather it allows States to determine licensing standards and program goals. It reinforces the belief that community standards are in the best interest of children and parents. Under this bill, all providers—both family day care homes and larger day care centers—would receive meaningful assistance and support.

This bill helps States fund projects of their choice in developing child care programs through matching grants. If States wish to subsidize day care, they have that option. If they wish to develop resource and referral centers, develop training programs or provide technical assistance, that is the State's prerogative.

Competitive grants included in this bill also provide the needed incentive to stimulate creative local solutions fitting the varying needs and resources of the community. In an effort to find an affordable solution, we should reward programs which use existing available space. This bill encourages the use of existing public school space to house day care facilities, yet does not limit anyone from finding other answers. Our job should be to enhance local initiatives in their attempts to solve the problems in providing quality day care for our children.

Just as important as what is included in the bill is what is not included. This bill does not unduly burden the States with Federal regulations or day care providers with extra paperwork. Increased Federal regulations usually translate into higher operating costs and can discourage potential day care providers from opening their doors. Day care is expensive enough without Federal regulations adding to the cost as well. We should not discourage individuals considering opening a center in their own home, an option presently chosen by 40.2 percent of child care users. Such "family day care" is the preferred choice of most families and is particularly vital for infant and toddler care.

Title I provides $350 million annually for matching grants to States for establishing and expanding child care services, again at local option. An additional $50 million over 3 years would be available on a competitive grant basis to States for establishing and coordinating child care services targeted to "latchkey" children and coordinating school-based programs. In 1984, over 7 million children between the ages of 5 and 13 had no parent at home when they got out of school, and over 2 million returned to a home that contained no adult at all. A 1987 Louis Harris survey found that 41 percent of parents leave their child on his or her own after school at least once a week. Almost a quarter reported they left their child alone every day. These latchkey children are certainly in need of care and attention.

Title II enhances the Child Care Food Program [CCFP], which is available to children in all types of child care settings. The CCFP provides funds and commodities to States for meals served to children in public and private nonprofit day care centers, family and group day care homes, and Head Start centers. Private for-profit centers may participate in CCFP if they receive title XX funds for at least 25 percent of children in their care. This title would provide an additional meal or snack to the current program and increase the reimbursement for breakfasts. Good health is the cornerstone of growth, and this title, which would reach an estimated 1.1 million children daily, gives day care children the nutritional ABC's that will allow them proper development. Since CCFP is available only to providers which meet State licensing requirements or Federal standards, this title is an added incentive for providers to become licensed.

Title III establishes a tax credit for those who make home improvements for the purpose of becoming licensed child care providers. The tax credit would help individuals over one more hurdle in making their home a safe place for caring for children.

Title IV establishes an investment tax credit for businesses which establish child care facilities onsite or which establish shared offsite facilities. Companies which have provided day care facilities to the employees have found a reduction in turnover and absenteeism resulting in greater productivity. We should encourage more businesses to explore this option. In rural areas such as my own, the provisions of this title for shared facilities are an excellent incentive since most businesses are too small to attempt child care services on their own. Additionally, many working parents prefer a site near their workplace so that they can visit their children at various times throughout the day, such as during a lunch hour.

Title V revises the dependent child care tax credit to allow low-income families to benefit from the tax credit. The dependent care tax credit is currently the largest source of Government support for child care, used by 7.6 million families in 1984. Although the tax credit is based on a sliding scale, there has been no upper income cap and the rate is not sharply progressive. Moreover, the credit is not refundable. These problems with the present law are resolved by title V. This legislation sets an income cap on use of the tax credit and allows low-income families who have no tax obligation a refundable credit.

This bill provides incentive to various individual solutions in providing adequate day care. It does not attempt to take over all of the responsibility away from the private sector or undermine current State programs available. In this way, Congress can most effectively help alleviate the problem without creating more problems in the process.

As the father of four children and member of the House Education and Labor Committee, I am vitally concerned for the welfare of our Nation's children. However, I am also concerned about providing quality care for these children without spending our children's money to pay for this care. Our children deserve a better legacy than our continued deficit and this legislation improves care without mortgaging our children's future.

I submit the text of the bill:

H.R. 4999

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Child Care and Nutrition Enhancement Act of 1988".

TITLE I—CHILD CARE GRANT PROGRAM

SEC. 101. DEFINITIONS.

As used in this title the term—

(1) "child" means an individual who has not attained 13 years of age;

(2) "institution of higher education" has the same meaning given that term by section 1201(a) of the Higher Education Act of 1965;

(3) "local educational agency" has the same meaning given that term by section 198(10) of the Elementary and Secondary Education Act of 1965, or any successor statute defining that term for the purposes of Federal assistance to elementary and secondary education;

(4) "Secretary" means the Secretary of Health and Human Services; and

(5) "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

SEC. 102. GRANT PROGRAM AUTHORIZED.

(a) GENERAL AUTHORITY.—(1) The Secretary is authorized, in accordance with the provisions of this title, to make formula grants to States to pay for authorized activities under a State plan approved under section 105.

(2) The Secretary is authorized, in accordance with the provisions of section 108, to make competitive grants to eligible providers to pay for authorized activities under an application approved under such section.

(b) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated $350,000,000 for the fiscal year 1989 and for each of the 2 succeeding fiscal years to carry out the provisions of this Act (other than section 108).

(2) There are authorized to be appropriated not more than $50,000,000 for the fiscal year 1989 and for each of the 2 succeeding fiscal years to carry out the provisions of section 108.

SEC. 103. ALLOTMENTS.

(a) RESERVATIONS.—The Secretary shall reserve 1 percent of the amount appropriated for each fiscal year under section 102(b)(1) for payments to Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands, to be allotted in accordance with their respective needs.

(b) STATE ALLOTMENT.—(1) From the remainder of the sums appropriated under section 102(b)(1) for grants to States for each fiscal year, the Secretary shall allot to each State, an amount which bears the same ratio to such remainder as the number of—

(A) individuals in such State who are single parents of children who have not attained 13 years of age; and

(B) individuals in such State who are members of dual-earner families and who have children who have not attained 13 years of age,

bears to the total number of such individuals in all States, except that each State shall be allotted not less than one-half of 1 percent of such remainder for each fiscal year.

(2) For the purpose of this subsection, the term "State" does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands and the Trust Territory of the Pacific Islands.

(c) RECENT DATA REQUIRED.—For the purpose of this section, the Secretary should use the most recent data available.

(d) REALLOTMENT.—(1) Any portion of the allotment of a State under subsection (b) that the Secretary determines is not required to carry out a State plan approved under section 106, in the period that the allotment is made available, should be reallotted by the Secretary to other States in proportion to the original allotment of such States.

(2) The amount that another State is entitled to under paragraph (1) shall be reduced to the extent that such amount exceeds the sum that the Secretary estimates will be used in that State to carry out a State plan approved under section 106 and the amount of such reductions shall be similarly reallotted among States in which the proportioned amount is not reduced.

(3) Any amount reallotted to a State under this subsection shall be deemed to be part of the original State allotment under subsection (b) for that year.

SEC. 104. ELIGIBLE PROVIDERS.

For the purpose of this title an eligible provider is—

(1) a unit of general local government;

(2) a local educational agency;

(3) a nonprofit organization, including any organization described in section 501 (c) or (d) of the Internal Revenue Code of 1986;

(4) a professional or employee association;

(5) a consortium of small businesses;

(6) an institution of higher education;

(7) a hospital or health facility;

(8) a family child care provider that would qualify for assistance under the Child Care Food Program established in section 17 of the National School Lunch Act (42 U.S.C. 1766); or

(9) an entity which the State determines is able and appropriate to carry out a project assisted under this title.

SEC. 105. AUTHORIZED ACTIVITIES.

Grants made under this title to a State may be used for—

(1) the provision of child care services to low-income parents and to parents with moderate incomes, including the provision of such services with appropriate fee schedules;

(2) the establishment and operation of resource and referral centers to—

(A) identify existing child care services in the community;

(B) provide referral information about such services to parents;

(C) offer child care training seminars to providers and center employees;

(D) recruit providers; and

(E) promote programs that would improve the quality and affordability of child care;

(3) the establishment of programs that would increase child care slots for infants, handicapped children, and minority children;

(4) the establishment and operation of neighborhood child care centers, after school care programs and the startup cost of onsite child care offered by small business concerns;

(5) the establishment of programs which would recruit and train senior citizens to serve as child care workers;

(6) assistance to help eligible providers and family based child care providers to meet the licensing standards required by the State for furnishing child care services; and

(7) the coordination of programs assisted under this title with child care programs operated or assisted by the State and with federally assisted child care programs, including Head Start programs, Federal assistance programs for education of disadvantaged children in the elementary schools of the State, preschool programs, and programs for handicapped children, designed to improve the operation of such program with respect to hours of operation for child care services.

SEC. 106. STATE PLAN.

(a) STATE PLAN REQUIRED.—Each State desiring to receive a grant from its allotment under this title shall prepare and submit a State plan to the Secretary at such time, in such manner, and containing or accompanied by such information as the Secretary may reasonably require.

(b) CONTENTS OF PLAN.—Each such plan shall—

(1) describe the State agency which will administer the programs for which assistance is sought;

(2) describe the authorized activities for which assistance is sought consistent with the provisions of section 105;

(3) provide assurances that the State will provide technical assistance to eligible providers;

(4) provide assurances that Federal funds made available under this title for any fiscal year will be so used as to supplement, and to the extent practicable, to increase the level of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the purposes described in section 104, and in no case supplant such funds from non-Federal sources;

(5) provide assurances that the State will not expend more than 8 percent of the amount received in any fiscal year for administrative expenses;

(6) describe procedures the State will use for eligible providers to submit applications to the State in accordance with section 107, and for approval of applications by the State agency designated under paragraph (1), including appropriate procedures to assure that the State agency will not disapprove an application without notice and opportunity for a hearing;

(7)(A) provide assurances that the State will establish standards for the purpose of this title, and (B) if the standards so established differ from the accrediting and licensing standards of the State for the provision of child care services that the State will provide training and other projects with assistance under this title designed to permit the eligible provider to meet such accrediting or licensing standards;

(8) provide such fiscal control and account procedures as may be necessary—

(A) to insure proper accounting of Federal funds paid to the State under this title; and

(B) to ensure the verification of reports required under this title; and

(9) provide such additional assurances that the Secretary may reasonably require.

(c) Approval.—The Secretary shall approve State plans submitted under subsection (b) which meet the requirements of this title.

SEC. 107. APPLICATION FOR GRANTS BY ELIGIBLE PROVIDERS.

(a) Application.—In order to receive a grant from the State under this title, an eligible provider shall submit an application to the State that—

(1) describes the project for which assistance is sought;

(2) contains assurances that the eligible provider will use the funds furnished in accordance with requirements of this title;

(3) provides assurances that appropriate fee schedules will be established in the case of any project in which child care services are furnished with assistance under this part and that such fee schedules will be based on the annual incomes of the participating families;

(4) provides assurances that procedures will be established for parental involvement in the operation of the project; and

(5) if necessary, the eligible provider will comply with the training and other requirements of section 106(a)(7).

(b) Priority.—In making grants under this title, a State should give priority to applications from eligible providers that significantly expand or improve the provision of child care services to children of parents with low incomes and parents with modest incomes.

SEC. 108. COMPETITIVE GRANTS AUTHORIZED.

(a) Competitive Grants Authorized.—(1) From amounts authorized to be appropriated under section 102(b)(2), the Secretary shall make grants to eligible providers in accordance with the provisions of this section.

(2) Grants under this section may be used by eligible providers for—

(A) the establishment and operation of after school child care programs; and

(B) the coordination of programs assisted under this title with child care programs operated or assisted by the State and with federally assisted child care programs, including Head Start programs, Federal assistance programs for education of disadvantaged children in the elementary schools of the State, preschool programs, and programs for handicapped children, designed to improve the operation of such program with respect to hours of operation for child care services.

(b) Application.—In order to receive a grant under this section, an eligible provider shall submit an application to the Secretary at such time and in such manner and containing or accompanied by such information as the Secretary may reasonably require. Each such application shall contain descriptions and assurances that are substantially similar to the descriptions and assurances required by section 107(a).

(c) Approval of Applications.—In approving applications under this section, the Secretary shall give priority to applications which describe projects of national significance and projects which the Secretary determines when replicated will further the objectives of this Act.

SEC. 109. EVALUATION.

(a) Evaluations Required.—Each State agency designated under section 106(b)(1) shall—

(1) conduct an evaluation of projects assisted under this title at least every 2 years and make public the results of that evaluation; and

(2) inform eligible providers of the specific evaluation information that the State agency will need.

(b) Report.—(1) Each State agency designated under section 101(b)(1) shall prepare and submit a report to the Secretary on the evaluations conducted under this section.

(2) The Secretary shall, as part of the annual report of the Department of Health and Human Services, prepare and submit to the Congress a summary of the evaluations conducted under this section.

SEC. 110. PAYMENTS.

(a) In General.—The Secretary shall pay to each State under the State plan approved under section 106 and to each eligible provider having an application approved under section 108 the cost of the activities described in the State plan, or the application, as the case may be.

(b) Method of Payments.—The Secretary may make payments to a State or to an eligible provider in installments, and in advance or by way of reimbursement, with necessary adjustments on account of overpayments or underpayments, as the Secretary may determine.

(c) Spending of Funds by State.—Payments to a State from the allotment under section 105, or to an eligible provider under sectoin 108, for any fiscal year may be expended by the State, or the eligible provider, as the case may be, in that fiscal year or in the succeeding fiscal year.

TITLE II—CHILD CARE FOOD PROGRAM

SEC. 201. CHILD CARE FOOD PROGRAM.

(a) Supplements.—Section 17(f)(2)(B) of the National School Lunch Act (42 U.S.C. 1766(f)(2)(B)) is amended by striking out "one supplement" and inserting in lieu thereof "two supplements or one supplement and three meals".

(b) Payment Rate for Breakfasts.—The first sentence of section 4(b)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1773(b)(3)) is amended by inserting after "3 cents" the following: ", and (effective beginning July 1, 1988) an additional 3 cents,".

(c) Effective Date.—The amendments made by this section shall become effective on July 1, 1988.

TITLE III—CHILD CARE HOMES TAX CREDIT

SEC. 301. ALLOWANCE OF CREDIT FOR EXPENDITURES FOR CERTAIN CHILD CARE HOMES.

(a) In General.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to business related credits) is amended by adding at the end thereof the following new section:

"SEC. 43. CHILD CARE HOME CREDIT.

"(a) In General.—For purposes of section 38, the child care home credit determined under this section for the taxable year is an amount equal to 20 percent of so much of the qualified child care home expenditures of the taxpayer for such taxable year as does not exceed $5,000.

"(b) Prior Expenditures by Taxpayer on Same Home Taken Into Account.—If for any prior year a credit was allowed to the taxpayer under this section with respect to any qualified child care home, subsection (a) shall be applied for the taxable year with respect to such qualified child care home by reducing the dollar amount contained in such subsection by the prior year expenditures taken into account under such subsection.

"(c) Definitions.—

"(1) Qualified child care home expenditures.—The term 'qualified child care home expenditures' means any expenditure made by the taxpayer as required by the State or local government to acquire, construct, rehabilitate, or expand a qualified child care home.

"(2) Qualified child care home.—The term 'qualified child care home' means a home—

"(A) operated by the taxpayer for the care of enrollees,

"(B) located in the principal residence of the taxpayer, and

"(C) which meets the requirements of all applicable laws and regulations of the State or local government where it is located.

"(d) Basis Adjustments.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(e) Recapture of Credit.—

"(1) In general.—If, as of the close of any taxable year, there is a recapture event with respect to any qualified child care home, then the tax of the taxpayer under this chapter for such taxable year shall be increased by an amount equal to the product of—

"(A) the applicable recapture percentage, and

"(B) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted from the nonallowance of the credit described under subsection (a).

"(2) Applicable recapture percentage.—

"(A) In general.—For purposes of this subsection, the applicable recapture percentage shall be determined from the following table:

"If the recapture event occurs in:	The applicable recapture percentage is:
Year 1	100
Year 2	66⅔
Year 3	33⅓
Years 4 and thereafter	0.

"(B) For purposes of subparagraph (A), year 1 shall begin on the first day of the taxable year in which the qualified child care home is placed into service by the taxpayer.

"(3) Recapture event defined.—For purposes of this subsection, the term 'recapture event' means—

"(A) Cessation of operation.—The cessation of the operation of the home as a qualified child care home.

"(B) Change in ownership.—

"(i) In general.—Except as provided in clause (ii), the disposition of a person's interest in a qualified child care home with respect to which the credit described in subsection (a) was allowable.

"(ii) Agreement to assume credit allowance and recapture liability.—Clause (i) shall not apply if the person acquiring such interest in the home agrees in writing to assume the recapture liability of the person disposing of such interest in effect immediately before such disposition. In the event of such an assumption, the person acquiring the interest in the home shall be treated as the taxpayer for purposes of assessing any recapture liability (computed as if there had been no change in ownership).

"(4) Special rules.—

"(A) Tax benefit rule.—The tax for the taxable year shall be increased under paragraph (1) only with respect to credits allowed by reason of this section which were used to reduce tax liability. In the case of credits not so used to reduce tax liability, the carryforwards and carrybacks under section 39 shall be appropriately adjusted.

"(B) No credits against tax.—Any increase in tax under this subsection shall not be treated as a tax imposed by this chapter for purposes of determining the amount of any credit under subpart A, B, or D of this part.

"(C) No recapture by reason of casualty loss.—The increase in tax under this subsection shall not apply to a cessation of operation of the home as a qualified child care home by reason of a casualty loss to the extent such loss is restored by reconstruction or replacement within a reasonable period established by the Secretary.

"(f) Termination.—This section shall not apply to expenditures made after December 31, 1993.".

(b) Conforming Amendments.—

(1) Section 38(b) of the Internal Revenue Code of 1986 is amended—

(A) by striking out "plus" at the end of paragraph (4),

(B) by striking out the period at the end of paragraph (5), and inserting in lieu thereof a comma and "plus", and

(C) by adding at the end thereof the following new paragraph:

"(6) the child care home credit determined under section 43.".

(2) The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 43. Child care home credit.".

(c) Effective Date.—The amendments made by this section shall apply to taxable years beginning after December 31, 1988.

TITLE IV—EMPLOYER ON-SITE CHILD CARE FACILITY CREDIT

SEC. 401. ALLOWANCE OF CREDIT FOR EMPLOYER EXPENDITURES FOR CERTAIN ON-SITE CHILD CARE FACILITIES.

(a) In General.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to business related credits), as amended by section 301(a), is further amended by adding at the end thereof the following new section:

"SEC. 44. EMPLOYER ON-SITE CHILD CARE FACILITY CREDIT.

"(a) In General.—For purposes of section 38, the employer on-site child care facility credit determined under this section for the taxable year is an amount equal to 25 percent of so much of the qualified on-site child care expenditures for such taxable year as does not exceed $400,000.

"(b) Prior Expenditures by Taxpayer on Same Facility Taken Into Account.—If for any prior year a credit was allowed to the taxpayer under this section with respect to any qualified child care facility, subsection (a) shall be applied for the taxable year with respect to such qualified child care facility by reducing the dollar amount contained in such subsection by the prior year expenditures taken into account under such subsection.

"(c) Definitions.—

"(1) Qualified on-site child care expenditures.—The term 'qualified on-site child care expenditures' means any expenditure made by an employer during the taxable year to acquire, construct, rehabilitate, or expand a qualified child care facility.

"(2) Qualified child care facility.—

"(A) In general.—The term 'qualified child care facility' means a facility—

"(i) Operated by an employer for the care of enrollees;

"(ii) available to dependents of employees of such employer,

"(iii) located on the premises of such employer, and

"(iv) which meets the requirements of all applicable laws and regulations of the State or local government where it is located.

"(B) Off-site nonprofit child care facilities.—With respect to a nonprofit child care facility, subparagraph (A) shall be applied without regard to clause (ii) and (iii) thereof.

"(d) Basis Adjustments.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(e) Recapture of Credit.—

"(1) In general.—If, as of the close of any taxable year, there is a recapture event with respect to any qualified child care facility, then the tax of the taxpayer under this chapter for such taxable year shall be increased by an amount equal to the product of—

"(A) the applicable recapture percentage, and

"(B) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted from the nonallowance of the credit described under subsection (a).

"(2) Applicable recapture percentage.—

"(A) In general.—For purposes of this subsection, the applicable recapture percentage shall be determined from the following table:

"If the recapture event occurs in:	The applicable recapture percentage is:
Year 1	100
Year 2	66⅔
Year 3	33⅓
Years 4 and thereafter	0

"(B) For purposes of subparagraph (A), year 1 shall begin on the first day of the taxable year in which the qualified child care facility is placed into service by the taxpayer.

"(3) Recapture event defined.—For purposes of this subsection, the term 'recapture event' means—

"(A) Cessation of operation.—The cessation of the operation of the facility as a qualified child care facility.

"(B) Change in ownership.—

"(i) In general.—Except as provided in clause (ii), the disposition of a person's interest in a qualified child care facility with respect to which the credit described in subsection (a) was allowable.

"(ii) Agreement to assume credit allowance and recapture liability.—Clause (i) shall not apply if the person acquiring such interest in the facility agrees in writing to assume the recapture liability of the person disposing of such interest in effect immediately before such disposition. In the event of such an assumption, the person acquiring the interest in the facility shall be treated as the taxpayer for purposes of assessing any recapture liability (computed as if there had been no change in ownership).

"(4) Special rules.—

"(A) Tax benefit rule.—The tax for the taxable year shall be increased under paragraph (1) only with respect to credits allowed by reason of this section which were used to reduce tax liability. In the case of credits not so used to reduce tax liability, the carryforwards and carrybacks under section 39 shall be appropriately adjusted.

"(B) No credits against tax.—Any increase in tax under this subsection shall not be treated as a tax imposed by this chapter for purposes of determining the amount of any credit under subpart A, B, or D of this part.

"(C) No recapture by reason of casualty loss.—The increase in tax under this subsection shall not apply to a cessation of operation of the facility as a qualified child care facility by reason of a casualty loss to the extent such loss is restored by reconstruction or replacement within a reasonable period established by the Secretary.

"(f) Special Aggregation and Allocation Rules.—For purposes of this section—

"(1) Aggregation of expenditures.—

"(A) Controlled group of corporations.—In determining the amount of the credit under this section—

"(i) all members of the same controlled group of corporations shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such member shall be its proportionate share of the qualified on-site child care expenses giving rise to the credit.

"(B) Common control.—Under regulations prescribed by the Secretary, in determining the amount of the credit under this section—

"(i) all trades or businesses (whether or not incorporated) which are under common control shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such person shall be its proportionate share of the qualified on-site child care expenses giving rise to the credit.

The regulations prescribed under this subparagraph shall be based on principles similar to the principles which apply in the case of subparagraph (A).

"(2) ALLOCATIONS.—

"(A) ALLOCATION IN CASE OF MULTIPLE EMPLOYERS.—In the case of multiple employers jointly operating a qualified child care facility, the credit allowable by this section to each such employer shall be its proportionate share of the qualified on-site child care expenses giving rise to the credit .

"(B) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

"(C) ALLOCATION IN THE CASE OF PARTNERSHIPS.—In case of partnerships, the credit shall be allocated among partners under regulations prescribed by the Secretary.

"(3) CONTROLLED GROUP OF CORPORATIONS.—The term 'controlled group of corporations' has the same meaning given to such term by section 1563(a), except that—

"(A) 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears in section 1563(a)(1), and

"(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.

"(g) SPECIAL RULE FOR PASS-THRU OF CREDIT.—In the case of an individual who—

"(1) owns an interest in an unincorporated trade or business,

"(2) is a partner in a partnership,

"(3) is a beneficiary of an estate or trust, or

"(4) is a shareholder in an S corporation,

the amount allowable under subsection (a) for any taxable year shall not exceed an amount (separately computed with respect to such person's interest in such trade or business or entity) equal to the amount of tax attributable to that portion of a person's taxable income which is allocable or apportionable to the person's interest in such trade or business or entity.

"(h) TERMINATION.—This section shall not apply to expenditures made after December 31, 1993.".

(b) CONFORMING AMENDMENTS.—

(1) Section 38(b) of the Internal Revenue Code of 1986, as amended by section 301(b), is further amended—

(A) by striking out "plus" at the end of paragraph (5),

(B) by striking out the period at the end of paragraph (6), and inserting in lieu thereof a comma and "plus", and

(C) by adding at the end thereof the following new paragraph:

"(7) the employer on-site child care facility credit determined under section 44.".

(2) The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by section 301(b), is further amended by adding at the end thereof the following new item:

"Sec. 44. Employer on-site child care facility credit.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1988.

TITLE V—DEPENDENT CARE SERVICES TAX CREDIT

SEC. 501. PHASE OUT OF CHILD CARE CREDIT.

(a) IN GENERAL.—Paragraph (2) of section 21(a) of the Internal Revenue Code of 1986 (relating to expenses for household and dependent care services necessary for gainful employment) is amended to read as follows:

"(2) APPLICABLE PERCENTAGE DEFINED.—For purposes of paragraph (1), the term 'applicable percentage' means 30 percent reduced (but not below 0 percent) by the sum of—

"(A) 1 percentage point (but no more than a total of 10 percentage points) for each $2,000 (or fraction thereof) by which the taxpayer's adjusted gross income for the taxable year exceeds $10,000, plus

"(B) either—

"(i) in the case of an individual who maintains a household which includes 1 qualifying individual (as defined under subsection (b)(1)(A)), 2 percentage points for each $1,000 (or fraction thereof) by which the taxpayer's adjusted gross income for the taxable year exceeds $35,000, or

"(ii) in the case of an individual who maintains a household which includes 2 or more qualifying individuals (as defined under subsection (b)(1)(A)), 2 percentage points for each $1,000 (or fraction thereof) by which the taxpayer's adjusted gross income for the taxable year exceeds $45,000.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 1988.

SEC. 502. REFUNDABLE DEPENDENT CARE SERVICES TAX CREDIT.

(a) IN GENERAL.—Part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to credits against tax) is amended—

(1) by redesignating section 35 as section 36, and

(2) by redesignating section 21 as section 35.

(b) CONFORMING AMENDMENTS.—

(1) Paragraph (a) of section 35(a) of the Internal Revenue Code of 1986 (relating to allowance of credit), as redesignated by subsection (a), is amended by striking out "chapter" and inserting in lieu thereof "subtitle".

(2) Section 129 of such Code (relating to dependent care assistance programs) is amended—

(A) by striking out "section 21(d)(2)" in subsection (b)(2) and inserting in lieu thereof "section 35(d)(2)", and

(B) by striking out "section 21(b)(2)" in subsection (e)(1) and inserting in lieu thereof "section 35(b)(2)".

(3) Subsection (e) of section 213 of such Code (relating to deduction for medical, dental, etc., expenses) is amended by striking out "section 21" and inserting in lieu thereof "section 35".

(4) Paragraph (4) of section 6201(a) of such Code (relating to assessment authority) is amended—

(A) by striking out "or section 32 (relating to earned income)" and inserting in lieu thereof ", section 32 (relating to earned income), or section 35 (relating to dependent care services credit)", and

(B) by striking out the caption and inserting in lieu thereof the following:

"(4) OVERSTATEMENT OF CERTAIN CREDITS.—".

(5) Section 6513 of such Code (relating to time return deemed filed and tax considered paid) is amended by adding at the end thereof the following new subsection:

"(f) TIME TAX IS CONSIDERED PAID FOR DEPENDENT CARE SERVICES CREDIT.—For purposes of section 6511, the taxpayer shall be considered as paying an amount of tax on the last day prescribed for payment of the tax (determined without regard to any extension of time and without regard to any election to pay the tax in installments) equal to so much of the credit allowed by section 35 (relating to dependent care services credit) as is treated under section 6401(b) as an overpayment of tax.".

(6) Subsection (d) of section 6611 of such Code is amended by striking out the caption and inserting inlieu thereof the following:

"(d) ADVANCE PAYMENT OF TAX, PAYMENT OF ESTIMATED TAX, CREDIT FOR INCOME TAX WITHHOLDING, AND DEPENDENT CARE SERVICES CREDIT.—".

(c) CLERICAL AMENDMENTS.—

(1) The table of sections for subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by striking out the item relating to section 21.

(2) The table of sections for subpart C of such part IV is amended by striking out the item relating to section 35 and inserting in lieu thereof the following new items:

"Sec. 35. Expenses for household and dependent care services necessary for gainful employment.

"Sec. 36. Overpayments of tax.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1988.

TITLE VI—CHILD CARE STUDY

SEC. 601. CHILD CARE STUDY.

Not later than 90 days after the date of enactment of this Act the Secretary shall prepare and submit, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, a report that—

(1) describes the demographic and societal trends that are increasing the need for child care;

(2) describes the reasons for the greatly increased need for child care; and

(3) develops recommendations for joint efforts by the Federal, State, and local governments targeted towards enabling parents to care for children in their own homes.

MY ADVICE TO THE PRIVILEGED ORDERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 60 minutes.

Mr. GONZALEZ. Mr. Speaker, today I would like to continue on the course I have taken here now for a couple of years in my advice to the privileged orders, particularly in view of the events that have happened in which, during the last special order, I more or less had anticipated, and to quote my own self, at the completion of the day a week ago, that while we were rushing off completing the business for the week, we were faced both domestically as well as externally with such pressing and continuing and sustained issues as to endanger the national well-being.

With respect to the external, I pointed out that as we were going off, we should not forget the sailors and airmen in the Persian Gulf who were exposed and continued to be. On the domestic front, I pointed out that I had introduced the first suggested substitute for the reconstruction of the American dream, but more specifically and concretely, the reconstruction of the framework of financial institutional reference necessary if a country or a nation is going to commit itself to meeting that indispensable in human life, that basic need in human life, and that is housing, and in the course of previous discussions as far back as 1982, for it was the subcommittee that I have had the honor to chair since January 28, 1981, in fact, the most numerous subcommittee in the whole Congress, the Subcommittee on Housing and Community Development, that we pointed out with the first hearing on December 4, 1982, about what was obvious to us then after having had some hearings both here in the Capitol as well as out in the field, in both the most rural of our areas as well as the most dense urban and the most densely populated sections of our country, where we are really confronted with the making of one of the most disturbing social upheavals and crises that I predict we will be facing sooner than later, just as in the case of the international activities and external problems that face us, due directly to actions on the part of the executive branch and the Congress or the failure to take action on the part of the executive branch and the Congress.

With respect to what I discussed this last Thursday that has relevance to what I want to develop today and the domestic situation, I described, and had been doing so previously, but fragmentarily, the breakdown of the system that gave rise to the performance of the miracle of the 20th century, and that is the housing of America. For 40 years, from 1940 to 1980, our country, our great and glorious country, performed the miracle of the ages. It housed its citizens, poor, moderate-income, middle-income and high-income.

There seldom is, of course, any kind of a shortage for the extremely wealthy, but today we reached the point of abysmal failure where we have shut out from home ownership the overwhelming preponderant number of American families. There is just about 6½ percent of the American families who can afford to buy a brand new, newly constructed single-family dwelling unit.

This is how much abdication since 1981 both the Congress and the executive branch have brought about and created a real, real serious crisis of great dimensions that is going to task our ability, our wit and our will to resolve before there is too much damage to the social well-being of our society.

In the first place, it was obvious in December 1982 when we had the first hearing, on December 4, on what later became known as the homeless problem, that we were going to face homelessness, not the kind that we became inured to after World War II, that is, after the hot-shooting phase of World War II, because by way of parenthesis, I have maintained all along that we never have closed out World War II. We have over 300,000 of our military in Germany alone. We have over 45,000 in Korea and throughout the world we have one-half of a million of our uniformed forces, more than was ever at any time out, and this means that we have failed to grasp the significance of the world changes since 1945, 1946, and 1947.

In fact, our debates here, as I have pointed out, if we want to call them debates, we have had discussions, but we have not had debates as to the formation and the thrust of what we call our defense policies. We are taxing as of this year the American taxpayer for more than $300 billion for this so-called defense, but which defense is predicated on a 1947 world which no longer exists.

We should not be surprised if we have incidents such as we have been reporting with great agony to our national conscience. We should not be at all surprised; yes, disappointed, but not surprised. I think both the American people through their representatives, their agents, us that is, have not wanted to confront the basic serious constitutional issues confronting us.

I saw that clearly at the time of the Korean conflict when I never dreamed that I would be in the Congress, never thought I would be active in politics, and the reason was that I thought it was a fundamental constitutional issue if a President could willy-nilly conscript an unwilling American, after selecting him, that is, where some would and some would not, but all equally eligible and send them outside of the continental United States, though unwilling, to fight in an undeclared war.

I think so many of my colleagues, I know, all during the 1960's, when I raised the issue, once I came to the Congress, I first raised the issue with President Kennedy, and if ever I had a friend and probably the President with whom I had the most intimate confidence of all the Presidents including my fellow Texan and neighbor, Lyndon Johnson, it certainly was John F. Kennedy, and even I at the time when I think only a handful would have known where South Vietnam really was, and this was May 1963, and I discovered back home that a little airman had been brought back and was in a ceremony involving the reserve component of the Air Force at Kelly, in my district. This young airman was the son of a friend of mine. We had grown up together. We had played baseball together. When the war broke out, I was called to serve in what turned out to be the cable and radio censorship with both military as well as naval intelligence, and he went over as a foot soldier and ended up being a hero in the Battle of the Bulge.

Here they were having this ceremony, and the commanding officer, Colonel Marchbanks, since deceased, invited me because of the fact that the family knew me, and I went and wondered what are they decorating this little airman about and for. It was explained that he had been involved in I forget how many dozens of missions in Southeast Asia, and I said, "What do you mean, missions?" They said, "He was an adviser," and it turns out, in speaking with the young man, that he explained that he had been what was known as a cargo master on a helicopter, but actually operated by the ARVN, or the Army of the Republic of Vietnam, and that on the last trip out he had received hostile fire, and not wanting to get shot and killed and being unarmed, he ordered the ARVN to fire back, and he refused, so he grabbed the gun and fired back, and they pulled up and landed safely.

When he landed, he was reported as having violated his advisory status. The CO, in order to avoid incidents, just shipped him back home.

First, why would an American in uniform, obliged to face possible serious bodily harm or death, be put in a position where he would be unarmed? That sounded to me unbelievable. I came right back the following Wednesday, and they used to have briefings on Wednesday mornings by the seventh floor desk of the State Department, and that was the Far East desk. At that time the gentleman who handled that was the brother of one of the highly placed Kennedy officials, and when I asked, I said, "By what reason, and I might ask, how many of these men do we have in Southeast Asia, and if they are advisers, why are they facing combat environments with no minimal self-protection, not even a sidearm?" He did not answer. That is when I gloried in the ability of the State Department, in good, perfect English to give a nonanswer.

I respect my superiors, and when I was in the State senate, the only arm I was able to develop as leverage was my ability to take the senate floor once recognized by the president and hold it as long as I could talk or stand on my feet, because the Texas State Senate was the birthplace of the so-called filibuster.

☐ 1645

The Texas Senate had always upheld the unlimited debate precedent and rule. So I learned how to say in 30 hours what one could have said in about 5 minutes.

So when this gentleman was explaining what I was trying to find out about, but which he never got to, finally I said, "Well, sir, you are not responsive to my question. Why are our men there, if they are in uniform, and why are they exposed to hostile fire if they are merely advisers? It is contradictory."

He said, "My suggestion would be that you direct your inquiry to the Defense Department. All I can tell you is that the United States has been requested by the ruler, Diem, to provide military advisory assistance."

So I gave up. That evening I had an invitation to go to the White House. President Kennedy was a very outgoing President, and I went, and the first thing I did was to buttonhole him. He seemed puzzled. So he turned the matter over to his personal secretary, Kenny O'Donnell. So later I had a call from Mr. Kenny O'Donnell and he said, "Henry, I have contacted the Pentagon for you but if you will call such and such an individual with liaison he might give you a little bit more exact information."

I called that individual and found out, to my great surprise and at the same time gratification, that we had military that also had the gift of gab and was almost as good as that State Department official, except he was a little more in the habit of using military jargon. But I finally concluded that what he was telling me was there were no more than some 57 advisers in Southeast Asia all told, that this just simply could not be true that they would have been involved in missions in which they would have been exposed to serious bodily harm or death. I said that I have a case here, alive and kicking, corroborated, documented. He said that must have been some mistake somewhere, "but we can assure you that that is not the case."

History has shown that by the time I made that call, we had, and whether the President knew about it or not in exact detail, I do not know, all I know is that by 1963 we had more than 1,000 and perhaps a lot more than 1,000. Now we pick up books and memoirs and we read and we had actual encounters and planned excursions in a combat environment and all in the name of advisory with the South Vietnamese Government troops.

I direct the attention of my colleagues interested in the subject matter to the current series of articles in the New Yorker, which is, incidentally, I will tell my colleagues, perhaps one of the best sources for some of the most seminal and instructive and evidentiary documentation you will find anyplace. The article is written by a former colonel who served in that capacity and worked both with military intelligence as well as with the CIA and with the special forces that were developed on that occasion, and the number of casualties which really have not been reported any more than our Central American involvement and casualties, where very much the same thing has happened, and it has all gone unreported. Ironically, I reported to this body in this well in 1982, soon after the arrival of the first of the substantial, and I call substantial anything over 40 or 45 military components to El Salvador in 1982, and 1980 when we had the first recognition and the acceptance of the military advisory capacity, and that substantial incremental increase in 1982. And I had a constituent again who reported the same thing in 1982 that this airman had reported to me in 1963.

So I speak of these specifics only to address this general subject matter in which I have said that we have strayed, and all with the either tacit or silent consent of the Congress. The Congress has been and continues to be the key. And if the Congress abdicates we should not be shocked. The Congress is a good reflection of the American people. We are elected by the people and we should be. So that in a sense emerging from this vast conglomeration known as the American people there has been no real, concise formulation of opinion.

But the reason is that we reached a point in our society, not only in the United States but in the world, where the information necessary for the citizen to formulate his opinions and make the wise decisions which the Founding Fathers expected under the Constitution in the election of their Representatives, and that is that today the leadership also has the double tasks of educating, of leading by informing, and that just simply has not been there. The reason there again is that we are ourselves ill-informed, because again, what are our sources of information.

But when there are eruptions or actions that are obviously and palpably described and documented that clearly show this disarray, such as in the case of the military advisers actually engaged in conflict on one side or the other, and we have learned nothing because as I said for 14 months during the time that President Reagan assigned the 2,000 marines or more to Beirut, I was formulating my questions based on these experiences, and my question was very simple: What, Mr. President, is the mission of our marines in Beirut?

It was at that point on the first occasion, because I will recall to my colleagues that President Reagan first sent a smaller detachment of marines earlier in 1982, and then removed them when the Gemayel regime, or one part of it, one of the brothers seemed to have taken charge. But what I could see obviously nobody was mentioning in our press, in the Congress, to the Congress, or to the press to the point where the American press would report it, but which was being reported in the European press, in the Latin American press and which I read, and that was that that regime was one of four factions engaged in a long and bitter disputation. It was a civil war inside of a religious war inside of a historical conflict going back to 2,000 years before when the Romans occupied that part of the country and did not know what to do with it; and where the French after 50 years of fruitless imperial possession, did not know what to do, and were delighted when in the middle of World War II, 1943, they just shed themselves of it and handed it over to us and the British at that time. Since then, both the British and the French washed their hands or got excluded from that area and turned it over to us.

What I think my colleagues and we generally in America do not see is the perception of us in that part of the world. As much as the perception of ourselves is different, we do not look upon ourselves as stepping into the shoes of a colonial power. Unfortunately, that is not the way we are looked upon in the Middle East. We are looked upon as the power that has stepped into the shoes of the British and the French imperial powers.

What is the mission of our sailors in the Persian Gulf? Now when the trumpet giveth an uncertain sound, who then, who then can rise to battle, who then can do battle? This saying is as old as St. Paul where he had been a soldier and he knew that the enemy of soldiery is indecisive or poor, unclear, limpid leadership without forceful decisions and direction and a clearly spelled out mission. This is not even being discussed in the Congress. All the discussions have been on was the commander right, should he not have shot down this airplane. That is not the issue.

As I am speaking here today, the danger continues, perhaps in another form other than shooting down an airliner, but it is there because our presence there is not defined. What is the mission of our sailors?

I have said right here not once but thrice that our sailors are exposing their lives for the protection of the interests of SOCAL, that is Standard Oil of California, and British Petroleum, because we are flagging with the American flag those tankers delivering that oil that is being marketed by those entities.

Iraq, as well as the other Arabic nation, which incidentally is the one we are flagging the tankers with American flags, but it is a party to the hostilities, it is an ally because it is an Arabic nation. The war that is now in progress for 8 years, one of the most bitter, one of the most inhuman wars ever where everything has been used from torture, mutilation to poison gas, is a war between an Arabic nation or nations and a non-Arabic nation known as Iran.

Israel is still in a state of war technically and in effect in reality with Iraq, yet it was Iraq that shot and killed or bombed and killed our 37 sailors. It was not Iran. But we are protecting Iraqi shipping because Iraq is sinking Iranian shipping. We are not protecting the gulf lanes because we are accomplices in the sinking of Iranian tankers. So we are in the middle of a war. We are on the side of one of two warring nations.

So should we not expect more and ominous occurrences as long as our Commander in Chief, as he did in Beirut, does not define the mission of the military?

□ 1700

What is their mission? What are the rules of engagement? And if they have been assessed, as some have reported, tenuously, then the President has not come to the Congress as the 1974 War Powers Resolution demands. I have introduced a War Powers Resolution alleging the President has been in violation of it since last year, the first session of the 100th Congress. There is nobody among my colleagues that seems to be very much interested. So our hands are just as bloody as the Commander in Chief's and just as much as in the death of the 241 marines in Beirut.

I introduced a resolution then, for I am willing to go before a committee if they will give me a hearing and make the case. But what do you do as a single Member of the U.S. House of Representatives other than that, other than what I am doing now? I have constituents on those ships, I have constituents on land servicing the ships; I have constituents in Korea, I have constituents in Germany. Who then will speak for them?

In Korea we have already had demonstrations in which the passion for reunification of that Fatherland is there and accompanied by shouts of "Get out, Americans."

Now these are the Koreans in South Korea where we lost almost as many as we did in Vietnam and where we still have better than 45,000 of our soldiers.

In Honduras, I have gotten up time after time to the point where I received, I am sure, from some of the work force here critical calls, anonymous calls to the office even while I was talking. I had excoriating coluniists in my own district, for always I have first spoken at home and then here. It has never been the other way around. In fact, I have even been condemned for even utilizing this part of what is a regular procedure of the proceedings of the U.S. House of Representatives, not because I was using them, because I have been using them since the first week I came to the Congress 27 years ago, but because what I said was not to the liking of the powerful friends of this powerful administration in power. So be it.

I spoke out all during the sixties, when I was here alleging the President had no constitutional right to impress an unwilling conscript and send him outside the continental United States. Why would I get that notion? Because the first draft or Universal Service Act, during peacetime, since the Civil War, in 1941 when it passed by one vote—that vote finally came and a clause was inserted. Now you look at it, look at the history, you will see that clause. It says, "Notwithstanding any of the above, no person subject to the terms of this act shall be compelled to serve against his will outside the continental United States except in the declaration of war by Congress or explicitly provided so by the Congress," because the President does not have the right to make war. Only the Congress can make war. And the Congress has not. This is why I have denounced this President for the military intervention in Central America where we have lost better than two dozen soldiers. It has not been reported that way but they have. Where, obviously, the bankruptcy of these policies should be self-evident, even in the smallest country of El Salvador, where, as I am speaking, we are spending over $1.5 million a day and we are no closer to a satisfactory solution than we were 7 years ago. And after $4 billion and an untold amount, reported and unreported, of military aid, both overt as well as covert, all of it, all of it antagonistic to the constitutional processes that are supposed to be governing us. What is it we wait for, I ask my colleagues. How long? How long? Shall we wait until it is quite obvious that there is no retreat from the abandonment of our Constitution in which, try as we will, we cannot put together more than we can Humpty-Dumpty? History has great lessons if only we would read and listen and heed.

God is no distinguisher of persons or nations. All we have to see is what has happened during the 20th Century to the most enlightened, the most cultured of countries such as Germany. Now growing up, Germany was tops scientifically, culturally, in the area of music, literature, art, and particularly in technology and science. Yet what happened among that people? Are we in America privileged and exempt? I do not think so, as much as I would like to think so. It means that as we have yet to complete our 200th anniversary of enjoying this form of government under this Constitution, which we cannot say we will celebrate until March 3, 1989, the dangers are great, the perils are immense, the risks are overwhelmingly dangerous simply because we have allowed ourselves to stray out of a worship of the executive branch which the Founding Fathers feared the most, more than anything else.

In the first 10 years of our existence as a nation, those same Founding Fathers thought so little of such an office that they did not provide for any such thing as a presidency. You had the first and then you had the second Continental Congresses, then you had the Articles of Confederation and then, because it was realized that a multiple-member body would have to have some unitary force that it could depend on at a given moment for quick, effective action, but circumscribed by the Constitution, limited as that branch was also, co-equal, independent and separate. But today there is not an American I have talked to but what tells me that the President is superior and greater, almost omniscient. Well, if we reach that point, and I see in our electoral processes—we have electoral processes in which we expect some individual, a candidate for that office to save us. Well, we are gone, if that is what we depend on.

Our system is in shreds if that is the point we have reached.

I do not detect this among the American people in general. Wherever I travel my experience has been all along, and the reason I am here today is that the people are ahead of us political leaders. But what choice do they have? What choice do they get? And how can they wisely choose and how can they wisely formulate judgments if they do not have the facts? Shall we wait, as we are doing and as I have warned against since 1964, where we will have the cries rising more and more and eventually enveloping in such crises as will cause us great, great hysterical moments and that is not the best time to think. We see the handwriting on the wall certainly clearly now in Korea where today's paper, even, reports that the South Korean president even says, "Yes, well, you know, we wanted to have some kind of rapport, reapproachment to get together with North Korea." There is no mention about "What about the American stake?" But you have the outcry on the part of demonstrators saying, "Americans get out." Are we going to wait until that happens in Germany? The symptoms are there. It is going to happen. This is not 1974, it is not 1950. This is not 1984. There the passion for reunification is just as great in Germany, both Germanies. Should we not expect that? It is a repetition of what happened after World War I. We had the same thing.

Everybody thought that the hatred, the bitterness, the passions of wars and the so-called victorious allies had forever trampled the German war machine. You had the French leader saying, when he was asked, "Look, why are you so bitter? Why do you demand this absolute reparation sacrificing the entire German society with a burden that cannot be borne? Why don't you go over and express some interest?" His answer was very simple, to the point; in fact, he told our President, President Wilson, he said, "Look, why should I go to Germany? Twice in my lifetime they have come into my country," evoking the War of 1870 in Bismarck and then, of course, the invasion in World War I.

So what happened? The dream of President Wilson, which incidentally is 14 points—one of the 14 points has been completely forgotten. It was "We guarantee the integrity of the Russian soil," which had been invaded. In fact we, with the French and British, invaded Russia. To do what? To try to put down the revolution. We lost over 300 soldiers in that venture in 1918. Now we forgot that.

Do you think that has been forgotten in Russia? Do you think the Russians have forgotten the invasion of the Germans that cost them 20 million lives? These are histories that our leaders somehow or other do not seem to be aware of anymore than they are aware of the culture and histories south of our border.

Twenty million people, that would be as if Guatemala invaded the United States, killed every single citizen of Texas, Oklahoma, Arkansas, and Louisiana. Then with the help of external assistance we rolled them back. But as soon as we got into the post-war period, one of our strong allies said, "Well, it is not enough to dismember Guatemala because one side of it is friendly to our system of government and we don't like the way you do your business in a democracy. So we are going to rearm."

□ 1715

Simply put, that is what happened in Middle Europe.

It was no more complicated than that. We rearmed Germany. But even today we can read from the literature even in Poland where the fear still is much greater toward Germany than it is toward the Russians, although Poland at one point or another in the last 200 years has been occupied by everybody, including the Swedes.

Yet the history is roiled because we will not be able to understand the nervousness of our rearming. And, of course, the big debate that was being held in the early 1940's and the 1950's was: shall we place the German finger on the bomb, on the trigger of the bomb? That was the big issue. I remember that. If we were to dig up the journals and the papers of that era, 1948, 1949, and 1950, we would find that our leaders were talking about the question of rearming. Do we allow the German finger on the bomb? The bomb was the big issue then, as it continues to be today.

So my advice has been all along to just merely get the perspective of the reality of the world as it has evolved, particularly since the 1960's. It was obvious in all the international arenas, just like in 1932, at the time of the Depression, the German cry was: there is no such thing as war guilt. And today we are beginning to get the revisionists. In fact, in two of the German provinces the big issue in the elections in West Germany the year before last was the cry to regain two provinces, one being Silesia and another one, provinces that are now in Poland but which at one time were part of Germany or considered part of Germany. And the German leader, Kohl, pacified them by saying, "Look, this is no time to be making these demands at this point, because this is what we are going to make an issue for discussion when we get a peace treaty."

This is why I said a while ago that World War II has not ended yet. There is no peace treaty. We have 300,000 troops in Germany. We call them a defensive force, but they were originally occupation troops, and that designation was changed about the time that the German leader, Adenauer, gained power.

The British have how many? Well, the British, we know, have never abandoned the basic diplomatic principle of national interest, first and foremost. They have somewhere around 7,700 in the Ruhr, the steel-producing area. The English made sure they kept that because they could then control their steel-producing competitor. So they have about 7,700 troops, and we have over 300,000.

How many do the French have? Well, the French have 10,000, give or take a few.

But what are our troops predicated on? An overland Middle Europe incursion on the part of the Russians. Well, anyone who would have had a minimal contact with and knowledge of the Russian culture and the Russian history and its leadership thinking would have known that they were not insane. As a matter of fact, that is the way we painted them. Our very President himself, Reagan, up until this last great trip to Moscow, denounced Russia as the empire of evil, and indicated its leaders were no more than cutthroats and thieves and liars.

Well, simply put, it is not that extreme or it is not the other extreme. They are just people, and they have their culture. They have their historical conditioning development. It is one of the most interesting societies that we know of in human existence. And they have not lost their minds. They cannot even handle their peripheral countries such as East Germany, Czechoslovakia, or Hungary.

Why would they want to come and take Paris and Belgium? It is obvious that our forces are predicated on a world that has long disappeared. And also it is based on the $315 billion more or less that we have been outlaying for our so-called defense—I call it a war budget—since 1981.

And we have gotten wars. We are involved in a war now. There is no way we can extricate ourselves from being participants in the ongoing war in the Persian Gulf. As I said, we are on the side of one of two nations at war. That makes us participants. How naive can anybody be to deny that?

Congress refuses to appraise the situation and restrain the President, call him in and say, "Mr. President, the Congress hasn't declared war, so you stop making war." Congress is loath to do that, so in that respect the system is quite faltering.

But in the light of the historical condition, the forces building up are of such a nature that, like a vast natural storm, we will not be able to handle it. If we get simultaneous and antagonistic developments in the Far East, in Korea, in the Philippines, we will not be able to handle it. Filipino leaders are questioning our base rights. Granted, nobody up to 2 or 3 years ago even questioned the fact that we would have what they call hegemony in political science in that area.

In our "front porch" and "back porch" in the New World, we have reached the point where we have just abdicated all kinds of potential leadership. Our moral suasive power is gone. The international courts of justice have found us guilty of acts of terrorism and destruction against the sovereign nation of Nicaragua.

We persist in the imbecility—I do not know any other word but "imbecility" to describe it—of having an ambassador in Managua recognizing that regime as the legitimate regime while we are pouring millions of dollars into an illegal group in the neighboring country of Honduras that we occupy. We have occupied that for years. And even there, just a matter of 2½ months ago, we had serious outbursts and violent demonstrations against us, even in a nation that we occupy and control completely.

So do we have problems? Of course we have. But problems are made to be solved. These are not acts of God. They are man-made problems, and they are susceptible of man-made resolutions. All I can say is that my advice is—and that is all I can give—that if the end result of headstrong, willful, obdurate, unheeding actions over the course of 7 years have produced no more than these disastrous results, then what are we in the Congress waiting for? What is it that we desire? How do we properly account to the American people for our abdication of our constitutional responsibility?

The Constitution grants us great authority, but also great responsibility. And it is not unlimited; it is limited. The same thing is true with the executive branch, and wisely, the men who wrote the Constitution placed the executive branch in article II. Article I is the Congress. This is where they clearly showed their priority, to the Representatives of the people.

But if the system breaks down, we are, as I said, the Representatives of the American people, no more and no less. We have a great tradition that we have inherited. But the worst of slaves, it has been said, are corrupted free men, and if we have become corrupted in our ways, careless of our privileges such as the Constitution, should we then gnash our teeth, or should we say, "We, the people, the source of all power under the Constitution, demand of you, our agents, that you tell us exactly and forthrightly what the issue is." We should say, "Don't be scared to lose your job if you tell us unhappy news." But this seems to be the case.

I never participate in the purely political partisan offices or activities, so I have not been a delegate to conventions, though I could have been since 1956. I believe the reason for that, as I stated, is that I do not believe in such things as superdelegates, of which we in Congress seem to have the lion's share. That is ridiculous. It is antagonistic to the democratic process. We are either delegates or we are not delegates. There are such things as hierarchical delegates and superdelegates and plain ordinary vanilla delegates, but we have gotten so far away in these processes that I have told my leaders back home, "I am not going to be a delegate because I think that ought to be left up to a good, hardworking party member who doesn't hold a political office."

Why do we want to hog these things? It takes everything I have got to do the job I have. I cannot go around here and fool around and try to tell the people who they ought to elect. That is what the party processes ought to be for. But when you do this, you are removing them from the processes of the involvement of the people, and as a result we do not get the participation of the people.

The most disturbing factor in American participatory democracy has been the lack of participation in our elections. In 1956 in Texas we had the so-called poll tax. Everybody used to say that that was the source of all evil. In order to qualify for a vote in a given year, we had to pay a poll tax of $1.50, and then it was $1.75, by January 30 of that year, long before the candidacies were formed, long before the primaries were shaping up. And we said, "Well, the reason people are so poorly registered is that $1.75 is a lot of money, and you have to pay it by January 30th."

Well, in 1956 we had the poll tax. I was on the city council, and finally I decided that I could not afford it any longer. My family was growing. The city council paid $20 a week for 40 weeks, because it is a council-manager form of government. The office of mayor was also a ceremonial mayor. Yet the candidates for mayor, and the successful mayors in the last three mayoralty elections in San Antonio have reported spending in excess of half a million dollars.

In congressional races we have had million-dollar campaigns. That is completely vitiating the intent for which this office was created, and that was that it would be that office that is directly accessible, directly amenable to the people themselves, like no other office.

The Senators have a whole State. The President and Vice President have the whole Nation. But that citizen out there has the Congressman in his district, someone that he ought to be as close to as the telephone, and if that is not true, the system is not working.

Who can afford to run a million-dollar campaign? Who can afford to run a campaign for $100,000? I know I never could have. But the proof of the pudding is that the people do not demand it.

I am here now, and I have had everything anybody could throw at anyone thrown against me. The newspapers have never been particularly friendly to me. In my first race for the Congress, my opponents brought in former President Dwight Eisenhower himself for 3 days in a row, with both newspapers picturing my opponent and Eisenhower with my opponent in color on the front page of each daily for 3 days in a row.

□ 1730

How could someone match that?

Yet the people elected me, and not by a small proportion. I think 11,000 votes is pretty good under those circumstances.

But then that race in 1956 for the State senate where I resigned from the city council and then announced for the State senate not expecting to win, but because there was an issue to be made, and incidentally that issue is still unresolved. It was the one fight I left incomplete on the city council. I waged successfully the fight to change the city water board, which was one of the last vestiges of the old rotten bureau system.

Mr. Speaker, my city, that great city of San Antonio, still is the only place I know of in the English-speaking world that has the last vestige of the rotten bureau system, and that is the utility company. Now the water company was that way 35 years ago, but I led the fight, took 3 years, but I survived. I was the only one reelected in 1955 as the first independent candidate to be elected on the City Council of San Antonio under this former government running citywide at that time and with four opponents and with no more than a total of $750.

If my colleagues tell me the people are not there, they are telling the wrong person in America because that is why I am taking these special orders, to proclaim to each and sundry, as I have said on many occasions to my colleagues, "Fear not. All you have to lose is your seat."

TRIBUTE TO THE LATE HONORABLE GLADYS SPELLMAN

The **SPEAKER** pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. HOYER] is recognized for 30 minutes.

Mr. **HOYER**. Mr. Speaker, on June 19, former Congresswoman Gladys Spellman died. Mrs. Spellman was my predecessor from the Fifth Congressional District of Maryland, and for more than 20 years she had been my friend.

Today I rise to remember Gladys Spellman's life. For many years we have dwelled on the sad circumstances that led to her death. As is well known, on October 31, 1980, Gladys Spellman suffered a cardiac arrest and slipped into a coma from which she never recovered. We are thankful that Gladys is now at peace, and the long ordeal for her family, who have stood by her side throughout her career and through her illness, is now over.

We remember Gladys Spellman for her bright smile, her good humor, and her compassion enhanced with intelligence. She was a unique individual, a skilled and professional politician, beloved by her constituents and her colleagues. In her two decades of public service, Gladys accomplished much.

She was born in New York City in 1918. In her childhood, Gladys and her family moved to Washington, DC. Her parents became grocery store owners and operators. Her father, Henry Noon, is still remembered today as an effective president of the District Grocers Association.

Following her graduation from Roosevelt High School and attendance at George Washington University, in 1938, Gladys married a fellow classmate Reuben Spellman. Following Reuben's naval service during World War II, the couple settled in Cheverly, MD. There they raised their family of three children, Stephen, Richard, and Dana.

It was her interest in children that led Gladys to the classroom, where she taught for 6 years. Hoping to improve the level of education throughout the whole Prince Georges County School System, Gladys moved from the classrooms to the community halls. She lobbied the Board of Commissioners, the State legislature, and the Governor for increased funding for education, and she was successful. During this period, Gladys was an officer in the Prince Georges County Council of PTA's, Vice President of the Maryland Congress of PTA's, and was chairman of the National Mental Health Study Center.

Given her success in improving our educational system, it was natural that Gladys next became involved in politics. In 1962, Gladys joined a group of young reform-minded democrats—headed by congressional candidate and later two-term Congressman Carlton Sickles—who were attempting to bring a progressive form of government to Prince Georges County.

After decades of "old guard" dominance, that year Gladys was the first woman ever elected to serve as a member of the board of commissioners.

Four years later, in 1966, she was the first woman ever elected chairman of the board of county commissioners, a position that is essentially the same as our modern day county executive. I was proud to have been elected to the Maryland State Senate as part of that same reform slate in 1966.

During her early years as a commissioner, often against severe odds, Gladys was able to establish many changes in the policies governing Prince George's County. She helped to establish a housing authority, a consumer hotline, and a modern purchasing system for the county. She led the fight for new libraries, a merit system for county employees, and she rewrote the land use zoning laws which began for the first time to bring control and order to planning in our county.

Gladys had a tremendous impact on education. She worked diligently to increase State aid to local schools, bringing in more school construction funds. Through her efforts, free kindergartens were established for all our children. In addition, under her leadership, Prince Georges' Community College was built and special education and exceptional children's programs were funded.

In the 1960's, it was clear that Gladys Spellman's pioneering reforms were moving Prince Georges County toward a modern progressive future.

With the passing of a new county charter an executive/council form of government was created. A special election was held in January 1971 and Mrs. Spellman was elected to the Prince Georges County Council as a councilor-at-large.

It was during her 4 years as a member of the council that Mrs. Spellman, through the legislative process, was able to establish many new county departments and programs. These include: A county department of aging, the consumer protection agency, and the commission for women—the first in Maryland. She sponsored legislation mandating vastly improved treatment procedures for rape victims.

Gladys' activist approach to government was felt not only in our county, but in the Washington region, and across the country.

In 1967, as Prince Georges County Commission chairman, Gladys Spellman was singularly honored by being selected by the President of the United States to serve on the Advisory Commission on Intergovernmental Relations. She was also a member of the National Labor-Management Relations Service, and a member of the steering committee of the Urban Affairs Commission of the National Council of State Governments where she served with then-Governor Ronald Reagan. She was also a member of the board of directors of: the National Association of Regional Councils, the National Center for Voluntary Action, and the National Democratic Party's Advisory Council of Elected Officials.

In 1972, Mrs. Spellman was accorded the highest honor for a county official when she was elected president of the National Association of Counties. Again, she was the first, and for a very long time, the only woman ever elected to the office by that association. Under the auspices of NACO, Gladys launched a nationwide lobbying campaign in support of revenue sharing and mass transit funding.

In the State of Maryland, Gladys Spellman served on numerous State commissions. Our State's county officials elected her to the executive board of the Maryland Association of Counties, where she headed several of its committees.

Throughout the Washington metropolitan area, Gladys Spellman's influence was felt. She served as chairman of two bicounty commissions—the Washington Suburban Transit Commission and the Regional Planning Board. She was a member of the Washington Metropolitan Area Transit Authority and vice president of the Council of Governments.

For years, Gladys resisted calls to run for higher office. But finally, in 1974, she did run and was elected to the Fifth Congressional District seat. As vice chair of the famous freshman class of 1974, Congresswoman Spellman played a major role in the legendary reforms enacted by that class.

She soon was recognized as an effective leader, and the Speaker appointed her in the 96th Congress to serve as a member of the Democratic Steering and Policy Committee, where she was the only woman member.

In her second term in office, Mrs. Spellman was elected to serve as a regional whip, again the only woman in the whip organization at that time.

During the 95th and 96th Congresses, Mrs. Spellman's colleagues on the House Post Office and Civil Service Committee unanimously elected her to be chairman of the Subcommittee on Compensation and Employee Benefits. There she gained the national reputation as a strong and steady advocate for Federal employees.

Mrs. Spellman also served on the Banking, Finance and Urban Affairs Committee, where she took a particular interest in the credit problems facing women. She was a leader on legislation to prevent discrimination against women in this area. On that panel, she also took a particular interest in housing programs.

Mr. Speaker, it is very appropriate that the chairman of the subcommittee of that committee is on the floor tonight as I speak, and I am glad to yield to the gentleman from Texas [Mr. GONZALEZ], the chairman of that committee.

Mr. GONZALEZ. Mr. Speaker, I thank my distinguished colleague, the gentleman from Maryland [Mr. HOYER] for yielding to me and giving me this opportunity to render some witness and testimony to the great accomplishments of this great lady.

I recall vividly when she came aboard. As a matter of fact, when I came up here in 1961-62, her name was in the local newspaper because she was active in Prince Georges County, and I remembered the name Gladys Noon Spellman. So, when she got elected to the Congress and was assigned to the Committee on Banking, Finance and Urban Affairs, we were probably better than the average prepared to engage and evaluate. She was assigned not only to the Subcommittee on Housing and Community Development, but to the Subcommittee on Consumer Affairs and Coinage where she helped us forge the protective consumer credit protection legislation, the equal access to credit for women as well as minorities.

And so, Mr. Speaker, the gentleman from Maryland [Mr. HOYER] is to be thanked very profoundly for invoking her memory and giving us a chance to give testimony to the greatness of her character, her ability to serve. She was a great leader, and there were those of us who prayed practically daily, praying to the Almighty that he would blow and resume that little spark to a flame and have her back with us because she was a Member of the Congress at the time that she had the onset of her illness, and she participated in every single major development in housing and community development, the CBG Program for instance. She had a great participation in the block grant approach in those programs, and I thank the gentleman from Maryland for giving me this opportunity to render this testimony.

□ 1745

Mr. HOYER. Mr. Speaker, I thank the gentleman for his contribution. I know that Mrs. Spellman would be particularly pleased to have the distinguished gentleman from Texas [Mr. GONZALEZ] participate in this special order. They shared a passion for protecting those who in many instances are unprotected in our society, those who do not have particular lobbyists in Washington to speak for them, but who have Members of Congress like the gentleman from Texas [Mr. GONZALEZ] and Congresswoman Spellman to stand up and say these are the people that we represent and who need to be treated fairly. Whether it was in housing or in consumer affairs, or as the chairman has so appropriately pointed out, in community development, they made sure that there are funds and resources available to fix up streets, to make sure that public facilities are adequate in our communities.

We in Prince Georges County have been great beneficiaries of the work that Gladys Spellman and the gentleman from Texas [Mr. GONZALEZ] and others on those particular programs were successful in and we appreciate that.

Again I would say to the chairman, Gladys would be particularly gratified that the gentleman from Texas made his observations, because he knows so well the kind of service that she delivered to the Congress and the people of our county and State.

In Congress as she had in county government, Gladys demonstrated her knack for solving problems large and small. Her casework became legendary in our county, and she was equally adept at fighting legislative battles on behalf of her constituents, again as the chairman has pointed out.

On one project in particular, she demonstrated her ability and tenacity in seeing that prior to the Nation's bicentennial, the Baltimore-Washington Parkway was funded for upgrading. Once she had gained funding, she dedicated her time to seeing that the work was accomplished in such a manner that the inconvenience to the traveling public was kept to a minimum.

Indeed, she was legendary for making sure that the citizens of the Washington metropolitan area were inconvenienced as little as possible in the course of the construction and rehabilitation of that beautiful parkway. This kind of a commitment to a cause is typical of the kind of effective leadership Gladys always exerted.

As you know, in 1983 Congress passed legislation to dedicate the Federal portion of that Parkway to Gladys Spellman. I think Mrs. Spellman's sister, Dorothy Noon Lupo, during her testimony on the bill to rename the parkway said it best:

> Gladys thought of the parkway as majestic and beautiful.* * * That's just the way so many of us think of her. But even more, we think of her much as the parkway suggests * * * busy, vibrant, ever moving.

Those words beautifully describe how so many of us remember Gladys Spellman, vibrant and ever moving, and that is how she would like to be remembered by all of us, I am certain.

Mr. Speaker, I was one of those in 1974 who sat in my office in the Maryland State Senate with Gladys Spellman and with a number of other members of the State senate from Prince Georges County and urged her to run for office. The then incumbent was a gentleman named Larry Hogan. He was very strong in Prince Georges County and had he run would have been a very formidable opponent. Others with less political courage than Gladys demurred and said they were not going to run. Gladys agreed that she would take on that responsibility for all of us.

It so happened that Larry Hogan decided then to run for Governor of Maryland, so that that race which was forseen did not occur and Gladys was elected in 1974.

For the 6 years that she served in the Congress, I had the opportunity of working closely with her. She was my friend. She was an adviser. She was one of the most decent, most able people that I have met in public life.

As I said when I announced her passing to the House, she is now at peace. Her death came late, but timely. Her family is resolved to her passing. It was not a sad day, because of that which she had given to us all, to her family, to her neighbors and friends, to her community and to those with whom she served.

Mr. WEISS. Mr. Speaker, I rise to pay tribute to Gladys Noon Spellman. Her passing marks a great loss not only for those of us who worked with her in Congress, but for the entire Washington community.

I was proud to be able to call Gladys a friend. When I first arrived in the House in 1977 Gladys Spellman extended to me the warmth of her personality and the benefit of her experience and wisdom.

With her intelligence, strength, and perpetual warmth, Gladys Spellman was a woman of tremendous charisma. In all walks of civic life, she demonstrated a remarkable ability to effect significant political change and maintain widespread popularity. Gladys was the consummate public servant.

Long before her election as a Member of Congress in 1974, Gladys was a dynamic force in the government of Prince Georges County. She approached each step in her career with enthusiasm and integrity, whether as an elementary school teacher, PTA head, or the first woman county commissioner.

Gladys' colleagues consistently recognized her energy and efforts. She chaired the county government in the late sixties, and was appointed by President Johnson to the Advisory Committee on Intergovernmental Relations in 1967. At the same time, she gained the devotion of her constituents. In 1974, she was elected to Congress, the first Democrat to win from the area since 1966.

For three terms, Gladys directed unflagging energy into her work as a Representative. She was key to the planning for the Washington Metro transit system, and led efforts to make improvements on the Baltimore-Washington Parkway. And she was always fighting to take care of her unique constituency, with its high proportion of midlevel Federal workers. She worked to defeat efforts to merge the Federal retirement system with Social Security, and was influential in opposing measures that would have held down pay increases or required freezes on hiring.

Gladys was a leader from the beginning through the end of her career. She chaired the Compensation and Employee Benefits Subcommittee of the Post Office and Civil Service Committee. She was president of the National Association of Counties and vice president of the Metropolitan Washington Council of Governments. Five days after her heart attack in the fall of 1980, she was elected to a fourth term with 80 percent of the vote.

On this occasion, I wish to express my profound sorrow at the loss of my inspiring colleague, and extend my deepest sympathies to her family, friends, and constituents.

Mr. RODINO. Mr. Speaker, I want to thank the gentleman from Maryland for organizing this special order in tribute to our late friend and former colleague Gladys Spellman who passed away on June 18 after a long illness.

Gladys' heart attack and the subsequent coma from which she never recovered, deprived this Chamber of one of its most eloquent and active Members. Elected to Congress in 1974, Gladys quickly made her mark as the first vice chair of the class of 1974 and as an advocate for congressional reform. She was also a member of the Steering and Policy Committee and was a founding member of the Congresswoman's caucus.

First and foremost, Gladys was committed to helping and serving her constituents—the people of Maryland's Fifth Congressional District. From her position as the chairman of the Post Office and Civil Service Subcommittee on Compensation and Employee Benefits, Gladys worked tirelessly to protect Federal employees, many of whom lived in her district. This devotion was mutual—4 days after her heart attack the voters of the Fifth District overwhelmingly reelected Gladys to a fourth term.

Those of us who were privileged to work with Gladys benefited from the expertise she gained during a distinguished career in public service prior to her election to the Congress. She was a prominent member of the Prince Georges County Council and her formidable talents were recognized when she became the president of the National Association of Counties.

Gladys Spellman upheld the finest traditions of public service throughout her life. She served her beloved State of Maryland and her Nation with great honor and distinction. During her three terms in the House, she earned the respect and admiration of her colleagues.

It was a great personal privilege to call Gladys Spellman my friend. For the many people whose lives she touched and for the Nation she served so well, her long illness and death are a great loss. But we can find some consolation in the fact that Gladys Spellman made a difference and her legacy will truly be an enduring one.

GOOD NEWS FOR SOVIET FAMILY REUNITED

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Washington [Mr. MILLER] is recognized for 5 minutes.

Mr. MILLER of Washington. Mr. Speaker, I appreciate this opportunity, because I have some very good news to bring to my colleagues today. You will remember the Beinus family, a family that lives out in the part of the country that I come from, Arcadia and Kaya Beinus left the Soviet Union almost 15 years ago and they left believing that their son-in-law and daughter and grandson, the Besprozvanny family, would be following close behind. That was almost 15 years ago, and for years they have waited and for years the Besprozvanny's in the Soviet Union applied to immigrate, applied and were rejected, applied and were rejected, the rejection being given on the basis that Mr. Besprozvanny had once worked in a naval plant 18 years ago and had been involved in secret work. Of course, we argued that that was 18 years ago. The secrets have long since passed and certainly he should be allowed to leave now and his wife, a music teacher in the kindergarten, and son should be allowed to leave.

Well, my colleagues, as you know, I have been working on this for 2 years now. I have written so many letters and talked to many Soviet officials and American officials, and you have joined me. There were 120 of you who signed a letter with me to General Secretary Gorbachev on behalf of the Besprozvannys. You joined me and Ambassador Schifter worked very hard on this matter. Secretary Shultz took this up with Foreign Minister Shevardnadze. President Reagan took this up in the recent summit with General Secretary Gorbvachev.

Just this afternoon about 20 minutes ago the Soviet Embassy called me to let me know that the Besprozvannys have been given permission to leave the Soviet Union. That is the good news I wanted to share with you.

Galya and Elena Besprozvanny and their son should be coming to the United States within a month. I can tell you the grandparents, the Beinuses, are looking very much to getting together with them and I am looking forward to seeing them again. I met with them when I was in Moscow in January.

I know that much remains to be done with divided families. There are many divided families still and we must continue to struggle to reunite those who wish to leave the Soviet Union, with their families in the United States.

But today I think it is a time for us to rejoice and to celebrate in the good news that one divided family will be brought together, and that is just great news for the Beinuses, for their friends in Puget Sound country and for all of us who have worked so hard to bring this family together again.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. ROWLAND of Connecticut) to revise and extend their remarks and include extraneous material:)

Mr. JEFFORDS, for 60 minutes, on July 13.

Mr. LOTT, for 15 minutes, today.

(The following Members (at the request of Mr. GONZALEZ) to revise and extend their remarks and include extraneous material:)

Mr. PANETTA, for 5 minutes, today.

Mr. MACKAY, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. WEISS, for 60 minutes, today.

Mr. PENNY, for 30 minutes, today.

Mr. HOYER, for 30 minutes, today.

Mr. GONZALEZ, for 60 minutes, today.

Mr. GONZALEZ, for 60 minutes, on July 11, 12, and 14.

Mr. WEISS, for 60 minutes, on July 11 and 12.

Mr. FRANK, for 60 minutes, on July 11.

Mr. GAYDOS, for 60 minutes, on July 12 and 13.

(The following Member (at his own request) to revise and extend his remarks and include extraneous material:)

Mr. MILLER of Washington, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. WAXMAN, and to include extraneous material notwithstanding the fact that it exceeds two pages of the RECORD and is estimated by the Public Printer to cost $3,267.

(The following Members (at the request of Mr. ROWLAND of Connecticut) and to include extraneous matter:)

Mr. GRADISON.

Mr. LENT in two instances.

Mr. GILMAN.

Mr. BLAZ.

Mr. RITTER.

Mrs. ROUKEMA.

Mr. GUNDERSON.

Mr. GALLEGLY.

Mr. HAMMERSCHMIDT.

Mr. HEFLEY.

Mr. MCDADE.

Mr. EMERSON in two instances.

Mr. LIGHTFOOT.

Mr. BROOMFIELD.

Mr. BEREUTER.

Mr. MARLENEE.

(The following Members (at the request of Mr. GONZALEZ) and to include extraneous matter:)

Mr. THOMAS A. LUKEN.

Mr. LANTOS in two instances.

Mr. FLORIO.

Mr. MINETA.

Mr. GRANT.

Mrs. SCHROEDER.

Mr. EDWARDS of California.

Mr. FOLEY.

Mr. CLEMENT.

Mrs. COLLINS.

Mr. ANDERSON.

Mr. LELAND.

Mrs. LLOYD.

Mr. FEIGHAN.

Mr. HAMILTON.

Mr. PANETTA.

Mr. HOCHBRUECKNER in two instances.

ENROLLED BILLS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 4229. An act to amend title 10, United States Code, to codify in that title certain defense-related permanent freestanding provisions of law, and

H.R. 4567. An act making appropriations for energy and water development for the fiscal year ending September 30, 1989, and for other purposes.

SENATE ENROLLED BILL SIGNED

The SPEAKER announced his signature to an enrolled bill of the Senate of the following title:

S. 623. An act to amend the Independent Safety Board Act of 1974 to authorize appropriations for fiscal years 1987, 1988, 1989, and 1990, and for other purposes.

BILLS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, bills of the House of the following titles:

H.R. 3893. An act to amend the provisions of the Toxic Substances Control Act relating to asbestos in the Nation's schools by providing adequate time for local educational agencies to submit asbestos management plans to State Governors and to begin implementation of those plans;

H.R. 4288. An act to designate the Federal building located at the corner of Locust Street and West Cumberland Avenue in Knoxville, TN, as the "John J. Duncan Federal Building";

H.R. 4639. An act to amend the Higher Education Act of 1965 to prevent abuses in the Supplemental Loans for Students Program under part B of title IV Of the Higher Education Act of 1965, and for other purposes; and

H.R. 4731. An act to extend the authority for the Work Incentive Demonstration Program.

ADJOURNMENT

Mr. MILLER of Washington. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 5 o'clock and 55 minutes p.m.), under its previous order, the House adjourned until Monday, July 11, 1988, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3943. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer to Kuwait for defense articles (Transmittal No. 88-39), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3944. A letter from the Secretary of Education, transmitting a copy of final regulations for the Secretary's procedures and criteria for recognition of accrediting agencies, pursuant to 20 U.S.C. 1232(d)(1); to the Committee on Education and Labor.

3945. A letter from the Secretary of Labor, transmitting the annual report on the enforcement activities under the Fair Labor Standards Act for the period of October 1, 1985 through September 30, 1986; the seventh biennial report on labor force groups which have had historically high incidences of unemployment, pursuant to 29 U.S.C. 204(d) (1) and (3); to the Committee on Education and Labor.

3946. A letter from the Secretary of Health and Human Services, transmitting the sixth biennial report on research into the effects of changes in the ozone in the stratosphere upon humans, pursuant to 42 U.S.C. 7454(e); to the Committee on Energy and Commerce.

3947. A letter from the Chairman, Securities and Exchange Commission, transmitting a legislative proposal for comprehensive regulation of margins for securities and related futures equity index products; to the Committee on Energy and Commerce.

3948. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer and acceptance to Kuwait for defense articles and services (Transmittal No. 88-39), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

3949. A letter from the Acting Secretary of State, transmitting the 36th report on the extent and disposition of financial contributions by the United States to international organizations in which the U.S. participated as a member for the fiscal year 1987, pursuant to 22 U.S.C. 262a; to the Committee on Foreign Affairs.

3950. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

3951. A letter from the Administrator, General Services Administration, transmitting a copy of the final report of the transportation management automation feasibility study, pursuant to 31 U.S.C. 3726 nt.; to the Committee on Government Operations.

3952. A letter from the Acting Secretary of Agriculture, transmitting a report on the Nez Perce National Forest Plan, pursuant to Public Law 95-237; to the Committee on Interior and Insular Affairs.

3953. A letter from the Secretary of Commerce, transmitting a draft of proposed legislation to authorize appropriations for the Patent and Trademark Office in the Department of Commerce, and for other purposes, pursuant to 31 U.S.C. 1110; to the Committee on the Judiciary.

3954. A letter from the Administrator, Veterans' Administration, transmitting the agency's report of activities for the fiscal year ended September 30, 1987, pursuant to 38 U.S.C. 214, 221(c), 664; to the Committee on Veterans' Affairs.

3955. A letter from the Secretary of Health and Human Services, transmitting report of demonstration projects with respect to alternatives to helping Social Security disability insurance [DI] beneficiaries return to work, pursuant to 42 U.S.C. 1310 nt; to the Committee on Ways and Means.

3956. A letter from the Assistant Secretary of State (Legislative Affairs) and Assistant Secretary of the Treasury (Legislative Affairs), transmitting the 10th annual report on the progress in enhancing human rights through U.S. participation in international financial institutions, pursuant to 22 U.S.C. 262d(c)(1); jointly, to the Committees on Banking, Finance and Urban Affairs and Foreign Affairs.

3957. A letter from the Comptroller General, General Accounting Office, transmitting the financial audit of the First Savings and Loan Insurance Corporation's 1987 and 1986 financial statements; report on the Corporation's system of internal accounting controls and on its compliance with laws and regulations (GAO/AFMD-88-58), pursuant to 31 U.S.C. 9106(a) and 3512(f); jointly, to the Committees on Government Operations and Banking, Finance and Urban Affairs.

3958. A letter from the Comptroller General, General Accounting Office, transmitting the financial audit of the Commodity Credit Corporation for the fiscal years ended September 30, 1987 and 1986; report on the Corporation's system of internal accounting controls (GAO/AFMD-88-47), pursuant to 31 U.S.C. 3512(f) and 9106(a); jointly, to the Committees on Government Operations and Agriculture.

3959. A letter from the Secretary of Energy, transmitting the first annual report on the clean coal technology demonstration program for the period ending December 31, 1987; jointly, to the Committees on Science, Space and Technology, Energy and Commerce, and Appropriations.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. MONTGOMERY: Committee on Veterans' Affairs. H.R. 4519. A bill to provide for the disposition of certain lands in Arizona under the jurisdiction of the Department of the Interior by means of an exchange of lands, and for other purposes; with amendments (Rept. 100-744, Pt. 2). Ordered to be printed.

Mr. ANDERSON: Committee on Public Works and Transportation. H.R. 4525. A bill to designate the U.S. Courthouse located at 156 Federal Street in Portland, ME, as the "Edward Thaxter Gignoux United States Courthouse" (Rept. 100-752). Referred to the House Calendar.

Mr. ASPIN: Committee of conference. Conference report on H.R. 4264. (Rept. 100-753). Ordered to be printed.

Mr. MONTGOMERY: Committee on Veterans' Affairs. H.R. 3742. A bill to amend title 38, United States Code, to authorize erection of a memorial and museum on Federal land in the District of Columbia or its environs to honor members of the Armed Forces who served in World War II and to commemorate United States participation in that conflict; with amendments (Rept. 100-755, Pt. 1). Ordered to be printed.

Mr. MONTGOMERY: Committee on Veterans' Affairs. H.R. 4861. A bill to amend title 38, United States Code, to authorize appropriations for grants for State veterans' cemeteries (Rept. 100-757). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 4375. A bill to improve the management of certain public lands in the State of Michigan; with an amendment (Rept. 100-758). Referred to the Committee of the Whole House on the State of the Union.

Mrs. SCHROEDER: Committee on Post Office and Civil Service. H.R. 2882. A bill to amend title 5, United States Code, to increase the productivity of the Government by promoting excellence in Government management and by reducing improper political pressures on career civil servants; with an amendment (Rept. 100-759). Referred to the Committee on the Whole House on the State of the Union.

Mr. MONTGOMERY: Committee on Veterans' Affairs. H.R. 4741. A bill to amend title 38, United States Code, to increase the rates of compensation and dependency and indemnity compensation [DIC] payable to veterans with service-connected disabilities and their survivors, and for other purposes; with an amendment (Rept. 100-760). Referred to the Committee on the Whole House on the State of the Union.

REPORTS OF COMMITTEES ON PRIVATE BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BROOKS: Committee on Government Operations. S. 892. An act to remove the right of reversion to the United States in lands owned by the Shriners' Hospitals for Crippled Children on lands formerly owned by the United States in Salt Lake County, UT; with an amendment (Rept. 100-754). Referred to the Committee of the Whole House.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing and bills referred as follows:

Mr. RODINO: Committee on the Judiciary. H.R. 4064. A bill to amend title 28 of the United States Code to authorize the appointment of additional bankruptcy judges; with an amendment; referred to the Committee on Appropriations for a period not to exceed 15 legislative days, with instructions to report back to the House as provided in section 401(b) of Public Law 93-344 (Rept. 100-756, pt. 1). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. ST GERMAIN (for himself, Mr. Garcia, Mr. Barnard, Mr. Schumer, Ms. Pelosi, Mr. Morrison of Connecticut, Mr. Price of North Carolina, and Mr. Leach of Iowa) (by request):

H.R. 4981. A bill to amend the Bank Holding Company Act of 1956 to authorize the Board of Governors of the Federal Reserve System to order bank subsidiaries of bank holding companies to consolidate if any such bank subsidiary is in danger of closing; jointly, to the Committees on Banking, Finance and Urban Affairs and the Judiciary.

By Mr. TAUKE (for himself, Mr. Waxman, and Mr. Kastenmeier):

H.R. 4982. A bill to amend the Federal Food, Drug, and Cosmetic Act to authorize abbreviated new animal drug applications and to amend title 35, United States Code, to authorize the extension of the patents for animal drug products; jointly, to the Committees on Energy and Commerce and the Judiciary.

By Mr. WAXMAN (for himself and Mr. Madigan):

H.R. 4983. A bill to amend the Public Health Service Act to revise and extend programs with respect to health research and teaching facilities and training of professional health personnel, and for other purposes; to the Committee on Energy and Commerce.

By Mr. LELAND (for himself, Mr. Waxman, Mr. Foglietta, Mr. Fuster, Mr. Towns, Mr. Penny, Mr. Berman, Mr. Ackerman, Mr. Frost, Mr. Bilbray, Mr. Edwards of California, Mr. Rangel, Mr. Fauntroy, Mr. Frank, Mr. Matsui, Mr. Kildee, Mr. Kostmayer, Mr. Gejdenson, Mr. Ford of Tennessee, Mrs. Collins, Mr. Wolpe, Mrs. Boxer, Mr. Walgren, Mr. Sikorski, and Mr. Bates):

H.R. 4984. A bill to amend the Public Health Service Act to establish an International Health Corps; jointly, to the Committees on Energy and Commerce and Foreign Affairs.

By Mr. JOHNSON of South Dakota:

H.R. 4985. A bill to amend the Agricultural Act of 1949 to provide drought relief, and for other purposes; to the Committee on Agriculture.

By Mr. WILLIAMS (for himself, Mr. Hawkins, Mr. Ford of Michigan, Mr. Perkins, Mr. Martinez, Mr. Atkins, Mr. Jontz, Mr. Robinson, Mr. Hayes of Illinois, Mr. Gaydos, Mr. Penny, and Mr. Jeffords):

H.R. 4986. A bill to amend the Higher Education Act of 1965 to reduce the default rate on student loans under that Act, and for other purposes; to the Committee on Education and Labor.

By Mrs. BENTLEY (for herself, Mr. Davis of Michigan, Mr. Young of Alaska, Mr. Coble, Mr. Biaggi, Mr. Lipinski, Mr. Dyson, Mr. Anderson, Mr. Fields, Mr. Hochbrueckner, Mr. Manton, Mr. Foglietta, Mr. Hutto, Mr. Weldon, Mr. McMillen of Maryland, Mrs. Morella, Mr. Miller of Washington, Mr. Cardin, Mr. Akaka, Mr. Wortley, and Mr. Natcher):

H.R. 4987. A bill to establish a mechanism to provide for nonprofit organizations for merchant marine memorials; to the Committee on Merchant Marine and Fisheries.

By Mr. CLARKE:

H.R. 4988. A bill to prohibit the Tennessee Valley Authority from taking any action that results in lowering the water levels of certain lakes in North Carolina; to the Committee on Public Works and Transportation.

By Mr. DAVIS of Michigan (for himself, Mr. Jones of North Carolina, Mr. Young of Alaska, Mr. Feighan, Mr. Henry, Mr. Vander Jagt, Mr. Pursell, Mr. Dingell, Mr. Traxler, and Mr. Horton):

H.R. 4989. A bill to reauthorize the Great Lakes mapping plan through fiscal year 1989; to the Committee on Merchant Marine and Fisheries.

By Mr. FRANK (for himself, Mr. Mavroules, Mr. Ackerman, Mr. Rodino, Mr. Jacobs, Mr. Dellums, Mr. Conyers, Mr. Stokes, Mr. Fauntroy, Mr. Espy, Mr. Lewis of Georgia, Mr. Berman, Mr. Flake, Mr. Weiss, Mr. Bustamante, Mr. Gray of Illinois, Mr. Hayes of Illinois, Mr. Owens of New York, Mr. Traxler, Mr. Atkins, and Ms. Pelosi):

H.R. 4990. A bill to authorize the Secretary of Housing and Urban Development to provide financial assistance to expand and preserve the permanent supply of affordable, decent, and appropriate housing, and to amend the Internal Revenue Code of 1986 to provide additional revenues for the assistance; jointly, to the Committees on Banking, Finance and Urban Affairs and Ways and Means.

By Mr. GRADISON (for himself, Mr. Thomas A. Luken, Mr. Bates, Mr. Bonior, Mr. Bosco, Mr. Bruce, Mr. Buechner, Mr. Coleman of Texas, Mr. Dreier of California, Mr. Eckart, Mr. Emerson, Mr. Fascell, Mr. Fazio, Mr. Hertel, Mr. McEwen, Mr. Murphy, Mr. Quillen, Mr. Schuette, Mr. Robert F. Smith, Mr. Smith of Florida, Mr. Synar, Mr. Tauzin, Mr. Taylor, Mr. Vander Jagt, and Mr. Wise):

H.R. 4991. A bill to clarify the U.S. obligation to observe occupational safety and health standards and to clarify the U.S. responsibility for harm caused by its negligence at any work place owned by, operated by, or under contract with the United States; to the Committee on the Judiciary.

By Mr. GUNDERSON (for himself, Mr. Bonior, Mr. Eckart, Mr. Henry, Mr. Owens of New York, Mr. Perkins, Mr. Garcia, and Mr. Brennan):

H.R. 4992. A bill to expand our national telecommunications system for the benefit of the hearing- and speech-impaired populations and for other purposes; jointly to the Committees on Energy and Commerce, Government Operations, and House Administration.

By Mr. JONTZ (for himself, Mr. McCloskey, Mr. Sharp, and Mr. Jacobs):

H.R. 4993. A bill to allow farmers suffering crop losses to be eligible for emergency loans even if crop insurance was available to the farmers under the Federal Crop Insurance Act; to the Committee on Agriculture.

By Mr. KASTENMEIER (for himself and Mr. Moorhead):

H.R. 4994. A bill to amend title 18, United States Code, to permit Federal Prison Industries to borrow from the Treasury, and for other purposes; to the Committee on the Judiciary.

By Mr. McEWEN:

H.R. 4995. A bill to amend the Agricultural Act of 1949 to remove the authority of the Secretary of Agriculture to reduce the level of price support applicable to milk; to the Committee on Agriculture.

H.R. 4996. A bill to amend the Agricultural Act of 1949 to modify the authority of the Secretary of Agriculture to reduce the level of price support applicable to milk; to the Committee on Agriculture.

By Mr. MARKEY (for himself and Mr. Cooper):

H.R. 4997. A bill to amend the Securities Exchange Act of 1934 to require the Commission to take certain measures to protect investors in securities, and for other purposes; to the Committee on Energy and Commerce.

By Mr. PANETTA (for himself and Mr. Emerson):

H.R. 4998. A bill to amend the Food Stamp Act of 1977 to make technical corrections in the family independence demonstration project; to the Committee on Agriculture.

By Mr. PENNY:

H.R. 4999. A bill to expand the availability of child care, and for other purposes; jointly, to the Committees on Education and Labor and Ways and Means.

By Mr. HOCHBRUECKNER (for himself, Mr. Biaggi, Mr. Clement, Mr. Conyers, Mr. Cooper, Mr. Courter, Mr. DeFazio, Mr. Downey of New York, Mr. Frank, Mr. Gallo, Mr. Gilman, Mr. Garcia, Mr. Harris, Mr. Hawkins, Mr. Mrazek, Mr. Owens of New York, Mr. Roybal, Mr. Sabo, Mr. Smith of Florida, Mr. Studds, Mr. Towns, Mr. Vento, Mr. Wortley, Mrs. Boxer, Mr. Hughes, Mr. Berman, Mr. Jeffords, and Mr. Boehlert):

H.R. 5000. A bill to encourage scientific research and development of technologies relating to recycling, and for other purposes; jointly, to the Committees on Science, Space, and Technology; Energy and Commerce; Armed Services; and Agriculture.

By Mrs. ROUKEMA:

H.R. 5001. A bill to establish the Delaware Water Gap National Recreation Area Citizen Advisory Commission; to the Committee on Interior and Insular Affairs.

By Mr. SOLOMON:

H.R. 5002. A bill to amend the Congressional Budget and Impoundment Control Act of 1974 to exclude receipts and disbursements of the Social Security trust funds from the calculation of Federal deficits and maximum deficit amounts under the Balanced Budget and Emergency Deficit Control Act of 1985; to the Committee on Government Operations.

By Mr. STUDDS (for himself and Mr. Jones of North Carolina):

H.R. 5003. A bill to establish an Outdoor America Conservation Fund, and for other purposes jointly, to the Committees on Merchant Marine and Fisheries and Interior and Insular Affairs.

By Mr. TRAXLER:

H.R. 5004. A bill to amend the Agricultural Act of 1949 to prevent in 1989 a reduction in the level of price support applicable to milk; to the Committee on Agriculture.

By Mrs. VUCANOVICH:

H.R. 5005. A bill to amend the National Trails System Act to designate the Pony Express National Historic Trail as a component of the National Trails System; to the Committee on Interior and Insular Affairs.

By Mr. WILLIAMS (for himself, Mr. Marlenee, Mr. Dorgan of North Dakota, Mr. Cheney, Mr. Bonker, Mr. Dicks, Mr. Lowry of Washington, Mr. Foley, Mr. Miller of Washington, Mr. Johnson of South Dakota, and Mr. Morrison of Washington):

H.R. 5006. A bill to require the Secretary of the Treasury to mint and issue $5 coins in commemoration of the 100th anniversary of the statehood of Idaho, Montana, North Dakota, South Dakota, Washington, and Wyoming; to the Committee on Banking, Finance and Urban Affairs.

By Mr. AuCOIN (for himself, Mr. DeFazio, Mr. Wyden, Mr. Robert F. Smith, and Mr. Denny Smith):

H.R. 5007. A bill to designate the United States Courthouse at 620 Southwest Main Street, Portland, OR, as the "Gus J. Solomon United States Courthouse"; to the Committee on Public Works and Transportation.

By Mr. SOLOMON:

H.J. Res. 605. Joint resolution designating the month of November 1988, as "American History Month"; to the Committee on Post Office and Civil Service.

By Mr. TORRICELLI:

H. Con. Res. 330. Concurrent resolution providing that the United States should not undertake negotiations to compensate Iran in connection with the shooting down of Iran Air Flight 655 until the Government of Iran undertakes negotations to compensate for attacks by Iranian military forces on civilian shipping and U.S. Armed Forces in the Persian Gulf; to the Committee on Foreign Affairs.

By Mr. MICHEL:

H. Res. 490. Resolution electing Representative Shaw of Florida to the Committee on Ways and Means; considered and agreed to.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 639: Mrs. Kennelly, Mr. Kildee, Mr. Davis of Michigan, and Mr. Rose.

H.R. 696: Mr. Packard and Mr. Weldon.

H.R. 1270: Mr. Eckart, Mr. Latta, Mr. Donald E. Lukens, Mr. Pease, Mr. Buechner, Mr. Coughlin, Mr. McMillen of Maryland, Mr. Morrison of Connecticut, Mr. Penny, Mr. Rahall, Ms. Slaughter of New York, Mr. Weldon, Mr. Young of Florida, and Mr. Gradison.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 4441: Mr. Traxler.

PETITIONS, ETC.

Under clause 1 of rule XXII,

207. The SPEAKER presented a petition of the City Council, Garland, TX, relative to the American Heritage Trust Act; which was referred to the Committee on Interior and Insular Affairs.

SENATE—*Thursday, July 7, 1988*

The Senate met at 9:45 a.m., and was called to order by the Honorable HARRY REID, a Senator from the State of Nevada.

The PRESIDING OFFICER. Today's prayer will be offered by Father Tim O'Brien of Marquette University, Milwaukee, WI.

PRAYER

The Reverend Timothy J. O'Brien, Ph.D., Marquette University, Milwaukee, WI, offered the following prayer:

Let us pray:

Heavenly Father, we invoke, Your name today in this great Chamber to ask Your guidance in the business of this body, and to beseech Your grace upon this Nation—its leaders and its people. Enlighten all of us to see the human family as one, to believe in You and acknowledge You as the Creator of life and the one who sustains us all.

Father, we are grateful people. We thank You for the countless blessings You have granted to this Nation and the peoples of this planet. We are also a sinful people, Lord, and we ask Your forgiveness for the transgressions of war, racism, sexism, materialism, and the host of other failings.

Today, in a special way, we pray that our hearts and minds be moved to do Your will. Give us the vision to see Your plan and the courage to expend our energies to fulfill it.

Lord, bless the Senators and staffs; endow them with zeal to labor in behalf of just public policy, particularly mindful of the needs of the poor and weak in advancing national policy that promotes the good common to all humankind.

May all glory and praise be Yours forever. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. STENNIS].

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, July 7, 1988.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable HARRY REID, a Senator from the State of Nevada, to perform the duties of the Chair.

JOHN C. STENNIS,
President pro tempore.

Mr. REID, thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. Under the standing order, the majority leader is now recognized.

Mr. BYRD. Mr. President, our visiting Chaplain is from Wisconsin today. I yield to the distinguished Senator from Wisconsin 5 minutes of my time that he may speak first.

THE VISITING CHAPLAIN

Mr. PROXMIRE. Mr. President, we have just heard a prayer from Father Timothy O'Brien, a dedicated priest, a highly respected professor of political science at Marquette University in Milwaukee, WI, with a practical understanding of the Congress, honed as a staffer in congressional offices.

Father O'Brien is also the author of an excellent book, "Inner City Private Schools," and the producer of a TV movie which was a real hit, "Miracle in the Inner City."

Mr. President, it is a great honor to this Senator from Wisconsin to hear a prayer from such a distinguished constitutent.

WHAT IS RIGHT ABOUT GEORGE McGOVERN?

Mr. PROXMIRE. Mr. President, there is no leading Democrat in public life with whom I have disagreed more frequently but for whose character I have greater admiration than our party's 1972 nominee for President, George McGovern. I disagreed with McGovern on Vietnam. I disagree with McGovern on abortion. He favors leaving the decision to the States. I favor Federal action to stop abortion, period. I disagree with McGovern on the level of funding of social programs. He would support them at a much higher level than I would. I disagree with McGovern's proposal to spend some of our surplus military spending to rebuild our crumbling physical infrastructure and strengthen our educational and environmental systems. I believe we should use what we can save by reducing military waste for reducing our runaway budget deficit and keep our national debt from exploding out of sight. I disagree with McGovern's notion that we can shove a great deal of our defense of Europe off on other NATO countries. Our allies draft their young men for service. We do not. They contribute a far greater proportion of their manpower to the common defense than we do. They have far larger reserves in relation to their population than do we.

In spite of all those disagreements I voted for George McGovern in the Wisconsin Democratic primary in 1972, because I thought he would bring a quality of compassion, of rugged honesty, and of a willingness to take on the real power centers in our society in business and finance. McGovern's views in the areas of our disagreements may actually be the majority view of most Americans today. In general they command more popular support than my views. A substantial majority of the American people seem to agree wholeheartedly with McGovern and disagree with my position on Vietnam. In our disagreement on abortion a majority of Americans probably agree with McGovern. I think they are wrong. On social programs, poll after poll shows that today a solid majority of Americans favor increased Federal funding of social programs. I disagree with the majority. We do not have the money. The Congress is not going to pass a tax increase. Any additional spending on any program will worsen our No. 1 problem: Our huge and growing national debt. Unless the experts who poll the public are completely wrong, a solid majority of Americans also agree with George McGovern that our European allies should and could carry more of the burden of funding the military operations of the North Atlantic Treaty Organization in Europe. I disagree.

In summary it appears that George McGovern is on the popular side of virtually every issue on which we disagree. So why is McGovern's name used by Republicans in this election year as one of their favorite instruments for discrediting—by association, Democrats like Governor Dukakis? After all George McGovern ran an honorable campaign for the Presidency in 1972. His only real sin is that he lost. What made the sin grievous was that he lost very big. But that loss does not change the fact that George McGovern served as an excellent Congressman, a bright, and constructive Senator. His loss of the Presidential election should not mar his brilliant record of winning a series of very tough Presidential primary battles against heavily financed, nationally recognized and respected Democratic opponents.

It is a cruel, stupid tradition in this country to disdain and belittle losers, especially big losers like defeated Presidential nominees. Many Americans have done this with respect to George McGovern and we can expect the Republican campaign to take advantage

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

of anti-McGovern sentiment in the 1988 election as they have in every previous Presidential election since 1972.

Here is an astonishing and inexplicable blind spot in our national consciousness. George McGovern's defeat did not in any way lessen his widely acknowledged integrity, his excellent service in the Congress, his judgment on issue after issue, a judgment which American popular opinion today enthusiastically endorses.

In athletics we like to instill decency, good sportsmanship and character in our children by telling them the old truism: "It is not whether you win or lose. It's how you play the game." Unfortunately in the public mind that is not really true in athletics, and it is certainly not true in politics. Just ask George McGovern.

Mr. President, I ask unanimous consent that the article by George McGovern from the June 28 Washington Post headlined "This McGovern Democrat Business" be printed in the RECORD at this point.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, June 28, 1988]

THIS MCGOVERN DEMOCRAT BUSINESS

(By George McGovern)

My name is back in the news these days, and it occurred to me that it's being used in a way that might puzzle my four grandsons, who were either infants or not yet born when I ran for president in 1972. What follows is in the form of a letter to them and others of their generation:

I know you are aware of the frequent press references these days to "McGovern Democrat." It stems, I guess, from George Bush's decision to label Michael Dukakis "a McGovern Democrat." Apparently not to be outdone, Dukakis aides were quoted in The Post [June 16] as stating that the purpose of their candidate's recent foreign policy speech was to demonstrate that Dukakis is "not another George McGovern."

I've been told that it is a compliment I am still discussed 16 years after I was a presidential nominee. But I've been wondering what you think about me when you hear my name used as a kind of swearword. Let me tell you first of all not to get too agitated about this. The political epithets thrown at far greater men than I—George Washington, Thomas Jefferson and Abraham Lincoln—make "McGovern Democrat" seem pretty polite stuff by comparison.

But let me tell you what I think this McGovern Democrat business is about. It goes back to 1972, when I was supposedly so liberal and anti-establishment that I lost 49 states to Richard Nixon. You are too young to remember this, but you are not too young to remember that four years ago the choice of the establishment mainstream, Walter Mondale, also lost 49 states. I think Mondale was right in 1984, and I think I was right in 1972.

Before putting me too far from the mainstream, you should know that for 22 years I represented conservative South Dakota in Congress; that I was nominated for president in 1972 after winning 10 primary elections, including New York and California, against the toughest competitors in the country, including your neighbor and friend Hubert Humphrey; that I fought for America as a combat pilot in wartime and in the political trenches in peacetime; and that no hint of corruption has ever touched my public career.

If someday you read the history of my 1972 presidential campaign, you will discover that I pushed four central themes: 1) ending the war in Vietnam, 2) warning the American people about the significance of Watergate and other forms of political corruption, 3) reforming military spending and national priorities and 4) calling America home to its constitutional principles and founding ideals.

My opponents did not want to debate these major propositions, so I was called the "Triple A candidate" of "amnesty, acid and abortion." Actually, I said that I would not grant amnesty until the war in Vietnam had ended; that the only change I would make in the drug laws would be to change a first-possession marijuana offense from a felony to a misdemeanor; and that abortion should be regulated by the states—a position that is still held by Sen. Sam Nunn.

It is my belief that nearly all of my views of 1972 are now generally accepted by the American public. Few people today believe that Vietnam and Watergate were good ideas. In the light of Irangate, the shabby dealings with Gen. Manuel Noriega and the contras and the Pentagon scandals, many people see the need for reform and a return to constitutional government.

What are my beliefs in 1988?

1. I still believe that the next president of the United States should be someone who will honor his inaugural oath to uphold the Constitution and the laws of the land.

2. I believe that American power and influence in the world depend not only on a common-sense military defense but even more on the strength of our economy, the health of our society and the credibility of our government.

3. I believe that while continuing to recognize our differences with the Russians, we should try to build on the areas of mutual interest, including verifiable arms reductions—conventional and nuclear. We should also correct the present arrangement that has us spending 60 percent of our defense budget for the defense of now-prosperous Europe and Japan. We can greatly reduce our federal deficit by mutual Soviet-American arms reductions and reductions in our spending to defend Europe and Japan—to say nothing of eliminating the payoffs and waste currently being revealed.

4. I believe we need to invest some of our surplus military spending in rebuilding our crumbling physical infrastructure and strengthening our educational and environmental systems.

I have no trouble handling honest, straightforward criticism, but cynicism, distortion and gutlessness make me hard to get along with, as you all know. I resent being made a football in this campaign, since I'm not running for anything in 1988 except a little peace of mind and a chance to be with my grandchildren, who don't give a damn about either McGovern Democrats or Bush Republicans.

Mr. PROXMIRE. Mr. President, I yield the floor. I thank my good friend, the majority leader, for so graciously yielding.

Mr. BYRD. My friend is welcome.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

NEED FOR FRESH REASSESSMENT OF PERSIAN GULF MISSIONS

Mr. BYRD. Mr. President, the tragic accident taking the lives of 290 innocent civilians in the airspace over the Persian Gulf is a painful reminder of the volatile environment in which our naval forces are operating. Operating in the gulf is akin to working in a lake, in contrast to the broad expanse of blue water oceans. It is obvious that even our most sophisticated technology will not protect against the danger of tragic accidents in the crowded and volatile Persian Gulf.

Senators were briefed in detail yesterday on the scenario involving the U.S.S. *Vincennes* and other warships operating with her in the gulf. The briefings were very professional and, while essential details are still missing and await the results of the Navy investigation, my strong feeling is that the skipper of the *Vincennes* acted with restraint, coolness and prudence. Clearly the commanding officer waited until nearly the last few seconds before taking action. The problem is that even working with maximum prudence, and using all the information at his disposal, a correct evaluation of the situation was not entirely possible.

The key question we must ask ourselves is whether the enhanced mission of distress assistance, now being executed by our naval forces, taxes our capabilities to a level where men of prudence cannot operate without an unacceptably high level of risk, uncertainty and the possibility of future accidents. I believe the administration should conduct a fresh assessment of this new mission, which was being conducted on July 3, this past Sunday, and which led directly to the loss of the Iranian airbus and its passengers who came from various countries and were of various nationalities. The Aegis cruiser, the *Vincennes,* and her companion ships were in the position of running from tanker to tanker, first a Danish vessel, then several other vessels, a Pakistani, a German, and a Liberian. All of these vessels had come under challenge or attack from Iranian small boats, the Boghammers. The result of the distress assistance mission was a billion dollar frigate chasing small Boghammer boats from spot to spot in the gulf, answering calls for help. That is a game of chase which is dangerous, ties up extremely expensive ships, expensive aircraft and other American assets, and could very well lead to more hostilities and more accidents.

I asked Secretary Carlucci on April 22, 1988, to provide a fresh assessment of the threats, risks, and possible contingencies of our naval missions along the lines of the reporting requirements contained in Senate Joint Resolution 194, which had been passed by the Senate on October 21 of last year but has not been acted upon by the other body.

The Secretary did provide a report, on May 16, 1988, answering the detailed questions in the resolution regarding the convoying or escorting operation which is still ongoing in the gulf, but as yet we do not have an assessment of the new mission along those lines. I am sending a letter to the Secretary today, asking for such an assessment. I have discussed this with other Senators, and I hope to have other Senators join in signing the letter.

Mr. President, I do not question, and have never questioned, the need for a continued U.S. presence in the gulf. The underlying American commitment to our friends in the gulf and to protect Western economic and security interests in the gulf has been American policy for decades. The American people support this commitment, and support our naval presence there. But we cannot stand many more earthquakes such as we have had in these last few days, because repetition of these accidents will inevitably call into question that underlying commitment, and can unnecessarily weaken it. The new mission that the Navy has been directed to assume may, if not conducted carefully, be counterproductive to our interests there. So I believe that a fresh assessment is needed. It must be an assessment of the parameters of the mission and the feasibility of the mission under present circumstances.

In that assessment, I would hope that the question of new levels of support from the littoral gulf states will be addressed. This support is needed to make execution of the new missions less uncertain. Some believe that the presence of air assets during the new mission is needed for both identification and protection.

The presence of an AWACS on the scene could have greatly aided identifying the Iranian Airbus. The presence of U.S. fighter aircraft in close proximity to our ships could possibly have allowed visual identification of the Airbus. We do have air assets operating when escorting is underway, but the short-fused nature of the new "distress assistance" missions raises questions of aircover there too. It would undoubtedly be beneficial if the United States had negotiated staging rights with the littoral states which complemented the presence of our aircraft carrier stationed further south in the Gulf of Oman.

In addition, I hope that the administration will address the level of cooperation we are getting, and should be getting from our friends and allies in this new mission, as well as the purposes, duration, and cost of the mission as well as its impact on the Iran-Iraq war, and the impact the mission is having on operational deployments and readiness of U.S. forces elsewhere in other regions.

Mr. President, I yield the floor.

RESERVATION OF REPUBLICAN LEADER'S TIME

Mr. BYRD. Mr. President, I ask unanimous consent that the Republican leader's time may be reserved.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business, not to extend beyond 10:15 a.m., with Senators permitted to speak therein for not to exceed 5 minutes each.

Mr. HOLLINGS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. FOWLER). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE JOURNAL

Mr. BYRD. Mr. President, I ask unanimous consent that the Journal of the proceedings be approved to date.

The PRESIDING OFFICER. Without objection, it is so ordered.

ALASKA'S TIMBER INDUSTRY

Mr. STEVENS. Mr. President, I would like to share with the Senate an article which was recently brought to my attention. It was written by Ralph Gregory, mayor of the Ketchikan Gateway Borough, and appeared in the Alaska Journal of Commerce & Pacific Rim Reporter on April 11, 1988. I will ask unanimous consent that this article be included in the RECORD.

Alaska's timber industry and their operations in the Tongass National Forest have received quite a bit of media attention over the last few years. Most of this has been inspired by those opposed to the cutting of trees. As a result, most of the stories have made it sound like we cut trees in Alaska for no real purpose. Nothing could be further from the truth.

The timber industry has played a key role in the development of southeast Alaska. Mr. Gregory gives a useful perspective on this history. Timber has been important to Ketchikan and other mill towns, but it has also led to the founding of many new communities. Former logging roads now connect former logging camps which are now small towns. This article provides an Alaskan's perspective on how this has taken place.

Mr. President, I ask unanimous consent that the article to which I referred be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Alaska Journal of Commerce & Pacific Rim Reporter, Apr. 11, 1988]

(By Ralph C. Gregory)

The Ketchikan Gateway Borough, at the southern end of the Tongass National Forest is the hub of a service and transportation network, extending from Prince Rupert, BC., to the northern tip of Prince of Wales Island. This southern southeast Alaska region has provided, over the past 50 years, its residents with one of the state's most economically diverse and stable geographic areas.

The future of this economic unit is tied to continued vitality in the timber, fishing, tourism and mining industries. These industries are interrelated and dependent on one another for their viability.

The timber industry, with its transportation infrastructure needs, Forest Service road construction program and camp location requirements, has created the climate and circumstances for continued economic expansion. Forest Service studies have shown that the Ketchikan economy may have developed very differently without the logging contributions.

For instance, Ketchikan has an annual employment range which varies by 33 percent, while Kodiak, which is almost entirely dependent on fishing, varies by 58 percent. Resultant benefits of such stable economic conditions are not limited to the logging industry but are enjoyed by the entire economy.

TRANSPORTATION INFRASTRUCTURE OF THE REGION

"It's not possible to liken a railway to a magician's wand, but the effect is still the same. For the whole problem of civilization—the development of resources and the awakening of communities—lies in transportation."

The need for greatly increased volume and continuity in freight movement, created by the timber industry, has benefited every other part of the business community. With the decision to construct a pulp mill in Ketchikan early in 1951, the demand was created for reliable and consistent freight service. Later, in 1957 when construction of the Silver Bay mill began in Sitka, an additional demand was established.

Similar transportation services were needed at Hollis on Prince on Wales Island when the logging operation for the Ketchiken mill started in 1953. Although the demand of these early peak construction years were not to be sustained, the transportation floor level established by the logging industry, continued to undergird the entire economic structure of the region.

Prior to 1953, freight was scheduled only to match the fishing season, mining needs or special timber activity. Lack of dependable and competitively priced freight service made any business in Southeast an adventure.

For example, transportation of spruce for the war effort between 1942 and 1944 from the Edna Bay logging site to mills in Washington State was accomplished by ". . . huge rafts of logs . . . towed from the camps to Puget Sound." Also, in fisheries, shipment of canned salmon to markets were made by vessels, such as the *Ancon* which was wrecked at Loring, near Ketchikan, in 1889. Some 14,000 cases of salmon were salvaged from the wreck and 200 passengers were picked up by the next passing steamer.

Under such conditions it could be expected that only large operations capable of paying for single purpose freight could operate in the region.

A stable demand for freight shipment and services has allowed for the growth of many smaller, associated businesses which could not exist if freight costs were higher. It is well documented that currently the principle detriment to marketing fresh fish from the region is the shipping cost. Similarly, the production of construction lumber is directly impacted by the costs associated with shipment to the final market.

Any decrease in the demand for cargo space or barge capacity will immediately drive the unit cost of that service up. The ripple effect of such a contraction is obvious.

LOCALIZED ROAD CONSTRUCTION PROGRAM

During the first 20 years of operation the Ketchikan mill built about 500 miles of road—on Prince of Wales Island for the harvest of timber. These roads—(to) be used by the Forest Service and public for transportation, recreation, reforestation and forest protection."

Localized road construction associated with logging activity has provided the impetus for development of the region. With establishment of a logging camp at Hollis shortly after award of the 80-year timber sale, the haul road network on Prince of Wales Island began. By the end of 1969 Klawock was connected with Hollis. By 1974, when the state extended ferry service to Hollis, the current road system was on its way to becoming a reality.

Today over 1,000 miles of road, selected by the Forest Service as the key long term investment, exist on the island.

State land sales have been useful in establishing a stable population in key spots on the island. These communities are viable mainly because of the road access to both the Marine Highway and communities with the services and goods required for survival. Fishermen and construction workers have relocated to the island where they can live close to the resources from which they derive their living. More recently, tourism and mining are promising to add further stimulus and potential.

On Prince of Wales Island, as with other locations in Southeast where civilization found a foothold, the prosperity and stability of these small communities is directly dependent on the existence and maintenance of the road system. Generally, and with a few exceptions, the communities which have taken root are those with the best and most complete road network. Roads which began as haul roads for transport of logs to salt water, have now become state highways and arterials linking communities and allowing the exchange of commerce required for prosperity.

Everything from fish products to construction materials to recreation vehicles are moved over these corridors on a daily basis. The Forest Service has estimated the current value of these arterial and secondary roads to be in excess of $150,000,000.

CAMP LOCATIONS ESTABLISH CURRENT POPULATION CENTERS

"Within the narrow confines of the SS *City of Seattle*, in the year 1898—it was about eight o'clock in the evening when the ship stopped off Ketchikan and I heard the first howls of the dogs at Indiantown. I was put ashore in a small boat—we brought up on the rocks near the old saltery dock."

Logging camp locations have provided the beachhead for the economic development of the region. First came Hollis then Thorne Bay, followed by others, such as Coffman Cove and El Capitan. These sites when linked together by roads, state ferry service and float planes have become the outposts of commerce.

In nearly every location where a major logging camp was constructed, there is today a settlement or town. As the timber supply is exhausted in one area, and the camp at that location is moved, a series of small communities remain. In most cases, these communities use the improvements constructed by loggers. Roads, sewers, water supply and even electrical power lines, which were put in to facilitate log transfer and shipment, are now being used.

As with other aspects of the settlement process, these villages probably could not have been brought into existence if the cost of the infrastructure required for their operation were to be borne at one point in time. Given the existence of such utilities in place and at little or no initial capital cost to the residents, some of the other expenses and drawbacks to "bush" living can be overcome.

In contrast, fishing villages, for example, of Loring on Revillegigedo, Meyers Chuck on the mainland, and Fort Alexander on Baranof Island, have struggled for years and still do not have the comforts and convenience of the logging camp location inherited from an industry "on the move."

Although considerable advantage has occurred to these communities, their lifeblood still depends on the economic activity generated by a balanced, stable industrial base. Most families cannot continue to exist for any extended period of time without a job. Further, when some part of the economic structure fails to carry its part of the load, that segment of the population may decrease or move.

This dislocation further increases the incremental share of the overall cost which must be borne by the remaining residents. Schools, road maintenance and air service fall off in direct proportion to the decrease in population.

CONCLUSION

The goal of the U.S. Congress, when the long term timber sale was approved, was the formation of a stable and enduring economy for Southern Southeast Alaska. With diversification and expansion of other current elements of the economy, including fishing, tourism, and mining, there is growing realization that each has an important contribution to the overall competitive position.

The regional economic well-being is directly tied to continued health of the other partners in that industrial base. Every unit of the economy benefits from the transportation infrastructure, localized roads, and logging camp development which had their beginnings with the construction of the pulp mills in Ketchikan and Sitka. To the extent that shrinkage is experienced in any one of these inter-related and dependent industries, including timber, each other segment will suffer loss of access to the infrastructure needed to be competitive in world markets.

THE 1988 DROUGHT AND THE BUREAU OF RECLAMATION

Mr. HATFIELD. Mr. President, I know that it is not necessary to call to the attention of my colleagues or the public of the hardship that is being visited upon our farmers as a result of the 1988 drought. Open any national magazine or look at any newspaper and we are confronted with devastating articles and photos. Gaunt livestock. Stunted crops. Powder dry fields. Cracked and parched lake and pond beds. And always the farmer. Standing in his fields, ankle deep in dust, surveying what must bring heartache and despair.

The statistics of drought are overwhelming. Over 1,700 counties are subject to drought disaster conditions. Crop and livestock losses measured in the billions of dollars. An estimated 19.5 million acres in the Plains States ready to blow—the potential for a repeat of the infamous dirty thirties when wind borne top soil darkened the skies.

The effects of the drought are far reaching. Navigable waterways have fallen to alarming levels. Barge and other commercial traffic on the Mississippi and Ohio River systems have been hindered and in some instances blocked by low water. Industrial production has been curtailed and in some areas both hydroelectric and thermal electric generation facilities are threatened. The ultimate cost will be paid by the taxpayer in the form of drought relief assistance and the consumer in higher prices.

But there are other losses that simply cannot be measured in terms of dollars. All across the Northern Plains and up into central Canada the effects on wildlife are devastating. The nesting grounds for much of North America's waterfowl have simply dried up. A report in the Washington Post of July 3 calls attention to reductions in mallards, teals, and pintail ducks as well as threats to endangered species because of a lack of water.

It is a grim scenario.

The Congress and the administration will respond, but there is a lesson to be learned. Throughout the recent weeks as reports of devastation continued to mount, I was struck by the absence of bad news from an important segment of our agricultural economy; the roughly 10 million acres of irrigated farms served by projects of the Bureau of Reclamation. To the contrary, virtually all of the Bureau's projects are up and running, providing full contract supplies to almost 150,000 farms and municipal and industrial water supplies for 20 million people in the reclamation west.

The projects are doing what they were designed to do. Bureau storage facilities are able to capture in one year and then carryover to the next year water which otherwise would be lost. The benefits to the farmer are obvious, but there are benefits to fish and wildlife as well. Project wetlands receive an assured water supply. Irrigated fields to provide habitat. Seepage from canals and runoff from irrigated fields can make the difference for the survival of wildlife in time of severe drought.

In recent years, proposed Bureau of Reclamation projects have come under ever-increasing attack by the environmental community. Much of the criticisms are well founded and are based upon obvious past errors committed at a time when our Nation had yet to develop an environmental ethic. But concern for the environment should not mean simply to oppose all projects. Rather than simple opposition, we should address the requirements for fish and wildlife mitigation and where the opportunity presents itself, provide for enhancement of habitat.

Mr. President, my colleagues will recall the bitter opposition to the Garrison and Oahe projects in North and South Dakota. Projects which, if they had been built, would be in the heart of the 1988 drought. I cannot help but wonder what benefits there would be for farmers and for wildlife had the projects been built.

Bureau projects are performing well this year, but if the drought continues, many of the projects will not have sufficient water supplies for the 1989 irrigation season. As my colleagues will recall, the 2 year drought of 1976-77 demonstrated the fallibility of inadequate storage and the Congress enacted the 1976-77 Drought Emergency Act. In this Congress, we are being called upon again to consider legislation giving the Secretary of the Interior temporary authority for drought-related efforts. Perhaps, rather than responding to each drought with a temporary measure, the Congress should enact permanent authority for the Secretary to respond to drought conditions affecting Bureau projects or those who could be temporarily served by Bureau projects.

In this regard, the administration has established an Interagency Drought Policy Committee which is reviewing the experience gained in the 1976-77 drought as well as current drought-related programs and activities. The Interagency Committee is scheduled to report its recommendations for action and related legislation later this month. It is my hope that the Congress will not act prematurely on drought legislation and will wait for the results of the Interagency Committee's deliberations. I would also caution my colleagues that while it may be appropriate to act as expeditiously as possible to address the needs of the current drought, we must not loose sight of the need to provide congressional guidance in establishing a far more comprehensive national water policy if we are to assure adequate water supplies for the future.

The current drought may serve to focus attention, but when the drought is over, we must not loose sight of the simple fact that there will be more droughts, more shortages, more conflicts over the use of this most precious resource. Our Nation needs a long-range national water policy.

TONY BEVINETTO REMEMBERED

Mr. DECONCINI. Mr. President, I rise today to say a few words about Tony Bevinetto and to express my sincere sympathy to his family. Tony was an extraordinary individual. All of us in this body who had the privilege of working with Tony know what a genuinely fine human being he was. His love of people and his love of the public lands he sought to protect were an inspiration to us all. His hard work and deep sense of professionalism was exemplary. Tony Bevinetto had the respect and admiration of all who knew him.

Mr. President, I am not a member of the Energy Committee, but I have had many bills affecting my State before that committee over the years. Tony Bevinetto was always helpful to me and my staff. When there was a difficult issue, Tony would find a workable solution that was good for everyone.

He was a warm, caring, and exceptionally kindhearted man whom I feel better for having known. I will miss him—we will all miss him. His accomplishments were many and the Nation is the beneficiary of his efforts. We mourn his death while celebrating his life. Tony Bevinetto will be remembered by this body with fondness and respect for a very long time. My heart goes out to his wife at this very sad time, with my sincere prayers for Tony and his family. He was somebody who really exemplifies what so many of the fine staff around this body do, and do not always get credit for.

I thank the Chair.

THE SPIRIT OF DAVID WILENTZ

Mr. BRADLEY. Mr. President, for more than a half a century, New Jersey has been blessed by the contributions of David Wilentz. I rise today to take note of his death, but more importantly to recognize his remarkable contributions to our State.

David Wilentz was first admitted to practice law in New Jersey in 1919 and he remained an active member of the bar until his death Tuesday at the age of 93. His legal career was capped by his service for 10 years as the State attorney general. As attorney general he drew worldwide attention for his prosecution of Bruno Hauptmann for the kidnaping and murder of the baby son of Charles and Ann Lindbergh.

While David Wilentz may be known to the world for this famous case, he is known in New Jersey for his lengthy involvement in civic and political activities. Having arrived in the United States at the age of 6 from Dwinsk, Latvia, David Wilentz had a fierce commitment to this country for the opportunities it has provided him and millions of other immigrants. Citizenship had special meaning to him and he believed firmly in giving back to his naturalized home. As a former chairman of the New Jersey State Democratic Committee, he was a spirited political leader. Long after he left his formal position in the party, David Wilentz continued to exercise leadership in the State. His impact even extended in very personal terms. His son, Warren, was the Middlesex County prosecutor. His son, Robert, was appointed, first by Gov. Brendan Byrne and then reappointed by Gov. Thomas Kean, as chief justice of the State supreme court—the state's highest court. His daughter, Norma, has also been active in civic affairs. His children and their contributions to the State were a source of enormous pride for him. He will be particularly missed by his wife, Lena, to whom he had been married for 69 years, and his three children, eight grandchildren and five great-grandchildren.

David Wilentz will be remembered as a leader in government and law. His political wisdom was legendary in New Jersey for over 50 years. He was the consummate public-spirited citizen—intelligent, involved, and caring. I am proud to have counted him as a friend—and I will miss him.

THE DROUGHT OF 1988

Mr. BOND. Mr. President, recently, a farmer from northwest Missouri and a member of my Missouri Agriculture Advisory Committee, Blake Hurst, published and article discussing the "state of affairs" of Missouri farming. Having worked closely with Mr. Hurst and the Missouri Agricultural Advisory Committee, I am of the opinion that he presents an accurate assessment of many of our agricultural problems and offers intelligent insight in this area. I strongly recommend that we all take the time to peruse this article and I ask unanimous consent that the article "Farming With Uncle Sam," be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

FARMING WITH UNCLE SAM—HIGH FINANCE COMES TO RURAL MISSOURI

(By Blake Hurst)

Ten years ago, I graduated from the University of Missouri and returned to our family's farm in the far northwest corner of the Show-Me state. My brothers and I are the third generation to farm here in Atchison county. Grandpa founded our business after his first farm was lost in the late '20s in an earlier agricultural downturn. The enterprise has grown and today it includes some 2,700 acres of corn, soybeans, and beef cattle. Last year, we produced about 125,000 bushels of corn. We don't really like accepting subsidies. But if we didn't enroll in government farm programs, our corn would be worth about $1.80 a bushel; because we participate, we receive about $3 a bushel. Everybody has his price. Now you know ours.

BUNKER MENTALITY

Northwest Missouri is a patchwork of corn and soybean fields, pastures, small towns, hills, and rivers. Lately a new feature has been added. These days, nearly every small town has a grain bunker. Grain bunkers are football field-sized piles of corn 30 feet high in a plywood base covered with a huge white plastic sheet. My hometown of Tarkio is in a particularly fertile area, so we have not one, but two bunkers. Each holds one-half million bushels of corn stored under a three-year contract with the federal government at a cost to the taxpayer of $500,000 per year. These bunkers, which resemble nothing so much as truncated stadiums like the Minnesota Homer Dome, are necessary because the more traditional forms of grain storage are already full. Billions of bushels of grain are stored all over the Midwest in bins, sheds, and bunkers: grain raised by farmers like me in response to government payments that hold little relation to any market signals. During a rain storm this past summer, the dikes along the local river broke, surrounding the bunkers with four feet of water—sort of a floating monument to a failed farm policy.

From 1977 to 1985, government support levels for program crops increased each year regardless of supply and demand. This policy probably did the most to fill Tarkio's bunkers, but there were other reasons. Exports have fallen because of the strong dollar. Third World countries are under pressure to cut imports of farm products and increase exports of their agricultural products to reduce their horrendous debts. The European Economic Community has embarked on a massive export dumping program to protect its own farms. The federal government's tax and farm credit policies have also contributed to our woes.

CHEAP MONEY, COSTLY LAND

When I started farming, the Farmers Home Administration was lending money for 40 years at 5 percent interest to farmers unable to get commercial credit. Not many farms in Atchison county were purchased on those terms, but since price is set on the margin, land costs rose much higher than they would have without the subsidized credit. This credit-led boom increased costs for all farmers.

Today the FmHA is trying to deal with the results. In neighboring Nodaway county a farmer borrowed money from the FmHA to purchase a farm. Unable to make payments he simply packed up his family and left. A commercial lending institution would have begun foreclosure proceedings, taken possession of the farm, and sold it in order to recover at least a portion of the original loan. The FmHA couldn't react as a normal lender would have because it was under a court injunction prohibiting it from foreclosing on its borrowers. Today the farm lies idle and the house has been looted because the FmHA could not protect the taxpayers' investment.

ARBITRAGE VS. HOG-FEEDING

A farmer down the road fared better. Also unable to make payments, he voluntarily conveyed the farm back to FmHA. The FmHA received an appraisal of the farm and offered to sell it at the appraised value to the original borrower. The rules say the FmHA has to first offer any land in its inventory to the farmer who lost the farm. If he refuses, only family farmers who can't get credit from commercial lenders can buy the farm from the FmHA. Well, the appraised value on this farm was so low (and why not, with those stipulations on its sale) that the delinquent borrower was able to sell half of the farm to a neighbor for enough to buy the rest of the enterprise with cash. High finance comes to rural Missouri.

Nationwide, the FmHA has $14 billion in outstanding loans. Two-thirds of that debt is delinquent and 70 percent of the delinquent debt is at least three years overdue. The disaster and emergency loan programs of the '70s were a national scandal. In some Southern states, 80 to 90 percent of those loans were never repaid. Small Business Administration loans were available to farmers at an interest rate of 3 percent. Now, most farmers don't know what arbitrage is, but I do know neighbors who figured out that borrowing money from SBA at 3 percent and buying CDs paying 10 percent at the local bank sure beat the hell out of feeding hogs!

Although the Reagan administration has attempted to tighten lending procedures at the Farmers Home Administration, some things never seem to change. Recently Congressman Whitten of Mississippi slipped a provision into the budget reconciliation act cutting the FmHA administrator's office budget by 25 percent. Before you get your hopes up; it wasn't a move toward fiscal sanity. Nope, it seems Jamie Whitten was piqued at FmHA administrator Vance Clark for refusing loans to borrowers who were not only delinquent in their payments, but who showed no signs of being able to rectify the situation. Only in Washington does the size of your office budget reflect how much taxpayer money you can waste.

I guess the Reagan administration has finally gotten the message. On March 1 of this year, the FmHA announced a new policy to fulfill the mandates of the Agricultural Credit Act passed by Congress in December of last year. In essence, the FmHA has admitted defeat. As much as $7 billion in bad debt will be written off. Farmers who lost their farms as long as 10 years ago will be able to get back in business. (This is a rather startling breakthrough in economic policy. If you have any Penn Central, Lockheed, or Wickes stock lying around the house, I'd recommend calling your congressman.) No provisions have been made for farmers who have paid their debts. As mentioned before, many of the delinquent loans are located in the South. The announcement of this decision a week before Super Tuesday can hardly be called a coincidence.

WILLIE NELSON'S TAX LOSS

"Crazy, crazy for feeling so blue," sang Willie Nelson at his FarmAid concerts. And Willie had every right to be blue. After all, not only were we family farmers in terrible shape, but Willie himself testified to a several-hundred-thousand-dollar cattle feeding loss. Of course, Willie's cattle feeding problems weren't what they seemed. Family farmers, including Willie Nelson, are eligible to use cash accounting for tax purposes. Now this may seem rather arcane, but bear with me. Cash accounting is deemed necessary for farmers because we aren't sophisticated enough to pay income taxes on an accrual basis like every other business. We may not be sophisticated, but it didn't take us long to figure out that cash accounting is a terrific tax dodge for an expanding business. By advancing purchases and delaying sales, which would normally show up as inventory changes, a farmer can report a tax loss even though his business is profitable. As long as he keeps expanding, he has what amounts to an interest-free loan from Uncle Sam. Willie Nelson's tax advisors know this. Consequently, family farmers like myself are faced with larger supplies and lower prices than would otherwise be the case.

PLOWING UP CHICKEN BRISTLE

Farm surpluses are not a new problem. In the 1960s, the government cut production through a program of long-term rental agreements with farmers. The Soil Bank program made it more profitable for farmers to retire marginal land from production than to farm it. The program was devastating to agribusiness in those areas with high participation. Some counties essentially shut down their crop-producing plant.

But agriculture is a highly cyclical business and the 1970s saw a turn for the better. Exports increased and in response to this demand, highly erodible pastures and rangelands sprouted grain. The Soil Bank contracts were allowed to lapse and production rose to meet the demand from overseas. Across the road from where my grandpa grew up in the community of Chicken Bristle, a large farm that had been in grass for generations was plowed up and planted to corn. Yields were low, but subsidies made it profitable.

Conditions changed again in the '80s. There was renewed interest in conservation as grain supplies moved from shortfall to surplus. You can guess what came next. An uneasy coalition of farm groups wanting to cut production, environmental groups wanting to reduce erosion, and politicians wanting more votes, presided over the birth of the "Son of Soil Bank," otherwise known as the Conservation Reserve Program. Hailed as a new breakthrough in farm policy, the CRP buys land out of production through the use of long-term rental agreements between farmers and the government. Once again, participation is high and agribusiness is suffering in areas poorly suited to crop production. Of course, one of the first farms to enter the program was the Chicken Bristle farm. Farmers who plowed fragile land are being bailed out by a so-called conservation program. What programs like the Soil Bank and CRP really do is remove the risk from farming highly erodible, unproductive land that doesn't lend itself to continuous cropping. When times are good, plow it up and let it blow or wash away. Don't worry about the bad times; you can always rent it to Uncle Sam.

A final note on the Conservation Reserve. Twelve thousand acres have been plowed out of pasture in Atchison county since 1978. Two miles north of my home, a fellow from Las Vegas purchased a grass farm and planted it to corn. As a grass farm, it might have rented for $40 an acre per year. As a crop farm, it would be worth slightly more. It's now rented for 10 years to Uncle Sam for $70 an acre. Better odds than he is used to.

TIME FOR MASSIVE SUBSIDIES IS PAST

All of these policies had an unintended result. They kept resources in agriculture at a time when the market was clearly signaling that resources needed to leave farming. Excess resources led to surpluses, which led to low prices, which increased the pressure for more subsidies. But the United States is not alone in pursuing misguided farm policies. Estimates of worldwide farm subsidies run as high as $250 billion annually. France sells corn to Algeria for $1.80 a bushel while paying its farmers $6 a bushel. Italy pays its farmers $15 a bushel for soybeans that they could buy from me for $6 a bushel. Japanese farmers recently compared U.S. requests for less protectionism in beef to the Hiroshima atomic bomb. President Reagan's proposal for a gradual phaseout of farm subsidies worldwide has been roundly criticized as "unrealistic." Unrealistic as those proposals may be, they offer our only hope for the future.

Meanwhile, back at my farm, we've spent the winter preparing to comply with the conservation provisions laid out in the 1985 farm bill. We're writing crop rotation plans for the next 16 years to qualify for continuing subsides. (Farmers are known for their optimism. Requiring my 87-year-old grandfather to fill out a 16-year crop rotation takes optimism to a new extreme.) We can't drain wet spots or change the location of drainage ditches. The USDA tells us what to plant, how much to plant, and where to plant. If we opt out of the program, we're forced to compete with farmers in the program who will receive nearly twice as much for their crops. Consequently, we have little choice but to follow the rules.

In the small town near our home, the local branch of the Farm Credit System has closed its office. A group of farmers and local businessmen has purchased the building, refurbished it, and opened a taco joint. West of town, land that used to grow the best corn in Atchison county is now planted to potatoes, a crop that doesn't depend on subsidies, but rather on America's appetite for potato chips. North of town, some neighbors are experimenting with broccoli, another nonsubsidized crop. Further north, a group of farmers' wives distribute their handsewn clothing to yuppies nationwide. And behind my house, my wife and I have four greenhouses, where we plant what we want to plant and sell what we grow without filling out a single Department of Agriculture form. I guess we farmers know something that hasn't occurred to the folks in Washington—the time for massive farm subsidies is past.

Mr. DIXON. Mr. President, the terrible drought we are experiencing is not only ruining the crops of our already beleaguered farmers but is also greatly impacting on this Nation's barge industry.

In the middle of June, several barges became stuck at points all along the Mississippi due to the extraordinarily low river levels. At Greenville, MS, water levels have dropped an astrounding 28-feet below normal.

The delays caused by the low water levels are greatly increasing the overhead of barge operators and are consequently forcing their shipping rates to drastically increase. Unfortunately, this disaster comes at a time when barge traffic is just beginning to recover from a terrible depression.

Mr. President, in order to inform everyone about the plight of the barge operators, I ask unanimous consent that this June 6, 1988 article from the Chicago Tribune be printed in the RECORD in whole.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Chicago Tribune, June 21, 1988]

SHIPPING RUNNING DRY AS COMMODITIES RUN UP—LOW WATER IS THREATENING RECOVERY FOR RIVER BARGES

(By Carol Jouzaltis)

The worsening drought is drying up business for the nation's barge industry, just when river transportation was emerging from a seven-year depression.

Because of the lack of rain, the meandering Mississippi River is running low and slow.

Dozens of towboats, which need a minimum depth of nine feet, have run aground in recent weeks because of fast-sinking water levels and shoaling, a buildup of silt deposits caused by slow-flowing water.

Operators fear that without plenty of rain soon, the river will be shut down to commercial navigation. Already, shippers are turning to railroads and trucking companies to avoid lengthy and costly delays on the river.

Last week, some 1,800 barges were idled for several days near Greenville, Miss., waiting for dredgers to deepen dangerous shallow areas before continuing their trips.

At Greenville, where some boats were stranded almost a week, the Mississippi had sunk 28 feet below normal levels for this time of year.

But the backup was barely cleared before another trouble spot strangled traffic. Early Monday, a towboat ran aground near Laconia, Miss., 50 miles north of Greenville, and a U.S. Corps of Engineers spokesman said dredging there was expected to last until Friday.

As another tieup began forming, the corps was advising operators to use alternate routes such as the Tennessee River.

The barge-and-towing industry moves 15 percent of all U.S. freight shipments and is a major transporter of petroleum, grain, coal and other bulk commodities, according to the American Waterways Operators, a trade association.

"Right now, the industry is a bit stunned," said Jeffrey Smith, the association's director.

"This doesn't come at a good time for us. The industry was just beginning to crawl out of a terrible depression," Smith said.

Delays are expensive for barge companies. Operators were said to be losing $10,000 a day for each idled towboat because of the costs of labor, gasoline and lost business.

Barge transportation is popular because it is efficient and cheap. One towboat can push up to 40 barges, which are wired together with cables. A single hopper barge can be loaded with 1,500 tons of grain.

But with water levels dropping daily, barging not only becomes more expensive, it becomes perilous as well. If a boat runs aground or rams the banks of the narrowing channel, its barges can break up and go careening down river, possibly damaging other vessels.

The Mississippi could drop another six feet or more by the end of July, making navigation virtually impossible, said corps spokeman Michael Logue in Greenville.

"Weather forecasts are giving us very little hope," Logue said. "It would probably take 9 or 10 inches of rain to get us out of a critical situation."

"This is totally twilight zonish. I don't think anyone foresaw something like this," he said.

In recent weeks, barge freight rates have doubled, operators say, because of the effect of the drought on industry capacity. Aside from the delays, operators have been forced to avoid traveling at night and to lighten their tonnage in hopes of skimming over shallow areas.

Barge operators have raised average bulk commodity rates to about $14 a ton from $7 a ton since the drought began taking its toll, said Robert Gardner, general manager with Conti Carriers and Terminals, a unit of Chicago-based Continental Grain Co., the nation's fifth-largest barge company.

The rate hike could make U.S. grain and other products less attractive on the export market.

There are about 1,000 barge-and-towing companies in the country, down from an estimated 1,800 in 1980. The industry went through depression and consolidation bought on by the Soviet grain embargo and overcapacity from speculative building.

But things had been looking up.

In 1986, barges handled 558 million tons of freight on the nation's inland and intercoastal waterways. Barges move 57 percent of all grain headed for export usually from the Gulf of Mexico, and 40 percent of all petroleum shipments, Smith said.

For now, some shippers have abandoned barges in favor of the railroads to get their grain and other overseas-bound freight to the Gulf of Mexico on time.

However, Conti's Gardner, a former towboat captain and 25-year industry veteran, was taking an optimistic view.

"I'm not expecting any permanent closures, though it's certainly possible if we don't get any moisture," he said.

He noted that in past years, shipping on the Mississippi was strangled in periods of lesser droughts. Most recently, the river was closed in January, 1981, when it froze over in an Arctic blast.

In the last decade, however, channel improvements have reduced erosion, and a series of locks and dams on the upper Mississippi have gone a long way to keep commerce flowing, he said. Even with the drought, traffic was moving freely on most of the Mississippi, Garnder noted.

"These improvements are paying off in a big way right now, there's no question," Gardner said.

The lower Mississippi, where most of the shoaling problems have occurred, is unsuitable for dams because of the delta terrain.

SENATOR ROBERT BYRD

Mr. LEVIN. Mr. President, our colleague ROBERT BYRD has served as the Democratic leader of the Senate for almost 12 years, and has been a member of the leadership of this institution for more than 20. I have never known a man more dedicated to public service and more devoted to this great institution than ROBERT BYRD. He has been the Democratic leader throughout the almost 10 years I have served in Washington, and it is difficult to imagine serving with any future majority leader who will ever approach the mastery of the legislative process which ROBERT BYRD has achieved. He has guided us through countless legislative battles, crafted compromise after compromise, devised solutions to innumerable parliamentary impasses and unfailingly maintained the dignity of the Senate.

I might also note that it is highly unlikely that we will have a leader with such musical talents, or such an ability to quote from memory the scriptures and some of the world's greatest poets. His colorful and erudite discources on a wide range of personal and cultural matters have enlived many a late evening in this Chamber. On top of that, he has taken a keener interest in the history of this institution than any other 10 Senators put together. Who can forget his remarkable, detailed lectures on the often incredible events that have taken place in the Senate since the early 1800's? These learned explorations of this institution's development have been conducted by a man who has deep affection for it, despite its flaws and occasionally infuriating inefficiencies.

His is an admirable, enviable record of leadership and accomplishment, and we can all be glad that it is not coming to an end, but rather entering a new phase. The distinguished Senator from the great State of West Virginia will take on the challenge and opportunity of serving as chairman of the Senate Appropriations Committee with his characteristic dedication in the 101st Congress. I look forward to continuing to work with him for many more years.

PRESIDENT ROH TAE WOO, SOUTH KOREA

Mr. CRANSTON. Mr. President, President Roh Tae Woo of South Korea announced this morning a major new initiative which is designed as a first step to begin reconciling differences and promoting peace between North and South Korea. The President's six-point initiative calls for mutual exchanges of Korean politicians, businessmen, journalists, religious and cultural leaders, academics, and students. It seeks to foster family visits and correspondence, trade, and cooperation on economic development.

Significantly, the declaration is addressed to "my dear 60 million compatriots," North and South alike. It points out that all Koreans are part of a single national community and expresses the hope that the Korean people will be peacefully "integrated into a single social, cultural, and economic community before this century is out."

This declaration is, in my judgment, the single most positive expression of hope for progress toward reconciliation between Seoul and Pyongyang since the two Koreans were divided in 1945. It is an important first step on the road toward reconciliation on the dangerously divided Korean peninsula. I urge all my colleagues to support this declaration by the South Korean President. I commend him for it, and ask that the full text of his declaration be printed in the RECORD.

There being no objection, the declaration was ordered to be printed in the RECORD, as follows:

SPECIAL DECLARATION BY PRESIDENT ROH TAE WOO IN THE INTEREST OF NATIONAL SELF-ESTEEM, UNIFICATION AND PROSPERITY

My dear 60 million compatriots: Today, I am going to enunciate the policy of the Sixth Republic to achieve the peaceful unification of our homeland, a long-standing goal dear to the hearts of the entire Korean people.

We have been suffering the pain of territorial division for almost half a century. This national division has inflicted numerous ordeals and hardships upon the Korean people, thus hindering national development. Dismantling the barrier separating the South and the North and building a road to a unified and prosperous homeland is a duty history has imposed on every Korean alive today.

The South and the North, divided by different ideologies and political systems, have gone through a fraticidal war. The divided halves of the single Korean nation have distrusted, denounced and antagonized each other since the day of territorial partition and this painful state has yet to be remedied. Even though the division was not brought about by the volition of the Korean people, it is our responsibility to achieve national unification through our independent capabilities.

We must all work together to open a bright era of South-North reconciliation and cooperation. The time has come for all of us to endeavor in concert to promote the well-being and prosperity of the entire Korean people.

Today, the world is entering an age of reconciliation and cooperation transcending ideologies and political systems. A brave new tide of openness and exchange is engulfing peoples of different historical and cultural backgrounds. I believe we have now come to a historic moment when we should be able to find a breakthrough toward a lasting peace and unification on the Korean peninsula which is still fraught with the danger of war amidst persisting tension and confrontation.

My fellow compatriots, the fundamental reason that the tragic division is yet to be overcome is because both the South and the North have been regarding each other as an adversary, rather than realizing that both halves of Korea belong to the same national community. In that way, inter-Korean enmity has continued to intensify. Having lived in a single ethnic community, the Korean people have shaped an illustrious history and cultural tradition, which triumphed over almost ceaseless trials and challenges with pooled national strength and wisdom. Accordingly, developing relations between the South and the North as members of a single national community to achieve common prosperity is a shortcut to realizing a prosperous and unified homeland. This is also the path to national self-esteem and integration.

Now the South and the North must tear down the barrier that divides them and implement exchanges in all fields. Positive step after positive step must be taken to restore mutual trust and strengthen bonds as members of one nation.

With the realization that we both belong to a single community, we must also discontinue confrontation on the international scene. I hope that North Korea will contribute to the community of nations as a responsible member of it and that this will accelerate the opening and development of North Korean society. South and North Korea should recognize each other's place in the international community and cooperate with each other in the best interest of the entire Korean people.

My 60 million fellow compatriots, today, I promise to make efforts to open a new era of national self-esteem, unification and prosperity by building a social, cultural, economic and political community in which all members of the Korean people can participate on the principles of independence, peace, democracy and welfare. To that end, I declare to the nation and the world that the following policies will be pursued:

First. We will actively promote exchanges of visits between the people of South and North Korea, including politicians, businessmen, journalists, religious leaders, artists, academics and students and will make necessary arrangements to ensure that Koreans residing overseas can freely visit both parts of Korea.

Second. Even before the successful conclusion of the North-South Red Cross talks, we will promote and actively support, from a humanitarian viewpoint, all measures which can assist dispersed families in their efforts to find out whether their family members in the other part of the peninsula are still alive and their whereabouts, and will also promote exchanges of correspondence and visits between them.

Third. We will open doors for trade between South and North Korea, which will be regarded as internal trade within the national community.

Fourth. We hope to achieve the balanced development of the national economy with a view to enhancing the quality of life for all Korean people in both the South and the North, and will not oppose nations friendly with us trading with North Korea provided that it does not involve military goods.

Fifth. We hope to bring an end to counterproductive diplomacy characterized by competition and confrontation between the South and the North and to cooperate in ensuring that North Korea makes a positive contribution to the international community. We also hope that representatives of South and North Korea will contact each other freely in international forums and will cooperate to pursue the common interests of the whole Korean nation.

Sixth. To create an atmosphere conducive to durable peace on the Korean peninsula we are willing to cooperate with North Korea in its efforts to improve relations with countries friendly to us including the United States and Japan, and in parallel with this, we will continue to seek improved relations with the Soviet Union, China, and other socialist countries.

I trust that North Korea will positively respond to the measures outlined above. If the North shows a positive attitude, I make it clear that even more progressive measures will be taken one after another. I hope that this declaration today will serve to open a new chapter in the development of inter-Korean relations and will lead to unification. I believe that if the entire 60 million Korean people pool their wisdom and strength, the South and North will be integrated into a single social, cultural and economic community before this century is out. On that basis, I am confident that we will accomplish the great task of unifying into a single national entity in the not so very distant future.

SOUTH KOREAN PROPOSAL FOR NATIONAL RECONCILIATION

Mr. PELL. Mr. President, I am very pleased that President Roh Tae Woo of South Korea has today announced a major policy initiative for peace and reconciliation between North and South Korea.

We all recognize that the state of tension on the Korean Peninsula makes it potentially one of the most dangerous places on Earth. Previous attempts to defuse the situation by North-South dialog have not succeeded, and there have been recent deployments of North Korean antiaircraft missile systems near the DMZ.

President Roh's initiative is therefore particularly welcome at this time. It is a very positive declaration, recognizing the need for all Koreans, North and South, to begin a process of understanding and cooperation. It calls for the active promotion of exchanges—political, economic and cultural—and calls for humanitarian efforts to help family members visit their relatives throughout the peninsula. It also calls for free trade between the North and the South and for cooperation on economic development throughout the entire peninsula.

I wholeheartedly support this constructive declaration by the South Korean President. It is my hope that North Korea will respond favorably to the proposal and that the process of peaceful exchanges between both Koreas will soon develop. I congratulate President Ro for his initiative and urge my colleagues to support this important peace effort.

PARAGUAY UNDER GENERAL STROESSNER

Mr. DECONCINI. Mr. President, I rise today to address the international concerns of corruption and human rights violations in Paraguay under the rule of the current President, Gen. Alfredo Stroessner. Other than Chile, Paraguay is the only country in South America whose people, economy, politics, and foreign relations are ruled by a dictator. As a result, any person or movement whose actions conflict with the interests of the dictator could be tortured or killed.

Although many of Paraguay's neighbors have moved toward democracy, General Stroessner has ignored the trend toward democracy that is taking place in Central and South America. Brazil and Argentina moved toward democracy in 1984 after 20 years of military rule and Uruguay followed this trend 1 year later. Furthermore, 1 million Paraguayans—one-fourth of the population—left Paraguay and now live and work in Argentina due to the demeaning and brutal government in their native country. Brazil has resorted to broadcasting anti-Stroessner radio programs and prints anti-Stroessner columns in its newspapers. Brazil should be joined in its efforts to influence change in Paraguay's existing government.

In addition to the corrupt elections throughout the last 30 years, Paraguay is becoming increasingly alienated from its neighbors. One reason is its involvement in drug smuggling. Brazil has been trying to crack down on drug smuggling, but has not been able to persuade Paraguay to do the same. Unfortunately, one of the main smugglers is a military official—Gen. Andres Rodriguez—the commander in chief of the 1st Army. He has been linked to the 1986 seizure of 43 kilos of cocaine and 744 kilos of marijuana in Paraguay, and to this day, allegedly continues similar illegal operations.

Another topic I would like to address, Mr. President, is the human rights situation in Paraguay. It has been documented by Amnesty International that General Stroessner's regime has relied on wide-scale arrests, disappearances, long-term detention without trial, and the use of torture to carry out his political control. Not only does General Stroessner use harmful means to retain his power, but he keeps all information about his actions hidden from the public. If there is a voice of opposition, he simply uses military force to calm it or completely eliminate it. Every year there are countless examples of beatings, murders, exiled priests, and jailed writers and politicians in Paraguay. They are tortured merely because they want democracy in their country.

At the moment, the United States has very little direct leverage on General Stroessner. However, I believe Mr. President, that since the United States cannot change General Stroessner by itself, it is imperative for us to work with Paraguay's neighbors in a combined effort to change the existing regime that plagues Paraguay and casts a dark shadow on Latin America. I would hope that we could begin to focus more effort toward addressing this dictator who rivals General Noriega's abysmal human rights and drug smuggling record.

FORMAL NOTIFICATION

PROPOSED ARMS SALE TO KUWAIT

Mr. PELL. Mr. President, the Committee on Foreign Relations today received formal notification of the administration's proposal to sell $1.9 billion in defense equipment to Kuwait.

The administration wishes to sell 40 F/A-18C/D aircraft, spare parts, support equipment and services, training, 200 Cluster bomb units [CBU], 120 AIM-9L Sidewinder missiles, 200 AIM-7F Sparrow missiles, 40 AGM-84D Harpoon missiles, and 300 AGM-65D/G Maverick missiles.

Section 36(b)(1) of the Arms Export Control Act requires that Congress receive formal notification of proposed arms sales under the act in excess of $50 million, or, in the case of major defense equipment as defined in the act, those in excess of $14 million. Upon receipt of such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Foreign Relations Committee.

In keeping with my intention to see that such information is available to the full Senate, I ask unanimous consent to have printed in the RECORD at this point the notification I have received. The classified annex referred to in the notification is available to Senators at the Foreign Relations Committee.

There being no objection, the notification was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, July 7, 1988.

In reply refer to: I-03154/88ct.

Hon. CLAIBORNE PELL,
Chairman, Committee on Foreign Relations, U.S. Senate,
Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 88-39 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Navy's proposed Letter(s) of Offer and Acceptance (LOA) to Kuwait for defense articles and services estimated to cost $1.9 billion. Soon after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

CHARLES W. BROWN,
Lieutenant General, USA,
Director.

[Transmittal No. 88-39]

NOTICE OF PROPOSED ISSUANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b)(1) OF THE ARMS EXPORT CONTROL ACT

(i) Prospective Purchaser: Kuwait.

(ii) Total Estimated Value; Major Defense Equipment,[1] $1.4 billion; Other, $.5 billion; Total, $1.9 billion.

(iii) Description of Articles or Services Offered: Forty F/A-18C/D aircraft, spare parts, support equipment and services, training, 200 Cluster bomb units (CBU), 120 AIM-9L SIDEWINDER missiles, 200 AIM-7F SPARROW missiles, 40 AGM-84D HARPOON missiles, and 300 AGM-65D/G MAVERICK missiles.

(iv) Military Department: Navy (SAO).

(v) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vi) Sensitivity of Technology Contained in the Defense Articles or Defense Services Proposed to be Sold; See Annex under separate cover.

(vii) Section 28 Report: Included in report for quarter ending 31 March 88.

(viii) Date Report Delivered to Congress: 7 July 1988.

POLICY JUSTIFICATION

KUWAIT—F/A 18C/D AIRCRAFT

The Government of Kuwait (GOK) has requested the purchase of 40 F/A-18C/D aircraft, spare parts, support equipment and services, training, 200 Cluster bomb units (CBU), 120 AIM-9L SIDEWINDER missiles, 200 AIM-7F SPARROW missiles, 40 AGM-84D HARPOON missiles, and 300 AGM-65D/G MAVERICK missiles. The estimated cost is $1.9 billion.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The Kuwait Air Force needs these aircraft to replace the U.S.-origin A-4KU fighter/attack aircraft in the current inventory which are based on 1960's technology. This sale will enhance the readiness of the GOK to meet external aggression and develop increased equipment commonality with U.S. forces, thereby enabling Kuwait to continue to export oil to the free world. Kuwait will have no difficulty absorbing these aircraft and munitions into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be the McDonnell-Douglas Corporation of St. Louis, Missouri. The munitions will come from a variety of contractors.

Implementation of this sale will require the assignment to Kuwait of two additional U.S. Government personnel for one year and 14 contractor representatives for one year.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

Mr. PELL. Mr. President, on June 17 the Senator from Arizona, Mr. DECONCINI, and I, together with 18 other Senators, wrote the Secretary of State raising a number of questions about this proposed sale. I have just received a response to that letter from the Department of State. I ask unanimous consent that the texts of our letter and the response be printed in the RECORD following my remarks.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, June 17, 1988.

Hon. GEORGE P. SHULTZ,
Secretary of State,
Washington, DC.

DEAR MR. SECRETARY: On June 10, 1988 an informal notification for an arms sale to Kuwait was sent to Congress. As you know, the total package of arms includes 40 F/A-18 Hornet Fighter Aircraft, 40 Harpoon missiles, 120 Sidewinder missiles, 200 Sparrow missiles, 300 Maverick missiles, 400 Laser-guided bombs, and 200 cluster munitions. The Hornet is a multi-mission aircraft designed and developed as both a fighter and an attack aircraft which symbolizes America's best technology. We are deeply concerned by the numerical and symbolic quality of this arms sale package.

We are interested in the administration's rationale and foreign policy objectives regarding this arms sale package. Will the Kuwaitis contribute more overtly to share the burden of protecting their own shipping in the Persian Gulf? Will they play a role in fostering the peace process in the Middle East? What assurances do we have for their longer-term alliance and support in this volatile region of the world? What are the overall policy considerations of this sale?

Moreover, we are concerned about the possibility that the effective combat radius of the F/A-18 for a ground-attack mission could be extended in a way that would permit attacks on Israel. There is the possibility that the F/A-18 combat radius can be increased with extended-range fuel tanks, through basing or deployment of the planes in neighboring countries such as Saudi Arabia, Jordan, or Iraq. Accordingly, we conclude that it is critically important to have the assurances of Kuwait that these aircraft will never be based or deployed closer to Israel than they would be at their base in Kuwait and that they will never be based in or deployed to a state bordering Israel. In addition, we should have Kuwaiti assurances that they will not seek refueling aircraft or equipment which could extend the operating range of the F/A-18. The administration should provide assurances that the United States will not sell such equipment to Kuwait.

Furthermore, we are deeply concerned about the proposed sale of 300 advanced Maverick missiles (200 Ds, 100 Gs) to Kuwait. This is the same missile that was withdrawn from the proposed Saudi arms package last year following strong Congressional objections. The Maverick AGM-65 D and G missile is a day/night, infared, fire-and-forget weapon. It is a missile we can ill afford to have fall into unfriendly hands. The Maverick has destructive capabilities that far exceed the legitimate security requirements of Kuwait. The selling of these highly reliable and accurate missiles to Kuwait would further contribute to the already dangerous proliferation of advanced weapons in the volatile Persian Gulf. We strongly oppose the combination of F/A-18's and Maverick D and G missiles in this sale.

Mr. Secretary, we cannot afford to have our most sophisticated, sensitive and efficient weapons sold without predictable and desirable consequences. We look forward to an early reply.

Sincerely,

Dennis DeConcini, Claiborne Pell, Frank R. Lautenberg, Rudy Boschwitz, Daniel K. Inouye, Paul Sarbanes, Bob Packwood, Daniel P. Moynihan, Christopher J. Dodd, Pete Wilson, John F. Kerry, Paul Simon, Brock Adams, Howard M. Metzenbaum, Terry Sanford, Alfonse D'Amato, Don Riegle, Jeff Bingaman, Quentin N. Burdick, Spark Matsunaga, Senators.

U.S. DEPARTMENT OF STATE,
Washington, DC, July 7, 1988.

Hon. CLAIBORNE PELL,
Chairman, Committee on Foreign Relations,
U.S. Senate.

DEAR MR. CHAIRMAN: Thank you for the opportunity provided by your June 17 letter to the Secretary to clarify the Administration's policy on the sale of F-18 aircraft to Kuwait.

The sale of F-18s to Kuwait advances U.S. policy interests in the Persian Gulf by reducing Kuwait's vulnerability to aggression from its foes both present and future. It underscores Kuwait's willingness to assume greater responsibility for its own defense and the long term defense of the Gulf, as we have been urging it to do. We believe the Gulf Arab states should rely on their own resources for their first line of defense; acquisition of F-18s, with first deliveries slated for mid-1991, would significantly enhance Kuwait's ability to share the burden in the Gulf into the next century.

Located between the Gulf belligerents and dependent on exposed oil and water desalinization facilities, Kuwait is vulnerable to external aggression. Recent attacks on Kuwaiti interests include the 1986-87 Iranian campaign against Kuwaiti shipping, the repeated Silkworm missile firings at Kuwaiti territory from the al-Faw Peninsula, the March 1988 Iranian gunboat attack on Bubiyan Island, and the April 1988 firing of a SCUD missile into southern Kuwait. These acts exposed the weakness of Kuwait's traditional reliance on diplomacy as its first line of defense and led the Kuwaitis to reinforce diplomacy by requesting U.S. protection for eleven of their tankers.

These acts of external aggression also accelerated the process by which Kuwait decided to play a greater role in its own defense, both in the present and in the future after the end of the U.S. escort operation. The F-18 sale is only one of a series of moves the Kuwaitis have made or are considering to deter an attack from land, sea, or air.

The cooperation required by the successful escort operation, combination with developments in Kuwait itself, have fostered an unprecedented improvement in U.S.-Kuwaiti relations. These improved relations, supported by Kuwait's increasing economic integration into the Western economy, will last after the military crisis has passed and argue for continued Kuwaiti support of U.S. policy in the Gulf.

Kuwait is a moderate Arab state—politically, economically, and religiously. With as much as $100 billion invested in the West, Kuwait has a stake in Western economic stability. These interests have made Kuwait a voice of reason in OPEC councils. Although Kuwait, with a large Palestinian population, has not been publicly active in the peace process, it nonetheless consistently works behind the scenes, as it did at the recent Algiers Summit, to promote a negotiated settlement to the problem and moderate the Arab stance.

---

[1] As defined in Section 47(6) of the Arms Export Control Act.

Kuwait is a staunch ally in the fight against international terrorism, as the recent hijacking of Kuwait Airways flight 422 made clear. This F-18 sale will send a potent message to Kuwait's foes, internal and external, that the U.S. stands beside Kuwait against the terrorist threat.

The Kuwaiti F-18 is not a threat to Israel. Even carrying the three external fuel tanks it is designed for, and thus minimal munitions, its effective combat radius falls 200 nautical miles short of Tel Aviv. The F-18 cannot be based in Saudi Arabia, Jordan, or any other Arab state bordering Israel. No other country in the region has the sophisticated support infrastructure required to keep the F-18 operational. It is unlikely that Kuwait would jeopardize its economic, political, and military relationship with the U.S. by transferring support equipment to a third country without our approval.

Kuwait has no aerial refueling capability, nor has it ever requested one, even for the air-refuelable A-4s it currently operates. It is highly unlikely the Kuwaitis could obtain tankers against our wishes or without our knowledge. Under the U.S. global policy on tanker sales, we would not sell such equipment to Kuwait. In any event, all such sales are subject to Congressional review. The only two countries capable of converting U.S. aircraft into tankers—the U.K. and Israel—are most unlikely to assist Kuwait in this fashion. Finally, aerial refueling is a dangerous and complicated operation; any Kuwaiti attempts to practice this capability would be readily detectable.

Even more importantly, it is most improbable the Kuwaitis would contemplate denuding their defenses against the very real threat from the East in order to risk their Air Force in a suicide mission against Israel. Nothing in Kuwaiti politics or history lends credibility to such a scenario.

The Kuwaitis have requested 200 Maverick D and 100 Maverick G missiles. These are minimal numbers for an air force inventory, enabling a limited number of sorties with each missile system. The Maverick D air-to-ground missile, which has been approved for sale to Egypt and Bahrain, is similar to the A and B models sold to Saudi Arabia (which are no longer in production). The D model differs in that it has an infrared guidance system for night and low visibility use. This is particularly important in light of Iran's history of launching night attacks. The G model Maverick, which has a larger warhead also suited for use against maritime targets, has not been requested by other countries in the region, but does not contain new technology.

The F-18 is an integrated, multi-purpose aircraft, suitable for air-to-air combat and ground/sea support operations. This is an important consideration for a small state with a limited manpower pool. (All pilots in Kuwait's air force are Kuwaiti citizens.) Kuwait faces an immediate and long term surface, naval, and air threat. The Mavericks in the small quantities requested are appropriate to Kuwait's legitimate need to provide a credible defense against any potential intruder. The number of missiles requested is insufficient for sustained offensive use.

This is not analogous to the Maverick sale proposed for Saudi Arabia last year. In that instance, Saudi Arabia already had a large number of Mavericks. Such is not the case here. To delete the Mavericks from the sale and strip the F-18 of its defensive capability against tanks, gun emplacements, and other surface threats of the kind employed by the Gulf war antagonists is, in essence and effect, to deny the Kuwaitis the aircraft.

Finally, these weapons are not likely to fall into unfriendly hands. We have no indication that U.S.-controlled technology has ever been transferred illegally by the Kuwaitis to a third party. Indeed, it would be against Kuwait's own interests to do so and threaten its economic, security, and supply relationship with the United States.

Let me emphasize that the Administration considers this sale an important element of U.S. policy in the Persian Gulf region. The sale of F-18 aircraft to Kuwait, by helping a moderate Arab state assume the burden for its own defense, is in the long-term interests of the United States.

With best wishes,

Sincerely,

J. EDWARD FOX,
Assistant Secretary,
Legislative Affairs.

REFOCUS ON EL SALVADOR

Mr. CRANSTON. Mr. President, public attention is beginning to refocus on El Salvador. The reports are not good.

El Salvador's President, Jose Napoleon Duarte, whose efforts to build democratic institutions in El Salvador have won him the praise of Congress, is seriously ill. News reports talk of a power vacuum in El Salvador since his departure and there are rumors of a coup.

Death squad activity which had declined in the mideighties has increased. So have reports of human rights abuses by the Salvadoran Army and police. There have been reports of abuses by the guerrillas as well.

Corruption in the Salvadoran military and the Government are also issues of deep concern. These have been documented by the press and Members of Congress in the course of investigations about the use of United States funds in El Salvador.

In the last year, several of my Senate colleagues and I have written to members of the United States and Salvadoran Governments, as well as to the political wing of the Salvadoran guerrillas, expressing our concerns about human rights abuses and corruption in El Salvador.

The war's cost to Salvadoran society has been monumental. A recent New York Times article by James LeMoyne points out that 60,000 to 70,000 Salvadorans have been killed since 1979. Mr. LeMoyne goes on to say:

> That is more than one percent of the population. Until 1984, most casualties were civilians killed by the army.
>
> According to army figures, nearly 3,000 soldiers are being wounded and killed in the war each year. Army reports of guerrilla casualties appear inflated, but the rebels may be losing as many as 1,000 dead and wounded a year. Hundreds of civilians also die or are wounded in the war and in political killings.
>
> Guerrilla sabotage and indirect economic losses caused by the war are estimated by the United States Embassy here to have cost nearly $2 billion since 1979. The rebels are now concentrating, with considerable success on destroying the national electrical system and paralyzing road traffic every one or two months.

Tens of thousands of Salvadorans have been displaced by the war and have become refugees in their own country, Central America or here in the United States.

The United States has poured a total of $3 billion into El Salvador in economic and military aid since 1981.

Mr. President, what are we doing? Where are we going? How long is this war going to continue?

What is the United States trying to achieve? How much has been achieved in terms of political and social reform? What is the degree of independence of the Salvadoran judiciary and police from the military?

How long are we going to keep pouring money into keeping the Salvadoran Government afloat? Is our aid being used effectively?

The Esquipulas II Agreement signed on August 7 of last year calls for internal dialog. President Duarte took the initiative in getting a dialog going several years ago. Where is it now? What is the United States doing to help forward that process?

Just last month, some of my Senate colleagues attached language to the foreign operations appropriation which we are considering now which would have withheld 50 percent of the United States military aid for fiscal year 1989 to El Salvador until April 1, 1989. In addition, it would have required a report from the President of the United States on efforts taken by the Salvadoran Government, the armed opposition and the United States Government to initiate dialog and negotiations. This report must also deal with efforts to reduce death squad activity and human rights abuses, and efforts to establish the rule of law and an effective judicial system. The section also required that at least 30 percent of United States economic support funds going to El Salvador be spent on development assistance projects.

This section praised President Duarte for his continuous efforts to bring peace and economic and political development to El Salvador and exhorted his successors to continue to build on these efforts.

The language was knocked out in full committee by one vote. Mr. President, I believe this is evidence of the fact that there is deep concern over United States policy toward El Salvador. It is evidence of the need for the Congress and the next administration to reexamine our policy and look for some answers.

We must examine U.S. objectives and interests, and whether U.S. policy has been cost effective. We must seek to formulate a coherent and realistic policy toward El Salvador.

But we must also keep in mind a country and a people who have suffered deeply in this war. Families have been displaced and divided. People have been persecuted, tortured, and killed. Their interests would be well served by a negotiated solution and an end to the war and destruction.

There will be an election in El Salvador in March 1989. The people of El Salvador deserve a safe, legal election, free of fraud, intimidation, or violence.

El Salvador has been on the "back burner" for too long. And the costs of the war continue to rise.

BICENTENNIAL MINUTE

JULY 1, 1795: JOHN RUTLEDGE APPOINTED CHIEF JUSTICE

Mr. DOLE. Mr. President, 193 years ago this week, on July 1, 1795, President George Washington appointed John Rutledge, Chief Justice of the United States. Rutledge received only a temporary commission, however, for he was appointed during a Congressional recess, and the Senate had to consent to his nomination before he could attain permanent status.

Born to a wealthy South Carolina family, Rutledge served as a delegate to the Continental and Confederation Congresses, as Governor of South Carolina, and as a delegate to the 1787 Federal Convention. In 1789, President Washington nominated him senior associate justice of the newly formed U.S. Supreme Court. Although Rutledge accepted this post, he failed to attend any of the Court meetings and resigned in 1791 to become chief justice of the South Carolina Court of Common Pleas.

In 1795, anticipating that Chief Justice John Jay would accept the Governorship of New York, Rutledge wrote to the President to offer himself as a replacement. Washington responded enthusiastically and gave him a recess appointment on July 1. Two weeks later, on July 16, 1795, Rutledge delivered a speech in which he intemperately attacked the highly controversial Jay Treaty, which the President and the Senate's Federalist majority supported. This treaty settled numerous points of contention between the United States and Great Britain, but many viewed it as a surrender to the British. It is unclear whether Rutledge knew that Washington had just appointed him Chief Justice when he delivered his offensive speech. Aware of it or not, his imprudence cost him dearly.

When the Senate reconvened in December 1795, it rejected Rutledge by a vote of 10 to 14, its first such refusal of a Supreme Court Justice. While the whole story is not clear, Rutledge's untimely and harsh speech, as well as rumors that he was prone to bouts of insanity, severely damaged his cause.

UNITED STATES-SOVIET HIGH SCHOOL EXCHANGE INITIATIVE

Mr. BRADLEY. Mr. President, I want to take this opportunity to express my strong support for the United States-Soviet high school exchange initiative that President Reagan and General-Secretary Gorbachev announced at the end of their recent Moscow summit.

The initiative calls for an immediate exchange of 100 American and 100 Soviet high school students. By 1991, there will be as many as 1,500 students from each country, hopefully representing at least one school from each State and from many of the Soviet republics. The students will spend a semester studying in high schools, living in dormitories or with families throughout the United States and the Soviet Union.

Since language is essential for a true understanding of a foreign society, the program will have a language requirement for participating students. There are over 500 schools in this country that presently have Russian language courses, and another 300 have the potential to immediately begin teaching Russian. Language instruction will, of course, continue to be stressed during the semester abroad. Cultural events, too, will be an important part of the program and students will be encouraged to take advantage of what their host city has to offer. Additionally, the host school will arrange for at least one extended sightseeing and cultural events trip.

Currently, only three schools have similar exchanges: Phillips Academy in Andover has one with the Physics Mathematics Institute in Novosibirsk; Choate Rosemary Hall in Wallingford, CT, has one with Moscow School No. 18; and the McDonogh School has one with Odessa Schools No. 119. No public high school in the United States has an exchange program with a Soviet school and without the new initiative it is unlikely that one ever will.

The program, which will be administered in this country by the U.S. Information Agency, has already received the support of the American Council of Teachers of Russian and the National Association of Secondary School Principles. USIA hopes that other private sector groups will endorse the program, and it foresees the private sector eventually providing 75 percent of the necessary funding. To begin the program USIA has requested $1 million. I strongly support their request and hope that funds will be provided in the conference for this important effort.

Ignorance breeds fear and fear is destructive. We want our world, and the world of our children, to be a world of peace. It is the time to begin breaking down the barriers that separate our two peoples. Our children must learn to understand their Soviet counterparts, and Soviet children must learn to understand us. There is no better way to learn about a culture, and a people, than to be immersed in it for an extended period of time.

In proposing this initiative President Reagan and General-Secretary Gorbachev have shown that they want the children of both the United States and the Soviet Union to live in a world of mutual trust. I heartily support this initiative and I hope that Congress, too, will support it.

OSCAR ARIAS RECEIVES HONORARY DEGREE FROM HARVARD UNIVERSITY

Mr. KENNEDY. Mr. President, Harvard University distinguished itself last month when it awarded an honorary degree to President Oscar Arias of Costa Rica. We have all known of Oscar Arias' commitment to peace in Central America, and we have all admired his courage in pursuing that goal with such skill and determination and vision. And so we joined with all the world in honoring Oscar Arias when he received the Nobel Peace Prize last year, and, in particular, we applauded the wisdom and timeliness of that decision. For the same reasons, we should now join in commending Harvard for its decision to pay tribute to President Arias by giving him an honorary degree. There is no leader in the world today more worthy of receiving this important honor.

The citation on President Arias' degree described him as "A clear voice of peace and reason for our New World." After receiving his degree, President Arias provided immediate and direct evidence of the clarity of his voice by delivering a truly extraordinary speech at the commencement exercises.

It is impossible to read this speech without being impressed by Oscar Arias' compassion, his intelligence, his simple eloquence. When Oscar Arias rose to speak, the audience welcomed him with a standing ovation. But an even more stirring moment came when the audience rose a second time for a second standing ovation—spontaneously, enthusiastically—after he had completed his address. It is a speech for all seasons and for all peoples. It will be memorized and recited in the years to come. I urge my fellow Senators to take a moment to read it.

His hopes about peace for Central America deserve special attention.

> Time and again I am asked just what it is I am hoping for and how I think we can achieve realistic goals for Central America. What I am looking for is that the five nations of Central America be able to live out

their destinies in freedom, justice, peace, and harmony, internally and externally. I am convinced that democracy is the best means to achieve this. I look for a democracy that is marked by mutual respect, freedom to express one's opinion, a love for truth, and the active participation of all members of society in the building of the nation. I want our identity, our culture, to be understood and respected by all, even as we extend that respect to others.

We seek in Central America not peace alone, not peace to be followed someday by political progress, but peace and democracy, together, indivisible, an end to the shedding of human blood, which is inseparable from an end to the suppression of human rights. We do not judge, much less condemn, any other nation's political or ideological system which has been freely chosen. We cannot require sovereign states to conform to patterns of government not of their own choosing. But we can and do insist that every government respect those universal rights of man that have meaning beyond national boundaries and ideological labels.

I ask unanimous consent that the text of President Oscar Arias' speech at Harvard University—along with a news article reporting the event—be included at this point in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

"WE SEEK . . . NOT PEACE ALONE"

(By Oscar Arias)

(The President of Costa Rica, who won the Nobel Peace Prize last year, urges Harvard's newest graduates to take principled risks in the struggle to build a new world.)

This is a wonderful day for all of you. For your parents, for your friends, for your husbands and wives. You have worked hard for this moment. I am sure you have nourished beautiful dreams that you are now eager to transform into reality. This is a day to remember, and I am honored that you have asked me to share it with you. For you are today like a field where rain has just fallen. Your dreams shall blossom into a better world for all.

We have only a few pages to write before this century ends. You will be the most qualified witness to judge these one hundred years, where we have allowed, so far, 78 million people to die in wars and even more to die because they had nothing to eat. You will live most of your lives in the next century. You will be among the leaders with the responsibility to shape the twenty-first century.

The history of humanity has not known a single century of peace. The opportunity of writing a different history belongs to you.

The majority of young people in this world are neither here nor in the other university graduations. That majority, if they are lucky, got up early today to plow fields or to start up machines in factories. Others face a day of begging for food and water. Young people like yourselfs are dying in futile wars or barely subsisting with no hope.

The privilege of knowledge bears a social responsibility. Upon graduation, every student has an obligation to society. Your actions of the future must make a difference, must contribute to ease suffering in the world.

In an interdependent world your responsibilities will go beyond your country's frontiers. Pesticides or arms produced in some countries may kill elsewhere, and that has to stop. For you are not entering a predetermined world. If you want peace, you will have to construct it. If you do not want misery, you will have to eliminate it.

You will have to change twenty centuries of war into a century of peace. There are no geographical frontiers which limit the struggle for the rights of man, for liberty, for democracy, for development.

In his last report (1986-87), the president of this University, Derek Bok, called for a strengthening of ethical standards based on Plato's definition of the benefits of a good education—"that education makes good men, and that good men act nobly." He is right, for if we do not develop a new morale, if we do not have the courage to rule our actions by principles, we will be resigning our capacity for change. We will become prisoners of the past, accomplices of war, hunger, and oppression.

With each day that passes there are more weapons in the world and fewer trees. With each day that passes there is more hunger and less clean air. With each day that passes there are more drugs and less pure water. In my Central America, with each day that passes there are more soldiers and fewer students. Clearly, your commitment must be to reversing these trends and establishing a new world.

The first nuclear arms reduction accord has been signed. This is a road of hope whose construction we should all encourage. There is a Central American peace plan, which—despite enormous obstacles and despite the fact that so much remains to be done—has silenced the guns and opened newspapers. There are Soviet troops leaving Afghanistan. But cruel fighting still goes on in which brother kills brother, from the heights of Machu Picchu to the valleys of Ireland, from jungles to deserts and seas.

There is a South to be freed in Africa. There is a South to be freed in Latin America. There is a South eager for freedom in all cardinal directions. For you, for us, for every free man, the practice of principles knows no frontiers.

Above and beyond successes and failures, there are spaces of freedom won by men in every corner of the globe. There is a new world emerging everywhere, the result of the advances of freedom on all continents and within all political systems. We cannot betray the world of freedom that wants to rise up. If we want to construct the future, we cannot go on staring at the past.

In the nations of the Americas we need to encourage changes that can foster freedom. A long time ago armies in Latin America were considered to be guardians of freedom. Today they have become its jailers. We need to have the soldier put down his rifle and take up the plow. We need to have the soldier commit himself to the freedom of his nation and not to threaten its rights. We need to have the soldier recognize that two democracies have never made war on each other in the entire history of Latin America.

It is time we paid a tribute to commandantes who disarm their people so they can be free and work for development instead of honoring those who accumulate senseless weapons in the face of the hunger and submission of their fellow citizens. In Costa Rica we were fortunate enough to have such a commandante. His name is José Figueres, and he abolished our army forty years ago.

The abolition of the army in 1948 brought a new dimension to our political system. It constituted a new definition of the democracy we had inherited, in its classical mold, from our forefathers. It retained, strengthened, and enlarged the traditional concepts, rights, and institutions of our republic, that rich treasure of theory and practice decanted throughout the ages, rooted in the wisdom of classical Greece, drawing on the liberating spirit of the Reformation, the Enlightenment, the American Revolution, the French Revolution, and the struggles for independence of the Spanish colonies on this continent.

In the forty years that have gone by since then, all the countries of Latin America have experienced military dictatorship—and some are still suffering under them today. Not Costa Rica. Our freedoms were never threatened, and we have never known the humilitation of a destiny controlled by force.

In these forty years, all our brother nations have seen the young student, the peasant, and the worker die in cruel and useless slaughter perpetrated by men under arms. In our homeland, not a single mother has wept at the death of her son because of the arrogance of a soldier or the blindness of a tyrant.

In these forty years, millions of Latin Americans have known exile, have suffered torture, imprisonment, and death at the hands of dictators. No Costa Rican has ever left his country and not been able to return freely to it. No one among us has ever been imprisoned for expressing his ideas; no one has ever been tortured, and no one has ever been killed.

In these forty years, in which the military barracks have been transformed into schools, our symbol has been the teacher who exalts intelligence, not the soldier who tramples down his own people.

When we proposed a peace plan to our Central American brothers we spoke from the heart. We brought a message born out of our intimate knowledge of the substance of power practiced without arms: a message born out of our forty-year-old commitment to building a society whose members do not fear violence as the ultimate recourse of authority: a message born out of a new reading of the concept of democracy.

Time and again I am asked just what it is I am hoping for and how I think we can achieve realistic goals for Central America. What I am looking for is that the five nations of Central America be able to live out their destinies in freedom, justice, peace, and harmony, internally and externally. I am convinced that democracy is the best means to achieve this. I look for a democracy that is marked by mutual respect, freedom to express one's opinion, a love for truth, and the active participation of all members of society in the building of the nation. I want our identity, our culture, to be understood and respected by all, even as we extend that respect to others.

We seek in Central America not peace alone, not peace to be followed someday by poltiical progress, but peace and democracy, together, indivisible, an end to the shedding of human blood, which is inseparable from an end to the supression of human rights. We do not judge, much less condemn, any other nation's political or ideological system which has been freely chosen. We cannot require sovereign states to conform to patterns of government not of their own choosing. But we can and do insist that every government respect those universal rights of man that have meaning beyond national boundaries and ideological labels.

We believe that justice and peace can only thrive together, never apart. A nation that mistreats its own citizens is more likely to mistreat its neighbors.

While fundamental freedoms must be guaranteed in every society in the world, the expression of them will be shaped by the culture of a nation and a people. We in Central America are convinced that our culture is a major source for the values that give shape and meaning to our lives. A few weeks ago, in Lima, Peru, Pope John Paul II said: "Without values, there is no real possibility of building a truly human society, since values determine not only the personal sense of life but also the policies and strategies of public life. A culture that has lost its foundation of supreme values must necessarily turn against the person."

We are conscious of the truth of these words. We have a sense of our identity. It is an identity born of the spiritual, ethical, and human traditions that have formed us. It has been confirmed in the several histories that portray the struggle of the five Central American nations to forge their own life and their own destinies.

Many times I have asked myself, what can a small country like Costa Rica do to help to solve problems that seem so big and so far beyond our reach? When I compare my country with other nations, I am convinced that ideas will prevail over might. Twenty-three years ago, here at Memorial Church, the Reverend Paul Tillich gave his last sermon. He told us that humanity has a "right to hope." We have dreams and we have hopes. But our ideas and our hopes must turn into realities, otherwise they will always remain as dreams.

To promote change, to work for a dream, means that we have to be prepared to take risks. When in Costa Rica we abolished the army, most people thought we were wrong and that that was an impossible dream. Out of that risk we enjoy now a very different country in Central America. When we proposed the peace plan for Central America, many people thought we were wrong and that that was an impossible dream. Out of that risk we now have a chance for peace, and guns have been silenced in Nicaragua for the first time in twenty years.

Don't ever fear the risks you will have to take to build a different world. Don't ever fear the risks when you are acting on your own principles. You will soon learn that accommodation with the old world, a world where you see violence and injustice, poverty and submission, offers no reward. The dreams that you allow to die will not be replaced. Martin Luther King Jr. once said that "our scientific power has outrun our spiritual power. We have guided missiles and misguided men." I have seen many times men who abandoned their dreams; I have seen those misguided men who believe they can solve all problems with guided missiles. These are men without values, and the world cannot afford their leadership into the twenty-first century.

The return to a life and a world dominated by values is urgent if we want peace to prevail. We should no longer be ashamed of feelings of piety. It is not true that they degrade reason and science. Piety is no less than the intelligence of the soul, and we need heart and brains to recover the world in our hands, for the values we cherish.

Nobody can ignore the problems of today, least of all intellectuals. Now more than ever, my friends, you shall have to bear the loneliness of being leaders. Now more than ever, we need to recover the faith in our shared values. Like never before, we ought to build again, leaving behind the easy temptations of those who destroy. We require builders, men and women of vision and tenacity. We must commit ourselves to transform privileges into rights for all, and never to convert the sweat of all into the privileges of the few.

Among all the values we have to restore in order to provide a new leadership, peace is the one we should never neglect even under the most desperate circumstances. I have said many times that peace is not a matter or prizes or trophies. It is not the product of a victory or command. It has no finishing line, no final deadline, no fixed definition of achievement.

Peace is a never-ending process, the work of many decisions by many people in many countries. It is an attitude, a way of life, a way of solving problems and resolving conflicts. It cannot be forced on the smallest nation or be enforced by the largest. It cannot ignore our differences or overlook our common interests. It requires us to work and live together.

My dear friends, I enjoyed being a summer student at Harvard many years ago. Although I would have loved to have been a degree candidate here, I did my graduate studies at a British university. Today I have had the honor to receive a Harvard degree. I think it would have been easier for me to study and take my exams like all of you. Instead, believe me, I got it the hard way.

Five thousand five hundred and twenty-six students have received degrees here today. Among those, five are Costa Ricans—well, six, including me. We will return home now to take up the challenges ahead. Don't ever abandon your dreams. If you believe now that one poet has more vision than all the politicians, don't change that belief. Go out and take risks to achieve that vision. Together, we will be proven right!

[From The Boston Globe, June 10, 1988]

PURSUE PEACE, ARIAS URGES HARVARD GRADS

(By Charles A. Radin)

CAMBRIDGE.—Costa Rican President Oscar Arias yesterday told graduating Harvard students they must commit themselves to causes of peace and social justice, but university president Derek Bok said they probably would not.

In a stirring address marking Harvard's 337th commencement. Arias, who won the Nobel Peace Prize last year for his efforts to bring harmony and stability to Central America, sounded more the poet than the politician as he declared:

"With each day that passes there are more weapons in the world and fewer trees. With each day that passes there is more hunger and less clean air. With each day that passes there are more drugs and less pure water.

"In my Central America, with each day that passes there are more soldiers and fewer students. Clearly, your commitment must be to reversing these trends and establishing a new world."

An estimated 16,000 graduates, faculty, alumni and their families listened appreciatively despite the chilly drizzle falling on Harvard Yard and, responding to his intensity, interrupted him frequently with applause.

"Don't ever fear the risks you will have to take to build a different world," Arias said, citing the benefits Costa Rica has enjoyed for having dared to disarm 40 years ago. "You will soon learn that accommodation with the old world, world where you see violence and injustice, poverty and submission, offers no reward.

"The dreams that you allow to die will not be replaced."

Just before Arias spoke, Harvard's president delivered, in his annual report to the univeristy's alumni, as assessment of students' directions that cast grave doubt that many would heed the Costa Rican's call.

Describing himself as questioning the sincerity and seriousness of the American intelligentsia's commitment to solving national problems, Bok said: "Let us consider our own Harvard students."

Less than 2 percent of Harvard Law School graduates enter public interest or legal aid work, he said, and only slightly more law school graduates enter politics.

"In the business school, only 22 percent of last year's class went into manufacturing while 57 percent"—twice as many as a decade ago—became consultants and investment bankers.

"From the Kennedy School of Government, only a third of the graduates went where you might expect them to go—to take some sort of government job. More than half found work in the private sector."

Among graduates of Harvard College, he said, "less than 2 percent plan to teach in the public schools and virtually none are interested in the ministry for which the college was founded."

Bok said that "nationwide the situation is not very different. In short, the career plans of our students, at Harvard and elsewhere, do not fit very closely with society's most pressing needs."

Both Arias and Bok called for a return to values espoused by leaders who had preceeded them at Harvard.

Bok cited President Franklin D. Roosevelt's urging, at a commencement more than 50 years ago, for students to live life "unceasingly aware that its civic significance is its most abiding," while Arias held up the memory of a Costa Rican president and revolutionary who taught at Harvard.

"It is time we paid tribute to commandantes who disarm their people so they can be free and work for development, instead of honoring those who accumulate senseless weapons in the face of the hunger and submission of their fellow citizens," he asserted. "In Costa Rica we were fortunate enough to have such a commandante. His name is Jose Figueres and he abolished our army 40 years ago."

His is the only country in the region that has not experienced dictatorship, the only country where "not a single mother has wept at the death of her son because of the arrogance of a soldier or the blindness of a tyrant."

"In these 40 years . . . no Costa Rican has even left his country and not been able to return freely to it. No one among us has ever been imprisoned for expressing his ideas; no one has ever been tortured and no one has ever been killed."

He summed up by declaring—in agreement with Bok, and in contradiction of remarks by social critic Tom Wolfe at Class Day exercises Wednesday—that "the return to a life and a world dominated by values is urgent if we want peace to prevail."

"We should no longer be ashamed of feelings of piety. It is not true that they degrade reason and science."

While Wolfe pronounced the death of religion and ordinary moral standards to a delightedly irreverent senior class, Arias and Bok, in the same forum before Memorial Church, addressed their counterpoints as much to the tailcoated, top-hatted Harvard alumni as to the students in the Yard.

In the end, students' decisions to be narrowly self-interested or to enter public service "will be shaped by forces in society that reflect our decisions, our priorities, our decisions," Bok told the alumni, reminding them that they have the ability to improve the low salaries and scant prestige now attending many vital government and teaching jobs.

"We should avoid the hypocrisy of urging students to address the gravest problems of society while perpetuating conditions which make it very difficult for them to do so," he said.

TONY BEVINETTO

Mr. HATFIELD. Mr. President, before this week comes to a close, I want to join my colleagues, Senators JOHNSTON, McCLURE, and others who have paid tribute this week to one of the Senate's true heros—Tony Bevinetto.

Tony Bevinetto came to the Committee on Energy and Natural Resources when I was ranking member and I signed the papers putting Tony on our payroll. But I should point out that Tony was already developing an expertise on public lands issues because he had been working for Senator Hansen and therefore with committee staff for some time—we sort of stole him for the good of the committee and our move paid off. From those days to his last days, Tony Bevinetto was one class act. If he told you anything about public lands history or policy, you didn't have to check his sources or get a second opinion because Tony Bevinetto did his homework, knew his issues, and conducted himself in a fashion that has left everyone deeply impressed. Tony was humble and soft-spoken; he laughed, he said yes when he meant yes, and no when he meant no, and he avoided the alluring trap that snares many in political life of telling people what they want to hear. He was devoted to the truth in his work and while he was a gentleman, he was as tough as you could get when he felt an individual Senator's proposal was at odds with sound public lands management policy.

There is always a tendency when paying tribute to a good friend who has passed away to exaggerate their strong points and not to mention things that might cast them in a less favorable light. But such a tribute would make Tony cringe. I used to kid Tony about the fact that he dressed like a walking thrift shop, and about his dietary habits which made pizzas live in mortal fear of him. And Tony would laugh and usually come back with a good rejoinder, and it was this ability of his to laugh at himself and with others that made him so popular with so many.

And I will be blunt—the citizens of the United States who enjoy the millions of acres of wilderness which have been set aside the last decade owe a debt of gratitude to Tony Bevinetto and his hidden work on behalf of these bills. I have so many memories of working with him. Whether it was the Alaska lands legislation, or the 1984 timber contract relief bill, or the 1986 Wilderness Act, Tony was there fine-tuning and perfecting the provisions of these bills which now make fine public laws.

So I will miss Tony, professionally but even more so, personally. I had the privilege of talking to him at his home a few weeks ago when he had been released from the hospital, and he showed a great deal of courage in being able to be very positive and encouraging in the face of terminal cancer. We shared a few laughs and I told him to hurry back and help us get the Oregon Scenic Rivers bill through the Senate and to the President's desk. While he won't be here for that battle, I will think of him often and probably pick up the telephone and try to reach him when it's time to collect committee proxies.

To his wife, Elsie, and his two children whom he loved so much, I offer my prayers and my affection and condolences. God smiled on this Earth when he gave us Tony Bevinetto for 57 years, and we all have been richly blessed.

THE DEATH OF PIETRO ANTONIO BEVINETTO

Mr. WALLOP. Mr. President, when Tony Bevinetto lost his battle with cancer on Sunday, July 3, America lost one of her most knowledgeable experts on public lands, resources and water, the Energy and Natural Resources Committee lost a truly great staff member, the State of Wyoming a beloved son and I lost a cherished friend and most trusted counselor.

A native of Cheyenne, WY, Tony's contributions to our State were innumerable. A graduate of the University of Wyoming, he began his career as advertising director of the Laramie Newspapers Inc., in Laramie, WY and went on to become the assistant director of the Wyoming Travel Commission.

But it was when he joined the National Park Service that Tony really was united with his great love of the land. As a management assistant in Grand Teton National Park in Jackson Hole, WY for 4 years, his love for the land only deepened in its breadth and intensity. One cannot live within the shadows of the Grand Teton Mountains and not succumb to their beauty and their strength. To do that would be inhuman, and Tony Bevinetto was certainly a very beautiful and a very human, human being.

One can note the incredible scope of his lengthy record of accomplishments, but these have been well detailed by others who have spoken before me. Because to me, one of Tony's greatest accomplishments, and one that will live on long after all of us are gone, is the legislation that created the 800,000-plus acres of Wyoming wilderness in 1984. This was one of Tony's greatest acts of love for his country and his State and my State of Wyoming.

It was one of his finest and most difficult labors for me, and one for which I will be forever grateful. It is not just his Wyoming home which benefited from Tony's expertise and special qualities. People throughout the Nation who love the land and water and natural resources are the true beneficiaries of Tony's work on the Senate Energy Committee, and in the Park Service.

I did not want to come down to the floor to talk only about Tony's work. For all who knew Tony, and there were many, they knew one of his finest qualities was his sense of humor, which was part and parcel of the twinkle in his eye when he would grab you in the hall or lean over during a committee hearing and say, "Hey, Senator, have you heard the one about * * *?" Or when you would spot him in his car, always identified by his Jackson Hole plates and a canoe that was usually twice as big as his car, and four times as big as he was. Tony had a way to make the most unpleasant task a cheerful one. We will miss Tony and his sense of humor, his laughter and especially his wise counsel.

Mr. President, perhaps more than the politicians he worked for, Tony was the ultimate politician. His greatest role, and now his legacy as an Energy Committee staff member, was his ability to help forge bipartisan agreements on pieces of legislation that could best be described as disagreeable. Tony had a true knack for finding that middle ground, where both Republicans and Democrats could claim victory and walk away smiling, and the victor was America. We all will miss his political skills, his ability to get those tough issues resolved and his institutional memory on public lands issues.

Mr. President, my heart and my profound sympathies go out to Tony's wife Elsie and daughters Kirsten and Libby. We truly share their sense of loss and their grief. He was a fine and an honest man, and we miss him.

Mr. President, I ask unanimous consent to have printed in the RECORD a letter from J. Jackson Walter, president of the National Trust for Historic Preservation, on the death of Tony Bevinetto.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

NATIONAL TRUST FOR HISTORIC PRESERVATION,
July 6, 1988.

Hon. MALCOLM WALLOP,
Ranking Minority Member, Subcommittee on Public Lands, National Parks and Forests, Committee on Energy and Natural Resources, U.S. Senate, Washington, DC.

DEAR SENATOR WALLOP: Those of us at the National Trust for Historic Preservation who had the opportunity to work with Tony Bevinetto over the years were greatly saddened to learn of his death. I hope that you will convey our deepest sympathies to his family, friends, co-workers and your many colleagues whom he served so ably.

In service to the nation as a member of the armed forces, an employee of the National Park Service and as an aide to the Committee, Tony exemplified the best qualities of a public servant. His advice and support to those of us in the historic preservation field during his tenure with the Committee was invaluable. Tony believed deeply in the nation's commitment to preserve and protect our heritage of natural and cultural landmarks. We will miss greatly his cooperative spirit and enthusiasm.

I know that we join with many others who had the privilege of knowing Tony in celebrating a great career of public service. We will miss Tony B.

Sincerely,
J. JACKSON WALTER,
President.

Mr. WALLOP. I say, go with God, old partner. Your family and your friends will miss you, but we are all the richer for having had you with us—and so too is Wyoming and the great American public land resource. Thank you, Tony.

Mr. FORD. Mr. President, I wish to associate myself with the remarks of the distinguished Senator from Wyoming. Tony was a friend of all of those who served on the committee, regardless of being Democrat or Republican.

We all enjoyed him. He was one, as Senator WALLOP said, "Who could work a magic among those with a disagreeable position." He had something that we all admired and we will miss him very much.

He never looked at me as a Democrat and he never looked at Senator WALLOP as a Republican. He looked at the legislation and what it would do for the land and what it would do for the country.

I will miss him, as others will miss him. I have not known him quite as long, but my association with Tony was, I think, sincere, it was happy, and it was always toward the goal of a better land and a better country, not necessarily for himself, but for his daughters and for our children and their children.

So I just want to associate myself with the remarks of the distinguished Senator from Wyoming.

Mr. WALLOP. I thank the Senator from Kentucky. He has characterized it brilliantly. What Tony was, better than any of the rest of us, was a knowledgeable expert who put his job in front of either of our parties and I think we all benefited from that.

CONCLUSION OF MORNING BUSINESS

Mr. BYRD. Mr. President, has morning business been closed?

The PRESIDING OFFICER. It has. The time for morning business has expired.

ORDER OF PROCEDURE

Mr. BYRD. Are there not measures on the calendar of bills and joint resolutions over?

The PRESIDING OFFICER. There are two items on that calendar, I say to the majority leader.

THE FAIR HOUSING AMENDMENTS ACT OF 1988

The PRESIDING OFFICER. The clerk will now read H.R. 1158 the second time.

The assistant legislative clerk read as follows:

A bill (H.R. 1158) to amend title VIII of the Act commonly called the Civil Rights Act of 1968, to revise the procedures for the enforcement of fair housing, and for other purposes.

Mr. BYRD. Mr. President, in fulfilling the rule XIV procedure, I object to any further proceedings on this matter at this time.

The PRESIDING OFFICER. Objection having been heard, the bill will be placed on the calendar.

OMNIBUS TRADE AND COMPETITIVENESS ACT OF 1988

The PRESIDING OFFICER. The clerk will now read S. 2613.

The assistant legislative clerk read as follows:

A bill (S. 2613) to enhance the competitiveness of American industry, and for other purposes.

Mr. BYRD. Mr. President, to further the procedures under rule XIV, I object to any further proceedings on this bill at this time.

The PRESIDING OFFICER. Objection having been heard, the bill will be placed on the calendar.

Mr. BYRD. I thank the Chair.

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT—FISCAL YEAR 1989—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order the Senate will now resume consideration of the conference report on H.R. 4567 which the clerk will report.

The assistant legislative clerk read as follows:

Conference report on a bill (H.R. 4567) making appropriations for energy and water development for the fiscal year ending September 30, 1989 and for other purposes.

The Senate resumed consideration of the conference report.

Mr. CHILES. Mr. President, the Senate Budget Committee has examined, H.R. 4567, the conference report on the energy and water development appropriations bill and has found that the bill is under its 302(b) budget authority allocation by $102 million and under its 302(b) outlay allocation by $111 million. The bill scoring reflects an adjustment for Nuclear Regulatory Commission fees language that was agreed upon in the conference on the budget resolution.

I compliment the distinguished manager of the bill, Senator JOHNSTON, and the distinguished ranking member of the Energy and Water Subcommittee, Senator HATFIELD on all their hard work.

Mr. President, I have a table from the Budget Committee showing the official scoring of the energy and water development appropriations bill and I ask unanimous consent that it be inserted in the RECORD at the appropriate point.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

SENATE BUDGET COMMITTEE SCORING OF H.R. 4567
ENERGY AND WATER—SPENDING TOTALS

[Conference Report in billions of dollars]

	Fiscal year 1989	
	Budget authority	Outlays
302(B) Bill Summary		
H.R. 4567, Conference Report (new BA and outlays)	16.6	10.2
Enacted to date		6.2
Adjustment to conform mandatory programs to resolution assumptions	0.1	0.1
Scorekeeping adjustments	0.1	0.1
Bill total	16.7	16.6
Subcommittee 302(b) allocation	16.8	16.7
Difference	−0.1	−0.1
Bill total above (+) or below (−):		
President's request	−0.3	−0.3
House-passed bill	+(1)	+(1)
Senate-passed bill	−0.2	−0.1
Summit Cap Summary		
Defense (050) spending in bill	8.1	7.9
Allocation under defense cap	8.1	7.9
Difference	0.0	−(1)
Domestic discretionary spending in bill	9.9	9.9
Allocation under domestic cap	10.0	10.0
Difference	−0.1	−0.1

[1] Less than $50 million.

Details may not add to totals due to rounding.

Source: Prepared by Senate Budget Committee Staff.

Mr. DOMENICI. Mr. President, I rise in strong support of the conference agreement on the energy and water development appropriations bill.

I commend the distinguished subcommittee chairman, the Senator from Louisiana, and the ranking minority member, my good friend from Oregon, for producing a bill within the constraints of the Budget Summit Agreement and below the subcommittee's 302 (b) allocation.

Besides producing a bill well within our budget constraints, the managers completed action on this bill in a remarkably short period of time.

The bill now before the Senate provides $16.6 billion in budget authority and $10.2 billion in outlays for Department of Energy [DOE] atomic energy defense activities, DOE's renewable and nuclear energy activities, the Corps of Engineers, the Bureau of Reclamation, and six other independent agencies and commissions.

Taking into account outlays from prior-year budget authority and other adjustments, the Energy and Water Development Subcommittee is below its section 302(b) allocation by $0.1 billion in budget authority and outlays.

I appreciate the subcommittee's support for a number of ongoing projects and programs important to my home State of New Mexico as it worked to keep spending to within the constraints of the bipartisan budget agreement.

I know it required hard work by the subcommittee members and staff to fashion its recommendations within budget constraints. In fact, during the full committee's consideration and conference negotiations on the bill, the distinguished subcommittee chairman had to reduce budget authority in the bill by $200 million.

I hope that the Senate will act without delay to pass this important bill.

Mr. BYRD. Mr. President, may I comment that this is a 15-minute rollcall vote by unanimous consent and the call for the regular order will be automatic.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from North Carolina [Mr. SANFORD], is necessarily absent.

I also announce that the Senator from Delaware [Mr. BIDEN] is absent because of illness.

Mr. SIMPSON. I announce that the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Nevada [Mr. HECHT], the Senator from North Carolina [Mr. HELMS], and the Senator from Alaska [Mr. MURKOWSKI] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 91, nays 3, as follows:

[Rollcall Vote No. 226 Leg.]

So the conference report on H.R. 4567 was agreed to.

Mr. JOHNSTON. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. McCLURE. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senate will come to order.

◆

MINORITY BUSINESS DEVELOPMENT PROGRAM REFORM ACT

The PRESIDING OFFICER. Under the previous order, the Senate will now proceed to consideration of S. 1993, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1993) to amend the Small Business Act to improve the growth and development of small business concerns owned and controlled by socially and economically disadvantaged individuals, especially through participation in the Federal procurement process, and for other purposes.

The Senate proceeded to consider the bill with an amendment to strike all after the enacting clause and insert in lieu thereof, the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Minority Business Development Program Reform Act of 1988".

SEC. 2. TABLE OF CONTENTS.

TITLE I—CONGRESSIONAL FINDINGS AND PROGRAM PURPOSES

Sec. 101. Findings.
Sec. 102. Purposes.

TITLE II—PROGRAM ORGANIZATION, ELIGIBILITY, AND PARTICIPATION

Sec. 201. Office of Minority Small Business Certification.
Sec. 202. Eligibility and certification.
Sec. 203. Graduation standards.
Sec. 204. Termination.
Sec. 205. Challenging eligibility.
Sec. 206. Provisions for tribal-owned enterprises.

TITLE III—ENHANCING THE PROGRAM'S BUSINESS DEVELOPMENT ASPECTS

Sec. 301. Business plans.
Sec. 302. Competitive bid and proposal cost program.
Sec. 303. Management assistance.
Sec. 304. Minority business direct loan program.

TITLE IV—BUSINESS DEVELOPMENT THROUGH FEDERAL CONTRACTING OPPORTUNITIES

Sec. 401. Development of business mix emphasizing competitive contract awards.
Sec. 402. Planning 8(a) contract activity.
Sec. 403. Contract awards.
Sec. 404. Contract performance.
Sec. 405. Appeal of agency decision regarding 8(a) contract opportunities.

TITLE V—IMPROVED PROGRAM MANAGEMENT AND CONGRESSIONAL OVERSIGHT

Sec. 501. Associate Administrator for Minority Small Business and Capital Ownership Development.
Sec. 502. Prohibited actions and employee responsibilities.
Sec. 503. False representations.
Sec. 504. Report by program participants.
Sec. 505. Data collection and congressional report.
Sec. 506. Definitions.

TITLE VI—ANNUAL CONTRACT PARTICIPATION GOALS; REPORT; AUTHORIZATIONS

Sec. 601. Annual contracting goals.
Sec. 602. Presidential report on attainment of participation goals.
Sec. 603. Subcontracting program compliance.
Sec. 604. Relationship with other procurement programs.
Sec. 605. Authorizations.

TITLE VII—SMALL BUSINESS COMPETITIVENESS DEMONSTRATION PROGRAM

PART A—SHORT TITLE AND FINDINGS

Sec. 701. Short title.
Sec. 702. Findings.

PART B—DEMONSTRATION PROGRAM

Sec. 711. Small Business Competitiveness Demonstration Program.
Sec. 712. Small business participation goals.
Sec. 713. Procurement procedures.
Sec. 714. Reporting of subcontracting activity.
Sec. 715. Test plan.
Sec. 716. Report to Congress.
Sec. 717. Designated industry groups.
Sec. 718. Definitions.

PART C—AMENDMENTS TO THE SMALL BUSINESS ACT

Sec. 721. Small business small purchase reserve excluded from annual goals.
Sec. 722. Repealer.

PART D—OTHER AMENDMENTS

Sec. 731. Definition of architectural and engineering services.

Sec. 732. Effective date.

TITLE VIII—EFFECTIVE DATES

Sec. 801. Effective dates.

TITLE I—CONGRESSIONAL FINDINGS AND PROGRAM PURPOSES

SEC. 101. FINDINGS.

The Congress finds that—

(1) the Small Business Administration section 8(a) minority small business program remains a primary tool for improving opportunities for minority-owned businesses in the Federal procurement process and bringing these businesses into the nation's economic mainstream;

(2) in spite of all efforts, too few 8(a) graduates have been prepared by the program to compete successfully in the open marketplace on competitive procurements and many firms have developed an unhealthy dependency on sole-source contracts by the time of graduation from the program;

(3) the application and certification process for bringing new participants in the program is inordinately lengthy and burdensome;

(4) the Small Business Administration has often not efficiently and equitably administered and managed the program, in a manner that provided clear lines of responsibility for implementing and monitoring many of the administrative duties under the program;

(5) many Federal procuring agencies have failed to identify and offer the necessary amount of contract support in order to allow for diversification and growth of minority-owned businesses participating in the program;

(6) both contract support as well as business development expense have been provided by SBA to too few firms, while many other firms have received little or no direct assistance under the program;

(7) the wide-spread perception of undue political influence in the operation and administration of the 8(a) program has significantly contributed to the program's poor image and has deterred utilization of the program both by socially and economically disadvantaged concerns and by Federal procuring agencies; and

(8) it is imperative that substantial reforms be accomplished in the 8(a) program in order to promote the Congressionally mandated business development objectives and purposes of the program.

SEC. 102. PURPOSES.

The purposes of this Act are to—

(1) ensure that the benefits of the section 8(a) program accrue to small businesses owned and controlled by individuals who are both socially and economically disadvantaged;

(2) reaffirm the business development objectives and purposes of the program to ensure that concerns graduating from the program will be better prepared to compete in this nation's economic mainstream;

(3) increase the number of minority-owned small businesses from which the United States may purchase articles, equipment, supplies, services, materials, and construction work; and

(4) ensure integrity, competence and efficiency in the administration of both business development services and management and distribution of Federal contracting opportunities to eligible small businesses.

TITLE II—PROGRAM ORGANIZATION, ELIGIBILITY, AND PARTICIPATION

SEC. 201. OFFICE OF MINORITY SMALL BUSINESS CERTIFICATION.

Section 7(j)(11) of the Small Business Act (15 U.S.C. 636(j)(11)) is amended to read as follows:

"(11)(A) There is established within the Office of Minority Small Business and Capital Ownership Development a Division of Minority Small Business Certification which shall exercise the responsibilities and functions specified in subparagraph (B). The Division shall be administered by a Director who shall be responsible to the Associate Administrator for Minority Small Business and Capital Ownership Development. To facilitate the timely exercise of the Division's responsibilities and functions, an office of the Division shall be established in each regional office of the Administration.

"(B) The responsibilities and functions of the Division of Minority Small Business Certification, to be exercised through its regional offices, shall be to—

"(i) receive applications for certification as Program Participants from small businesses owned and controlled by socially and economically disadvantaged individuals, and notify such applicant in writing within 15 days of the receipt of such application whether such application is complete and suitable for evaluation or whether specific deficiencies make such application unsuitable for evaluation at that time;

"(ii) review and evaluate applications required of prospective Program Participants;

"(iii) visit the offices and facilities of such applicants when appropriate to evaluate applications;

"(iv) make recommendations regarding certification of a prospective Program Participant to the Director;

"(v) review periodically the financial and other reports of each Program Participant to confirm its continued Program eligibility;

"(vi) review finance and other reports whenever a Program Participant initiates any change in ownership interest or other change which could impair continued Program eligibility;

"(vii) initiate through the Director a request for a termination proceeding with respect to a Program Participant deemed to have met one or more of the grounds for termination set forth in paragraph 10(H); and

"(viii) decide protests regarding Program Participants' eligibility under paragraphs (4), (5), (6), and (7) of section 8(a) to participate in the program authorized by this subsection.".

SEC. 202. ELIGIBILITY AND CERTIFICATION.

(a) IN GENERAL.—Section 7(j)(10) of the Small Business Act (15 U.S.C. 636(j)(10)) is amended by adding at the end thereof the following new subparagraphs:

"(D)(i) The Associate Administrator for Minority Small Business and Capital Ownership Development shall consider applications received from the Director of the Division of Minority Small Business Certification and process such applications in accordance with subparagraph (E) of this paragraph.

"(ii) Except as provided in subparagraph (F), a small business concern certified as a Program Participant shall not be eligible to participate in the Program for a period in excess of 8 years, commencing on the date of the award of its first contract under the authority of section 8(a).

"(E)(i) Not later than 90 days after receipt of a completed application for Program certification, the Associate Administrator for Minority Small Business and Capital Ownership Development shall issue a certificate as a Program Participant to a small business concern which is owned and controlled by socially and economically disadvantaged individuals as determined in accordance with paragraphs (4), (5), (6), and (7) of section 8(a), or deny such application. An application may not be denied solely on the basis of a determination by the Administration that adequate numbers of noncompetitive contract opportunities are not likely to be available to support the development of the firm during its Program Participation Term.

"(ii) If an applicant is denied certification, the Associate Administrator for Minority Small Business and Capital Ownership Development shall notify the applicant in writing, specifying the reasons for such denial and advising the applicant of the right to request a hearing to contest such denial before the Office of Hearings and Appeals in accordance with the procedures established by such Office. If the Office of Hearings and Appeals sustains such denial, no new application may be accepted for a period of one year from the date of the decision of the Office of Hearings and Appeals.

"(iii) The Associate Administrator, in conjunction with the Director, shall develop procedures and guidelines to minimize the paperwork and reduce the time associated with the certification process.

"(F)(i) Any small business concern participating in the Program authorized under this section and eligible for award of contracts under the authority of section 8(a) on the effective date of this section shall be deemed to be a Program Participant on such date.

"(ii) Such Program Participant may continue in the Program for a period of time which is the greater of—

"(I) 8 years less the number of years since the award of such small business concern's first contract under section 8(a), or

"(II) the unexpired portion of its Program Participation Term established in accordance with this section.

"(iii) This section shall not be deemed to create any Program eligibility for a small business concern owned and controlled by socially and economically disadvantaged individuals, if such concern was—

"(I) graduated from the Minority Small Business and Capital Ownership Development Program by reason of the expiration of its Program Participation Term,

"(II) terminated from participation in the Program authorized by this section pursuant to subparagraph (H), or

"(III) deemed otherwise ineligible to receive assistance under this section or for the award of a contract under the authority of section 8(a).".

(b) 51 PERCENT OWNERSHIP TEST.—Section 8(a)(4)(A) of the Small Business Act (15 U.S.C. 637(a)(4)(A)) is amended to read as follows:

"(4)(A) For the purposes of this section, the term 'socially and economically disadvantaged small business concern' means any small business concern which meets the requirements of subparagraph (B) and—

"(i) which is not less than 51 percent unconditionally owned by—

"(I) one or more socially and economically disadvantaged individuals, or

"(II) an economically disadvantaged Indian tribe, or

"(ii) in the case of any publicly owned business, not less than 51 percent of the stock of which is unconditionally owned by—

"(I) one or more socially and economically disadvantaged individuals, or

"(II) an economically disadvantaged Indian tribe.".

(c) PERSONAL NET WORTH.—Section 8(a)(6) of the Small Business Act (15 U.S.C. 637(a)(6)) is amended by adding at the end the following new sentences: "The Administrator shall establish a threshold or thresholds of personal net worth for socially disadvantaged individuals (exclusive of the value of the program participant owned by the socially disadvantaged individual or investments in such program participant). A personal net worth in excess of the value set by the Administrator shall be presumed to indicate a lack of economic disadvantage.".

(d) ELIGIBILITY CERTIFIED ANNUALLY.—Section 8(a)(8) of the Small Business Act (15 U.S.C. 637(a)(8)) is amended by striking "All determinations" and inserting: "Each program participant shall certify, on an annual basis, that it meets the standards of paragraphs (4), (5), and (6) and is eligible for continued program participation. All determinations".

SEC. 203. GRADUATION STANDARDS.

Section 7(j)(10) of the Small Business Act (15 U.S.C. 636(j)(10)), as amended by section 202, is amended by adding at the end thereof the following new subparagraph:

"(G) A Program Participant certified as eligible to receive assistance under the authority of this section and eligible to receive contracts under section 8(a) of this Act may be graduated if such Program Participant—

"(i) has been a participant in the Program for the period prescribed by subparagraph (D)(ii) or (F) of this paragraph,

"(ii) has exceeded the applicable size standard established by the Administration pursuant to section 3 of this Act,

"(iii) has achieved its business goals and objectives as specified in its most recent business plan established pursuant to subparagraphs (A) and (D) and elects to graduate prior to the expiration of its Program Participation Term, or

"(iv) is no longer owned and controlled by an individual or individuals who are determined to be economically disadvantaged.

For purposes of this Act, the term 'graduated' or 'graduation' means that the Program Participant is recognized as successfully completing its Program Participation Term and is no longer eligible to receive assistance pursuant to this section or eligible to receive an award of a contract under section 8(a).".

SEC. 204. TERMINATION.

Section 7(j)(10) of the Small Business Act (15 U.S.C. 636(j)(10)), as amended by section 203, is amended by adding at the end thereof the following subparagraphs:

"(H) The Administration, in accordance with subparagraph (I), may terminate a Program Participant's eligibility for this Program and the program under section 8(a) prior to graduation, based on good cause, if—

"(i) such Program Participant—

"(I) fails to conform to the criteria for eligibility as a socially and economically disadvantaged small business concern,

"(II) has a consistent pattern of delinquent performance or termination for default with respect to contracts awarded under the authority of section 8(a) of this Act,

"(III) has a consistent pattern of failing to make required submissions or responses to the Administration in a timely manner,

"(IV) is debarred by any contracting agency pursuant to the subpart 9.4 of title 48, Code of Federal Regulations (or any successor regulation), or

"(V) willfully violates rules and regulations promulgated by the Administration; or

"(ii) any of the owners or officers of such Program Participant are convicted of embezzlement, theft, forgery, bribery, falsification or any other offense indicating a lack of business integrity.

This subparagraph shall not apply in the event that a Program Participant has been found to have violated the provisions of section 16 (d) or (f). For purposes of this Act, 'terminated' or 'termination' shall mean the total denial of assistance pursuant to this paragraph or section 8(a) prior to graduation (as described in subparagraph (G)) or prior to the time prescribed by subparagraph (C)(ii).

"(I) The Director of the Division of Minority Small Business Certification may initiate a termination proceeding by recommending such action to the Associate Administrator for Minority Small Business Capital Ownership Development. Whenever the Associate Administrator deems such termination is appropriate, within 15 days, the Program Participant shall be provided a written notice of intent to terminate, specifying the reasons for such action. No Program Participant shall be terminated from the Program pursuant to subparagraph (H) without first being afforded an opportunity for a hearing in accordance with section 8(a)(9). The Administration shall commence any such hearing within 60 days of the Program Participant's receipt of the notice of intent to terminate, unless the opportunity for such hearing is waived in writing by the Program Participant.".

SEC. 205. CHALLENGING ELIGIBILITY.

Section 7(j)(10) of the Small Business Act (15 U.S.C. 636(j)(10)), as amended by section 204, is amended by adding at the end thereof the following new subparagraphs:

"(J)(i) The Administration shall conduct an evaluation of a Program Participant's eligibility for continued participation in the Program whenever it receives specific and credible information alleging that such Program Participant no longer meets the requirements for Program eligibility. A Program Participant may not be suspended from participation in the Program until a termination proceeding in accordance with subparagraph (H) has been initiated.

"(ii) Upon making a finding that a Program Participant is no longer eligible, the Administration shall initiate a termination proceeding in accordance with subparagraph (H).

"(K)(i) A protest, relating to the solicitation or award of a contract under the authority of section 8(a), regarding a Program Participant's eligibility under paragraphs (4), (5), (6), and (7) of section 8(a) may be filed by an offeror, the contracting officer, or other interested party relating to a contract action under the authority of section 8(a) of this Act. Such protest shall be in writing and shall specifically allege the grounds upon which the protest is based. In order to be considered, a protest must be filed with the regional office in which such challenged Program Participant has its principal place of business within 5 days of—

"(I) bid opening in the case of a contract or subcontract being awarded by competitive sealed bidding or its equivalent; or

"(II) receipt of notice of the apparent successful offeror in the case of a contract being awarded by negotiation, either competitively or noncompetitively.

"(ii) The regional office shall promptly review the eligibility of the party whose status is being challenged, after giving notice to such party, the party filing the protest, the contracting officer (if other than the party filing the protest) and any other interested parties deemed appropriate. The review shall include consideration of information submitted by the party whose status is being challenged, the party filing the protest, and other interested parties, if such information is received by the Administration not later than 5 days after the date such party receives the notice of protest. A decision regarding the status of the concern shall be issued by the Director of the regional office of the Division of Minority Small Business Certification not later than 15 days after receipt of the protest. The procurement action shall be suspended during such period.

"(iii) Within 5 days of receipt of the decision regarding the protest, the party whose status is being challenged may file a written appeal with the Administration's Office of Hearings and Appeals.

"(iv) Unless otherwise provided by law or regulation, a procurement action need not be suspended pending decision of the Office of Hearings and Appeals.

"(v) The Administration may dismiss a protest without further consideration if it determines such protest is without merit or frivolous.

"(vi) Whenever the Administration believes from its consideration of a protest that a party has made a statement which such party knew or had reason to know was false, the matter shall be referred to the procuring agency's investigating official designated pursuant to the Program Fraud Civil Remedies Act of 1986 (sections 3801-3812 of title 31, United States Code).".

SEC. 206. PROVISIONS FOR TRIBAL-OWNED ENTERPRISES.

Section 8(a)(7) of the Small Business Act (15 U.S.C. 637(a)(7)) is amended to read as follows:

"(7)(A) No small business concern shall be deemed eligible for any assistance pursuant to this subsection unless the Administration determines that with contract, financial, technical, and management support the small business concern will be able to perform contracts which may be awarded to such concern under paragraph (1)(C) and has reasonable prospects for being successful in competing in the private sector. Except as provided in subparagraph (B) or by regulations established by the Administration, an individual or business concern may not be deemed eligible for participation in the program more than once.

"(B) The Administration may permit more than one small business concern owned by a socially and economically disadvantaged Indian tribe to be eligible for assistance pursuant to this subsection and section 7(j)(10) if—

"(i) the Indian tribe does not own another firm in the same industry which has been determined to be eligible to receive contracts under this program, and

"(ii) the individuals responsible for the management and daily operations of the concern do not manage more than two Program Participants.".

TITLE III—ENHANCING THE PROGRAM'S BUSINESS DEVELOPMENT ASPECTS

SEC. 301. BUSINESS PLANS.

(a) Section 7(j)(10)(A)(i) of the Small Business Act (15 U.S.C. 636(j)(10)(A)(i)) is amended to read as follows:

"(i) assist small business concerns participating in the Program either through public or private organizations to develop and maintain a comprehensive business plan which sets forth the Program Participant's specific business objectives and goals. Such business plan, developed and maintained in conformity with subparagraph (B), shall be designed to result in such Program Participant becoming a viable business concern capable of effectively competing in the marketplace upon graduation from the Program.".

(b) Section 7(j)(10) of such Act is further amended—

(1) by striking subparagraph (C),

(2) by redesignating subparagraph (D) (as added by section 202 of this Act) as subparagraph (C), and

(3) by adding after subparagraph (C), as redesignated, the following new subparagraph:

"(D)(i) Promptly after certification under subparagraph (E), a Program Participant shall submit a Program business plan as described in clause (ii) of this subparagraph for review by the Business Opportunity Specialist assigned to assist such Program Participant. Such plan, and subsequent revisions submitted under clause (iii) of this subparagraph, shall be approved by the Administration prior to the Program Participant being eligible for award of a contract pursuant to section 8(a).

"(ii) The business plans submitted under this paragraph shall include the following:

"(I) An analysis of market potential, competitive environment, and other business analyses estimating the Program Participant's prospects for profitable operations during the term of Program participation and after graduation.

"(II) An analysis of the Program Participant's strengths and weaknesses with particular attention to correcting any financial, managerial, technical, or personnel conditions which are likely to impede such small business concern from winning contracts other than those obtained under section 8(a) of this Act.

"(III) Specific objectives and goals for the business development of the Program Participant during the next and succeeding years utilizing the results of the analyses conducted pursuant to subclauses (I) and (II).

"(IV) A transition management plan outlining specific steps to assure profitable business operations after graduation (to be incorporated into the Program Participant's overall business plan during the revision relating to the fifth Program year of the firm's Program Participation Term).

"(V) Estimates of contract awards pursuant to section 8(a) and from other sources, which the Program Participant will require to meet the specific objectives and goals for the years covered by its approved plan. The estimates established shall be consistent with the provisions of subparagraph (L) and section 8(a).

"(VI) The dollar value of the aggregate awards from the Bid and Proposal Cost Program to which the Program Participant may be eligible pursuant to section 7(m).

"(iii) Each Program Participant shall annually review its currently approved business plan with its Business Opportunity Specialist and modify such plan as may be appropriate. Any modified plan shall be submitted to the Administration for approval. The currently approved plan shall be considered valid until such time as a modified plan is approved by the Administration. The annual review pertaining to the sixth and subsequent years of Program participation shall include a verification of such Program Participant's compliance with the requirement of subparagraph (L).".

SEC. 302. COMPETITIVE BID AND PROPOSAL COST PROGRAM.

Section 7 of the Small Business Act (15 U.S.C. 636) is amended by adding at the end thereof the following new subsections:

"(m)(1) The Administrator is authorized to make available to Program Participants financial assistance to help defray costs incurred in the preparation of offers necessary to effectively compete for the award of government and commercial contracts.

"(2) Program Participants shall be eligible for such bid and proposal cost financial assistance during—

"(A) The first through the fifth year of the Program Participant's Program Participation Term; and

"(B) The sixth and succeeding years of the Program Participant's Program Participation Term, if the Program Participant has failed to meet the requirements of subsection (j)(10)(L).

"(3) The amount of such assistance which may be provided to an eligible Program Participant during the succeeding fiscal year shall be annually determined by the Administration based on an analysis conducted in conjunction with the Program Participant during the review of such Program Participant's business plan, but shall not exceed an aggregate of $100,000 in any fiscal year.

"(4) Subject to regulations promulgated by the Administration, an award of financial assistance in the form of a grant may be made in response to an application from a Program Participant—

"(A) for such direct and indirect costs (not otherwise reimbursed by the Government) which the Program Participant has incurred for the preparation of an offer in response to a competitive contract solicitation; and

"(B) in an amount not to exceed the level of bid and proposal cost assistance authorized in the Program Participant's business plan for that fiscal year.".

"(n) Bid and proposal costs incurred by a Program Participant (not otherwise reimbursed by the Administration) shall be allowable costs on cost reimbursement contracts to the full extent permitted under any regulatory formula used by the procuring agency, notwithstanding any limitation on the total amounts otherwise allowable under such formula.".

SEC. 303. MANAGEMENT ASSISTANCE.

Section 7(j)(10)(A), as amended by section 301, is amended—

(1) by striking out "and" at the end of clause (v),

(2) by striking out the period at the end of clause (vi) and inserting in lieu thereof a semicolon, and "and", and

(3) by adding at the end thereof the following new clauses:

"(vii) establish a training program to be delivered at the regional level to instruct Program Participants on the techniques of successfully obtaining and performing Federal contracts; and

"(viii) provide assistance to public or private organizations or individuals to conduct seminars to assist Program Participants to develop business plans which will enhance the concern's potential for operating profitably upon graduation from the Program.".

SEC. 304. MINORITY BUSINESS DIRECT LOAN PROGRAM.

Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is amended by adding at the end thereof the following new paragraph:

"(17) The Administration is authorized to make loans directly to Program Participants which are eligible to receive assistance under section 7(j)(10) and 8(a) for the purchase of equipment, facilities, materials, supplies, or other necessary production or technical assets, and for working capital. Such assistance may be provided subject to the following limitations and restrictions:

"(A) all loans made under this section shall be of such sound value as to reasonably assure repayment,

"(B) no financial assistance shall be extended under this subsection if the applicant can obtain credit elsewhere, and

"(C) the rate of interest on financings made under this subsection shall be 2 percent below the rate established on direct loans made under paragraph (11).".

TITLE IV—BUSINESS DEVELOPMENT THROUGH FEDERAL CONTRACTING OPPORTUNITIES

SEC. 401. DEVELOPMENT OF BUSINESS MIX EMPHASIZING COMPETITIVE CONTRACT AWARDS.

Section 7(j)(10) of the Small Business Act (15 U.S.C. 636(j)(10)), as amended by sections 205 and 301, is amended by adding at the end thereof the following new subparagraphs:

"(L)(i) Except as provided in clause (ii), the Administration shall not make a noncompetitive award of a contract under section 8(a) to a Program Participant unless such Participant certifies at the time of its designation for contract award that the dollar amount of contracts awarded noncompetitively to such Program Participant by the Administration under section 8(a) does not exceed the following—

"(I) 70 percent of the Program Participant's new sales during the fifth or subsequent year of its Program Participation Term; or

"(II) 50 percent of the Program Participant's new sales during the seventh year of its Program Participation Term.

"(ii) The Administrator shall take such measures as may be appropriate to assure that not more than 25 percent of a Program Participant's new sales are from noncompetitively awarded contracts in the final year of its Program Participation Term.

"(iii) Notwithstanding the requirements of clauses (i) and (ii), the Administration may authorize the award of a contract to a Program Participant under section 8(a), if the Administration determines that—

"(I) the Program Participant's total sales from noncompetitive section 8(a) contract awards do not exceed the maximum specified percentage by more than 5 percent;

"(II) the Program Participant has a reasonable business expectation of receiving a competitive contract award that will bring such firm into compliance with the percentage specified in clause (i); and

"(III) denial of the contract award under section 8(a) would cause the firm severe economic harm, jeopardizing its future ability to successfully attain the objectives specified in clause (i).

"(M) Notwithstanding the requirements of subparagraph (L), the Administrator may authorize the noncompetitive award of a contract to a Program Participant under section 8(a), if the Administration determines that the Program Participant—

"(i) is eligible for the Program under the authority of subparagraph (F),

"(ii) obtains a Program Participation Term of 5 or fewer years under subparagraph (F), which years shall be deemed to be

such Program Participant's fourth and succeeding years in the Program for purposes of this section and section 8(a), and

"(iii) has made a reasonable effort to comply with the provisions of subparagraph (L), which shall be considered to be goals rather than requirements for purposes of evaluating the business activity of such Program Participant.".

SEC. 402. PLANNING 8(a) CONTRACT ACTIVITY.

(a) FORECASTING CONTRACT OPPORTUNITIES.—Section 8(a) of the Small Business Act (15 U.S.C. 637(a)) is amended by adding at the end thereof the following new paragraph:

"(15)(A) Each executive agency reporting to the Federal Procurement Data System contract actions with an aggregate value in excess of $50,000,000 in fiscal year 1987 and any succeeding fiscal year shall prepare a forecast of expected contract opportunities or classes of contract opportunities for the next and succeeding fiscal years that it considers to be suitable for award to small business concerns, including those owned and controlled by socially and economically disadvantaged individuals. Such forecast shall be periodically revised during such year. To the extent such information is available, the agency forecasts shall specify:

"(i) The approximate number of individual contract opportunities (and the number of opportunities within a class).

"(ii) The approximate dollar value, or range of dollar values, for each contract opportunity or class of contract opportunities.

"(iii) The anticipated time (by fiscal year quarter) for the issuance of a procurement request.

"(iv) The activity responsible for the award and administration of the contract.

"(B) The head of each executive agency subject to the provisions of subparagraph (A) shall within 10 days of completion furnish such forecasts to—

"(i) the Director of the Office of Small and Disadvantaged Business Utilization established pursuant to section 15(k) for such agency; and

"(ii) the Administrator.

"(C) Such forecasts shall be available to small business concerns.".

(b) RATE OF CONTRACT SUPPORT AS ELEMENT OF ANNUAL REVIEW OF BUSINESS PLAN.—Section 8(a) of the Small Business Act is further amended by adding at the end thereof the following new paragraph:

"(16)(A) Each Program Participant shall annually forecast its needs for contract awards under this section for the next Program year and the succeeding Program year during the review of its business plan, conducted pursuant to section 7(j)(10)(A).

"(B) Such forecast shall include—

"(i) the aggregate level of contract support (number and dollar value) to be sought under section 8(a), reflecting compliance with the requirements of section 7(j)(10)(L),

"(ii) the types of contract opportunities being sought, identified by Standard Industrial Classification (SIC) Code or otherwise,

"(iii) an estimate of the level of contract support (number and dollar value) to be sought on a competitive basis,

"(iv) an estimate of the level of support (number of applications and estimated dollar value of each) to be sought from the Bid and Proposal Cost Program under section 7(m), and

"(v) such other information as may be requested by the Business Opportunity Specialist to provide effective business development assistance to the Program Participant.".

SEC. 403. CONTRACT AWARDS.

Section 8(a) of the Small Business Act (15 U.S.C. 637(a)), as amended by section 402, is amended by adding at the end thereof the following new paragraph:

"(17)(A) Except as necessary to implement the policy stated in subparagraph (C), the Administration shall award contracts under this section to the concern recommended by the procuring agency offering the contract opportunity if—

"(i) the Program Participant is determined to be a responsible contractor with respect to performance of such contract opportunity;

"(ii) the award of such contract would be consistent with the Program Participant's business plan; and

"(iii) the award of the contract would not result in the Program Participant exceeding the requirements established by section 7(j)(10)(L).

"(B) Contract awards shall be made to the Program Participants selected through a competition conducted pursuant to subparagraph (E).

"(C) The Administrator may consider the geographical distribution of contracts and may direct the award of any contract under this section, other than a competitive contract award made pursuant to subparagraph (E) of this paragraph, to achieve a more equitable distribution of contracts among the Administration's various regions and among Program Participants.

"(D)(i) Except for a contract opportunity that is a 'national buy contract', the source selection official for noncompetitive awards under this section shall be the head of the Minority Small Business and Capital Ownership Development Program in the regional office for the region in which the agency making the contract opportunity available is located.

"(ii) The source selection official for a 'national buy contract' shall be designated by the Administrator.

"(iii) For purposes of this subparagraph, the term 'national buy contract' means a contract for the procurement of supplies or services that may require performance in more than one of the Administration's regions and exceeds a dollar threshold specified in regulations promulgated by the Administration.

"(E)(i) An agency offering a contract opportunity for award under this section shall determine the Program Participant eligible for award of the contract on the basis of a competition restricted to eligible Program Participants, if—

"(I) there is a reasonable expectation that at least two eligible Program Participants will submit offers and that award can be made at a fair market price, and

"(II) the anticipated award price of the contract (including all options) will exceed $5,000,000.

"(ii) The Associate Administrator for Minority Small Business and Capital Ownership Development, on a non-delegable basis, is authorized to approve a request from an agency to award a contract opportunity under this section on the basis of a competition restricted to eligible Program Participants even if the anticipated award price is not expected to exceed the dollar amounts specified in clause (i)(II).

"(iii) Protests (other than those subject to section 7(j)(10)(K)) arising out of the solicitation or award of a contract opportunity restricted to competition among eligible Program Participants under the authority of this section shall be eligible for resolution pursuant to—

"(I) subchapter V of chapter 35, title 31, United States Code;

"(II) section 111(h) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 759(h)); or

"(III) section 33.103 of title 48, Code of Federal Regulations (or any successor regulation).

"(F) A contract requirement that has been performed through a contract awarded to a Program Participant under this section, may subsequently be offered through full and open competition, if—

"(i) at the expected time of contract solicitation the incumbent contractor will be a graduate of the Minority Small Business and Capital Ownership Development Program;

"(ii) such contractor requests that the next contract opportunity be solicited on an unrestricted basis; and

"(iii) the agency head, or a designee of such officer, approves the request of such contractor.

"(G) Notwithstanding the requirements of this paragraph, an agency may conduct a competition in the same form and manner used prior to the effective date of the Minority Business Development Program Reform Act of 1988, if—

"(i) the competition is conducted among two or more Program Participants;

"(ii) the contract award will be made principally on the basis of price or price-related factors;

"(iii) one or more contract awards are expected to be made, at fair market prices, as a result of such competition; and

"(iv) the agency has a continuing requirement for the product or service previously obtained through contract awards under the authority of section 8(a).".

SEC. 404. CONTRACT PERFORMANCE.

Section 8(a) of the Small Business Act (15 U.S.C. 637(a)), as amended by section 403, is amended by adding at the end thereof the following new paragraphs:

"(18)(A) Subject to the provisions of subparagraph (B), a small business concern awarded a contract under this section during the term of its participation in the Minority Small Business and Capital Ownership Development Program shall complete performance of the contract (including any additional requirements flowing from the Government's exercise of any contract options or any contract modifications within the scope of the contract), notwithstanding the fact that the period of contract performance may extend beyond such firm's graduation from the Program.

"(B) In exercising the Government's discretion with respect to contract options and contract modifications, the contracting officer shall limit such contract modifications to those necessary to attain contract performance, avoiding any nonessential expansion of the scope or term of performance and avoiding the exercise of any options (unless such action would have a severe adverse impact on the program or mission being supported by the contract), when the contract is being performed by—

"(i) a contractor who has been terminated for cause from the Program in accordance with section 7(j)(10)(H); or

"(ii) a contractor who, after award of the contract option or modification, is unable to meet the requirements of section 7(j)(10)(L).

"(19)(A) A contract awarded pursuant to this subsection shall be performed by the socially and economically disadvantaged *small business concern that initially received such contract. Subject to the provisions of subparagraph (B), such contract shall be deemed to be terminated for the convenience of the Government, if the eligible concern directly or indirectly transfers the contract to another business concern during the initial year of performance, unless the Administrator grants prior written approval based on a determination that—*

"(i)(I) the proposed transferee is a current participant in the Minority Small Business and Capital Ownership Development Program authorized under section 7(j)(10); and

"(II) the transferee would otherwise be eligible to receive the award directly; or

"(ii) the individual upon whom Program eligibility is based is no longer able to exercise control of the firm due to incapacity or death.

"(B) The Administrator, on a non-delegable basis, may waive the requirements of subparagraph (A), if the head of the contracting agency for which the contract is being performed certifies that termination of the contract would severely impair attainment of the agency's program objectives or missions and requests the Administrator to grant such waiver.".

SEC. 405. APPEAL OF AGENCY DECISION REGARDING 8(a) CONTRACT OPPORTUNITIES.

Section 8(a)(1)(A) of the Small Business Act (15 U.S.C. 637(a)(1)(A)) is amended by inserting after the sentence ending "the Administrator." the following: "Not later than 5 days from the date the Administration is notified of a procurement officer's adverse decision, the Administrator shall provide notice of his intent to appeal such adverse decision and within 15 days of such date shall request a reconsideration of the adverse decision by the Secretary of the department or agency head. Upon receipt of the notice of intent to appeal, the Secretary of the department or the agency head shall suspend further action regarding the procurement until a written decision on the Administrator's request for reconsideration has been issued by such Secretary or agency head. If the Administrator's request for reconsideration is denied, the Secretary of the department or agency head shall specify the reasons therefor, and the determinations supporting such decision, which shall be made a part of the contract file for the requirement.".

TITLE V—IMPROVED PROGRAM MANAGEMENT AND CONGRESSIONAL OVERSIGHT

SEC. 501. ASSOCIATE ADMINISTRATOR FOR MINORITY SMALL BUSINESS AND CAPITAL OWNERSHIP DEVELOPMENT.

(a) IN GENERAL.—Section 4(b)(1) of the Small Business Act (15 U.S.C. 633(b)(1)) is amended by inserting "who shall be a career appointee in the competitive service or in the Senior Executive Service," after "Associate Administrator for Minority Small Business and Capital Ownership Development".

(b) BUSINESS OPPORTUNITY SPECIALISTS.—Section 7(j)(11) of the Small Business Act (15 U.S.C. 636(j)(11)), as amended by section 201 of this Act, is amended by adding at the end thereof the following new subparagraph:

"(C) In each Small Business Administration field office responsible for assisting one or more Program Participants there shall be a position designated as a Business Opportunity Specialist. To the maximum extent practicable the Administration shall assure that an adequate number of Business Opportunity Specialists are assigned to each district office to carry out the responsibilities of this section and section 8(a) and to assist Program Participants.

"(D) The Administration shall take such actions as may be appropriate to ensure that any person employed as a Business Opportunity Specialist receives adequate periodic training to assure such employee is capable of assisting Program Participants to fully utilize the Program and to meet the requirements of this Act.".

SEC. 502. PROHIBITED ACTIONS AND EMPLOYEE RESPONSIBILITIES.

Section 8(a) of the Small Business Act (15 U.S.C. 637(a)), as amended by section 404, is amended by adding at the end thereof the following new paragraphs:

"(20)(A) No person within the employ of the Administration shall, during the term of such employment and for a period of one year after such employment has been terminated, engage in any activity or transaction specified in subparagraph (B) with respect to any Program Participant certified during such person's term of employment, if such person participated personally and substantially in decisionmaking responsibilities relating to such Program Participant or with respect to the administration of any assistance provided to Program Participants generally under this subsection, section 7(j)(10), or section 7(m).

"(B) The activities and transactions prohibited by subparagraph (A) include—

"(i) the buying, selling, or receiving (except by inheritance) of any legal or beneficial ownership of stock (except publicly-traded stock) or any other ownership interest or the right to acquire any such interest;

"(ii) the entering into or execution of any written or oral agreement (whether or not legally enforceable) to purchase or otherwise obtain any right or interest described in clause (i); or

"(iii) the receipt of any other benefit or right that may be an incident of ownership.

"(C) Any current or former employee of the Administration who violates this paragraph shall be subject to civil penalty under the Program Fraud Civil Remedies Act of 1986 (sections 3801-3812 of title 31, United States Code), except that the administrative remedy may not exceed 300 percent of the maximum gain such employee realized or could have realized as a result of engaging in the activities or transactions prohibited by subparagraph (B).

"(21)(A) Any employee of the Administration who has authority to approve or disapprove, or direct others to approve or disapprove, any action with respect to any program or activity conducted under this subsection, section 7(j)(10), or section 7(m) shall not consider the political affiliation or political activity of any Program applicant, Program Participant or other interested party in the exercise of such discretionary authority. Employees of the Administration shall promptly report to the Inspector General of the Administration any solicitation or direction to consider political affiliation or political activity.

"(B) Any employee who violates subparagraph (A) may also be subject to disciplinary personnel actions to include separation from service, reduction in grade, suspension, or reprimand.

"(C) The activities or transactions prohibited by subparagraph (A) and the penalties provided by subparagraph (B) shall be in addition to, and not in lieu of, any other prohibitions or penalties prescribed under any other provision of law.".

SEC. 503. FALSE REPRESENTATIONS.

(a) PENALTY FOR MISREPRESENTATION.—Section 16(d) of the Small Business Act (15 U.S.C. 645(d)) is amended to read as follows:

"(d)(1) Whoever misrepresents the status of any concern or person as a 'small business concern' or 'small business concern owned and controlled by socially and economically disadvantaged individuals', in order to obtain for oneself or another any—

"(A) prime contract to be awarded pursuant to section 9 or 15;

"(B) subcontract to be awarded pursuant to section 8(a);

"(C) subcontract that is to be included as part or all of a goal contained in a subcontracting plan required pursuant to section 8(d); or

"(D) prime or subcontract to be awarded as a result, or in furtherance, of any other revision of Federal law that specifically references section 8(d) for a definition of program eligibility,

"(2) shall—

"(A) be punished by a fine of not more than $100,000 or by imprisonment for not more than 5 years, or both;

"(B) be subject to the administrative remedies prescribed by the Program Fraud Civil Remedies Act of 1986 (sections 3801-3812 of title 31, United States Code);

"(C) be subject to suspension and debarment procedures specified in subpart 9.4 of title 48, Code of Federal Regulations (or any successor regulation); and

"(D) be ineligible for participation in the programs authorized by sections 8(a), 8(d), 9, and 15 for a period not to exceed 3 years.".

(b) MISREPRESENTATION OF SECTION 7 COMPLIANCE.—Section 16 of the Small Business Act (15 U.S.C. 645) is amended by adding at the end thereof the following new subsection:

"(f) Whoever falsely certifies compliance with the requirements of section 7(j)(10)(L) of this Act shall be subject to the penalties prescribed in paragraph (d).".

SEC. 504. REPORT BY PROGRAM PARTICIPANTS.

Section 8(a) of the Small Business Act (15 U.S.C. 637(a)), as amended by section 502, is amended by adding at the end thereof the following new paragraph:

"(22) Small business concerns participating in the Program under section 7(j)(10) and eligible to receive contracts pursuant to this section shall annually report to their assigned Business Opportunity Specialist the following:

"(A) A listing of any agents, representatives, attorneys, accountants, consultants, and other parties (other than employees) receiving compensation to assist in obtaining a Federal contract for such Program Participant.

"(B) The amount of compensation received by any person listed under clause (i) during the relevant reporting period and a description of the activities performed in return for such compensation.

The Business Opportunity Specialist shall promptly forward such report to the Associate Administrator for Minority Small Business and Capital Ownership Development.".

SEC. 505. DATA COLLECTION AND CONGRESSIONAL REPORT.

Section 7(j) of the Small Business Act (15 U.S.C. 636(j)) is further amended by adding at the end thereof the following new paragraph:

"(12)(A) The Administrator shall appoint a Task Force on Small Business Development which shall collect industry data; assess the developmental cycles of particular industries; assess the financing problems facing industries; recommend solutions; and compile a recommended Primary Industry

Classification Schedule upon which future Program Participation Terms might be rationally based. The Task Force shall file a written report with the Administrator no later than April 15, 1990, and the Administration shall make the report available to the House and Senate Small Business Committees immediately thereafter. The Task Force shall be composed of 15 members who are actively involved in managing, financing, or advising small businesses; including a representative from the Small Business Administration, the Securities and Exchange Commission, the Department of the Treasury, and the Department of Labor.

"(B) The Administrator shall develop and implement a process for the systematic collection of data on the benefits derived by the economy of the United States and by Program Participants.

"(C) Beginning on April 30, 1989, and each year thereafter, the Administrator shall submit a report to the Committees on Small Business of the Senate and the House of Representatives on the Minority Small Business and Capital Ownership Development Program which includes—

"(i) the total dollar value of contracts (including options) awarded (competitively and noncompetitively) during the preceding fiscal year under section 8(a) and amount of such contracts expressed as a percentage of total sales of—

"(I) all Program Participants in the Minority Small Business and Capital Ownership Development Program during such year; and

"(II) all Program Participants broken down to reflect each year of the eight-year Program Participation Term;

"(ii) the dollar value of contracts (including options) awarded (competitively and noncompetitively) under section 8(a), stratified at such dollar increments as the Administration deems appropriate, for each four digit standard industrial classification code under which such contracts were classified; and

"(iii) such other information as the Administration deems appropriate.".

SEC. 506. DEFINITIONS.

Section 8(a)(13) of the Small Business Act (15 U.S.C. 637(a)(13)) is amended to read as follows:

"(13) For purposes of this subsection, the term 'Indian tribe' means—

"(A) any Indian tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village or regional or village corporation (within the meaning of the Alaska Native Claims Settlement Act) which—

"(i) is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians, or

"(ii) is recognized as such by the State in which such tribe, band, nation, group, or community resides; and

"(B) any community service organization serving Native Hawaiians in the State of Hawaii which—

"(i) is a not-for-profit organization chartered by the State of Hawaii;

"(ii) is controlled by Native Hawaiians; and

"(iii) whose business activities will principally benefit such Native Hawaiians.".

TITLE VI—ANNUAL CONTRACT PARTICIPATION GOALS; REPORT; AUTHORIZATIONS

SEC. 601. ANNUAL CONTRACTING GOALS.

Section 15(g) of the Small Business Act (15 U.S.C. 644(g)) is amended—

(1) by striking out "The head" and inserting in lieu thereof "(2) The head",

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively, and

(3) by adding at the beginning the following new paragraph:

"(1) The President shall annually establish goals for procurement contracts awarded to small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals. The goal for participation by small business concerns shall be established at not less than 20 percent of the total value of all prime contract awards for each of the fiscal years 1989 through 1993, and at 25 percent of such awards for fiscal year 1994 and each fiscal year thereafter. The goal for participation by small business concerns owned and controlled by socially and economically disadvantaged individuals shall be established at not less than 5 percent of the total value of all prime contract and subcontract awards for each of the fiscal years 1989 through 1997, and at 10 percent of such awards for fiscal year 1998 and each fiscal year thereafter. In calculating whether the Government-wide goal for participation by small business concerns has been attained, awards to small business concerns owned and controlled by socially and economically disadvantaged individuals shall not be counted.".

SEC. 602. PRESIDENTIAL REPORT ON ATTAINMENT OF PARTICIPATION GOALS.

Section 15(h) of the Small Business Act (15 U.S.C. 644 (h)) is amended—

(1) by striking out "(h)" and inserting in lieu thereof "(h)(1)",

(2) by striking out the last sentence of subsection (h)(1), and

(3) by adding at the end thereof the following new paragraph:

"(2) The Administration shall annually compile and analyze the reports submitted by the individual agencies pursuant to paragraph (1) and shall submit them to the President. The Administration's submission to the President shall include the following:

"(A) The Government-wide goals for participation by small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals and the performance in attaining such goals.

"(B) The goals set by each agency and their performance in attaining their individual goals.

"(C) An analysis of why the Government-wide goals or individual agency goals were not attained and the actions planned to achieve the goals in the succeeding fiscal year.

"(D) The number and dollar value of contracts awarded to small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals through—

"(i) non-competitive negotiation,

"(ii) competition restricted to small business concerns owned and controlled by socially and economically disadvantaged individuals,

"(iii) competition restricted to small business concerns, and

"(iv) unrestricted competitions for each agency and on a Government-wide basis.

"(3) The President shall include the information required by paragraph (2) in the annual report to the Congress on the State of Small Business, pursuant to section 303(a) of the Small Business Economic Policy Act of 1980 (15 U.S.C. 631b)).".

SEC. 603. SUBCONTRACTING PROGRAM COMPLIANCE.

Section 8(d)(4)(E) of the Small Business Act (15 U.S.C. 637(d)(4)(E)) is amended—

(1) by striking out "(E)" and inserting in lieu thereof "(E)(i)", and

(2) by adding at the end thereof the following new clause:

"(ii) Each contract subject to the requirements of this paragraph or paragraph (5) shall contain a provision providing for the payment of liquidated damages in the event that the prime contractor fails to make a good faith effort to comply with the requirements contained in paragraph (3) or with any subcontracting plan required of such contractor under the authority of this subsection. The agency awarding the contract shall ensure that the goals offered by the apparent successful bidder or offeror are not substantially less than its actual performance on prior contracts.".

SEC. 604. RELATIONSHIP WITH OTHER PROCUREMENT PROGRAMS.

Section 15(m) of the Small Business Act (15 U.S.C. 644(m)) is amended to read as follows:

"(m)(1) Each agency subject to the requirements of section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (10 U.S.C. 2301 note) shall, when implementing such requirements—

"(A) establish policies and procedures that insure that there will be no reduction in the number or dollar value of contracts awarded pursuant to this section and section 8(a) in order to achieve any goal or other program objective; and

"(B) assure that such requirements will not alter or change the procurement process used to implement this section or section 8(a).

"(2) All procurement center representatives (including those referred to in subsection (k)(6)), in addition to such other duties as may be assigned by the Administrator, shall—

"(A) monitor the performance of the procurement activities to which they are assigned to ascertain the degree of compliance with the requirements of paragraph (1);

"(B) report to their immediate supervisors all instances of non-compliance with such requirements; and

"(C) increase, insofar as possible, the number and dollar value of procurements that may be used for the programs established under this section, section 8(a), and section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (10 U.S.C. 2301 note).".

SEC. 605. AUTHORIZATIONS.

(a) There is hereby authorized to be appropriated for fiscal year 1989 the sum of $3,500,000 to employ 70 additional personnel to carry out the provisions and purpose of sections 201 and 501(b) of this Act.

(b) There is hereby authorized to be appropriated to the Business Loan Investment Fund the sum of $5,000,000 each year for fiscal years 1989, 1990, and 1991, for the purpose of reimbursing Program Participants for costs incurred in the preparation of offers, pursuant to section 7(m) of the Small Business Act (15 U.S.C. 636(m)).

(c) There is hereby authorized to be appropriated to the Business Loan Investment Fund the sum of $10,000,000 each year for fiscal years 1989, 1990, and 1991, for the purpose of providing direct loans to Program Participants pursuant to section 7(a)(17) of the Small Business Act (15 U.S.C. 636(a)(17)).

(d) No funds are authorized to be appropriated to the Administration for the purpose of making grants of financial assistance under the so called "Business Development Expense" program to any firm participating in the programs authorized by section 7(j)(10) or section 8(a) of the Small Business Act (15 U.S.C. 636(j)(10) and 637(a)).

TITLE VII—SMALL BUSINESS COMPETITIVENESS DEMONSTRATION PROGRAM

PART A—SHORT TITLE AND FINDINGS

SEC. 701. SHORT TITLE.

This title may be cited as the "Small Business Competitiveness Demonstration Program Act of 1988".

SEC. 702. FINDINGS.

The Congress finds that—

(1) many small business concerns have repeatedly demonstrated their ability to fulfill a broad range of Government requirements for products, services (including research, development, technical, and professional services), and construction, through the Federal procurement process;

(2) various Congressional mandated reforms to the Federal procurement process, including the Competition in Contracting Act of 1984, the Defense Procurement Reform Act of 1984, and the Small Business and Federal Procurement Competition Enhancement Act of 1984, were designed to eliminate obstacles to competition and thereby to broaden small business participation; and

(3) traditional agency efforts to implement the mandate for small business participation in a fair proportion of Federal procurements as required by section 15(a) of the Small Business Act have resulted in—

(A) a concentration of procurement contract awards in a limited number of industry categories, often dominated by small business concerns, through the use of set-asides, for the purpose of assuring the attainment of the agency's overall small business contracting goals; and

(B) inadequate efforts to expand small business participation in agency procurements of products or services which have historically demonstrated low rates of small business participation despite substantial potential for expanded small business participation.

PART B—DEMONSTRATION PROGRAM

SEC. 711. SMALL BUSINESS COMPETITIVENESS DEMONSTRATION PROGRAM.

(a) ESTABLISHMENT.—There is established a Small Business Competitiveness Demonstration Program (hereafter referred to as "the Program") pursuant to section 15 of the Office of Federal Procurement Policy Act (41 U.S.C. 413) to provide for the testing of innovative procurement methods and procedures. The Administrator of Federal Procurement Policy shall designate the Administrator of the Small Business Administration as the executive agent responsible for conducting the test.

(b) PURPOSES.—The purposes of the Program are to demonstrate whether—

(1) the competitive capabilities of small business firms in certain industry categories will enable them to successfully compete on an unrestricted basis for Federal contracting opportunities,

(2) the use of targeted goaling and management techniques by procuring agencies, in conjunction with the Small Business Administration, can expand small business participation in Federal contracting opportunities which have been historically low, despite adequate numbers of qualified small business contractors in the economy, and

(3) expanded use of full and open competition, as specified by the Competition in Contracting Act of 1984 (10 U.S.C. 2302(3) and 41 U.S.C. 403(7)), adversely affects small business participation in certain industry categories, taking into consideration the numerical dominance of small firms, the size and scope of most contracting opportunities, and the competitive capabilities of small firms.

(c) PROGRAM TERM.—The Program shall be conducted over a period of 4 years, beginning on January 1, 1989, and ending on December 31, 1992.

(d) APPLICATION.—The Program shall apply to contract solicitations for the procurement of services in industry groups designated in section 717.

SEC. 712. SMALL BUSINESS PARTICIPATION GOALS.

(a) ENHANCED GOALS FOR DESIGNATED INDUSTRY GROUPS.—Each participating agency shall establish an annual small business participation goal for contract awards of $25,000 or more. Such goal shall be 30 percent of the dollar value of the contract awards for each of the designated industry groups.

(b) MEASURING GOAL ATTAINMENTS.—(1) Participating agencies shall monitor the attainment of their small business participation goals on a semi-annual basis. The initial review by each participating agency shall be undertaken not later than June 30, 1989, based on the data for the period January 1 through March 31, 1989. Thereafter, each review shall be based on the aggregate of contract award data for the 4 quarters preceding the date of the review for which data is available.

(2) All awards to small business concerns (including small business concerns owned and controlled by socially and economically disadvantaged individuals), with a dollar value of $25,000 or more, shall be counted toward attainment of such goal.

(3) Modifications to a participating agency's solicitation practices, pursuant to section 713(b), shall be made at the beginning of the second quarter following each review, if the rate of small business participation is less than—

(A) 30 percent of the contract awards for the 4 preceding quarters; or

(B) 25 percent of the contract awards if less than 4 quarters of data is available.

(c) TARGETING INDUSTRY CATEGORIES WITH LIMITED SMALL BUSINESS PARTICIPATION.—Concurrent with the term of the Small Business Competitiveness Demonstration Program, the head of each participating agency shall implement a program to expand small business participation in the agency's acquisition of selected products and services in 6 industry categories which have historically demonstrated low rates of small business participation. The products and services to be targeted for the small business participation expansion program and the special goals for such program, shall be developed in conjunction with the Administrator of the Small Business Administration, and shall be subject to the requirements of section 15(g) of the Small Business Act (15 U.S.C. 644(g)).

SEC. 713. PROCUREMENT PROCEDURES.

(a) FULL AND OPEN COMPETITION.—Each contract opportunity with an anticipated value of $25,000 or more for the procurement of services from firms in the designated industry groups (unless set aside pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)) or section 1207 of the National Defense Authorization Act for Fiscal Year 1987) shall be solicited on an unrestricted basis during the term of the Program, if the participating agency has attained its small business participation goal pursuant to section 712(b). Any regulatory requirements which are inconsistent with this provision shall be waived.

(b) RESTRICTED COMPETITION.—If a participating agency has failed to attain its small business participation goal under section 712, subsequent contracting opportunities, which have an anticipated contract award value of $25,000 or more, may be solicited through a competition restricted to eligible small business concerns pursuant to section 15(a) of the Small Business Act (15 U.S.C. 644(a)) to the extent necessary for such agency to attain its goal. Such participating agency shall comply with the requirements of subsection (a) upon determining that its contract awards to small business concerns meet the required goals.

SEC. 714. REPORTING OF SUBCONTRACTING ACTIVITY.

(a) IN GENERAL.—The Administrator for Federal Procurement Policy shall devise and implement, during the term of the Program, a simplified system to test the collection, reporting, and monitoring of data on subcontract awards to small business concerns, and small business concerns owned and controlled by socially and economically disadvantaged individuals.

(b) SCOPE OF REPORTING SYSTEM.—The reporting system established pursuant to subsection (a) may include—

(1) contracts subject to the requirements of sections 8(d) (4), (5), and (6) of the Small Business Act (15 U.S.C. 637(d) (4), (5), and (6));

(2) subcontract awards with an award value of $25,000 or more;

(3) subcontract awards below first-tier subcontractors (to the extent practicable and to the extent such data does not place an unreasonable burden on participating firms or agencies);

(4) identification of the standard industrial classification code of subcontractors receiving awards; and

(5) data on each subcontractor's size, its status as a socially and economically disadvantaged concern, and any other information the Administrator deems appropriate (relying on a subcontractor's self-certification regarding such data).

SEC. 715. TEST PLAN.

The Administrator for Federal Procurement Policy may further specify the manner and conduct of the test activities required by this title through a test plan issued pursuant to section 15 of the Office of Federal Procurement Policy Act (41 U.S.C. 413).

SEC. 716. REPORT TO CONGRESS.

(a) IN GENERAL.—Within 180 days after fiscal year 1991 data is available from the Federal Procurement Data Center, the Administrator for Federal Procurement Policy shall report the results of the Small Business Competitiveness Demonstration Program to the Committees on Small Business of the Senate and House of Representatives, to the Committee on Governmental Affairs of the Senate, and to the Committee on Government Operations of the House of Representatives. The views of the Administrator of the Small Business Administration shall be included in the report.

(b) ANALYSIS OF PROGRAM.—The report shall include a section prepared by the Administrator of the Small Business Administration specifying the results of the intensive goaling and management program conducted to expand small business participation in

agency acquisitions of selected products and services.

(c) RECOMMENDATIONS.—To the extent the results of the Program demonstrate sufficiently high small business participation based on unrestricted contract competition in the designated industry groups, the report shall include recommendations (if appropriate) for changes in legislation or modifications of procurement regulations aimed at increasing reliance on unrestricted competition if high rates of small business participation in the Federal procurement market can be maintained.

SEC. 717. DESIGNATED INDUSTRY GROUPS.

(a) IN GENERAL.—For the purposes of participation in this Program, the designated industry groups are—

(1) construction (including dredging);

(2) refuse systems and related services; and

(3) architectural and engineering services (including surveying and mapping).

(b) CONSTRUCTION.—Construction shall include contract awards assigned one of the standard industrial classification codes that comprise—

(1) Major Group 15 (Building Construction—General Contractors and Operative Builders),

(2) Major Group 16 (Construction Other Than Building Construction—General Contractors), and

(3) Major Group 17 (Construction—Special Trade Contractors).

(c) REFUSE.—Refuse systems and related services shall include contract awards assigned to standard industrial classification code 4212 or 4953.

(d) ARCHITECTURAL AND ENGINEERING.—Architectural and engineering services (including surveying and mapping) shall include contract awards assigned to standard industrial classification code 7389 (if identified as pertaining to mapping services), 8711, 8712, or 8713.

(e) ALTERNATIVE DATA.—In the event that standard industrial classification codes are not assigned to individual contract awards reported to the Federal Procurement Data Center by January 1, 1989, the Program may be conducted on the basis of the product and service codes used to report data pertaining to such contract awards, related to the maximum practicable extent to the standard industrial classification code for the service being provided by the contractor.

SEC. 718. DEFINITIONS.

(a) DESIGNATED INDUSTRY GROUPS.—"Designated industry groups" means the groups specified in section 717 for participation in the Small Business Competitiveness Demonstration Program.

(b) PARTICIPATING AGENCY.—"Participating agency" shall include the following executive agencies or departments reporting to the Federal Procurement Data Center pursuant to section 6(d)(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 404(d)(4))—

(1) the Department of Agriculture,

(2) the Department of Defense (with the Department of the Army, the Department of the Navy, the Department of the Air Force, and the defense agencies reporting separately),

(3) the Department of Energy,

(4) the Department of Health and Human Services,

(5) the Department of Transportation,

(6) the Environmental Protection Agency,

(7) the General Services Administration (the Public Building Service reporting separately),

(8) the National Aeronautics and Space Administration,

(9) the Veterans Administration, and

(10) such other executive agency or department as may be designated by the Administrator for Federal Procurement Policy.

The Administrator for Federal Procurement Policy is authorized to require any participating agencies to report separately in any manner deemed appropriate to enhance the attainment of the test activities authorized by this title.

(c) SMALL BUSINESS PARTICIPATION.—"Small business participation" shall include the aggregate dollar value of every procurement contract award with award value of $25,000 or more made to a small business concern, without regard to whether such award was based on restricted or unrestricted competition, or was made on a sole source basis.

(d) STANDARD INDUSTRIAL CLASSIFICATION CODE.—"Standard industrial classification code" means a four digit code assigned to an industry category in the Standard Industrial Classification Manual published by the Office of Management and Budget in effect on the date of enactment of this Act.

PART C—AMENDMENTS TO THE SMALL BUSINESS ACT

SEC. 721. SMALL BUSINESS SMALL PURCHASE RESERVE EXCLUDED FROM ANNUAL GOALS.

The first sentence of section 15(g) of the Small Business Act (15 U.S.C. 644(g)) is amended by inserting "having a value of $25,000 or more" after "procurement contracts of such agency".

SEC. 722. REPEALER.

Paragraphs (2) through (5) of subsection 3(a) of the Small Business Act (15 U.S.C. 632(a)(2)-(5)) are repealed. Any numerical size standards pertaining to any of the designated industry groups in effect on May 31, 1988 shall remain in effect for the duration of the Program.

PART D—OTHER AMENDMENTS

SEC. 731. DEFINITION OF ARCHITECTURAL AND ENGINEERING SERVICES.

Section 901 of the Federal Property and Administrative Services Act (40 U.S.C. 541) is amended by striking out paragraph (3) and inserting the following:

"(3) The term 'architectural and engineering services' means—

"(A) professional services of an architectural or engineering nature, as defined by State law, if applicable, which are required to be performed or approved by a person licensed, registered, or certified to provide such services as described in this paragraph;

"(B) professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and

"(C) such other professional services of an architectural or engineering nature, or incidental services, which members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual design, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.".

SEC. 732. EFFECTIVE DATE.

This title shall become effective on the date of its enactment.

TITLE VIII—EFFECTIVE DATES

SEC. 801. EFFECTIVE DATES.

(a) Except as provided in section 732 and subsection (b), the amendments made by this Act shall become effective 180 days after the date of the enactment of this Act.

(b) Section 7(j)(10)(F) of the Small Business Act (15 U.S.C. 636(j)(10)(F)), as added by section 202 of this Act, shall become effective on June 1, 1988, or the date of enactment of this Act, whichever is earlier.

Mr. BYRD. Mr. President, may we have order in the Senate?

The PRESIDING OFFICER. The Senators will clear the well. The Senate will be in order.

The majority leader.

Mr. BYRD. Mr. President, there is a time agreement on the pending measure. I do not know what the prospect is for rollcall votes but I would imagine that there will be rollcall votes early and reasonably late throughout the day on this and other measures. Following the disposition of the pending business, we will have two appropriations bills, first the foreign operations appropriations bill to be followed by the D.C. appropriations bill.

I understand there are some problems with the elevators over in the Hart Building. I hope that whoever is in charge of those elevators will get to work on them. Hopefully, they have already beaten me to it. But I would suggest to Senators they try to get an early start and we will try to take into consideration that problem.

Mr. President, I yield the floor.

Mr. BUMPERS addressed the Chair.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. BUMPERS. I ask unanimous consent that John Ball, Bill Montalto, and Polly Ragon be permitted floor privileges during consideration of S. 1993, including rollcall votes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BUMPERS. Mr. President, I believe the bill now before the Senate is one of the most important pieces of legislation to be considered this year, though it has received relatively little public attention. It is our natural tendency to focus on scandals and disasters in public programs, and the disaster in this case is called Wedtech, without giving attention to the good which can be accomplished when government and business work constructively together. This bill is aimed at reforming and improving the Government's principal program for minority business development, the Small Business Administration program known as section 8(a). Sadly, most Senators and many of the public know this program principally by the scandals it has spawned, as I said, Wedtech being the most current and by far the worst in its history.

First, let me say a few words about the basic premise of section 8(a). This section of the Small Business Act of

1953 was first activated by President Johnson as part of the war on poverty. 8(a) allows the SBA to contract with other Government agencies for the delivery of goods and services, and then subcontract that work to socially and economically disadvantaged, minority-owned small businesses. President Johnson saw that the program could be used to stimulate jobs and business growth in the inner cities. Since the 1960's, Congress has broadened the program and sought to provide certified 8(a) firms—of which there are now about 3,000 in the program—with management and technical assistance and financial support as well as contracts.

The 8(a) program, in spite of its laudable purposes, has been the problem child of SBA. It has been plagued over the years by illegitimate, nonminority companies who have sought the benefits of sole-source contracts. In other instances, minority-owned companies have secured sole-source contracts and then sold out to nondisadvantaged large businesses. Finally, the Wedtech story which has filled the newspapers for almost 2 years illustrates a "worst possible case scenario" for what can go wrong in a Government program. The owners of the firm were allowed to stay in the program long past their term, and long past any plausible economic disadvantage. They secured enormous sole-source contracts from the Army and Navy which they were unqualified to perform; they defaulted on those contracts leaving our national security in jeopardy; and they pumped millions of dollars in ill-gotten gain out of the company leaving it insolvent. And they did all of this through a combination of very high-level political influence peddling, including the White House itself, and outright bribery.

Attorney General Meese himself has undergone investigation by an independent counsel. An SBA Regional Administrator and a Member of Congress are under indictment, as are the erstwhile owners of the company. Those, Mr. President, are the facts which have disabled this program and undermined confidence in government generally, as well as discrediting Federal efforts to help minority-owned businesses improve their lot in life.

To make matters worse, if they could be any worse, our committee did a survey in 1986, under Senator WEICKER's leadership, of graduates of the 8(a) program. The results of this study were released in May of last year, and they were very troubling. First, as many as 30 percent of 8(a) firms fail upon leaving the program for lack of sufficient non-8(a) business. Moreover, contractors express dissatisfaction with the quality of management and technical assistance provided by SBA, and many expressed the perception that the program is overly politicized.

This is the dark side of the 8(a) program, more properly called the minority small business and capital ownership development program. But this is far from a complete picture of this program.

Mr. President, since I became chairman of the Senate Small Business Committee, we have held a total of 5 days of hearings on this program, including a field hearing which Senator KERRY chaired in Boston. Three of those hearings were legislative hearings on S. 1993 and H.R. 1807, the House companion measure. Members and staff have devoted literally hundreds if not thousands of hours to considering the problems in this program and ideas for resolving them. We have met with hundreds of 8(a) companies to hear their concerns, and we have substantially rewritten our original bill in response to those concerns.

S. 1993 and H.R. 1807, which passed the House last December, are easily the most ambitious reform of this program ever undertaken by either Congress or the administration. We have not dodged the tough issues. We have met them head on. And while no one claims perfection in this work, I believe that my chief cosponsors, Senator WEICKER and Senator KERRY, will agree that the committee's work product is a good one which will substantially improve this program for present and future participants.

We have substantial differences with the House, but I am confident we can resolve those issues quickly and send a bill to the President. Four key provisions of S. 1993 bear mentioning.

First, the bill establishes a fixed program term of 8 years for all 8(a) firms. This is substantially more generous than the 5-year term which is now set administratively, and it will eliminate the cottage industry which has developed in lobbying for 8(a) extensions. The House bill provides a 9-year term, and we should easily resolve this issue in conference.

Second, S. 1993 provides for competition among 8(a) firms for contracts valued at more than $5 million. This is a protective measure which should guard against future Wedtech's in which enormous political pressures are brought to bear against both SBA and the procuring agencies over the award of very large dollar contracts. The House bill sets a competitive threshold at $2 million.

Third, the bill provides for a mandatory mix of sole-source and competitive business beginning in the 5th year of participation. This provision is clearly aimed at the problem of noncompetitiveness among many firms which have been strung along in the program for a period of years only to find themselves unable to stay in business upon graduation. Frankly, this failing is more attributable to SBA than to program firms, for the agency has failed in its duty to require long-range planning by 8(a) firms. Only by making the business mix mandatory, with future sole-source contracts conditioned on meeting the specified goals, can we ensure that both firms and the agency engage in the kind of strategic planning which leads to long-term success in a free-enterprise economy. This is a key difference we have with the House, which merely sets competitive goals with no enforcement mechanism.

Fourth, the bill requires that the head of the 8(a) program be a career civil servant rather than a political appointee. This is also an anti-Wedtech type provision intended to remove politics from the contract award as well as the certification process.

Fifth, and perhaps most important, the bill gives substantially more legislative guidance and more resources to this program.

There is much that is very specific and could be called micromanagement. However, Administrator Abdnor testified that he would like to see Congress remove much of the agency's discretion in decisionmaking as it was generally unable to handle it. We have specified the duties and responsibilities of the business opportunity specialist, who is to work intensively with 8(a) firms in improving their competitive position. And, I am glad to report, our appropriations subcommittee has found the means to substantially increase resources for hiring additional staff at SBA to implement these new responsibilities.

Mr. President, I hope that all Members of the Senate will support the work done by our committee. I am optimistic that we can have a speedy conference with the House and send a bill to the President in the very near future.

The PRESIDING OFFICER. The Senator from Connecticut [Mr. WEICKER] controls 15 minutes. The Senator is recognized.

Mr. WEICKER. First, I want to associate myself with the eloquent remarks of the distinguished Senator from Arkansas, the distinguished chairman of the Small Business Committee, Senator BUMPERS. I think in the course of those remarks he has fairly well highlighted the past history of the matter, the concepts that initiated the 8(a) program and the necessity for continuing those concepts into the future minus the abuse.

Just to reiterate one point, the fact is that there are two key elements to achieving equality in our society. The first is education, and the second is economic opportunity. When either or both of those are lacking, then there is either a lessened or no possibility of achieving the individual share of the American dream.

It is to the latter that I address my remarks, and this bill addresses its attention—economic opportunity. It does little good to afford the best education in the world to our minorities if, indeed, at the end of that time there is no opportunity to apply that education and realize monetary success.

I realize the abuses, as does everyone on this floor, of the 8(a) program. I might add, in the large majority of instances, abuse is not perpetrated by the minority community, but rather by the majority population of this Nation taking advantage of the minorities. Now the cry probably again comes the loudest from the majority: "Do away with the program. See how it was abused."

We are not doing away with the program. We will try to tighten it up as a matter of law as best anything can be tightened up. But in the final analysis, human beings will always administer the law and there will always be opportunity for shinanigans and for chicanery. That is something that neither Senator BUMPERS nor I can legislate against.

So, the product before the Senate today continues the 8(a) program with various features which should make it an even better program.

Mr. President, I am pleased to again join Senator BUMPERS in urging passage of S. 1993, the Minority Business Development Program Reform Act of 1988.

This legislation represents months of hard work, concern, and determination by the committee. I, with my staff, have focused a considerable amount of attention on this bill because of my deep concern for the future and stability of minority business enterprise in this Nation.

Although the number of minority-owned small businesses grew to approximately 850,000 in America as of this past year, the fact remains that the overwhelming majority are still sole proprietorships or mom and pop operations. The 8(a) program, created in the late 1960's, is one of the Government's major avenues for providing business opportunities to the minority population. Nearly 9 billion Federal procurement dollars were awarded to 8(a) program participants over the past 3 fiscal years. Compared to our gargantuan Government procurement pie, this is but a small slice. But, many minority entrepreneurs were able to gain a foothold in the economy, because of the 8(a) program. Discrimination, financial barriers, and other social or economic disadvantages that minority citizens still face on the road to business opportunity are being challenged through this small but very vital program. And I believe, Mr. President, this legislation will put the program on a proper course. I commend Senator BUMPERS for his leadership and commitment to reforming and preserving the 8(a) program. The bill passed in committee by a vote of 19-0, a clear indication that Chairman BUMPERS was able to garner bipartisan support and the active interest of other members.

Mr. President, the troubled history of management problems, failure to meet congressional objectives and mandates and the unfortunate fraud and abuse this program has allowed have become matters of public knowledge and concern. Many of these very serious and frustrating situations were discussed when this legislation was introduced more than 6 months ago. Briefly, the 1986 committee survey of 8(a) graduates, the National Academy of Public Administration, NAPA, report, the extensive investigation of the Wedtech Corp. case conducted by the Governmental Affairs Subcommittee and a myriad of GAO reports and other audits published since the program's inception sent clear signals that certain reforms were needed if the program were to survive. This legislation represents the third time in the last 10 years Congress has made major statutory changes in this program. In developing S. 1993, the committee held a series of hearings and members and staffs have met time and again with a wide range of interested parties. I believe, Mr. President, this input has all served to strengthen and improve the legislation before the Senate today.

Sifting through all that needed to be remedied, the key policy objectives of S. 1993 include the following: First, stressing the program's business development thrust and making procurement contracts a part of that construct, not the major outcome; second, providing SBA with the resources to strengthen the management, technical and/or financial assistance programs under section 7(j); third, requiring large contracts to be awarded to minority firms on a competitive rather than a sole-source basis; fourth, providing a structure to lessen dependence on sole-source contracts which has hurt firms competitive ability upon graduation into the marketplace; fifth, increasing the antiabuse and fraud provisions to protect the program from future "Wedtechs" or other attempts at misuse; and sixth, mandating administrative and personnel reforms at SBA to ensure that congressional policy objectives are achieved.

Mr. President, at this point, I would like to briefly summarize the management changes the bill requires at SBA. For example, the Chief Administrator of the Minority Small Business, MSB, Program must be a career employee, not a political appointee, and one whose qualifications demonstrate knowledge of the Federal procurement process and sound management skills. Thus, when there is a change in administration, operation of the 8(a), program should not be disrupted by partisan politics. To further strengthen management and foster business development from start to finish, a business plan must be developed that contains specific business targets, goals and objectives with continual assessment of success or failure in meeting such targets.

With proposed legislation for stronger and more consistent management at the top, the committee took the necessary steps to shore up middle and support levels of the MSB work force where past performance has been far from satisfactory. The business opportunity specialist, BOS, who usually makes the most frequent contact with firms is charged with administering business development resources targeted in the business plan for growth, and eventual independence, of each participant. S. 1993 mandates proper training and distribution of business opportunity specialists so that they acquire the management and technical skills needed to do their jobs. Moreover, I am pleased to report that the State, Justice, Commerce appropriations bill for fiscal year 1989 has added an additional $4 million to MSB/COD budget to hire additional staffing to beef up the core of professionals needed by SBA. And, I want to commend SBA Administrator James Abdnor for his leadership in this area. Upon his confirmation, our former colleague made 8(a) reform one of his top priorities. He commissioned the National Academy of Public Administration to conduct a 4-month study on SBA's administration of the program. Many of the management provisions incorporated in the bill were endorsed in the NAPA report.

Under this umbrella of business development, S. 1993 includes a number of features that redesign contract activity throughout the program. These provisions generated substantial comments and discussion from 8(a) firms and interest groups. However, I am confident that the committee's response established a framework for fair awarding of contracts to firms—a source of great controversy and criticism for this program. One such provision is the injection of competition among participants for large dollar contracts. No longer will contracts above $5 million be awarded on a sole-source basis; where there are two or more eligible 8(a) firms, competition will be the rule. The committee views this change as an opportunity for firms to experience competitive bidding while in the program, and also, protection against the awarding of contracts through political influence or payoffs as disclosed in the Wedtech case and others reported by GAO.

Another provision requires each firm to develop a "business mix" of competitive and noncompetitive awards. At the end of the fifth year of participation, a firm should have garnered at least 30 percent of its new sales from competitive awards in that year. For the seventh year, the percentage of competitive new sales should be at least 50 percent, with the goal, at the time of graduation, being set at 70 percent non-sole-source. If an 8(a) firm fails to meet these mix requirements, it will no longer be eligible to receive sole source 8(a) contracts until compliance is achieved.

Mr. President, throughout this legislation a number of new concepts are introduced, old provisions strengthened and ineffective ones eliminated. The certification process has been streamlined and set in a definite timeframe of 90 days and rejected applicants are granted appeal rights; all participants are given a period of 8 years in the program from the time of the first 8(a) award which removes the uncertainty of the old fixed program participation term which drew constant complaints from participants who felt it was unjustly administered; and business development expense [BDE] is eliminated from the program and replaced by a bid and proposal fund to help defray competitive bidding costs and a direct loan program which makes moneys available to participants at 2 percentage points below Government loan interest rates. In summary, the committee has completed a very thorough and necessary overhaul of this program, and I am very pleased with the outcome.

I urge my colleagues to support passage of the bill.

I hope that it will not only continue but it will receive the enthusiastic and honest leadership by the executive branch of Government that is demanded by the situation.

Mr. WALLOP. Mr. President, although it has not received the attention of many other bills Congress has grappled with this session, reform of the Small Business Administration's 8(a) program is one of the most important tasks facing Congress. S. 1993, the bill we have before us today, will correct some of the most egregious flaws in the program made so glaringly apparent by the Wedtech case.

My home State of Wyoming only has a handful of 8(a) firms—three to be exact—but we will still reap some benefits from the changes made by S. 1993. Wyoming's small business community, which has been affected by the downslide in the energy economy of the State, has been very concerned about the 8(a) set-aside program. This is because any minority contract awarded in the State inevitably goes to an out-of-State firm since we have so very few eligible 8(a) firms.

In times of economic hardship, my State's small businesses understandably see this as little more than thousands and thousands of dollars flowing to out-of-State businesses, even though many Wyoming firms may be ready, willing, and able to perform any given Federal contract. It's a simple matter of those Wyoming firms wanting the ability to competitively bid on all contracts taking place in their own backyard.

Permit me to cite an example. In 1986, the Veterans' Administration Medical Center in Cheyenne announced plans to begin construction on a 2-year $14.4 million addition to its facilities. Because none of Wyoming's minority firms could handle the work, the VA intended to negotiate a contract with an 8(a) firm in Utah. Frankly, the prospect that no Wyoming company was going to get $1 out of a contract taking place in Wyoming just didn't set right with the small business community, particularly since the firm in question was just about ready to graduate from the 8(a) program and would likely have been able to bid for the project on a competitive basis. At the insistence of the Wyoming congressional delegation, the VA rethought its decision and ultimately permitted the bid to be let competitively.

S. 1993 will help correct some of the problems like the one we experienced with the VA in Cheyenne. It requires 8(a) businesses, as they go through the program, to rely increasingly on non-8(a) work. This greater independence from 8(a) will enable them to be more competitive in the business marketplace. The legislation mandates that 8(a) firms graduate from the program at a fixed time of 8 years, with no extensions permitted. One of the major problems plaguing the program is that minority businesses, through the use of extensions, stay in the program 2, 4 or more years beyond the 7 years now provided for in the law.

The measure also states that any minority business that becomes successful enough to no longer be classified as disadvantaged will be terminated from the 8(a) program no matter how many years it has left to participate. Finally, the bill also permits a firm's eligibility to continue in the 8(a) program to be challenged prior to the award of an 8(a) contract.

This bill will certainly help correct some of the major abuses that have plagued the 8(a) program over the years. This should benefit all small businesses that seek to competitively bid on Federal contracts. Despite this, I will continue to keep a watchful eye on the program to ensure that Wyoming's small businesses are not adversely impacted by projects that are set-aside as 8(a) in the State. While the minority set-aside program is a good one, it should not be conducted at the expense of small businesses which must bid competitively for Federal contract dollars.

Mr. WEICKER. Mr. President, the leadership that Senator BUMPERS has provided to the small business community and to the Small Business Committee is something to be really envied by all of us. This is a very tough problem that he tackled. The easy thing would have been to look the other way and say, "Well, this all occurred under Republicans." There has never been a single piece of partisanship to come from this Democratic chairman of the committee. He saw a problem which, if handled in a political way, could only hurt those who need our special help, the minority community of our Nation. He never politicized it but came forth with an affirmative response to make a good program better. I thank both he and his staff for the efforts they have put in on this legislation. Needless to say, I also have a great amount of pride in my own staff for their work.

Mr. BUMPERS. Mr. President, I certainly would be remiss if I did not respond in kind to the very kind and charitable remarks of the Senator from Connecticut and say in all candor that, incidentally, I had served as ranking member during 3 of the 6 years of the chairmanship of Senator WEICKER, and we resolved every single problem amicably and, as he has pointed out, in a very bipartisan way and without thought to any partisanship. When I became chairman of this committee, my first thought was to torpedo the 8(a) program and give up on it. It was rife with abuse by an inefficient administration which had allowed people to take advantage of the program. And it was Senator WEICKER who said he thought the program was salvageable and that we ought to salvage it; that the concept was good and let us sit down and work together to see if we cannot come up with a bill which will accomplish what we want to accomplish and go as far as we can possibly go in eliminating the kinds of abuses to which the program had been subjected. His thoughts on it were so clear minded and he was so convincing I agreed to do that, and we started holding hearings. The bill we have before the Senate today is a product of the bipartisan effort we put forward. It was under his leadership and his guidance really that we decided to try to salvage the program.

I know most committee chairmen and ranking members in this body have a good working relationship, but I can tell you that the working relationship between Senator WEICKER and me could not be better. We do not have a lot of legislative authority in the Small Business Committee, but what we have we think is very important to the small business community in this country. We could not have a better working relationship.

With that, Mr. President, I move that the committee amendments be considered en bloc and agreed to en bloc.

The PRESIDING OFFICER. Does the Senator from Arkansas include in his motion that the bill, as amended, be considered as original text for purpose of amendment?

Mr. BUMPERS. I do. I apologize, Mr. President. I do ask that the bill be considered as original text for purposes of amendment.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Arkansas.

The motion was agreed to.

AMENDMENT NO. 2512

(Purpose: To perfect various provisions of the reported committee amendment)

Mr. BUMPERS. Mr. President, I send a technical amendment to the desk.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Arkansas [Mr. Bumpers] for himself and Mr. Weicker proposes an amendment numbered 2512.

Mr. BUMPERS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In section 204 of the Committee amendment, in the proposed section 7(j)(10)(I) of the Small Business Act—

(1) in the second sentence, strike "deems" and insert ", or a designee of such officer, determines";

(2) in the second sentence, after "15 days" insert "after making such a determination"; and

(3) in the second sentence, "60 days" and insert "90 days".

In section 205 of the Committee amendment, in the proposed section 7(j)(10)(J)(ii) of the Small Business Act, strike "shall initiate" and insert "may initiate".

In section 403 of the Committee amendment, in the proposed section 8(a)(17)(A) of the Small Business Act, strike "the concern" and insert "any concern".

In section 722 of the Committee amendment, strike the second sentence and insert in lieu the following: "any numerical size standard that pertains to any of the designated industry groups, and that is in effect on September 30, 1988, shall remain in effect for the duration of the Program, except for the size standard pertaining to standard industrial classification code 1629 (Dredging and Surface Cleanup Activities)."

Mr. BUMPERS. Mr. President, since the committee markup of S. 1993, staff discussions with officials of the Small Business Administration have raised concerns about various provisions of the bill. This committee floor amendment addresses issues raised by those discussions and makes essentially technical modifications and clarifications in several provisions of the bill.

First, section 204 of the bill prescribes the timing for various events relating to the termination of firms from the 8(a) program. It states that when the Associate Administrator for the Minority Small Business Program deems a termination is appropriate, within 15 days notice shall be provided to the program participant of SBA's intent to terminate and, not more than 60 days after the program participant's receipt of the notice, a termination hearing will be held. The committee amendment extends the time for beginning a hearing from 60 days to 90 days at the request of SBA program officials. This extension of the time before a hearing should allow the firm an opportunity to respond to the notice setting forth the grounds for termination, and if possible to correct problems which may be the cause for the termination. Further, the amendment clarifies that the Associate Adminstrator or his designee may determine that a termination is appropriate and the 15-day notice requirement begins with that determination.

Second, section 205 of the bill states that the SBA shall commence termination proceedings whenever it makes a finding that a program participant is no longer eligible for the program. While the committee intends that SBA move expeditiously to remove firms that are no longer eligible for the program, a formalistic reading of this provision could require SBA to begin the termination process even though a firm corrects the problems leading to the finding that is no longer qualified for the program. The committee amendment replaces the word "shall" with "may" to clarify SBA's discretion. The committee does not expect SBA to initiate termination proceedings, which may involve considerable expense, particularly if the firm is able to correct the deficiency in its eligibility before the time for the hearing expires.

Under section 403 of the bill relating to award of contracts under the program, the bill states that SBA should make the award to the small business concern recommended by the procuring agency. As drafted the provision could be interpreted to mean that only one concern could be designated for an award, or that the procuring agencies usually recommend only one concern to receive an award. The committee amendment changes the word "the" to "any" concern recommended by the procuring agency. This change is intended to clarify that awards can be made to one or to several concerns, for example, in cases where a multiple or split awards may be recommended by the procuring agency.

Finally, the committee amendment makes a crucial change with regard to the freeze on size standards included in the small business Competitiveness Demonstration Program, which was offered as an amendment by Senator Dixon during the markup. A principal part of this program which suspends small business set-aside contracts for 4 years provided that certain conditions are met, is the notion that size standards should remain at present levels for the duration of the experimental program.

When the amendment was drafted, however, both staff and members of the committee were unaware that there was in progress a major revision in the size standard for the dredging industry, which is one of the four affected industries. In fact, SBA now has pending with OMB an increase in that standard from $9.5 to $13.5 million in average annual revenues. This change has long been sought by small- and medium-sized dredging companies. SBA proposed a similar rule a few years ago which resulted in litigation, and the case was remanded to the Administration for further consideration. SBA has now given that further consideration, and the new rule is awaiting clearance from the Office of Management and Budget for publication in the Federal Register.

It was not my intent, and I do not believe it was Senator Dixon's intent, to interfere with an ongoing regulatory proceeding. However, the bill as drafted does that by freezing size standards at their effective levels as of May 31, 1988. The committee amendment changes that date to September 30, and it exempts dredging from this freeze so that this longstanding regulatory process with respect to this industry may be completed. Again, any interference with this process would have been purely inadvertent insofar as the committee is concerned, and it is essential that we adopt this amendment to avoid unfairly trouncing on the regulatory proceeding.

Mr. President, I urge adoption of the amendment.

The PRESIDING OFFICER. Do both Senators yield back the remainder of their time?

Mr. WEICKER. I yield back the remainder of my time.

Mr. BUMPERS. I yield back the remainder of my time.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Arkansas.

The amendment (No. 2512) was agreed to.

Mr. WEICKER. I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2513

(Purpose: To require the Small Business Administration to conduct a study and make a report within 1 year to the Committees on Small Business relating to the severely uneven distribution of 8(a) contract awards among Program Participants in the several States)

Mr. BUMPERS. Mr. President, under the unanimous-consent agreement, we have several amendments. I do not see any of the sponsors of those amendments here so I will go ahead and offer an amendment that I have which is based on the geographical distribution of the contracts that are let under section 8(a). Mr. President, I send this amendment to the desk.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Arkansas [Mr. BUMPERS] proposes an amendment numbered 2513.

Mr. BUMPERS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of title IV, add the following:

SEC. 406. STUDY OF DISTRIBUTION OF CONTRACT AWARDS.

(a) FINDING.—The Congress finds that contracting opportunities under section 8(a) of the Small Business Act have been awarded to Program Participants in a manner that has resulted in firms in certain States receiving very large numbers of contract awards, aggregating to a very high percentage of the total dollars awarded in each fiscal year. Such a pattern of uneven distribution of contract awards results in Program Participants in the majority of the States receiving substantially fewer contract awards, and commensurately fewer of the business development opportunities provided by the contract awards made under the authority of section 8(a).

(b) STUDY AND REPORT.—The Small Business Administration is directed to conduct a study of the geographic distribution of contract awards made pursuant to section 8(a) during fiscal year 1983 through fiscal year 1987. Within 1 year from the date of enactment of this Act, the Small Business Administration shall furnish a report on the results of its study to the Committees on Small Business of the Senate and the House of Representatives. The report shall include appropriate recommendations for changes in law, regulations, or practices to effect a more equitable distribution of 8(a) contracting opportunities among Program Participants in States having significant minority business populations.

(c) POLICY DIRECTION.—Section 8(a)(10) of the Small Business Act (15 U.S.C. 637(a)(10)) is amended by adding at the end thereof the following: "In carrying out such program, the Administration shall make a sustained and substantial effort to solicit applications for Program certification from small business concerns located in areas of concentrated unemployment or underemployment or within labor surplus areas and within States having relatively few Program Participants or receiving relatively few contract awards under the authority of this subsection.".

At the end of title IV in the table of contents, add the following:

Sec. 406. Study of distribution of contract awards.

Mr. BUMPERS. Mr. President, the amendment which I have just submitted concerns a very important issue which is not directly addressed in S. 1993 but which conerns me greatly. I would call Senators' attention to appendix B to our committee's report, which shows the distribution of sole-source contracts under section 8(a) of the Small Business Act, by State, for fiscal year 1987.

This data was just recently supplied to me by the Small Business Administration. It does not reflect modifications to existing contracts, but merely shows the number and dollar value of new contracts entered into in each State and territory during 1987. As the report indicates in another section, this is approximately a $3 billion program in total annual contracts. Of that total dollar value, three States—California, Maryland, and Virginia—received over $779 million in contracts. My home State of Arkansas received 76 contracts totaling only $20.4 million. Other States, however, did even worse than Arkansas. Mississippi, for example, had only 40 contracts for $14.6 million. Senator WEICKER's State, Connecticut, which is somewhat larger than Arkansas, received only 31 contracts for $21.9 million.

The District of Columbia, on the other hand, which is about one-fourth the size of Arkansas in population, received 259 contracts totaling $74.1 million. Maryland enjoyed 350 sole-source contracts under section 8(a) for a total of $203.5 million, while Virginia's 567 8(a) contracts totaled $276.6 million. This amendment is not intended to punish those States.

Mr. President, this program is not intended as a supplemental appropriation for the benefit of two or three States. The matter of contract distribution is, I must admit, quite complicated. The program works primarily through self-marketing, and the 8(a) firms in the Washington area are to be commended for their aggressive efforts in marketing their products and services so successfully to the Government through this program. In my view, however, the Small Business Administration must take strong action to broaden participation in the 8(a) program and to make more equitable distribution of contracts across the country, or congressional support for this program will soon become a thing of the past.

My amendment does three things. First, it states a congressional finding that the distribution of contracting opportunities under this program has been very uneven on a State-by-State basis. Second, it directs SBA to conduct a study and submit a report to the House and Senate Small Business Committees on options and legislative recommendations for bringing about a more equitable distribution of contracting opportunities among 8(a) firms in the several States. Finally, my amendment takes a provision in the House bill, and expands upon it somewhat, by directing that SBA make substantial outreach efforts to increase the numbers of 8(a) certified firms in areas of high unemployment and underemployment, and in areas where there are presently few 8(a) firms and few contracting opportunities in relation to the rest of the country.

Finally, my amendment takes a provision in the House bill and expands on it somewhat which directs that SBA make substantial outreach efforts to increase the numbers of 8(a) certified firms in areas of high unemployment and underemployment and in areas where there are presently few 8(a) firms and few contracting opportunities in relation to the rest of the country.

Mr. DIXON. Will my friend from Arkansas yield for a moment?

Mr. BUMPERS. I am happy to yield.

Mr. DIXON. Mr. President, I ask unanimous consent that Scott McFerren be permitted the privileges of the floor in connection with this legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BUMPERS. Mr. President, I urge adoption of the amendment.

The PRESIDING OFFICER. Do both leaders yield back their time?

Mr. BUMPERS. I yield back the remainder of my time.

Mr. WEICKER. I yield back the remainder of my time.

The PRESIDING OFFICER (Mr. INOUYE). The question is on agreeing to the amendment of the Senator from Arkansas [Mr. BUMPERS].

The amendment (No. 2513) was agreed to.

Mr. WEICKER. I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BUMPERS. Mr. President, we have several amendments here by various Senators. Senator DIXON is here and he has an amendment.

Mr. DIXON. Mr. President, I commend my friends, Senator BUMPERS, chairman of the Small Business Committee, and Senator WEICKER, ranking member of the committee, for their leadership in improving the Minority Small Business and Capital Ownership Development Program. The bill we are considering today reflects several year's worth of hard work and dedication on their part, to examine the 8(a) minority program and institute improvements to it which will promote the development of healthy, viable minority businesses.

Results of the committee's survey of 8(a) program graduates, and testimony given at subsequent hearings, clearly indicate that legislative reforms must be undertaken. The program as it currently operates has left too many "just graduated" minority firms unprepared for the rigors of competition. Thus, it should come as no surprise, Mr. President, that this major reform bill is primarily focused on helping minority businesses to move into the economic mainstream within a reasonable period of time.

Education and counseling are essential ingredients in business development. This bill assures that Small Business Administration business opportunity specialists are available to provide these important development tools. It contains provisions which encourage participating companies to develop additional sources of revenues outside the 8(a) program, a process which will undoubtedly contribute significantly to the education of these companies, and prepare them for graduation.
